Indiana®
FURNITURE

Clearly Green

level®, BIFMA's sustainability certification program for furniture, is a comprehensive and transparent third-party certification program. The level mark attests that the product, the manufacturing facility, and the company responsible for the product brand, have been evaluated against the multi-attribute criteria of the ANSI/BIFMA e3 Furniture Sustainability Standard. Products certified under the level program can be chosen with confidence. All Indiana Furniture casegoods and seating solutions are BIFMA level® 2 Certified.

A number of Indiana Furniture products have achieved Intertek's ETL Environmental VOC Certification and are recognized as products that safeguard indoor air quality. The certification — which extends to Elevate, Gesso, Revolutions, Madera, Resilience, Canvas, all Conference, Reception and Seating solutions, demonstrates that Indiana Furniture's products conform to the ANSI/BIFMA Furniture Emissions Standards (M7.1/X7.1-2011) for Office Furniture Systems and Components. They also earn points for LEED Credit 4.5.

Once cured by UV lighting, our UVAdvantage® finish does not emit irritable toxins, formaldehyde, or solvents into the air creating safe work environments within new furniture installations. This has allowed us to earn Indoor Air Quality Certification Certification on our products with UVAdvantage finish. Our UVAdvantage finish process greatly reduces hazardous air pollutants which contribute to smog formation. Excess UV finish is recaptured over and over again reducing waste material within our facilities.

Forest Stewardship Council® (FSC®) Chain-of-Custody(CoC) Certification is an assurance that wood based materials used in products come from forests that meet stringent environmental, social, and economic standards. It is the path taken by raw materials from the forest to the consumer, including all successive stages of harvesting, processing, manufacturing and distribution. Only products from FSC CoC companies can claim the FSC designation, assurance of a socially and environmentally responsible purchasing decision. FSC CoC Certification is recognized by the U.S. Green Building Council's (USGBC) LEED Rating System for environmentally focused design. From a customer perspective, the FSC label represents a promise made; CoC standards are the mechanism FSC uses to ensure that promise is delivered. Indiana Furniture has been awarded FSC CoC Certification, by GFA Certification GmbH, an independent third-party accredited by the FSC to certify companies to their international standards. The certification (certificate number GFA-COC-002183; license code FSC-C110951) is available on most Indiana Furniture products.

NOTES

WARRANTY

Subject to the limitations set forth in this warranty, Indiana Furniture Industries, Inc. (**"Indiana Furniture"**) warrants to the original purchaser all product in this price list (**"Product"**) to be free from defects in material and workmanship given normal use for a twelve year period from the date of manufacture. During the applicable warranty period, Indiana Furniture, as its sole obligation, will repair or replace (in Indiana Furniture's sole discretion) any Product, part , or component covered by this warranty and sold after March 1, 2016, which fails under normal use as a result of a defect in material or workmanship. Normal use is defined as the equivalent of a single shift, 40-hour work week. Indiana Furniture will repair or replace the defective Product, part, or component with a comparable Product, part or component.

Warranty periods are limited for certain Products and parts as follows:

12-year Warranty (from the date of manufacture)

- Seating Mechanisms
- Veneers
- Laminates
- Casters and Glides

5-year Warranty (from the date of manufacture)

- Triple Play Series
- Electrical Components
- Pneumatic Cylinders
- Textiles, Foam, and Decorative Trim
- Swivel Arm Pads
- Keyboard kits
- Lighting

2-year Warranty (from the date of manufacture)

- All Sit-To-Stand Mechanisms

THIS WARRANTY DOES NOT COVER:

- Damage caused by a carrier or third party
- Normal or routine wear and tear
- Appearance, durability, quality, behavior, colorfastness or any other attribute of customer's own materials or any non-standard Indiana Furniture material (including Maharam, Momentum, Mayer, UltraFabrics) specified by the customer and applied to a Product
- Color, grain or texture of wood, laminate and other covering materials
- Changes in wood or fabric color due to aging or exposure to light

As the manufacturer of the Product, Indiana Furniture stands behind its craftsmanship and pledges to do everything it can to reasonably resolve, as quickly as possible, any problems you may have with the Product within the terms and conditions of this warranty.

If you encounter a defect covered by the foregoing warranty, you should contact the dealer from whom you purchased the Product. If the dealer is unable to resolve your warranty issues, you should contact Indiana Furniture. Please ensure that you have all of the pertinent facts when contacting the dealer or Indiana Furniture, including the model number and factory order number from the inspection label attached to the Product.

INDIANA FURNITURE IS NOT PROVIDING, AND SPECIFICALLY DISCLAIMS, ANY OTHER WARRANTIES FOR THE PRODUCTS, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. INDIANA FURNITURE SHALL NOT BE LIABLE TO PURCHASER OR ANY THIRD PARTY FOR CONSEQUENTIAL, INCIDENTAL, INDIRECT OR SPECIAL DAMAGES, INCLUDING, WITHOUT LIMITATION, DAMAGES ARISING OUT OF OR RESULTING IN ANY MALFUNCTIONS, DELAYS, LOSS OF PROFIT, INTERRUPTION OF BUSINESS, PERSONAL INJURY, BODILY INJURY, DEATH, DISMEMBERMENT, OR PROPERTY DAMAGE.

Casegoods Collection

How to Order

MODEL NO.	DESCRIPTION	
11-3672BDP	Finish	LW
	Top Surface	P
	Edge	X
	Pull	NBT

All options must be labeled and specified.

Specifications

VENEER

Exposed surfaces feature select grade sliced American Black Walnut hardwood veneers carefully selected and matched to assure proper balance and consistency.

TOPS

Wood veneer worksurfaces are 5-ply balanced construction, 1" thick with solid hardwood rims. High pressure laminate worksurfaces are 3-ply balanced construction, 1" thick with solid hardwood rims. Worksurfaces feature shaped edge profiles on all four sides. Grain direction runs left to right unless noted.

CHASSIS CONSTRUCTION

Veneer chassis are fastened by screws, glue, and metal fasteners to assure maximum strength. Units feature finished backs unless noted. Units ship assembled. All units ship with leveling glides.

DRAWERS

All drawer fronts are standard with matched wood grain faces. Fronts are 3-ply construction and ¾" thick. Drawer sides and backs are wood-grain vinyl wrapped, ½" thick. Box and file drawers have ⅛" thick hardboard bottoms. Lateral file drawers feature ¼" thick hardboard bottoms. Drawers feature 5-sided construction allowing for easy removal of drawer fronts.

DRAWERS SUSPENSIONS

File drawers have full extension, telescopic action slides with precision steel ball bearings. Box drawers have ¾" extension nylon roller suspensions. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with filing systems designed to accommodate a variety of filing requirements. Letter width file drawers provide letter filing front to back, and letter or legal filing side to side.

LOCKING

All desks, credenzas, and lateral files feature locking file drawers. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units ship randomly keyed as standard.

CORD MANAGEMENT

Route power and data cables away from the worksurface through inherent grommet placement. Black grommets are standard in back panels of assembled returns, bridge units, kneespace credenzas, and hutch units. A grommet is standard in tops of corner units. Grommets may be ordered in the tops of desks, returns, bridge units, credenzas, and component worksurfaces. See page 12 for all optional grommet locations.

Undersurface tracks are available for additional cord management. Silver grommets are also available. See Accessories.

FINISH

The multi–step finish process used by Indiana Furniture provides years of lasting beauty. High quality finish materials offer distinctive grain clarity, superior resistance to normal wear, and ease of maintenance.

MODEL NO.	DESCRIPTION	
68-3672BDP	Chassis	TK
	Top Surface	T
	Top Color	WH
	Profile	F
	Drawer Front	WH
	Pull	AAC

All options must be labeled and specified.

Specifications

level 2

LAMINATES

Exposed surfaces are produced from wood grained and solid color laminates fused to a particle-board core. Each laminate offers lasting beauty, superior resistance to normal wear, and easy maintenance. Eight textured laminates are included in the color palette.

TOPS

Tops are 1" thick thermally-fused laminate (TFL) or high pressure laminate using 3mm PVC rims or profiled edges and 1 mm PVC rims on self edges. Grain direction runs left to right unless noted.

CHASSIS CONSTRUCTION

TFL chassis are fastened by screws, glue, and heavy-duty metal fasteners assuring maximum strength. Units ship assembled unless noted. All units ship with leveling glides. All desks, non-lateral credenzas, and returns have wire management access from pedestal to kneespace.

DRAWERS

All drawer fronts are 3-ply construction, ¾" thick with matched grain. Drawer sides, back, and front are wood grain vinyl wrapped, ½" thick. Box and file drawers have ⅛" thick hardboard bottoms. Lateral file drawers feature ¼" thick bottoms. 5-sided drawer construction allows for easy removal of drawer fronts.

DRAWER SUSPENSIONS

Box and file drawers have full extension, progressive action slides with precision steel ball bearings. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with filing systems designed to accommodate a variety of filing requirements. Letter width file drawers provide letter filing front to back, and letter or legal filing side to side. Lateral file drawers provide legal or letter filing front to back or side to side.

LOCKING

All desks, credenzas, returns, and files feature standard locking. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units ship randomly keyed as standard. Lock cores match pull color.

CORD MANAGEMENT

Route power and data cables away from the worksurface through inherent grommet placement. Grommets may be ordered in the tops of all assembled desks, returns, bridges, credenzas, and component worksurfaces. All desks, returns, and credenzas (except lateral pedestals) have standard wire openings from inside the pedestal to the kneespace allowing quick access to technology below. Additionally, returns, bridge units, kneespace credenzas, and hutch units have standard grommets available in backpanels. Grommets are also standard in the tops of corner units and extended corner units. See page 35 for all optional grommet locations.

Undersurface tracks are available for additional cord management. Silver grommets are also available. See Accessories.

Laminate Options

STANDARD TFL (T) OR HPL (P) TOPS – MUST SPECIFY

Designer White WH | Sugar Maple* SM | New Age Oak OK | Light Maple* LM | Studio Teak TK | Golden Cherry GC | Zanzibar* ZB | Williamsburg Cherry* WC | Slate Grey SG

GROMMET LOCATIONS

Grommets are standard in the back panels of returns, bridges, and credenzas. These units may be ordered without grommets at no additional charge. Please specify "NO GROMMET" on order.

Grommets are available on hutches in standard locations for tasklight management at no additional charge. Please specify HUGRMT.

Desk grommets are available in standard locations. Please specify and add an upcharge of $47 list for each grommet.

Specify grommet locations.
GL - Grommet Left
GC - Grommet Center
GR - Grommet Right

Example: 66-3672DP-GL-GR (Grommet Left, Grommet Right)

Grommets may be ordered in non-standard locations. Please call Customer Service to assist with how to order and additional lead time requirements.

LOCKING HUTCH DOORS

Locking doors are available on solid panel hinged doors.

Size		List Upcharge
30" - 42"	=	$56.00
48" - 78"	=	$69.00
84" - 108"	=	$82.00

Sit-To-Stand Mechanisms

Electric powered sit-to-stand mechanisms are offered on select units as noted. Sit-to-stand mechanisms come factory installed and must be specified at the time of order.

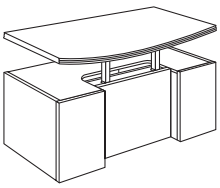
Please note, optional modesty panels and kneespace options are not available with the sit-to-stand mechanism.

2 year warranty. Add 100 lbs. to shipping weight.

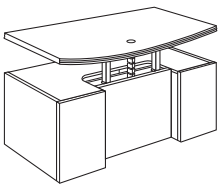
Specify STS and add an upcharge of $3429 list for each sit-to-stand.

Description

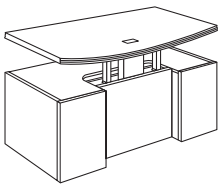
- Maximum height is 42″
- Load capacity is recommended at a safe 50 lbs; weight distribution is key to capacity
- Safety stop at 2” above the work surface prevents pinches
- Sit-to-stand mechanisms reduce the kneespace depth by 9.5″
- Bridges, returns and credenzas will not have a standard grommet on back panel



Sit-to-Stand



Sit-to-Stand w/Vertebrae



Sit-to-Stand w/Box

How to Order

MODEL NO.	DESCRIPTION	
40-3672DP	Finish	EW
	Top Surface	W
	Accent	SLV
	Pull	ABR

All options must be labeled and specified.

Specifications

VENEER

Exposed surfaces feature select grade sliced hardwood veneers in Cherry, Maple, or American Black Walnut. Veneers are carefully selected and matched to assure proper balance and consistency.

TOPS

Tops are 3-ply balanced construction and ¾" thick combined with a ½" thick sub-top to create the Elevate edge detail. Grain direction runs left to right unless otherwise noted.

CHASSIS CONSTRUCTION

Tops and end panels are securely fastened using high quality fastening systems to assure maximum strength. All units are equipped with heavy-duty, adjustable glides to ensure proper leveling and compensation for uneven floors. All units have finished backs unless noted. All desks, non-lateral credenzas, and returns have wire management access from pedestal to kneespace.

DRAWERS

All drawer fronts are standard with elegant veneer faces. Fronts are 3-ply construction ¾" thick and vertically matched in sets. Drawer interiors are constructed with wood grain vinyl wrapped sides, ½" thick. Box and file drawers have ⅛" thick hardboard bottoms. Lateral file drawers feature ¼" thick bottoms. 5-sided drawer construction allows for easy removal of drawer fronts.

DRAWER SUSPENSIONS

All drawers feature full extension, progressive action slides with precision steel ball bearings. Box and file drawers are tested for 100 lb capacity. Lateral files are tested for 150 lb capacity. Self-closing suspension tracks are optional on box and file drawers. All suspensions have a limited life-time warranty.

FILING HARDWARE

All file drawers are standard with filing systems designed to accommodate a variety of filing requirements. Fully constructed units have letter width file drawers which provide letter filing front to back and letter or legal filing side to side. Component pedestals provide letter filing front to back and legal filing side to side. Lateral file drawers provide legal or letter filing front to back or side to side.

LOCKING

All desks, credenzas, and lateral files feature locking in black or silver to match the pulls. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard. Lock cores match pull color.

CORD MANAGEMENT

Route power and data cables away from the worksurface through inherent grommet placement. Grommets may be ordered in the tops of all assembled desks, returns, bridges, credenzas, and component worksurfaces. All desks, returns, and credenzas (except lateral pedestals) have standard wire openings from inside the pedestal to the kneespace allowing quick access to technology below. Additionally, returns, bridge units, kneespace credenzas, and hutch units have standard grommets available in backpanels. Grommets are also standard in the tops of corner units and extended corner units. See page 102 for all optional grommet locations.

Undersurface tracks are available for additional cord management. Silver grommets are also available. See Accessories.

FINISH

Elevate features Ultra-Violet matte finish on all exposed surfaces by utilizing roll-coat UV technology. Our durable UVAdvantage® finish makes surfaces less likely to be damaged by abrasions, scratches, water, alcohol, stains, and common chemicals. Our UVAdvantage® finish magnifies the beauty of our wood finishes and reduces the darkening, aging, and yellowing process of wood furniture that naturally occurs over time. Once cured by UV lighting, our UVAdvantage® finish does not emit irritable toxins, formaldehyde, or solvents into the air creating a safe work environment within new furniture installations. This process has allowed us to achieve third party certification for Indoor Air Quality. Additionally our UVAdvantage® finish greatly reduces hazardous air pollutants which contribute to smog formation, and our UVAdvantage® finish is recaptured over and over again reducing waste materials. Automated production technology eliminates exposure to sprayed chemicals in our factories. High gloss UVAdvantage® finish available on request.

Casegoods Collection

How to Order

MODEL NO.	DESCRIPTION	
57-3672DP	Finish	AC
	Top Surface	W
	Edge	A
	Pull	BBU

All options must be labeled and specified.

Specifications

VENEER

Exposed surfaces feature select grade sliced Cherry, Maple, and American Black Walnut hardwood veneers carefully selected and matched to assure proper balance and consistency.

TOPS

Wood veneer tops are 5-ply balanced construction and 1 5/32" thick. High pressure laminate tops are 3-ply balanced construction and 1 5/32" thick. Grain direction runs left to right unless noted.

CHASSIS CONSTRUCTION

Veneer chassis are fastened by screws, glue, and heavy-duty metal fasteners assuring maximum strength. All units have full modesty panels. Units feature finished backs unless noted. Units ship assembled. All units ship with leveling glides.

DRAWERS

All drawer fronts are 3-ply construction, ¾" thick with matched wood grain. Drawer sides, back and front are wood grain vinyl wrapped, ½" thick. Box and file drawers have ⅛" thick hardboard bottoms. Lateral file drawers feature ¼" thick bottoms. 5-sided drawer construction allows for easy removal of drawer fronts.

DRAWER SUSPENSIONS

Box and file drawers have full extension, progressive action slides with precision steel ball bearings. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with filing systems designed to accommodate a variety of filing requirements. Letter width file drawers provide letter filing front to back, and letter or legal filing side to side. Lateral file drawers provide legal or letter filing front to back or side to side.

LOCKING

All desks, credenzas, returns, and files feature standard locking. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units ship randomly keyed as standard.

CORD MANAGEMENT

Route power and data cables away from the worksurface through inherent grommet placement. Black grommets are standard in back panels of assembled returns, bridge units, kneespace credenzas, and hutch units. A grommet is standard in tops of corner units. Grommets may be ordered in the tops of desks, returns, bridge units, credenzas, and component worksurfaces. See page 148 for all optional grommet locations.

Undersurface tracks are available for additional cord management. Silver grommets are also available. See Accessories.

FINISH

The multi–step finish process used by Indiana Furniture provides years of lasting beauty. High quality finish materials offer distinctive grain clarity, superior resistance to normal wear, and ease of maintenance.

How to Order

MODEL NO.	DESCRIPTION	
67-3672DP	Finish	AW
	Top Surface	W
	Profile	F
	Pull	AAC

All options must be labeled and specified.

Specifications

VENEER

Exposed surfaces feature select grade sliced hardwood veneers in Cherry, Maple, American Black Walnut, or composite veneers of Walnut and Wenge. Veneers are carefully selected and matched to assure proper balance and consistency.

TOPS

Veneer and high pressure laminate tops are 3-ply balanced construction and 1-3⁄16" thick, with 3 mm wood edge-banded rims contoured to the selected profile. Tops are shaped on user and approach sides. Grain direction runs left to right unless otherwise noted in the item description.

CHASSIS CONSTRUCTION

Chassis is securely fastened using high quality European fastening systems and heavy-duty, 16-gauge joining brackets to assure maximum strength. Units ship assembled unless otherwise noted. All units ship with heavy-duty, adjustable leveling glides to ensure proper leveling and compensation for uneven floors.

DRAWERS

All drawer fronts are 3-ply construction ¾" thick, with vertically matched grain in sets. Drawer sides, back, and front are wood grain vinyl wrapped, ½" thick. Box and file drawers have ⅛" thick hardboard bottoms. Lateral file drawers feature ¼" thick bottoms for maximum storage strength. 5-sided drawer construction allows for easy removal of drawer fronts.

DRAWER SUSPENSION

Box and file drawers have full extension, progressive action slides with precision steel ball bearings. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with filing systems designed to accommodate a variety of filing requirements. Letter width file drawers provide letter filing front to back, and letter or legal filing side to side. Lateral file drawers provide legal or letter filing front to back or side to side.

LOCKING

All desks, credenzas, returns, and files feature standard locking. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units ship randomly keyed. Lock cores match pull color.

CORD MANAGEMENT

Route power and data cables away from the worksurface through inherent grommet placement. Grommets may be ordered in the tops of all assembled desks, returns, bridges, credenzas, and component worksurfaces. All desks, returns, and credenzas (except lateral pedestals) have standard wire openings from inside the pedestal to the kneespace allowing quick access to technology below. Additionally, returns, bridge units, kneespace credenzas, and hutch units have standard grommets available in backpanels. Grommets are also standard in the tops of corner units and extended corner units. See page 183 for all optional grommet locations.

Undersurface tracks are available for additional cord management. Silver grommets are also available. See Accessories.

FINISH

Gesso features Ultra-Violet matte finish on all exposed surfaces by utilizing roll-coat UV technology. Our durable UVAdvantage® finish makes surfaces less likely to be damaged by abrasions, scratches, water, alcohol, stains, and common chemicals. Our UVAdvantage® finish magnifies the beauty of our wood finishes and reduces the darkening, aging, and yellowing process of wood furniture that naturally occurs over time. Once cured by UV lighting, our UVAdvantage® finish does not emit irritable toxins, formaldehyde, or solvents into the air creating a safe work environment within new furniture installations. This process has allowed us to achieve third party certification for Indoor Air Quality. Additionally our UVAdvantage® finish greatly reduces hazardous air pollutants which contribute to smog formation, and our UVAdvantage® finish is recaptured over and over again reducing waste materials. Automated production technology eliminates exposure to sprayed chemicals in our factories. High gloss UVAdvantage® finish available on request.

GROMMET LOCATIONS

Grommets are standard in the back panels of returns, bridges, and credenzas. These units may be ordered without grommets at no additional charge. Please specify "NO GROMMET" on order.

Grommets are available on hutches in standard locations for task-light management at no additional charge. Please specify HUGRMT.

Desk grommets are available in standard locations. Please specify and add an upcharge of $47 list for each grommet.

Specify grommet locations.
GL - Grommet Left
GC - Grommet Center
GR - Grommet Right

Example: 65-3672DP-GL-GR (Grommet Left, Grommet Right)

Grommets may be ordered in non-standard locations. Please call Customer Service to assist with how to order and additional lead time requirements.

LOCKING HUTCH DOORS

Locking doors are available on standard veneer doors and wood framed doors that are hinged.

Size		List Upcharge
30" - 42"	=	$56.00
48" - 78"	=	$69.00
84" - 108"	=	$82.00

Sit-To-Stand Mechanisms

Electric powered sit-to-stand mechanisms are offered on select units as noted. Sit-to-stand mechanisms come factory installed and must be specified at the time of order.

Please note, optional modesty panels and kneespace options are not available with the sit-to-stand mechanism.

2 year warranty. Add 100 lbs. to shipping weight.

Specify STS and add an upcharge of $3980 list for each sit-to-stand.

Description

- Maximum height is 42″
- Load capacity is recommended at a safe 50 lbs; weight distribution is key to capacity
- Safety stop at 2” above the work surface prevents pinches
- Sit-to-stand mechanisms reduce the kneespace depth by 9.5″
- Bridge, returns and credenzas will not have a standard grommet on back panel

How to Order

MODEL NO.	DESCRIPTION	
16-4272DPS	Finish	BC
	Top Surface	W
	Veneer	PV
	Edge	X
	Pull	MBW

All options must be labeled and specified.

Specifications

VENEER

Choose from premium veneer or select veneer on exposed surfaces in American Black Walnut, White Oak, Cherry, or Maple species. The American Black Walnut, White Oak, and Cherry veneers are Book Matched veneer faces, while the Maple is a Slip-Matched veneer face. These veneers are carefully selected and matched to assure proper balance and consistency.

TOPS

The wood veneer tops are available in the 6 Madera edge details, which each determine the style of construction. The "D", "E", "X", and "Y" have vertical profiles, which have a 5-ply balanced construction, 1 3/16" thick with hardwood rims. The "A" & "B" profiles have the same construction, but provide a matching reverse shape on adjoining units. The high pressure laminate tops have a 3-ply balanced construction, 1 3/16" thick with solid hardwood rims. Grain direction runs left to right unless otherwise noted.

CHASSIS CONSTRUCTION

Tops, end panels, and modesty panels are securely fastened using high quality European style fastening systems and heavy-duty, 16-gauge joining brackets to assure maximum strength. All units are equipped with heavy-duty, adjustable glides to ensure proper leveling and compensation for uneven floors.

DRAWERS

All drawer fronts are standard with elegant veneer faces. Fronts are a 3-ply construction 3/4" thick, and vertically matched in sets. Drawer interiors are dovetail construction with 7/16" thick hardwood sides and backs and 5/32" thick hardboard bottoms. The drawer interiors are sanded, sealed, and finished to provide a smooth, quality feel and appearance. Drawer fronts feature multiple pull options and pull finishes which include a concealed finger pull, a waterfall shaped face-mounted pull, and an arched face-mounted pull. 5-sided drawer construction allows for easy removal of drawer fronts.

DRAWER SUSPENSION

File drawers have high quality, progressive full extension slides with precision steel ball bearings to ensure a smooth, quiet operation. Box drawers are equipped with full extension ball bearing action slides with a positive stop action. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with custom fitted filing systems designed to accommodate a variety of filing requirements. Legal width file drawers provide legal filing front to back, and letter or legal filing side to side. Letter width file drawers provide letter filing front to back, and letter or legal filing side to side.

LOCKING

All desks, credenzas, and lateral files feature locking. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard. Lock cores match pull color.

CORD MANAGEMENT

Route power and data cables away from the worksurface through inherent grommet placement. Optional black grommets are standard in back panels of assembled returns, bridge units, kneespace credenzas, and hutch units. A grommet is standard in tops of corner units. Grommets may be ordered in the tops of desks, returns, bridge units, credenzas, and component worksurfaces. See page 253 for all optional grommet locations.

Undersurface tracks are available for additional cord management. Silver grommets are also available. See Accessories.

FINISH

Madera features Ultra-Violet matte finish on all exposed surfaces by utilizing roll-coat UV technology. Our durable UVAdvantage® finish makes surfaces less likely to be damaged by abrasions, scratches, water, alcohol, stains, and common chemicals. Our UVAdvantage® finish magnifies the beauty of our wood finishes and reduces the darkening, aging, and yellowing process of wood furniture that naturally occurs over time. Once cured by UV lighting, our UVAdvantage® finish does not emit irritable toxins, formaldehyde, or solvents into the air creating a safe work environment within new furniture installations. This process has allowed us to achieve third party certification for Indoor Air Quality. Additionally our UVAdvantage® finish greatly reduces hazardous air pollutants which contribute to smog formation, and our UVAdvantage® finish is recaptured over and over again reducing waste materials. Automated production technology eliminates exposure to sprayed chemicals in our factories. High gloss UVAdvantage® finish available on request.

GROMMET LOCATIONS

Grommets are standard in the back panels of returns, bridges, and credenzas. These units may be ordered without grommets at no additional charge. Please specify "NO GROMMET" on order.

Grommets are available on hutches in standard locations for tasklight management at no additional charge. Please specify HUGRMT.

Desk grommets are available in standard locations. Please specify and add an upcharge of $47 list for each grommet.

Specify grommet locations.
GL - Grommet Left
GC - Grommet Center
GR - Grommet Right

Example: 14-3672LP-GL-GR (Grommet Left, Grommet Right)

Grommets may be ordered in non-standard locations. Please call Customer Service to assist with how to order and additional lead time requirements.

How to Order

MODEL NO.	DESCRIPTION	
38-4272DP1	Chassis Laminate	YC
	Top Laminate	CN
	Edge	X
	Pull	MBA

Order must be listed as shown, with Chassis Color and Top Color specified separately.

Specifications

LAMINATES

Exposed surfaces are produced from wood grained, patterned, and solid color laminates fused to a particle-board core. Each laminate offers lasting beauty, superior resistance to normal wear, and easy maintenance.

TOPS

HPL tops are 3-ply construction, 1 3⁄16" thick with PVC rims. Tops are shaped on all four sides for complete design appeal. Tops are available in eleven wood-look laminates, one pattern laminate, and two different edge details.

CHASSIS CONSTRUCTION

Built to be reconfigurable, tops, end panels, and modesty panels are assembled using European-style mechanical fasteners and heavy-duty, 16-gauge joining brackets. Laminate parting rails assure a sturdy pedestal. All units are equipped with heavy-duty, adjustable glides to ensure proper leveling and compensate for uneven floors.

DRAWERS

All drawer fronts feature laminated fronts with banded edges. Fronts are 3-ply construction and ¾" thick. Drawer sides and backs are constructed with 7⁄16" thick black MDF and ⅛" hardboard bottoms. Drawers feature 5-sided construction allowing for easy removal of drawer fronts.

DRAWER SUSPENSION

File drawers and box drawers feature high quality, black progressive full extension slides with precision steel ball bearings to ensure a smooth, quiet operation. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with custom fitted filing systems designed to accommodate a variety of filing requirements. Desk file drawers provide legal filing or two rows of letter filing side to side. Credenza/Return file drawers provide legal or letter filing side to side.

LOCKING

All pedestals and files feature locking. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard. Lock cores match pull color.

CORD MANAGEMENT

Route power and data cables away from the worksurface through inherent grommet placement. Optional black grommets are standard in back panels of assembled returns, bridge units, kneespace credenzas, and hutch units. A grommet is standard in tops of corner units. Grommets may be ordered in the tops of desks, returns, bridge units, credenzas, and component worksurfaces. See page 290 for all optional grommet locations.

Undersurface tracks are available for additional cord management. Silver grommets are also available. See Accessories.

GROMMET LOCATIONS

Grommets are standard in the back panels of returns, bridges, and credenzas. These units may be ordered without grommets at no additional charge. Please specify "NO GROMMET" on order.

Grommets are available on hutches in standard locations for task-light management at no additional charge. Please specify HUGRMT.

Desk grommets are available in standard locations. Please specify and add an upcharge of $47 list for each grommet.

Specify grommet locations.
GL - Grommet Left
GC - Grommet Center
GR - Grommet Right

Example: 38-3672DP2-GL-GR (Grommet Left, Grommet Right)

Standard grommet locations are available on cockpit units. Contact Customer Service for more information.

Grommets may be ordered in non-standard locations. Please call Customer Service to assist with how to order and additional lead time requirements.

RESILIENCE LAMINATE OFFERING

Indiana Furniture has partnered with Pionite Decorative Laminates and Wilsonart International to provide a Customer Specified Laminate program.

- CSL can be specified for worksurfaces only. Chassis colors cannot be requested.
- Laminate sheen level not to exceed 60° for maximum durability of worksurfaces.
- Indiana Furniture reserves the right to decline a laminate which may not be suitable for application.
- Indiana Furniture assumes no responsibility for the durability, consistent coloration or any other performance characteristic of a customer specified laminate.
- Contact Customer Service with product list and specific laminate information to obtain a quote for pricing and lead time.

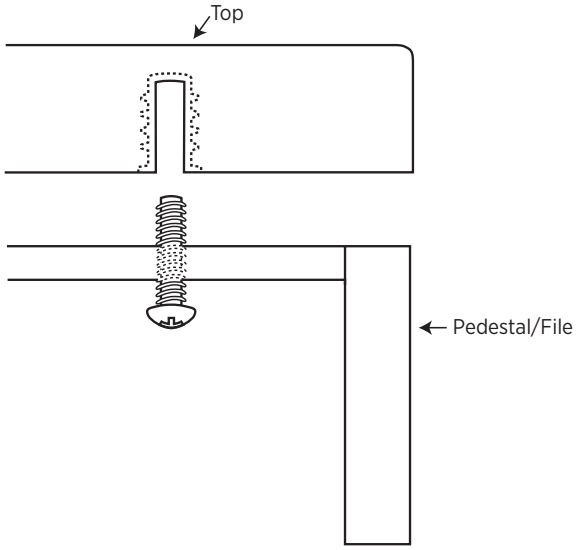
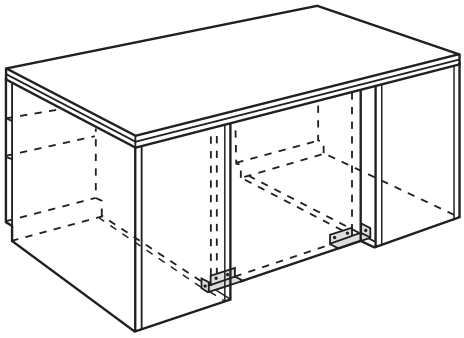
HOW PEDESTALS AND FILES ARE ATTACHED TO TOPS

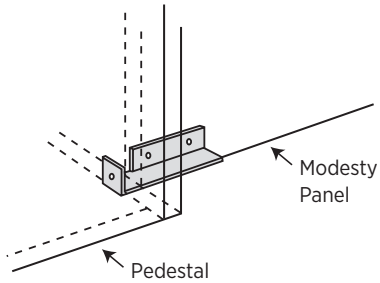
Pedestals and files are attached to tops by metal to metal fasteners. This is for the future reconfigurability of units. The diagram shows how tops are fastened with metal inserts into each top. Metal inserts are placed in all possible locations of the top for any pedestal or file configuration. Post and Cam systems are also used for the attachment of tops to pedestals and files.



HOW DESK MODESTY PANELS ARE ATTACHED TO PEDESTALS

Desk modesty panels are attached to pedestals by metal brackets. The diagram shows the bracket connecting the modesty panel to the inside of the pedestal in the kneespace. When ordering assembled units, these brackets are already used to assemble the unit. When specifying component modesty panels, two brackets will ship with each modesty panel for field assembly.





HOW CREDENZA/RETURN MODESTY PANELS ARE ATTACHED

Credenza/Return modesty panels are attached to pedestals and files by metal brackets. The diagram shows the bracket connecting the modesty panel to the inside of the pedestal or file in the kneespace. When ordering assembled units, these brackets are already used to assemble the unit. When specifying component modesty panels, two brackets will ship with each modesty panel for field assembly.

How to Order

MODEL NO.	DESCRIPTION	
42-4272DP1	Finish	AC
	Edge	X
	Pull	MBB

All options must be labeled and specified.

Specifications

VENEER

Veneers on exposed surfaces are select grade sliced Cherry, Maple, and American Black Walnut and are carefully selected and matched to assure proper balance and consistency.

TOPS

Wood veneer tops are 5-ply balanced construction, 1 3/16" thick with solid hardwood rims. Tops are mitered on all four corners. Tops are shaped on all four sides for complete design appeal. Tops are available in four different edge designs. Grain direction runs left to right unless otherwise noted.

CHASSIS CONSTRUCTION

Built to be reconfigurable, tops, end panels, and modesty panels are assembled using European-style mechanical fasteners and heavy-duty, 16-gauge joining brackets. Veneered parting rails assure a sturdy pedestal. All units are equipped with heavy-duty, adjustable glides to ensure proper leveling and compensate for uneven floors.

DRAWERS

All drawer fronts are standard with elegant Walnut, Cherry or Maple veneer faces. Fronts are 3-ply construction and ¾" thick with vertically matched grain. Drawer sides and backs are constructed with 7/16" thick hardwood sides and 5/32" hardboard bottoms. Drawers feature 5-sided construction allowing for easy removal of drawer fronts. Drawer interiors are sanded, sealed, and finished to provide for a smooth, quality feel and appearance.

DRAWER SUSPENSION

File drawers and box drawers feature high quality, black progressive full extension slides with precision steel ball bearings to ensure a smooth, quiet operation. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with custom fitted filing systems designed to accommodate a variety of filing requirements. Desk file drawers provide legal filing or two rows of letter filing side to side. Credenza/Return file drawers provide legal or letter filing side to side.

LOCKING

All pedestals and files feature locking. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard. Lock cores match pull color.

CORD MANAGEMENT

Route power and data cables away from the worksurface through inherent grommet placement. Optional black grommets are standard in back panels of assembled returns, bridge units, kneespace credenzas, and hutch units. A grommet is standard in tops of corner units. Grommets may be ordered in the tops of desks, returns, bridge units, credenzas, and component worksurfaces. See page 336 for all optional grommet locations.

Undersurface tracks are available for additional cord management. Silver grommets are also available. See Accessories.

FINISH

Revolutions features Ultra-Violet matte finish on all exposed surfaces by utilizing roll-coat UV technology. Our durable UVAdvantage® finish makes surfaces less likely to be damaged by abrasions, scratches, water, alcohol, stains, and common chemicals. Our UVAdvantage® finish magnifies the beauty of our wood finishes and reduces the darkening, aging, and yellowing process of wood furniture that naturally occurs over time. Once cured by UV lighting, our UVAdvantage® finish does not emit irritable toxins, formaldehyde, or solvents into the air creating a safe work environment within new furniture installations. This process has allowed us to achieve third party certification for Indoor Air Quality. Additionally our UVAdvantage® finish greatly reduces hazardous air pollutants which contribute to smog formation, and our UVAdvantage® finish is recaptured over and over again reducing waste materials. Automated production technology eliminates exposure to sprayed chemicals in our factories. High gloss UVAdvantage® finish available on request.

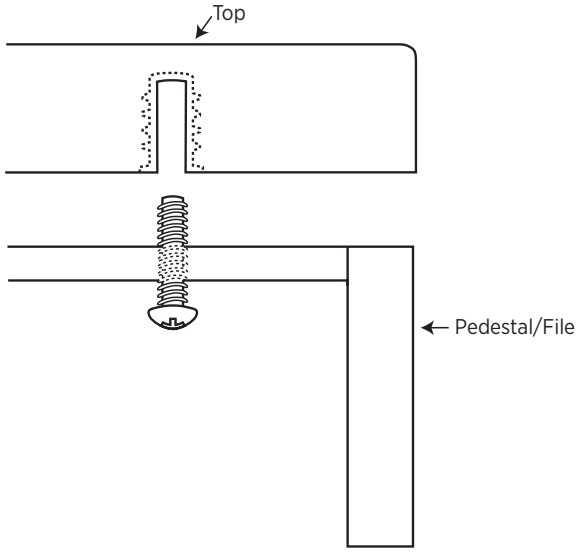
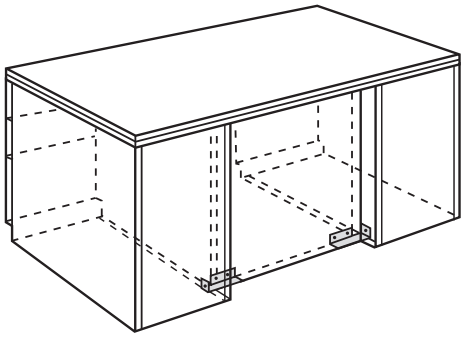
HOW PEDESTALS AND FILES ARE ATTACHED TO TOPS

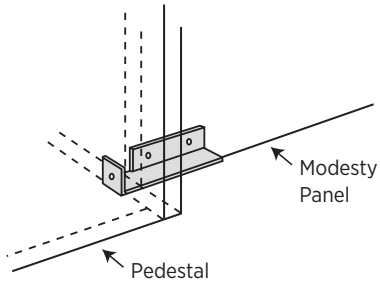
Pedestals and files are attached to tops by metal to metal fasteners. This is for the future reconfigurability of units. The diagram shows how tops are fastened with metal inserts into each top. Metal inserts are placed in all possible locations of the top for any pedestal or file configuration. Post and Cam systems are also used for the attachment of tops to pedestals and files.



HOW DESK MODESTY PANELS ARE ATTACHED TO PEDESTALS

Desk modesty panels are attached to pedestals by metal brackets. The diagram shows the bracket connecting the modesty panel to the inside of the pedestal in the kneespace. When ordering assembled units, these brackets are already used to assemble the unit. When specifying component modesty panels, two brackets will ship with each modesty panel for field assembly.





HOW CREDENZA/RETURN MODESTY PANELS ARE ATTACHED

Credenza/Return modesty panels are attached to pedestals and files by metal brackets. The diagram shows the bracket connecting the modesty panel to the inside of the pedestal or file in the kneespace. When ordering assembled units, these brackets are already used to assemble the unit. When specifying component modesty panels, two brackets will ship with each modesty panel for field assembly.

Casegoods Collection

How to Order

MODEL NO.	DESCRIPTION	
21-3672BDP	Finish	AW
	Top Surface	W
	Pull	AFC

All options must be labeled and specified.

Specifications

VENEER

Exposed surfaces feature select grade sliced American Black Walnut hardwood carefully selected and matched to assure proper balance and consistency.

TOPS

Wood veneer tops are 5-ply balanced construction and 1 5/32" thick. High pressure laminate tops are 3-ply balanced construction and 1 5/32" thick. Grain direction runs left to right unless noted.

CHASSIS CONSTRUCTION

Veneer chassis are fastened by screws, glue, and heavy-duty metal fasteners assuring maximum strength. Units feature finished backs unless otherwise noted. All units ship assembled unless noted. All units ship with leveling glides.

DRAWERS

All drawer fronts are 3-ply construction, ¾" thick with matched wood grain. Drawer sides, back and front are wood grain vinyl wrapped, ½" thick. Box and file drawers have ⅛" thick hardboard bottoms. Lateral file drawers feature ¼" thick bottoms. 5-sided drawer construction allows for easy removal of drawer fronts.

DRAWER SUSPENSIONS

All drawers have full extension, progressive action slides with precision steel ball bearings. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with filing systems designed to accommodate a variety of filing requirements. Letter width file drawers provide letter filing front to back, and letter or legal filing side to side. Lateral file drawers provide legal or letter filing front to back or side to side.

LOCKING

All desks, credenzas, returns, and files feature standard locking. Removable lock cores allow for units to be re-keyed at a later date if required. Units ship randomly keyed as standard.

CORD MANAGEMENT

Route power and data cables away from the worksurface through inherent grommet placement. Grommets may be ordered in the tops of all desks, returns, bridges, and credenzas. All desks and returns have standard wire openings from inside the pedestal to the kneespace allowing quick access to technology below. Additionally, returns, bridge units, kneespace credenzas, and hutch units have standard grommets available in backpanels. Grommets are also standard in the tops of corner units. See page 426 for all optional grommet locations.

Undersurface tracks are available for additional cord management. Silver grommets are also available. See Accessories.

FINISH

The multi-step finish process used by Indiana Furniture provides years of lasting beauty. High quality finish materials offer distinctive grain clarity, superior resistance to normal wear, and ease of maintenance.

Casegoods Collection

How to Order

MODEL NO.	DESCRIPTION	
29-3672DP	Finish	MW
	Pull	ARA

All options must be labeled and specified.

Specifications

level 2

VENEER

Veneers on exposed surfaces are select grade sliced American Black Walnut and are carefully selected and matched to assure proper balance and consistency.

TOPS

High pressure laminate tops are 3-ply balanced construction, 1 1/16" thick with solid hardwood rims. Grain direction runs left to right unless otherwise noted.

CHASSIS CONSTRUCTION

Pedestals are of mortised and tenoned construction with all joints securely fastened with screws, hardwood screw rail brackets, and glue blocks. Solid hardwood parting rails assure a sturdy pedestal. Bases are solid hardwood with mitered corners. Superior construction offers tight tolerances and long term durability. All units equipped with heavy-duty adjustable glides to ensure proper leveling and compensate for uneven floors.

DRAWERS

All drawer fronts are standard with elegant walnut bookmatched veneer faces. Fronts are 3-ply construction and ¾" thick. Drawer sides and backs are constructed with 7/16" thick oak-grained medium density fiberboard. Drawers are constructed with ⅛" thick oak-grained hardboard bottoms. Lateral files have ¼" thick bottoms for storage applications. Drawers are assembled to assure maximum strength and durability.

DRAWER SUSPENSION

File drawers have high quality, progressive full extension slides with precision steel ball bearings to ensure a smooth, quiet operation. Tray and box drawers are equipped with ¾" extension ball bearing roller suspensions. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with custom fitted filing systems designed to accommodate a variety of filing requirements. Legal width file drawers provide legal filing front to back, and letter or legal filing side to side. Letter width file drawers provide letter filing front to back, and letter or legal filing side to side.

LOCKING

Central locking is standard on all desks. One key in the lock cylinder locks all drawers in the desk. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard.

CORD MANAGEMENT

Route power and data cables away from the worksurface through inherent grommet placement. Black grommets are standard in back panels of assembled returns, bridge units, kneespace credenzas, and hutch units. A grommet is standard in tops of corner units. Grommets may be ordered in the tops of desks, returns, bridge units, credenzas, and component worksurfaces. See page 404 for all optional grommet locations.

Undersurface tracks are available for additional cord management. Silver grommets are also available. See Accessories.

FINISH

The multi-step, finish process used by Indiana Furniture provides years of lasting beauty. High quality finish materials offer distinctive grain clarity, superior resistance to normal wear, and ease of maintenance.

How to Order

MODEL NO.	DESCRIPTION	
46-4284DPS	Finish	PW
	Top Surface	W
	Edge	C2
	Molding	M
	Pull	ALB

All options must be labeled and specified.

Specifications

VENEER

Veneers on exposed surfaces are select grade sliced American Black Walnut and are carefully selected and matched to assure proper balance and consistency.

TOPS

C1 tops are 3-ply balanced construction, 1 1⁄16" thick with solid hardwood mitered rims. C2 tops are 5-ply balanced construction, 1 3⁄16" thick with solid hardwood mitered rims. Grain direction runs left to right unless otherwise noted.

CHASSIS CONSTRUCTION

Pedestals are of mortised and tenoned construction with all joints securely fastened with screws, hardwood screw rail brackets, and glue blocks. Solid hardwood parting rails assure a sturdy pedestal. Bases are solid hardwood with mitered corners. Superior construction offers tight tolerances and long term durability. All units equipped with heavy-duty, adjustable glides to ensure proper leveling and compensate for uneven floors.

DRAWERS

All drawer fronts are standard with elegant walnut bookmatched veneer faces. Fronts are 3-ply construction and ¾" thick. Drawers are constructed with 7⁄16" thick hardwood sides and 5⁄32" thick hardboard bottoms. Lateral files have ¼" thick drawer bottoms for storage applications. Drawer interiors are sanded, sealed, and finished to provide for a smooth, quality feel and appearance.

DRAWER SUSPENSION

File drawers have high quality, progressive full extension slides with precision steel ball bearings to ensure a smooth, quiet operation. Tray and box drawers are equipped with ¾" extension ball-bearing action slides with positive stop action. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with custom fitted filing systems designed to accommodate a variety of filing requirements. Legal width file drawers provide legal filing front to back, and letter or legal filing side to side. Letter width file drawers provide letter filing front to back, and letter or legal filing side to side.

LOCKING

Central locking is standard on all desks. One key in the lock cylinder locks all drawers in the desk. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard.

CORD MANAGEMENT

Route power and data cables away from the worksurface through inherent grommet placement. Black grommets are standard in back panels of assembled returns, bridge units, kneespace credenzas, and hutch units. A grommet is standard in tops of corner units. Grommets may be ordered in the tops of desks, returns, bridge units, credenzas, and component worksurfaces. See page 426 for all optional grommet locations.

Undersurface tracks are available for additional cord management. Silver grommets are also available. See Accessories.

FINISH

The multi–step, finish process used by Indiana Furniture provides years of lasting beauty. High quality finish materials offer distinctive grain clarity, superior resistance to normal wear, and easy maintenance. Wood veneer tops are shipped standard with satin sheen finish unless order is specified with “high sheen tops.” Optional Jefferson 4600 Series high sheen tops feature a full-filled rubbed mirror-like appearance. See page 426 for high sheen top option.

Casegoods Collection

How to Order

MODEL NO.	DESCRIPTION	
36-3672DP	Finish	MW
	Top Surface	W

All options must be labeled and specified.

Specifications

VENEER

Veneers on exposed surfaces are select grade sliced American Black Walnut and are carefully selected and matched to assure proper balance and consistency.

TOPS

Wood veneer and high pressure laminate tops are 3-ply balanced construction, 1 1/16" thick with solid hardwood rims. Veneer tops have mitered corners and laminate tops have butt corners. Grain direction runs left to right unless otherwise noted.

CHASSIS CONSTRUCTION

Pedestals are of mortised and tenoned construction with all joints securely fastened with screws, hardwood screw rail brackets, and metal brackets. Solid hardwood parting rails assure a sturdy pedestal. Bases are solid hardwood with mitered corners. All units have finished veneer backs. Superior construction offers tight tolerances and long-term durability. All units equipped with heavy-duty, adjustable glides to ensure proper leveling and compensate for uneven floors.

DRAWERS

All drawer fronts are standard with elegant walnut bookmatched veneer faces. Fronts are 3-ply construction and ¾" thick. Drawer interiors are constructed with 7/16" hardwood sides and backs and 5/32" thick hardboard bottoms. Lateral files have ¼" thick drawer bottoms for storage applications. The drawer interiors are sanded, sealed, and finished to provide a smooth, quality feel and appearance.

DRAWER SUSPENSION

File drawers have high quality, progressive full extension slides with precision ball bearings to ensure a smooth, quiet operation. Tray and box drawers are equipped with ¾" extension ball bearing action slides with positive stop action. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with custom fitted filing systems designed to accommodate a variety of filing requirements. Legal width file drawers provide legal filing front to back, and letter or legal filing side to side. Letter width file drawers provide letter filing front to back, and letter or legal filing side to side.

LOCKING

Central locking is standard on all desks. One key in the lock cylinder locks all drawers in the desk. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard.

CORD MANAGEMENT

Route power and data cables away from the worksurface through inherent grommet placement. Black grommets are standard in back panels of assembled returns, bridge units, kneespace credenzas, and hutch units. A grommet is standard in tops of corner units. Grommets may be ordered in the tops of desks, returns, bridge units, credenzas, and component worksurfaces. See page 456 for all optional grommet locations.

Undersurface tracks are available for additional cord management. Silver grommets are also available. See Accessories.

FINISH

The multi–step, finish process used by Indiana Furniture provides years of lasting beauty. High quality finish materials offer distinctive grain clarity, superior resistance to normal wear, and easy maintenance. Wood veneer tops are shipped standard with satin sheen finish unless order is specified with "high sheen tops." Optional Wilmington 3600 Series high sheen tops feature a full-filled rubbed mirror-like appearance. See page 456 for high sheen top option.

Indiana®
FURNITURE

Clearly Green

level®, BIFMA's sustainability certification program for furniture, is a comprehensive and transparent third-party certification program. The level mark attests that the product, the manufacturing facility, and the company responsible for the product brand, have been evaluated against the multi-attribute criteria of the ANSI/BIFMA e3 Furniture Sustainability Standard. Products certified under the level program can be chosen with confidence. All Indiana Furniture casegoods and seating solutions are BIFMA level® 2 Certified.

A number of Indiana Furniture products have achieved Intertek's ETL Environmental VOC Certification and are recognized as products that safeguard indoor air quality. The certification — which extends to Elevate, Gesso, Revolutions, Madera, Resilience, Canvas, all Conference, Reception and Seating solutions, demonstrates that Indiana Furniture's products conform to the ANSI/BIFMA Furniture Emissions Standards (M7.1/X7.1-2011) for Office Furniture Systems and Components. They also earn points for LEED Credit 4.5.

Once cured by UV lighting, our UVAdvantage® finish does not emit irritable toxins, formaldehyde, or solvents into the air creating safe work environments within new furniture installations. This has allowed us to earn Indoor Air Quality Certification Certification on our products with UVAdvantage finish. Our UVAdvantage finish process greatly reduces hazardous air pollutants which contribute to smog formation. Excess UV finish is recaptured over and over again reducing waste material within our facilities.

Forest Stewardship Council® (FSC®) Chain-of-Custody(CoC) Certification is an assurance that wood based materials used in products come from forests that meet stringent environmental, social, and economic standards. It is the path taken by raw materials from the forest to the consumer, including all successive stages of harvesting, processing, manufacturing and distribution. Only products from FSC CoC companies can claim the FSC designation, assurance of a socially and environmentally responsible purchasing decision. FSC CoC Certification is recognized by the U.S. Green Building Council's (USGBC) LEED Rating System for environmentally focused design. From a customer perspective, the FSC label represents a promise made; CoC standards are the mechanism FSC uses to ensure that promise is delivered. Indiana Furniture has been awarded FSC CoC Certification, by GFA Certification GmbH, an independent third-party accredited by the FSC to certify companies to their international standards. The certification (certificate number GFA-COC-002183; license code FSC-C110951) is available on most Indiana Furniture products.

NOTES

WARRANTY

Subject to the limitations set forth in this warranty, Indiana Furniture Industries, Inc. (**"Indiana Furniture"**) warrants to the original purchaser all product in this price list (**"Product"**) to be free from defects in material and workmanship given normal use for a twelve year period from the date of manufacture. During the applicable warranty period, Indiana Furniture, as its sole obligation, will repair or replace (in Indiana Furniture's sole discretion) any Product, part , or component covered by this warranty and sold after March 1, 2016, which fails under normal use as a result of a defect in material or workmanship. Normal use is defined as the equivalent of a single shift, 40-hour work week. Indiana Furniture will repair or replace the defective Product, part, or component with a comparable Product, part or component.

Warranty periods are limited for certain Products and parts as follows:

12-year Warranty (from the date of manufacture)

- Seating Mechanisms
- Veneers
- Laminates
- Casters and Glides

5-year Warranty (from the date of manufacture)

- Triple Play Series
- Electrical Components
- Pneumatic Cylinders
- Textiles, Foam, and Decorative Trim
- Swivel Arm Pads
- Keyboard kits
- Lighting

2-year Warranty (from the date of manufacture)

- All Sit-To-Stand Mechanisms

THIS WARRANTY DOES NOT COVER:

- Damage caused by a carrier or third party
- Normal or routine wear and tear
- Appearance, durability, quality, behavior, colorfastness or any other attribute of customer's own materials or any non-standard Indiana Furniture material (including Maharam, Momentum, Mayer, UltraFabrics) specified by the customer and applied to a Product
- Color, grain or texture of wood, laminate and other covering materials
- Changes in wood or fabric color due to aging or exposure to light

As the manufacturer of the Product, Indiana Furniture stands behind its craftsmanship and pledges to do everything it can to reasonably resolve, as quickly as possible, any problems you may have with the Product within the terms and conditions of this warranty.

If you encounter a defect covered by the foregoing warranty, you should contact the dealer from whom you purchased the Product. If the dealer is unable to resolve your warranty issues, you should contact Indiana Furniture. Please ensure that you have all of the pertinent facts when contacting the dealer or Indiana Furniture, including the model number and factory order number from the inspection label attached to the Product.

INDIANA FURNITURE IS NOT PROVIDING, AND SPECIFICALLY DISCLAIMS, ANY OTHER WARRANTIES FOR THE PRODUCTS, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. INDIANA FURNITURE SHALL NOT BE LIABLE TO PURCHASER OR ANY THIRD PARTY FOR CONSEQUENTIAL, INCIDENTAL, INDIRECT OR SPECIAL DAMAGES, INCLUDING, WITHOUT LIMITATION, DAMAGES ARISING OUT OF OR RESULTING IN ANY MALFUNCTIONS, DELAYS, LOSS OF PROFIT, INTERRUPTION OF BUSINESS, PERSONAL INJURY, BODILY INJURY, DEATH, DISMEMBERMENT, OR PROPERTY DAMAGE.

Cutouts for Power and Data Accessories can be specified in standard locations at no additional charge. The combination of port and bases selected will determine the locations available for each size table, as well as determine placement over a base or between bases. See page 9-19 for specific locations available by table size. See page 8 for measurements of exact port locations.

Specifications

VENEER

Choose from premium veneer or select veneer on exposed surfaces in Cherry, Maple, or American Black Walnut. These veneers are carefully selected and matched to assure proper balance and consistency.

TOPS

Wood veneer tops are 5-ply balanced construction and high pressure laminate tops are 3-ply balanced construction. Tops are 1 3/16" thick with solid hardwood rims. All buffets, credenzas, serving carts, video cabinets, and storage/wardrobe cabinets are shaped on user side only. Grain direction runs left to right unless otherwise noted.

CHASSIS CONSTRUCTION

Tops and end panels are securely fastened using high quality European fastening systems to assure maximum strength. All units are equipped with heavy-duty, adjustable glides to ensure proper leveling and compensation for uneven floors.

DRAWERS

All drawer fronts are standard with elegant vertically matched veneer faces. Drawers feature 5-sided construction with ¾" 3-ply fronts, 7/16" thick hardwood sides and 5/32" hardboard bottoms. Units with 36" wide file drawers feature ¼" thick drawer bottoms for maximum storage strength. Drawer interiors are sanded, sealed, and finished to provide for a smooth, quality feel and appearance.

DRAWER SUSPENSION

File drawers and box drawers feature high quality, black progressive full extension slides with precision steel ball bearings to ensure a smooth, quiet operation. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with custom fitted filing systems designed to accommodate a variety of filing requirements. Storage cabinet file drawers provide legal filing front to back, and legal or letter filing side to side.

LOCKING

All units with file drawers feature locking. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard. Lock cores match pull color.

FINISH

Aura Conference features Ultra-Violet matte finish on all exposed surfaces by utilizing roll-coat UV technology. Our durable UVAdvantage® finish makes surfaces less likely to be damaged by abrasions, scratches, water, alcohol, stains, and common chemicals. Our UVAdvantage® finish magnifies the beauty of our wood finishes and reduces the darkening, aging, and yellowing process of wood furniture that naturally occurs over time. Once cured by UV lighting, our UVAdvantage® finish does not emit irritable toxins, formaldehyde, or solvents into the air creating a safe work environment within new furniture installations. This process has allowed us to achieve third party certification for Indoor Air Quality. Additionally our UVAdvantage® finish greatly reduces hazardous air pollutants which contribute to smog formation, and our UVAdvantage® finish is recaptured over and over again reducing waste materials. Automated production technology eliminates exposure to sprayed chemicals in our factories. High gloss UVAdvantage® finish available on request.

Specifications

VENEER

Exposed surfaces feature select grade sliced hardwood veneers in Cherry, Maple, American Black Walnut, or composite veneers of Walnut and Wenge. Veneers are carefully selected and matched to assure proper balance and consistency.

TOPS

Veneer and high pressure laminate tops are 3-ply balanced construction and 1-3/16" thick, with 3 mm wood edge-banded rims contoured to the selected profile. Tops are shaped on user and approach sides. Grain direction runs left to right unless otherwise noted in the item description.

CHASSIS CONSTRUCTION

Tops and end panels are securely fastened using high quality European fastening systems to assure maximum strength. All units are equipped with heavy-duty, adjustable glides to ensure proper leveling and compensation for uneven floors.

DRAWERS

All drawer fronts are standard with elegant vertically matched veneer faces. Drawers feature 5-sided construction with ¾" 3-ply fronts, 7/16" thick hardwood sides and 5/32" hardboard bottoms. Units with 36" wide file drawers feature ¼" thick drawer bottoms for maximum storage strength. Drawer interiors are sanded, sealed, and finished to provide for a smooth, quality feel and appearance.

DRAWER SUSPENSION

File drawers and box drawers feature high quality, black progressive full extension slides with precision steel ball bearings to ensure a smooth, quiet operation. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with custom fitted filing systems designed to accommodate a variety of filing requirements. Storage cabinet file drawers provide legal filing front to back, and legal or letter filing side to side.

LOCKING

All units with file drawers feature locking. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard. Lock cores match pull color.

FINISH

Etch Conference features Ultra-Violet matte finish on all exposed surfaces by utilizing roll-coat UV technology. Our durable UVAdvantage® finish makes surfaces less likely to be damaged by abrasions, scratches, water, alcohol, stains, and common chemicals. Our UVAdvantage® finish magnifies the beauty of our wood finishes and reduces the darkening, aging, and yellowing process of wood furniture that naturally occurs over time. Once cured by UV lighting, our UVAdvantage® finish does not emit irritable toxins, formaldehyde, or solvents into the air creating a safe work environment within new furniture installations. This process has allowed us to achieve third party certification for Indoor Air Quality. Additionally our UVAdvantage® finish greatly reduces hazardous air pollutants which contribute to smog formation, and our UVAdvantage® finish is recaptured over and over again reducing waste materials. Automated production technology eliminates exposure to sprayed chemicals in our factories. High gloss UVAdvantage® finish available on request.

Finish Options

WOOD VENEER (W) LAMINATE (P) TOPS – MUST SPECIFY

Clear Maple CM | Light Maple LM | Golden Cherry GC | Bourbon Cherry BC | Autumn Cherry AC | Dark Cherry DC | Columbian Walnut CO

Specifications

LAMINATES

Exposed surfaces are produced from wood grained, patterned, and solid color laminates fused to a particle-board core. Each laminate offers lasting beauty, superior resistance to normal wear, and easy maintenance.

TOPS

HPL tops are 3-ply construction, 1 3/16" thick with PVC rims. Tops are shaped on all four sides for complete design appeal. Tops are available in fifteen wood-look laminates, two solid laminates, and four different edge details.

CHASSIS CONSTRUCTION

Tops and end panels are securely fastened using high quality European fastening systems to assure maximum strength. All units are equipped with heavy-duty, adjustable glides to ensure proper leveling and compensation for uneven floors.

DRAWERS

All drawer fronts are 3-ply construction, ¾" thick with matched grain. Drawer sides, back, and front are wood grain vinyl wrapped, ½" thick. Box and file drawers have ⅛" thick hardboard bottoms. 5-sided drawer construction allows for easy removal of drawer fronts.

DRAWER SUSPENSION

File drawers and box drawers feature high quality, black progressive full extension slides with precision steel ball bearings to ensure a smooth, quiet operation. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with custom fitted filing systems designed to accommodate a variety of filing requirements. Storage cabinet file drawers provide legal filing front to back, and legal or letter filing side to side.

LOCKING

All units with file drawers feature locking. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard. Lock cores match pull color.

Specifications

VENEER AND LAMINATE

All One10 Conference veneers are composite veneers for maximum grain and color consistency. Accent laminates are straight-grain, textured high-pressure laminate.

TOPS

Conference and meeting table tops are 1-½" thick, 3-ply balanced construction with 1.5 mm wood edge-banded rims. Credenza tops are ¾" thick, 3-ply balance construction with .5 mm wood edge-banded rims. Veneer accent tops are ¾" thick, 3-ply construction with .5 mm edge-bands while laminate accent tops are ¾" thick, 3-ply construction with 1 mm edge banded rims.

CHASSIS CONSTRUCTION

Chassis are securely fastened using high quality European fastening systems and heavy-duty 16-guage joining brackets to assure maximum strength. Table bases and Parsons Tables are formed with mitered construction to provide a clean aesthetic. Units ship assembled unless otherwise noted. All units ship with heavy-duty, adjustable leveling glides to ensure proper leveling and compensation for uneven floors.

DRAWERS

All drawer fronts are ¾" thick 3-ply construction with horizontal grain. Drawer sides, back, and front are wood grain vinyl wrapped ½" thick with ⅛" thick hardboard bottoms. 5-sided drawer construction allows for easy removal of drawer fronts.

DRAWER SUSPENSION

Box drawers have full extension, progressive action slides with precision steel ball bearings. All suspensions have a lifetime warranty.

FINISH

One10 Conference features UV Advantage Ultra-Violet matte finish on all exposed veneer surfaces utilizing roll-coat technology unless otherwise noted.

Specifications

LAMINATE

All One10 Conference laminates are straight-grain, textured high-pressure laminate.

TOPS

Conference and meeting table tops are 1-½" thick, 3-ply balanced construction with 1 mm PVC edge-banded rims. Credenza tops are ¾" thick, 3-ply balance construction with .5 mm PVC edge-banded rims. Laminate accent tops are ¾" thick, 3-ply construction with 1 mm edge banded rims.

CHASSIS CONSTRUCTION

Chassis are securely fastened using high quality European fastening systems and heavy-duty 16-guage joining brackets to assure maximum strength. Table bases and Parsons Tables are formed with mitered construction to provide a clean aesthetic. Units ship assembled unless otherwise noted. All units ship with heavy-duty, adjustable leveling glides to ensure proper leveling and compensation for uneven floors.

DRAWERS

All drawer fronts are ¾" thick 3-ply construction with horizontal grain. Drawer sides, back, and front are wood grain vinyl wrapped ½" thick with ⅛" thick hardboard bottoms. 5-sided drawer construction allows for easy removal of drawer fronts.

DRAWER SUSPENSION

Box drawers have full extension, progressive action slides with precision steel ball bearings. All suspensions have a lifetime warranty.

Specifications

VENEER

Veneers on exposed surfaces are select grade sliced American Black Walnut and are carefully selected and matched to assure proper balance and consistency.

TOPS

Wood veneer tops are 5-ply balanced construction and high pressure laminate tops are 3-ply balanced construction. Tops are 1 3/16" thick with solid hardwood rims. All buffets, credenzas, serving carts, video cabinets, and storage/wardrobe cabinets are shaped on user side only. Grain direction runs left to right unless otherwise noted.

CHASSIS CONSTRUCTION

Tops and end panels are securely fastened using high quality European fastening systems to assure maximum strength. All units are equipped with heavy-duty, adjustable glides to ensure proper leveling and compensation for uneven floors.

DRAWERS

All drawer fronts are standard with elegant vertically matched walnut veneer faces. Drawers feature 5-sided construction with ¾" 3-ply fronts, 7/16" thick hardwood sides and 5/32" hardboard bottoms. Units with 36" wide file drawers feature ¼" thick drawer bottoms for maximum storage strength. Drawer interiors are sanded, sealed, and finished to provide for a smooth, quality feel and appearance.

DRAWER SUSPENSION

File drawers and box drawers feature high quality, black progressive full extension slides with precision steel ball bearings to ensure a smooth, quiet operation. All suspensions have a lifetime warranty.

FILING HARDWARE

All file drawers are standard with custom fitted filing systems designed to accommodate a variety of filing requirements. Storage cabinet file drawers provide legal filing front to back, and legal or letter filing side to side.

LOCKING

All units with file drawers feature locking. Removable lock cylinders allow for units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard.

FINISH

Cameo Conference features Ultra-Violet matte finish on all exposed surfaces by utilizing roll-coat UV technology. Our durable UVAdvantage® finish makes surfaces less likely to be damaged by abrasions, scratches, water, alcohol, stains, and common chemicals. Our UVAdvantage® finish magnifies the beauty of our wood finishes and reduces the darkening, aging, and yellowing process of wood furniture that naturally occurs over time. Once cured by UV lighting, our UVAdvantage® finish does not emit irritable toxins, formaldehyde, or solvents into the air creating a safe work environment within new furniture installations. This process has allowed us to achieve third party certification for Indoor Air Quality. Additionally our UVAdvantage® finish greatly reduces hazardous air pollutants which contribute to smog formation, and our UVAdvantage® finish is recaptured over and over again reducing waste materials. Automated production technology eliminates exposure to sprayed chemicals in our factories. High gloss UVAdvantage® finish available on request.

How to Order

MODEL NO.	DESCRIPTION	
62-3672RSS	Finish	JW
	Solid Surface Color	PE
	Edge	S1

All options must be labeled and specified.

Specifications

VENEER

Exposed surfaces feature select grade sliced hardwood veneers in Cherry, Maple, American Black Walnut, or composite veneers of Walnut and Wenge. Veneers are carefully selected and matched to assure proper balance and consistency.

TOPS

Work surface tops are 3-ply balanced construction and 1 5/32" thick with a self-edge. Transaction tops 1 5/32" thick and 5-ply balanced construction in veneer or 3-ply balanced construction in laminate. Transaction tops in Cherry, Maple, and American Black Walnut have solid hardwood rims and are profiled on all sides with mitered corners. Transaction tops in Composite Walnut and Composite Wenge are edge-banded and have a self-edge on all sides. Grain runs left to right unless otherwise stated. Optional accent tops of 3/8" glass with 2" silver standoffs are available. Transaction tops in solid surface materials are 1½" thick and available in 6 standard colors.

CHASSIS CONSTRUCTION

Tops and end panels are securely fastened using high quality European fastening systems to assure maximum strength. All units are equipped with heavy-duty, adjustable leveling glides to ensure proper leveling and compensation for uneven floors. All units have finished backs unless noted. All pedestals have wire management access from pedestal to kneespace.

DRAWERS

All drawer fronts are standard with elegant veneer faces. Fronts are 3-ply construction ¾" thick and vertically matched in sets. Drawer interiors are constructed with wood grain vinyl wrapped sides, ½" thick. Box and file drawers have ⅛" thick hardboard bottoms. Lateral file drawers feature ¼" thick bottoms for storage applications. 5-Sided drawer construction allows for easy removal of drawer fronts.

DRAWER SUSPENSIONS

All drawers feature full extension, progressive action slides with precision steel ball bearings. Box and file drawers are tested for 100 lb capacity. Lateral files are tested for 150 lb capacity. All suspensions have a limited life-time warranty.

FILING HARDWARE

All file drawers are standard with filing systems designed to accommodate a variety of filing requirements. Modular component pedestals provide letter filing front to back and legal filing side to side. Lateral file drawers provide legal or letter filing front to back or side to side.

LOCKING

All units with file drawers feature locking. All pedestals come with standard or optional locking. Locks are black or silver to match the pull selected. Removable lock cylinders allow units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard. Lock cores match pull color.

FINISH

Aura Reception features Ultra-Violet matte finish on all exposed surfaces by utilizing roll-coat UV technology. Our durable UVAdvantage® finish makes surfaces less likely to be damaged by abrasions, scratches, water, alcohol, stains, and common chemicals. Our UVAdvantage® finish magnifies the beauty of our wood finishes and reduces the darkening, aging, and yellowing process of wood furniture that naturally occurs over time. Once cured by UV lighting, our UVAdvantage® finish does not emit irritable toxins, formaldehyde, or solvents into the air creating a safe work environment within new furniture installations. This process has allowed us to achieve third party certification for Indoor Air Quality. Additionally our UVAdvantage® finish greatly reduces hazardous air pollutants which contribute to smog formation, and our UVAdvantage® finish is recaptured over and over again reducing waste materials. Automated production technology eliminates exposure to sprayed chemicals in our factories. High gloss UVAdvantage® finish available on request.

MODEL NO.	DESCRIPTION	
61-3672RS	Finish	PW
	Top Surface	W

All options must be labeled and specified.

Specifications

VENEER

Exposed surfaces feature select grade sliced hardwood veneers in American Black Walnut. Veneers are carefully selected and matched to assure proper balance and consistency.

TOPS

Work surface tops are 3-ply balanced construction and 1 5/32" thick with a self-edge. Transaction tops 1 5/32" thick and 5-ply balanced construction in veneer or 3-ply balanced construction in laminate. Transaction tops have solid hardwood rims and are profiled on all sides with mitered corners. Grain runs left to right unless otherwise stated.

CHASSIS CONSTRUCTION

Tops and end panels are securely fastened using high quality European fastening systems to assure maximum strength. All units are equipped with heavy-duty, adjustable leveling glides to ensure proper leveling and compensation for uneven floors. All units have finished backs unless noted. All pedestals have wire management access from pedestal to kneespace. Decorative moldings are hand applied.

DRAWERS

All drawer fronts are standard with elegant veneer faces. Fronts are 3-ply construction ¾" thick and vertically matched in sets. Drawer interiors are constructed with wood grain vinyl wrapped sides, ½" thick. Box and file drawers have ⅛" thick hardboard bottoms. Lateral file drawers feature ¼" thick bottoms for storage applications. 5-Sided drawer construction allows for easy removal of drawer fronts.

DRAWER SUSPENSIONS

All drawers feature full extension, progressive action slides with precision steel ball bearings. Box and file drawers are tested for 100 lb capacity. Lateral files are tested for 150 lb capacity. All suspensions have a limited life-time warranty.

FILING HARDWARE

All file drawers are standard with filing systems designed to accommodate a variety of filing requirements. Modular component pedestals provide letter filing front to back and legal filing side to side. Lateral file drawers provide legal or letter filing front to back or side to side.

LOCKING

All units with file drawers feature locking. All pedestals come with standard or optional locking. Locks are black. Removable lock cylinders allow units to be re-keyed at a later date if required. Units are shipped randomly keyed as standard.

FINISH

Cameo Reception features Ultra-Violet matte finish on all exposed surfaces by utilizing roll-coat UV technology. Our durable UVAdvantage® finish makes surfaces less likely to be damaged by abrasions, scratches, water, alcohol, stains, and common chemicals. Our UVAdvantage® finish magnifies the beauty of our wood finishes and reduces the darkening, aging, and yellowing process of wood furniture that naturally occurs over time. Once cured by UV lighting, our UVAdvantage® finish does not emit irritable toxins, formaldehyde, or solvents into the air creating a safe work environment within new furniture installations. This process has allowed us to achieve third party certification for Indoor Air Quality. Additionally our UVAdvantage® finish greatly reduces hazardous air pollutants which contribute to smog formation, and our UVAdvantage® finish is recaptured over and over again reducing waste materials. Automated production technology eliminates exposure to sprayed chemicals in our factories. High gloss UVAdvantage® finish available on request.

WARRANTY

Subject to the limitations set forth in this warranty, Indiana Furniture Industries, Inc. (**"Indiana Furniture"**) warrants to the original purchaser all product in this price list (**"Product"**) to be free from defects in material and workmanship given normal use for a twelve year period from the date of manufacture. During the applicable warranty period, Indiana Furniture, as its sole obligation, will repair or replace (in Indiana Furniture's sole discretion) any Product, part , or component covered by this warranty and sold after March 1, 2016, which fails under normal use as a result of a defect in material or workmanship. Normal use is defined as the equivalent of a single shift, 40-hour work week. Indiana Furniture will repair or replace the defective Product, part, or component with a comparable Product, part or component.

Warranty periods are limited for certain Products and parts as follows:

12-year Warranty (from the date of manufacture)

- Seating Mechanisms
- Veneers
- Laminates
- Casters and Glides

5-year Warranty (from the date of manufacture)

- Triple Play Series
- Electrical Components
- Pneumatic Cylinders
- Textiles, Foam, and Decorative Trim
- Swivel Arm Pads
- Keyboard kits
- Lighting

2-year Warranty (from the date of manufacture)

- All Sit-To-Stand Mechanisms

THIS WARRANTY DOES NOT COVER:

- Damage caused by a carrier or third party
- Normal or routine wear and tear
- Appearance, durability, quality, behavior, colorfastness or any other attribute of customer's own materials or any non-standard Indiana Furniture material (including Maharam, Momentum, Mayer, UltraFabrics) specified by the customer and applied to a Product
- Color, grain or texture of wood, laminate and other covering materials
- Changes in wood or fabric color due to aging or exposure to light

As the manufacturer of the Product, Indiana Furniture stands behind its craftsmanship and pledges to do everything it can to reasonably resolve, as quickly as possible, any problems you may have with the Product within the terms and conditions of this warranty.

If you encounter a defect covered by the foregoing warranty, you should contact the dealer from whom you purchased the Product. If the dealer is unable to resolve your warranty issues, you should contact Indiana Furniture. Please ensure that you have all of the pertinent facts when contacting the dealer or Indiana Furniture, including the model number and factory order number from the inspection label attached to the Product.

INDIANA FURNITURE IS NOT PROVIDING, AND SPECIFICALLY DISCLAIMS, ANY OTHER WARRANTIES FOR THE PRODUCTS, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. INDIANA FURNITURE SHALL NOT BE LIABLE TO PURCHASER OR ANY THIRD PARTY FOR CONSEQUENTIAL, INCIDENTAL, INDIRECT OR SPECIAL DAMAGES, INCLUDING, WITHOUT LIMITATION, DAMAGES ARISING OUT OF OR RESULTING IN ANY MALFUNCTIONS, DELAYS, LOSS OF PROFIT, INTERRUPTION OF BUSINESS, PERSONAL INJURY, BODILY INJURY, DEATH, DISMEMBERMENT, OR PROPERTY DAMAGE.

Seating

How to Order

MODEL NO.	DESCRIPTION	
396	Finish	LW
	Fabric	Momentum - Fuse - Ginger

All options must be labeled and specified.

Specifications

UPHOLSTERY

Indiana Furniture manufactures seating to meet your own personal style and taste. Highly-skilled upholsterers hand tailor each unit to meet individual chair specifications. Button tufting is hand applied, and pleats are individually tailored on each chair. Hand-set nail trim is individually applied to many traditional chairs. Upholstery options include a wide variety of contemporary and traditional styles in vinyls, leathers, Maharam, Momentum, Mayer, and CF Stinson upholsteries, all pre-graded in this price list for your ease of use. No need to order your own fabric and risk lost orders, fabric costs, freight costs, insufficient yardage, delays, damage, misidentification, or wrong shipping locations. Let Indiana Furniture do all the work for you.

CONSTRUCTION

Indiana Furniture chair frames are manufactured using kiln-dried, solid hardwoods and structurally engineered hardwood plywood. All exposed wood areas are selected from the highest grades of hardwoods. All chair joints are double doweled, or mortised and tenoned, screwed, and glued for maximum strength and durability. Our frames are individually hand assembled and carefully hand sanded prior to being finished.

FINISH

Indiana Furniture uses a multi-step hand finishing process on all exposed wood frames. Each frame is pre-sanded for smoothness. Chairs are stained and finished with a catalyzed varnish finish which offers durability, lasting beauty, and resistance to normal wear. All chair finishes correspond with matching Indiana Furniture casegoods finishes which allows for easy match-up of furniture components without having to custom-stain wood chairs or casegoods within an office.

FOAM

All Indiana Furniture chairs feature high grade CAL 117-2013 polyurethane foam that is attached to chair frame members. To secure additional comfort, high gauge sinuous springs or high quality resilient sheet webbing fastened underneath the polyurethane foam ensures a much softer feel to the chair.

LIFTS

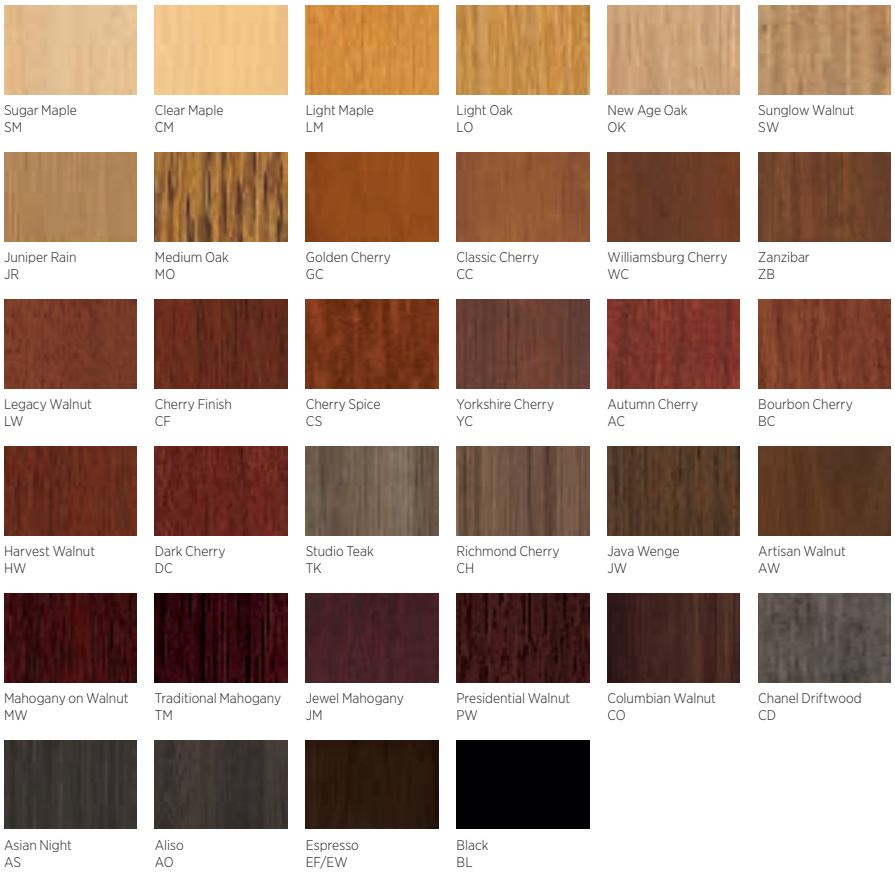
All Indiana Furniture swivel chairs are standard with gas lift mechanisms which allow height adjustments to accommodate various work surfaces.

CONTROLS

Indiana Furniture controls are selected to achieve the most comfortable and ease of operation in today's market. Exceeding the strictest ANSI/BIFMA engineering standards, the slim profile mechanisms feature smooth and noiseless operation. Tension control is easily achieved by adjusting the control located within easy reach below the seat and near the front of the mechanism. Selected series offer the swivel-tilt, the knee-tilt, or syncro-tilt controls.

Both the knee-tilt and syncro-tilt options offer variable tension mechanisms to allow for different body sizes and weights and minimal rise of the seat's front edge. This allows the user's feet to remain planted while reclining to a relaxing position. The syncro-tilt mechanism, however, enhances these benefits by taking full advantage of a sychronized seat and back tilting movement.

Finish Options



Note: Finish shown represents color of frame and may not depict actual grain pattern of chair.

Metal Options

Exclusions may apply. See series options for inclusions or limitations.

Upholstery Options

Indiana Furniture offers a wide variety of contemporary and traditional styles in vinyls, leathers, Maharam, Momentum, CF Stinson, Mayer Fabrics, and Ultrafabrics, upholsteries, all pre-graded in this price list for your ease of use. See pages 10 - 16.

COM and COL are also accepted at Indiana Furniture. Please see pages 8 - 9 for COM/COL instructions.

GRADED-IN PROGRAMS

As a special service to our customers, Indiana Furniture has graded-in upholsteries from Momentum, cf Stinson, Maharam, Mayer Fabrics, Ultrafabrics, Derby Fabric. Please refer to pages 10-16 for a complete listing of all pre-graded upholsteries. Indiana Furniture, along with these fabric suppliers, is committed to offering you a quick and easy ordering procedure and quick delivery of your seating from a single source supplier.

PHOTOGRAPHIC FABRIC CARDS

The fabrics represented on Indiana Furniture photographic cards were reproduced using the finest technology available. Each Indiana Furniture photo card has an 800 phone # for your use while ordering free fabric swatches or samples. Please verify your desired fabric before ordering as such orders are not subject to return to Indiana Furniture.

FRAMES AND GLIDES

All wood frame chairs feature kiln-dried hardwoods which are double-doweled, securely glued, and screwed for maximum joint stability.

Guest chairs ship with nylon glides.

Felt glides (GFELT) are also available on wood Guest Chairs at no additional charge.

Must be specified on order.

UPHOLSTERY FOAM

All Indiana Furniture chairs consist of a high grade polyurethane foam that meets CAL 117-2013.

FINISH

Indiana Furniture standard seating finishes correspond to casegoods finishes. Minor variations in finish color and value may occur due to the natural characteristics of wood. Consult this price list for specific finish availability within each series.

Special Finishes: Indiana Furniture is able to accommodate our customer's needs for specific finish matches. Please submit a 3" x 5" sample panel to Customer Service for quotation, and lead time.

All Indiana Furniture Chairs feature a catalyzed varnish finish which offers lasting beauty and resistance to normal wear.

CASTERS AND NAIL TRIM

Indiana Furniture contemporary swivel chairs are standard with black hooded dual wheel casters.

All Indiana Furniture traditional seating has brass accents (casters and nail trim) where applicable. Silver accents are available. Please specify (SLVR) at no additional charge.

In addition, no nail trim can be requested (NONT), on Amery, Breman, Cirka, and Kennerly seating at no additional charge. Must be specified on order.

BASES

All Indiana Furniture swivel chairs are standard with 5-star bases. Decorative hardwood caps, stylish black nylon, or sleek metal bases complement each chair design.

Optional bases are available on Syntric™ swivel seating. A contemporary polished Aluminum Base or stylish Wood Base can be selected.

Aluminum Base: Specify "AB" and add $108 list.
Wood Base: Specify "WB" and add $252 list.

CONTROL OPTIONS

Knee-Tilt Control

The Knee-Tilt control features a heavy duty torsion bar or a spring tension control which allows variable tension for different body sizes and weights and minimal rise of the seat's front edge. This allows the user's feet to remain planted while reclining to a relaxing position.

A Knee-Tilt control is available on swivel chairs in Brea™, Larson™, Reminisce™, Kennerley, Amery™, and Breman™ series.

Knee-Tilt Control: Specify "KT" and add $178 list.

Synchro-Tilt Control

The Synchro-Tilt control features a tension adjustable mechanism that offers reduced front seat edge rise which allows a user's feet to remain planted while reclining in a relaxing position. In addition, the mechanism takes full advantage of a synchronized seat and back tilting movement to enhance these benefits.

The Synchro-Tilt provides adequate spring tension and adjustability while maintaining even support throughout the entire travel range, satisfying a full spectrum of user sizes and weights. It also allows users to achieve a wide variety of positions common in multi-task seating.

A Synchro-Tilt control is available on swivel chairs in the Oscar™ and Clutch™ series.

Synchro-Tilt Control: Specify "ST" and add $178 list.

CAL 133 CERTIFICATION

California Technical Bulletin 133 (TB 133 or CAL 133) is a composite fire test for fully-assembled seating manufactured for use in certain public buildings. As such, the certification is specific to the fabric that is used in conjunction with the frame and the barrier. Many Indiana Furniture seating products, in combination with some of our standard fabrics, can be manufactured to meet the requirements for certification. Depending on the frame style, a fire-retardent barrier or fire-retardant foam will be incorporated in the chair construction to provide the best opportunity for a successful CAL 133 burn test.

The cost of the test is $690 (net) which includes the test, freight to the test facility and the fully-assembled test sample. Once payment has been made, please allow approximately 6 – 8 weeks for the production of the chair and the completion of the test. Once we receive the successful certification, the order may be placed allowing for 1 week extra leadtime using the "CAL" prefix on the model number with an up-charge of $104 list per chair. Please contact Customer Service at 800.422.5727 to order the test.

If you do not need the actual Certification, but wish to have the chairs manufactured to meet the regulation, we can upholster the chair using the fire-retardant components at the $104 list up-charge per chair. Please order the appropriate frame allowing for 1 week extra leadtime, using the "CAL" prefix in front of the model number.

Please note that if you wish to have Certification on a COM material, Indiana Furniture must approve the fabric according to the COM policy as well.

Indiana FURNITURE

COM/COL FORM

COM - CUSTOMER'S OWN MATERIAL

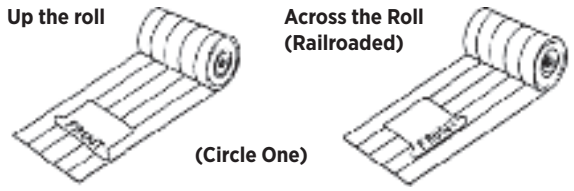
All Indiana Furniture seating is available with material furnished by the customer. Refer to grade 1 for list prices. Refer to individual model number for COM yardage requirements. The listed COM yardage requirement is based on the use of non-directional fabric 54" wide for a quantity of one chair. Extra fabric is required to match any pattern with a repeat, either vertically or horizontally. Use the chart below as a guide to add to plain COM yardage requirements listed in the price list.

For multiple chair quantities, contact customer service to optimize the yardage per chair at 800-422-5727.

Fabric Width	Plain Fabric	2"- 14" Repeat	15"- 27" Repeat	28"- 36" Repeat
54"	0%	10%	25%	30%

Note: *Fabrics less than 54" wide will not be accepted.*

Due to the upholstering process used by Indiana Furniture, some COM fabrics are considered directional that may not be considered directional by the fabric supplier. All Fabric COM's are cut "up the roll" and all vinyls are cut "across the roll" by Indiana Furniture unless otherwise directed by the customer (see below). All directional fabrics on Indiana Furniture frames match both vertically and horizontally. If you do not desire repeat match, please specify on order.



Note: *Directional covers, such as stripes, patterns and plaids may not meet your satisfaction due to contoured shapes and tufting of some models. Should you require such a selection, we will upholster as perfect as possible, but such orders are not subject to return. If in doubt, contact your Indiana Furniture Customer Service Representative prior to placing the order.*

COL - CUSTOMER'S OWN LEATHER

Indiana Furniture is pleased to accommodate COL selections whenever this special need arises. Refer to grade 1 for list prices. To calculate COL requirements, multiply the COM yardage required times 18 (1 yard of fabric = 18 sq. ft. of usable leather). Customer's own leather specifications for Indiana Furniture seating shown within the price list are based on an average hide size of 45-50 square feet.

All square footage requirements are based on usable footage. The shape of a hide and the usable, clean footage may make it necessary for us to request more leather after COL is received.

Please note leather is a natural product, and variation in texture is a pleasing quality belonging exclusively to high grade, full top grain leathers.

Indiana Furniture reserves the right to inspect, approve, or reject any COM/COL fabric. Once approved, Indiana Furniture cannot assume responsibility for the durability or tailoring quality of COM/COL material.

COM/COL Ordering Instructions:

1. Include a 6" sample of the fabric stapled to the order indicating which side is to be exposed.
2. If COM has a pattern or stripe, indicate whether to apply vertically or horizontally. All stripes will be applied vertically unless specified otherwise.
3. Specify the fabric supplier's name, fabric pattern, pattern color, and pattern number.

COM/COL Ordering Instructions:

Fill out the form below and attach sample according to instructions on reverse side of form. **COM's must meet and include written confirmation from the supplier verifying CALTB 117-2013 compliance.** Failure to complete this form and supply samples will delay the scheduling of the purchase order. Orders will not be scheduled until fabric is received from the supplier. Fabric should not be ordered until Indiana Furniture has verified the yardage required.

COM Form:

Dealer Name _____ Phone _____ Email _____

Contact Person _____ City _____ State _____ Zip _____

Mill/Supplier _____ Pattern _____ Color _____

Repeat Inches: Horizontal _____ Vertical _____ Directional: Up the Roll / RailRoad (Circle One)

Note: *Required fabric width is 54".*

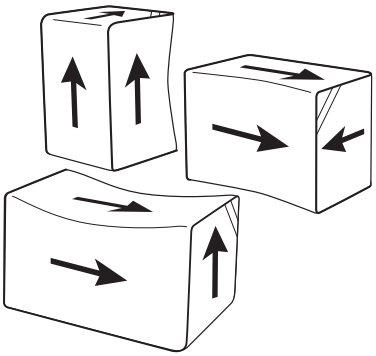
PATTERN DIRECTION



Arrows Represent "Up the Roll".

Indiana Furniture will make every attempt to have the fabric pattern going the same direction while making the best use of the yardage supplied.

It is recommended to avoid obvious directional patterns due to Triple Play's different positions for use.

Item	Model No.	Chair Width	Chair Depth	Chair Height	Seat Width	Seat Depth	Seat Height	Arm Height	Ship Wt	Cubic Ft

JOT™ 410 SERIES

Standard Options

TOPS

Jot™ offers three surface materials to meet the demands and style of today's work environments, wood veneer, laminate, and solid-surface.

The wood veneer tops are of select grade sliced Black Walnut, Wenge, Cherry, or Maple species. These veneers are book-matched, slip-matched, or quarter cut to assure each veneer face offers the proper balance and consistency. Tops are 3/4" with veneer edge bands.

The laminate top surfaces offer eighteen choices that provide a transitional and contemporary look. Laminate tops are 3/4" with 1 mm PVC edge bands.

The solid surface tops are 3/4" and available in six contemporary colors and two edge styles.

BASES

Bases are manufactured using 3/4" steel frames. All joints are mitered and fully welded for maximum strength and durability. Each piece is powder coated in your choice of five standard colors.

CONSTRUCTION

Tops are securely fastened to the metal bases with metal screws.

FINISH

Veneer tops feature Ultra-Violet finish on all exposed surfaces by utilizing roll-coat UV technology. Our durable UVAdvantage® finish makes surfaces less likely to be damaged by abrasions, scratches, water, alcohol, stains, and common chemicals. Our UVAdvantage® finish magnifies the beauty of our wood finishes and reduces the darkening, aging, and yellowing process of wood furniture that naturally occurs over time.

Frames feature a powder coat finish that provides both a contemporary decorative accent and corrosion resistance.

TOPSY TURVY® 521 SERIES

Standard Options

TOPS

Topsy Turvy® offers surface materials to meet the demands and style of today's work environments, wood veneer, laminate, and solid-surface. Topsy tops are 1" thick while Turvy tops are ¾" thick.

The wood veneer tops are of select grade sliced Black Walnut, Wenge, Cherry, or Maple species. These veneers are book-matched, slip-matched, or quarter cut to assure each veneer face offers the proper balance and consistency. All veneer tops have veneer edge bands with a self-edge.

The laminate top surfaces offer eighteen choices that provide a transitional and contemporary look. Laminate tops have 1 mm PVC edge bands with a self-edge.

Solid surface tops are available in six contemporary colors.

BASES

Bases are manufactured using steel frames. All joints are mitered and fully welded for maximum strength and durability. Each piece is powder coated in your choice of five standard colors.

CONSTRUCTION

Tops are securely fastened to the metal bases with metal screws.

FINISH

Veneer tops feature Ultra-Violet finish on all exposed surfaces by utilizing matte roll-coat UV technology. Our durable UVAdvantage® finish makes surfaces less likely to be damaged by abrasions, scratches, water, alcohol, stains, and common chemicals. Our UVAdvantage® finish magnifies the beauty of our wood finishes and reduces the darkening, aging, and yellowing process of wood furniture that naturally occurs over time.

Frames feature a powder coat finish that provides both a contemporary decorative accent and corrosion resistance.

MARQUEE™ 420 SERIES

Standard Options

CONSTRUCTION

Marquee™ is manufactured using 1 1/2" x 1/2" steel frames. All joints are mitered and fully welded for maximum strength and durability. The highest grades of hardwoods are selected for tables.

FINISH

Marquee™ frames are available with chrome plating or powder coat finish. Both provide a contemporary decorative accent and corrosion resistance.

Marquee™ tables are finished in a multi-step process. All components are pre-sanded and stained with a selection of finishes designed to match Indiana Furniture casegood finishes. Tables are protected with our state of the art UVAdvantage roll coat technology. All Indiana Furniture finish applications include AMP Anti-Microbial Protection to inhibit the growth of mold, mildew, fungus, and bacteria on wood surfaces, as well as odors caused by bacterial growth.
