XEROGRAPHIC CARTRIDGE AND PRINTER TONER CARTRIDGE WARRANTY

Xerox Product Warranties for Copy Cartridges are extended only to customers who purchase these supplies directly from Xerox or an authorized Xerox Dealer, Distributor or Agent. Xerox guarantees Copy Cartridges for the products noted below against defects in materials or workmanship. If the Copy Cartridge fails or if copies do not meet Xerox quality standards at any time up to the reorder point, Xerox will repair the cartridge or replace it with a suitable Copy Cartridge so that the customer receives from the failed cartridge and the replacement cartridge together the total expected number of copies for the failed cartridge at no additional charge.

Cartridges that fail after the reorder point are considered to have been fully expended, and no warranty adjustment will be made on these cartridges. In addition, to enhance print quality, Xerox has designed the cartridge used in certain equipment models to cease functioning at a predetermined point. For products with highlight color - black or single color copies activate the copy cartridge meter one time. Black plus color or multiple originals merged onto one document (overlay) activate the meter each time a developer housing is engaged; e.g. black copy with red highlight color equals two copy cartridge meter counts.
