Ohio | Department of Medicaid

John R. Kasich, Governor
John B. McCarthy, Director

June 1, 2016

Dear Vendor:

The Ohio Department of Medicaid (ODM) releases this Request for Information (RFI) for the purpose of gathering information for a Medicaid Information Technology Architecture (MITA) 3.0 Tracking System. We are looking for an existing product that also has service and support included. It should be an out of the box, Commercial Off-The-Shelf (COTS) product that can be configured to our specific needs. The MITA tracking system will assist ODM in updating its MITA 3.0 State Self-Assessment (SS-A) as well as allow ODM to prioritize new projects and initiatives based on quality measures, alignment with Centers for Medicare and Medicaid Services (CMS) Seven Conditions and Standards and potential enhanced Federal Financial Participation FFP opportunities.

The depth of knowledge and experience present in the collective stakeholder community provides an excellent opportunity to gather relevant and valuable information to help inform the development process connected with this project. This RFI is only the first significant effort to reach out to and draw on that expertise.

Please be advised as well that the contents of your response will be considered public information and will be made available upon request by interested parties. If you are interested in submitting a bid for this important project, please obtain the RFI through ODM's Web Page at: www.medicaid.ohio.gov, and follow these instructions:

* Under the Resources tab
* Go Down to Legal and Contracts
* Select RFPs in the drop-down menu
* Click the Link to the actual RFI

If you experience problems opening the above referenced ODM URL, please contact the ODM Office of Contracts and Procurement at the following telephone number: (614) 728-8034.

Again, responses must be prepared and submitted in strict accordance with the requirements and time frames given in the RFI. Thank you for your attention to this request.

Sincerely,

Jessica Gaston Mathews
