Apogee™ Product Information

Wood Materials
Exterior surfaces are made from the finest selected veneers. Matching solid lumber wood species are used to coordinate with the veneer. High quality MDF is used on the painted surfaces.

Apogee™ is available in quarter cut Walnut, quarter cut Maple, quarter cut Makore or Double Cut veneer.

Exterior Metal Materials
A custom shaped extruded anodized aluminum pull is used on the drawers and doors. The thin profile glass door frame is also anodized aluminum, along with the valance rail used with task lights on overheads.

Leg and Post frames are fabricated steel tubing finished with a Bright White or Arctic Silver powder coat. Shelf dividers, wire dividers, and other metal trims are fabricated and finished in a matching Silver powder coat.

Metal Finishes

ASL	Arctic Silver	BWH	Bright White

Worksurface Construction
All tops are 1 3⁄16″ thick with 3-ply construction and trimmed off with matching 1.5mm rims. Worksurface tops are only available in the Apogee™ veneer options. Requests for laminated tops will need to be reviewed for approval, contact Customer Service.

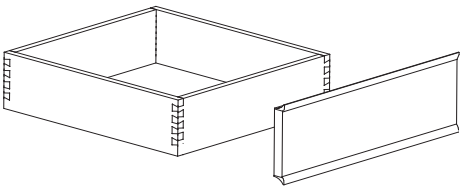
Case Construction
All cases are constructed with mortise, tenon, and dowels. Interior cases are reinforced with glued cleats and screws. Panels for cases are normally ¾″ thick with 3-ply construction. All pedestals have enclosed bottoms.

Plinth style bases are attached directly to the bottom of the cases. The metal glide housing inside the base provides for accurate leveling. Front and back glides in drawer pedestals can be adjusted up and down by removing the lower drawer and using the glide access hole located in the bottom of the case.

Cabinet doors have 110° swing hinges to allow adequate access into cabinets. Hinges are fitted with a soft close device, requiring only a soft push to close the door. Units taller than 18″ are fitted with an adjustable shelf.

Drawer Construction
Drawers are assembled using a four corner dovetail box and ¾″ thick drawer bottom panel construction. The exterior front is attached separately. Sides and backs are approximately ½″ thick solid hardwood. Drawer components have a UV finish to protect against shrinking, swelling, or warping and to provide a clean smooth feel and appearance. Lateral files have reinforced bottoms.

The exterior front panel is 3-ply and ¾″ thick. The front is attached to the assembled drawer box. The anodized aluminum pull runs along the top or bottom edge of the drawer front.



box drawer and front with pulls (middle drawer)
wood drawer box - DRW

Drawer Suspensions
Suspensions are black and carry a lifetime warranty. File and Box drawers have 100% full extension with over travel. Slides feature steel ball bearings for longer wear. Suspensions on utility, box and file drawers have a soft close device, allowing for an effortless closing of the drawer.

Filing Systems
All drawers intended for filing come with clips and metal stretchers to accommodate hanging folders.

Finish - Stain/Colors
We offer a variety of wood stains and paint colors on Apogee™. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

MK2 Makore *Quarter Cut Veneer*

Protective Top Coat
DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features
Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the indoor air we breathe. Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood. Durabilty - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Apogee™ Product Information

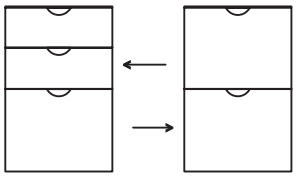
Product Modification

Special Finishes
Special finishes can be requested by following the instructions in the general introduction section, page 3. There is a one time charge of $275 list per order.

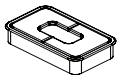
Premium Veneer
Upon request standard veneer can be changed to a special veneer contact Customer Service for availability and pricing.

Pedestal Configuration Change
Utility/Box/File configuration is standard on all desks and File/File configuration is standard on all return units.

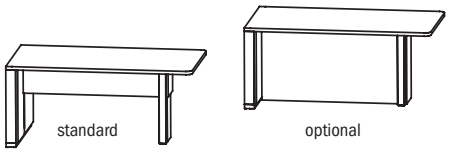
Apogee drawer configuration on pedestals 29½" high can be reconfigured to a Utility/Box/File or File/File configuration, but must be specified at the time of order with an additional 5% cost to the list price.



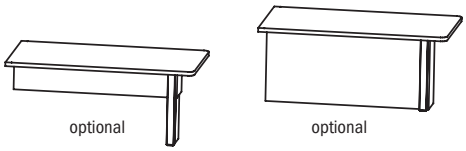
Grommets
Please see page 44 for location and placement availability. Add $75 list for each grommet.



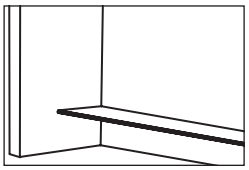
Modesty Panel
End Panel Desks are standard with a partial modesty. A full modesty is available as an option and should be ordered with the desk. See price list pages for availability and pricing.



Run-Off Desks are standard without a modesty. Optional partial or full modesty may be specified on the desk. See price list pages for availability and pricing.

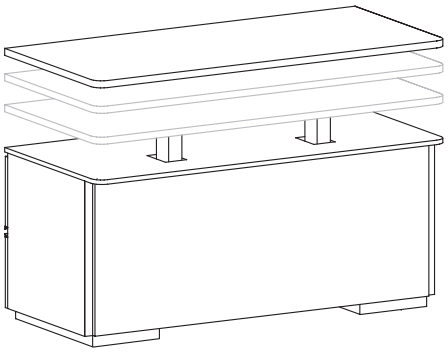


Mini Shelf
Aluminum mini shelf is optional on the insert panel overhead cabinets. This option needs to be specified with the overhead cabinet.



Special Sizes and Construction
Apogee has various modular units to create many popular applications. Please contact Customer Service if you need help in creating a particular layout.

Apogee™ Product Information



This mechanism requires a signed Liability Wavier prior to time of order specification.

Contact Customer Service or visit our Website at jsifurniture.com

Ergo Adjustable Work Height Mechanism
Our proprietary adjustable work height mechanism can be specified on many of the models in Apogee.

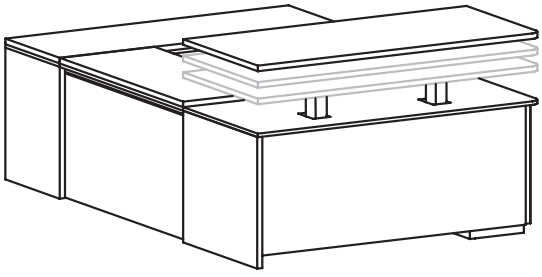
ERGO mechanism allows height adjustability to be added to the worksurface. Our solution uses a standardized design that minimizes the modifications required to standard desk, bridge or credenza models. The mechanism and control box are neatly concealed to maintain the appearance of the original elegance of the product. A push button control activates the electric powered lifting columns for adjustability from sitting height to a standing height. A ¾" thick finished sub top is added to the top of the desk chassis for a clean appearance when the surface is in the raised position. In the lowered position, please note that Ergo adds ¾" to the standard height of the desk and the installation will decrease kneespace depth by 8".

Automatic Collision Control is built in to each mechanism as a standard feature. When the system senses an obstacle obstructing the movement, the mechanism will reverse direction and retreat by 1".

When Ergo is added to a desk worksurface in a "L" or "U" group, the unit that connects to the desk also needs to have a sub top added. These units are considered to be ERGO ADJACENT units. ERGO ADJACENT units must have a fixed height worksurface that matches the lowest position of the Ergo mechanism and the top. This is accomplished by adding a ¾" sub top between the chassis and the worksurface. This feature can also be specified for cabinets which may sit next to a unit with the Ergo mechanism.

Height adjustment starts at 30 ¼", to a standing height of 49 ¾", a range of 19 ½".

To specify the unit that has the mechanism add **ERGO** to the end of the model number.
To specify the connecting or adjacent units add **ERGO ADJACENT** to the end of the model number.



Example

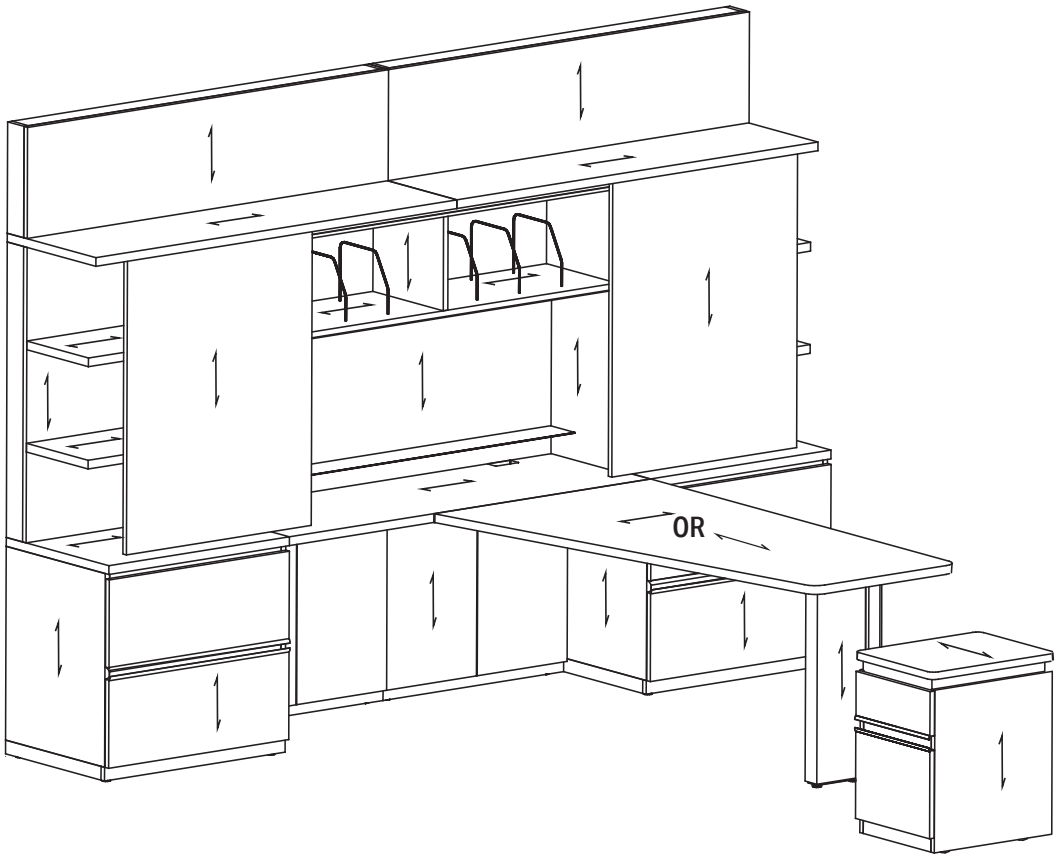
Connecting or Adjacent Units to Match Starting Height

All the units listed above can be specified as connecting or adjacent units. Other Apogee units could also be used as connecting units, please contact Customer Service for additional items and pricing. When specifying please add "**ERGO ADJACENT**" to the end of the model number.

Pricing for Standard Connecting or Adjacent Units
Tops larger than 24" x 48" add $500 to the list price.
Tops 24" x 48" or smaller add $425 to the list price.

Apogee™ Product Information

Quarter Cut Veneer Grain Direction

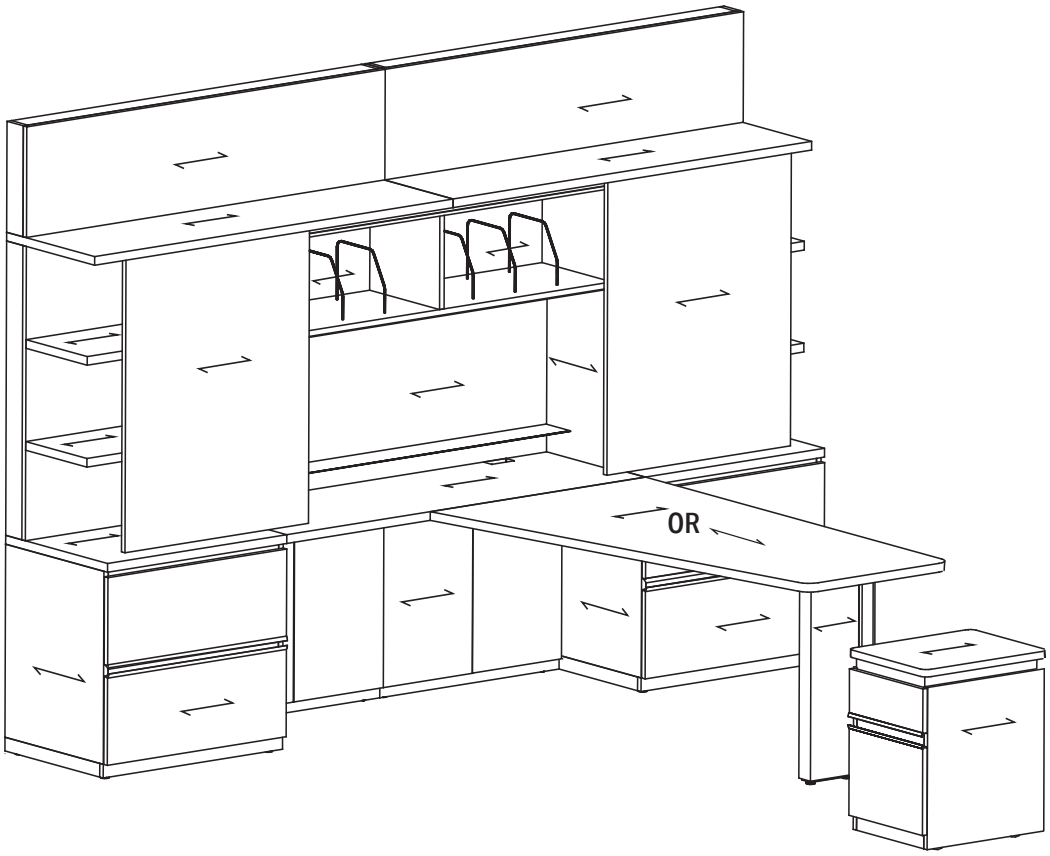


Quarter Cut Veneer
Standard direction for quarter cut veneer on Apogee™ is vertical.

The log is cut into quarters prior to slicing. This method bisects annual growth rings and results in a straight grain or ribbon-striped appearance.

Apogee™ Product Information

Double Cut Veneer Grain Direction



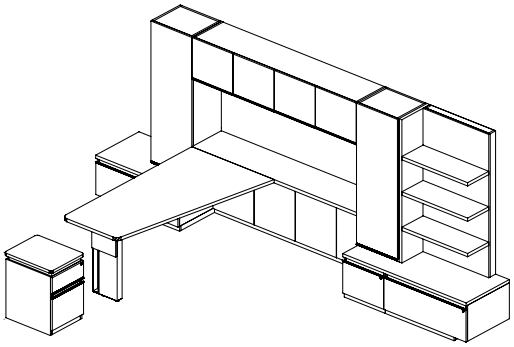
Double Cut Veneer
Standard direction for double cut veneer on Apogee™ is horizontal.

This veneer uses multiple layers of thin wood which is re-assembled, then re-cut in a factory, under controlled specifications. The veneer used in our program is a uniform straight grain pattern and is pre-stained for color consistency.

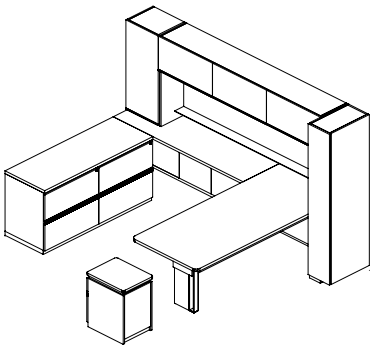
Apogee™ Product Information

Layouts

Two typical casegood layouts that can easily be created with Apogee™



Casegood layout made up of modular components, Trapezoid Run-Off Desk, One-High Lateral with Full Height Wall Access, Towers, Wall Mount Overhead, and Asymmetric Shelf



U-Group layout made up of built up, free standing casegood components, End Panel Desk, Full Height Access, Panel-Support Overhead, Tower, Wardrobe and Two-High Lateral

Casegoods feature modular wall components including: storage overhead cabinets, asymmetric shelves and back panels

Two heights & two depths of wall components
Wall-mount or Panel-supported Overheads
Casegood worksurface tops specified separately

1 **Overhead, Wall Mount**

2 **Wall Panel**
Available in veneer, magnetic glass marker board, paint or tackable fabric. Thin profile anodized aluminum frame is featured on the panels with the glass option.

3 **Wall Panel with Mini Shelf**
Available in veneer, magnetic glass marker board, paint or tackable fabric. Thin profile anodized aluminum frame is featured on the panels with the glass option. 5" Mini shelf is finished in anodized aluminum.

4 **Run-Off Desk**
Has an option for partial or full modesty panels in veneer or paint.

5 **Tops**
Modular items can be attached together with common worksurface tops. Refer to the items, some tops may be included.

6 **Low Storage: Two-High Lateral File**

7 **Low Storage: One-High Lateral File**

8 **Low Storage: Wall Access Panel (partial height)**
Allow for wiring to pass through to building wall.

9 **Storage Tower**

10 **Asymmetric Shelf**

11 **Accessories: Piling Shuttle (tops with shuttle tracks)**
Shuttle slides back and forth on the track.

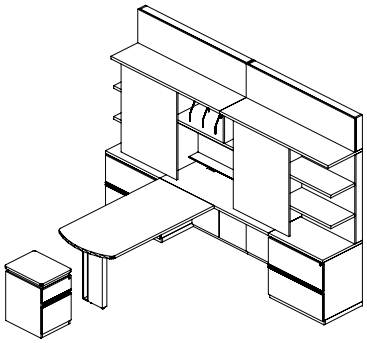
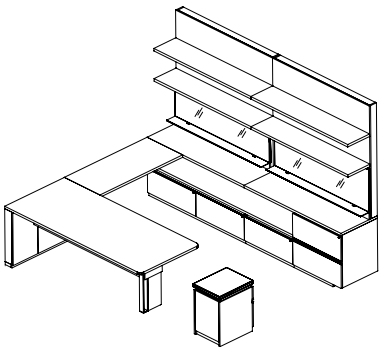
Layouts

Two typical workwall layouts that can easily be created with Apogee™



Workwall grouping with Arc End Runoff Desk, Two-High Lateral Files, Full Height Wall Access with two piece Workwall and Workcenter



U-Group layout with End Panel Desk, Bridge Top, One-High and Two High Lateral Files, Partial Wall Access Panels, Open Workwall Shelves with Magnetic Back Painted Glass Marker Board

Workwalls can be specified with Open Shelves or Workwall with Work Centers solutions

One height & one depth of workwall
Left and Right End Section specified as a set
Tops are included with each section of workwalls components

1. **Sections of WorkWall**
   Doors available in veneer finish, paint, or back painted glass with or without magnetic feature. Wall attachment required.
2. **Workcenter**
   Five different configurations: combination of shelves with wire dividers, lower cubby, glass marker boards, monitor opening, refer to pages 164-167.
3. **Open Frame Desk with Return Console Feature**
   Frame available in two finishes, Bright White or Arctic Silver. Power & Data unit available as an option.
4. **Tops (included with WorkWall components)**
5. **Partial Wall Access Panel**
   Tops included with some units.
6. **Low Storage: One-High Lateral File**
7. **Low Storage: Console Connector with Hinged Door**
   Use in conjunction with return console, provides pass thru for wiring from the desk to the building wall.
8. **Return Console**
   Sliding door opens up to lift out charging and organization trays lined in felt. Section under desk provides access to wire storage and includes a power strip.
9. **Low Storage: Two-High Lateral File**
10. **Accessories: Leather Desk Pad**

Apogee™ Product Information

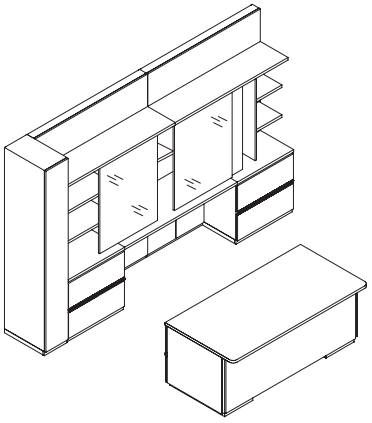
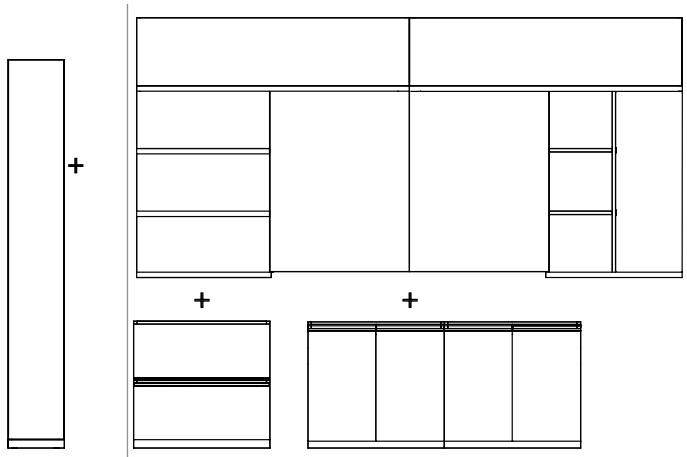
86” Overall Height





Important
Tops are included with the work wall

Upper workwall component will not work
with other overhead components
(Storage Overhead, Wall Mount Overheads, Towers and Asymmetric Shelves)

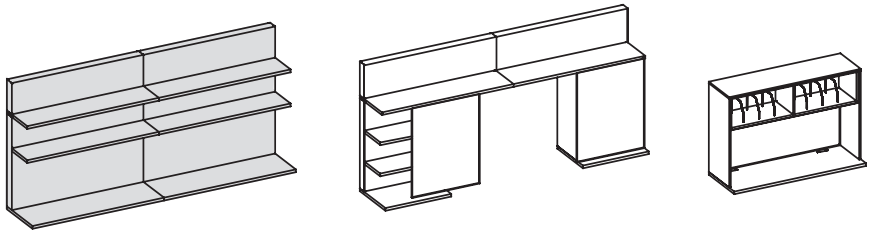
wardrobe	85½″	workwall with sliding door	57″
		lateral without top and wall access panel	28½″
overall*	86″		86″

** overall height is rounded up, consideration for leveling tolerance is included.*

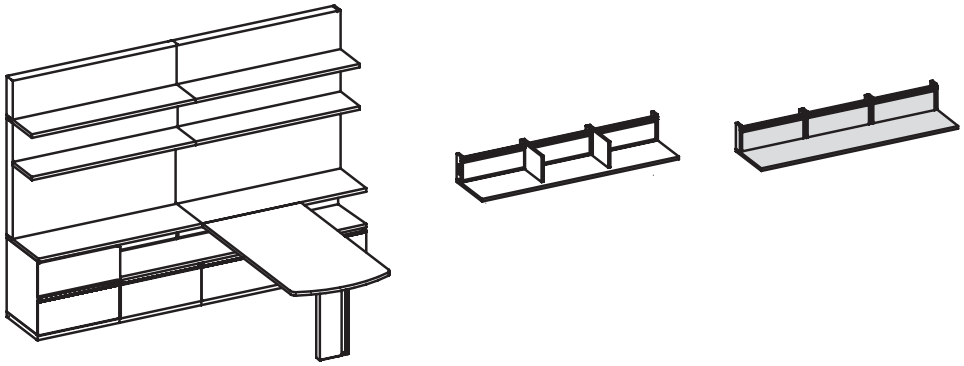
Apogee™ Product Information

- **1** Select an overall layout style (primary runoff, U grouping or freestanding table desk). Consider the overall width, Workwalls are available in 144″ or 120″ widths. Then determine the method of support for secondary workwall top, see page 53.

- **2** Choose the workwall, either full open shelves or units with an open center section and doors. When choosing the units with doors you must also select a workcenter, this is required and is specified as a separate model.

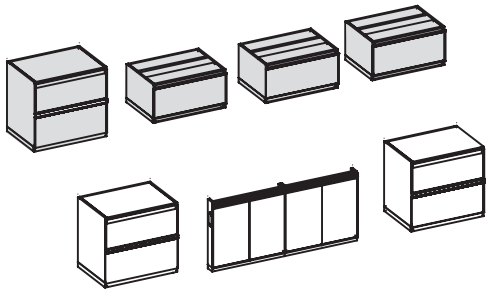


- **3** If using one-high storage/lateral, select the correct kneespace access unit. If side units such as wardrobe cabinets flank the workwall use the unit without the built in support extensions.

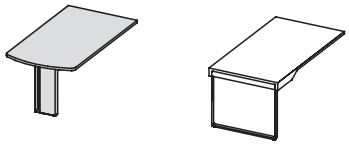


Note: These units are only needed when NOT using a workwall and without adjacent storage support

- **4** Choose the lower units to complete the workwall.



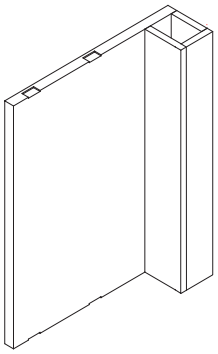
- **5** Choose run-off desk to finish the layout.

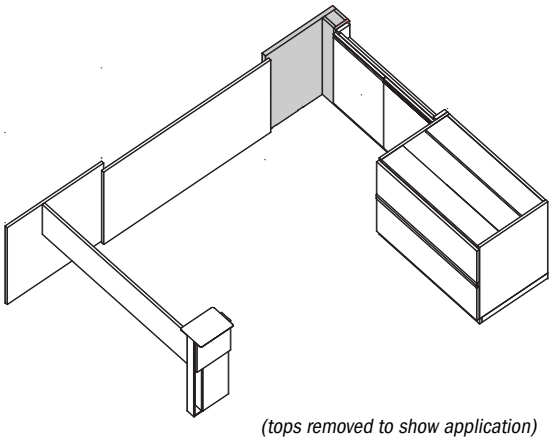


Apogee™ Product Information

End Panel Transition to Access Panel

End panel transition supports and creates a transition when using a standard end panel desk and bridge; turning the corner to a kneespace access panel. (This item can be flipped for left or right).

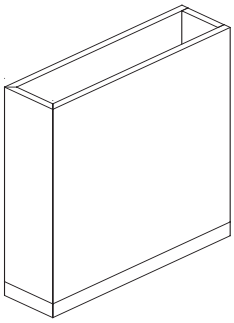


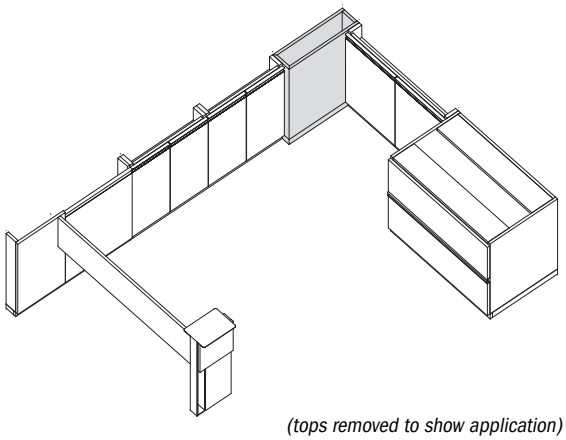


(tops removed to show application)

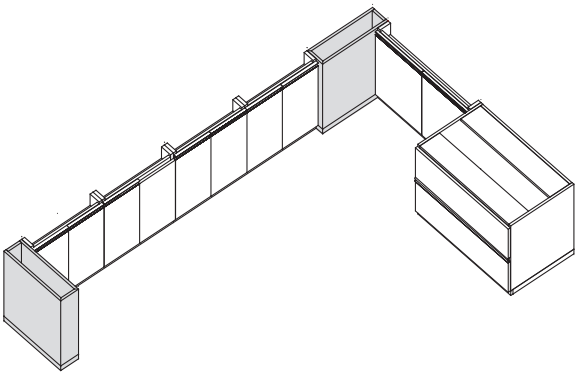
End Support

End support can be used to end a run of modular units or to turn the corner. Front corners are mitered.
(Unit can be used for left or right applications).





(tops removed to show application)



(tops removed to show application)

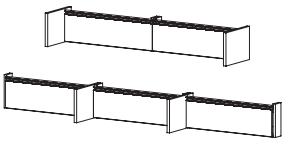
Apogee™ Product Information

Floating Top Appearance

Partial height kneespace access panels are used above one-high storage units to support floating workwall tops. Depending on adjacent storage and support, different types of wall access panels are required.

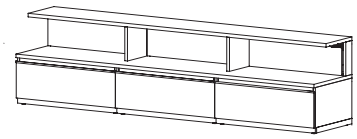
If you are using a Workwall or have top support on both sides, you can use the Wall Access Panel. If you are not using a Workwall and do not have top support on both sides, a Wall Access Panel with Support Panels is required.

Wall Access Panel with Support Panels



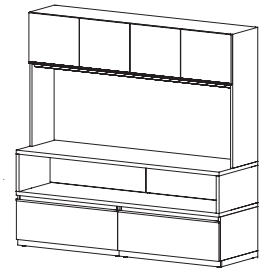
Use the partial wall access units with panel support when configuring examples 1, 2 & 3 see page 92.

Example 1



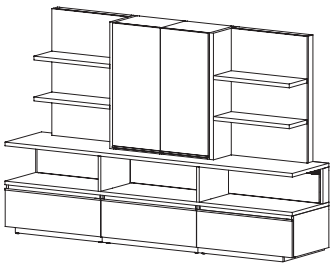
This example needs the additional support for the top, shown with a 15″ deep top.

Example 2



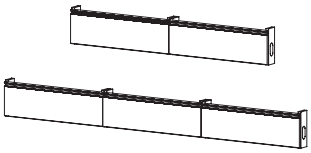
The wall access panel 72″ wide has the support panel on the outside which supports the 22″ deep top.

Example 3



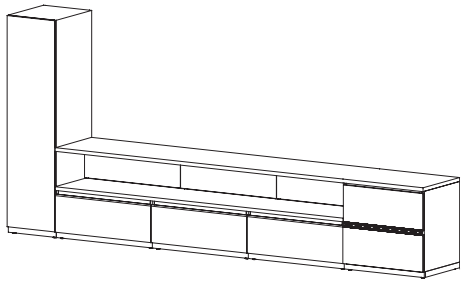
Support for this configuration is needed for the top and the asymmetric shelves and towers.

Wall Access Panel



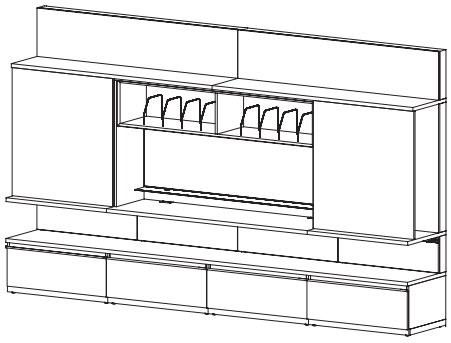
The partial wall access panels as shown above are used in configuration examples 4 & 5 see page 91.

Example 4



The top is supported from both sides, shown with a 22″ deep top.

Example 5

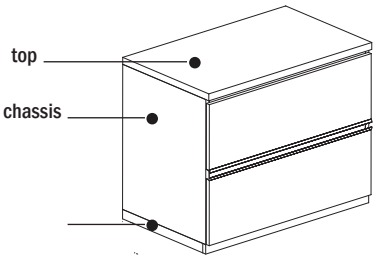


Tops are part of the wall hung workwall components. It is recommended the wall access panel be attached to the wall.

Apogee™ Product Information

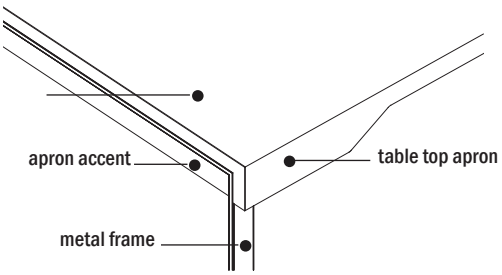
Finish & Paint Scheme

(see page 32 for list finish options)



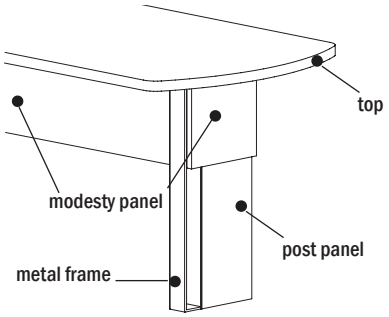
tops - veneer only
chassis/drawer fronts - veneer or paint
base - must match either top or chassis

can only choose one veneer finish and one paint per unit



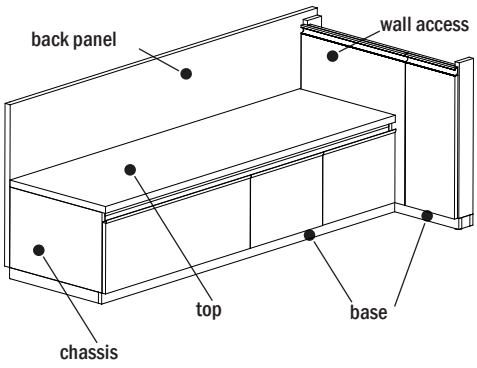
top and table top apron - veneer only
accent apron - veneer or paint
metal frame - arctic silver or bright white

can only choose one veneer finish and one paint per unit



top - veneer only
modesty panel - veneer or paint
post panel - veneer or paint
metal frame - arctic silver or bright white

can only choose one veneer finish and one paint per unit

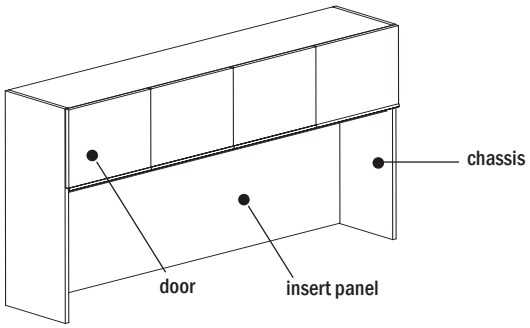


top - veneer only
wall access unit, back panel and chassis/fronts - veneer or paint
base - must match top or wall access unit, back panel and chassis/front

can only choose one veneer finish and one paint per unit

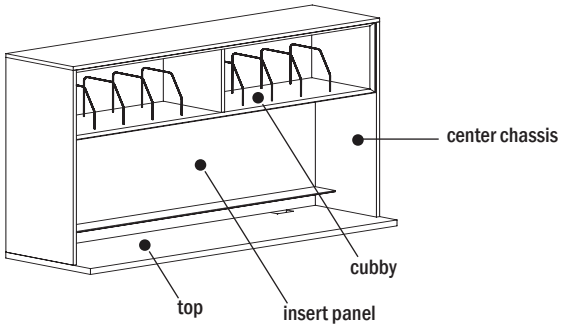
optional cushions can be order to create a bench

Apogee™ Product Information



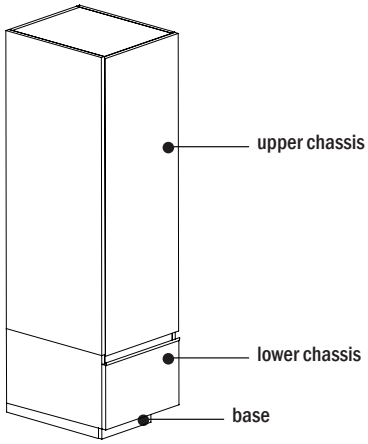
chassis - veneer or paint
doors - veneer or paint
insert panel - veneer, paint, magnetic back painted white glass or fabric
(requires a specification)

can only choose one veneer finish and one paint per unit



top - veneer only
insert panel - veneer, paint, magnetic back painted white glass or fabric
(requires a specification)
cubby - paint only
center chassis - veneer or paint
divider - silver

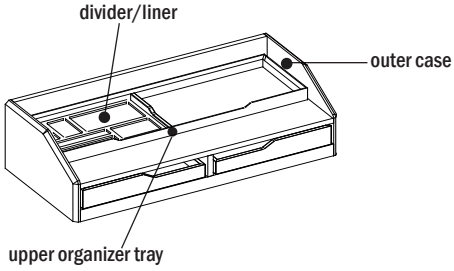
can only choose one veneer finish and one paint per unit



upper chassis/door fronts - veneer or paint
lower chassis/drawer fronts - veneer or paint
base - veneer or paint

can only choose one veneer finish and one paint per unit

scheme allows one high modular components to match lower sections of wardrobe cabinets



outer case - paint
divider/liner - charcoal felt
upper organizer tray - matches outer case
paper tray - paint or veneer

can only choose one veneer finish and one paint per unit

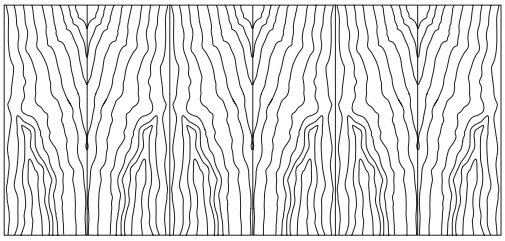
Broadway Product Information

Exterior Wood Materials
Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Broadway product line. To attain a pleasing, symmetrical pattern, all veneers in Broadway are book-matched. All exterior solid lumber is matched to coordinate with the veneer.



Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Broadway is available in flat cut cherry, maple and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Solid painted finishes on the veneer are also offered to provide an accent to the Broadway product.

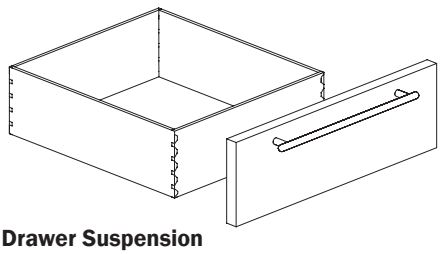
Work Surface Construction
Tops are 5-ply balanced construction, 1 ½" thick with solid matching hardwood edges.

Matching or coordinating high pressure laminate in a veneer grain can be applied to the top surface and is available at no additional charge.

Case Construction
Outside panels are 13/16" ▲ and joined together by mortise and tenon construction. In addition to mortise and tenon joint construction, pedestal joints are reinforced with screws, cleats, brackets and glue. Leveling glides are set into solid hardwood blocks with t-nut inserts, which helps to prevent the leveling glide from tear out. Tops are secured to the chassis with top fastening cleats screwed to the inside of the panels.

Cabinet doors have 110° swing hinges to allow adequate access into the interior of the cabinet.

Drawers
The 9ply unidirectional hardwood sides of the drawer box are 7/16" thick assembled with English dovetail construction at each corner of the box. The drawer bottom panel is ¼" thick fitting into a groove machined into the side of the box. Interiors are sanded and coated with clear U.V. finish to protect against shrinking, swelling or warping, and to provide a clean, smooth feel and appearance.



Drawer Suspension
The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. File and box drawers have 100% full extension with over travel.

Filing Hardware
All file drawers are constructed with a custom designed filing system in place to allow for hanging folders. Filing diagram on pages 184-186.

Locking
All desks, lateral files and free standing credenzas feature central locking. Returns and single pedestal credenzas feature pedestal locking to provide maximum security and flexibility.

Units are shipped randomly keyed as standard (units in the grouping are keyed alike). Keyed alike units are available if requested at no upcharge. Removable cores for in-field re-keying are standard.

Finish - Stain/Colors
We offer a variety of wood stains and paint colors on Broadway. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

CH1 Cherry *Flat Cut Veneer*

FRR	French Roast		

Protective Top Coat
DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features
Safety - Significantly reduces hazardous formaldehyde emissions, which help improve the quality of the of the indoor air we breathe.
Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.
Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Broadway Product Information

Product Modification

Laminate Tops
Worksurface only, no additional upcharge if coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request. Listed below are finishes that have coordinating wood grain HPL laminates.

Cherry Finishes	Maple Finishes	Walnut Finishes
Autumn	*Ale*	*Auburn*
Barley	*Cinnamon*	*Mocha*
Bourbon	*Venetian*	*Night Owl*
Brighton		*Sienna*
Classic		*Toffee*
Legacy		*Truffle*
Praline		
Saffron		

Special Finishes
Special finishes can be requested by following the instruction in the general introduction section, page 3. There is a one time charge of $275 list per order.

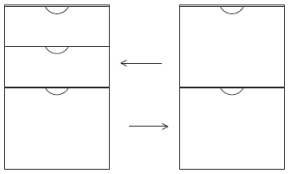
Finish Sheen Modification
Finish sheen can be modified on the worksurface tops. There is a 15% upcharge added to the list of each item.

Two-Tone Finish
Units specified in a two tone finish (either two different paint finishes or a paint finish and wood stain) requires approval with an upcharge of 8% to the list price.

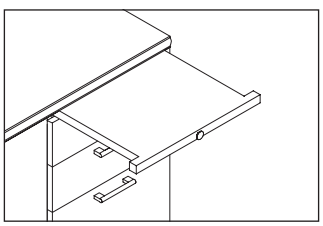
Oak Veneer
Upon request veneer can be changed from the standard offering to oak flat cut veneer with an additional 40% upcharge to the list of each item.

Pedestal Configuration Change
Box-box-file configuration is standard on all desks and file-file configuration is standard on all return units.

Broadway drawer configuration on pedestals 30″ high can be switched out either to a box-box-file or file-file configuration, but must be specified at the time of order and with an additional 5% upcharge to the list price.



Writing Shelf - Pull Out (Arm Slide)
Desk Pedestals in Broadway can have an optional pull out shelf above the top drawer for additional writing surface. Add $258 to the list for each pedestal. The locking on the pedestal will change from central locking system to pedestal locking system.



Special Sizes from Standard Offering

The following chart contains pricing for general modifications to Broadway. **All modifications still must be approved by JSI manufacturing**, please contact Customer Service to verify any of the modifications listed in the chart below. More complex modification to standard product may be possible, please refer to page 3 for additional details.

This chart does not apply to glass doors, glass tops or to metal components; such as modesty trims panels, structural support and cornices. Any changes to file drawers will affect filing capabilities.

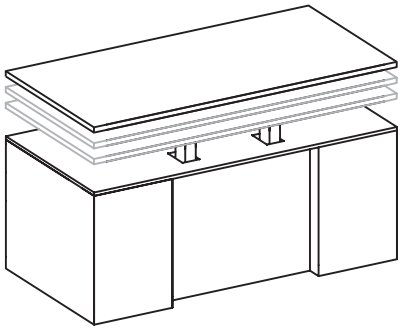
Decreasing width	$114
Any Top	
Decreasing width	$168
Decreasing depth	$168

Example 1
Increasing open corner credenza width by 11″, from 84″to 95″.
Add Top Width ($288 × 2) [$288 for each 6″ increment]
Add Panel Width ($221 × 2) [$2,21 for each 6″ increment]
Total Modification = $1,018 upcharge

Example 2
Increasing a desk pedestal depth from 36″ to 40″ & increase the width of the same pedestal by 8″.
Add Pedestal Depth $872
Add Pedestal Width ($978 × 2) [$978 for each 6″ increment]
Total Modification = $2,828 upcharge

Example 3
Decreasing an overhead from 60″ to 58″ width & increasing the depth by 3″.
Decrease Overhead Width $224
Add Overhead Depth $1,176
Total Modification = $1,400 upcharge

Broadway Product Information



This mechanism requires a signed Liability Wavier prior to time of order specifcation.

Contact Customer Service or visit our Website at jsifurniture.com

ERGO Adjustable Work Height Mechanism
Our proprietary adjustable work height mechanism can be specified on many of the models in Broadway.

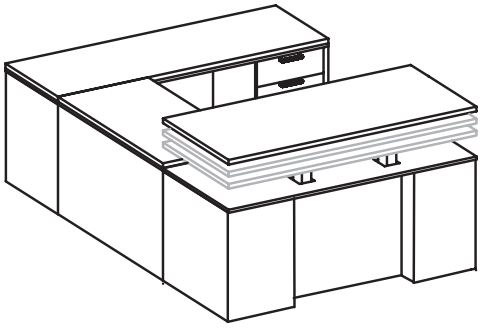
ERGO mechanism allows height adjustability to be added to the worksurface. Our solution uses a standardized design that minimizes the modifications required to standard desk, bridge or credenza models. The mechanism and control box are neatly concealed to maintain the appearance of the original elegance of the product. A push button activates the electric powered lifting columns for adjustability from sitting height to a standing height. A ¾" thick finished sub top is added to the top of the desk chassis for a clean appearance when the surface is in the raised position. In the lowered position, please note that ERGO adds ¾" to the standard height of the desk and the installation will decrease kneespace depth by 8".

Automatic Collision Control is built in to each mechanism as a standard feature. When the system senses an obstacle obstructing the movement, the mechanism will reverse direction and retreat by 1".

When ERGO is added to a desk worksurface in a "L" or "U" group, the unit that connects to the desk also needs to have a sub top added. These units are considered to be ERGO ADJACENT units. ERGO ADJACENT units must have a fixed height worksurface that matches the lowest position of the ERGO mechanism and the top. This is accomplished by adding a ¾" sub top between the chassis and the worksurface. This feature can also be specified for cabinets which may sit next to a unit with the ERGO mechanism.

Height adjustment starts at 30 ¼", to a standing height of 49 ¾", a range of 19 ½".

To specify the unit that has the mechanism add **ERGO** to the end of the model number.
To specify the connecting or adjacent units add **ERGO ADJACENT** to the end of the model number.



Example

BR3672LD-ERGO	add $3,100 to list
BR2448EB-ERGO ADJACENT	add $425 to list
BR2472RC-ERGO ADJACENT	add $500 to list

Connecting or Adjacent Units to Match Starting Height

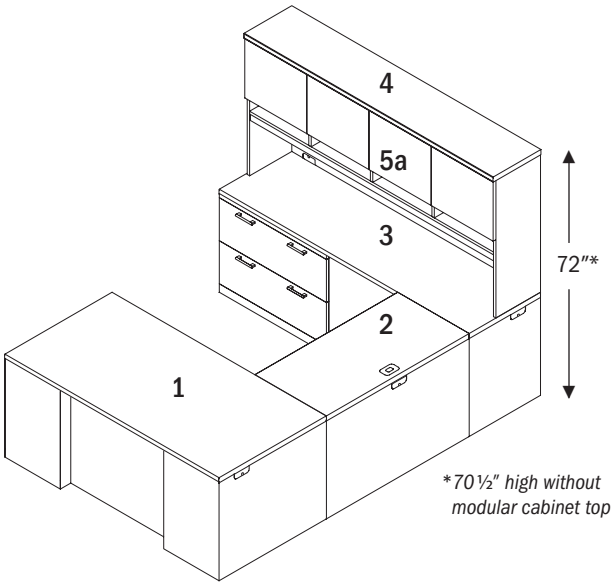
All the units listed above can be specified as connecting or adjacent units. Other Broadway units could also be used as connecting units, please contact Customer Service for additional items and pricing. When specifying please add "ERGO ADJACENT" to the end of the model number.

Pricing for Standard Connecting or Adjacent Units
Tops larger than 24" x 48" add $500 to the list price.
Tops 24" x 48" or smaller add $425 to the list price.

Broadway Product Information

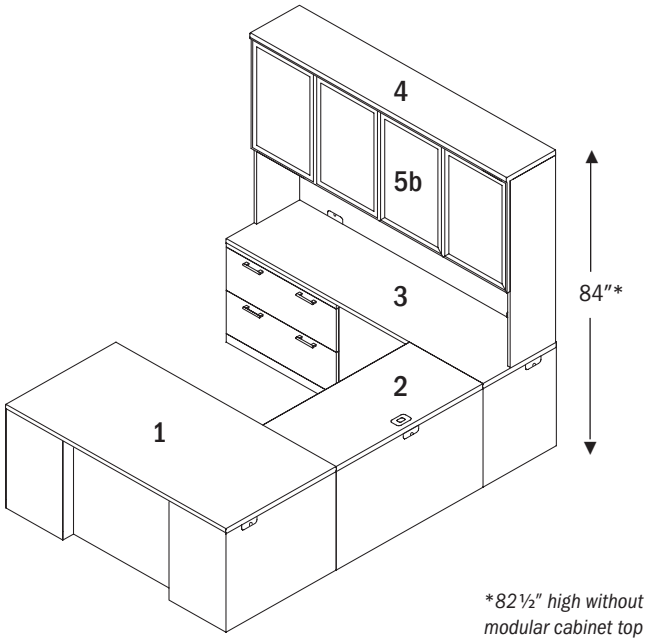
Layouts

Two heights of storage overheads are available in Broadway.



**70½″ high without modular cabinet top*

Broadway is an option rich product line, which allows the product to fit regional style, while still providing easy to specify layouts.



**82½″ high without modular cabinet top*

Taller overhead storage allows for maximum storage while keeping a compact footprint in the layout.

Easily specified and setup while providing well established layouts in the office environment.

1 **Single Pedestal Desk** with the standard box, box, file pedestal configuration and side locking. Standard side grommet keeps the desk top clean from wires, while still having convenient wire management.

2 **Bridge** standard with top back panel grommet and mounting hardware.

3 **Lateral File Credenza** available with fixed back panel or hinged modesty panel to gain access to the wall.

4 **Modular Cabinet Top** is a specification option, which adds another level of aesthetics to the overhead cabinet. Can also be used to create the appearance of one overhead cabinet when using more than one modular overhead.

5a **Overhead Cabinet** height is 40½″ for an overall height 70½″ *(add 1½″if specifying modular cabinet tops).* Standard with left and right grommets on the back panel. Available in aluminum frame glass doors. Models without cubbies are also available.

5b **Overhead Cabinet** height is 52½″ for an overall height 82½″ *(add 1½″if specifying modular cabinet tops).* Standard with left and right grommets on the back panel. Shown in aluminum frame doors, also available in wood doors.

Note: *Tackboard or panels can be added to the inside back of the overhead cabinet, along with the accessory rails.*

Modular Cabinet Tops

All adjacent units must have modular cabinet tops to maintain the same finish height.

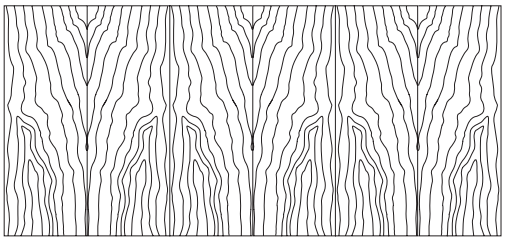
Collective® Office Notes

Collective® Office Product Information

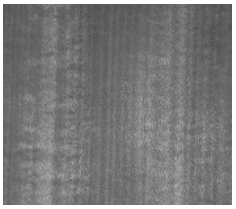
Exterior Wood Materials
Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Collective Office product line. To attain a pleasing, symmetrical pattern, all veneers in Collective Office are book-matched. All exterior solid lumber is matched to coordinate with the veneer.



Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Collective Office is available in flat cut cherry, maple, and walnut veneer.



Makore veneer is also available on Collective Office at no upcharge. Makore is also known as African Cherry veneer. When makore veneer is quarter cut it has a nice straight grain pattern with a pinkish brown cast and is a good alternative for cherry veneer for Collective Office.

Anegre veneer is a premium veneer choice and is quarter cut to have a figure cut (fiddle back) pattern. There is a 15% upcharge applied to the list for Anegre veneer

A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Solid painted finishes on MDF are also offered on drawer and door fronts to provide an accent to the Collective Office product.

Work Surface Construction
Tops are 3-ply balanced construction, *1 3⁄16″* ▲ thick with solid matching hardwood 1.5mm rims.

Matching or coordinating high pressure laminate in a veneer grain can be applied to the top surface and is available at no additional charge for some finishes.

Case Construction
Outside panels are *13⁄16″* ▲ and joined together by mortise and tenon construction. In addition to mortise and tenon joint construction, pedestal joints are reinforced with screws, cleats, brackets and glue. Tops are secured to the chassis with top fastening cleats screwed to the inside of the panels.

Cabinet doors have 110˚ swing hinges to allow adequate access into the interior of the cabinet.

Leveling glides are provided in both plinth base or telescopic foot.

Extruded Aluminum Components
Telescopic Feet, Valance Rails, Frames, Tool Rails, and Spacers all are made from an alloy aluminum compound, made up of 10% post consumer scrap, 60% post industrial scrap and 30% primary aluminum. The aluminum meets or exceeds the guidelines of USGBC – LEED V2.2. The parts are precisely machined and then processed in a clear anodized finish for a natural aluminum appearance.

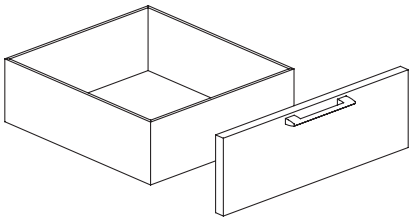
Fabricated or Casted Metal Components
Spindles, table armatures, disc bases, top supports, arms, and modesty panel brackets are made up of high grade metals. The metal is laser cut, bended and robotically welded to the exact specifications, polished and powder coated to blend with the anodized aluminum.

Access Kneespace Panel
Wall stud construction style frame is made from 16-gauge steel, stamped and laser cut. Pop-rivets are used to combine frames and create various widths. Frames are coated with silver powder coat. The back is open and is designed to sit up against a wall, to allow for wiring access.

Aluminum Glass Doors and Glass Modesty Panels
Aluminum glass doors and modesty panels have extruded aluminum frames with 4mm thick smudge resistant frosted glass or clear glass back painted in bright white.

Drawer Box Construction
The unidirectional drawer box is a durable mitre-fold drawer system which is mitered, glued and doweled. The ½″ thick drawer sides are wrapped in a high grade maple vinyl. The drawer bottom is secured into a ¼″ deep groove. All of these elements combine to create an extremely durable drawer box.

The drawer fronts are wood rimmed MDF core and are attached to the drawer box. The drawer boxes offer the benefit of field interchangeability of drawer fronts.



Drawer Suspension
The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. File and box drawers have 100% full extension with over travel.

Filing Hardware
All file drawers are constructed with a custom designed filing system in place to allow for hanging folders. Filing diagram on page 272.

Locking
All desks, lateral files, returns and free standing credenzas feature pedestal locking to provide maximum security and flexibility.

Units are shipped randomly keyed as standard (units tagged in the grouping are keyed alike). Keyed alike units are available if requested at no upcharge. Removable cores for in-field re-keying are standard.

Collective® Office Product Information

Finish - Stain/Colors
We offer a variety of wood stains and paint colors on Collective Office. Please see the chart below. Samples are available upon request, through our website or by contacting Customer Service. Former finish names are listed in parentheses for reference.

Protective Top Coat
DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features
Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the of the indoor air we breathe.
Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.
Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

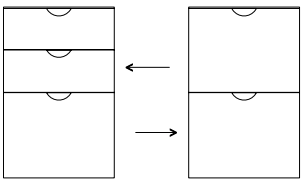
Special Finishes
Special finishes can be requested by following the instruction in the general introduction section, page 3. There is a one time charge of $275 list per order.

Finish Sheen Modification
Finish sheen can be modified on the work surface tops. There is a 15% upcharge added to the list of each item.

Oak Veneer
Upon request veneer can be changed from the standard offering to oak flat cut veneer with an additional 40% upcharge to the list of each item.

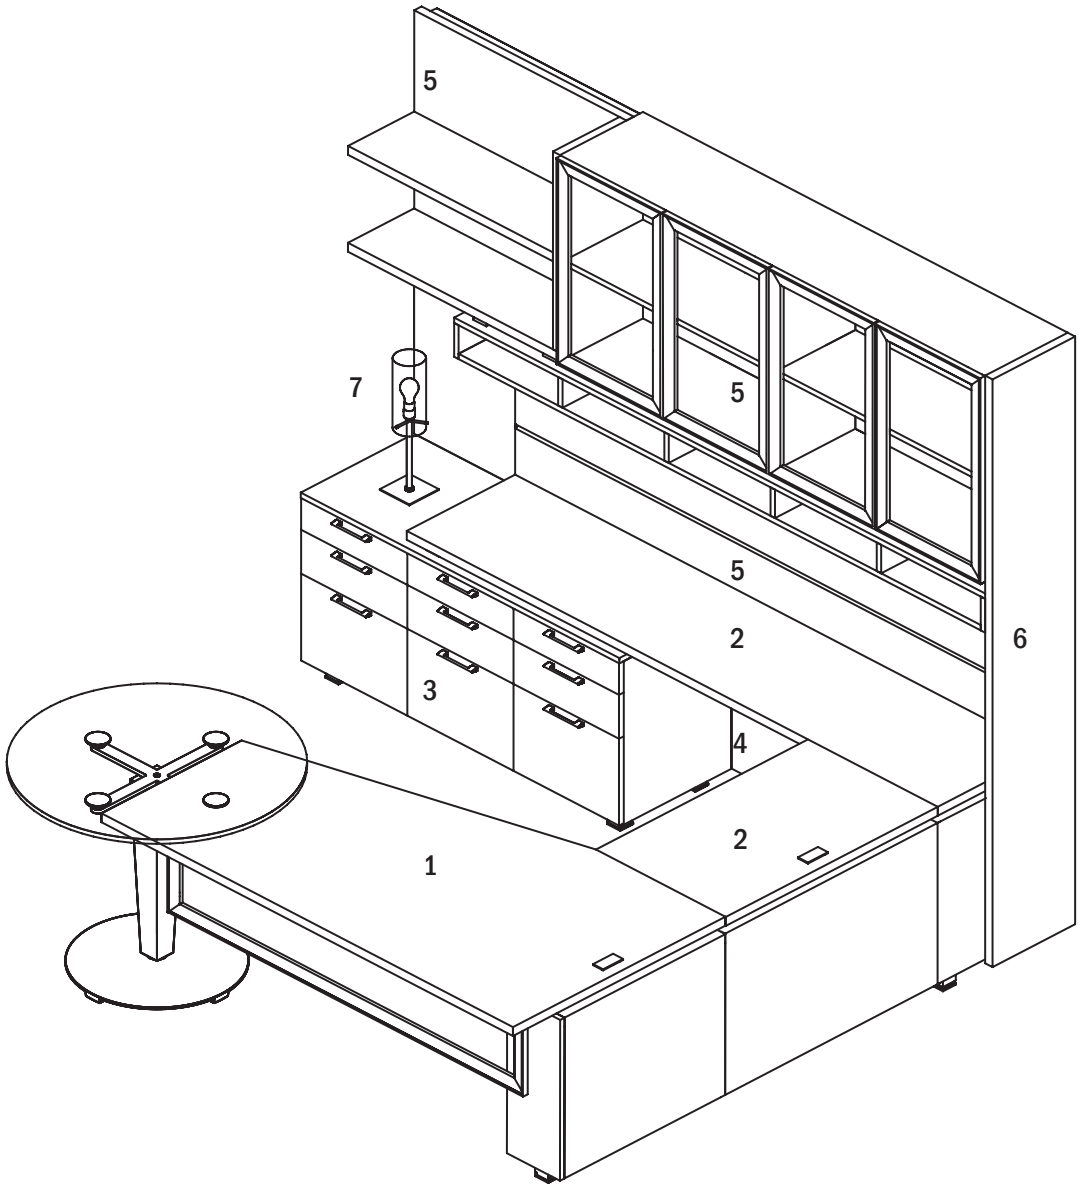
Pedestal Configuration Change
Box-box-file configuration is **standard on all desks** and file-file configuration is **standard on all return units**.

Collective Office drawer configuration on pedestals 29″ high can be switched out either to a box-box-file or file-file configuration, but must be specified at the time of order and with an additional 5% cost to the list price.



Special Construction
Collective Office offers a large offering to create many types of configurations. Contact Customer Service if you are having trouble with finding the right units to complete the desired configuration. Requests need to be approved by JSI engineering.

Collective® Office Product Information



1 Desks
The offering includes Double Pedestal, Single Pedestal, Peninsula and Run-Off Desk types in many shapes and sizes.

2 Workwall and Bridge Tops
Workwall Tops are placed along the work wall. Bridge Tops connect a Single Pedestal Desk to a Workwall Top and are used only in a U-shape back workwall layout.

3 Lower Storages
Choose from two types of lower storage. Credenzas feature a pencil/box/file drawer configuration and spacers that create floating or tiered worksurfaces. Pedestals feature box/box/file or file/file drawer configurations without spacers.

4 Access Kneespace Panels
The Access Kneespace Panel provides structure for modular components along with a fully concealed and accessible wire management space.

5 Workwall Components
Cubbies, Wall Panels, Storage Overhead Cabinets, and Worksurface Towers allow for long spans of uninterrupted worksurface. They can be combined to create a floating workwall appearance or numerous combinations of Tower and End Panel supported workwalls.

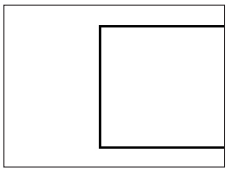
6 Storage Towers and End Panels
These components flank workwalls providing both structure and additional storage to the workstation.

7 Additional Features
Mobile Pedestals, Work Tools, Task Lighting, and Power/Communication Modules add user oriented functions to the workstation.

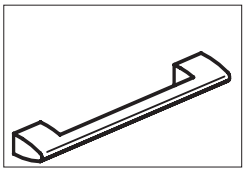
Collective® Office Product Information

Edge Profile Hardware

Collective Office utilizes a clean cut straight edge profile with a 1.5mm veneer rim. The Elite hardware is made of anodized aluminum. Longer versions of pull are used on mobile pedestals and credenzas.



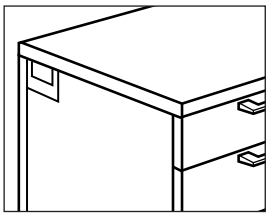
Straight Edge Profile



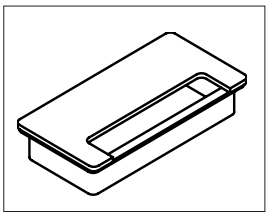
Elite Pull
Anodized Aluminum Finish (AAL)

End Panel Grommet

Collective Office credenzas feature a matte nickel 4″ x 2″ end panel grommet to allow for wire management. The end panel grommet is optional on other items; see pricing pages for more information.



Grommet Location



Grommet
Matte Nickel (MNK)

Foot/Plinth Style Base

Collective Office features an anodized aluminum foot. For a more classic feel, units may be specified with a wood plinth style base.

Collective® Office Product Information

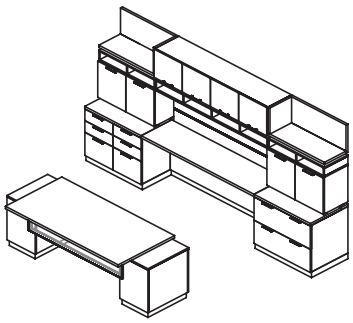
Desks

Application
Four types of Collective Office desks are offered: double pedestal, single pedestal, peninsula and run-off.

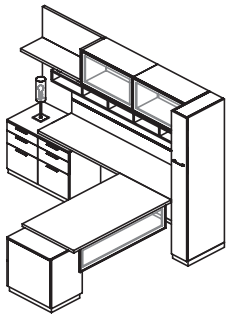
Double Pedestal Desks are used for layouts with a back workwall. This type of desk is offered with storage pedestals to support each end.

Run-Off Desks are paired with modular worksurfaces and used for both L-shape and U-shape side workwall layouts with several end supports.

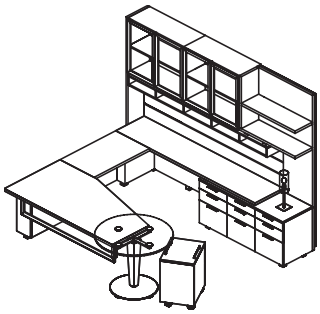
Single Pedestal or Peninsula Desks are paired with bridges to create U-shape back workwall layouts.



Double Pedestal Desk



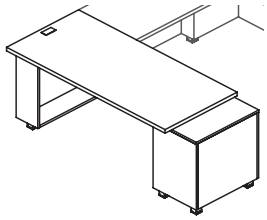
Single Pedestal Run-Off Desk



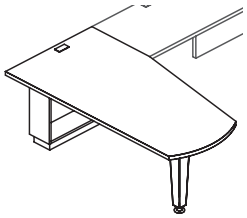
Peninsula Desk

Run-Off and Peninsula Desk Support

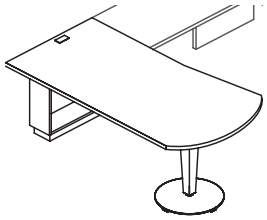
Peninsula style desks feature multiple support options. The support from the user side determines the handiness of the desk.



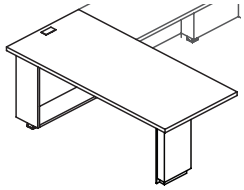
Pedestal Support
spacer or non-spacer available



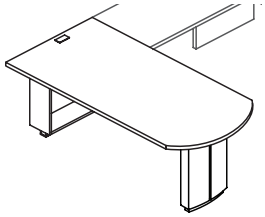
Leg Support
spacer or non-spacer available



Column Disc Support
spacer or non-spacer available



Rectangular Column Support
column and base can be paint or veneer - accented with side fins finished in Arctic Silver



Ellipse Pedestal Support
column and base can be paint or veneer - center accent finished in Arctic Silver

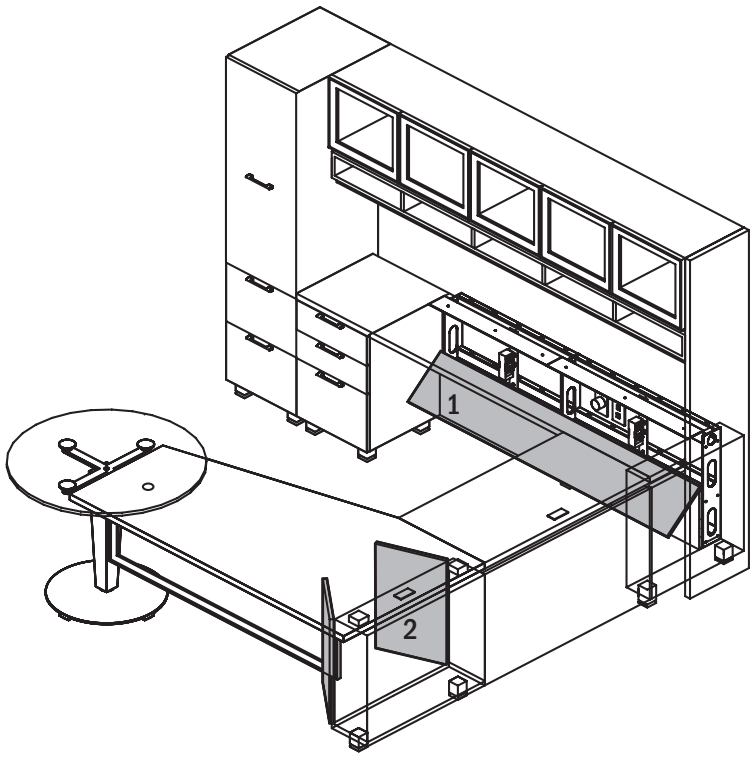
Modesty Panels

Modesty panels are available on all desks in tempered glass or wood. Double and single pedestal desks may be specified with a full wood modesty panel. *The tempered glass panels are available in frosted, glossy bright white back painted or frosted white back painted.▲*

Collective® Office Product Information

Power/Communication Technology

Wire management solutions are integrated throughout Collective Office products, concealing cables while providing easy access to power.



1 Access Kneespace Panel
The Access Kneespace Panel conceals cords, cables, and power/communication sources while providing easy access to the wall.

With the hinged panel open, wire routing and connections are easily made inside the panel. When adjacent to the Access Kneespace Panel, equipment Storage Units with optional cut-out allow pass through for wire management

Back is open as intended to be placed against a wall to allow for a variety of customer supplied power solutions.

2 Desk End Support
Single Pedestal desks offer an optional access pedestal at the end adjoining the bridge.

This unit features grommet openings and an access door, and can be fitted with customer supplied power strips to augment desk power sources. The Desk Access Pedestal is not designed for CPU storage.

1 Drop Space
A continuous 1¼" space along the back edge of all Workwall Tops allows plugs and cables to drop into the Access Kneespace Panel.

2 Wire Management Channel*
Optional undermount channels beneath Bridges and Run-Off Desks serve as wire pathways between desk units and power/communication sources inside the Access Kneespace Panel. See the accessory section of this price list.

3 CPU Storage
CPU Storage options include mobile and fixed solutions. Both options provide wire management features and easy access to connections while enhancing workstation flexibility.

4 Top Grommets
A matte nickel top grommet, optional on Double and Single Pedestal Desks and standard on bridges, routes wires from the work top directly into an optional undermount channel and access pedestal.

5 Storage Cabinet
Storage cabinets with front and side access solutions are available for both workwall heights. Styles include the worksurface and combination units. Technology Storage Towers feature optional grommets for wire management and an optional pull-out shelf for accessibility.

6 Task Light
Integrated pass-thru openings and space behind the wall panels allow easy installation and wire management of task lights.

**Wiring channel for routing wires are listed separately.*

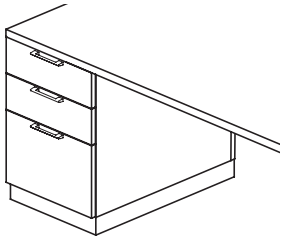
See the accessory section of this price list for worksurface power and data devices.

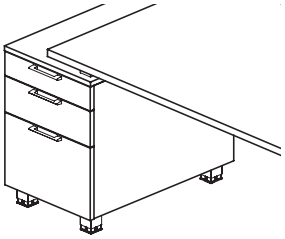
Collective® Office Product Information

Desk Pedestals

Non-Spacer Pedestals and Spacer Pedestals
Collective Office offers two distinct styles of standard pedestals on the desk, non-spacer style desk or spacer style desk. Plinth base or the foot feature can be specified on either style of pedestals.

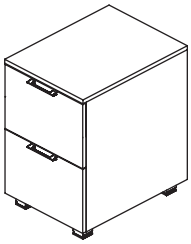


Non-Spacer Pedestal
Box/Box/File
(plinth base shown)



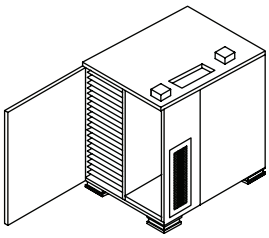
Spacer Pedestal
Pencil/Box/File
(pedestal feet shown)

Non-Spacer Pedestals for Pre-Configured Desk (pages 282-287)
File/File drawer configurations are available on a non-spacer style pedestal for a 5% upcharge to the list.

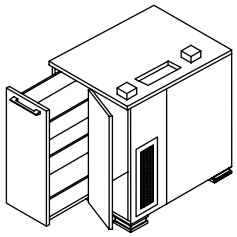


File/File Pedestal

Spacer Pedestals for Pre-Configured Desk (pages 280-289)
Optional pedestals include the CPU storage pedestal and CPU toolbox pedestal.



CPU Storage Pedestal
add $281 to list



CPU Tool Box Pedestal
add $894 to list

CPU storage units require adequate ventilation to avoid overheating of electronics.

To encourage ventilation, the optional CPU pedestals are offered in the foot style only and are standard with a side vent.

A ventilation fan (powered by USB) is available as an option and is highly recommended. Add $155 to list

Support End for Peninsula Desk
Single pedestal desks feature an open-sided support pedestal on the bridge end of the desk. An optional unhanded hinge door pedestal may be specified in its place. The hinge door allows for wire management for customer supplied power strips.

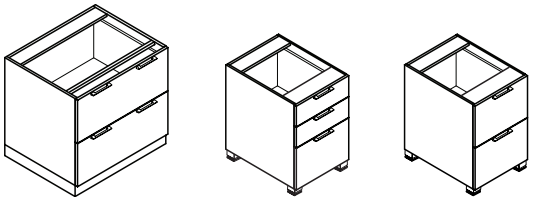
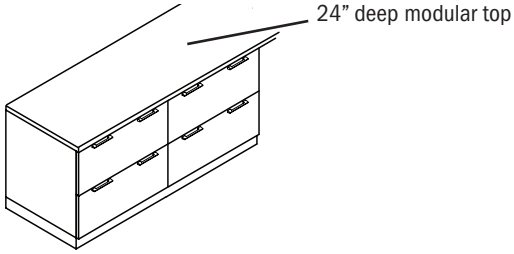
Modular (non-spacer style)
Modular components must have an aligned modular top, sold separately. Box/box/file, file/file, and hinged door units are available.

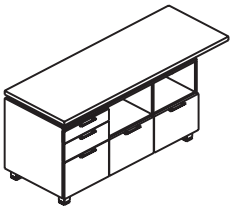


Modular Pedestals

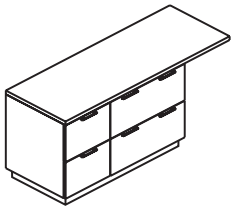


Modular Units
ganging together with modular top

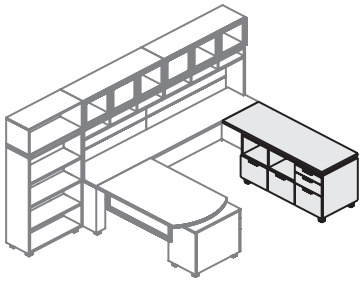
Run-Off Storage
Run-Off storage units are available in two styles: spacer and non-spacer. Both styles are available as a configured unit or as a credenza or modular storage with a top specified separately. Spacer style run-off storage features pencil/box/file drawers. Non-spacer style run-offs feature file/file, box/box/file, and lateral storage. Run-Off units can be specified with either a foot or plinth base style. A broad selection of configured units are offered in a 24″ depth with 6″ incremental lengths from 60″ to 84″.



Spacer Style
configured unit or credenza and top



Non-Spacer Style
configured unit or modular storage and top



Collective® Office Product Information

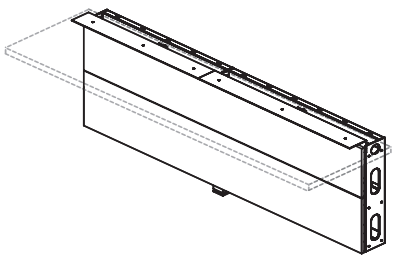
Access Kneespace Panels

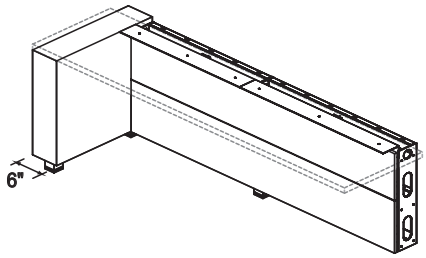
The access kneespace panel provides structure, wire management and access to the workwall. The panel can be specified in foot or plinth style. Modular electrical power systems can be fit into the cavity of the metal frame. Access kneespace panels are designed to fit between lower storage, tower and end support units.

Two types of end supports for workwall tops can be used in the kneespace:

End Support Panel (1¼"w) - for use with open kneespace applications.

End Support (6"w) - for use with the access kneespace panel or open kneespace applications.

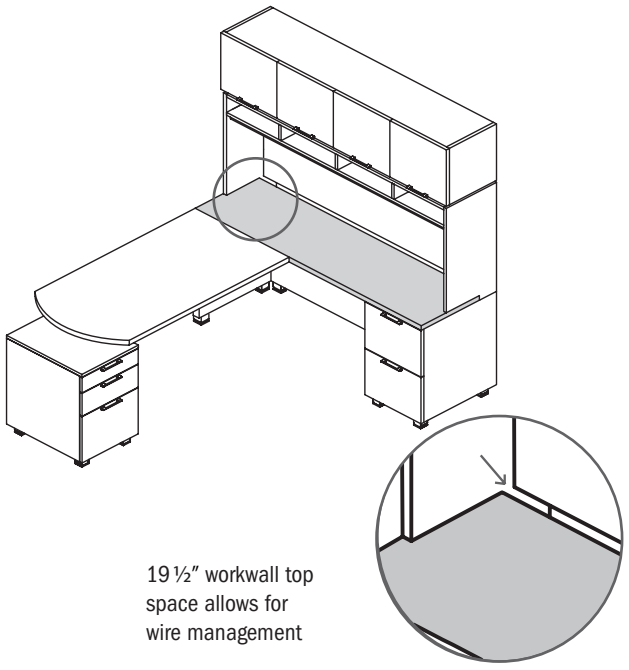




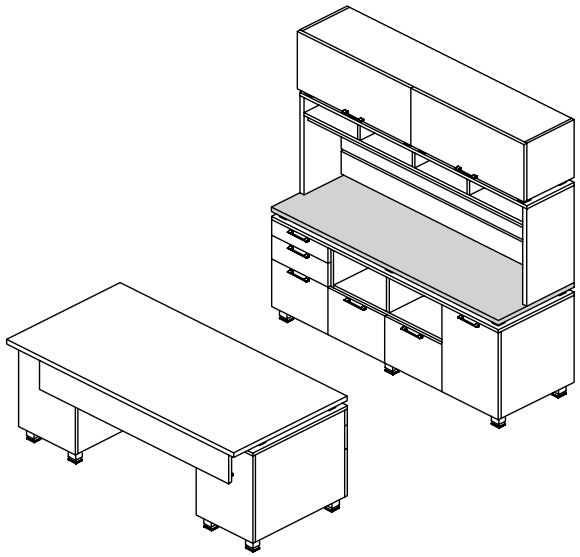
Workwall and Modular Tops

Because of the modularity of workwalls, workwall tops are specified separately and are designed to fit with upper and lower storage components. Workwall tops can be used in both spacer and non-spacer style applications.

Workwall tops are 19½"d and modular tops are 24"d. The 19½"d tops are defined by the model number prefix TUS and allows for wire management. Worksurface towers are provided with a filler panel to offer a fit with the smaller depth. The 24"d tops have a TU model number prefix and are used with freestanding cubby with panel units. When used with upper storage units, it is recommended the TU tops be specified with a grommet.



19½" workwall top space allows for wire management



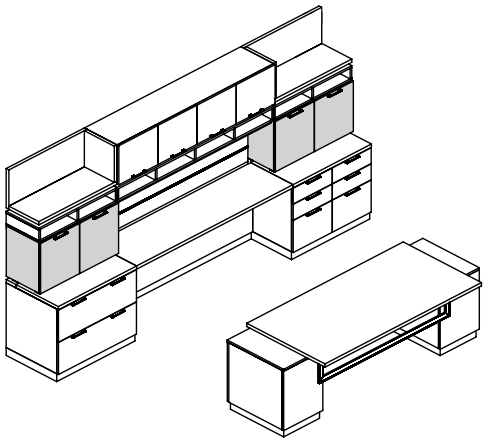
24" modular top requires grommet for wire management

Collective® Office Product Information

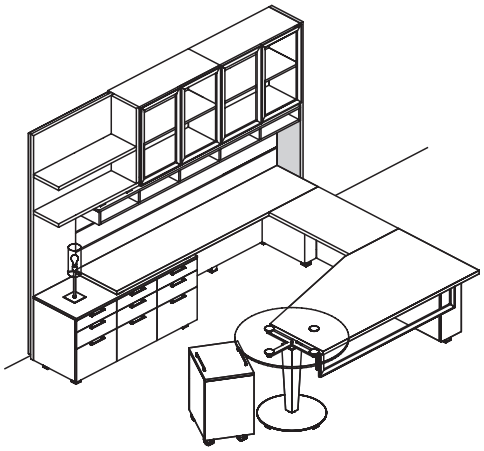
Freestanding and Wall Mounted Workwalls

Workwalls are either freestanding or wall mounted depending on end support. When storage towers, worksurface towers, or end panels are used on both sides of overhead storage and/or cubbies, the workwall is freestanding. When supported on only one or neither side, the workwall must be wall mounted. Backs on all wall mounted units are not finished.

Wall mounted cubbies and binder bins have an inset back with concealed wood cleats. Wall mounted asymmetrical shelves also have wall cleats included with the unit.



Freestanding
support on both sides
worksurface towers shown



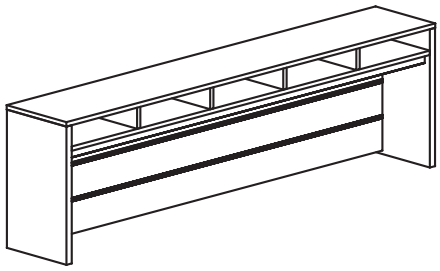
Wall Mounted
one or both sides without
support end panel shown

Freestanding and Wall Mounted Workwalls - Cubbies

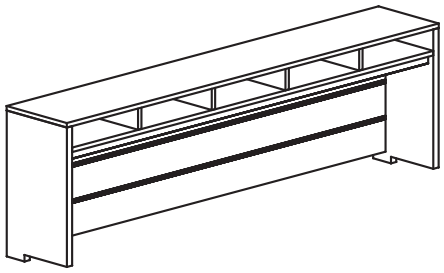
An integral part of a workwall are the cubbies. Collective Office offers a wide range of cubbies in either configurable or modular units.

Configurable cubbies are offered in freestanding panel style or stepped panel style, both in 15″ or 18″ modules.

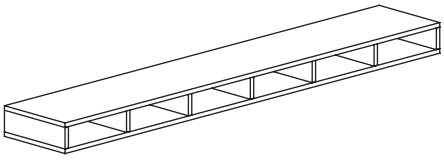
The modules in modular cubbies are also offered in 15″ or 18″ widths., along with a combination of 15″ and 18″. Modular cubbies require wall mounting or support at both ends. The support can either be panels, wardrobe storage or worksurface towers.



Freestanding Cubby
(used with TU modular tops)
wall panel and tool rail shown



End Panel Support Cubby
(used with TUS workwall tops)
wall panel and tool rail shown
not for use with spacer pedestals



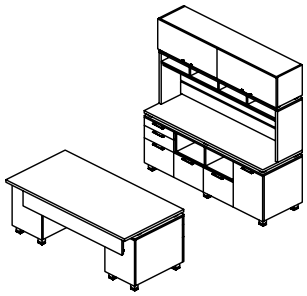
Modular Cubby
(designed to be used with overheads)

Collective® Office Product Information

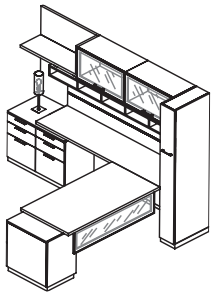
Specification Types: Configured vs. Modular
Wall panels and cubbies are required to support overhead units that are not wall mounted and are offered as either a configured unit or modular components.

Configured units combine wall panels and cubbies with end support panels which sit directly on the worksurface.

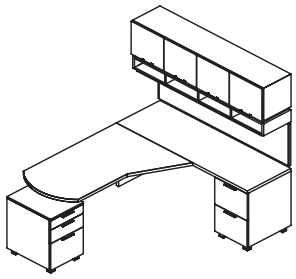
Modular wall panels and cubbies are specified separately and can be used to create workwalls that do not require end panels for support. There are two types of modular wall panels: side mounted and wall mounted. Even in wall mounted applications, wall panels may be side mounted if there is a side panel, shelf, or storage unit on both sides. If one or both sides are without any of these units, wall mounted panels must be specified.



Configured



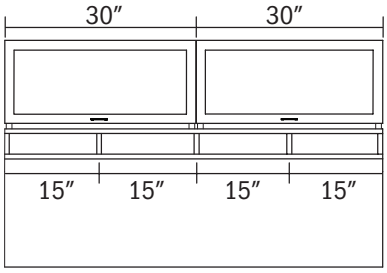
Modular Components
side panel and wall mounted



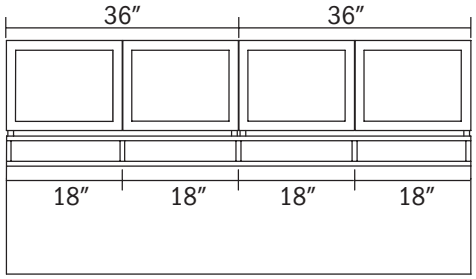
Modular Components
Wall mounted wall panel

Configured Applications
Configured wall panel and cubby units are designed to fit on workwall tops. Each unit has a specified use with spacer or non-spacer style lower storage.

These units are offered in two cubby widths - 15″ or 18″ - to align with overhead door widths. Specify 15″wide cubbies with 30″ wide flipper door overheads, and specify 18″ wide cubbies with 36″ wide cabinet door overheads.

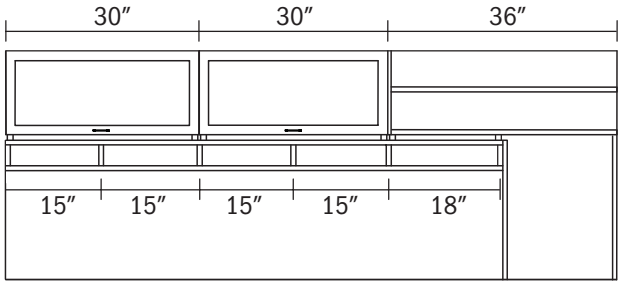


15” Modular Cubby



18” Modular Cubby

Modular Applications
Modular cubbies are offered in a combination of the two widths (18″and 15″).Use these cubbies when combining 15″ increment units with 18″ increments units, as shown in the example below.

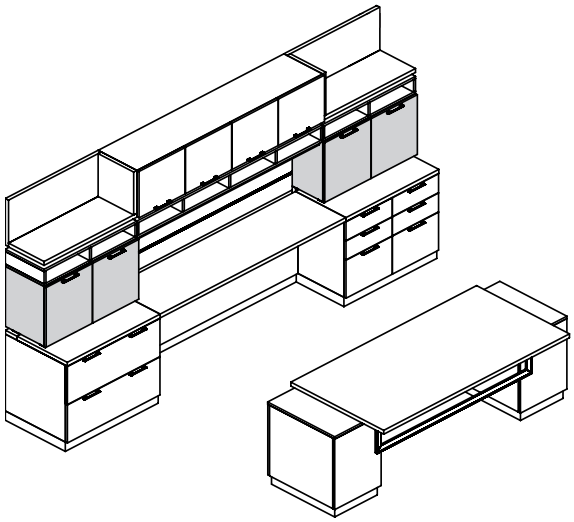


15”/18” Modular Cubby with Asymmetric Shelf

Collective® Office Product Information

Storage Towers

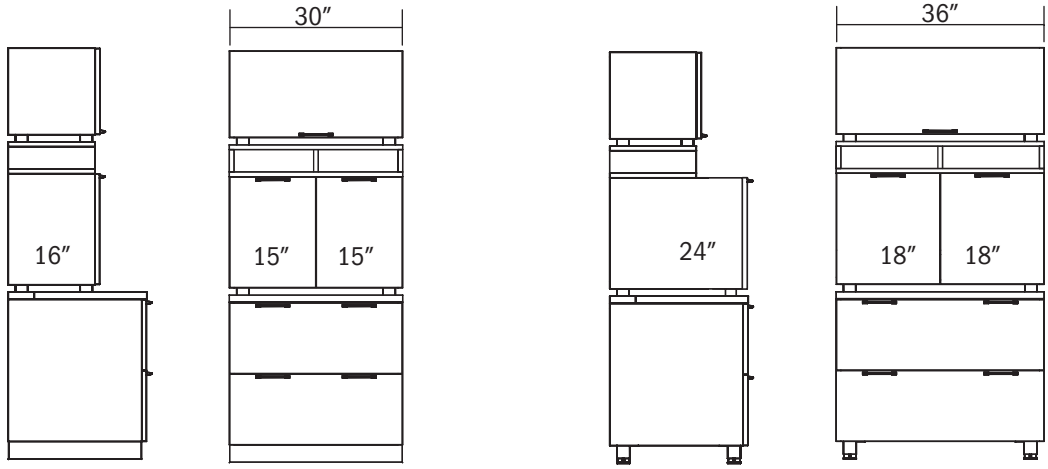
Storage towers are designed to provide easy access to stored items or technology equipment from a seated position.



Note: storage towers have a filler top to be used when using in conjunction with a TUS tops.

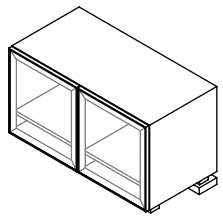
Application

Storage towers sit on the worksurface along the workwall only. They can be specified to provide end support for modular cubbies and spanning overhead storage components. To ensure vertical alignment of upper components, width (15" or 18") of overhead and cubby modules placed atop worksurface towers should match.

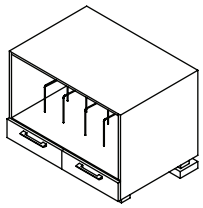


Functional Options

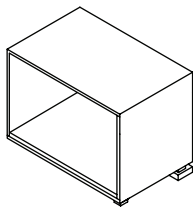
Storage towers are available in three depths with configurations designed to accommodate specific storage needs.



Binder - 16″d



Redwell - 18″d
for expandable files



Technology- 24″d

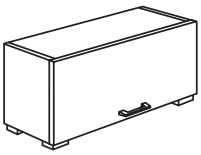
Collective® Office Product Information

Storage Ovehead Cabinets

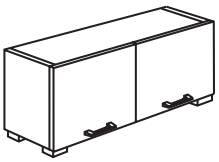
Door Styles
Overhead storage units are offered in two door styles: Flipper or side hinged door. Open storage units are also available.

Flipper style doors lift up, and feature a lid stay which assists with easy accessibility to contents. These units are offered on either a 15″ and 18″dimensional module, in a single shelf height. Pair 36″ and 72″ wide overheads with 18″ cubby modules. Pair 30″ and 60″ wide overheads with 15″cubby modules.

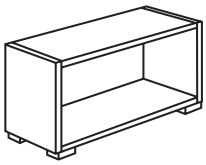
Side-hinged doors are offered on an 18″ dimensional module, in single or double high units, and are paired with 18″cubby modules.



Vertical Lift Flipper

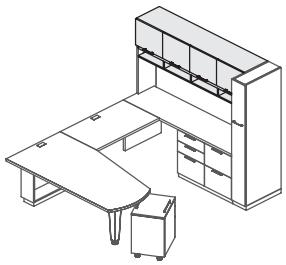


110˚ Door Swing

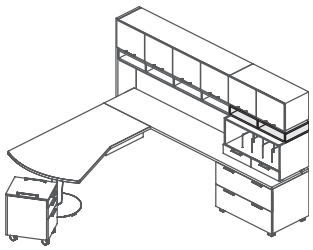


Open Storage

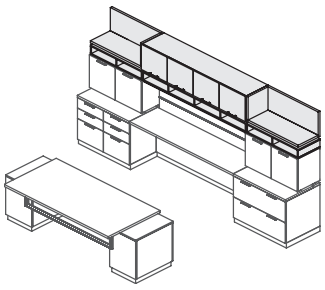
Application
The expansive offering of modular overhead storage creates planning flexibility and numerous configurations.



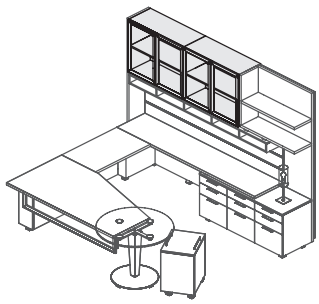
Overhead storage spans between full-height storage towers and end panels, and should always be specified atop modular or configured cubbies of the same length.



Combine overhead storage with modular cubbies atop worksurface towers on one or both ends of the workwall.



Create a floating workwall appearance with cantilevered overhead storage atop modular wall panels and cubbies paired with asymmetric shelves at each end.



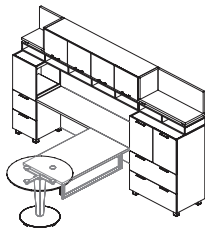
Create an asymmetric workwall by spanning overheads between different types of end supports such as a full-height wardrobe or storage tower, end panel, or asymmetric shelf.

Collective® Office Product Information

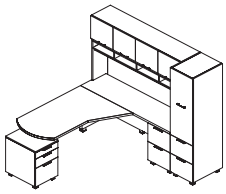
Storage Tower

Tower Heights

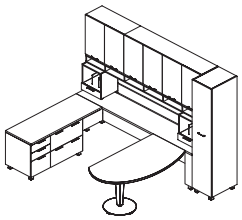
Storage towers and full length end panels, positioned at the ends of a workwall, provide structural support for overhead storage and cubbies. Towers and end panels are offered in three heights: 55″ high, for use with spanning cubbies, 71″ high, for use with single high overheads and 86″ high, for use with double high overheads



55″h Storage Tower
(overall 71”h)



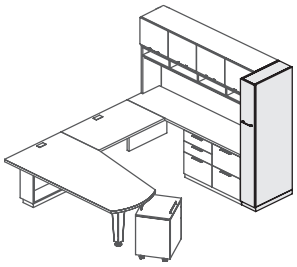
71″h Storage Tower



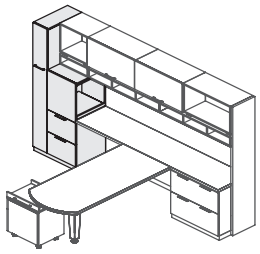
86″h Storage Tower

Application

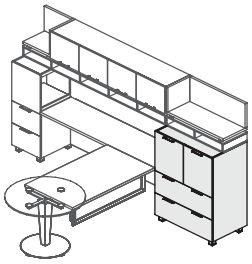
Collective Office offers different types of wardrobe storage to maximize storage or to provide personal storage for outerwear.



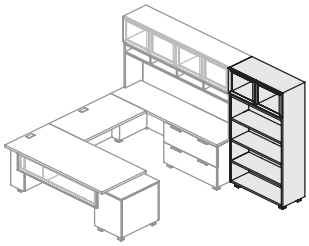
Full-height towers are either 86″ or 71″ high to align with the top of overhead storage units, and 24″ deep. Widths range from 12″ to 36″. Shelf, drawer, and wardrobe storage is available.



Combination towers are 24″ deep and are comprised of either an 86″ or 71″ high wardrobe module and a 55″ high low tower module.



Mid-height towers provide equipment storage with pedestals. They are 24″ deep and 55″ high, and rest below modular cubbies with single or double high overheads and shelves above. Specify 18″ or 36″ width to align with overhead storage.



Bookcase units are either 86″ or 71″ high, and 15″ deep to align with the depth of overhead storage units. Collective Office bookcases feature open, flipper door, or hinge swing door binder units atop spacers to coordinate with the overhead storage units.

Bookcases with upper cabinet doors must be wall mounted.

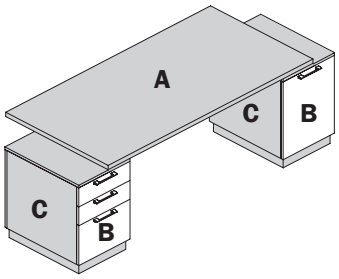
Collective® Office Product Information

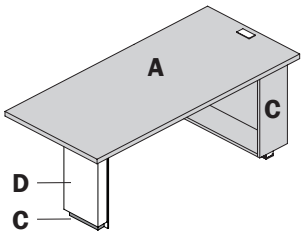
Material Options

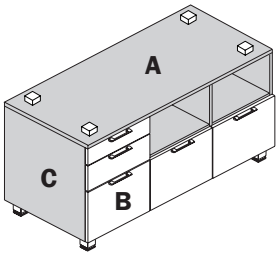
Collective Office uses a modern mix of materials: paint, veneer, and aluminum. Veneer choices are cherry, makore, maple and walnut. Anegre wood species requires an upcharge; see page 254. Eleven paint colors are available; see page 255. Wood worksurface tops or rims on laminate worksurface top, access kneespace panels, desk modesty panels, and bridges are available in veneer finishes only.

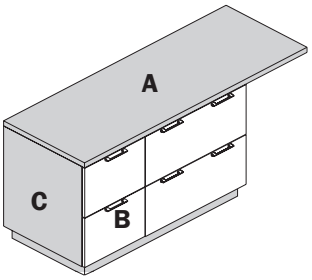
Desks and Credenzas

Worksurface tops, pedestal chassis and open or access pedestals are available in veneer. Doors and drawer fronts may be specified in veneer or paint. The rectangular support column for desks has a base and accent, each may be specified alike or in contrasting materials. All wood components for desks with the leg, column disc support, and ellipse base are veneer only.









A **Worksurface Tops** - Veneer

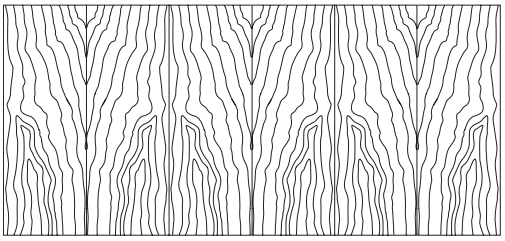
Finale Product Information

Exterior Wood Materials
Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Finale product line. To attain a pleasing, symmetrical pattern, all veneers in Finale are book-matched. All exterior solid lumber is matched to coordinate with the veneer.



Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book

Finale is available in flat cut cherry, maple and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

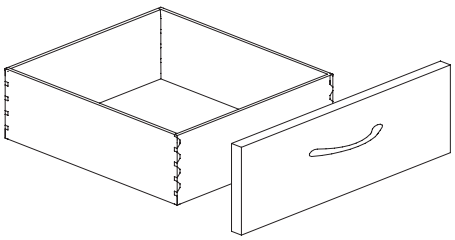
Cherry veneer is the only veneer species available on the NOW! quickship program on select models.

Work Surface Construction
Tops are 5-ply balanced construction, 1 3⁄16″ thick with solid matching hardwood edges. Surfaces are available in wood veneer or high pressure laminate. No additional charge for using our coordinating high pressure laminate with a veneer grain pattern.

Case Construction
Outside panels are 1 3⁄16″ and joined together by mortise and tenon construction. In addition to mortise and tenon joint construction, pedestal joints are reinforced with screws, cleats, brackets and glue. Leveling glides are set into solid hardwood blocks with t-nut inserts, which helps to prevent the leveling glide from tear out. Tops are secured to the chassis with top fastening cleats screwed to the inside of the panels.

Cabinet doors have 110˚ swing hinges to allow adequate access into the interior of the cabinet.

Drawers
The 9ply unidirectional hardwood sides of the drawer box are 7⁄16″ thick assembled with English dovetail construction at each corner of the box. The drawer bottom panel is 1⁄4″ thick fitting into a groove machined the into side of the box. Interiors are sanded and coated with clear U.V. finish to protect against shrinking, swelling or warping, and to provide a clean, smooth feel and appearance.



Drawer Suspension
The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in /out stops. File and box drawers have 100% full extension with over travel.

Filing Hardware
All file drawers are constructed with a custom designed filing system in place to allow for hanging folders. Filing diagram on pages 380-382.

Locking
All desks, credenzas and returns feature pedestal locking and lateral files feature central locking to provide maximum security and flexibility.

Units are shipped randomly keyed as standard (units in the grouping are keyed alike). Keyed alike units available if requested at no upcharge. Removable cores for in-field re-keying are standard.

Finish - Stain/Colors
We offer a variety of wood stains and paint colors on Broadway. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

CH1 Cherry *Flat Cut Veneer*

AUT	Autumn *(Autumn Cherry)*	EAR	Earthy
BRL	Barley	LGC	Legacy *(Legacy Cherry)*
BBN	Bourbon *(Natural Cherry)*	PRL	Praline *(Vintage Cherry)*
BRG	Brighton *(Brighton Cherry)*	SAF	Saffron *(Medium Cherry)*
CLA	Classic *(Classic Cherry)*		

MA1 Maple *Flat Cut Veneer*

ALE	Ale *(Natural Maple)*	FLX	Flax
BUT	Butterscotch	VEN	Venetian *(Dark Mahogany)*
CIN	Cinnamon		

WA1 Walnut *Flat Cut Veneer*

AUB	Auburn *(Windsor Mahogany)*	SIE	Sienna
ESP	Espresso	TOF	Toffee
MCH	Mocha	TRF	Truffle
NTO	Night Owl *(Vintage Walnut)*		

Protective Top Coat
DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features
Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the of the indoor air we breathe.
Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.
Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Finale Product Information

Product Modification

Laminate Tops
Worksurface only, no additional upcharge if coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request. Listed below are finishes that have coordinating wood grain HPL laminates.

Cherry Finishes	Maple Finishes	Walnut Finishes
Autumn	*Ale*	*Auburn*
Barley	*Cinnamon*	*Mocha*
Bourbon	*Venetian*	*Night Owl*
Brighton		*Sienna*
Classic		*Toffee*
Legacy		*Truffle*
Praline		
Saffron		

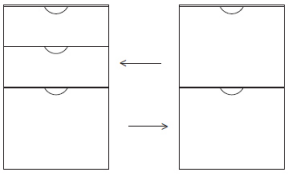
Special Finishes
Special finishes can be requested by following the instruction in the general introduction section, page 3. There is a one time charge of $275 list per order.

Finish Sheen Modification
Finish sheen can be modified on the work surface tops. There is a 15% upcharge added to the list of each item.

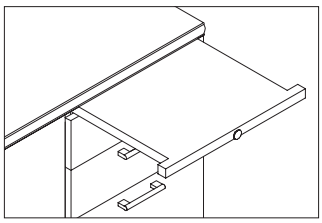
Oak Veneer
Upon request veneer can be changed from the standard offering to oak flat cut veneer with an additional 40% upcharge to the list of each item.

Pedestal Configuration Change
Box-box-file configuration is standard on all desks and file-file configuration is standard on all return units.

Finale drawer configuration on pedestals 27″ to 30″ high can be switched out either to a box-box-file or file-file configuration, but must be specified at the time of order and with an additional 5% upcharge to the list price.



Writing Shelf - Pull Out (Arm Slide)
Desk Pedestals in Finale can have an optional pull out shelf above the top drawer for additional writing surface. Add $258 to the list for each pedestal.



Special Sizes from Standard Offering

The following chart contains pricing for general modifications to Finale. **All modifications still must be approved by JSI manufacturing**, please contact Customer Service to verify any of the modifications listed in the chart below. More complex modification to standard product may be possible, please refer to page 3 for additional details.

This chart does not apply to glass doors, glass tops or to metal components; such as modesty trims panels, and structural support. Any changes to file drawers will affect filing capabilities.

Increasing Dimensions - Add On to the list Per 6″ Occurrence

Overhead	
Increasing width	$688
Increasing depth	$1,176
Increasing width with doors	$816
Increasing depth with doors	$1,260
Any Pedestal	
Increasing width	$978
Increasing depth	$872
Any Panel	
Increasing width	$221
Any Top	
Increasing width	$288
Increasing depth	$408

Decreasing Dimensions Add On to the list Per 6″ Occurrence

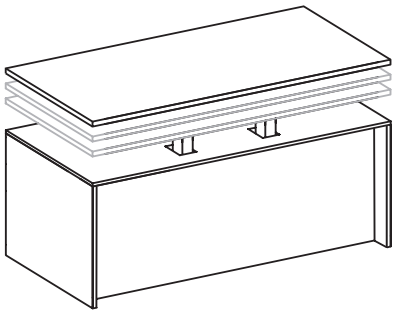
Overhead	
Decreasing width	$224
Decreasing depth	$224
Decreasing width with doors	$308
Decreasing depth with doors	$308
Any Pedestal	
Decreasing width	$978
Decreasing depth	$872
Any Panel	
Decreasing width	$114
Any Top	
Decreasing width	$168
Decreasing depth	$168

Example 1
Increasing open corner credenza width by 11″, from 72″to 83″.
Add Top Width ($288 × 2) [$288 for each 6″ increment]
Add Panel Width ($221 × 2) [$221 for each 6″ increment]
Total Modification = $1018

Example 2
Increasing a desk pedestal depth from 36″ to 40″ & increase the width of the same pedestal by 8″
Add Pedestal Depth $872
Add Pedestal Width ($978× 2) [$978 for each 6″ increment]
Total Modification = $2828

Example 3
Decreasing an overhead from 60″ to 58″ width & increasing the depth by 3″
Decrease Overhead Width $224
Add Overhead Depth $1176
Total Modification = $1400

Finale Product Information



This mechanism requires a signed Liability Wavier prior to time of order specifcation.

Contact Customer Service or visit our Website at jsifurniture.com

ERGO Adjustable Work Height Mechanism
Our proprietary adjustable work height mechanism can be specified on many of the models in Finale.

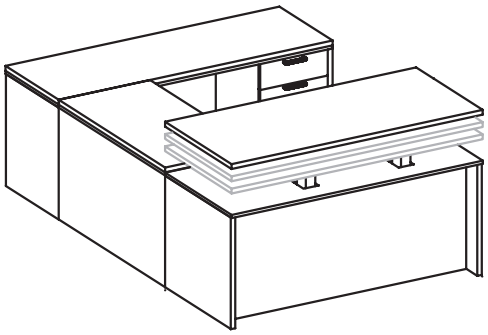
ERGO mechanism allows height adjustability to be added to the worksurface. Our solution uses a standardized design that minimizes the modifications required to standard desk, bridge or credenza models. The mechanism and control box are neatly concealed to maintain the appearance of the original elegance of the product. A push button activates the electric powered lifting columns for adjustability from sitting height to a standing height. A ¾" thick finished sub top is added to the top of the desk chassis for a clean appearance when the surface is in the raised position. In the lowered position, please note that ERGO adds ¾" to the standard height of the desk and the installation will decrease kneespace depth by 8".

Automatic Collision Control is built in to each mechanism as a standard feature. When the system senses an obstacle obstructing the movement, the mechanism will reverse direction and retreat by 1".

When ERGO is added to a desk worksurface in a "L" or "U" group, the unit that connects to the desk also needs to have a sub top added. These units are considered to be ERGO ADJACENT units. ERGO ADJACENT units must have a fixed height worksurface that matches the lowest position of the ERGO mechanism and the top. This is accomplished by adding a ¾" sub top between the chassis and the worksurface. This feature can also be specified for cabinets which may sit next to a unit with the ERGO mechanism.

Height adjustment starts at 30 ¼", to a standing height of 49 ¾", a range of 19 ½".

To specify the unit that has the mechanism add **ERGO** to the end of the model number.
To specify the connecting or adjacent units add **ERGO ADJACENT** to the end of the model number.



Example

FN3672LD-ERGO	add	$3,100 to list
FN2448EB-ERGO ADJACENT	add	$425 to list

Connecting or Adjacent Units to Match Starting Height

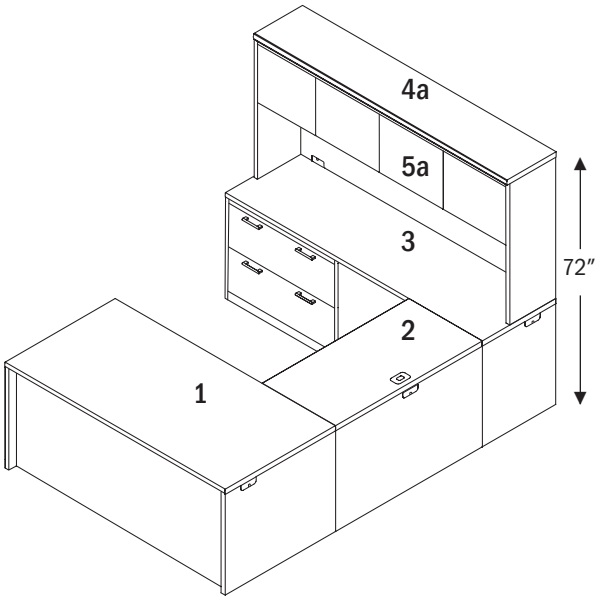
All the units listed above can be specified as connecting or adjacent units. Other Finale units could also be used as connecting units, please contact Customer Service for additional items and pricing. When specifying please add "ERGO ADJACENT" to the end of the model number.

Pricing for Standard Connecting or Adjacent Units
Tops larger than 24" x 48" add $500 to the list price.
Tops 24" x 48" or smaller add $425 to the list price.

Finale Product Information

Layouts

Two heights of storage overheads are available in Finale.



Finale is an easily specified contemporary product line, with standard office furniture sizes.

Easily specified and setup while providing well established layouts in the office environment.

1 **Single Pedestal Desk**, with the standard box, box, file pedestal configuration and side locking. Standard side grommet keeps the desk top clean from wires, while still having convenient wire management.

2 **Bridge** standard with top and back panel grommet and mounting hardware.

3 **Lateral File Credenza** available with fixed back panel.

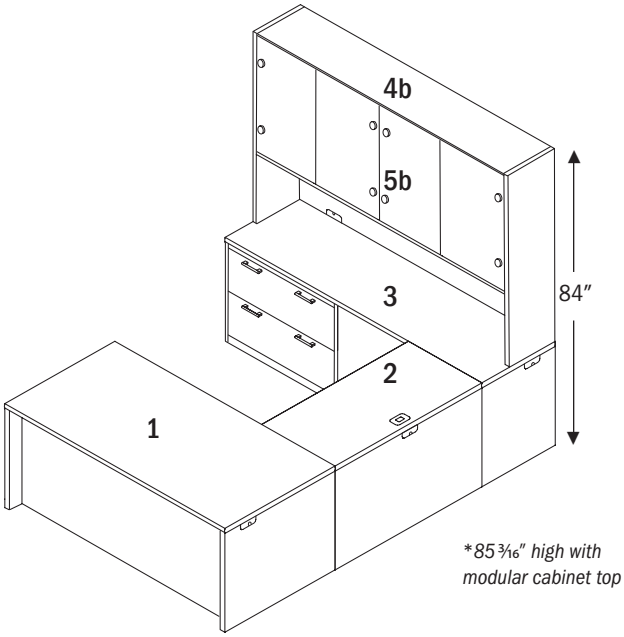
4a **Cabinet Top** is a standard feature on 42″high overhead cabinets.

4b **Modular Cabinet Top** *(not shown in diagram)* is an option on 54″ high overhead cabinet. These tops are ordered separately.

5a **Overhead Cabinet** height is 42″ for an overall height 72″ Standard with left and right grommets on the back panel. Models are available with frameless glass doors in white back painted. *(Locks and pulls are not available with glass doors).* Models with installed cubbies are also available.

5b **Overhead Cabinet** height is 54″ for an overall height 84″ *(add 1 3⁄16″ if specifying modular cabinet tops).* Standard with left and right grommets on the back panel. Shown with frameless white back painted glass doors. *(Locks and pulls are not available with glass doors)* Models are also available in wood doors.

Note: *Tackboard or panels can be ordered for the inside back of the overhead cabinet, along with the accessory rails.*



Frameless opaque glass doors in white back painted brings a nice aesthetic to the Finale product line.

Modular Cabinet Tops
Overhead Cabinets 54″ tall do not come with modular cabinet tops. Tops can be specified and ordered separately. To maintain the same finish height on all units, specify tops for **ALL** adjacent units.

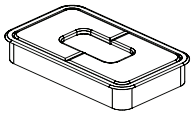
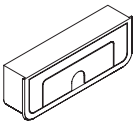
Grommet and Color Options



Worksurface Grommet
Additional worksurface grommets can be specified on desks, credenzas, and other types of veneer/laminate worksurfaces. The grommet location must be approved by JSI manufacturing, contact Customer Service.

Add $75 to the list for each additional grommet.

Grommet color must be specified, select Matte Black or Stardust Silver. Lock cores will match grommet color
Matte Black (MBK)
Stardust Silver (STS)



End/Back Panel Grommet
The end/back panel grommets are standard, for any special consideration contact Customer Service.

Standard Grommets Locations
Finale features grommets and wire pass thru on all of the cabinets. This allows wiring to move from unit to unit or from unit to the data or power data source.

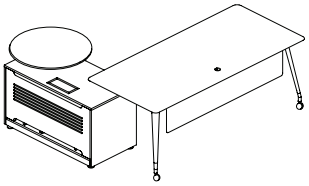
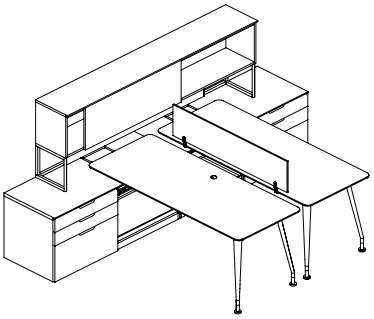
iXY Product Information

Layouts

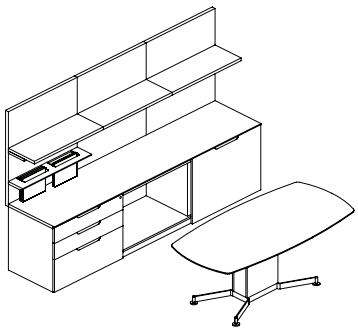
Four popular workstation layouts can be created with iXY.



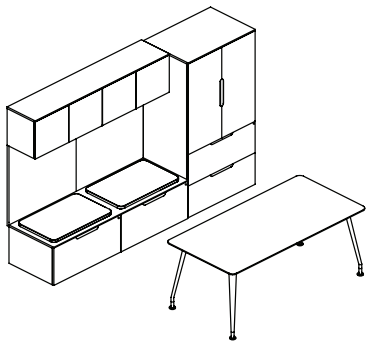
Three Leg Pedestal Supported Pivoting Table Desk with Secondary Height Technology Pedestal



Workstation with Secondary Height Storage and Overhead



Adjustable Height Table Desk with Workwall (wall panel must be wall mounted)



Freestanding Table Desk with Bench Height Storage, Wall Panels, Wall Mounted Storage and Storage Unit with Drawers

1 Table Desk - 29¼"h

Offering includes Freestanding, Pedestal Supported Pivoting or Pedestal Supported Fixed Table Desk.

Pedestal Supported Pivoting and Fixed Table Desk must be attached to a pre-configured secondary height pedestal or credenza.

The layout selected will determine the type of desk required.

See page 452 for explanation

2 Secondary Height Storage - 25¾"h

Secondary Height Storage is offered in both pre-configured (25¾"h) and modular type units (25"h).

Secondary Height Storage is required when using pedestal supported pivoting or fixed table desks. Spindle Plate is used to attach to a pre-configured pedestal or credenza.

Pre-configured Technology pedestals and credenzas are available with or without adjustable height worksurface. The Cantilevered or Flush worksurfaces adjusts from 29¾"- 42¼". These units also come standard with surface power, pull-out power and ventilated removable back panel.

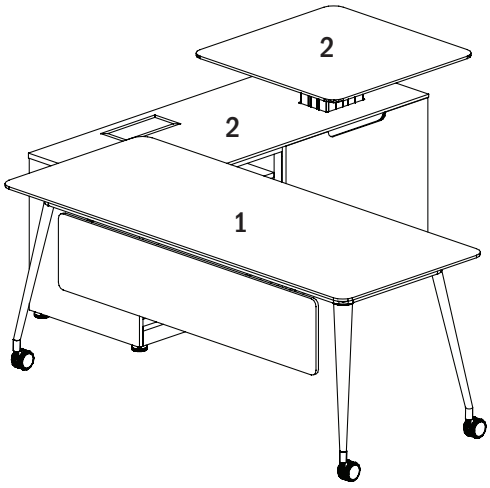
See page 458 for explanation

3 Primary Height Storage - 29¼"h

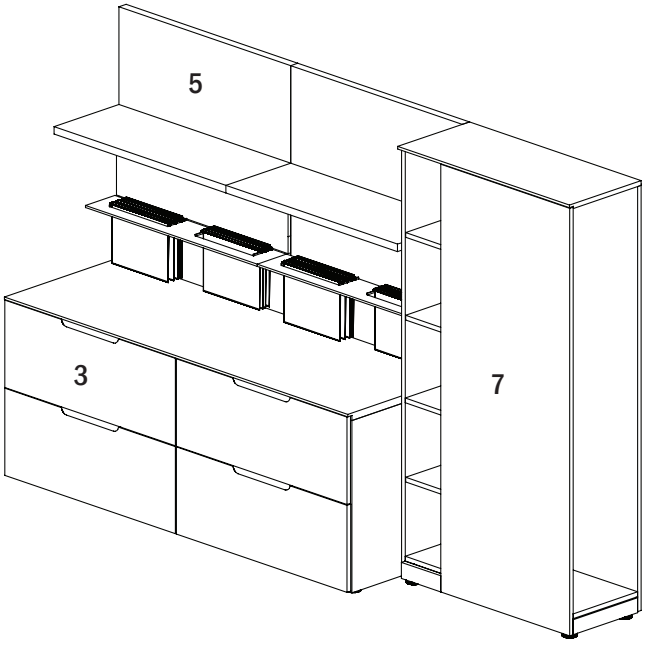
Primary Height Storage is offered in both pre-configured (29¼"h) and modular type units (28"h).

4 Bench Height Storage - 17¾"h

Bench Height Storage features lateral filing and seat cushions.



iXY Product Information



5 Workwall

Various wall panel types can be specified to be used with Secondary, Primary and Bench height storage to create a workwall.

Wall panels are offered in wood with tackboard or glass markerboard options.

See page 456 for explanation

6 Overhead Storage

Overheads can be freestanding or wall mounted depending on the application.

Overall height of overhead is determined by type of storage it sits on; either Secondary or Primary Height.

See page 459 for explanation

7 Storage Towers and Wardrobes

These components are available in various heights providing additional storage to the workstation.

See page 461 for explanation

8 Power & Technology

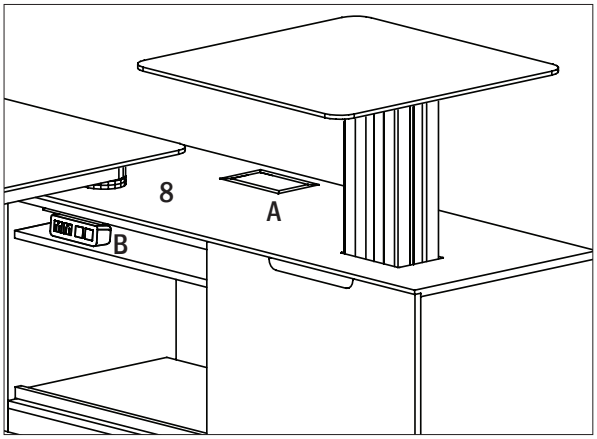
Power & Technology is standard in the Secondary Height Storage with Technology Units.

A. Byrne Ellora includes: (2) power outlets, 72” cord, (1) USB 2-Port Simplex Charger, (1) Passive USB-A, 3.0 with 72”w Cable.

B. Byrne Assemble Reveal includes: (2) power outlets, 72” cord, (1) USB-2 Port Simplex Charger, (1) Passive USB-A, 3.0 with 72” Cable.

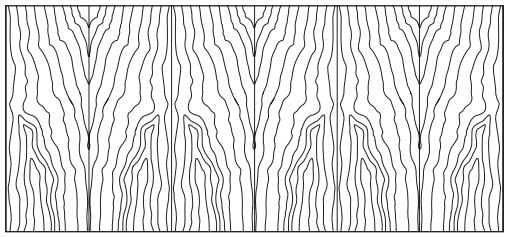
9 Additional Features

Mobile Pedestal, Privacy Screens and Modesty Panels can enhance the workstation.



iXY Product Information

Exterior Wood Materials
Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the iXY product line. To attain a pleasing, symmetrical pattern, all veneers in iXY are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

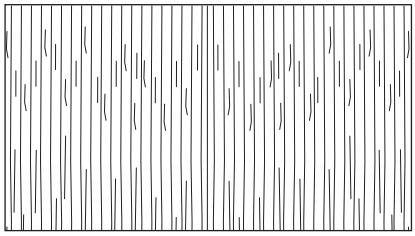


Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book. The diagram above shows book-matched flat cut veneer.

iXY is available in flat cut cherry, maple and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Double Cut veneer is another choice on iXY product. This veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern. The diagram below show the tight pattern used on iXY.



Solid painted finishes on MDF are also offered to provide an accent to the iXY product.

Table Frames
Die-cast aluminum corners with receivers for table rails and legs, attached to underside of the top. Table rails are extruded aluminum with allowance for optional features. Legs, die-cast aluminum with wire cavity and clip features to secure the wires. Glide has approximately 1″ of adjustment and shroud ring to conceal threads.

Veneer Table Tops
Tops are 1¼″ thick 3 ply with MDF core. Edges on table tops are undercut bevel with the ⅜″ flat having a 1.5 mm matching self rim. Tops are secured with core fastening screws to the table rails. Two inch radius corners are on top shapes.

Secondary Height Case Tops
Tops are ¾″ thick, 3 ply construction with a solid lumber band on user side and 1.5 mm veneer tape. Tops are securely fastened with screws through the pedestal stretcher and metal connecting plates.

Primary Height Case Tops
Tops are 1 3⁄16″ thick, 3 ply construction with a solid lumber band on user side and 1.5 mm veneer tape. Tops are securely fastened with screws through the pedestal stretcher and metal connecting plates.

Table with Glass Tops
Tops can be either clear or back painted opaque where applicable. Glass is 10 mm thick with a 1⁄32″ bevel on both the top and bottom edges. Glass is low iron and tempered for safety. A series of small pucks are attached to the underside with an adhesive. These pucks then rest on the table rails.

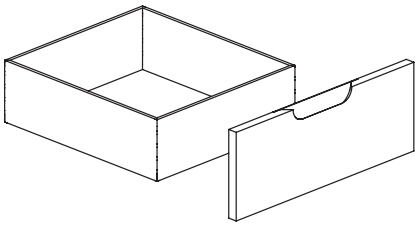
Modesty Panels
Table desks with apron rails may be specified with a partial modesty panel. The back side of the apron rail has a groove in which the custom bracket along with two set screws secure the modesty panel place. Refer to the chart for the pricing that coordinates with each table size. See page 461.

Case Construction
Cases are constructed with a combination of mortise-tenon and dowels to secure joints of the case. Panels are ¾″ thick 3 ply construction. Reinforced metal corner braces secure corners and house the leveler.

Back of cases can be fixed ¾″ thick stationary or ¼″ thick removable. (Check individual items specification listing) Backs of cases are always finished.

Glides have a full adjustment 1½″ to allow for proper leveling.

Drawers
Standard V-fold drawer interior is a ½″ durable, miter-fold drawer system. The four sided box is mitered, glued and doweled with an attached front. The drawer front is veneer rimmed MDF core and is attached to the four sided box. Routed bevel pull creates a self pull. Prism pull is available as an option



Drawer Suspension
High quality black drawer suspension carries a lifetime warranty. Ball bearing provide a smooth effortless access to the drawers. All drawers have soft close feature with the exception of lateral files. File drawers have provisions for legal and letter filing. Lateral file drawers have reinforced bottoms.

Locking
All drawers have locks as standard. The locks are pedestal locking, located in the upper right corner of the top drawer. Locks are optional on most door compartments.

Units are shipped randomly keyed as standard (units in the grouping are keyed alike). Keyed alike units available if requested at no upcharge. Removable cores for in-field re-keying are standard.

Doors
Hinge doors have a 110° swing with the soft close feature.

Sliding doors have a single pass hidden roller wheel with guide tracks. Locking is not available on sliding door units.

Overheads can be ordered with the optional back painted glass doors in a thin profile aluminum frame. Locks are not available on glass doors.

iXY Product Information

Overhead Risers
Fabricated tubing flush welded for structure. Risers are field attached to the underside of the overhead cabinet. Optional tackboards are snap into place onto the upright of the riser. Available colors: Arctic Silver and Bright White.

Wall Mounted Overhead
Cabinets are mounted with reverse style cleats. The cleats are factory installed on the cabinet. Attachment wall cleat and hardware is the responsibility of installer. (See instructions for further details.)

Adjustable Height Worksurface
Single lift column adjust worksurface up to 42¼" height. Control is flush mounted into the top of pedestal. Control for the Table Desk can be mounted either left or right of the top's center. Aluminum profile housing encloses the UL® certified driver and mechanism.

Technology Pedestals
Standard with two electrical and data units, (first unit is flush on the top and second unit is mounted inside the unit; pulls out for use). Both units are configured with two power outlets, one USB 2-Port Simplex Charger, one Passive USB-A, 3.0 with 72" cable. Other configurations are available upon request, see the accessory section, pages 457, 640-641.

On select models a technology drawer is available, this feature allows for most lap top computers and/or their docking station to fit into the pull out drawer. This feature replaces the second box drawer.

Magnetic Privacy Panels
Privacy panels are available on rectangular table desks with veneer tops. These fabric covered panels are magnetic on both sides. The panel core is made up of furniture grade plywood with 28 gauge steel on each side. Upholstered in a textile of choice, some textiles with heavy textures or fibers are not recommended. The casted shaped bracket follows the edge shape. The bracket is mounted with wood screws to the underside of the top and panel is secured inside the fork of the bracket with set screws.

Pull-Out Shelf
Equipment can easily be accessed by specifying the pull out shelf option. This shelf is always located at the bottom of the cabinet and has a front stop rail incorporated as part of the shelf. The slide extensions are undermounts to provide a clean appearance.

Kneespace Access Panels
The kneespace access panel sits between modular units to provide a finished interior back panel between two other modular units. Flat metal brackets are attached to back side of the units to extend into the opening. Powerful earth magnets are embedded into the back of the panels to cling to the extended metal flat brackets. The panel is outfitted with adjustable glides to aid in leveling. The magnets allow the panel to be removed to access the wall and wiring.

Finish - Stain/Colors
We offer a variety of wood stains and paint colors on iXY. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

CH1 Cherry *Flat Cut Veneer*

AUT	Autumn *(Autumn Cherry)*	EAR	Earthy

Protective Top Coat
DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features
Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the of the indoor air we breathe.
Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.
Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Special Finishes
Special finishes can be requested by following the instruction in the general introduction section, page 3. There is a one time charge of $275 list per order.

iXY Product Information

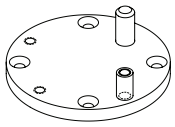
Spindle Plates

Fixed or Pivoting Table Desks supported by Secondary Height Storage require the spindle plate or plates option when ordering the storage unit.

Note: Left desk will attach to a Secondary Height Storage Unit with spindle plates located on the left of the unit. A right table desk will attach to a Secondary Height Storage Unit with spindle plates located on the right of the unit.



Universal Spindle Plate
Spindle plate takes the place of the table leg(s) on fixed or pivoting tables. The plate is mounted onto the supporting pedestal. The table's integrated corner sits onto the spindle plate.

iXY Product Information

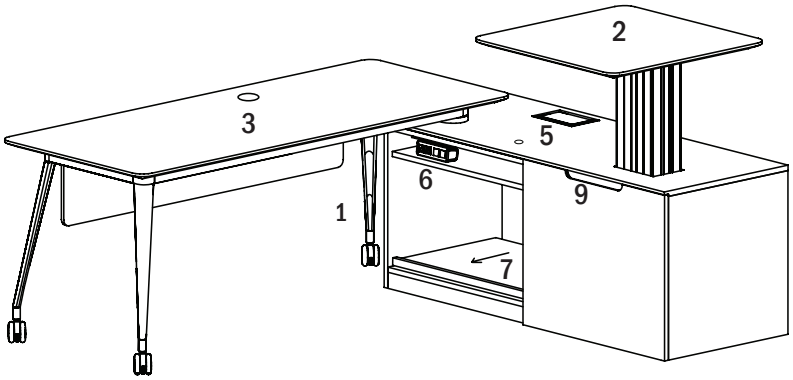
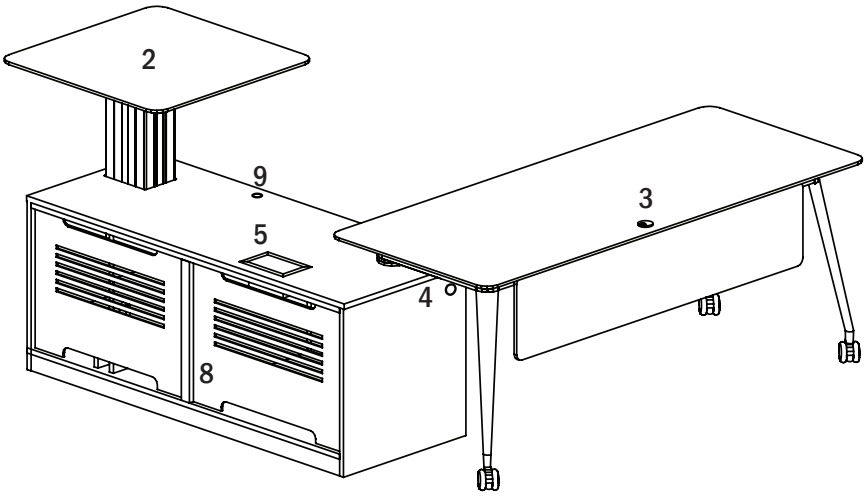
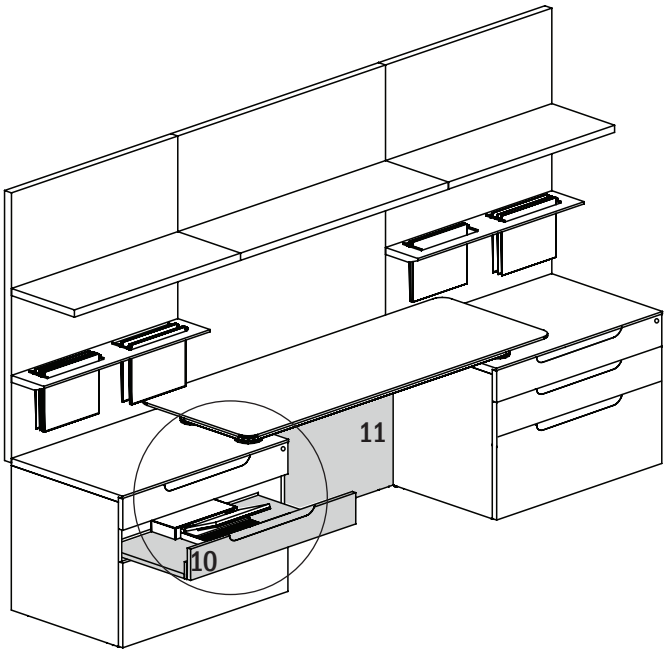
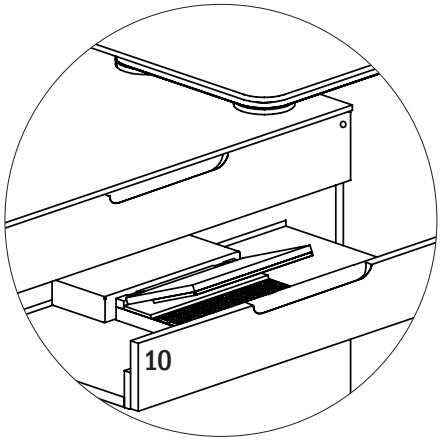
Power and Technology Features





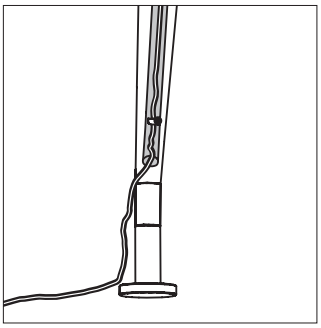




iXY Product Information

1 Wire Extrusion Channel

Leg cavity allows wiring to be routed along the inside of the leg to the floor.

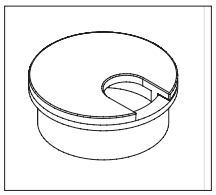


2 Adjustable Height Worksurface

Secondary Height Storage with Technology Pedestals may have a motorized adjustable height worksurface that ranges from 29¾" to 42¼"h.

3 Top Grommet

Matte Nickel grommet, optional on Table Desk.

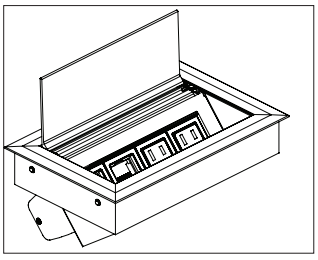


4 End Panel Grommet Sleeve

End panel grommet sleeve is standard on Technology Pedestal with Open Compartment when Spindle Location LS1 or RS1 is specified.

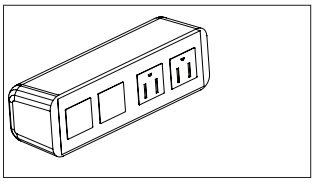
5 Surface Power Unit

(2) Power Outlets, 72" cord,
(1) USB 2-Port Simplex Charger,
(1) Passive USB-A, 3.0 with 72" Cable



11 Pull-Out Power Unit

(2) Power Outlets, 72" cord,
(1) USB 2-Port Simplex Charger,
(1) Passive USB-A, 3.0 with 72" Cable

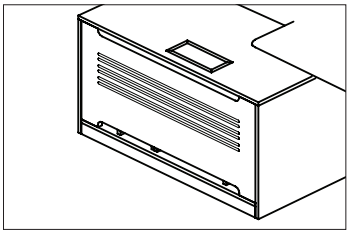


7 Pull-Out Equipment Tray

Pull-Out Equipment Tray is optional on 60", 72" and 90"w Secondary Height Technology Units with an Open Compartment.

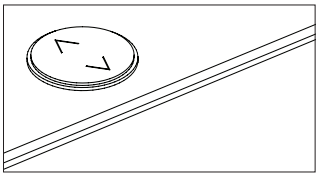
8 Ventilated Removable Back Panel

Ventilated Removable Back Panel is standard on all Secondary Height Technology Units.



9 Control Button

The secondary adjustable height has a surface mounted control button to move the worksurface from 29¾" to 42¼"h.



10 Utility/Technology/File

Utility/Technology/File is optional on the Secondary Height Storage with Technology and Drawers.

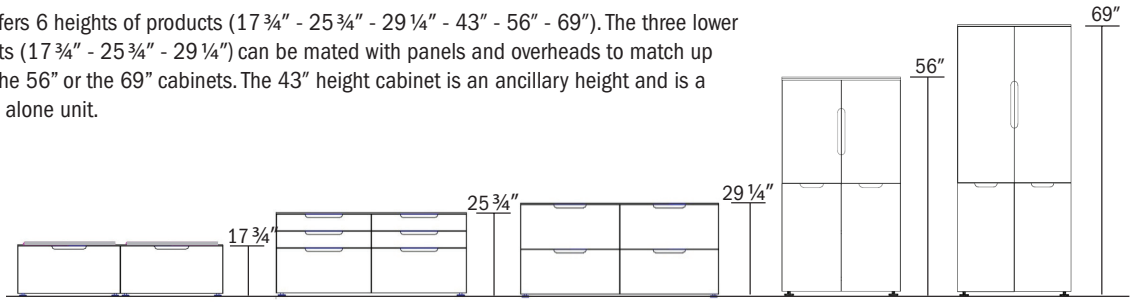
11 Removable Modesty Panel

Removable Modesty Panel may be used with Secondary or Primary Height Storage. Gap along the top of the panel allows for wire management. Magnetic attachment provides easy removal for access to the wall.

iXY Product Information

Matching Overall Heights

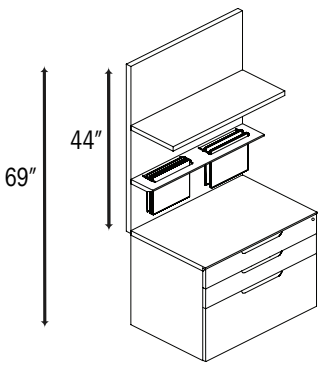
iXY offers 6 heights of products (17 ¾" - 25 ¾" - 29 ¼" - 43" - 56" - 69"). The three lower heights (17 ¾" - 25 ¾" - 29 ¼") can be mated with panels and overheads to match up with the 56" or the 69" cabinets. The 43" height cabinet is an ancillary height and is a stand alone unit.

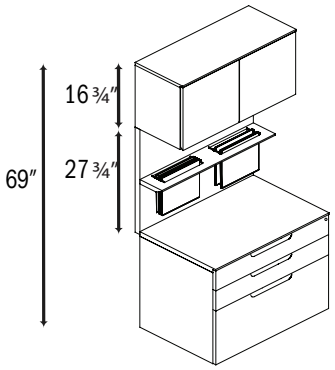


Workwalls

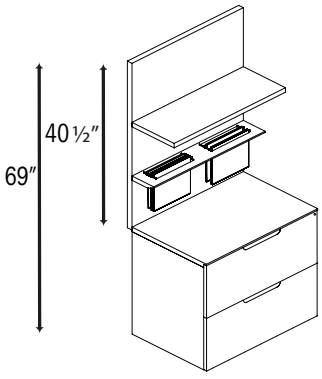
Various Wall Panel types can be specified to be used with Secondary, Primary and Bench Height Storage to create a Workwall. Shorter Wall Panels must be specified when using overhead units. Wall Panels are offered in wood with tackboard or glass markerboard options.

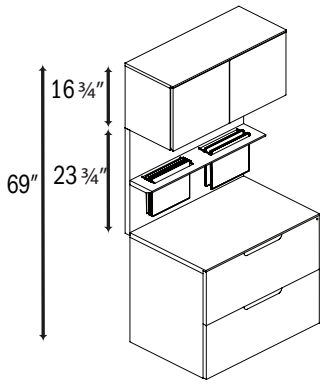
Secondary Height Wall Panel - used with Secondary Height Storage.



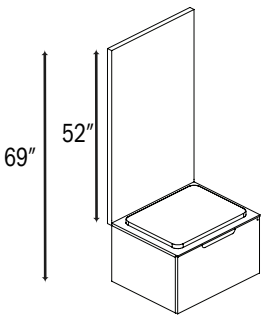


Primary Height Wall Panel - used with Primary Height Storage.





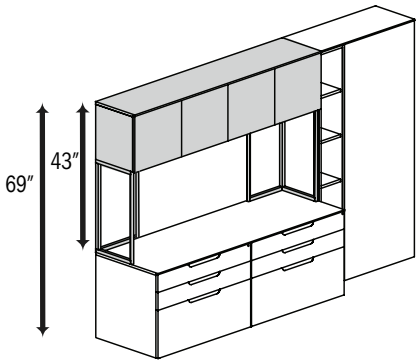
Bench Height Wall Panel - used with Bench Height Storage.



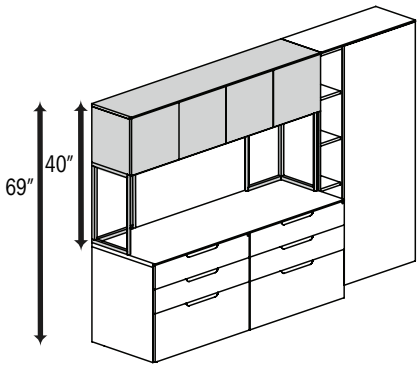
iXY Product Information

Riser Supported Overheads and Shelves

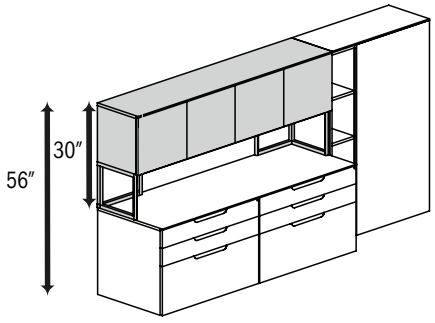
Riser supported overheads and shelves are available in three different heights; 43″, 40″ and 30″



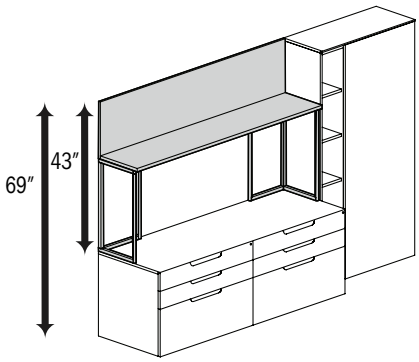
43″h Overhead or Shelf
use with secondary height storage to align with 69″h storage towers

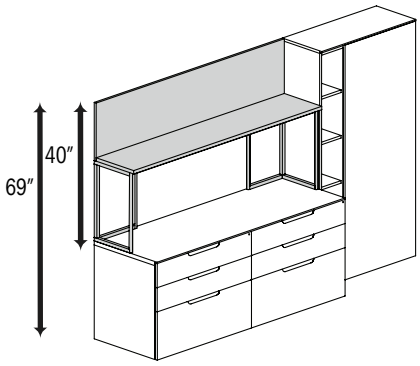


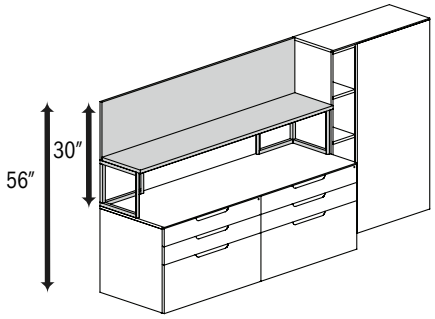
40″h Overhead or Shelf
use with primary height storage to align with 69″h storage towers



30″h Overhead or Shelf
use with secondary height storage to align with 56″h storage towers



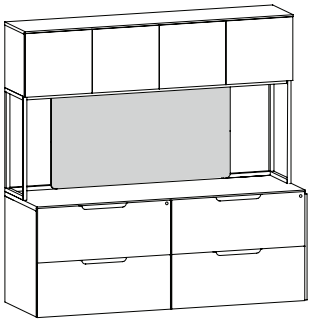




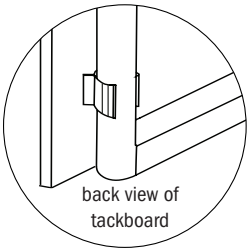
Note: 90″ wide overheads and shelves have a center support rail when ordering a tackboard.

Tackboards

60″, 66″, 72″ and 90″wide overheads and shelves with risers can be ordered with an optional tackboard.



Note: tackboards are inset 12″ on each side.

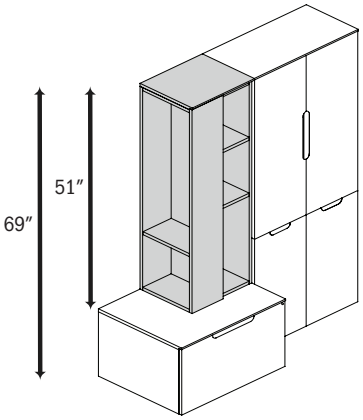


Tackboard clips onto risers for ease of installation.

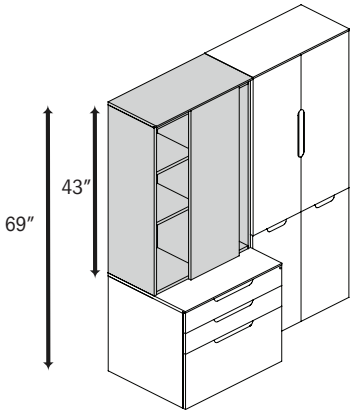
iXY Product Information

Worksurface Storage Towers

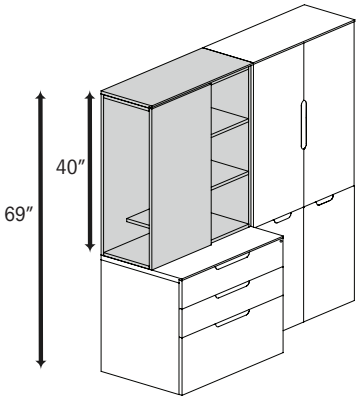
Storage Towers are available in three heights; 51″, 43″and 40″.



51”h Worksurface Storage Tower
shown with 18”w side entry wardrobe with open shelf use with bench height storage



43”h Worksurface Storage Tower
shown with single sliding door use with secondary height storage



40”h Worksurface Storage Tower
shown with 36”w side entry wardrobe with open shelf use with primary height storage

left shown

- shaped all sides
- use with secondary height pedestal or credenza
- two legs with leveling glides
- wire chase clips on all legs
- wire extrusion channel included
- optional partial modesty panel available, specify species/finish or paint finish when ordering; see page 461 for list upcharge (wood modesty panel must match wood top when specified)
- privacy screen available see page 460
- grommet available, specify and add $75 list each; see page 451
- NOTE: grommets not available on glass tops

To Order, Specify:

❶ Model Number
❷ Wood Species on Top - Cherry (CH1), Maple (MA1), Walnut (WA1) or Double Cut (DC1) (see page 448)
❸ Finish Color for Top (see page 449)
❹ Leg Color (see page 450)

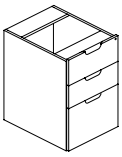
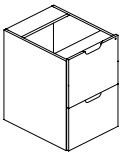
Box/Box/File Pedestal without Top	24	18	28	94	9	**DY7-PUN-1-2418**	**$1,565**



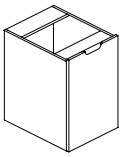
- recessed pulls standard, optional prism pulls available; specify when ordering
- soft close drawers
- locking drawers
- adjustable levelers/glides
- modular top required, see page 502

File/File Pedestal without Top	24	18	28	92	9	**DY7-PUN-M-2418**	**1,565**



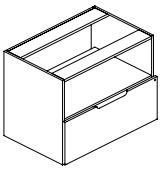
- recessed pulls standard, optional prism pulls available; specify when ordering
- soft close drawers
- locking drawers
- adjustable levelers/glides
- modular top required, see page 502

Hinged Door Pedestal without Top	24	18	28	71	9	**DY7-HDN-1-2418R**	**$1,035**
	24	18	28	71	9	**DY7-HDN-1-2418L**	**$1,035**



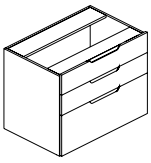
- recessed pull standard, optional prism pull available; specify when ordering
- one adjustable shelf
- adjustable levelers/glides
- locking door available, specify and add $100 list
- modular top required, see page 502

Open Lateral File Pedestal without Top	24	36	28	131	18	**DY7-FLO-1-2436**	**1,725**
	24	30	28	113	15	**DY7-FLO-1-2430**	**1,575**



- top compartment open from front
- recessed pull standard, optional prism pull available; specify when ordering
- locking drawer
- adjustable levelers/glides
- opening height: 12 ¼"
- modular top required, see page 502

Utility/Box/Lateral File Pedestal without Top	24	36	28	145	18	**DY7-FPB-1-2436**	**$1,950**
	24	30	28	130	15	**DY7-FPB-1-2430**	**$1,800**



- recessed pulls standard, optional prism pulls available; specify when ordering
- locking drawers
- adjustable levelers/glides
- modular top required, see page 502

Specification information shown at right.

Modular - Primary Height

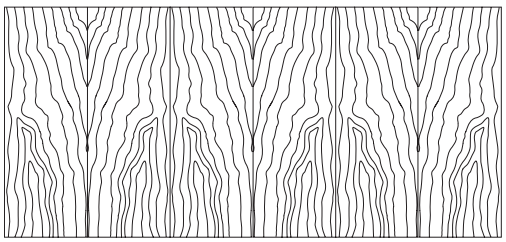
Shuffle Product Information

Exterior Wood Materials
Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Shuffle product line. To attain a pleasing, symmetrical pattern, all veneers in Shuffle are book-matched. All exterior solid lumber is matched to coordinate with the veneer.



Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book

Shuffle is available in plain sliced cherry veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

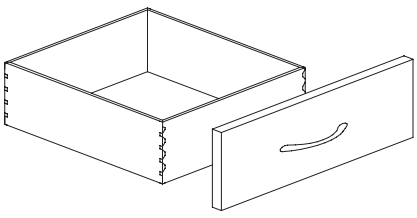
Work Surface Construction
Tops are 5-ply balanced construction, 1 3⁄16" thick with solid matching hardwood edges.

Matching or coordinating high pressure laminate in a veneer grain pattern can be applied to the top surface and is available at no additional charge.

Case Construction
Outside panels are 13⁄16" ▲ and joined together by mortise and tenon construction. In addition to mortise and tenon joint construction, pedestal joints are reinforced with screws, cleats, brackets, and glue. Leveling glides are set into solid hardwood blocks with t-nut inserts, which helps to prevent the leveling gilde from tear outs. Tops are secured to the chassis with top fastening cleats screwed to the inside of the panels.

Cabinet doors have 110˚ swing hinges to allow adequate access into the interior of the cabinet.

Drawers
The 9ply unidirectional hardwood sides of the drawer box are 7⁄16" thick assembled with English dovetail construction at each corner of the box. The drawer bottom panel is 1⁄4" thick fitting into a groove machined the into side of the box. Interiors are sanded and coated with clear U.V. finish to protect against shrinking, swelling or warping, and to provide a clean, smooth feel and appearance.



Drawer Suspension
The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. File and box drawers have 100% full extension with over travel.

Filing Hardware
All file drawers are constructed with a custom designed filing system in place to allow for hanging folders. Filing diagram on pages 588-590.

Locking
All desks, lateral files and free standing credenzas feature pedestal locking. Returns and single pedestal credenzas feature pedestal locking to provide maximum security and flexibility.

Units are shipped randomly keyed as standard. Key alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard.

Finish - Stain/Colors
We offer a variety of wood stains and paint colors on Shuffle. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

CH1 Cherry *Flat Cut Veneer*

AUT	Autumn *(Autumn Cherry)*	EAR	Earthy
BRL	Barley	LGC	Legacy *(Legacy Cherry)*
BBN	Bourbon *(Natural Cherry)*	PRL	Praline *(Vintage Cherry)*
BRG	Brighton *(Brighton Cherry)*	SAF	Saffron *(Medium Cherry)*
CLA	Classic *(Classic Cherry)*		

Protective Top Coat
DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features
Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the of the indoor air we breathe.
Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.
Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Shuffle Product Information

Product Modification

Laminate Tops
Worksurface only, no additional upcharge if coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request. Listed below are finishes that have coordinating wood grain HPL laminates.

Cherry Finishes
Autumn
Barley
Bourbon
Brighton
Classic
Legacy
Praline
Saffron

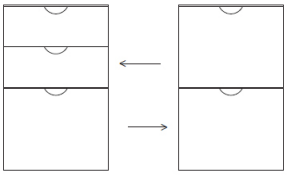
Special Finishes
Special finishes can be requested by following the instructions in the general introduction section, page 3. There is a one time charge of $275 list per order.

Finish Sheen Modification
Finish sheen can be modified on the worksurface tops. There is a 15% upcharge added to the list of each item.

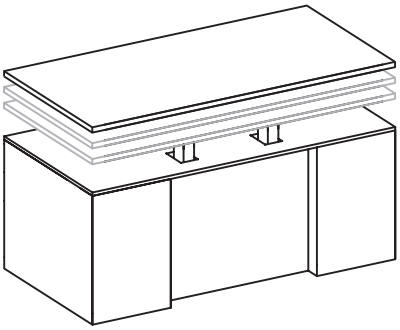
Oak Veneer
Upon request veneer can be changed from the standard offering to oak flat cut veneer with an additional 40% upcharge to the list of each item.

Pedestal Configuration Change
Desks have one box/box/file pedestal. The double pedestal has a file/file on the right side. Returns and credenzas are configured with file/file pedestals.

Shuffle drawer configuration on pedestals 28½" to 30" high can be switched out either to a box-box-file or file-file configuration, but must be specified at the time of order and with an additional 5% upcharge to the list price.



Shuffle Product Information



This mechanism requires a signed Liability Wavier prior to time of order specification.

Contact Customer Service or visit our Website at jsifurniture.com

ERGO Adjustable Work Height Mechanism
Our proprietary adjustable work height mechanism can be specified on many of the models in Shuffle.

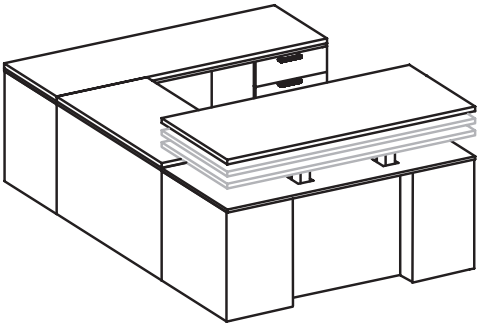
ERGO mechanism allows height adjustability to be added to the worksurface. Our solution uses a standardized design that minimizes the modifications required to standard desk, bridge, or credenza models. The mechanism and control box are neatly concealed to maintain the appearance of the original elegance of the product. A push button activates the electric powered lifting columns for adjustability from sitting height to a standing height. A ¾" thick finished sub top is added to the top of the desk chassis for a clean appearance when the surface is in the raised position. In the lowered position, please note that ERGO adds ¾" to the standard height of the desk and the installation will decrease knee space depth by 8".

Automatic Collision Control is built in to each mechanism as a standard feature. When the system senses an obstacle obstructing the movement, the mechanism will reverse direction and retreat by 1".

When ERGO is added to a desk worksurface in a "L" or "U" group, the unit that connects to the desk also needs to have a sub top added. These units are considered to be ERGO ADJACENT units. ERGO ADJACENT units must have a fixed height worksurface that matches the lowest position of the ERGO mechanism and the top. This is accomplished by adding a ¾" sub top between the chassis and the worksurface. This feature can also be specified for cabinets which may sit next to a unit with the ERGO mechanism.

Height adjustment starts at 30 ¼", to a standing height of 49 ¾", a range of 19 ½".

To specify the unit that has the mechanism, add **ERGO** to the end of the model number.
To specify the connecting or adjacent units add, **ERGO ADJACENT** to the end of the model number.



Example

Connecting or Adjacent Units to Match Starting Height

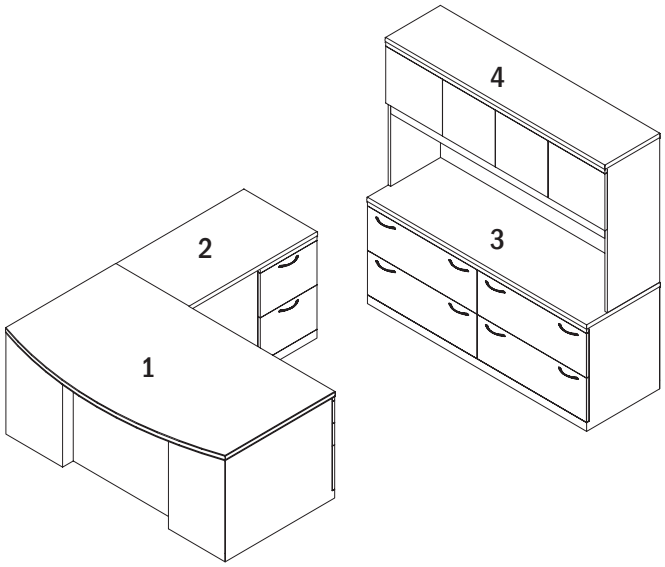
All the units listed above can be specified as connecting or adjacent units. Other Shuffle units could also be used as connecting units. Please contact Customer Service for additional items and pricing. When specifying, please add "ERGO ADJACENT" to the end of the model number.

Pricing for Standard Connecting or Adjacent Units
Tops larger than 24" x 48" add $500 to the list price.
Tops 24" x 48" or smaller add $425 to the list price.

Shuffle Product Information

Layouts

Typical layouts are available in Shuffle



Layouts

1 Break front desks are standard in Shuffle with optional center modesty panel.

2 Returns can be specified in multiple widths and are standard with file/file pedestal configuration.

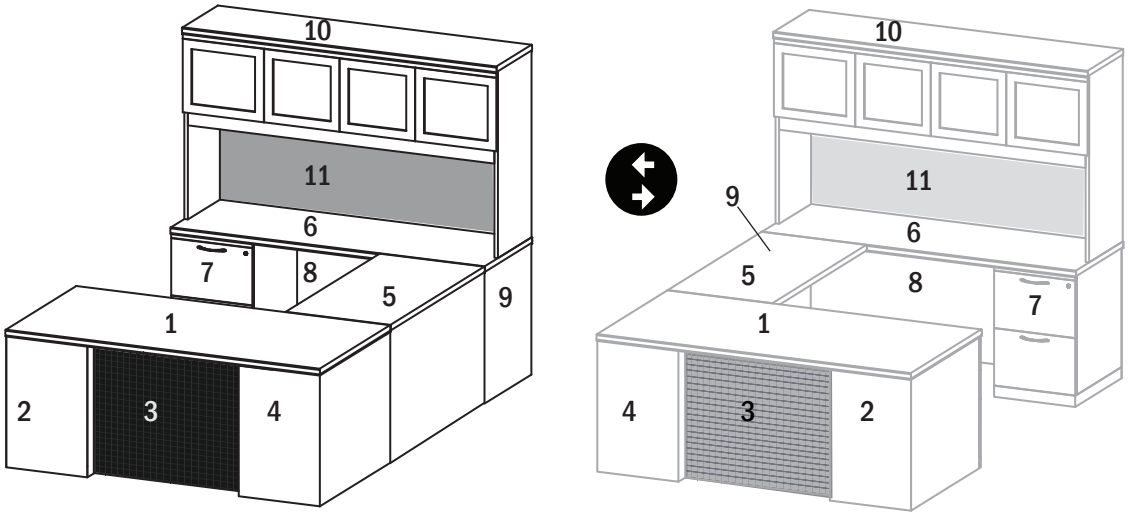
3 Shuffle offers a variety of different storage credenzas.

4 Overhead storage offered in 1 height and 4 door treatments.
- wood doors
- wood frame doors with clear glass
- wood frame doors with frosted glass
- aluminum frame doors with frosted glass

Tackboards and tackboards with accessory rails can also be specified for the overhead storage cabinets.

Modularity

Shuffle's modular construction allows right handed layouts to be reconfigured to left hand layouts without the requirement of additional components.



Build a right layout or a left layout with this same product list.

1	SH3672MCT	Modular Desk Top
2	SH1836MBF	Modular Desk Pedestal - Box/Box/File

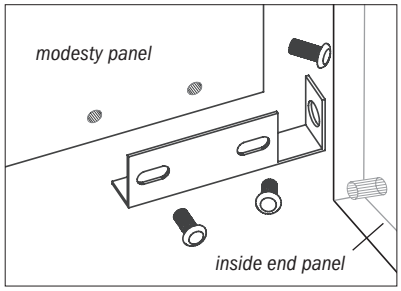
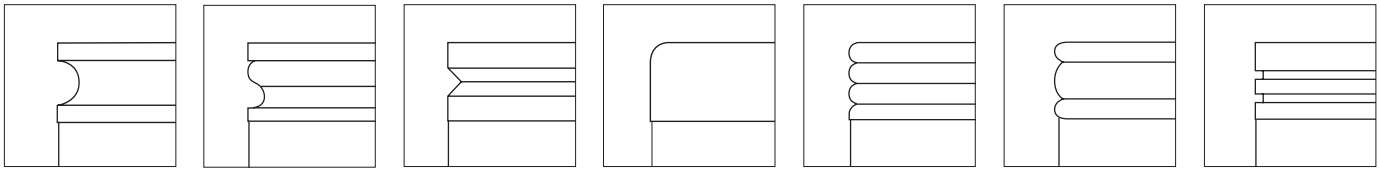
4	SH1836WEA	Modular Wing End Assembly *(flip over for right or left)*
5	SH2442EB	Executive Height Bridge
6	SH2472MCT	Modular Credenza Top
7	SH1824MFF	Modular Credenza Pedestal - File/File
8	SH2852MB	Modular Back Panel
9	SH24EP	Modular End Panel *(flip over hardware for left or right)*
10	SH1872CGO	Overhead Cabinet - Clear Glass Doors
11	SH72TK	Tackboard



Pre-installed threaded inserts and simple connecting hardware makes it easy to assembly and reconfigure shuffle modular components. Instructions are included for assembly.

Shuffle Product Information

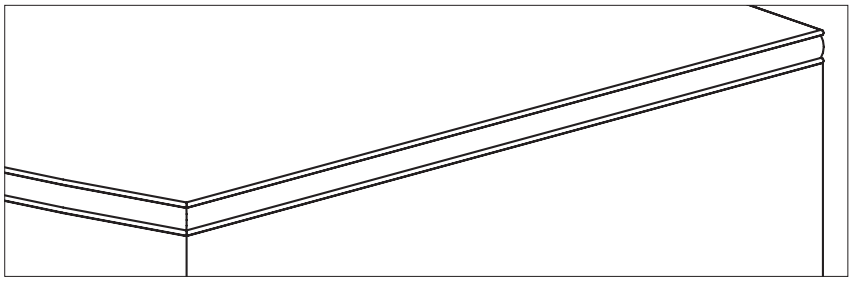
Top Edge Details



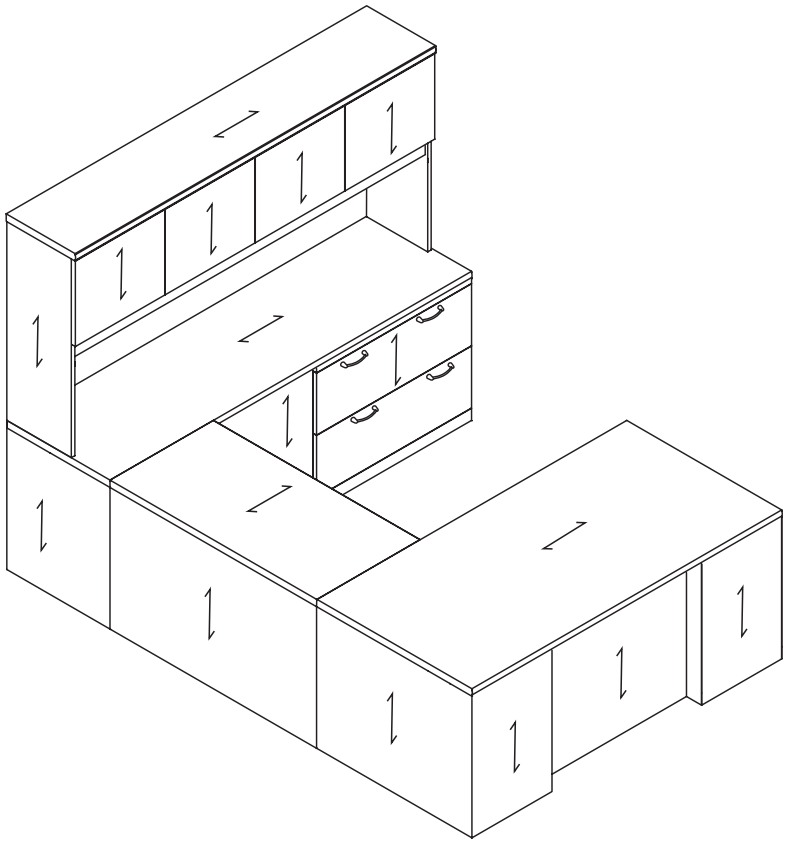
Concave (O) | Crown (Q) | Diamond (T) | Eased (R) | Reeded (H) | Transitional (C) | Triad (F)

Top Edge Detail Location

Top edge detail on worksurfaces runs the entire perimeter, approach, user sides, and ends.



Standard Grain Direction



Notes:
Grain direction on return and bridge units run short grain.

Grain on valance rails on overhead cabinets run vertical.

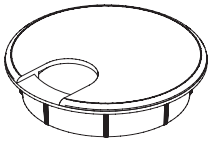
Grommet

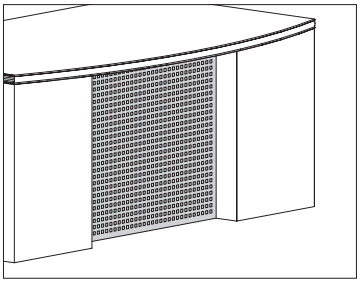


Worksurface grommets can be specified on desks, credenzas, and other types of veneer/laminate work surfaces. The grommet location must be approved by JSI manufacturing: contact Customer Service.

Add $75 to the list for each grommet.

Note: Grommet is standard on corner units and the back panel of overhead cabinets. All other locations must be specified.

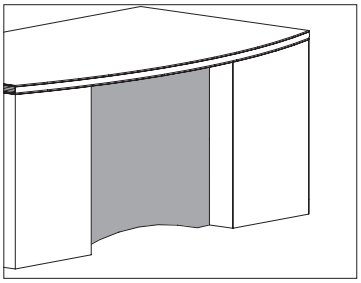
Product Trim Features and Options



Perforated Metal Modesty

- Decorative metal in 2 finishes
  - Black
  - Satin Nickel

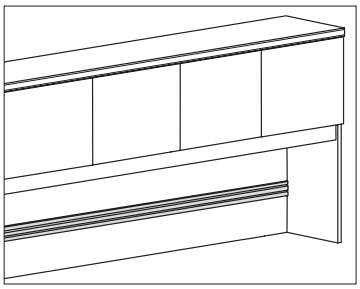
Note: available as an option or as a modular component. Not available in custom sizes.



Veneer or Laminate Modesty

- Contour Edge
  - Bottom only
  - Bottom and top
  - Use top for wiring access
- Veneer Panel
  - All cherry finishes, see page 580
- Laminate Panel
  - Standard laminate, see page 581

Note: available as an option or as a modular component.



Aluminum Accessory Rail

- Anodized aluminum finish
- Accessory tools (see page 627)
  - Upright Tray
  - Small Tray
  - Pencil Tray
  - Paper Tray
  - File Hanger

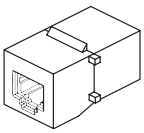
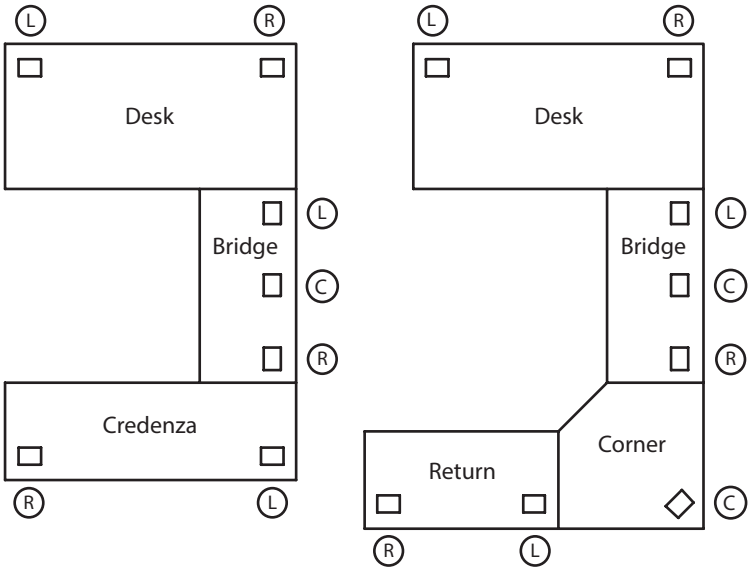
Voice Coupler						**TCP304**	**$71**



- AMP Category 3, RJ-11
- 6-Pin
- connects to standard phone cord

To Order, Specify:
❶ Model Number

Standard casegoods cut out locations:



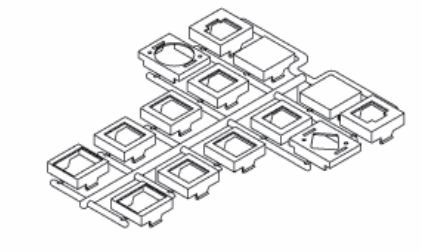
- Specify - Location when ordering on desk, return, computer corner, bridge and credenza - please provide drawing.
- Computer corner units - power/data replaces grommet.
- Standard power and data unit locations are indicated from user side of desk, return, computer corner bridge or credenza.

NOTE: Verify fit of data jack in adapter before ordering large quantities as manufacturer designs may change without notice

Data Adapter Applications

Data adapter kits ship with each power and data unit.

Adapter plates are marked on the back with letter designators to indicate the data jack manufacturer, series and style. Websites are listed below for quick reference to verify data jack series or style.



NOTE: Verify fit of data jack in adapter before ordering large quantities as manufacturer designs may change without notice.

Vision Laminate Product Information

Laminates
Vision Laminate features TFL (thermally fused laminate) chassis and components. *Main Worksurfaces** are available in a HPL (high pressure laminate) or in the TFL surface.

Edges of the worksurface are impact resistant (PVC) on TFL and HPL tops. The laminate is offered in 10 wood grain patterns and 7 solid colors. The wood grain laminate features an embossed grain to hide finger prints and light scratches. The solid laminate is smooth to the touch with a semi-matte finish. All Vision Laminate products are indoor-air certified by GreenGuard.

The chart below lists the laminates available on the Vision product. Former laminate names are listed in parentheses for reference.

TFL - HPL ***Veneer Grain Pattern Laminates***

AUT	Autumn *(Autumn Cherry)*	HGL	High Line
BLO	Blonde Echo	SHE	Shea *(Natural Maple)*
BBN	Bourbon *(Natural Cherry)*	STU	Studio Teak
BZW	Brazilwood	WLH	Walnut Heights
BRG	Brighton *(Brighton Cherry)*	VIN	Vintage *(Vintage Cherry)*

TFL - HPL ***Solid Laminates***

ALB	Alabaster	SHD	Shadow
BBL	Bridal Blanco	SLG	Slate Grey
DWH	Designer White	TAU	Taupe
DOV	Dove Grey		

WorkSurfaces
Worksurfaces have a 3-ply balanced construction. Tops are 1 3⁄16" thick with coordinating PVC edges. Primary worksurfaces feature 3mm PVC edges on the approach and user sides. Some laminates have a choice of 3 edge profiles, see page 43. *Main Worksurfaces** are offered in TFL or HPL.

Bridge, return, credenza worksurfaces are profiled with a 3mm PVC edge on the user side only. Remaining edges are banded with 1mm PVC which creates a seamless appearance when units are mated end-to-end or back-to-back.

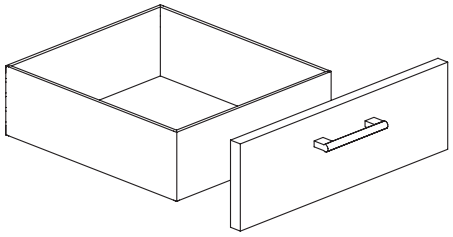
TFL features on *Main Worksurfaces**
- fused to the 45 pound density substrate of the top for a durable surface
- tops are laminated on both sides
- available in all the wood grain and solid patterns

HPL features on *Main Worksurfaces**
- fusion of multiple layers create a higher impact resistant surface
- tops are 3-ply balanced construction
- matched to the TFL wood grain and solid patterns

**Main Worksurfaces include tops on desks, standard height credenzas, returns, bridges and transaction tops. Refer to pricing pages to confirm availability.*

Case Construction
Panels for chassis consist of a ¾" thick substrate with TFL surfaces and PVC bands on exposed edges. Pedestals and cabinets are constructed with dowels reinforced with screws, cleats and metal fasteners for increased stability. Leveling glides are set into solid hardwood blocks with t-nuts, which helps to prevent the leveling glide from tear-outs.

Drawers
The unidirectional V- Fold drawer box is a durable miter-fold drawer structure which is glued and doweled. The ½" thick drawer sides are wrapped in a high grade maple vinyl, with an attached front. The drawer front is attached to the four sided box.



Drawer Suspension
High quality black drawer suspension carries a lifetime warranty. File and box drawers have 100% full extension with over travel. Slides feature steel ball bearings for longer wear and positive, cushioned in/out stops.

Filing Hardware
All file drawers are constructed with a custom designed for hanging folders. Filing diagram on page 48-52.

Locking
All desks, returns, lateral files, free standing credenzas, and bench height credenza feature pedestal locking.

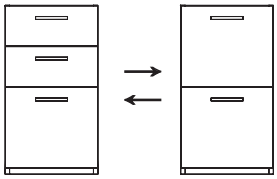
Units are shipped randomly keyed as standard. Key alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard.

Vision Laminate Product Information

Product Modification

Pedestal Configuration Change

Desks have one box/box/file pedestal. The pedestal double pedestal has a file/file on right side. Returns and credenzas are configured with file/file pedestals.

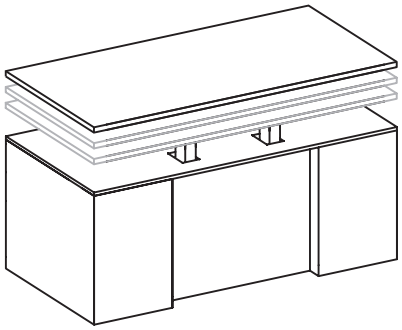


Drawer configurations can be changed from ether a box/box/file or a file/file configuration, on unit 30″ high, but must be specified at the time of order. An additional 5% upcharge needs to be added to the list price of the unit. *(Must keep the same pedestal depth.)*

Special Construction

Vision Laminate offers large offering to create many types of configuration. Contact Customer Service if you are having trouble with finding the right units to complete the desired configuration. Special request may be denied because of material limitations.

Vision Laminate Product Information



This mechanism requires a signed Liability Wavier prior to time of order specification.

Contact Customer Service or visit our Website at jsifurniture.com

ERGO Adjustable Work Height Mechanism
Our proprietary adjustable work height mechanism can be specified on many of the models in Vision Laminate.

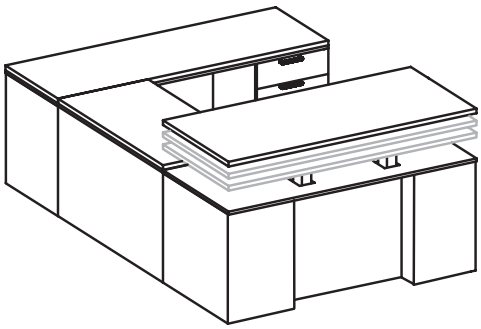
ERGO mechanism allows height adjustability to be added to the worksurface. Our solution uses a standardized design that minimizes the modifications required to standard desk, bridge, or credenza models. The mechanism and control box are neatly concealed to maintain the appearance of the original elegance of the product. A push button activates the electric powered lifting columns for adjustability from sitting height to a standing height. A ¾" thick finished sub top is added to the top of the desk chassis for a clean appearance when the surface is in the raised position. In the lowered position, please note that ERGO adds ¾" to the standard height of the desk and the installation will decrease knee space depth by 8".

Automatic Collision Control is built in to each mechanism as a standard feature. When the system senses an obstacle obstructing the movement, the mechanism will reverse direction and retreat by 1".

When ERGO is added to a desk worksurface in a "L" or "U" group, the unit that connects to the desk also needs to have a sub top added. These units are considered to be ERGO ADJACENT units. ERGO ADJACENT units must have a fixed height worksurface that matches the lowest position of the ERGO mechanism and the top. This is accomplished by adding a ¾" sub top between the chassis and the worksurface. This feature can also be specified for cabinets which may sit next to a unit with the ERGO mechanism.

Height adjustment starts at 30 ¾", to a standing height of 49 ¾", a range of 19 ½".

To specify the unit that has the mechanism, add **ERGO** to the end of the model number.
To specify the connecting or adjacent units add, **ERGO ADJACENT** to the end of the model number.



Example

VL3672LD-ERGO	add $2,750 to list

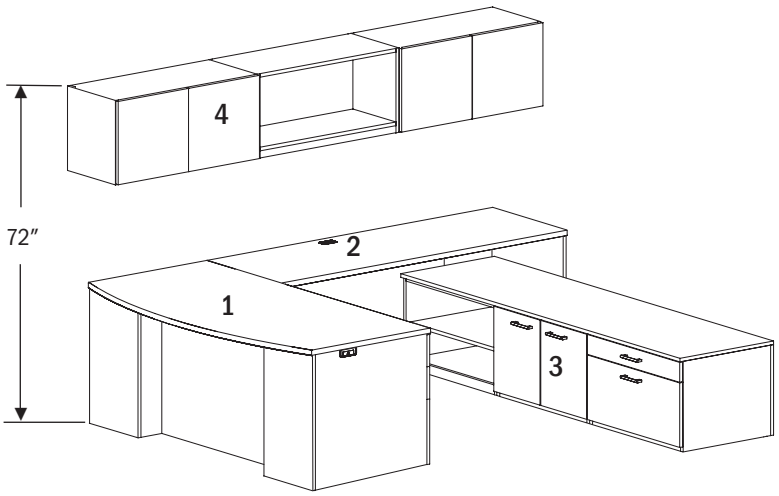
Connecting or Adjacent Units to Match Starting Height

All the units listed above can be specified as connecting or adjacent units. Other Vision Laminate units could also be used as connecting units. Please contact Customer Service for additional items and pricing. When specifying, please add "ERGO ADJACENT" to the end of the model number.

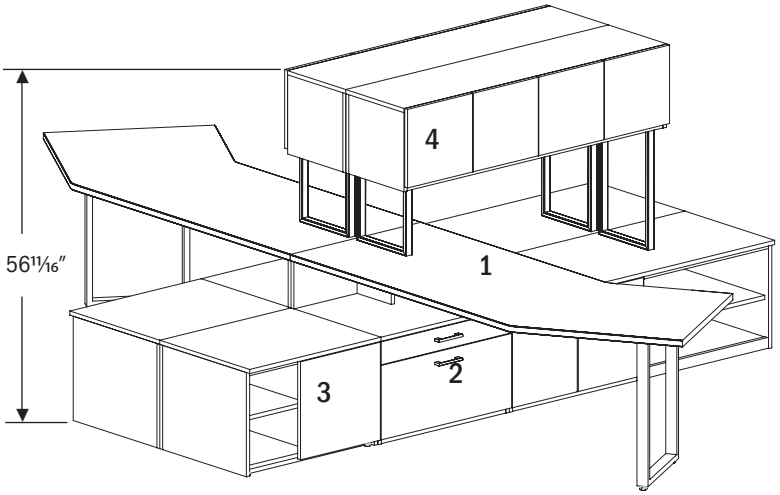
Pricing for Standard Connecting or Adjacent Units
Tops larger than 24" x 48" add $400 to the list price.
Tops 24" x 48" or smaller add $325 to the list price.

Vision Laminate Product Information

Layouts



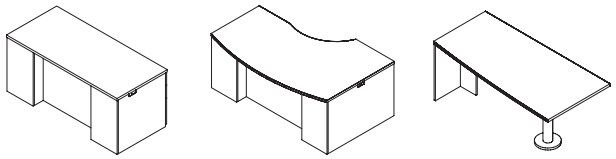
Vision Laminate can be configured in many different ways to achieve the perfect layout.



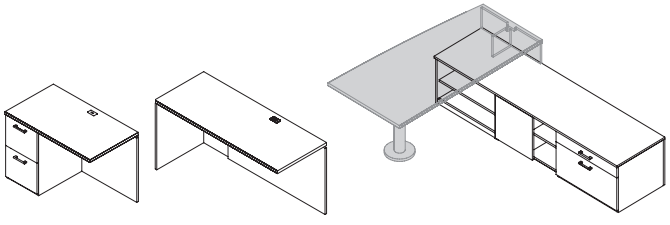
Create open plan or teaming stations with Vision Laminate modular components.

Easily Specified Layout

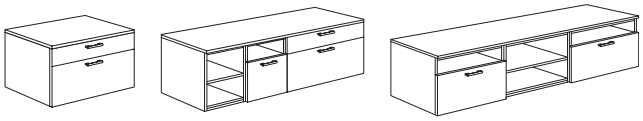
1 Primary Worksurfaces are available in traditional desks with pedestals or peninsula worksurfaces with a variety of shapes. The pedestal desks have end panel grommets for wire management.



2 Side Worksurfaces can be corner shell returns, bench height credenzas, pedestal returns, and adjustable tables. Peninsula desks with bench height support can be specified to work with the bench height credenzas.



3 Bench Height Credenzas. Vision Laminate offers a wide range of storage configurations. Modular groups of bench height credenzas can be specified to create unique configurations. Seat cushions are ordered separately from the credenza and allow customers to choose the fabrics.



4 Overhead Storage Cabinets. Traditional style overheads are available along with post support overheads, which can be used in open plan. Both are available in two heights. Wall mounted overheads can provide a light scale solution.

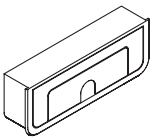
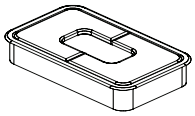
Grommet and Color Options



End/Back Panel Grommet
The end/back panel grommets are standard on desks, returns, standard height credenzas, and modular cabinets with end panels. This grommet is also on back panels of returns and on back panels for overhead cabinets.



Worksurface Grommet
Worksurface grommets are standard on the bridge, return units, and corner units.

Matte Black (MBK)
Stardust Silver (STS)

Grommets are available in Matte Black (MBK) or Stardust Silver (STS). Choose one color for all grommets. Lock cores will match grommet color. Additional grommets can be added. Location must be approved by JSI manufacturing, contact Customer Service.

Add $75 to the list for each additional grommet.

Standard Grommets Locations

Vision Laminate features grommets for wiring to pass thru the unit.

Wire Management

Wiring can move freely from unit to unit with the standard grommets and out to the building data and power.

Pedestal desks, credenzas, corners units, bridge panels, return modesty and end panels are standard with end panel grommets.

The end panel grommet opening is 4″ wide by 1 7⁄16″ high with a bezel trim secured to the panel with a friction side cap.

Top grommets are standard in returns, bridges and corner units. Additional top grommets may be specified as an option.

Optional power and data units can be positioned in the tops to provide tilt up technology access at the worksurface.

Refer to the accessory section for these items or other accessories items. (see page 407)

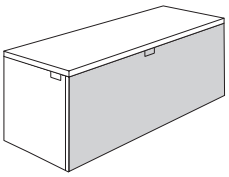
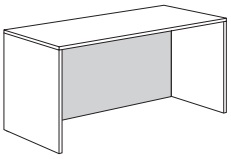
54	3/4	54 1/16	28	**VL2855MA**

Modular Modesty Panels Applications

Desk Shells



Approach view



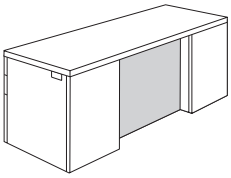
User side view

Consists of:
VL2442MCT - top
VL23EP - (2) end panels
VL2842MA - modesty panel

Modesty Panel Sizes for Desk Shells with both left and right ends using VL23EP end panel

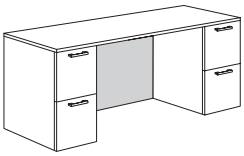
Top Width	End Panel Thickness VL23EP	Modesty Width	Modesty Height	Model Number
30	3/4	29 7/8	28	VL2830MA
36	3/4	35 7/8	28	VL2836MA
42	3/4	41 7/8	28	VL2842MA
48	3/4	47 7/8	28	VL2848MA
54	3/4	53 7/8	28	VL2854MA
60	3/4	59 7/8	28	VL2860MA

Desk Shells with Breakfront



Approach view of unit using wing end panels

Consists of:
VL1630WEAL - left wing end panel
VL1630WEAR - right wing end panel
VL2840MA - breakfront modesty panel
VL3072MCT - top



User side view of double ped desk

Consists of:
VL1630MFF - (2) 30" deep modular pedestals
VL2840MA - breakfront modesty panel
VL3072MCT - top

Modular Breakfront Modesty Panel Sizes for double pedestal desks and credenzas -OR- Single pedestal desks and credenzas with the VL1630WEAL or VL1630WEAR wing end assembly or with the VL1624WEAL or VL1624WEAR wing end assembly

Top Width	Right or Left Pedestal or Wing End Assembly Width	Modesty Width	Modesty Height	Model Number
