Evalution: Bids will be evaluated in accordance with Article I-17 of the "Instructions, Terms and Conditions for Bidding". In addition, the bid will be evaluated according to the fee per pound for processing the specified product. There will be a taste test of the samples submitted to determine acceptability. There will be a minimum, ten (10) member panel composed of members of the Office for Child Nutrition staff, members of the ODE Commodity Advisory Board and/or students in Ohio. Samples will be evaluated as earlier described. If the product is deemed unacceptable as a result of the taste test, no further consideration for award shall be given. If the product sample submitted for the taste test exceeds the specifications as stated inthe bid and is presented as being the end product for the entire contract, then the sample shall be the standard for the entrie contract with anticipated yields as projected and costs as stated.

Contract Award: The contract will be awarded to the lowest responsive and responsible bidder meeting all bid specifications and requirements by low lot total. Low lot total will be determined by multiplying the unit price for each item by the minimum yield per truckload of raw commodity for that tiem and then muliplying that figure by the number of truckloads of raw commodity to be processed annually in order to obtain a line item extended price. The line item extended prices will be added to obtain a low lot total. Failure to bid on all items may result in the bidder being deemed non-responsive.
