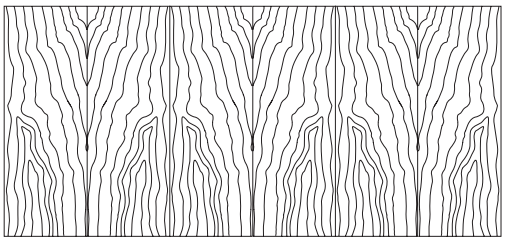
Vision Veneer Product Information

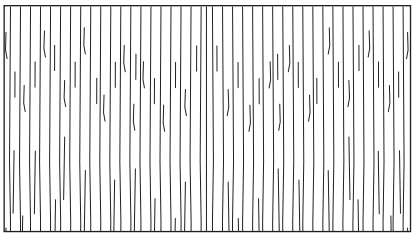
Exterior Wood Materials
Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Vision Veneer product line. To attain a pleasing, symmetrical pattern, all cherry, maple, walnut veneers in Vision Veneer are book-matched. All exterior solid lumber is matched to coordinate with the veneer.



Book-Matched Example
Alternating pieces of veneer are flipped over so they face each other like the pages within a book

Vision Veneer is available in flat cut cherry, maple and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Double Cut veneer is another choice on Vision Veneer product. This veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern. The diagram below show the tight pattern used on Vision Veneer.



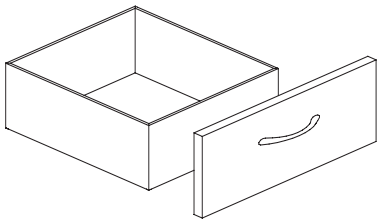
Cherry veneer is the only veneer species available on the NOW! quickship program on select models.

Work Surface Construction
Tops are 5-ply balanced construction, 1 3⁄16″ thick with solid matching hardwood edges. Surfaces are available in wood veneer or high pressure laminate. No additional charge for using our coordinating high pressure laminate with a veneer grain pattern with finish wood edges.

Case Construction
Outside panels are 13⁄16″▲ and joined together with dowels reinforced with screws, cleats and metal fasteners for increased stability. Leveling glides are set into solid hardwood blocks, which helps to prevent the leveling glide from tear out. Tops are secured to the chassis with top fastening cleats screwed to the inside of the panels.

Cabinet doors have 110˚ swing hinges to allow adequate access into the interior of the cabinet.

Drawers
The unidirectional V- Fold drawer box is a durable miter-fold drawer structure which is glued and doweled. The ½″ thick drawer sides are wrapped in a high grade maple vinyl, with an attached front. The drawer front is attached to the four sided box.



Optional four corner dovetailed wood drawers are available. Specify and add 10% per unit.

Drawer Suspension
High quality black drawer suspension carries a lifetime warranty. File and box drawers have 100% full extension with over travel. Slides feature steel ball bearings for longer wear and positive, cushioned in/out stops.

Filing Hardware
All file drawers are constructed with a custom designed for hanging folders. Filing diagram on pages 238-243.

Locking
All desks, credenzas, returns and mobile pedestals feature pedestal front locking to provide maximum security and flexibility in configuration.

Units are shipped randomly keyed as standard. Key alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard.

Vision Veneer Product Information

Finish - Stain/Colors
We offer a variety of wood stains and paint colors on Vision Veneer. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

CH1 Cherry *Flat Cut Veneer*

AUT	Autumn *(Autumn Cherry)*	EAR	Earthy
BRL	Barley	LGC	Legacy *(Legacy Cherry)*
BBN	Bourbon *(Natural Cherry)*	PRL	Praline *(Vintage Cherry)*

NTO	Night Owl *(Vintage Walnut)*		

DC1 Double Cut Veneer

COF	Coffee	GRH	Graphite
CRM	Cremello	KHK	Khaki

Protective Top Coat
DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features
Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the of the indoor air we breathe.
Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.
Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Special Finishes
Special finishes can be requested by following the instruction in the general introduction section, page 3. There is a one time charge of $275 list per order.

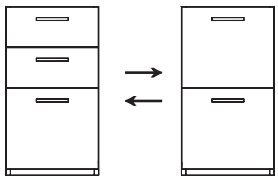
Product Modification

Laminate Tops
Work surface only, no additional upcharge if Finale's coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request. Listed below are finishes that have coordinating wood grain HPL laminates.

Cherry Finishes	Maple Finishes	Walnut Finishes
Autumn	*Ale*	*Auburn*
Barley	*Cinnamon*	*Mocha*
Bourbon	*Venetian*	*Night Owl*
Brighton		*Sienna*
Classic		*Toffee*
Legacy		*Truffle*
Praline		
Saffron		

Oak Veneer
Upon request veneer can be changed from the standard offering to oak plain sliced veneer with a 40% upcharge on to the list of each item.

Pedestal Configuration Change
Desks have one box/box/file pedestal. The pedestal double pedestal has a file/file on right side. Returns and credenzas are configured with file/file pedestals.



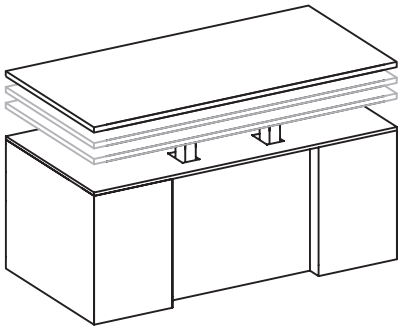
Drawer configurations can be changed from ether a box/box/file or a file/file configuration, on unit 30"high, but must be specified at the time of order. An additional 5% upcharge needs to be added to the list price of the unit. *(Must keep the same pedestal depth.)*

Wood drawers
Four corner dovetailed wood drawers must be specified at the time of order placement. There is a 10% upcharge added to the list of each item.

Finish Sheen Modification
Finish sheen can be modified on the work surface tops. There is a 15% upcharge added to the list of each item.

Special Construction
Vision Veneer offers large offering to create many types of configuration. Contact Customer Service if you are having trouble with finding the right units to complete the desired configuration. Requests need to be approved by JSI engineering.

Vision Veneer Product Information



This mechanism requires a signed Liability Wavier prior to time of order specification.

Contact Customer Service or visit our Website at jsifurniture.com

ERGO Adjustable Work Height Mechanism
Our proprietary adjustable work height mechanism can be specified on many of the models in Vision Veneer.

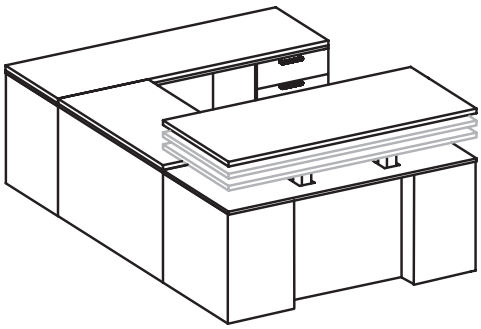
ERGO mechanism allows height adjustability to be added to the worksurface. Our solution uses a standardized design that minimizes the modifications required to standard desk, bridge, or credenza models. The mechanism and control box are neatly concealed to maintain the appearance of the original elegance of the product. A push button activates the electric powered lifting columns for adjustability from sitting height to a standing height. A ¾" thick finished sub top is added to the top of the desk chassis for a clean appearance when the surface is in the raised position. In the lowered position, please note that ERGO adds ¾" to the standard height of the desk and the installation will decrease knee space depth by 8".

Automatic Collision Control is built in to each mechanism as a standard feature. When the system senses an obstacle obstructing the movement, the mechanism will reverse direction and retreat by 1".

When ERGO is added to a desk worksurface in a "L" or "U" group, the unit that connects to the desk also needs to have a sub top added. These units are considered to be ERGO ADJACENT units. ERGO ADJACENT units must have a fixed height worksurface that matches the lowest position of the ERGO mechanism and the top. This is accomplished by adding a ¾" sub top between the chassis and the worksurface. This feature can also be specified for cabinets which may sit next to a unit with the ERGO mechanism.

Height adjustment starts at 30 ¾", to a standing height of 49 ¾", a range of 19 ½".

To specify the unit that has the mechanism, add **ERGO** to the end of the model number.
To specify the connecting or adjacent units add, **ERGO ADJACENT** to the end of the model number.



Example

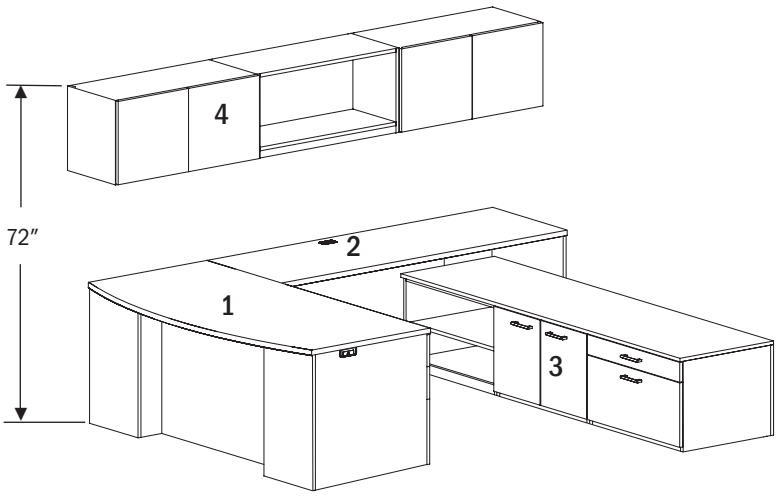
Connecting or Adjacent Units to Match Starting Height

All the units listed above can be specified as connecting or adjacent units. Other Vision Veneer units could also be used as connecting units. Please contact Customer Service for additional items and pricing. When specifying, please add "ERGO ADJACENT" to the end of the model number.

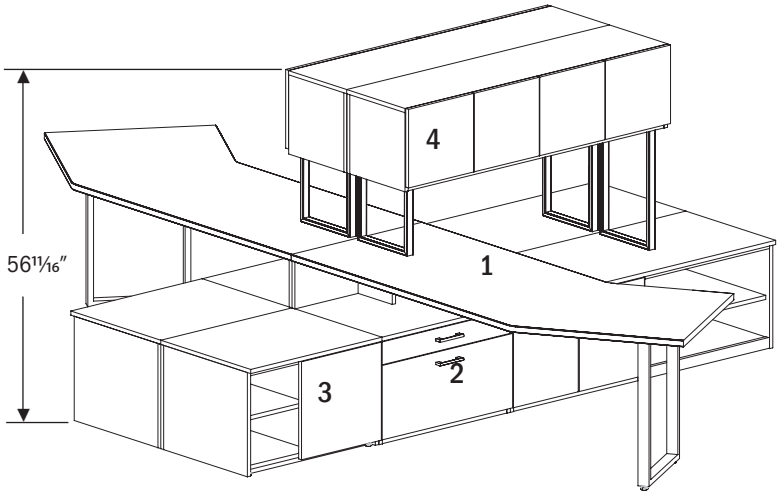
Pricing for Standard Connecting or Adjacent Units
Tops larger than 24" x 48" add $500 to the list price.
Tops 24" x 48" or smaller add $425 to the list price.

Vision Veneer Product Information

Layouts



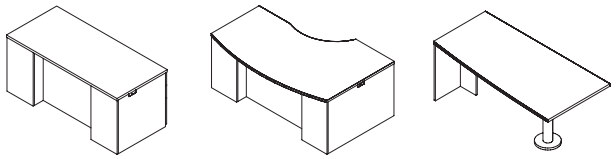
Vision Veneer can be configured in many different ways to achieve the perfect layout.



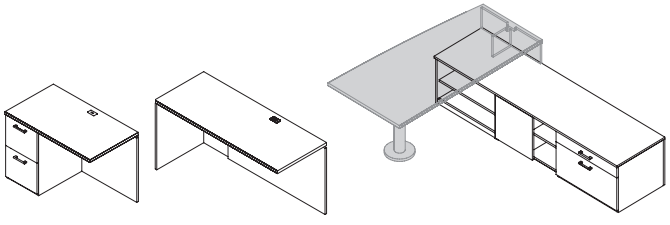
Create open plan or teaming stations with Vision Veneer modular components.

Easily Specified Layout

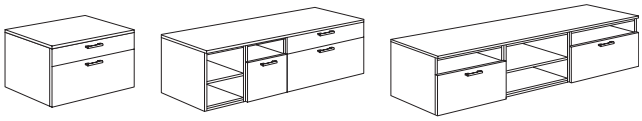
1 Primary Worksurfaces are available in traditional desks with pedestals or peninsula worksurfaces with a variety of shapes. The pedestal desks have end panel grommets for wire management.



2 Side Worksurfaces can be corner shell returns, bench height credenzas, pedestal returns, and adjustable tables. Peninsula desks with bench height support can be specified to work with the bench height credenzas.



3 Bench Height Credenzas. Vision Veneer offers a wide range of storage configurations. Modular groups of bench height credenzas can be specified to create unique configurations. Seat cushions are ordered separately from the credenza and allow customers to choose the fabrics.



4 Overhead Storage Cabinets. Traditional style overheads are available along with post support overheads, which can be used in open plan. Both are available in two heights. Wall mounted overheads can provide a light scale solution.

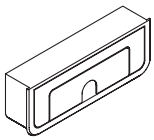
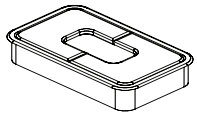
Grommet and Color Options



End/Back Panel Grommet
The end/back panel grommets are standard on desks, returns, standard height credenzas, and modular cabinets with end panels. This grommet is also on back panels of returns and on back panels for overhead cabinets.



Worksurface Grommet
Worksurface grommets are standard on the bridge, return units, and corner units.

Matte Black (MBK)
Stardust Silver (STS)

Grommets are available in Matte Black (MBK) or Stardust Silver (STS). Choose one color for all grommets. Lock cores will match grommet color. Additional grommets can be added. Location must be approved by JSI manufacturing, contact Customer Service.

Add $75 to the list for each additional grommet.

Standard Grommets Locations

Vision Laminate features grommets for wiring to pass thru the unit.

Wire Management

Wiring can move freely from unit to unit with the standard grommets and out to the building data and power.

Pedestal desks, credenzas, corners units, bridge panels, return modesty and end panels are standard with end panel grommets.

The end panel grommet opening is 4″ wide by 1 7⁄16″ high with a bezel trim secured to the panel with a friction side cap.

Top grommets are standard in returns, bridges and corner units. Additional top grommets may be specified as an option.

Optional power and data units can be positioned in the tops to provide tilt up technology access at the worksurface.

Refer to the accessory section for these items or other accessories items. (see page 407)

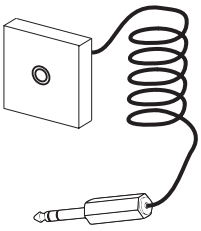
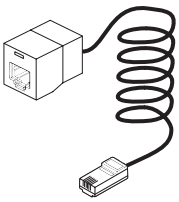
- female to female connection

Mini Stereo Jack						**TCP302**	**$21**



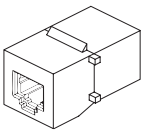
- 3.5 mm Mini Stereo Jack
- 10 foot cord
- female to male connection

Network Jack						**TCP303**	**$71**



- Cat5e RJ-45 Panduit Jack
- Pre-terminated
- 9 foot cord
- 8-Pin

Voice Coupler						**TCP304**	**$71**



- AMP Category 3, RJ-11
- 6-Pin
- connects to standard phone cord

ACCESSORIES

To Order, Specify:
❶ Model Number

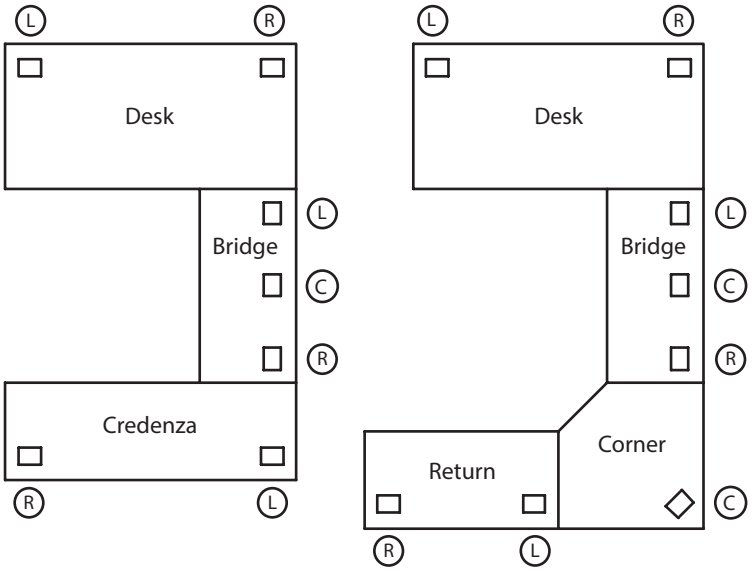
Standard casegoods cut out locations:



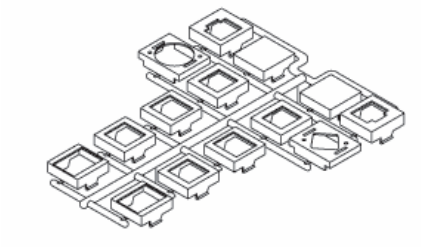
- Specify - Location when ordering on desk, return, computer corner, bridge and credenza - please provide drawing.
- Computer corner units - power/data replaces grommet.
- Standard power and data unit locations are indicated from user side of desk, return, computer corner bridge or credenza.

NOTE: Verify fit of data jack in adapter before ordering large quantities as manufacturer designs may change without notice

Data Adapter Applications

Data adapter kits ship with each power and data unit.

Adapter plates are marked on the back with letter designators to indicate the data jack manufacturer, series and style. Websites are listed below for quick reference to verify data jack series or style.



NOTE: Verify fit of data jack in adapter before ordering large quantities as manufacturer designs may change without notice.

Textiles

Textile Programs
JSI is proud to partner with Maharam, Momentum, Ultrafabrics and Wollsdorf Leather. Please refer to the respective pages in this pricer for each of these partners. Scan the QR codes on the back of the swatch card for latest grades and other information.

Textile Grade-In Programs
For the convenience of our specifiers, we have graded in the following suppliers:

Arc Com	Pallas Textiles
Designtex	Stinson
Maharam	Ultrafabrics
Mayer	Wollsdorf Leather
Momentum	

Please contact Customer Service for pricing grades on textiles and leathers not listed.

Indicate on purchase order if JSI is to order the fabric.

Grades and availability of fabric are subject to change without notice. Changes could include but are not limited to price increase, discontinued patterns, discontinued colors, etc. See jsifurniture.com for up to date information.

Many textiles have repeats and the additional yardage required has been factored in for textiles ordered through the JSI Carded and Grade-In Programs. We reserve the right not to match textiles with a horizontal or vertical repeat greater than 17". Additional charges may apply for textile being applied with special instructions.

Some fabric thickness may cause issue with proper upholstering of tackable wall panels or upholstery privacy screens. Please contact Customer Service, with concerns on the fabric thickness for these items.

Fire Retardancy
All JSI products are manufactured to comply with California Bureau of Home Furnishings Technical Bulletin 117 as a minimum standard. Compliance with more stringent codes requires special manufacturing considerations and upcharges.

California Technical Bulletin 133
JSI uses a barrier material between the foam cushioning and the upholstery cover in order to comply with California TB 133. The standard upcharge on products specified to comply with TB 133 is $55 list per yard of fabric.

Some product designs and fabrics cannot be combined to comply with California TB 133 (CAL 133). Because of this, we reserve the right to reject any request for an upholstery cover, including COM, or product style that we feel may compromise the integrity or safety of a product specified to comply with CAL 133. JSI has tested representative styles for compliance of CAL 133.

Contact Customer Service for a quotation if you require laboratory certification that a specific product and upholstery combination will pass CAL 133. Quotation will include testing, video and transportation charges plus the list cost of sample. (Allow an additional six weeks over the standard lead time for testing. For products not requiring certification, our standard lead time will apply.)

COL
COL pricing is listed under column D in the price list. Customer's own leather requirements are based on an average hide of 50 square feet. Please consult Customer Service for requirements on any other sizes.

All square footage requirements are based on useable footage. The shape of the hide and the useable footage may make it necessary for us to request additional leather.

COM
COM pricing is listed under column B in the price list. All yardage requirements listed in the price list are based upon 54" plain non-directional material. Additional yardage will be required for repeats or fabric less than 54" wide, contact Customer Service for yardage requirements.

All stripes will be applied vertically unless specified otherwise. Patterned fabrics will be applied at our discretion unless special instructions are included with the order.

We cannot assume responsibility for the receipt of defective COM or for the tailoring quality of said fabric. Some fabrics, due to their bulkiness or thinness may not tailor well.

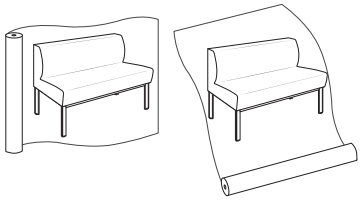
All COM orders must include the following:
- Vendor's name, pattern name and color.
- Sample of the fabric attached to order.
- Model numbers of items for fabric application.
- Special application instructions. (e.g., all stripes will be applied front to back unless specified otherwise)
- Customer and purchase order number.

Ship prepaid COM material to:
JSI
Attn: COM Dept.
932 Mill Street
Jasper, IN 47546

All COM orders will ship at standard lead time from receipt of COM except for orders requiring special custom matched finishes.

Application of COM Fabric
COM fabric is cut “up the roll” for lounge units, mobile pedestals and seat cushions and “railroaded” for tackboards unless otherwise specified by customer.

Railroaded Up the Roll

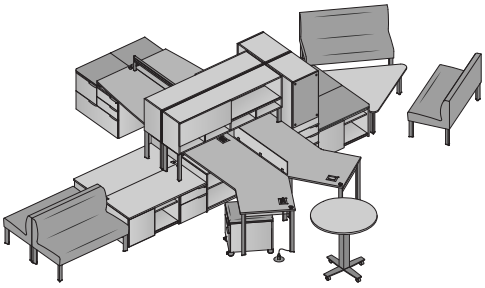


for people who work with people!

step 1

worksurface
(page 8)

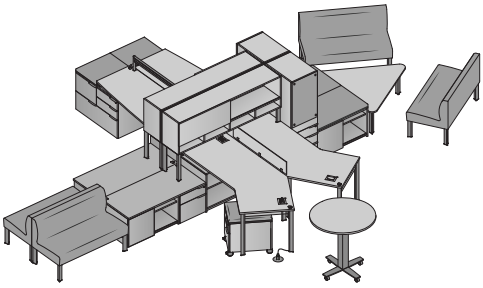
Select your worksurface from various shapes and sizes to accommodate your work space and style.



step 2

undersurface storage & supports
(page 12)

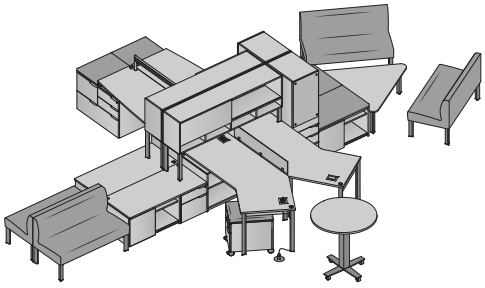
Choose your undersurface storage units to maximize storage space.



step 5

accessories
(page 22)

Choose accessories to divide space and increase functionality.



step 6

collaborate
(page 24)

Complete your setting by adding integrated collaboration components.

Need help getting started?
Check out how Swish can outfit different work styles.

surface materials
(page 38)

The mixed material platform integrates warm and cool tones with organic beauty.

This specification guide will help you understand the simple components of Swish.

Use these step by step instructions to build Swish for your specific work style, space and budget.

step 1

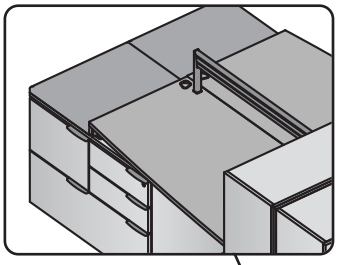
Specifying Swish Step One

worksurface (tops)

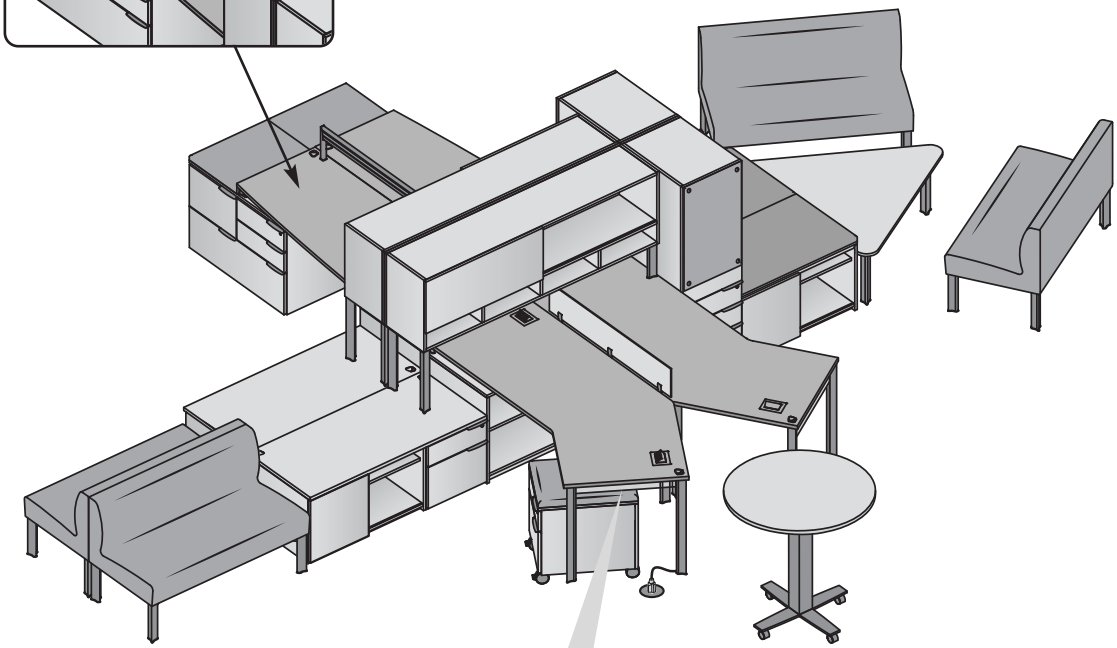
To begin your Swish specification, you will need to select a worksurface...

1-A Choose a top shape.
1-B Specify a top size.
1-C Choose your laminate.

- Worksurfaces can be specified in 7 solid laminates and 11 woodgrain laminates. For additional surface materials information, see page 38.
- Swish worksurfaces feature a coordinating eased PVC edge on all four sides.
- To order conference tables without any grommets review the Collaborate section, see page 24.



supports
Top depth must match the depth of the pedestal. When worksurface grommets are inset, subtract 6" from pedestal depth.

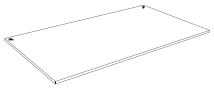


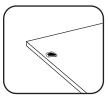
TIP! The removable acrylic plenum hides undersurface cords and creates a decorative accent.

www.swish.jsifurniture.com

Call 800 457 4511 to discuss your project with a JSI Swish expert!

TIP! Rectangle tops can be specified with grommets inset 6" from the approach side.





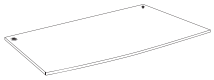
rectangle

Basic top shape with endless possibilities. Perfect for benching, long linked runs and worksurfaces.

worksurface

36"d x 96"w	*30"d x 96"w*	*24"d x 96"w*	*18"d x 96"w*
36"d x 90"w	*30"d x 90"w*	*24"d x 90"w*	*18"d x 90"w*
36"d x 84"w	*30"d x 84"w*	*24"d x 84"w*	*18"d x 84"w*
36"d x 78"w	*30"d x 78"w*	*24"d x 78"w*	*18"d x 78"w*
36"d x 72"w	*30"d x 72"w*	*24"d x 72"w*	*18"d x 72"w*
36"d x 66"w	*30"d x 66"w*	*24"d x 66"w*	*18"d x 66"w*
36"d x 60"w	*30"d x 60"w*	*24"d x 60"w*	*18"d x 60"w*
		24"d x 54"w	*18"d x 54"w*
		24"d x 48"w	*18"d x 48"w*
		24"d x 42"w	*18"d x 42"w*
		24"d x 36"w	*18"d x 36"w*
		24"d x 30"w	*18"d x 30"w*
		24"d x 18"w	*18"d x 18"w*

TIP! Fin tops can be specified with arc on user side or approach side. Can be specified with grommets inset 6" on the straight approach side.



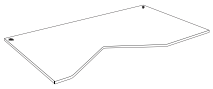
fin

Unique shape that adds additional worksurface space to each station while adding design flair.

worksurface

36"d x 84"w	*30"d x 84"w*
36"d x 78"w	*30"d x 78"w*
36"d x 72"w	*30"d x 72"w*
36"d x 66"w	*30"d x 66"w*
24"d x 84"w	
24"d x 78"w	
24"d x 72"w	
24"d x 66"w	

TIP! Can be specified with nook cutout to be on left portion or right portion of user side. Can also be specified with grommets inset 6" from the approach side.



nook

Allows user to nestle closer to storage and creates smaller footprint options without sacrificing workspace.
Pedestal restrictions apply, see page 14.

worksurface

36"d x 84"w	*30"d x 84"w*
36"d x 78"w	*30"d x 78"w*
36"d x 72"w	*30"d x 72"w*

TIP! When used as a bridge, the 36"w and 30"w units can only be used with corner worksurfaces.

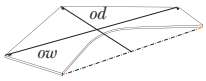
boomerang

Integrate adjustable height tables and seating into a run of stations to create handy meeting spaces.

worksurface

30"d x 84"w

24"d x 84"w



120˚

Team up with your neighbor and interact with ease.

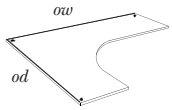
worksurface

18"d x 39 1/8"ow x 83 1/8"od
18"d x 36 1/8"ow x 72 3/4"od
18"d x 33 1/8"ow x 62 3/8"od

24"d x 44 5/16"ow x 83 1/8"od
24"d x 41 5/16"ow x 72 3/4"od
24"d x 38 5/16"ow x 62 3/8"od

Grain direction runs parallel to the ow. Pedestal restrictions apply, see page 14.

ow = overall width
od = overall depth



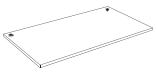
corner

Create cockpit style areas with extra worksurface space and multiple working positions for ergonomic flexibility.
Depth at ends = 18", 24", 30", 36"

worksurface

60"od x 78"ow	*54"od x 78"ow*
60"od x 72"ow	*54"od x 72"ow*
60"od x 66"ow	*54"od x 66"ow*
60"od x 60"ow	*54"od x 60"ow*
48"od x 72"ow	
48"od x 66"ow	
48"od x 60"ow	

Grain direction runs parallel to the ow. Pedestal restrictions apply, see page 14.



return / bridge

Create L and U units by adding bridges and return to main worksurfaces.

worksurface

24"d x 60"w	*18"d x 60"w*
24"d x 54"w	*18"d x 54"w*
24"d x 48"w	*18"d x 48"w*
24"d x 42"w	*18"d x 42"w*
24"d x 36"w	*18"d x 36"w*
24"d x 30"w	*18"d x 30"w*

Bridges ship with 2 flat brackets. Returns ship with 1 flat bracket. Grain direction runs front to back, which will match primary worksurface.

Worksurfaces include: *wire management channel, stress bar, plenum for approach side and end, and plenum retainers.*

Pre-configured units are available...

We've selected basic shapes, sizes and settings to help you order Swish even easier, see page 28.

worksurface (electrical)

Now, select your worksurface electrical options...

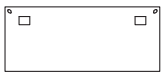
1-D Determine if above surface electrical is needed.
1-E Choose cutout locations.
1-F Determine if undersurface electrical is needed.
1-G Specify undersurface power, either single or dual circuit.

➤ Standard locations of cutouts, to accommodate EC10 and EC11 power/data units, are available at no charge.

Above surface electrical cutout locations.

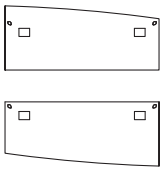
To add quick plug and play power/data units, be sure to specify your worksurface with an electrical cutout.

TIP! The EC10/EC11 grommet cutouts for 18" deep worksurfaces will run perpendicular to user.



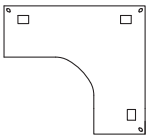
rectangle

EC10/EC11 grommet cutout locations are available left and right.



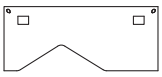
fin

EC10/EC11 grommet cutout locations are available left and right.



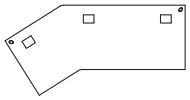
corner

EC10/EC11 grommet cutout locations are available left, center and right.



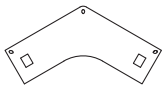
nook

EC10/EC11 grommet cutout locations are available left and right.



boomerang

EC10/EC11 grommet cutout locations are available left, center and right.



120˚

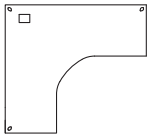
EC10/EC11 grommet cutout locations are available left and right.

TIP! For additional field installed grommets see the Electrical section, see page 27.

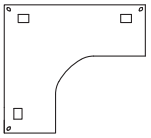
TIP! Grommet cutouts to accommodate EC10 and EC11 power/data units can be placed in left or right locations, as well as center on some units. To specify the cutout location, use the number one (1) digit to indicate the cutout

location 00**1**

locations **1**0**1**



location 0**1**0



locations **111**

NOTE! **EC10/EC11 POWER/DATA UNITS MUST BE ORDERED SEPARATELY.**

www.swish.jsifurniture.com

Call 800 457 4511 to discuss your project with a JSI Swish expert!

Undersurface electrical.

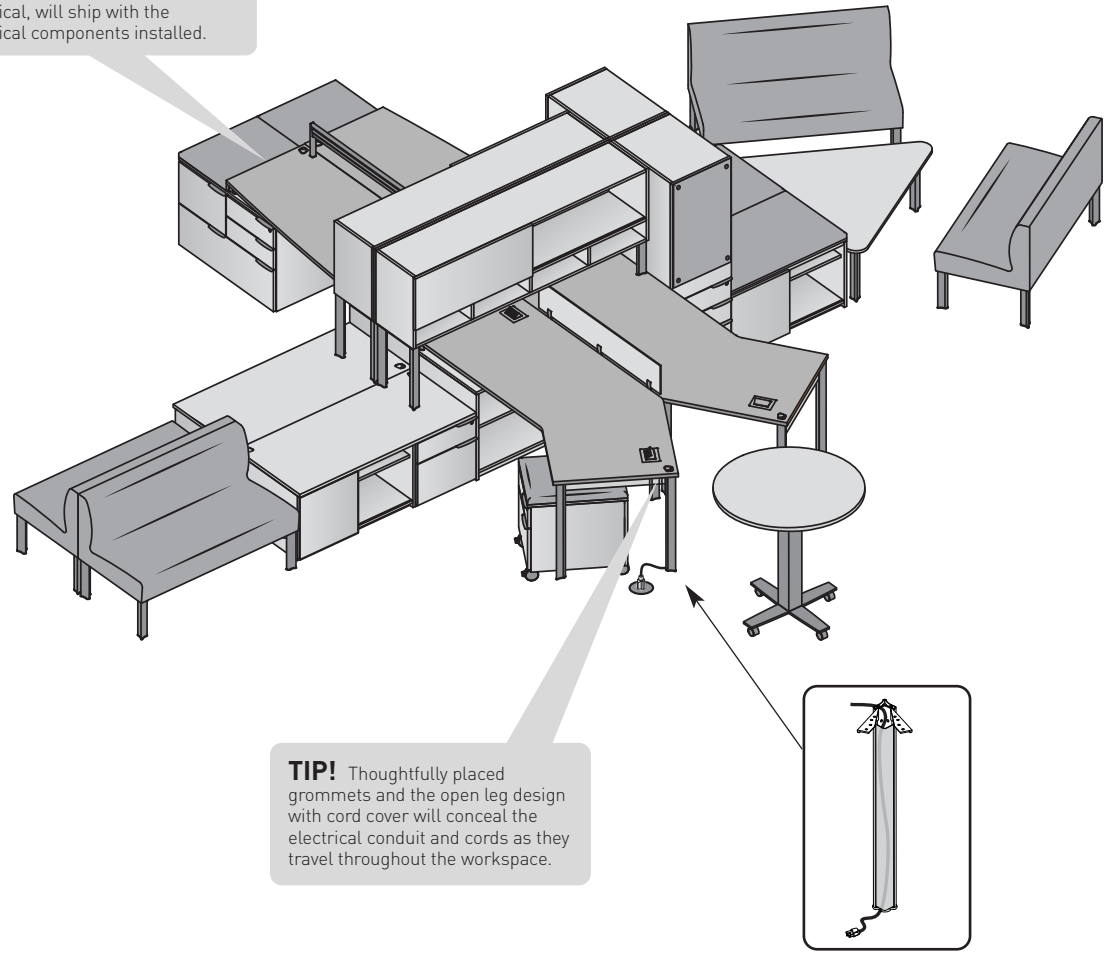
If you would like to power your workstation, you will need to specify the worksurface with the electrical option.
-When using a dual circuit system, the power infeed must be hardwired.

Choose from two power options: Single Circuit or Dual Circuit.

single circuit:
One circuit throughout the entire station.
(specify P1 only)

dual circuit:
Alternate circuit 1 and circuit 2 worksurfaces.
(specify P1 or P2)
or...
Mix circuit 1 and circuit 2 receptacles within one surface.
(specify PM)

TIP! Worksurfaces that are specified with undersurface electrical, will ship with the electrical components installed.



TIP! Thoughtfully placed grommets and the open leg design with cord cover will conceal the electrical conduit and cords as they travel throughout the workspace.

Additional electrical units...

To continue power from the worksurface through undersurface storage and to the power source, additional electrical components must be specified in the Electrical section, see page 26. Power infeed jumpers will carry power from the power source to the workstation.

step 2

Specifying Swish Step Two

undersurface storage & supports

Select the undersurface storage components that best suit your work mode...

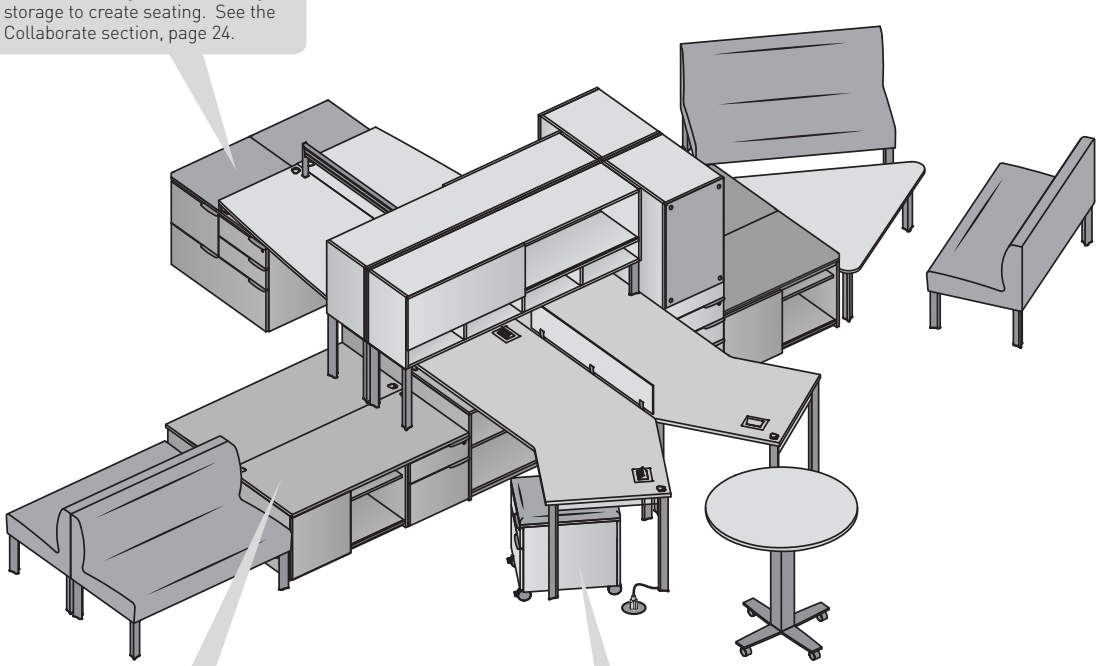
2-A Determine undersurface storage height.
2-B Choose a style.
2-C Determine width and depth.
2-D Specify a laminate.

➤ Storage can be specified in 7 solid laminates and 11 woodgrain laminates. For additional surface materials information, see page 38.

Select undersurface storage.

Choose executive height units to create airy floating tops. Height from floor to worksurface is 29 3/8".
Choose bench height units to achieve layers and additional seating. Height from floor to modular top is 20".

TIP! Cushion tops can be added to executive height or bench height storage to create seating. See the Collaborate section, page 24.



TIP! Modular tops must be ordered separately for bench height units. Storage units can be mounted under a common top to create a custom look.

TIP! Add additional storage and seating with a cushion top mobile pedestal from the Collaborate section, see page 24.

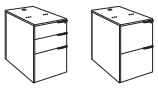
TIP! If an electrical worksurface was selected, be sure to complete the electrical options shown in the Electrical section, see page 26.

www.swish.jsifurniture.com

Call 800 457 4511 to discuss your project with a JSI Swish expert!

executive height units *(26"h without spacer and worksurface)*

For a floating top, choose the executive height units and have your worksurface just inches away from your undersurface storage. Use corner units to create the look of a full pedestal from the approach side.



b/b/f & f/f pedestals
36"d x 18"w
30"d x 18"w
24"d x 18"w
18"d x 18"w

b/b lateral file pedestal
24"d x 36"w
24"d x 30"w

18"d x 36"w
18"d x 30"w

lateral file pedestal
*30"d x 36"w**

*24"d x 36"w**
24"d x 30"w

*18"d x 36"w**
18"d x 30"w

**Can also be ordered as an extended unit for mid-mount applications to allow part of the unit to be outside of the worksurface.*

multi-file pedestal
30"d x 36"w

24"d x 36"w

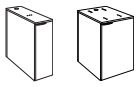
18"d x 36"w

Can also be ordered as an extended unit for mid-mount applications to allow part of the unit to be outside of the worksurface.

sliding door pedestal
*24"d x 36"w**
24"d x 30"w

*18"d x 36"w**
18"d x 30"w

**Can also be ordered as an extended unit for mid-mount applications to allow part of the unit to be outside of the worksurface.*



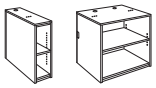
hinged door pedestal
30"d x 9"w

24"d x 36"w
24"d x 30"w
24"d x 18"w
24"d x 9"w

18"d x 36"w
18"d x 30"w
18"d x 18"w
18"d x 9"w

Includes an adjustable shelf.

36"w and 30"w have two doors, 18"w and 9"w have one door.



open storage/shelf pedestals
30"d x 9"w

24"d x 36"w
24"d x 30"w
24"d x 18"w
24"d x 9"w

18"d x 36"w
18"d x 30"w
18"d x 18"w
18"d x 9"w

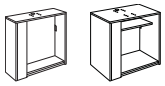
Includes an adjustable shelf.

36"w, 30"w and 18"w have a shelf, 9"w does not.

connection pedestal
24"d x 36"w
24"d x 30"w
24"d x 24"w
24"d x 18"w

18"d x 36"w
18"d x 30"w
18"d x 24"w
18"d x 18"w

Use this pedestal when linking electrified pedestals in a run. Side access pass through grommets allow cords to route through the unit.



open storage/shelf corner
36"d x 24"w
36"d x 18"w
36"d x 9"w

30"d x 24"w
30"d x 18"w
30"d x 9"w

24"d x 24"w
24"d x 18"w
24"d x 9"w

18"d x 24"w
18"d x 18"w
18"d x 9"w

18"w has a shelf, 9"w does not.

hinged door corner
30"d x 24"w
30"d x 18"w
30"d x 9"w

24"d x 24"w
24"d x 18"w
24"d x 9"w

18"d x 24"w
18"d x 18"w
18"d x 9"w

kneespace corner
36"d x 24"w
36"d x 18"w

30"d x 24"w
30"d x 18"w

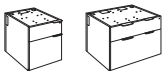
24"d x 24"w
24"d x 18"w

18"d x 24"w
18"d x 18"w

Use this with bridges or returns to eliminate knee-knocking.

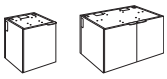
bench height units *(19 1/4"h without modular top)*

Bench height storage units achieve the layered look by allowing perching areas and multiple low storage configurations. Bench height storage units must have a top specified separately. To create a custom look, put multiple units under one common top.



b/f pedestal
24"d x 36"w
24"d x 30"w
24"d x 24"w
24"d x 18"w

18"d x 36"w
18"d x 30"w
18"d x 24"w
18"d x 18"w



hinged door pedestal
24"d x 36"w
24"d x 30"w
24"d x 24"w
24"d x 18"w

18"d x 36"w
18"d x 30"w
18"d x 24"w
18"d x 18"w

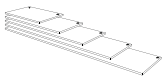
36"w, 30"w and 24"w have two doors, 18"w has one door.

sliding door pedestal
24"d x 36"w
24"d x 30"w

18"d x 36"w
18"d x 30"w

open shelf pedestal
24"d x 36"w
24"d x 30"w
24"d x 24"w
24"d x 18"w

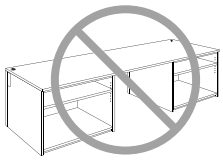
18"d x 36"w
18"d x 30"w
18"d x 24"w
18"d x 18"w



modular tops

24"d x 108"w	*18"d x 108"w*
24"d x 102"w	*18"d x 102"w*
24"d x 96"w	*18"d x 96"w*
24"d x 90"w	*18"d x 90"w*
24"d x 84"w	*18"d x 84"w*
24"d x 78"w	*18"d x 78"w*
24"d x 72"w	*18"d x 72"w*
24"d x 66"w	*18"d x 66"w*
24"d x 60"w	*18"d x 60"w*
24"d x 54"w	*18"d x 54"w*
24"d x 48"w	*18"d x 48"w*
24"d x 42"w	*18"d x 42"w*
24"d x 36"w	*18"d x 36"w*
24"d x 30"w	*18"d x 30"w*
24"d x 24"w	*18"d x 24"w*
24"d x 18"w	*18"d x 18"w*

Tops are standard with grommets on the left and right sides that align with the grommets in the unit below.



TIP! Tops are not designed to span two bench height storage units with an unsupported area.

undersurface storage & supports

Select your worksurface support...

2-E Determine how many points of support are needed.
2-F Choose type of undersurface support.

➤ Undersurface supports are made of anodized aluminum and feature a removable cover to hide cords.

Determine the support needed.

Now you will need to support your worksurface to the height of storage you selected or run a full leg to the floor. Each worksurface shape has requirements for support.

rectangle
Support required...

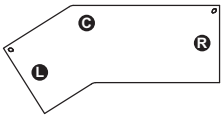
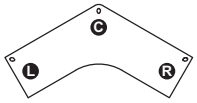
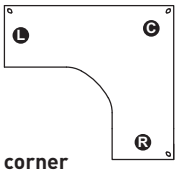
nook
Support required...
L R



boomerang
Support required...
L C R



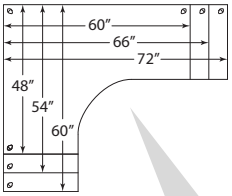
120˚
Support required...
L C R

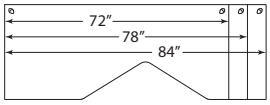


corner
Support required...
L C R

TIP! Center support must be a single leg to the floor.

TIP! Center support options include a single leg to the floor, single leg to bench height or single spacer to executive height.





TIP! 72" side must use a 9", 18" or 30" pedestal, legs to the floor, or bracket to tall storage.

66" and 60" side must use a 9" or 18" pedestal, legs to the floor, or bracket to tall storage.

54" side must use a 9" pedestal, legs to the floor, or bracket to tall storage.

48" side must use legs to the floor.

TIP! 84" tops must use an 18" or 9" pedestal or legs to the floor on the 18"w side.

78" tops must use a 9" pedestal or legs to the floor on the 12"w side.

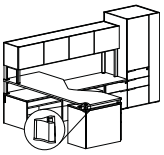
72" tops must use legs to the floor on the 6"w side.

www.swish.jsifurniture.com

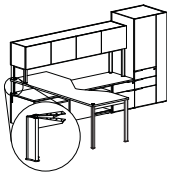
Call 800 457 4511 to discuss your project with a JSI Swish expert!

Worksurface support choices.

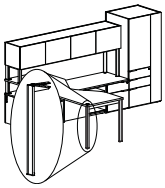
spacer to executive height
Use this spacer-support to connect worksurfaces to executive height storage units.



leg to bench height
Use this support to connect worksurfaces to low bench height storage units.

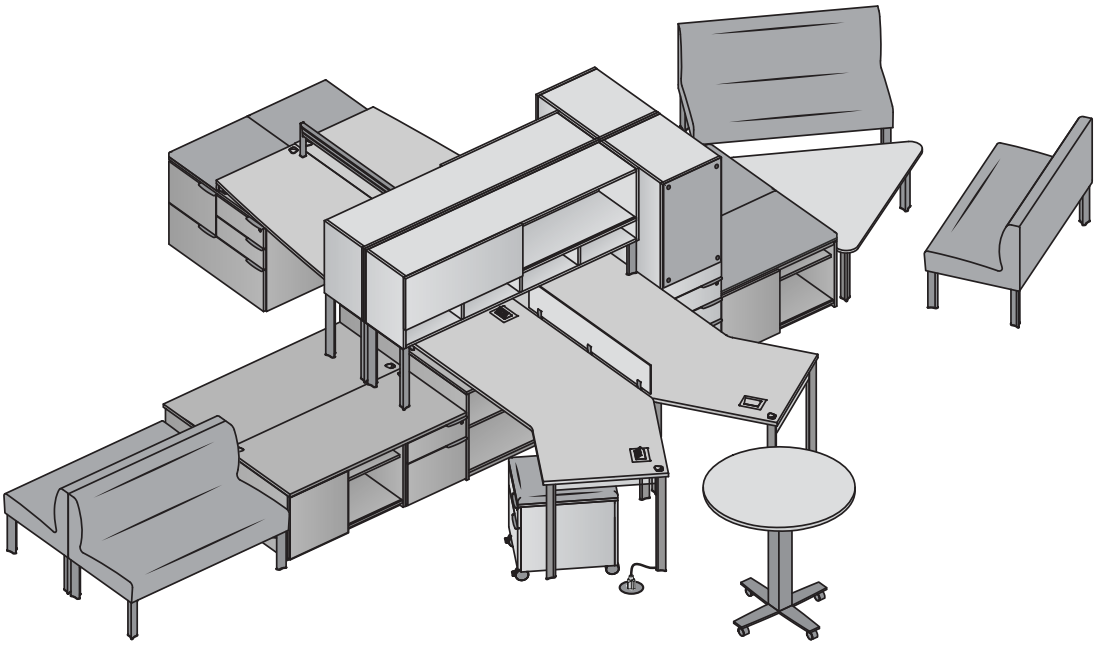


leg to floor
Use this full leg to support a worksurface that sits directly on the floor.



bracket to tall storage
Use this bracket to attach a worksurface to a tall storage unit. Includes one SSK-TOPSPACER1 for use with plenum.

Worksurfaces include: *wire management channel, stress bar, plenum for approach side and end, and plenum retainers.*
Worksurfaces that are 84"w must use at least one 18"w pedestal for support.
Worksurfaces that are 90"w must use two 18"w pedestals OR one 18"w and one 9"w pedestal for support.
Worksurfaces that are 96"w must use two 18"w pedestals for support.



worksurface supports
Supports are used to connect the worksurface with various pedestals, storage units or to run to the floor.

spacer to executive height
2 1/4"h

leg to bench height
9 1/2"h

leg to floor
29 1/2"h

bracket to tall storage
18"w, 24"w, 30"w, 36"w

step 3

Specifying Swish Step Three

tall storage

Select tall storage components to add storage and privacy...

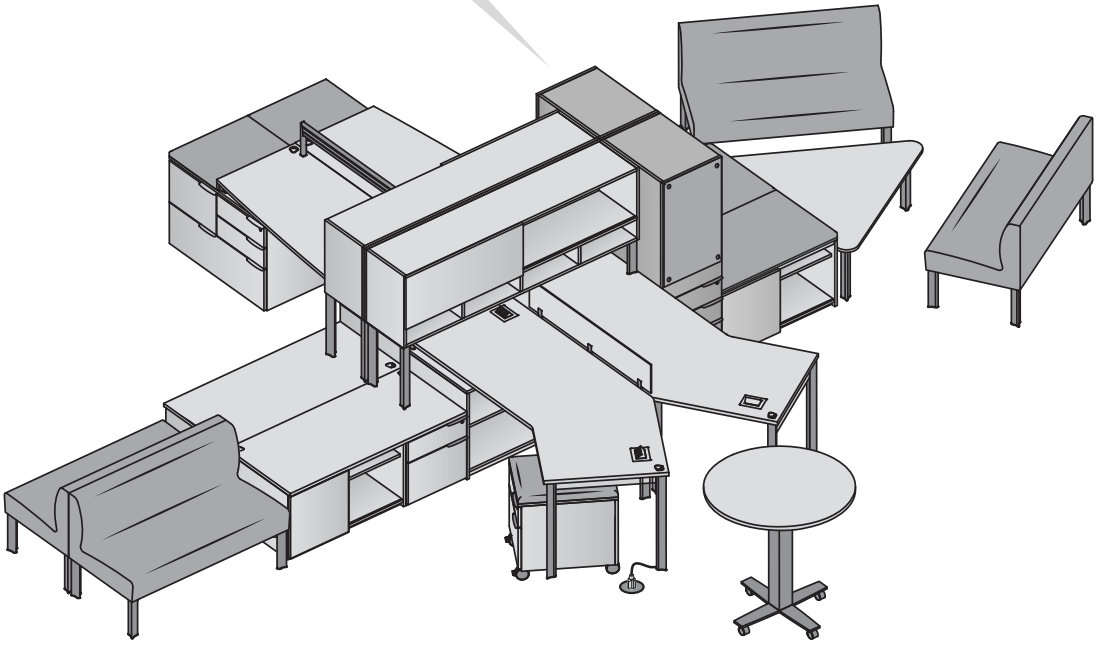
3-A Choose a style.
3-B Determine depth.
3-C Determine width and height.
3-D Specify a laminate.

➤ When attaching a worksurface to a tall storage unit, make sure that the bracket to tall storage support option was specified in Step 2.

Select tall storage.

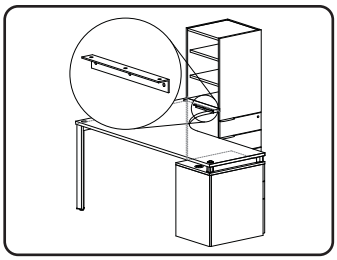
Tall storage units can stand alone or be mounted to a worksurface and used for support.

TIP! Tall storage units and bench height storage units have side access grommets to allow cords to pass through entire unit.



www.swish.jsifurniture.com

Call 800 457 4511 to discuss your project with a JSI Swish expert!

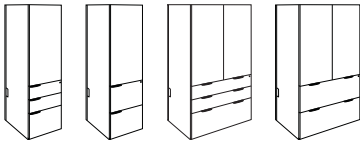


the "L" connection

Specify an L-bracket to connect a tall storage unit to a worksurface.

tall storage units

Attach the worksurface directly to a tall storage unit to create space dividers or varied height storage.



b/b/f & f/f storage cabinets

24"d x 36"w x 60"h
24"d x 30"w x 60"h
24"d x 18"w x 60"h
18"d x 36"w x 60"h
18"d x 30"w x 60"h
18"d x 18"w x 60"h

24"d x 36"w x 45"h
24"d x 30"w x 45"h
24"d x 18"w x 45"h
18"d x 36"w x 45"h
18"d x 30"w x 45"h
18"d x 18"w x 45"h

24"d x 36"w x 54"h
24"d x 30"w x 54"h
24"d x 18"w x 54"h
18"d x 36"w x 54"h
18"d x 30"w x 54"h
18"d x 18"w x 54"h

60"h units have two adjustable shelves, 54"h and 45"h have one shelf.

30"w and 36"w units have two doors, 18"w has one door.

b/b/f side access storage cabinet

24"d x 18"w x 60"h
18"d x 18"w x 60"h

15"d x 30"w x 45"h
15"d x 18"w x 45"h

60"h and 54"h units have three adjustable shelves, 45"h has two shelves.

step 4

Specifying Swish Step Four

above surface storage & supports

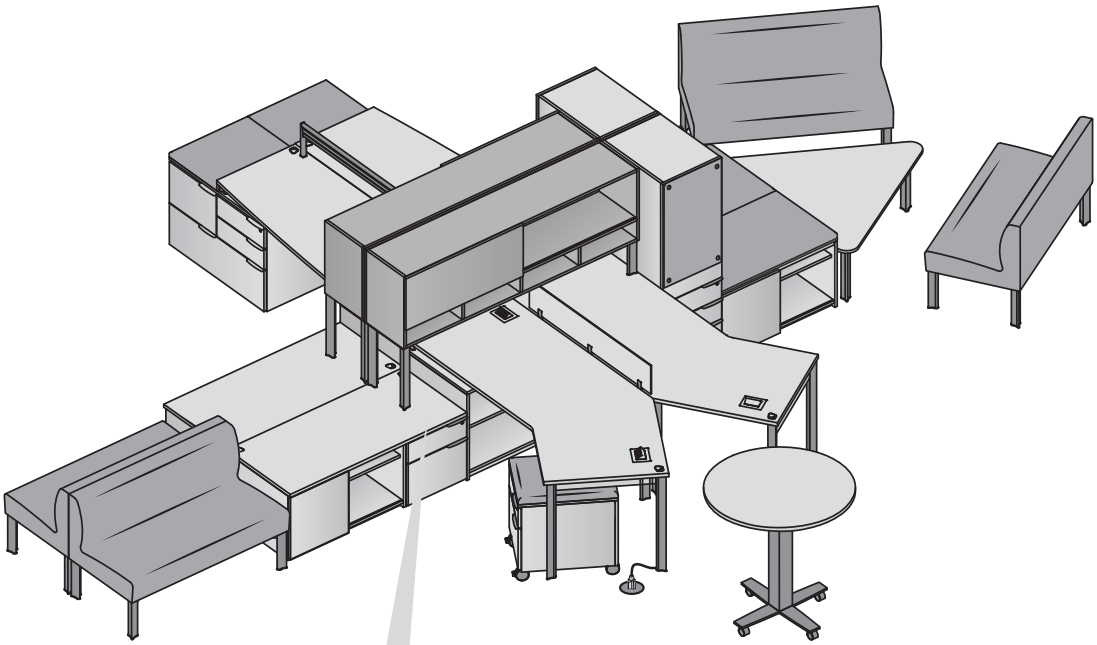
Add overhead storage units and cubbies to expand your workspace...

4-A Choose type of above surface storage.
4-B Choose style.
4-C Determine width.

- Storage can be specified in 7 solid laminates and 11 woodgrain laminates. For additional surface materials information, see page 38.
- Wall mount units available for 15" overheads and 21" overheads with cubby below.

Select above surface storage.

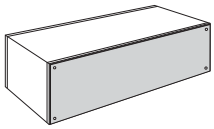
Use above surface units for additional storage and as a space divider.

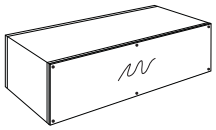


TIP! Above surface storage units can sit on varied height worksurfaces. One end can sit on executive height, while the other is on bench height.

www.swish.jsifurniture.com

Call 800 457 4511 to discuss your project with a JSI Swish expert!

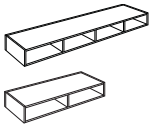




dual purpose

Tackboards and markerboards can be added to the backside of an overhead to increase productivity when sharing spaces.
Review the Accessories section, see page 22.

overheads

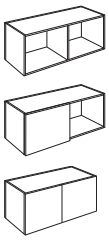


6" horizontal cubby organizer

15"d x 84"w x 6"h
15"d x 78"w x 6"h
15"d x 72"w x 6"h
15"d x 66"w x 6"h
15"d x 60"w x 6"h
15"d x 54"w x 6"h
15"d x 48"w x 6"h
15"d x 42"w x 6"h
15"d x 36"w x 6"h
15"d x 30"w x 6"h

Using storage supports, total height can be either 45" or 54" from the floor.

Cubbies 54"w and larger have four cubby openings, and units 48"w and smaller have two cubby openings.



15" overhead

15"d x 84"w x 15"h
15"d x 78"w x 15"h
15"d x 72"w x 15"h
15"d x 66"w x 15"h
15"d x 60"w x 15"h
15"d x 54"w x 15"h
15"d x 48"w x 15"h
15"d x 42"w x 15"h
15"d x 36"w x 15"h
15"d x 30"w x 15"h

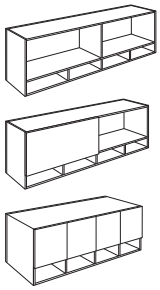
Using storage supports, total height can be either 54" or 60" from the floor.

15"h overheads are also available as wall mount.

Units 54"w and larger have four doors, 48"w and 42"w units have three doors, and 36"w and 30"w units have two doors.

Three door units can have one door hinge right and two left, or two hinge right and one left.

Hinge door units are also available with glass doors, and sliding door units are also available with markerboards.



21" overhead with cubby below

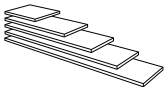
15"d x 84"w x 21"h
15"d x 78"w x 21"h
15"d x 72"w x 21"h
15"d x 66"w x 21"h
15"d x 60"w x 21"h
15"d x 54"w x 21"h
15"d x 48"w x 21"h
15"d x 42"w x 21"h
15"d x 36"w x 21"h
15"d x 30"w x 21"h

Using storage supports, total height will be 60" from the floor.

21"h overhead/cubby combinations are also available as wall mount.

Open storage units 54"w and larger have two overhead openings and four cubbies, units 48"w and smaller have two overhead openings and two cubbies.

Hinge door units are also available with glass doors, and sliding door units are also available with markerboards.



transaction top

15"d x 84"w x 1 3/16"h
15"d x 78"w x 1 3/16"h
15"d x 72"w x 1 3/16"h
15"d x 66"w x 1 3/16"h
15"d x 60"w x 1 3/16"h
15"d x 54"w x 1 3/16"h
15"d x 48"w x 1 3/16"h
15"d x 42"w x 1 3/16"h
15"d x 36"w x 1 3/16"h
15"d x 30"w x 1 3/16"h

Using storage supports, total height can be either 40" or 46" from the floor.

NOTE! **Support legs must be specified to support overhead and cubby units that are not wall mounted, see page 20.**

above surface storage & supports

Add overhead storage units and cubbies to expand your workspace...

4-D Determine the height desired for the overhead unit, from the floor.

4-E Identify if the above surface storage unit will sit on an executive height unit or a bench height unit.

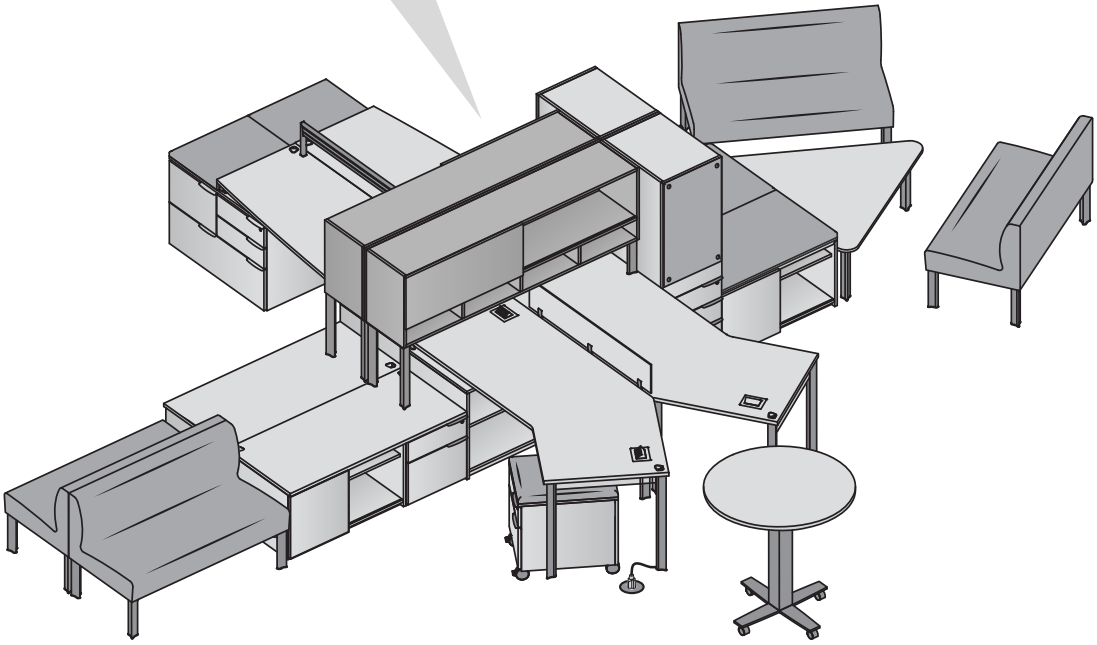
4-F Select the appropriate storage support to achieve the overall height.

- 6" cubby units can be either 45" or 54" from the floor.
- 15" overhead units can be either 54" or 60" from the floor, or wall mounted.
- 21" overhead units with cubbies below will be 60" from the floor, or can be wall mounted.
- Transaction tops can be either 40" or 46" from the floor.

Select above surface storage supports.

Overhead storage units and cubbies can be added at various heights to accommodate your work style and storage needs. Wall mount overhead units do not require storage supports.

TIP! The backsides of above surface storage units are always finished, so they make great space dividers.



Above executive height storage supports...

step 5

Specifying Swish Step Five

accessories

Divide space for more privacy, add modesty panels or create tackable surfaces for increased functionality...

5-A Determine your accessory needs.
5-B Choose your upholstery and/or acrylic.

➤ Modesty panels and privacy screens can be specified in 6 acrylic designs. For available standard and premium acrylics, see page 39. Privacy screens with tackboards are only available with the standard frosted acrylic.

Select accessories.

Select accessories to maximize efficiency and make your space work for you.

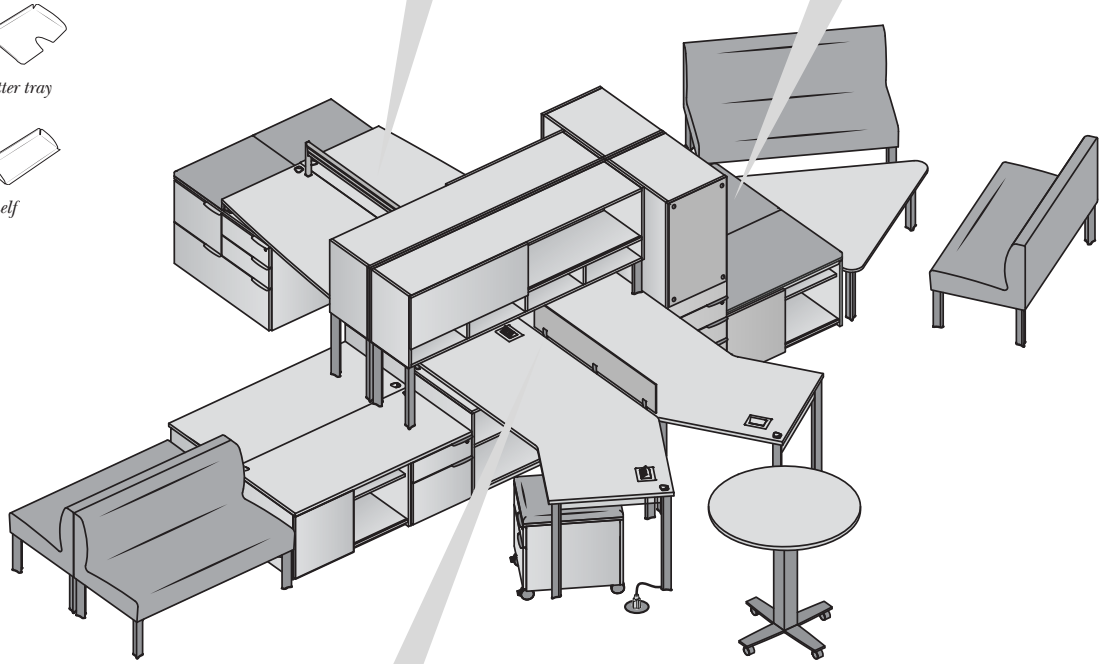
Accessory rail tools...

pencil holder/organizer

organizer tray

letter tray

shelf



TIP! Accessory rails are post mounted through the worksurface. The accessory rail can accommodate work tools to organize your space.

TIP! Tackboards are button mounted and can be installed on the back of a cubby or overhead as well as the side or back of a tall cabinet.

TIP! Aluminum privacy screen brackets attach to underside of worksurface and do not mar top surface.

step 6

Specifying Swish Step Six

collaborate

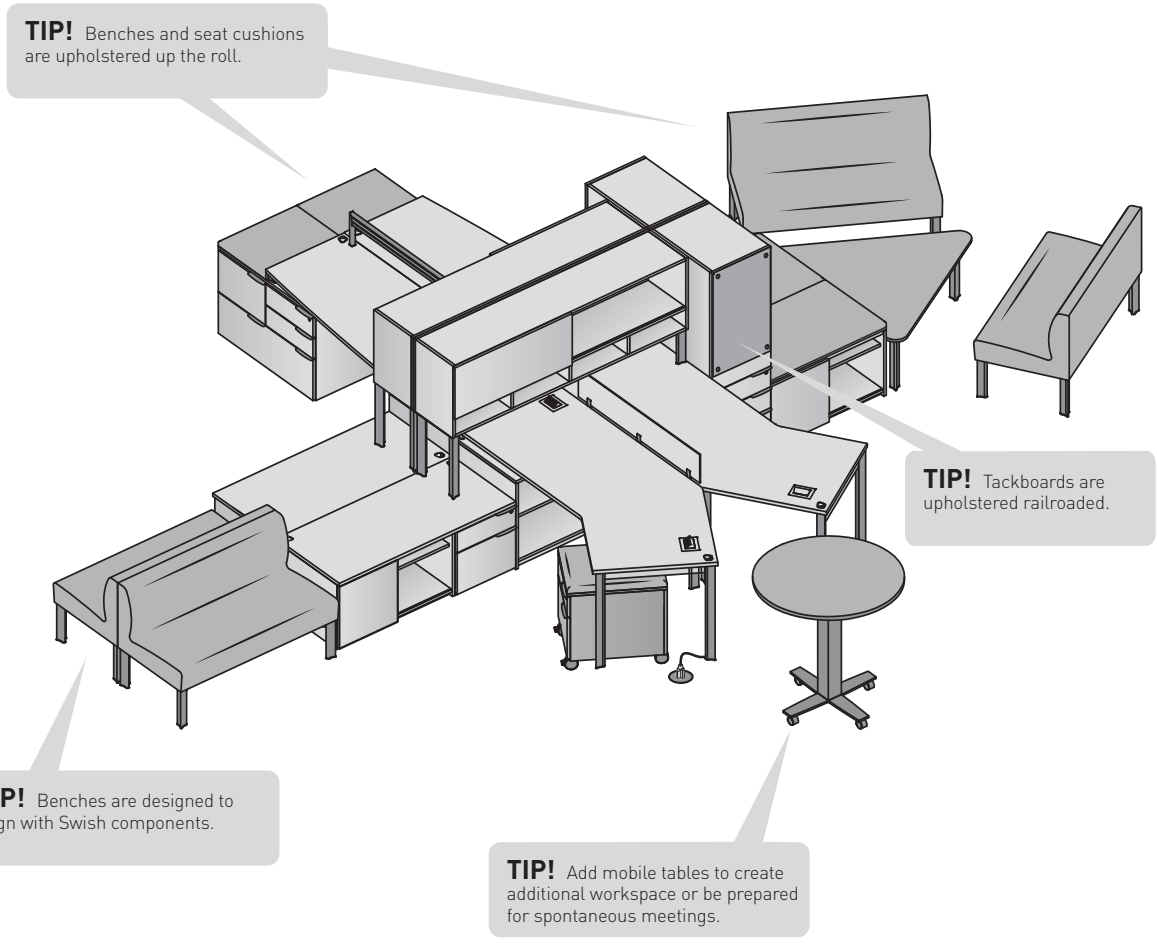
Add integrated collaboration elements to invite impromptu meetings and gain efficiency...

6-A Determine your collaborative needs.
6-B Choose your laminate and/or upholstery.

- Create lounge spaces with integrated benches and tables.
- Add cushion tops to bench height storage for additional seating spaces or add a conference table for larger meetings.

Collaborate.

Swish was designed for people who work with people. Gather around a workstation, add collaborative spaces to a private office or create a meeting room with Swish's collaborate components.



www.swish.jsifurniture.com

Call 800 457 4511 to discuss your project with a JSI Swish expert!

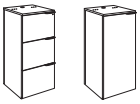
collaboration conference tables

Collaboration conference table tops must have two base units specified for support. Collaboration conference table tops do not have grommets. Grommet cutouts to accommodate an EC13 unit can be specified for the center of the table.

collaboration conference table tops

42"d x 84"w
42"d x 78"w
42"d x 72"w
42"d x 66"w
42"d x 60"w

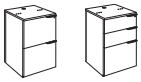
Table tops include plenum, spacers and panel stretchers to conceal technology cords.



stand up height bases

18"d x 18"w x 37 13/16"h

Use these bases when creating a standard height work table or to use with stools for seating.

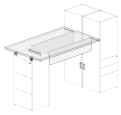


executive height bases

18"d x 18"w x 26"h

Use these bases when creating a standard height work table.

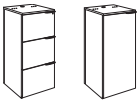
integrated collaboration conference tables



integrated collaboration table tops using L-bracket support and pedestal base supports

30"d x 72"w	*36"d x 72"w*	*48"d x 72"w*
30"d x 66"w	*36"d x 66"w*	*48"d x 66"w*
30"d x 60"w	*36"d x 60"w*	*48"d x 60"w*
30"d x 54"w	*36"d x 54"w*	*48"d x 54"w*

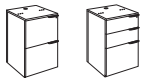
Tops include plenum, spacers and panel stretchers to conceal technology cords. Tops include one L-bracket to attach to a tall storage unit or wall mounted. Support for the other end must be ordered separately.Grommet cutouts to accommodate an EC13 unit can be specified for the center of the table.



stand up height bases

18"d x 18"w x 37 13/16"h

Use these bases when creating a standard height work table or to use with stools for seating.



executive height bases

18"d x 18"w x 26"h

Use these bases when creating a standard height work table.

integrated collaboration table tops using L-bracket support and leg supports

30"d x 60"w	*36"d x 60"w*	*48"d x 60"w*
30"d x 54"w	*36"d x 54"w*	*48"d x 54"w*
30"d x 48"w	*36"d x 48"w*	*48"d x 48"w*
30"d x 42"w	*36"d x 42"w*	*48"d x 42"w*

Tops include panel stretchers to conceal technology cords. Tops include one L-bracket to attach to a tall storage unit or wall mounted, and includes one set of legs. Leg supports available in stand up height and executive height. Grommet cutouts to accommodate an EC13 unit can be specified for the center of the table.

height adjustable tables

Available with pneumatic or ratchet style height adjustability.
Available with locking casters or as a stationary table.
Pneumatic tables with casters adjust from 30 1/2"- 47 1/2" and stationary tables adjust from 27 1/2"- 44 1/2". Ratchet tables adjust from 27 3/8"- 36 3/4".

24"d x 30"w x 1 1/2"h
24"d x 24"w x 1 1/2"h
24"d x 18"w x 1 1/2"h

electrical

Continue specifying your power options to complete your workstation...

7-A Determine power infeed length.
7-B Connect power infeed to worksurface.
7-C Connect executive height worksurfaces to each other.
7-D Continue power through storage units to another station.

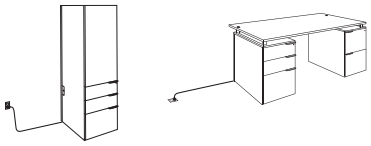
- This panel-less 4 wire, 2 circuit system easily runs throughout an entire workstation.
- Swish was designed with integrated wire management to create omni-directional movement.
- Each circuit can have up to 13 duplexes, which is 26 plug-ins.

Undersurface electrical.

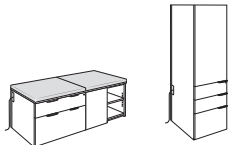
Complete your workstation's electrical options by specifying the power infeed and jumpers. These components allow the power to travel from the worksurface through the undersurface units or travel from worksurface to worksurface to power multiple stations.

power entry infeed

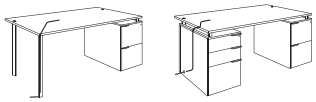
7-A1 Measure distance between power source and location that power will enter the Swish station.



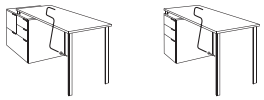
7-A2 Select location of power entry from the floor, and add length.



To bench height unit or side access grommet, add 20".

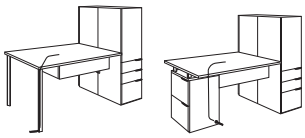


To executive height, add 45".

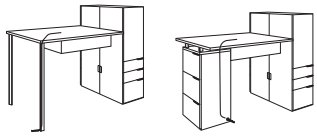


To the kneespace of executive height pedestal, add 45".

To the outside of extended executive height pedestal, add 63".



To executive height table with legs, add 96".
To executive height table with pedestal, add 84".



To stand up height table with legs, add 108".
To stand up height table with pedestal, add 96".

7-A3 If applicable, add the width of any additional units leading to the powered worksurface.

7-A1 + **7-A2** + **7-A3** = length of power infeed

connect power infeed to worksurface

7-B If a vertical height change is needed to reach the worksurface, specify the 24" vertical jumper.

connect executive height worksurfaces

7-C1 Connect executive height worksurfaces to each other with a simple jumper.

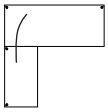
End to end, use 24" jumper.

Back to back, use 28" jumper.

End to end, opposite facing:
36"d & 30"d, use 28" jumper.
24"d & 18"d, use 24" jumper.

TIP! If worksurfaces have an overhang, add 6" for each worksurface.

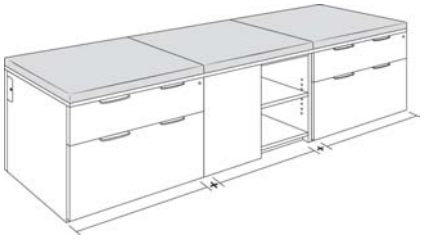
7-C2 Connect executive height worksurfaces to bridges or returns with simple jumpers.



36"d worksurfaces, use 50" jumper.
30"d worksurfaces, use 45" jumper.
24"d worksurfaces, use 42" jumper.
18"d worksurfaces, use 31" jumper.

continue power to the next workstation, through storage units

7-D1 If a vertical height change is needed to reach the storage unit, specify the 24" vertical jumper.

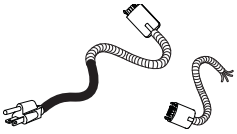


7-D2 Measure the widths of the units the jumper will travel through.

7-D3 If a vertical height change is needed to reach the worksurface, specify the 24" vertical jumper.

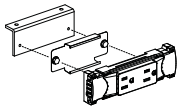
electrical

Electrical components to power your workstation.



72" power infeed

Three prong available in 12" increments from 48" to 120". Hardwire available in 12" increments from 72" to 300".



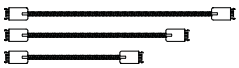
duplex receptacle kit

Includes mounting brackets.

receptacle to receptacle connector

H block connector kit

Includes mounting brackets.



jumpers

Available in 6" increments from 18" to 300". Also available in 28", 31", 45", and 50" lengths.

conduit clamp

24" vertical jumper (includes H block connector)

Quick disconnect

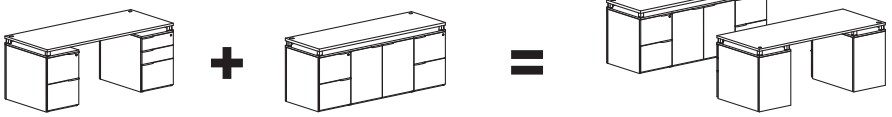
Field install grommet

Wire management trough

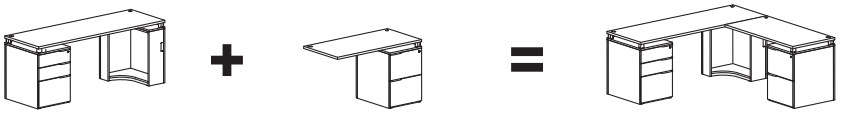
Available in 12", 24", and 36" lengths.

pre-configured models

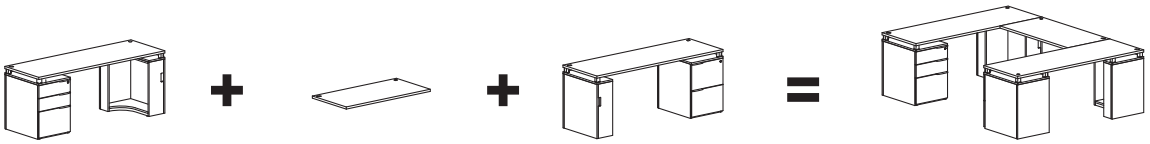
Use pre-configured models to create common workspaces, U-units and L-units...



double pedestal desk + *storage credenza* = *Swish office*



single pedestal desk + *single pedestal return* = *Swish L-unit*



single pedestal desk + *bridge* + *single pedestal credenza* = *Swish U-unit*

pre-configured models

Use these as they are or combine to create larger units. All pre-configured models are executive height, 29 3/8"h.

double pedestal desk

36"d x 72"w
36"d x 66"w

30"d x 72"w
30"d x 66"w

The 36"d units feature grommets that are inset 6" from the approach side to create an overhang.

single pedestal desk - rectangle & fin

*36"d x 72"w**
*36"d x 66"w**

*30"d x 72"w**
*30"d x 66"w**
30"d x 60"w (rectangle only)

Units with asterisk are also available with grommets inset 6" to create an overhang on the approach side.*

Single pedestal side is supported by b/b/f pedestal.

66"w and 72"w chassis have an 18"w corner wing for support and 60"w chassis have a 9"w corner wing.

storage credenza
kneespace credenza

24"d x 72"w
24"d x 66"w

18"d x 72"w
18"d x 66"w

lateral file credenza

24"d x 72"w
24"d x 60"w

single pedestal credenza

24"d x 72"w
24"d x 66"w

18"d x 72"w
18"d x 66"w
18"d x 60"w

Available with standard f/f pedestal or lateral file pedestal on single pedestal side.

Available with 18"w corner wing support or 9"w wing support.

66"w and 72"w chassis have an 18"w corner wing for support and 60"w chassis have a 9"w corner wing.

lateral file pedestal
hinged door pedestal

24"d x 36"w
24"d x 30"w

*18"d x 36"w**
*18"d x 30"w**

Units with asterisk are only available with hinged doors.*

b/b/f pedestal

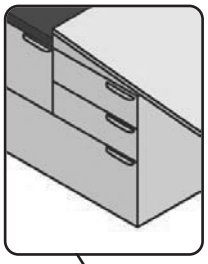
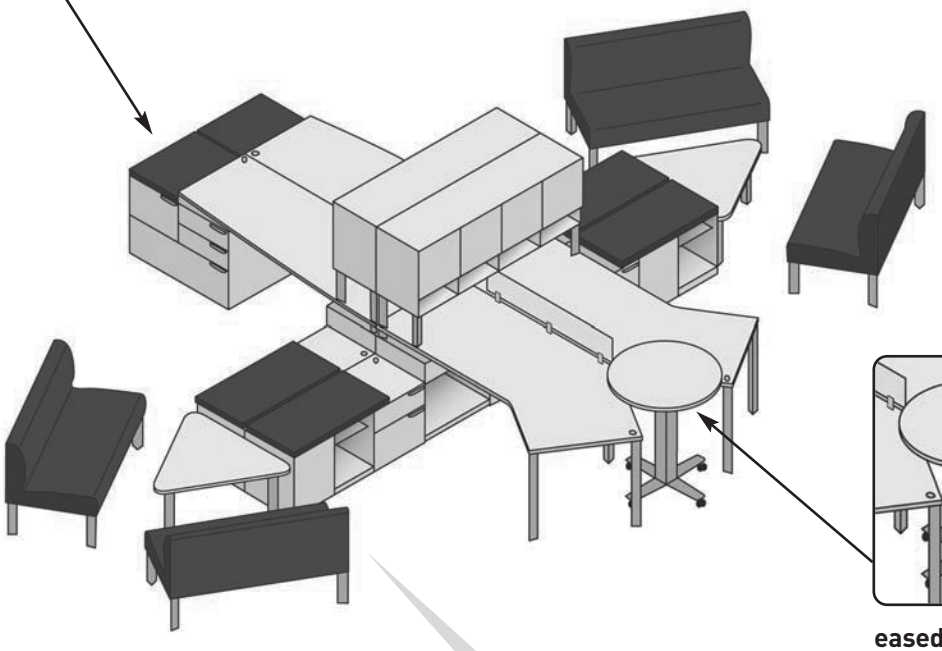
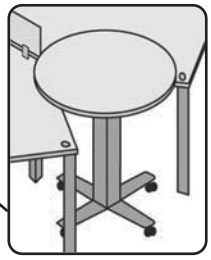
Choose from a selection of finishes and textures for your Swish configurations...



pulls
Drawer pulls can be installed in the left, center or right locations. All drawers and undersurface doors are pre-drilled for easy installation.





eased PVC edge
Swish worksurfaces and tables feature a coordinating eased PVC edge on all four sides.

TIP! Upholstered benches and cushions are upholstered up the roll, while tackboards are railroaded.

Product Specifications

Swish Series: Swish has a modular design to allow flexibility in configuration. It features high pressure laminate (HPL) worksurfaces and thermally fused laminate (TFL) chassis components with durable, impact resistant PVC edges. Swish is offered in eleven wood grain colors and seven solid colors. The wood grain TFL features embossed grain to hide fingerprints and light scratches. The Swish offering includes upholstered benches and cushions which integrate with the casegoods.

Worksurfaces: Laminate worksurfaces have a 3-ply balanced construction, 1 3/16" thick with coordinating PVC edges. All worksurfaces feature 3mm PVC edge. All edges and corners are eased to eliminate sharp edges. Worksurfaces greater than 48" include a metal support rail to prevent sagging. Worksurfaces also include a 2 1/4" tall frosted acrylic plenum which clips into place below worksurface.

Power/Data/ Wire Management: Optional 4-wire, one or two circuit undersurface electrical features easy-to-connect fittings which makes routing power a snap. Power & Data tilt-up units are available for worksurfaces in standardized locations. Power & Data units can be plugged into a standard 110v wall outlet or into the undersurface electrical. Teardrop corner grommets and wire management troughs are included standard on all executive height worksurfaces. Bench height, tall storage, executive height corners, and executive height connection pedestals include standard pass through side grommets (1 7/8"W x 3 1/4"H). Worksurfaces are raised 2 1/4" above the top of the executive height pedestals to create space for easy routing of cords and cables. The acrylic plenum then clips in place to hide the cords and adds a decorative element. Also available is a round field installable cable access grommet. Grommet requires a 2 3/8" hole. Overall diameter of the grommet is 2 3/4". Desk legs have a removable acrylic wire management cover which allows passage of cords or flexible electrical through the leg.

Cabinets: Laminate chassis is constructed using 3/4" thick thermally fused laminated panels. Exterior panels, doors, drawer fronts have 1mm thick PVC edgebands. Product is designed to minimize the number of exposed fasteners. Cabinets are constructed using metal cam & post connectors along with wood dowels. Wood cleats, pocket screws and metal brackets are also used in desk pedestals where additional joint strength is required. Desk pedestals are standard at 18" wide. Lateral files are available in 30" and 36" width. Leveling glides are installed in a manner to prevent tear-out.

Drawers: Drawers are assembled using five sided V-fold box and 1/4" thick drawer bottom panel construction with exterior front attached separately. Maple vinyl sides and drawer bottoms provide a clean, smooth feel and appearance.

Drawer Suspension: High quality black drawer suspensions carry a lifetime warranty. File and box drawers have 100% full extension with over-travel. Slides feature steel ball bearings for longer wear and positive, cushioned in/out stops.

File systems: All file drawers are constructed with integrated side and back rails and adjustable metal cross rail filing system in place. Cross bars are adjustable and removable without tools.

Locking: All drawer pedestals feature pedestal front locking as standard. All hinged door pedestals and non-glass hinged door overhead cabinets are available with optional locking. Units are shipped randomly keyed as standard. Keyed alike units are available at no upcharge with removable cores for in-field re-keying.

Legs: Legs and overhead supports are made from extruded aluminum with steel mounting bracket and integrated wire management with cord cover. All legs have adjustable levelers.

Modesty Panels and Privacy Screens: Modesty panels and Privacy screens are made of 1/4" thick acrylic. Panels are standard in frosted acrylic. Five premium acrylic patterns are also available. Modesty panels attach to the underside of worksurface with metal brackets. Privacy screens mount with an aluminum bracket which attaches to the bottom edge of the worksurface, therefore installation does not mar the worksurface. The privacy panels are friction fit into the bracket for easy removal of the panel.

Seating: Swish seating is designed to integrate with the casegoods to create simple and flexible seating options for the open plan office. Cushions are 1 1/4" thick with slip resistant rubber bumpers on the bottom side and are designed to sit on top of bench height cabinets. Cushions can be easily removed or placed for maximum flexibility. Swish benches are light weight and scaled for use with the series. Cushions and benches use long lasting high density foam and plywood frames. Both are available in multiple fabric grades.

Pre-Configured Order Check List:

Specify:
- ☐ **1. Model number**
- ☐ **2. Laminate color**
  - **A. Worksurface color**
  - **B. Chassis color**
- ☐ **3. Product options**
  - **A. EC10/EC11 cutout**
  - **B. Undersurface electrical**

Example:

SS3672ED (model #)	BZ (worksurface color)	TP (chassis color)	EG001 (ECA cutout location)

1. Model number

2. Laminate Color Options:

ALB	Alabaster	HGL	High Line
AUT	Autumn	SHD	Shadow
BLO	Blonde Echo	SHE	Shea
BBN	Bourbon	SLG	Slate Grey
BZW	Brazilwood	STU	Studio Teak
BBL	Bridal Blanco	TAU	Taupe
BRG	Brighton	VIN	Vintage
DWH	Designer White	WLH	Walnut Heights
DOV	Dove Grey		

3. Product Options:

- EC10 or EC11 Cutout:
  Specify
  EG100 (user left)
  EG001 (user right)
  EG101 (user left and right)
  Two EC units in a worksurface less than 48" in width is not recommended. No upcharge for cutout.
  NOTE: Cutouts for 18" deep worksurfaces will run perpendicular to user.
  NOTE: EC10 and EC11 units must be ordered separately. Refer to page 214 for more information.
- Undersurface Electrical:
  Specify the appropriate number below for the circuit number(s) desired.
  P1 (circuit 1)
  P2 (circuit 2)
  PM (mix circuit 1 and circuit 2)
  NOTE: Two circuit system requires a hardwire infeed.
  When Undersurface Electrical is specified one duplex unit, two jumpers and two H block connectors will be mounted to the underside of units less than 60" in width. Units 60" in width and wider will have two duplex units, two jumpers and two H block connectors.
  NOTE: Infeed cables and additional jumper cables must be ordered separately. Refer to pages 215-217 for additional information.

Edge Profile:

Eased (R6)

Pull Style and Color:

Flat (Silver finish)

NOTE: All drawers are predrilled for easy field installation. Pulls for drawers can be installed in the left, center or right locations. All hinged doors below the worksurface are predrilled as well.

Counterweights:
In order to pass stability tests some Pre-Configured units will require a counterweight to be mounted on the inside of the back panel of the unit. The ½" thick counterweight is available in 10 lb. and 20 lb. weights and is field installed. The counterweight will need to be ordered separately, see page 75. Some units may require 40 lbs. of counterweight; in that case two 20 lb. counterweights will need to be ordered. As an alternative to the counterweight the unit can be secured to the wall or floor.

Undersurface Electrical Options
pages 215-217

Worksurface Order Check List:

Specify:
☐ **1. Model number**
☐ **2. Worksurface laminate color**
☐ **3. Product options**
A. EC10/EC11 cutout
B. Undersurface electrical

Example:

SST2472UFING-BA	BB	EG100
(model #)	(worksurface color)	(EC cutout location)

1. Model number

2. Laminate Color Options:

ALB	Alabaster	HGL	High Line
AUT	Autumn	SHD	Shadow
BLO	Blonde Echo	SHE	Shea
BBN	Bourbon	SLG	Slate Grey
BZW	Brazilwood	STU	Studio Teak
BBL	Bridal Blanco	TAU	Taupe
BRG	Brighton	VIN	Vintage
DWH	Designer White	WLH	Walnut Heights
DOV	Dove Grey		

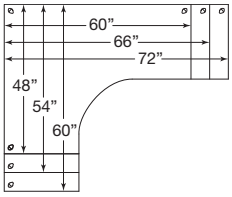
3. Product Options:

- EC10 or EC11 Cutout:
  Specify
  EG100 (user left)
  EG010 (center)
  EG001 (user right)
  EG101 (user left and right)
  EG111 (user left, right and center)
  More than one EC unit in a worksurface less then 48" in width is not recommended. No upcharge for cutout.
  NOTE: Cutouts for 18" deep worksurfaces will run perpendicular to user
  NOTE: EC10 and EC11 units must be ordered separately. Refer to page 214 for additional information.
- Undersurface Electrical:
  Specify the appropriate number below for the circuit number(s) desired for each duplex unit on your worksurface.
  P1 (circuit 1)
  P2 (circuit 2)
  PM (mix circuit 1 and circuit 2)
  NOTE: Two circuit system requires a hardwire infeed.
  When Undersurface Electrical is specified one duplex unit, two jumpers and two H block connectors will be mounted to the underside of units less than 60" in width. Units 60" in width and wider will have two duplex units, two jumpers and two H-block connectors.
  NOTE: Infeed cables and additional jumper cables must be ordered separately. Refer to pages 215-217 for additional information.

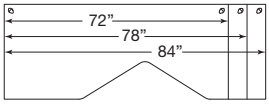
Edge Profile:

Eased (R6)

Corner and Nook pedestal restrictions:



48" Side - Leg to Floor or Bracket to Tall Storage
54" Side - Leg to Floor, Bracket to Tall Storage or 9" wide pedestal
60" Side - Leg to Floor, Bracket to Tall Storage or 9" or 18" wide pedestal
66" Side - Leg to Floor, Bracket to Tall Storage or 9" or 18" wide pedestal
72" Side - Leg to Floor, Bracket to Tall Storage or 9", 18", 24" or 30" wide pedestal
78" Side - No restrictions



72" Wide, 6" Side - Leg to Floor
78" Wide, 12" Side - Leg to Floor or 9" wide pedestal
84" Wide, 18" Side - Leg to Floor, 9" or 18" wide pedestal

The letters in the chart below indicate the depth of each side on certain worksurfaces.
Ex: SST2484UFING-BA
B = 24 left A = 18 right

Top Depth
A = 18" Deep
B = 24" Deep
C = 30" Deep
D = 36" Deep

Modular Executive Height Storage Order Check List:

Specify:
☐ **1. Model number**
☐ **2. Laminate color**

Example:
SS2418MFF (model #) | AU (laminate color)

---

1. Model number

---

2. Laminate Color Options:

ALB	Alabaster	HGL	High Line
AUT	Autumn	SHD	Shadow
BLO	Blonde Echo	SHE	Shea
BBN	Bourbon	SLG	Slate Grey
BZW	Brazilwood	STU	Studio Teak
BBL	Bridal Blanco	TAU	Taupe
BRG	Brighton	VIN	Vintage
DWH	Designer White	WLH	Walnut Heights
DOV	Dove Grey		

Pull Style and Color:

Flat (Silver finish)

NOTE: All drawers are predrilled for easy field installation. Pulls for drawers can be installed in the left, center or right locations. All hinged doors are predrilled as well.

Counterweights:
In order to pass stability tests some Executive Height Storage units will require a counterweight to be mounted on the inside of the back panel of the unit. The ½" thick counterweight is available in 10 lb. and 20 lb. weights and is field installed. The counterweight will need to be ordered separately, see page 131. Some units may require 40 lbs. of counterweight; in that case two 20 lb. counterweights will need to be ordered. As an alternative to the counterweight the unit can be secured to the wall or floor.

MODULAR EXECUTIVE HEIGHT STORAGE

DWH	Designer White	WLH	Walnut Heights
DOV	Dove Grey		

Pull Style and Color:

Flat (Silver finish)

NOTE: All drawers are predrilled for easy field installation. Pulls for drawers can be installed in the left, center or right locations. All hinged doors are predrilled as well.

Counterweights:
In order to pass stability tests some Bench Height Storage units will require a counterweight to be mounted on the inside of the back panel of the unit. The ½" thick counterweight is available in 10 lb. and 20 lb. weights and is field installed. The counterweight will need to be ordered separately, see page 137. Some units may require 40 lbs. of counterweight; in that case two 20 lb. counterweights will need to be ordered. As an alternative to the counterweight the unit can be secured to the wall or floor.

Order Check List
page 149

Product Specifications
page 40

Accessories Order Check List:

Specify:
☐ **1. Model number**
☐ **2. Fabric selection - vendor, pattern and color**
☐ **3. Product options**

Example:

SS1560ASF-TK2 (model #)	Guilford of Maine (fabric vendor)	Bailey (pattern name)	Sherman Pewter (pattern color)

1. Model number

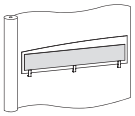
2. Fabric selection - Please supply the following:
Fabric vendor
Pattern name
Pattern color

NOTE: Vinyl cannot be used on tackboards

All COM orders must include the following:
- Vendor's name, pattern name and color
- Sample of the fabric attached to order
- Model numbers of items for fabric application
- Special application instructions
- Customer and purchase order number

Ship prepaid COM material to:
JSI
Attn: COM Dept
932 Mill St.
Jasper, Indiana 47546

Application of fabric:
Railroaded



All COM orders will ship at standard lead time from receipt of COM.

3. Product Options:
Frosted is the standard for all acrylic modesty panels and privacy screens. Optional acrylic patterns are available, specify pattern name. Upcharge applies, refer to product pages. All privacy screens with a tackboard are only available with the frosted acrylic.
Optional patterns:

Drift Green	Paper Cut
Ivory Taipei	Silver Spun
Oyster Linen	

NOTE:
Accessory rails can be mounted to most worksurfaces. Contact Customer Service for availability if mounting to a modular bench height top. Rail must be installed at least 4" inset from the left and right sides of the worksurface.

When ordering a privacy screen be sure to take into account any above storage units so there is no interference.

Markerboards are available for the back and side of Tall Storage units, the side of Side Access Storage units and the back of Above Surface Storage units. Markerboards are not available on the Tall Storage doors. See pages 152, 155, 162 and 164 for Above Surface Storage units with sliding markerboard doors.

Tackboards are available for the back and side of Tall Storage units, the side of Side Access Storage units and the side of Above Surface Storage units. Tackboards are not available on the doors of these units.

Product Specifications
page 40

Collaborate Order Check List:

Specify:
☐ **1. Model number**
☐ **2. Laminate color**
A. Worksurface color
B. Panel stretcher color
☐ **3. Fabric selection - vendor, pattern and color**
☐ **4. Product options**
A. EC13 cutout
B. Undersurface electrical

Example:

SST4860CCBP (model #)	HL (worksurface color)	SD (panel stretcher color)	EG030 (EC13 cutout)

1. Model number

2. Laminate Color Options:

ALB	Alabaster	HGL	High Line
AUT	Autumn	SHD	Shadow
BLO	Blonde Echo	SHE	Shea
BBN	Bourbon	SLG	Slate Grey
BZW	Brazilwood	STU	Studio Teak
BBL	Bridal Blanco	TAU	Taupe
BRG	Brighton	VIN	Vintage
DWH	Designer White	WLH	Walnut Heights
DOV	Dove Grey		

3. Fabric selection - Please supply the following:
Fabric vendor
Pattern name
Pattern color

- Indicate direction of fabric - Railroaded or Up the Roll
- please provide illustration if available

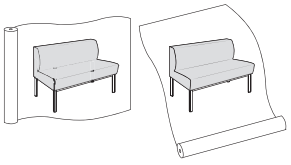
NOTE: Standard application will be Up the Roll

All COM orders must include the following:
- Vendor's name, pattern name and color
- Sample of the fabric attached to order
- Model numbers of items for fabric application
- Special application instructions (e.g., all stripes will be applied front to back unless specified otherwise)
- Customer and purchase order number

Ship prepaid COM material to:
JSI
Attn: COM Dept
932 Mill St.
Jasper, Indiana 47546

Application of fabric:

Railroaded Up the Roll



All COM orders will ship at standard lead time from receipt of COM.

3. Product Options:
- EC13 Cutout:

Specify
EG030
NOTE: EC13 will be located in the center of the top. Panel stretcher will ship with wire management channels for cord management.
NOTE: EC13 units must be ordered separately. Refer to page 214 for more information.
- Undersurface Electrical:
Specify the appropriate number below for the circuit number(s) desired.
P1 (circuit 1)
P2 (circuit 2)
PM (mix circuit 1 and circuit 2)
NOTE: Two circuit system requires a hardwire infeed.
When Undersurface Electrical is specified the following will be mounted to the underside of the worksurface: two duplex units, two jumper cables and two H block connectors.
NOTE: Infeed cables and additional jumper cables must be ordered separately. Refer to pages 215-217 for additional information.

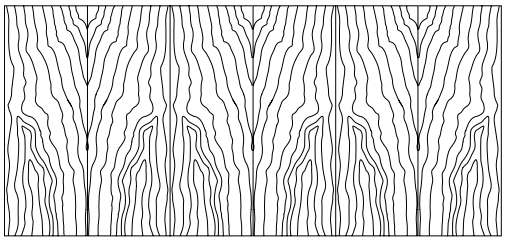
Brogan Modular Product Information

Exterior Wood Materials
Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Brogan product line. To attain a pleasing, symmetrical pattern, all veneers in Brogan are book-matched. All exterior solid lumber is matched to coordinate with the veneer.



Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Brogan is available in flat cut cherry and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Work Surface Construction
Tops are 5-ply balanced construction, 1 3⁄16″ thick with solid matching hardwood edges.

Coordinating high pressure laminate in a veneer grain pattern can be applied to the top surface and is available at no additional charge.

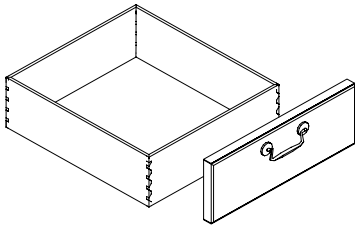
Modular Desks, Credenzas, Corner, Returns & Bridges units feature metal threaded inserts in the underside of the top for quick mounting and reconfiguration of modular storage components.

Case Construction
All construction is a combination of full mortise and tenon, reinforced with screws. Leveling glides are set in solid hardwood to prevent glides tear out.

Outside End Panels are 13⁄16″ thick with 3-ply construction and rimmed with veneer bands.

Pedestals are mortise and tenon construction reinforced with screws for increased stability. All modular storage units feature full top panels with holes for mounting to shell inserts.

Drawer Construction
Drawers are assembled using four corner, dovetailed box and 1⁄4″ thick drawer bottom panel construction with exterior front attached separately. Sides and backs are 9-ply, 7⁄16″ thick unidirectional hardwood. Interiors are sanded and finished with clear catalyzed varnish to protect against shrinking, swelling or warping, and to provide a clean, smooth feel and appearance.



Drawer Suspension
The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. All drawers, including file and box drawers, fully extend past the pedestal chassis allowing full access to the drawer box.

Filing Hardware
All file drawers are constructed with a custom designed filing system in place to allow for hanging folders. Filing diagram on pages 48-50.

Locking
All storage pedestals and cabinets feature front pedestal locking .

Units are shipped randomly keyed as standard. Key alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard.

Finish - Stain/Colors
We offer a variety of wood stains and paint colors on Brogan. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

CH1 Cherry *Flat Cut Veneer*

AUT	Autumn *(Autumn Cherry)*	EAR	Earthy
BRL	Barley	LGC	Legacy *(Legacy Cherry)*
BBN	Bourbon *(Natural Cherry)*	PRL	Praline *(Vintage Cherry)*
BRG	Brighton *(Brighton Cherry)*	SAF	Saffron *(Medium Cherry)*
CLA	Classic *(Classic Cherry)*		

WA1 Walnut *Flat Cut Veneer*

AUB	Auburn *(Windsor Mahogany)*	SIE	Sienna
ESP	Espresso	TOF	Toffee
MCH	Mocha	TRF	Truffle
NTO	Night Owl *(Vintage Walnut)*		

Protective Top Coat
DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features
Safety - Significantly reduces hazardous formaldehyde emissions, which help improve the quality of the of the indoor air we breathe.
Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.
Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Brogan Modular Product Information

Product Modification

Laminate Tops
Work surface only, no additional upcharge if Brogan's coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request. Listed below are finishes that have coordinating wood grain HPL laminates.

Cherry Finishes	Walnut Finishes
Autumn	*Auburn*
Barley	*Mocha*
Bourbon	*Night Owl*
Brighton	*Sienna*
Classic	*Toffee*
Legacy	*Truffle*
Praline	
Saffron	

Special Finishes
Special finishes can be requested by following the instruction in the general introduction section, page 3. There is a one time charge of $275 list per order.

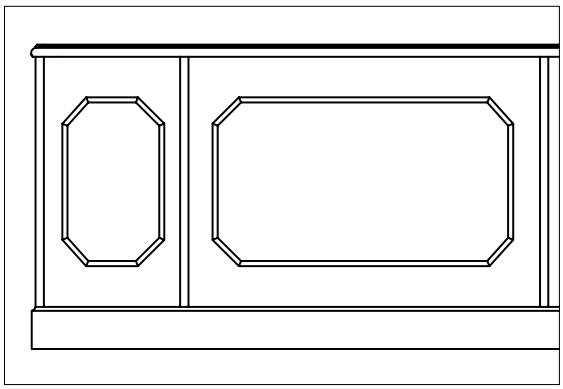
Sheen Modification (Tops Only)
Finish sheen can be modified on worksurface tops. There is a 15% upcharge added to the list of each item.

Special Veneer
Upon request other veneer species can be changed from the standard offering with an additional 40% to the list price of the unit.

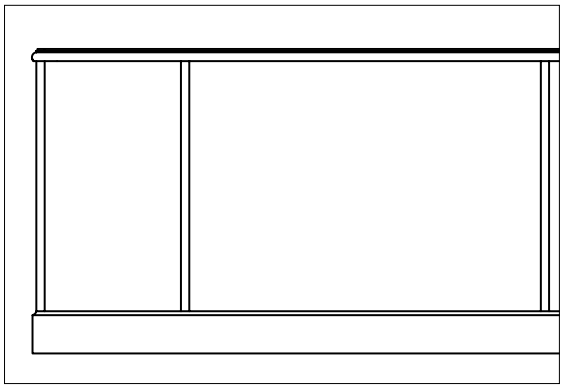
Product Modification

Trim Molding
Brogan Trim molding is standard on all Brogan products.

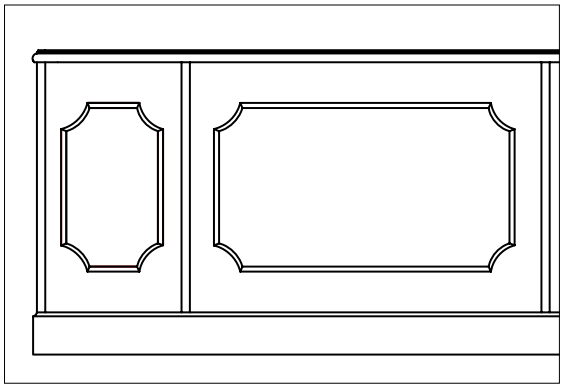
Without molding or the Scallop Trim molding can be specified at the time of order placement.



Brogan Trim
standard



Base Molding Only (without trim)
optional at no charge



Gala Trim
optional with upcharge to list for each item
$100 for all desk shells
$50 for all other product with standard trim molding

Antique Pewter (ANP)

Worksurface Grommets

Worksurface grommets are standard on all modular shells. Additional worksurface grommets can be specified in different location on veneer/laminate worksurfaces. The grommet location must be approved by JSI manufacturing, contact Customer Service.

Add $75 to the list for each additional grommet.

Models with an Antique Brass pull will receive an Antique Brass grommet, those with an Antique Pewter pull will receive a Black grommet.

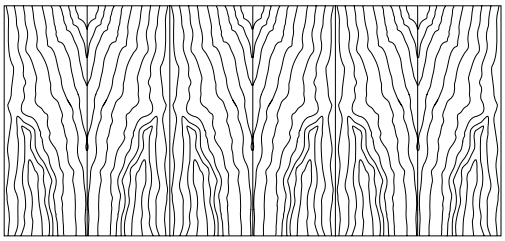
Brogan Product Information

Exterior Wood Materials
Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Brogan product line. To attain a pleasing, symmetrical pattern, all veneers in Brogan are book-matched. All exterior solid lumber is matched to coordinate with the veneer.



Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Brogan is available in flat cut cherry and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Cherry and Walnut veneer are the species available on the NOW! *quickship program on select models.*▲

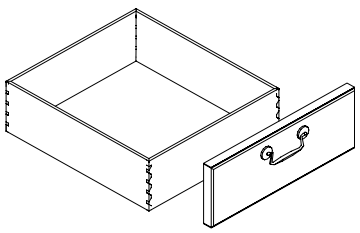
Work Surface Construction
Tops are 5-ply balanced construction, 1 3⁄16″ thick with solid matching hardwood edges.

Coordinating high pressure laminate in a veneer grain pattern can be applied to the top surface and is available at no additional charge.

Case Construction
All construction is a combination of full mortise and tenon, reinforced with screws. Leveling glides are set in solid hardwood to prevent glides tear out.

Outside End Panels are 13⁄16″ thick with 3-ply construction and rimmed with veneer bands.

Drawer Construction
Drawers are assembled using four corner, dovetailed box and 1⁄4″ thick drawer bottom panel construction with exterior front attached separately. Sides and backs are 9-ply, 7⁄16″ thick unidirectional hardwood. Interiors are sanded and finished with clear catalyzed varnish to protect against shrinking, swelling or warping, and to provide a clean, smooth feel and appearance.



Drawer Suspension
The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. All drawers, including file and box drawers, fully extend past the pedestal chassis allowing full access to the drawer box.

Filing Hardware
All file drawers are constructed with a custom designed filing system in place to allow for hanging folders. Filing diagram on pages 48-50.

Locking
All desk, and lateral files feature central locking. Credenza and returns feature pedestal locking.

Units are shipped randomly keyed as standard. Key alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard.

Finish - Stain/Colors
We offer a variety of wood stains and paint colors on Brogan. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

CH1 Cherry *Flat Cut Veneer*

AUT	Autumn *(Autumn Cherry)*	EAR	Earthy
BRL	Barley	LGC	Legacy *(Legacy Cherry)*
BBN	Bourbon *(Natural Cherry)*	PRL	Praline *(Vintage Cherry)*
BRG	Brighton *(Brighton Cherry)*	SAF	Saffron *(Medium Cherry)*
CLA	Classic *(Classic Cherry)*		

WA1 Walnut *Flat Cut Veneer*

AUB	Auburn *(Windsor Mahogany)*	SIE	Sienna
ESP	Espresso	TOF	Toffee
MCH	Mocha	TRF	Truffle
NTO	Night Owl *(Vintage Walnut)*		

Protective Top Coat
DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features
Safety - Significantly reduces hazardous formaldehyde emissions, which help improve the quality of the of the indoor air we breathe.
Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.
Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Brogan Product Information

Product Modification

Laminate Tops
Work surface only, no additional upcharge if Brogan's coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request. Listed below are finishes that have coordinating wood grain HPL laminates.

Cherry Finishes	Walnut Finishes
Autumn	*Auburn*
Barley	*Mocha*
Bourbon	*Night Owl*
Brighton	*Sienna*
Classic	*Toffee*
Legacy	*Truffle*
Praline	
Saffron	

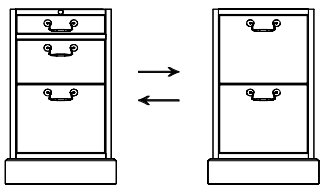
Special Finishes
Special finishes can be requested by following the instruction in the general introduction section, page 3. There is a one time charge of $275 list per order.

Sheen Modification (Tops Only)
Finish sheen can be modified on worksurface tops. There is a 15% upcharge added to the list of each item.

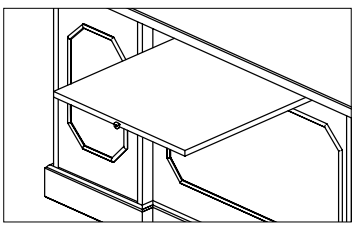
Special Veneer
Upon request other veneer species can be changed from the standard offering with an additional 40% to the list price of the unit.

Pedestal Configuration Change
Writing shelf-tray-box-file drawer configuration standard on desk pedestals. Desk pedestal only can be switched out to a file-file configuration. Must be specified at the time of order and with an additional 5% upcharge to the list price.

Changing to a file-file pedestal configuration will eliminate the writing shelf (arm slide).



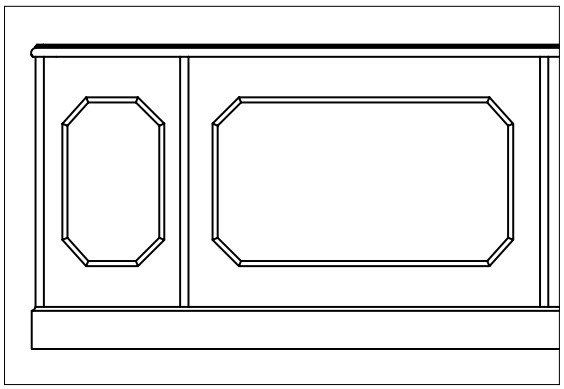
Desk Dictation Slide
The approach side of the desk in the center break front area has an option of a center pull-out dictation slide. Add $336 to the list price of the desk.



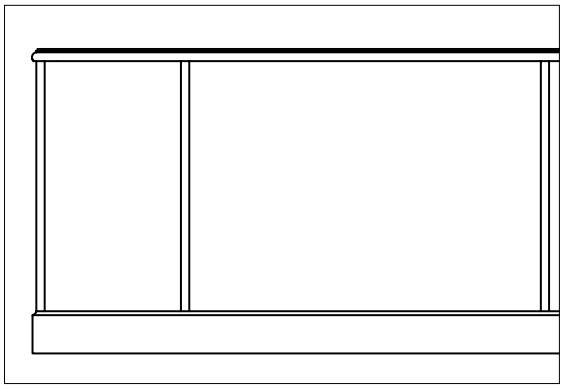
Product Modification

Trim Molding
Brogan Trim molding is standard on all Brogan products.

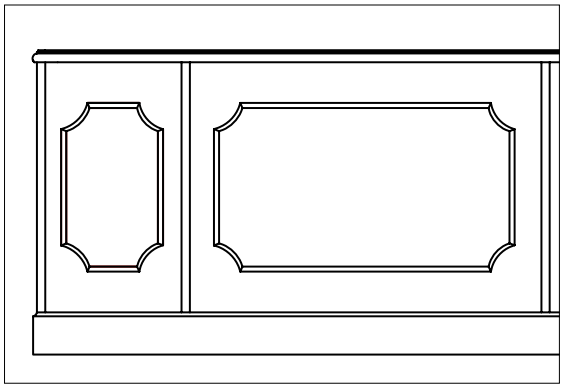
Without molding or the Gala Trim molding can be specified at the time of order placement.



Brogan Trim
standard

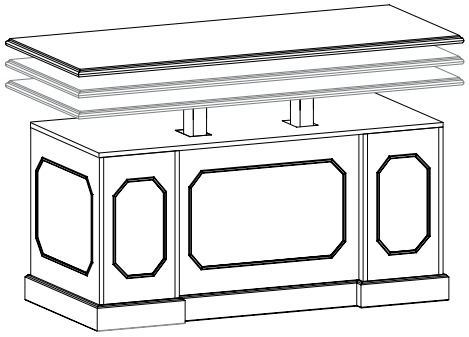


Base Molding Only (without trim)
optional at no charge



Gala Trim
optional with upcharge to list for each item
$100 for all desk
$50 for all other product with standard trim molding

Brogan Product Information



This mechanism requires a signed Liability Wavier prior to time of order specification.

Contact Customer Service or visit our Website at jsifurniture.com

ERGO Adjustable Work Height Mechanism
Our proprietary adjustable work height mechanism can be specified on many of the models in Brogan.

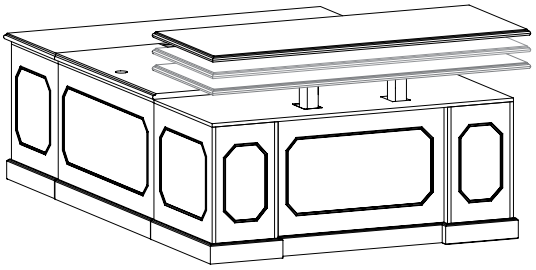
ERGO mechanism allows height adjustability to be added to the worksurface. Our solution uses a standardized design that minimizes the modifications required to standard desk, bridge, or credenza models. The mechanism and control box are neatly concealed to maintain the appearance of the original elegance of the product. A push button activates the electric powered lifting columns for adjustability from sitting height to a standing height. A ¾" thick finished sub top is added to the top of the desk chassis for a clean appearance when the surface is in the raised position. In the lowered position, please note that ERGO adds ¾" to the standard height of the desk and the installation will decrease knee space depth by 8".

Automatic Collision Control is built in to each mechanism as a standard feature. When the system senses an obstacle obstructing the movement, the mechanism will reverse direction and retreat by 1".

When ERGO is added to a desk worksurface in a "L" or "U" group, the unit that connects to the desk also needs to have a sub top added. These units are considered to be ERGO ADJACENT units. ERGO ADJACENT units must have a fixed height worksurface that matches the lowest position of the ERGO mechanism and the top. This is accomplished by adding a ¾" sub top between the chassis and the worksurface. This feature can also be specified for cabinets which may sit next to a unit with the ERGO mechanism.

Height adjustment starts at 30¾", to a standing height of 50¼", a range of 19½".

To specify the unit that has the mechanism, add **ERGO** to the end of the model number.
To specify the connecting or adjacent units add, **ERGO ADJACENT** to the end of the model number.



Example

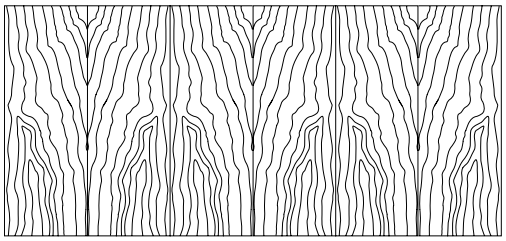
Walden Product Information

Exterior Wood Materials
Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Walden product line. To attain a pleasing, symmetrical pattern, all veneers in Walden are book-matched. All exterior solid lumber is matched to coordinate with the veneer.



Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Walden is available in flat cut cherry and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Work Surface Construction
Tops are 3-ply balanced construction, 1 3⁄16″ thick with solid matching hardwood edges.

Coordinating high pressure laminate in a veneer grain pattern can be applied to the top surface and is available at no additional charge.

Case Construction
All construction is a combination of mortise and tenon with bore and dowel.

All panels are ¾″ thick with 3-ply construction and rimmed with veneer bands.

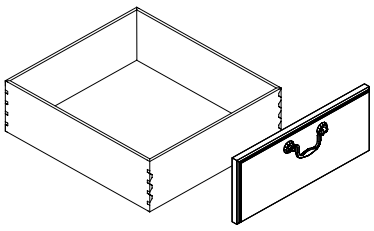
Arm slides are 3-ply construction, banded on all four sides with veneer. Pedestals are enclosed at the bottom with a ⅛″ thick panel securely fastened to the bottom of the pedestal.

Each corner of the pedestal has a metal reinforcement bracket with a 2 ½″ adjustable glides. All glides can be adjusted from inside the pedestal by removing the bottom drawer.

Drawer Construction
The standard Baltic Birch drawer is constructed with ½″ thick high quality Baltic Birch plywood with a durable finish. This five sided drawer box features fully glued dovetail construction ensuring a solid, warp resistant drawer box.

Veneered bottoms are framed into grooves on four sides. Bottoms are then glued, stapled, and reinforced with a continuous band of glue.

The optional V-fold drawer interior is a ½″ durable, miter-fold drawer system. The V-fold vinyl wrapped drawer sides form a mitered box. The box is glued and doweled, the drawer fronts attached to the box.



Drawer Suspension
The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. All drawers, including file and box drawers, fully extend past the pedestal chassis allowing full access to the drawer box.

Filing Hardware
All file drawers are constructed with a custom designed filing system in place to allow for hanging folders. Filing diagram on pages 84-85.

Locking
All desk, credenzas and freestanding pedestals with drawers are face locked. Locks are located in the upper right corner of top drawer. Door locks are available as an option.

Units are shipped randomly keyed as standard. Key alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard.

Finish - Stain/Colors
We offer a variety of wood stains on Walden. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

CH1 Cherry *Flat Cut Veneer*

AUT	Autumn *(Autumn Cherry)*	EAR	Earthy
BRL	Barley	LGC	Legacy *(Legacy Cherry)*
BBN	Bourbon *(Natural Cherry)*	PRL	Praline *(Vintage Cherry)*
BRG	Brighton *(Brighton Cherry)*	SAF	Saffron *(Medium Cherry)*
CLA	Classic *(Classic Cherry)*		

WA1 Walnut *Flat Cut Veneer*

AUB	Auburn *(Windsor Mahogany)*	SIE	Sienna
ESP	Espresso	TOF	Toffee
MCH	Mocha	TRF	Truffle
NTO	Night Owl *(Vintage Walnut)*		

Protective Top Coat
DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features
Safety - Significantly reduces hazardous formaldehyde emissions, which help improve the quality of the of the indoor air we breathe.
Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.
Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Walden Product Information

Product Modification

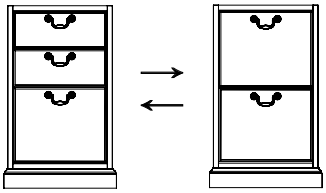
Laminate Tops
Work surface only, no additional upcharge if Walden's coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request. Listed below are finishes that have coordinating wood grain HPL laminates.

Cherry Finishes	Walnut Finishes
Autumn	*Auburn*
Barley	*Mocha*
Bourbon	*Night Owl*
Brighton	*Sienna*
Classic	*Toffee*
Legacy	*Truffle*
Praline	
Saffron	

Special Finishes
Special finishes can be requested by following the instruction in the general introduction section, page 3. There is a one time charge of $275 list per order.

Pedestal Configuration Change
Pencil-box-file configuration is standard on all desks pedestals and return pedestals. Standard configurations for all other units are listed in the pricing section for that model.

Drawer configurations can be switched out either to a pencil-box-file or a file-file configuration on units *28¾"*▲ high, but must be specified at the time of order and with an additional 5% upcharge to the list price.



Changing from pencil-box-file to file-file pedestal will eliminate the writing shelf (arm slide).

Special Sizes from Standard Offering

The following chart contains pricing for general modifications to Walden. **All modifications still must be approved by JSI manufacturing**, please contact Customer Service to verify any of the modifications listed in the chart below. More complex modification to standard product may be possible, please refer to page 4 for additional details.

This chart does not apply to glass doors, or to metal components; such as grill on doors and cornices. Any changes to file drawers will affect filing capabilities.

Increasing Dimensions - Add On to the list Per 6" Occurrence

Overhead	
Increasing width	$688
Increasing depth	$1176
Increasing width with doors	$816
Increasing depth with doors	$1260
Any Pedestal	
Increasing width	$978
Increasing depth	$872
Any Panel	
Increasing width	$221
Any Top	
Increasing width	$288
Increasing depth	$408

Decreasing Dimensions Add On to the list Per 6" Occurrence

Overhead	
Decreasing width	$224
Decreasing depth	$224
Decreasing width with doors	$308
Decreasing depth with doors	$308
Any Pedestal	
Decreasing width	$978
Decreasing depth	$872
Any Panel	
Decreasing width	$114
Any Top	
Decreasing width	$168
Decreasing depth	$168

Example 1
Increasing open corner credenza width by 11", from 86"to 97".
Add Top Width ($288 × 2) [$288 for each 6" increment]
Add Panel Width ($221 × 2) [$221 for each 6" increment]
Total Modification = $1,018

Example 2
Increasing a desk pedestal depth from 36" to 40" & increase the width of the same pedestal by 8"
Add Pedestal Depth $872
Add Pedestal Width ($978× 2) [$978 for each 6" increment]
Total Modification = $2,828

Example 3
Decreasing an overhead from 62" to 58" width & increasing the depth by 3"
Add Overhead Width $224
Add Overhead Depth $1,176
Total Modification = $1,400

Picture Frame Molding

Many Walden units, including desks, credenzas, and overhead storage, can be specified with picture frame molding. Desks feature this molding on the modesty panel, the back and side of the pedestal, and the outside of the end panel. Molding on the returns are located on the side and back of the pedestal. Credenzas have molding on the side of the pedestal and end panel only. Overhead storage features molding on wood doors only. For location of molding on reception station, see page 93 of the pricing section.

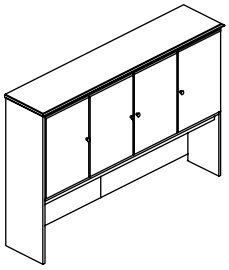
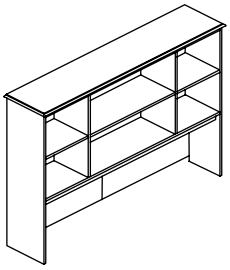
Walden Product Information

Storage Overhead Cabinet

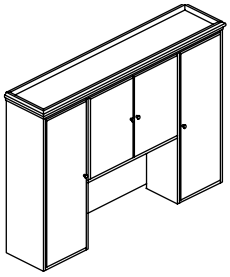
Overhead storage sizes range from 30" wide to 90" wide. Multiple variations, including wall mount overheads and open storage, are available.



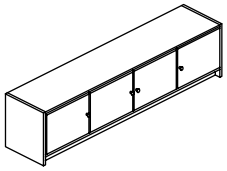
Storage Overhead Cabinet with Doors



Open Storage Overhead Cabinet



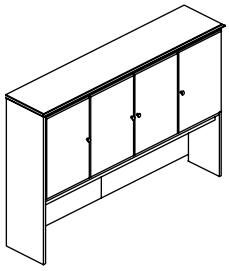
Open Storage Overhead Cabinet with Tower



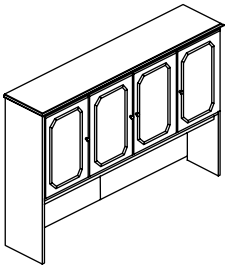
Wall Mount Overhead

Storage Overhead Cabinet Doors

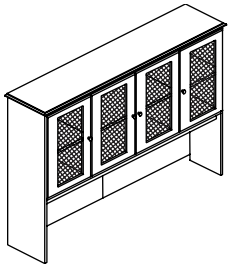
Door options for storage overhead cabinets and storage towers include wood doors (DWW) with or without picture frame molding, grill doors (DWM), and glass doors (DWC). Knobs may be either antique brass or pewter.



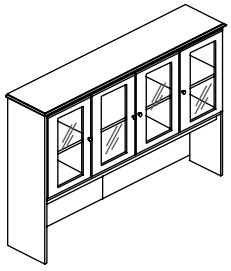
Wood Doors (DWW)
Standard



Wood Doors (DWW)
with Optional Molding



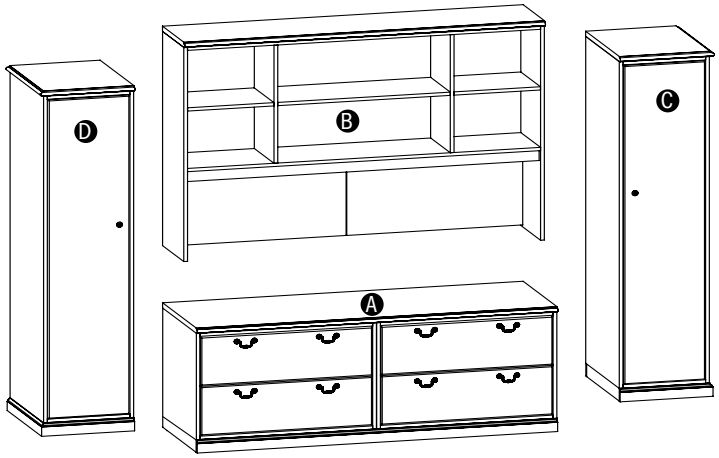
Grill Doors (DWM)



Glass Doors (DWC)

Flat Cut Options

Units can fit tightly together with flat cut rims that replace the top edge profile and base molding. Specify the flat cut options. (see example)



Example

- **A** WN2DST1-2574
  credenza flat cut on both sides (option code FB)
- **B** WN4BOO1-1674
  overhead flat cut on both sides (option code FB)
- **C** WN6ADS1R-2520
  wardrobe flat cut on the left side (option code FL)
- **D** WN6ADS1L-2520
  wardrobe flat cut on the right side (option code FR)

Must be specified at the time of order placement.

Walden Product Information

Drawer Options

Walden drawers are standard in baltic birch and available in an optional V-fold style. Refer to the pricing pages for the V-fold deduct.

Walden Product Information

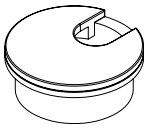
Worksurface Grommets

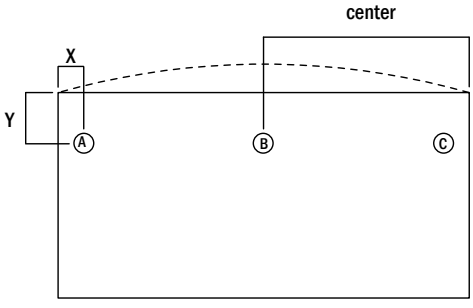


G3A - 2"
Antique Brass
G3B - 2"
Matte Black

Work Surface Grommet Locations

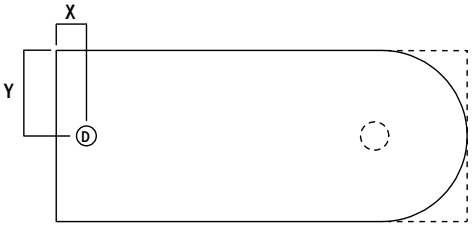
The optional grommet locations on the desk, run-off desk, bridges, credenzas and returns are predetermined on the Walden product. Grommet locations are indicated below with an (A) for left, (B) for center, (C) for right, and (D) for center end.

Pedestal Desk



X = 4½″
Y = 8¼″

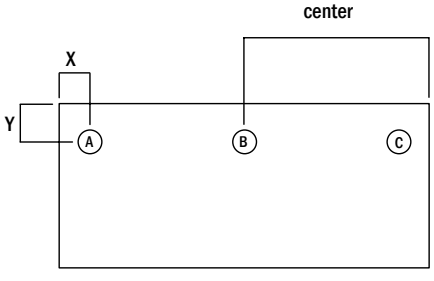
Support End and Run-Off Desk



X = 4½″ from connect end
Y = center

Bridges, Returns and Credenzas

Center grommet is not available on open corner lateral credenzas and lateral returns due to the location of the pedestal.



X = 4½″
Y = 5"

Note: Grommet not recommended over pedestal, contact Customer Service for other locations.

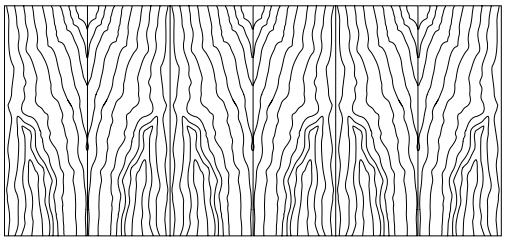
Wellington Product Information

Exterior Wood Materials
Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Wellington product line. To attain a pleasing, symmetrical pattern, all veneers in Wellington are book-matched. All exterior solid lumber is matched to coordinate with the veneer.



Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Wellington is available in flat cut cherry and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Work Surface Construction
Tops are 3-ply balanced construction, 1 3⁄16″ thick with solid matching hardwood edges.

Coordinating high pressure laminate in a veneer grain pattern can be applied to the top surface and is available at no additional charge.

Top can be routed to accept 3 piece leather inlay.

Case Construction
All construction is full mortise and tenon.

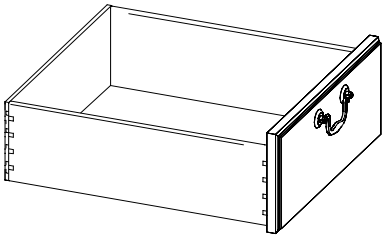
Some panels are 7⁄8″ and others are 13⁄16″ thick. All panels are 3-ply construction. End panels and pedestal back panels are mitered and lock jointed together on approach side of desk.

Pedestals are enclosed at bottom by a 1 1⁄16″ framed base platform, securely fastened to panels.

Arm slides are 3-ply construction, banded on all four sides with veneer.

Drawer Construction
All drawer fronts are 5-ply construction with a hardwood core. Veneer grain runs in a vertical direction. Drawer sides and backs are solid wood with top edges of sides completely rounded. Drawers are joined at front using a French dovetail and the back by an English dovetail. Veneered bottoms are framed into grooves on four sides and glued. All drawer interiors are finished with special toner and covered with a clear coat. Drawer bottoms are sanded and hand-rubbed.

All drawer bottoms are glued, stapled and reinforced with hand-fitted glue blocks.



Drawer Suspension
The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. All drawers, including file and box drawers, fully extend past the pedestal chassis allowing full access to the drawer box.

Filing Hardware
All file drawers are constructed with a custom designed filing system in place to allow for hanging folders. Filing diagram on pages 150-151.

Locking
Locking is standard in all desks, credenzas and modular units. Door locks are available as an option.

Units are shipped randomly keyed as standard. Key alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard.

Finish - Stain/Colors
We offer a variety of wood stains and paint colors on Wellington. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

CH1 Cherry *Flat Cut Veneer*

AUT	Autumn *(Autumn Cherry)*	EAR	Earthy
BRL	Barley	LGC	Legacy *(Legacy Cherry)*
BBN	Bourbon *(Natural Cherry)*	PRL	Praline *(Vintage Cherry)*
BRG	Brighton *(Brighton Cherry)*	SAF	Saffron *(Medium Cherry)*
CLA	Classic *(Classic Cherry)*		

WA1 Walnut *Flat Cut Veneer*

AUB	Auburn *(Windsor Mahogany)*	SIE	Sienna
ESP	Espresso	TOF	Toffee
MCH	Mocha	TRF	Truffle
NTO	Night Owl *(Vintage Walnut)*		

Protective Top Coat
DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features
Safety - Significantly reduces hazardous formaldehyde emissions, which help improve the quality of the of the indoor air we breathe.
Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.
Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Wellington Product Information

Product Modification

Laminate Tops
Worksurface only, no additional upcharge if Wellington's coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request. Listed below are finishes that have coordinating wood grain HPL laminates.

Cherry Finishes	Walnut Finishes
Autumn	*Auburn*
Barley	*Mocha*
Bourbon	*Night Owl*
Brighton	*Sienna*
Classic	*Toffee*
Legacy	*Truffle*
Praline	
Saffron	

Special Finishes
Special finishes can be requested by following the instruction in the general introduction section, page 3. There is a one time charge of $275 list per order.

Adjusting Sizes
All charges are to be added to the list price of the unit. All size adjustment need approval by JSI Engineering, contact Customer Service.

Re-size standard tops or bases (shorter or narrower)	$388
Flat cut or reverse shaped tops	$423
Modesty panels special lengths:	
Up to 40″	$588
40″ to 60″	$1,025

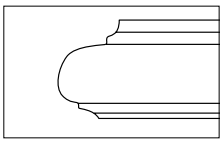
Wellington Product Information

Edge and Hardware

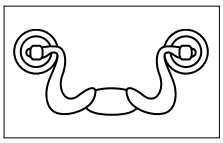
Wellington is available with the Federal Edge Profile and two hardware options. Each hardware is available in antique or burnished brass.

Edge Profile

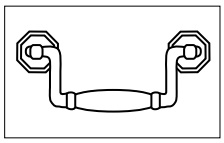


Federal Edge Profile
Accepts Laminate Top

Drawer Hardware



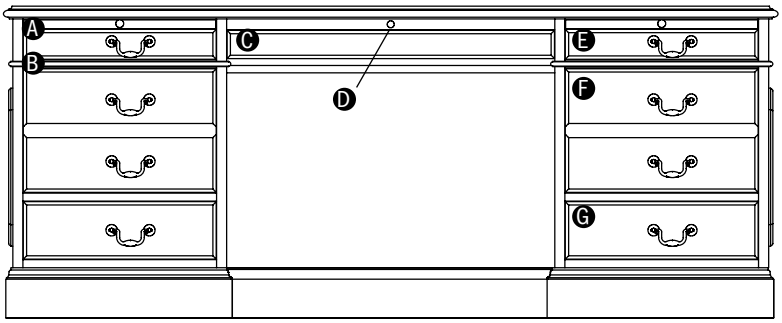
Wellington Hardware
Antique Brass (ANB)
Burnished Brass (BBR)



Windsor Hardware
Antique Brass (ANB)
Burnished Brass (BBR)

Drawer Pedestals

Wellington has unique construction on the pedestals as described below. Space does not allow for file-file configuration.

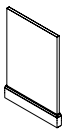


Pedestal Configuration

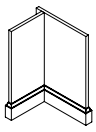
- **A** **Pedestal Writing Shelf**
- **B** **Horizontal Trim Molding** *(molding can be eliminated)*
- **C** **Center Drawer** *(with pen tray)*
- **D** **Central Locking** *(locks all drawers)*
- **E** **Top Tray Drawer**
- **F** **Center File Drawer** *(front made as two box drawers)*
- **G** **Lower Box Drawer**

End Support Components

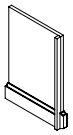
Wellington offers end support components that can be used with other modular items to create modular freestanding applications.
Note: Spans 48" or greater requires a support rail



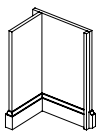
End Panel Support
PE8028
Use as support for modular credenza configuration



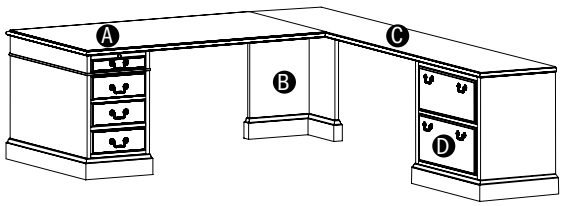
End L-Panel Support
PELF8028R *(right shown)*
Use as additional support for either freestanding credenza or when connecting run-off desk to modular credenza configuration.



End Panel Support
PE8028R *(right shown)*
Use as support for modular credenza configuration when connecting to a return or a bridge.

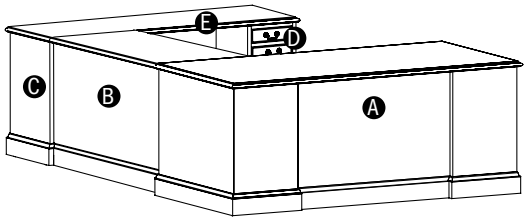


End L-Panel Support
PELF8028R *(right shown)*
Use as additional support for either for modular credenza configuration and connecting to return or bridge.



Example 1

- **A** PRR8066L *Run-Off Desk*
- **B** PELF8028L *End L-Support*
- **C** TU8091 *Modular Top*
- **D** FD8031N *File/File Pedestal*



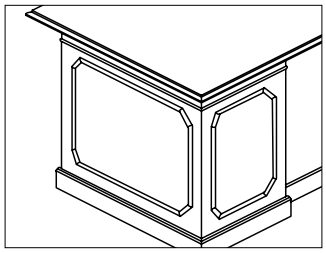
Example 2

- **A** SPR8066L *Single Ped. Desk*
- **B** EU8048 *Bridge*
- **C** PELF8028L *End L-Support*
- **D** F8020N *Box/Box/File Pedestal*
- **E** TU8066 *Modular Top*

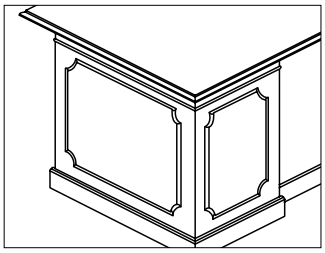
Wellington Product Information

Picture Frame Molding

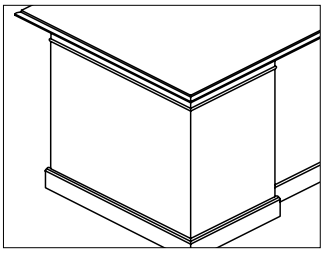
Wellington desks, credenzas and overhead storage may be specified with picture frame molding. Desks feature this molding on the back and side of the pedestal, and the outside of the end panel. Molding on the returns are located on the side and back of the pedestal. Overhead storage features molding on wood doors only. For location of molding on reception station, see page 159 of the pricing section.



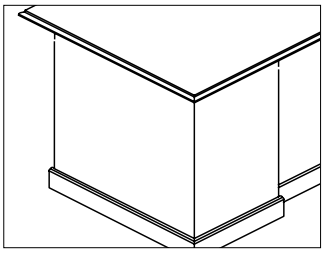
Wellington Molding
Use **WLM** pricing column



Westminster Molding
Use **WSM** pricing column



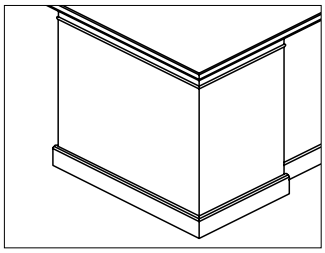
Windsor Molding
Use **WNM** in pricing column



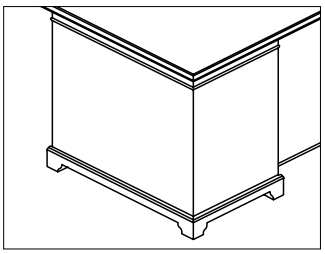
No Molding
WOM in pricing column (when available)

Base & Leg Options

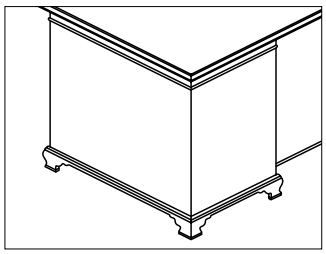
Wellington units feature a standard traditional style base molding. The Bracket Base and Georgian Feet are available on Wellington desks, credenzas and lateral files. Modesty panels on returns and bridges may be specified without base molding to coordinate with the Bracket Base and Georgian Feet styles. Table desks are standard with the fluted leg.



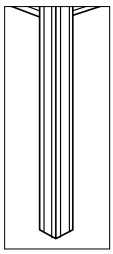
Standard Base



Bracket Base Option
Add $234 to list for double pedestal desks,credenzas and modular base units.
Add $158 to list for pedestal ends.



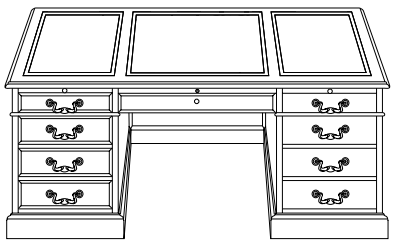
Georgian Feet
Add $531 to list for double pedestal desks.
Add $407 credenzas and modular base units. Up to 59" in length.
Add $531 to list for credenza and modular base units 60" and longer.



Fluted Leg

3-Piece Leather Inlay

The prestige of Wellington can be enhanced with a 3-Piece Leather Inlay with Gold Tooling, which may be added to the worksurface of any freestanding desk for a $2,272 upcharge to list price.



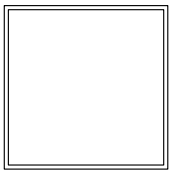
Wollsdorf Leather Options
FOC Earth
Euroglazed

Leather Inlay is limited to specific style and thickness of leather.
Call Customer Service for more information.
Visit jsifurniture.com for leather colors.

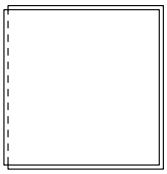
Wellington Product Information

Edge Shaping

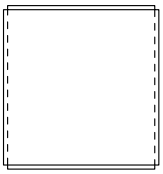
Freestanding desks and storage units such as credenzas and overheads are shaped all sides. Run-Off desks, returns, and bridges use a combination of shaped sides and reverse shaped sides.



Shaped All Sides
Freestanding Desks
Storage Units



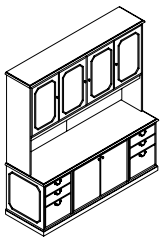
Shaped 3 Sides with Reverse Shape on Connecting End
Run-Off Desks and Returns



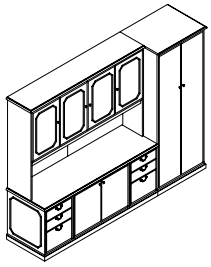
Shaped 2 Sides with Reverse Shape or Flat Cut on Connecting Ends
Bridges

Flat Cut Option

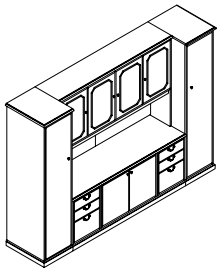
Storage units have the option to have the left, right or both sides flat cut to allow for flush alignment against other units. Handedness is determined when facing the front of the unit. See pricing pages for additional charges.



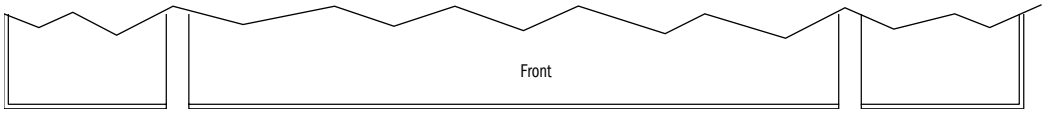
Shape Front and Both Side



Flat Cut



Flat Cut
(see details below)



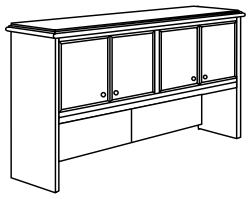
Flat Cut Right (FER)

Flat Cut Both Sides (FEB)

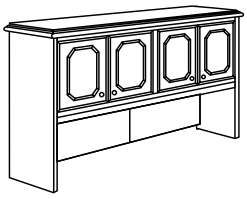
Flat Cut Left (FEL)

Picture Frame Molding

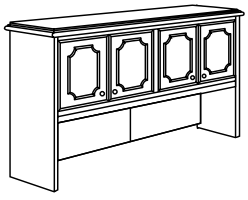
Door options for the BOS8069 overhead storage may be specified without molding (WOM), with Wellington molding (WLM), or with Westminster molding (WSM).



No Molding (WOM)
Standard



Wellington Molding (WLM)
Add $315 to the list price

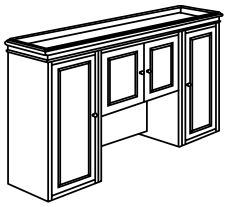


Westminster Molding (WSM)
Add $315 to the list price

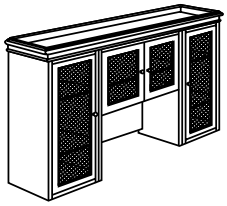
Wellington Product Information

Door Styles

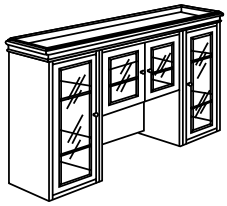
Door styles for overhead storage units are determined by the specific model number and include wood doors with inset detail, grilled doors, and beveled glass doors. Open storage units without doors are also available.



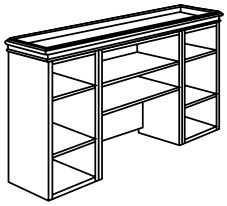
Wood Doors
with Insert Details



Grilled Doors

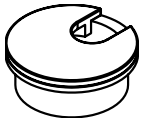


Glass Doors



Open Storage

Worksurface Grommets



G3R - 2"
Burnished Brass
G3A - 2"
Antique Brass

Worksurface grommets are standard on bridges, returns and corner desks. Additional worksurface grommets can be specified on desks, credenzas, and other types of veneer/laminate worksurfaces. The grommet location must be approved by JSI manufacturing, contact Customer Service.

Add $75 to the list for each additional grommet.

- UL listed component
- Black or Silver finish

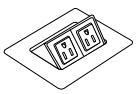
Mini Power Tilt Up	4 1/4	5 1/2		6	1	**EC11**	**$579**



- fluid one touch tilt up access
- two power receptacles - 120 volt; 15 amp
- 72″ power cord with molded plug
- drop in field installation required
- cut out provided in top at specified location (see page 203)
- UL listed component
- Black or Silver finish

Mini Power and USB Tilt Up	4 1/4	5 1/2		6	1	**EC12**	**$408**

- fluid one touch tilt up access
- one power receptacle - 120 volt; 15 amp dual powered USB
- 72″ power cord with molded plug
- drop in field installation required
- cut out provided in top at specified location (see page 203)
- UL listed component
- Black or Silver finish

To Order, Specify:
❶ Model number

Description	D	W	H	CTN WT	CU FT	❶ Model	List Price
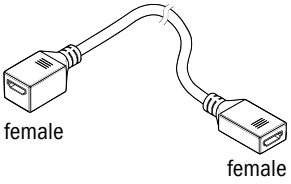
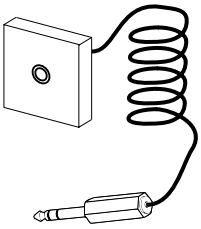
HDMI Connector						**TCP301**	**$79**



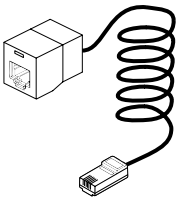
- HDMI coupler
- 18″ cord
- female to female connection

Mini Stereo Jack						**TCP302**	**$21**



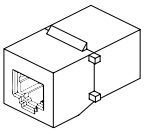
- 3.5 mm Mini Stereo Jack
- 10 foot cord
- female to male connection

Network Jack						**TCP303**	**$71**



- Cat5e RJ-45 Panduit Jack
- Pre-terminated
- 9 foot cord
- 8-Pin

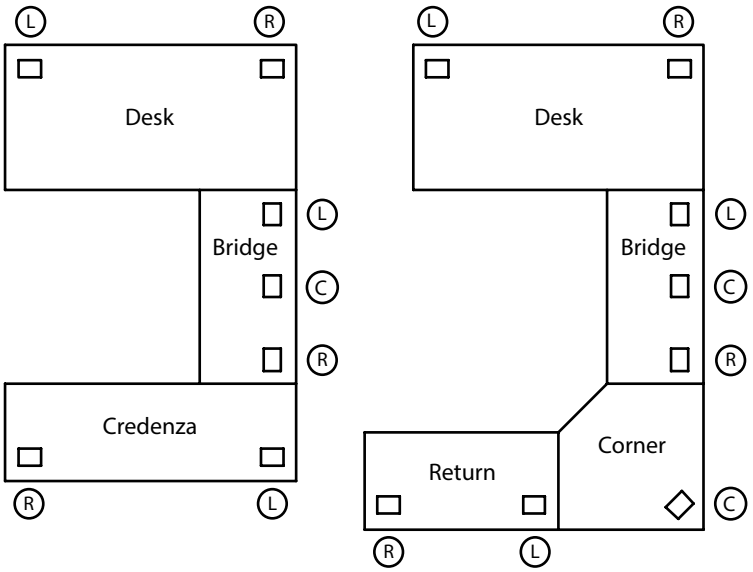
Voice Coupler						**TCP304**	**$71**



- AMP Category 3, RJ-11
- 6-Pin
- connects to standard phone cord

To Order, Specify:
❶ Model Number

Standard casegoods cut out locations:



- Specify - Location when ordering on desk, return, computer corner, bridge and credenza - please provide drawing.
- Computer corner units - power/data replaces grommet.
- Standard power and data unit locations are indicated from user side of desk, return, computer corner bridge or credenza.

NOTE: Verify fit of data jack in adapter before ordering large quantities as manufacturer designs may change without notice

Data Adapter Applications

Data adapter kits ship with each power and data unit.

Adapter plates are marked on the back with letter designators to indicate the data jack manufacturer, series and style. Websites are listed below for quick reference to verify data jack series or style.

NOTE: Verify fit of data jack in adapter before ordering large quantities as manufacturer designs may change without notice.

Description	D	W	H	CTN WT	CU FT	❶ Model	List Price
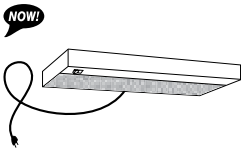
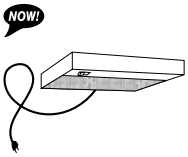
48″w Task Light	4½	48	1½	6	1	**48T5L**	**$352**



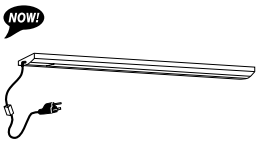
- use with overhead cabinets 60″ wide and larger
- uses slim energy-efficient T5 - 3500k lamp (included)
- two position on - off switch
- prismatic lens with electronic ballast
- ETL listed component
- factory installation optional (no additional charge); please specify unit where light is to be installed

24″w Task Light	4½	24	1½	4	1	**24T5L**	**$243**



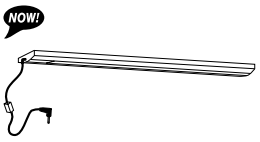
- use with overhead cabinets 30″ wide and larger
- uses slim energy-efficient T5 - 3500k lamp (included)
- two position on - off switch
- prismatic lens with electronic ballast
- ETL listed component
- factory installation optional (no additional charge); please specify unit where light is to be installed

31″w LED Starter Task Light	2	31	½	4	1	**TL31LED-S**	**$560**



- use with overhead cabinets 42″ wide and larger
- slim energy-efficient stand alone or starter LED lamp
- soft touch switching with instant on to fade way off
- infinite dimming with last state memory (dimming range 100% to 15%)
- automatic time off after 10 hours
- includes power supply
- ETL listed component
- GSA compliant
- factory installation optional (no additional charge); please specify unit where light is to be installed

31″w LED Linking Adder Task Light	2	31	½	4	1	**TL31LED-A**	**$494**



- use with overhead cabinets 42″ wide and larger
- slim energy-efficient LED lamp for linking to a starter task light
- string may contain 1 starter with up to five adders
- soft touch switching with instant on to fade way off
- infinite dimming with last state memory (dimming range 100% to 15%)
- automatic time off after 10 hours
- includes power supply
- ETL listed component
- GSA compliant
- factory installation optional (no additional charge); please specify unit where light is to be installed

Specification information shown at right.

Need it. NOW! *JSI Quickship*

ACCESSORIES

Description	D	W	H	CTN WT	CU FT	❶ Model	List Price
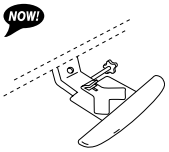
Keyboard Clamp with Wrist Rest	10 1/2	20 1/2	3	4		**AK1**	**$401**

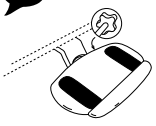


- clamps hold keyboard in place
- single soft touch knob provides clamping adjustment for both height and tilt
- compatible with MT1 Clamp Mouse Pad only

Keyboard Clamp Mouse Pad	8	8	1/4	4		**MT1**	**$144**

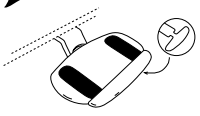
- adjusts for user comfort
- 8″ x 8″
- for left or right hand operation
- compatible with AK1 Keyboard Clamp only

Articulating Keyboard Tray	11	23	3	11		**AK2**	**$423**



- single soft touch knob provides clamping adjustment for both height and tilt
- platform has injection molded construction with non skid pads to prevent keyboard movement
- compatible with MT2 Mouse Pad

Articulating Keyboard Tray	11	23	3	11		**AK3**	**$469**



- one touch spring assist adjustable mechanism with 18″ track
- platform has injection molded construction with non skid pads to prevent keyboard movement
- compatible with MT2 Mouse Pad

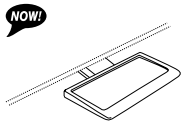
Keyboard Tray Mouse Pad	8	8	1/4	2		**MT2**	**$144**

- adjusts for user comfort
- 8″ x 8″
- for left or right hand operation
- compatible with AK2 and AK3 Keyboard Tray

Specification information shown at right.

Description	D	W	H	CTN WT	CU FT	❶ Model	List Price
Keyboard Drawer	14	22 1/2	3 1/2	9		**AK4**	**$502**

NOW!



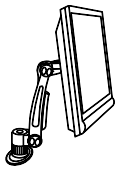
- for use with 48″ return
- requires a minimum of 24″ clearance side to side
- one touch spring assist adjustable mechanism with 18″ track
- compatible with MT4 Mouse Pad only
- wood tray requires finish selection; see component finishes for selection

Keyboard Tray Mouse Pad	8	8	1/4	2		**MT4**	**$144**

NOW!

- adjusts for user comfort
- 8″ x 8″
- for left or right hand operation
- compatible with AK4 Keyboard Drawer only

Monitor Support Arm	12	6	17	9		**AMA3B**	**$441**



- 360 degree swivel
- adjusts height, tilt and distance of monitor screen to user
- integrated cable management
- grommet and edge clamp mount included
- black finish
- monitor not included
- will fit monitors made to the VESA standard of 75 mm or 100 mm hole spacing in a square configuration

Contemporary / Transitional - Conference & Meeting Room Product

Apogee™ Product Information

Apogee™ Product Information

Wood Materials
Exterior surfaces are made from the finest selected veneers. Matching solid lumber wood species are used to coordinate with the veneer. High quality MDF is used on the painted surfaces.

Apogee™ is available in quarter cut Walnut, quarter cut Maple, quarter cut Makore or Double Cut veneer.

Exterior Metal Materials
A custom shaped extruded anodized aluminum pull is used on the drawers and doors. The thin profile glass door frame is also anodized aluminum, along with the valance rail used with task lights on overheads.

Leg and Post frames are fabricated steel tubing finished with a Bright White or Arctic Silver powder coat. Shelf dividers, wire dividers, and other metal trims are fabricated and finished in a matching Silver powder coat.

Metal Finishes

ASL	Arctic Silver	BWH	Bright White

Worksurface Construction
All tops are 1 3⁄16″ thick with 3-ply construction and trimmed off with matching 1.5mm rims. Worksurface tops are only available in the Apogee™ veneer options. Requests for laminated tops will need to be reviewed for approval, contact Customer Service.

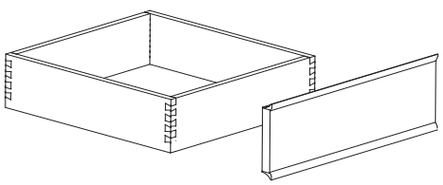
Case Construction
All cases are constructed with mortise, tenon, and dowels. Interior cases are reinforced with glued cleats and screws. Panels for cases are normally ¾″ thick with 3-ply construction. All pedestals have enclosed bottoms.

Plinth style bases are attached directly to the bottom of the cases. The metal glide housing inside the base provides for accurate leveling. Front and back glides in drawer pedestals can be adjusted up and down by removing the lower drawer and using the glide access hole located in the bottom of the case.

Cabinet doors have 110° swing hinges to allow adequate access into cabinets. Hinges are fitted with a soft close device, requiring only a soft push to close the door. Units taller than 18″ are fitted with an adjustable shelf.

Drawer Construction
Drawers are assembled using a four corner dovetail box and ¾″ thick drawer bottom panel construction. The exterior front is attached separately. Sides and backs are approximately ½″ thick solid hardwood. Drawer components have a UV finish to protect against shrinking, swelling, or warping and to provide a clean smooth feel and appearance. Lateral files have reinforced bottoms.

The exterior front panel is 3-ply and ¾″ thick. The front is attached to the assembled drawer box. The anodized aluminum pull runs along the top or bottom edge of the drawer front.



box drawer and front with pulls (middle drawer)
wood drawer box - DRW

Drawer Suspensions
Suspensions are black and carry a lifetime warranty. File and Box drawers have 100% full extension with over travel. Slides feature steel ball bearings for longer wear. Suspensions on utility, box and file drawers have a soft close device, allowing for an effortless closing of the drawer.

Filing Systems
All drawers intended for filing come with clips and metal stretchers to accommodate hanging folders.

Finish - Stain/Colors
We offer a variety of wood stains and paint colors on Apogee™. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

Protective Top Coat
DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features
Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the indoor air we breathe. Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood. Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Apogee™ Product Information

Product Modification

Laminate Tops
Work surface only, no additional upcharge if coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request.

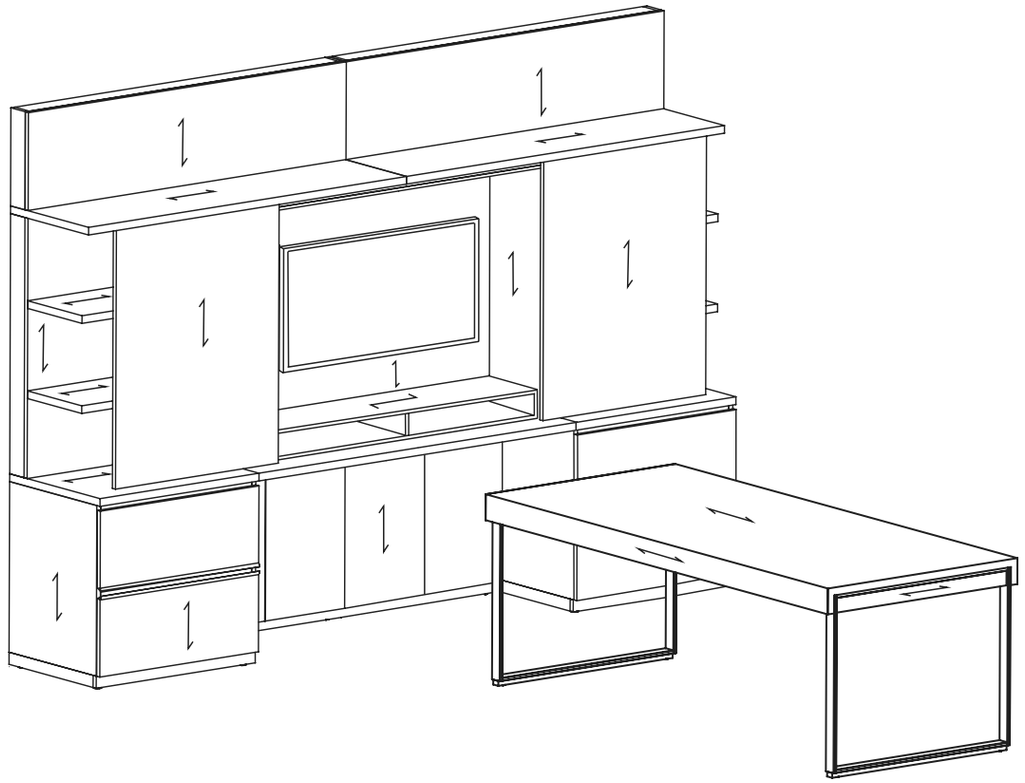
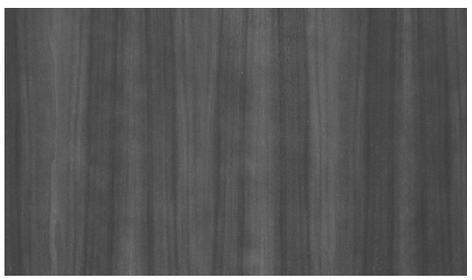
Special Finishes
Special finishes can be requested by following the instructions in the general introduction section, page 3. There is a one time charge of $275 list per order.

Special Top Sizes and Cabinets
Apogee offers a large offering of products to create a perfect meeting room. Contact Customer Service if you are having trouble finding the right units to complete the desired configuration. Special sizes and cabinet variations need to be approved by JSI engineering.

Apogee™ Product Information

Quarter Cut Veneer Grain Direction



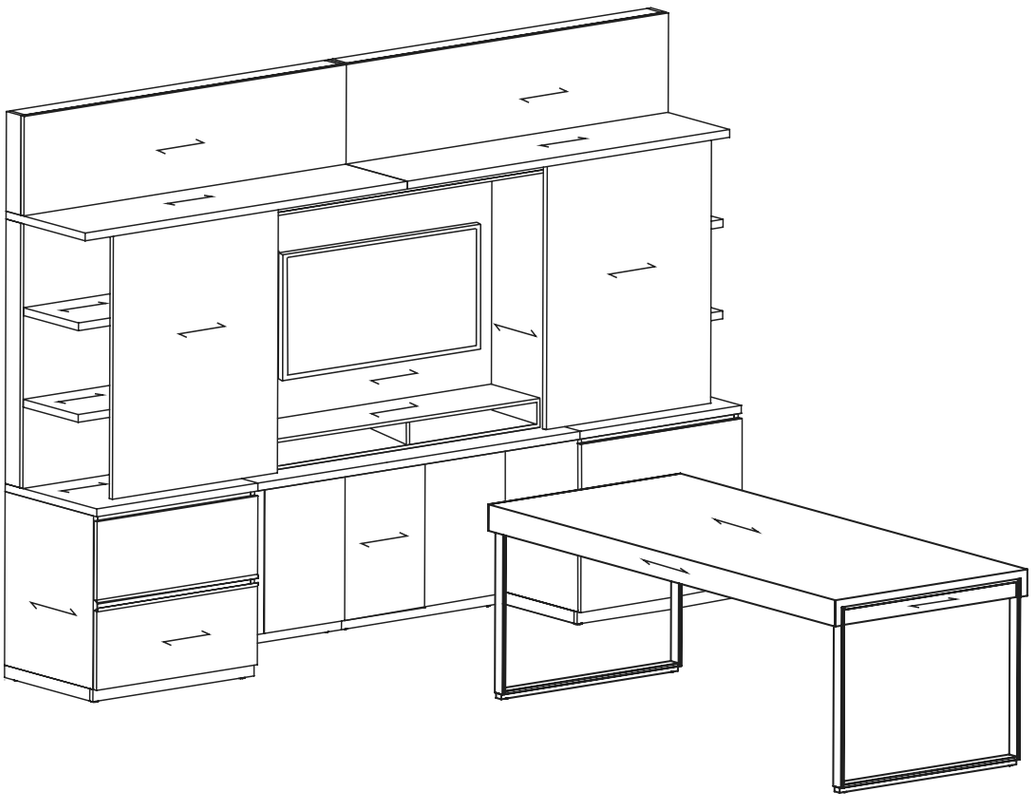


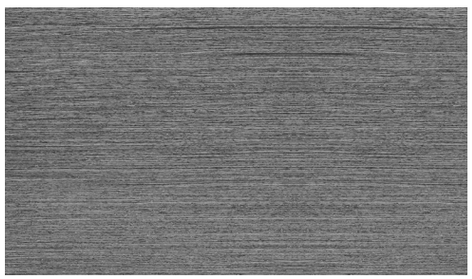
Quarter Cut Veneer
Standard direction for quarter cut veneer on Apogee™ is vertical.

The log is cut into quarters prior to slicing. This method bisects annual growth rings and results in a straight grain or ribbon-striped appearance.

Apogee™ Product Information

Double Cut Veneer Grain Direction



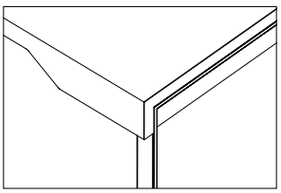


Double Cut Veneer
Standard direction for double cut veneer on Apogee™ is horizontal.

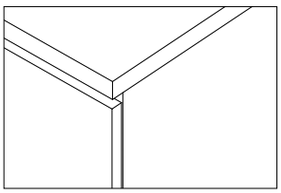
This veneer uses multiple layers of thin wood which is re-assembled, then re-cut in a factory, under controlled specifications. The veneer used in our program is a uniform straight grain pattern and is pre-stained for color consistency.

Apogee™ Product Information

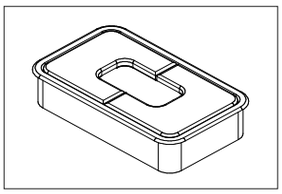
Corner Profiles and Grommet



corner of an open frame end table

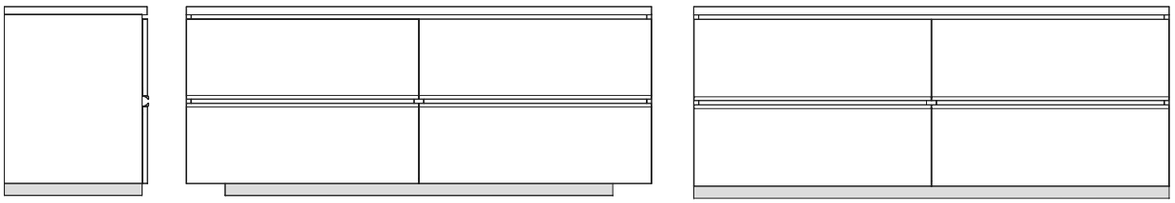


front corner of a credenza top

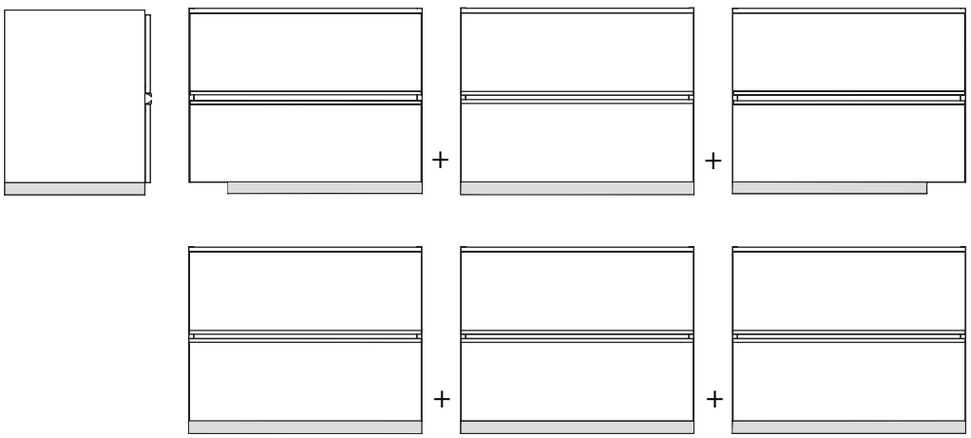


standard worksurface grommet

Base Details



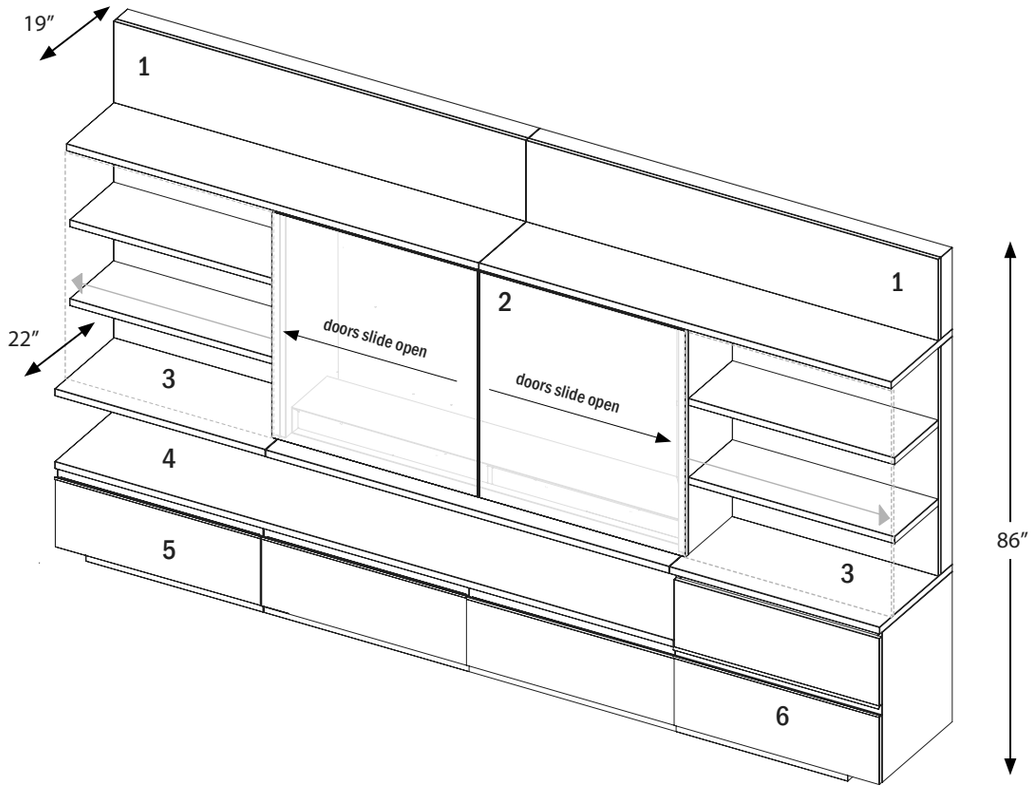
Stand alone laterals and credenzas are available with either a 6" inset base or a flush base; all have a ¾" inset on the front base.



Modular units, storage cabinets, and wardrobes with bases are available with left inset, flush, or right inset.
Inset bases on the sides are 6", all have the front inset ¾".
**** Specify the correct models to create the desired aesthetics.*

Apogee™ Product Information

Workwall Components

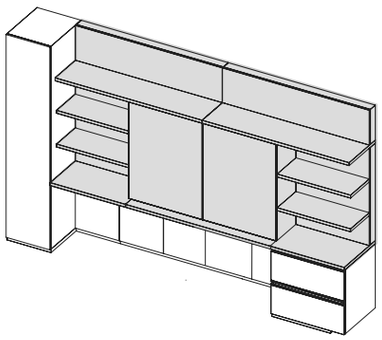


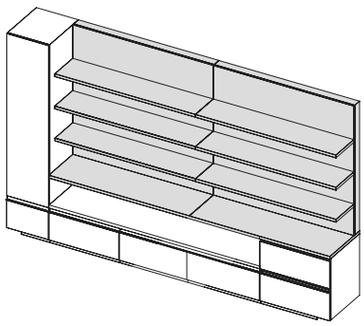
Workwalls can be specified with Open Shelves or Workwall with Work Centers solutions

One height & one depth of workwall
Left and Right End Section specified as a set
Tops are included with each section of workwalls components

1. **Sections of Workwall**
   Doors available in veneer finish, paint, or back painted glass with or without magnetic feature. Wall attachment required.
2. **Workcenter**
   Five different configurations: shown monitor center, refer to casegood volume 1, price book for additional configurations.
3. **Tops (included with Workwall components)**
4. **Partial Wall Access Panel**
   Tops included with some units.
5. **Low Storage: One-High Lateral File**
6. **Low Storage: Two-High Lateral File**

Additional Layouts

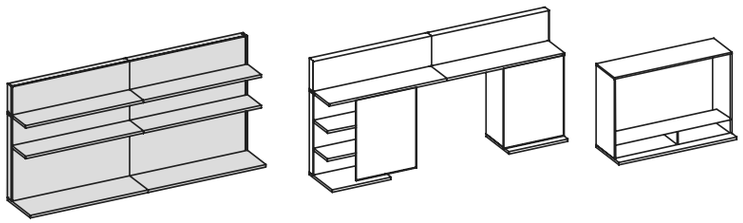




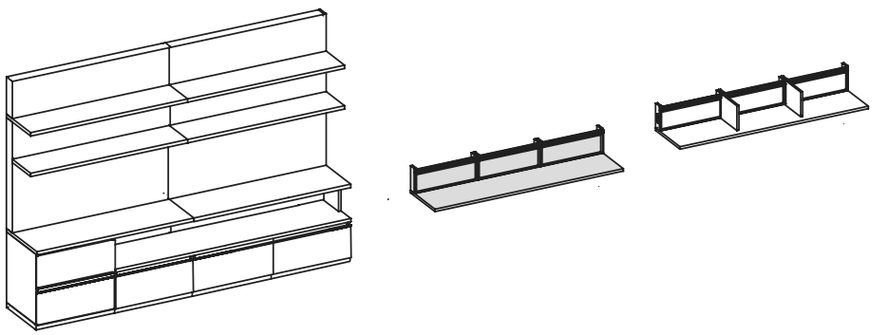
Apogee™ Product Information

- **1** Select an overall layout style.
  Consider the overall width, Workwalls are available in 144″ or 120″ widths.

- **2** Choose the workwall, either full open shelves or units with an open center section and doors. When choosing the units with doors you must also select a workcenter, this is required and is specified as a separate model.

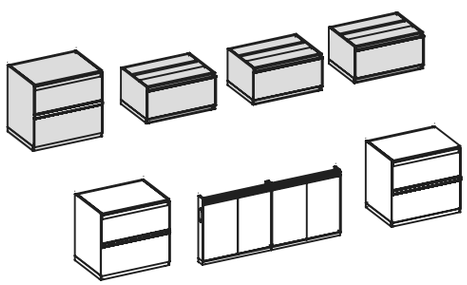


- **3** If using one-high storage/lateral, select the correct kneespace access unit.
  If side units such as wardrobe cabinets flank the workwall use the unit without the built in support extensions.



Note: These units are only needed when NOT using a workwall and without adjacent storage support

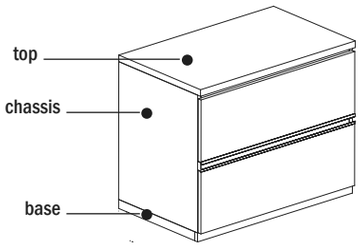
- **4** Choose the lower units to complete the workwall.



JSI

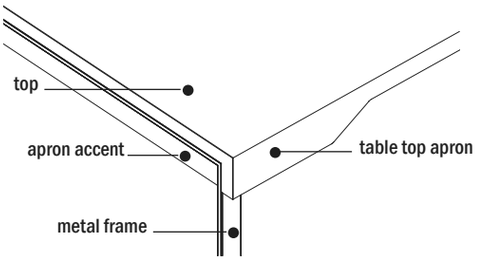
Apogee™ Product Information

Finish & Paint Scheme
(see page 28 for list finish options)



tops - veneer only
chassis/drawer fronts - veneer or paint
base - must match either top or chassis

can only choose one veneer finish and one paint per unit



top and table top apron - veneer only
accent apron - veneer or paint
metal frame - arctic silver or bright white

can only choose one veneer finish and one paint per unit

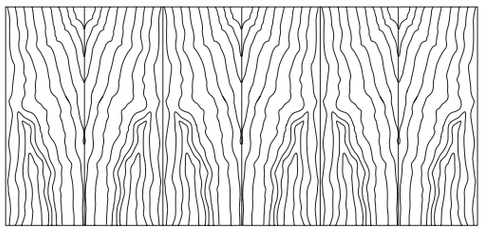
Broadway Conference Product Information

Broadway Conference Product Information

Exterior Wood Materials
Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Broadway product line. To attain a pleasing, symmetrical pattern, all veneers in Broadway are book-matched. All exterior solid lumber is matched to coordinate with the veneer.



Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Broadway is available in flat cut cherry, maple and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

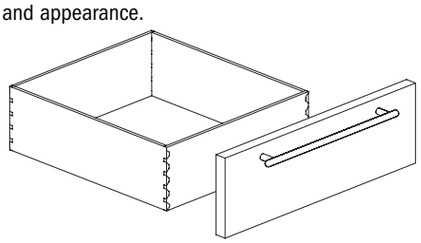
Solid painted finishes on the veneer are also offered to provide an accent to the Broadway product.

Work Surface Construction
Tops are 5-ply balanced construction, 1 ½" thick with solid matching hardwood edges.

Matching or coordinating high pressure laminate in a veneer grain can be applied to the top surface and is available at no additional charge.

Case Construction
Outside panels are 13⁄16" and joined together by mortise and tenon construction. In addition to mortise and tenon joint construction, pedestal joints are reinforced with screws, cleats, brackets and glue. Leveling glides are set into solid hardwood blocks with t-nut inserts, which helps to prevent the leveling glide from tear out. Tops are secured to the chassis with top fastening cleats screwed to the inside of the panels.

Drawers
The 9ply unidirectional hardwood sides of the drawer box are 7⁄16" thick assembled with English dovetail construction at each corner of the box. The drawer bottom panel is ¼" thick fitting into a groove machined into the side of the box. Interiors are sanded and coated with clear U.V. finish to protect against shrinking, swelling or warping, and to provide a clean, smooth feel and appearance.



Drawer Suspension
The high quality black drawer suspensions carry a lifetime warranty. Slides feature steel ball bearings for longer life with cushioned in/out stops. File and box drawers have 100% full extension with over travel.

Finish - Stain/Colors
We offer a variety of wood stains and paint colors on Broadway. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

CH1 Cherry *Flat Cut Veneer*

AUT	Autumn *(Autumn Cherry)*	EAR	Earthy

Protective Top Coat
DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features
Safety - Significantly reduces hazardous formaldehyde emissions, which help improve the quality of the of the indoor air we breathe.
Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.
Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Product Modification

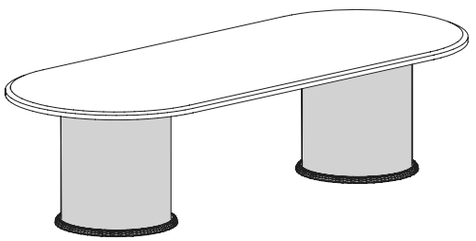
Laminate Tops
Worksurface only, no additional upcharge if coordinating wood grain laminate is specified. Contact Customer Service for any other laminate request. Listed below are finishes that have coordinating wood grain HPL laminates.

Cherry Finishes	Maple Finishes	Walnut Finishes
Autumn	*Ale*	*Auburn*
Barley	*Cinnamon*	*Mocha*
Bourbon	*Venetian*	*Night Owl*
Brighton		*Sienna*
Classic		*Toffee*
Legacy		*Truffle*
Praline		
Saffron		

Special Finishes
Special finishes can be requested by following the instruction in the general introduction section, page 3. There is a one time charge of $275 list per order.

Finish Sheen Modification
Finish sheen can be modified on the worksurface tops. There is a 15% upcharge added to the list of each item.

Two-Tone Finish
Units specified in a two tone finish (either two different paint finishes or a paint finish and wood stain) requires approval with an upcharge of 8% to the list price. Color paint finishes are formulated for maple veneers and are not available on any worksurfaces.



Oak Veneer
Upon request veneer can be changed from the standard offering to oak flat cut veneer with an additional 40% upcharge to the list of each item.

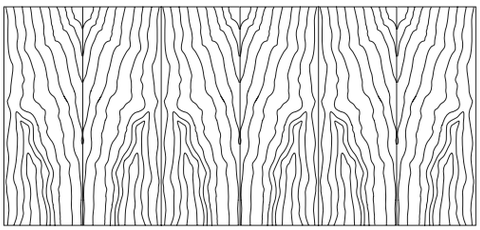
Collective® Conference Tables Product Information

Collective® Conference Tables Product Information

Exterior Wood Materials
Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Collective® Conference product line. To attain a pleasing, symmetrical pattern, all veneers in Collective® Conference are book-matched. All exterior solid lumber is matched to coordinate with the veneer.



Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book.

Collective® Conference is available in flat cut cherry, makore, maple, and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Anegre veneer is a premium veneer choice and is quarter cut to have a figure cut (fiddle back) pattern. There is a 15% upcharge applied to the list for Anegre veneer.

Solid painted finishes on MDF are also offered on bases, drawer and door fronts to provide an accent to the Collective® Conference product.

Work Surface Construction
Tops are 5-ply balanced construction 1½" thick with solid matching hardwood rims.

Tops are available in wood veneer, applied glass or laminate surfaces. No additional charges for laminate when selecting standard coordinating laminate as listed on the top of the next page.

Chassis Construction
The chassis consists of cherry, makore, maple or walnut book-matched veneer. Mortise and tenon construction. Adjustable leveling glides ensure proper leveling of unit.

Extruded Aluminum Components
Telescopic Feet, Edge Trim Rails, Center Console Components, and Spacers all are made from an alloy aluminum compound, made up of 10% post consumer scrap, 60% post industrial scrap and 30% primary aluminum. The aluminum meets or exceeds the guidelines of USGBC – LEED V2.2. The parts are precisely machined and then processed in a clear anodized finish for a natural aluminum appearance.

Fabricated or Casted Metal Components
Base Trims, Base Pans, Scones and Wire Pans are made up of high grade metals. The metal is laser cut, bent to shape and robotically welded to the exact specifications, polished and powder coated to blend with the anodized aluminum.

Finish - Stain/Colors
We offer a variety of wood stains and paint colors on Collective® Conference. Please see the chart below. Samples are available upon request, through our website or by contacting Customer Service. Former finish names are listed in parentheses for reference.

Protective Top Coat
DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features
Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the of the indoor air we breathe.
Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.
Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

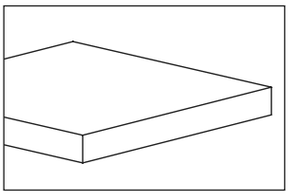
Special Top Sizes and Cabinets
Collective® Conference offers a large offering of table tops shapes and sizes, along with the Collective® Presentation products to create a perfect meeting room. Contact Customer Service if you are having trouble finding the right units to complete the desired configuration. Special sizes and cabinet variations need to be approved by JSI engineering.

Collective® Conference Tables Product Information

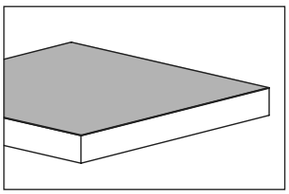
Top Edge Profiles

Collective®Conference offer two edges profiles, along with optional details.



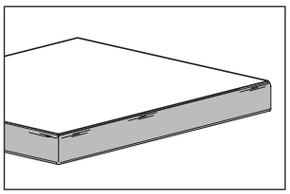
Straight Edge - Veneer

Standard on conference tables and casegoods products.



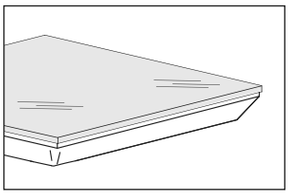
Straight Edge - Laminate

Straight edge with laminate surface available for conference tables and casegood products. See page 73 for standard wood grain laminate.



Aluminum Trim Edge Detail

Aluminum trim edge available only on rectangular shape conference tops. The trim edge is finished in clear anodized finish.

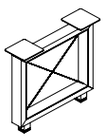


Thin Profile Edge - Glass

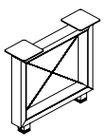
Reverse Bevel edge is available with back painted bright white glass with either a shiny or matte surface. Available only on conference table tops.

Base Types

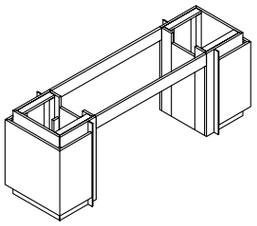
Collective®Conference offers four base styles: open cable, closed cable, panel and rectangular.



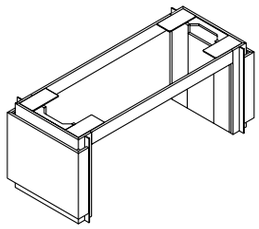
Open Cable Base



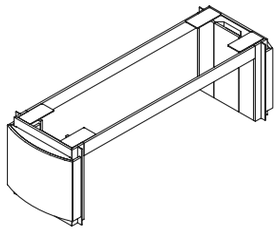
Closed Cable Base



Rectangle Base with Apron Rails



Panel Base with Apron Rails



Arc End Base with Apron Rails

Foot/Plinth Style Base

Collective Conference Open Cable Base and Casegoods features an anodized aluminum foot. For a more classic feel, units may be specified with a wood plinth style base. Rectangle, Panel and Arc End Bases are available only with a plinth base.

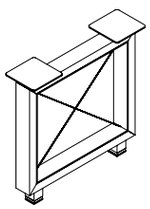
This shape top is only available with bases

Open Cable Bases

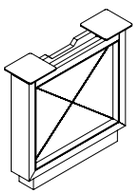


The open cable base features a 13⁄16″ X-shaped stainless steel cable accent. Open cable bases provide no wire management compartment. The outer frame is wood with a metal inner frame in silver powder coat. Telescopic feet provide 1½″ leveling adjustment.

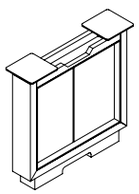
Configured tables with cable bases in this price lists include support rails for the top.

When specifying cable bases and tops separately, support rails may need to be included. Call Customer Service for more information.

Closed Cable Bases



Outside Base
side 1 (approach)



side 2

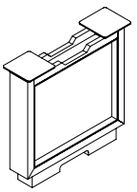
Closed cable bases include a hinged door compartment and plinth base for wire management.

The outside closed cable base features a visible 13⁄16″ X-shaped stainless steel cable accent on the side opposite the hinge door. Wires pass through an opening above hinged doors. The base is wood with a metal sliver powder coated inner frame.

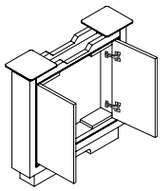
The middle closed cable base features a wood panel on the side opposite the side hinged door. Wires pass through an opening at the top of both sides.

Configured tables with cable bases in this price lists include support rails for the top.

When specifying cable bases and tops separately, support rails may need to be included. Call Customer Service for more information.



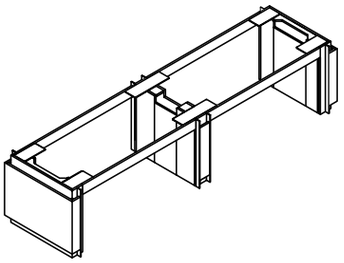
Middle Base
side 1



side 2

Collective® Conference Tables Product Information

Panel Bases

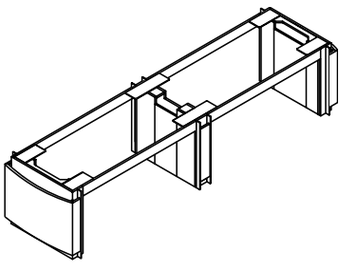


The panel base features slim wood pedestals surrounded by a wood accent. Each pedestal has a hinged door for wire management access and features a silver powder coat metal fin detail.

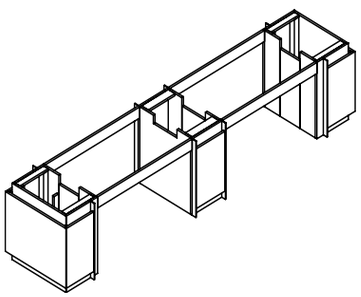
The panel base is standard with rectilinear end bases. Arc end bases may be specified as an option.

Arc End Bases

(an option to the panel base)



Panel Bases



The rectangular base features wide wood pedestals surrounded by a wood accent. Each pedestal has a hinged door for wire management access, an ample storage compartment, and features a silver powder coat metal fin detail.

Collective® Conference Tables Product Information

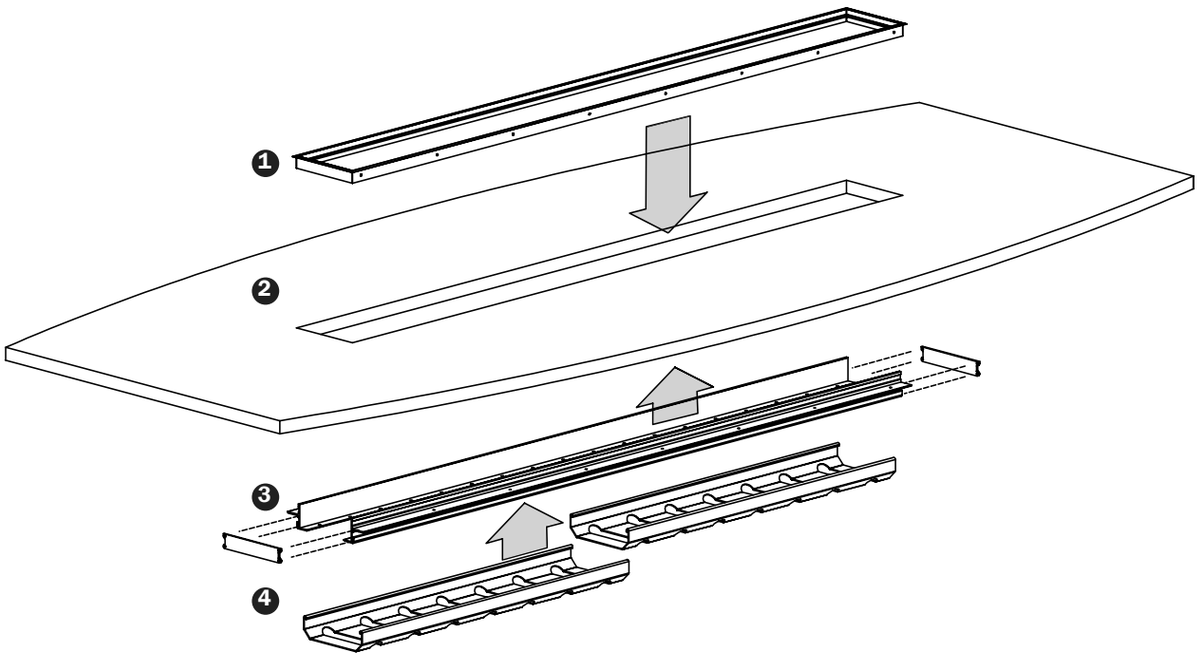
Center Console Overview

The continuous center console supports a variety of functional and aesthetic options. A Collective®Conference table with center console includes: the center spine assembly which houses 4″, 8″, 12″ and 16″ modules, ordered separately, the understructure of the console, and wire management tray as illustrated below.



1 Center Spine Bezel Assembly
The center spine bezel assembly accepts the 4″, 8″, 12″ and 16″ modules shown on pages 81, 156-157 of the pricing section of this price list.

2 Table Top
Tops are available in several shapes including rectangular, racetrack, ellipse, arc end, boat and view. They come with or without center console.

3 Center Spine Structural Extrusion Assembly
When a table with center console is specified, the center spine structural extrusion assembly is attached to the underside of the table top.

4 Wire Management Tray
When using power/data and lamp modules, the wire management tray channels the cords to the panel or rectangular bases.

Order Check List:

Specify:

- ☐ 1. Model Number
- ☐ 2. Finish Scheme/Color (see pages 77 & 78)
- ☐ 3. Wood Species - cherry - makore - maple - walnut - anegre (15% upcharge to list applies)
- ☐ 4. Top Options - standard veneer - laminate surface (see page 74) - back painted white glass (shiny or matte surface)
- ☐ 5. Aluminum Trim (rectangle tops only) - ***if applicable***
- ☐ 6. Console Insert Accessories - ***if applicable - order items separately***
- ☐ 7. Other Product Options
- ☐ 8. Power and Data Accessories (*drawing showing location and orientation must accompany order)*
- ☐ 9. Side Mark Information *(i.e. room number, East Conference Room)*
- ☐ 10. Shipping Address *(contact name and phone number)*
- ☐ 11. Special Delivery Instructions *(i.e. call before delivery, deliver to job site)*
