VIRCO 2015 PRODUCT ASSORTMENT

This price list describes over 6000 skus of educational and institutional furniture, all of which are stocked year-round at our warehouses in Conway, Arkansas, and Torrance, California. Furniture selected from this price list will be ready to ship in four weeks or less except during mid-summer, when lead-times may stretch to six weeks. For customers requiring expedited delivery, we offer 350 varieties of our most popular items in a **Quick Ship** program. These items are highlighted on pages 1-10, and will be ready to ship within 10 business days. To receive Quick Ship service, your purchase order must contain only Quick Ship items. Mixed orders of Quick Ship and standard furniture will ship within the standard four-week lead-time.

PURCHASE ORDERS

You can send purchase orders via fax, phone, or the Internet. All purchase orders should include:

- Your six digit Virco account number
- Your complete billing address
- Complete ship-to information (extremely important)
- Contact names and phone numbers (extremely important)
- Requested delivery date

If you're requesting Quick Ship service, don't mix Quick Ship and standard items on the same purchase order. Sorry, but we cannot accept C.O.D. orders.

All orders are confirmed with a printed acknowledgement, which is mailed (or e-mailed on request) to the sold-to address within two days of receipt. Please check the acknowledgement carefully to ensure that your order has been entered correctly. We will make every effort to accommodate requested delivery dates. Some orders may ship sooner than our stated lead-times, especially during winter, spring and fall. Summer lead-times may extend one or two weeks longer than normal. Please note critical delivery dates, such as openings or special events, on your purchase order. This is essential to help us manage your end user's expectations.

INVOICE TERMS

Virco's invoice terms for credit accounts are 1%, 10 days, or Net 30 days. Customers without a Virco credit line must submit payment at the time of order entry. We also accept major credit cards.

CHANGES OR CANCELLATIONS OF ORDERS

Purchase orders acknowledged by Virco Inc. cannot be changed or cancelled without Virco Inc.'s consent, which consent may be conditioned upon Customer's agreement to pay increased or additional expenses resulting from the requested change or cancellation, including but not limited to a twenty-five percent (25%) cancellation charge if order is cancelled or changed within a minimum of twenty (20) days prior to expected delivery date as acknowledged. Products with custom options cannot be cancelled or returned.

REDELIVERY AND RESTOCKING CHARGES

When consignees refuse or are unable to accept delivered orders, we will charge 100% of the original freight cost plus demurrage charges to redeliver the order. Returned orders are subject to a minimum 20% restocking fee. Merchandise returns can only be accepted with prior authorization from Virco's Customer Service Department; moreover, all returned items must be unused and still in their original packaging. Authorization to return merchandise must be approved by Virco Customer Service no later than 90 days after initial delivery. We do not accept returns of custom-made products, and we will refuse returns that are submitted without prior authorization from Virco Customer Service.

ORDER INFORMATION

HOW TO CALCULATE YOUR PRICING:

Start with your first column net price ($0 - $2,500) to identify all the model numbers you wish to purchase, and multiply the price of each model by the number of units you wish to purchase. This will give you the total value of your order. Then, use this total to identify the proper discount column you will use to obtain the correct net delivered price for each model you will purchase.

Please note: This is also the proper method to identify the correct price for orders that may require inside delivery or full service.

Example:
A customer wishes to purchase 300 - model 2018 chairs, tailgate (see page 3).
The 1st column ($0-$2,500) is **$37.80** per unit.
300 chairs x **$37.80** = $11,340.00
This order would qualify for column 3 ($7,501-$15,000) discount pricing, which is **$32.94** per chair.

In the event the customer would like to have inside delivery or full service, they would qualify because the order exceeds $2,501.
For inside delivery or full service, you must first calculate your order using the **net** prices for Tailgate Delivery to make sure you qualify for these services.

To calculate for inside delivery or full service, please use the proper discount from the List Price column.
Example: For inside delivery: $108.00 (List Price) - 66.5% (Column 3, $7,501-$15,000) = **$36.18**
Example: For full service: $108.00 (List Price) - 63.5% (Column 3, $7,501-$15,000) = **$39.42**

Net prices shown reflect tailgate delivered prices based on the following discounts from the 2015 F.O.B. Factory Virco Equipment for Educators™ List Price price list:

Customers using US Communities are entitled to discounts based on net volume. The proper way to determine the correct pricing column for a given order is as follows:

Manufacturer's Name		Percentage Discount for Manufacturer's Price List by Dollar Volume			
VIRCO INC.		NET ORDER SIZE	STANDARD DELIVERY (Delivered Tailgate)	INSIDE DELIVERY (No Installation)	FULL SERVICE (Delivered & Installed)
ZONE 6	Column 1	$0 to $2,500	65.0%	N/A	N/A
IL, IN, OH, KY, TN, NC	Column 2	$2,501 to $7,500	66.0%	62.5%	57.5%
	Column 3	$7,501 to $15,000	69.5%	66.5%	63.5%
	Column 4	$15,001 to $30,000	71.0%	68.0%	65.0%
	Column 5	$30,001 to $100,000	72.0%	69.0%	66.5%
	Column 6	$100,001 to $250,000	72.0%	69.0%	68.0%
		$250,001 and up negotiated			

ORDER INFORMATION

At Virco, we're committed to providing you with the highest-quality and most cost-effective delivery services. That's because your complete satisfaction - as well as the safety of our employees and of any other personnel at your facility - is of paramount importance. With that in mind, please be aware of the following IMPORTANT CONDITIONS that apply to Virco delivery services:

- STANDARD DELIVERY is included for every item in this price list. Certain Virco products such as mobile cabinets, mobile tables, teachers desks and storage equipment are too heavy for one person to unload. Standard "tailgate delivery" does not include unloading these or any other products. Please be prepared to have your own personnel meet the truck to unload and move the product to its final location.

- Virco's delivery and installation crews must have complete and unobstructed access to buildings in which they will be working. In the event of new construction, Virco will not install while construction employees or projects are underway; any buildings in which Virco crews will be working must be turned over to the school district or governmental agency. If Virco agrees to perform the installation while construction is underway, additional charges may apply. Installation while contractors are on site can cause delays; and the charge, in these cases, will be $50.00 per man hour and will be billed to the school district or governmental agency.

- Installation charges include the delivery, set-up and placement of furniture one time only. Virco will not set furniture in place multiple times so that contractors can have sequential access to particular areas of a school. If a contractor moves Virco furniture, for any reason, the contractor will be responsible for returning it to its proper location and will assume full responsibility for any damages as a result of their actions.

- Requests for multiple deliveries due to construction delays will result in additional freight charges. Freight charges will be added to the invoice.

- In rare cases Virco may agree to work under "hard-hat" conditions. In these cases the additional labor charges indicated above will apply. Moreover, hard-hat conditions may delay Virco's attempt to quickly and efficiently perform jobs, and may also incur other charges. These charges will be determined at the job site and will vary from project to project.

- Installation projects have a project scope that includes time required (both in the number of days and hours per day) and the manpower needed. All projects use the calculation of ten-hour work days, five days a week. When construction delays cause Virco crews to work more than ten hours a day, five days a week - or when Virco crews are forced to install a project in fewer days than planned, resulting in more hours worked per day - all overtime charges will be charged back to the school district or governmental agency.

  Note: Should Prevailing Wages be required, installation will have to be quoted for specific project.

STEPS TO TAKE WHEN RECEIVING SHIPMENTS

VERIFY COUNT

Make sure you receive as many cartons as are listed on the delivery receipt. If any shortage is discovered, note exactly how many cartons are short on the carrier's delivery receipt and have the driver note the shortage on your copy.

CAREFULLY EXAMINE EACH CARTON FOR DAMAGE

If damage is visible, note this fact on the delivery receipt and have the driver clearly note the damage on your copy. If you suspect that the carton contents may be damaged, insist that the driver remain present while you open the carton and jointly inspect the contents. Any concealed damage discovered should also be noted on the delivery receipt and on your copy. Be sure to retain your copy.

IMMEDIATELY AFTER DELIVERY, OPEN ALL CARTONS AND INSPECT FOR CONCEALED DAMAGE

All cartons should be opened and contents inspected for possible concealed damage.

REPORT ANY PROBLEMS TO VIRCO CUSTOMER SERVICE IMMEDIATELY (800-448-4726)

If damage is found, details should be reported to Virco immediately. According to ICC regulations, failure to report concealed damage within 15 calendar days of the delivery date could result in the carrier denying the claim and any replacement costs may be your responsibility.

STEPS TO TAKE WHEN CARRIER MAKES INSPECTION OF DAMAGED ITEMS

HAVE DAMAGED ITEMS IN THE RECEIVING AREA

Make certain that the damaged items have not been moved from the receiving area. Allow the inspector to inspect the damaged items, cartons, inner packing materials and freight bill. Be sure to retain your delivery receipt since it will be needed as supporting documentation when the claim is filed.

AFTER THE INSPECTOR FILLS OUT THE REPORT, READ IT CAREFULLY BEFORE SIGNING

If you do not agree with any statements made by the inspector on the report, do not sign it. Unless repairs will be completely satisfactory, be sure the inspector requests replacement on the inspection report. A new item can be ordered only if the report specifies "replace."

CONTINUE TO RETAIN DAMAGED MERCHANDISE

Even though the inspection has been completed, damaged items cannot be used or disposed of without written permission from the carrier or Virco. After the claim has been settled, the carrier will either pick-up the damaged items or send a letter asking you to dispose of the merchandise.

6000 SERIES FOLDING TABLES

Tubular steel legs. Models are available with a 3/4" thick particleboard-core top with a fused-on melamine surface and 3/4" profile T-mold edge banding.
The folding mechanism includes a gravity-fed safety lock. Because the safety lock is permanently attached, a formed tab on the lock arm permits the hinge to fold in only one direction. Spring clips are formed from tempered steel to accept the cross brace of the leg unit. Each spring clip is housed in an injection-molded polyethylene shell to help protect hands from sharp edges. Each table has two spring clips.
Patented steel aprons consists of four machine formed steel segments with no exposed sharp edges. The outer edge is rolled to form a strong and smooth flange. Apron ends are inserted into patented corner supports formed of injection-molded polyethylene which completely enclose the ends of the steel aprons. A high-impact stacking bumper attaches to the outer edge of the corner support to facilitate stacking. Metal surfaces are available with a powder coat finish.

Ph.D.® SERIES

Task chairs feature a contoured polypropylene seat and back; selected models have a comfortable padded, upholstered seat and contoured arms with comfortable self-skinned urethane pads. 6000 SERIES FOLDING TABLES

Tubular steel legs. Models are available with a 3/4" thick particleboard-core top with a fused-on melamine surface and 3/4" profile T-mold edge banding. The folding mechanism includes a gravity-fed safety lock. Because the safety lock is permanently attached, a formed tab on the lock arm permits the hinge to fold in only one direction. Each table has two spring clips. Patented steel aprons consists of four machine formed steel segments with no exposed sharp edges. The outer edge is rolled to form a strong and smooth flange. Apron ends are inserted into patented corner supports formed of injection-molded polyethylene which completely enclose the ends of the steel aprons. A high-impact stacking bumper attaches to the outer edge of the corner support to facilitate stacking. Metal surfaces are available with a powder coat finish.

CORE-A-GATOR® SERIES FOLDING TABLES

Tubular steel legs. Lightweight folding table with a patented design featuring an ABS plastic top with an innovative three-piece construction. Extruded aluminum U-channels along each edge for added strength. Corners reinforced with four high-impact molded ABS corner protectors. Tables have edge molding around the complete perimeter of the top to serve as an edge protector. Tables have apron bumpers at each corner to protect the top surface during storage. Two links are riveted to the leg assembly and the other two to a mounting bracket on the underside of the table. The two pairs of links provide lateral support when the table is in use and also allow the legs to fold into a closed position. The folding mechanism has an automatic positive locking rod that engages the two pairs of links. The locking mechanism automatically engages when the table is upright. The legs have fitted plastic glides. Metal surfaces are available with a powder coat finish.

Service Life Recommendation: In order to extend the torque life of MTC Series tables with torsion bars, Virco recommends that customers store their tables in an upright position when not in use. When cleaning Virco mobile tables, Virco recommends that their high-pressure laminate surfaces be wiped down as needed with a damp cloth or sponge and mild detergent or soap; this recommendation also applies to plastic stool seats, and to metal surfaces with a chrome or powder coat finish.
IMPORTANT: Never use a power washer to clean Virco mobile tables. Tables are intended for indoor use. Warranty Note: MTC Series tables are covered by Virco's 10-year warranty; however, torsion bars used on these tables are covered by a 5-year warranty. Virco recommends that torsion bars be inspected for torque strength frequently.

MT SERIES MOBILE TABLES

Tubular steel frame, 29" table height. Tops are available with a 3/4" thick particleboard-core high-pressure laminate work surface with 3/4" profile T-mold edge banding. Models are also available with work surfaces that have an optional urethane-based Sure Edge® finish. Nylon-base self-leveling glides. In the folded position, tables rest on four 3" swivel casters. The tables open and close in one operation. A safety device is built into the folding mechanism to help prevent pinching when tables are opened. A secondary safety release mechanism is incorporated to complete the opening of tables. The center hinge operates vertically in order to self clean and minimize trapping of food. Metal surfaces are available chromed or with a powder coat finish.

Service Life Recommendation: In order to extend the torque life of MT Series tables with torsion bars, Virco recommends that customers store their tables in an upright position when not in use. When cleaning Virco mobile tables, Virco recommends that their high-pressure laminate surfaces be wiped down as needed with a damp cloth or sponge and mild detergent or soap; this recommendation also applies to plastic stool seats, and to metal surfaces with a chrome or powder coat finish.

IMPORTANT: Never use a power washer to clean Virco mobile tables. Tables are intended for indoor use.

Warranty Note: MT Series tables are covered by Virco's 10-year warranty; however, torsion bars used on these tables are covered by a 5-year warranty. Virco recommends that torsion bars be inspected for torque strength frequently.

MTB SERIES MOBILE BENCH TABLES

Tubular steel frame, heavy-duty mobile folding bench tables have an automatic locking feature, as well as a safety clearance between table sections to help protect hands during opening. The tables also have a torsion bar for ease of operation, and are free-standing when closed. Tops and benches are available with a 3/4" thick particleboard-core high-pressure laminate work surface with 3/4" profile T-mold edge banding. Tops and benches are also available with an optional urethane-based Sure Edge® finish. In the folded position, tables rest on four 3 1/2" swivel casters. Middle legs have a 1" rubber crutch tip. The table automatically locks in the open and closed positions. The center hinge operates vertically in order to self clean and minimize trapping of food. The top support apron is available with a powder coat finish. The undercarriage is available fully chromed or with an optional powder coat finish.

Optional Edge Finish: Virco's custom Sure Edge finish is offered as an option for table tops and benches. The Sure Edge finish consists of a urethane-based protectant that is bonded chemically to the substrate of the top or benches. The tamper-resistant Sure Edge finish, applied with an innovative anti-bacterial process for enhanced cleanliness and hygiene, functions as an effective moisture barrier, which seals the substrate of a top or bench between its high-pressure laminate surface and backing sheet. The Sure Edge finish has no gaps or seams, preventing food particles from lodging in table-top or bench-top edges. Models with a Sure Edge top finish include the letters AE. Models with a Sure Edge finish for tops and benches include the letters AEB.

Service Life Recommendation: In order to extend the torque life of MTB Series tables with torsion bars, Virco recommends that customers store their tables in an upright position when not in use. When cleaning Virco mobile tables, Virco recommends that their high-pressure laminate surfaces be wiped down as needed with a damp cloth or sponge and mild detergent or soap; this recommendation also applies to plastic stool seats, and to metal surfaces with a chrome or powder coat finish.

IMPORTANT: Never use a power washer to clean Virco mobile tables. Tables are intended for indoor use.

Warranty Note: MTB Series tables are covered by Virco's 10-year warranty; however, torsion bars used on these tables are covered by a 5-year warranty. Virco recommends that torsion bars be inspected for torque strength frequently.

MTS SERIES MOBILE STOOL TABLES

Tubular steel frame, heavy-duty mobile folding stool tables have an automatic locking feature, as well as a safety clearance between table sections to help protect hands during opening. The tables also have a torsion bar for ease of operation, and are free-standing when closed. Tops are available with a 3/4" thick particleboard-core high-pressure laminate work surface with 3/4" profile T-mold edge banding. Tops are also available with an optional urethane-based Sure Edge® finish. Each seat has its own direct-to-floor load-bearing column and provides its own support without the need of cross members running between seats. Each seat has its own place to enter and exit. Round stool tops are 13" in diameter, injection-molded from a high-impact ABS material. In the folded position, tables rest on four 3 1/2" swivel casters. Middle legs have a 1" rubber crutch tip. The table automatically locks in the open and closed positions. The center hinge operates vertically in order to self clean and minimize trapping of food. The top support apron is available with a powder coat finish. The undercarriage is available fully chromed or with an optional powder coat finish.
Optional Edge Finish: Virco's custom Sure Edge finish is offered as an option for table tops. The Sure Edge finish consists of a urethane-based protectant that is bonded chemically to the substrate of the top. The tamper-resistant Sure Edge finish, applied with an innovative anti-bacterial process for enhanced cleanliness and hygiene, functions as an effective moisture barrier, which seals the substrate of a top between its high-pressure laminate surface and backing sheet. The Sure Edge finish has no gaps or seams, preventing food particles from lodging in table-top edges. Models with a Sure Edge top finish include the letters AE.
Service Life Recommendation: In order to extend the torque life of MTS Series tables with torsion bars, Virco recommends that customers store their tables in an upright position when not in use. When cleaning Virco mobile tables, Virco recommends that their high-pressure laminate surfaces be wiped down as needed with a damp cloth or sponge and mild detergent or soap; this recommendation also applies to plastic stool seats, and to metal surfaces with a chrome or powder coat finish.
IMPORTANT: Never use a power washer to clean Virco mobile tables. Tables are intended for indoor use.

MTC SERIES CONVERTIBLE BENCH TABLES

Tubular steel frame. This mobile bench and table unit changes quickly and easily from a table and bench configuration to a bench with a full backrest. When used as a table and bench, the unit features a bench height of 15" and a top height of 27", or a bench height of 17" and a top height of 29". Benches and tops are available with a 3/4" thick particleboard-core high-pressure laminate work surface with 3/4" profile T-mold edge banding. They are also available with an optional urethane-based Sure Edge® finish. The bench measures 96"L x 12"W; and the top measures 96"L x 15"W.

Table and bench height adjustment are made by a telescoping foot tube assembly secured to the table frame. Two adjustment positions are provided: one achieves a 15" bench height and a 27" top height; the other achieves a 17" bench height and a 29" top height. The base frame is mounted on four 4" swivel casters, two with locks. The apron, frame and links are powder coated. The foot tube assembly are chrome-plated.

Optional Edge Finish: Virco's custom Sure Edge finish is offered as an option for table tops and benches. The Sure Edge finish consists of a urethane-based protectant that is bonded chemically to the substrate of the top or benches. The tamper-resistant Sure Edge finish, applied with an innovative anti-bacterial process for enhanced cleanliness and hygiene, functions as an effective moisture barrier, which seals the substrate of a top or bench between its high-pressure laminate surface and backing sheet. The Sure Edge finish has no gaps or seams, preventing food particles from lodging in table-top or bench-top edges. Models with a Sure Edge top finish include the letters AE. Models with a Sure Edge finish for tops and benches include the letters AEB.

Optional Ganging Device: An optional ganging device consists of a lock plate, locking pin spring-loaded assembly and a docking plate. To engage the ganging device when two table tops are placed back to back, the keyed locking pins can be inserted into the docking plate, locking the two tables together at each end. Models with ganging device include the letter G.

Service Life Recommendation: In order to extend the torque life of MTC Series tables with torsion bars, Virco recommends that customers store their tables in an upright position when not in use. When cleaning Virco mobile tables, Virco recommends that their high-pressure laminate surfaces be wiped down as needed with a damp cloth or sponge and mild detergent or soap; this recommendation also applies to plastic stool seats, and to metal surfaces with a chrome or powder coat finish.

IMPORTANT: Never use a power washer to clean Virco mobile tables. Tables are intended for indoor use.

Warranty Note: MTC Series tables are covered by Virco's 10-year warranty; however, torsion bars used on these tables are covered by a 5-year warranty. Virco recommends that torsion bars be inspected for torque strength frequently.

6000 SERIES FOLDING TABLES

Tubular steel legs. Models are available with a 3/4" particleboard-core top with a fused-on melamine surface and 3/4" profile T-mold edge banding.
The folding mechanism includes a gravity-fed safety lock. Because the safety lock is permanently attached, a formed tab on the lock arm permits the hinge to fold in only one direction. Spring clips are formed from tempered steel to accept the cross brace of the leg unit. Each spring clip is housed in an injection-molded polyethylene shell to help protect hands from sharp edges. Each table has two spring clips.
Patented steel aprons consists of four machine formed steel segments with no exposed sharp edges. The outer edge is rolled to form a strong and smooth flange. Apron ends are inserted into patented corner supports formed of injection-molded polyethylene which completely enclose the ends of the steel aprons. A high-impact stacking bumper attaches to the outer edge of the corner support to facilitate stacking. Metal surfaces are available with a powder coat finish.

CORE-A-GATOR® SERIES FOLDING TABLES

Tubular steel legs. Lightweight folding table with a patented design featuring an ABS plastic top with an innovative three-piece construction. Extruded aluminum U-channels along each edge for added strength. Corners reinforced with four high-impact molded ABS corner protectors. Tables have edge molding around the complete perimeter of the top to serve as an edge protector. Tables have apron bumpers at each corner to protect the top surface during storage. Dual link folding mechanism consists of four steel links that form the folding mechanism. Two links are riveted to the leg assembly and the other two to a mounting bracket on the underside of the table. The two pairs of links provide lateral support when the table is in use and also allow the legs to fold into a closed position. The folding mechanism has an automatic positive locking rod that engages the two pairs of links. The locking mechanism automatically engages when the table is upright. The legs have fitted plastic glides. Metal surfaces are available with a powder coat finish.

62000 SERIES FOLDING TABLES

Tubular steel legs. Models are available with a 3/4" thick plywood-core high-pressure laminate top with 3/4" profile T-mold edge banding. The folding mechanism locks into position with a gravity-fed safety lock. Because the safety lock is permanently attached, a formed tab on the lock arm permits the hinge to fold in only one direction. Spring clips are formed from tempered steel to accept the cross brace of the leg unit. Each spring clip is housed in an injection-molded polyethylene shell to help protect hands from sharp edges. Each table has two spring clips.
Patented steel aprons consists of four machine formed steel segments with no exposed sharp edges. The outer edge is rolled to form a strong and smooth flange. Apron ends are inserted into patented corner supports formed of injection-molded polyethylene which completely enclose the ends of the steel aprons. A high-impact stacking bumper attaches to the outer edge of the corner support to facilitate stacking. Metal surfaces are available with a powder coat finish.

SAGE™ CONTRACT SERIES CHAIRS

Tubular steel frame, one-piece molded polypropylene shell, nylon-base swivel glides. Models are available with a seat pad that consists of polyurethane foam covered with fabric. Models are available with a right- or left-hand articulating tablet arm. In addition, an optional right- or left-hand KD articulating tablet arm can be purchased separately, as can an optional KD arm kit with tubular-steel arms and polypropylene armrests. The KD articulating tablet arm measures 21¼" x 15⅜" x ⅝" and has a plywood core. Chairs with an articulating tablet arm cannot accommodate an optional KD arm kit.
Optional steel-base, felt-base and rubber-base glides are available. Metal surfaces are available chromed or with a powder coat finish.
Stacking Capabilities: Model SG1 chairs are stackable up to 4 high when used with Virco's model HCT4 or HCT789 chair trucks. Chairs with an optional articulating KD tablet arm are not stackable; however, chairs with an optional KD arm kit can be stacked up to 4 high.
Virco recommends that model SG1 chairs be stacked only with other model SG1 chairs. Model SG1 chairs, which are not upholstered and do not have a molded plastic under-seat cover to help protect the upholstered seat pad fabric of stacked chairs, should not be inter-stacked with model SG1P chairs, which have a padded, upholstered seat.

PARAMETER® SERIES

Virco's Parameter® Series includes a variety of desks and workstations for teachers, principals, administrators and office use. Selected models have a single- or double-pedestal configuration; other models come without pedestals. Parameter also includes help desk models having a work surface with a rounded edge on one end where students can pull up a chair for assistance with their work.

Models are available with a 1 1/8" thick particleboard-core high-pressure laminate work surface with 1 1/8" profile T-mold edge banding. All desks have a work surface with two grommets, one at each end, except help desks, which have a work surface with one grommet at the rectangular end. Two-drawer (file/file) and three- drawer (box/box/file) unitized pedestals consist of steel components. Pedestals incorporate a drawer interlock system to allow only one drawer per pedestal to open at one time. A core-removable lock secures drawers with one lock assembly ("gang locking"); one lock per pedestal. Riser blocks are made from ABS plastic and include an internal wire management chute; a riser block is situated between the work surface and each end panel or pedestal. Adjustable-height nylon feet. Model numbers ending in C have standard twin-wheel, locking casters. The column leg for use with L-configuration workstations having a peninsula return consists of welded steel components and an adjustable-height nylon glide. Metal surfaces are available with a powder coat finish.

53 SERIES - Lateral Files

Lateral files come in 2-drawer, 4-drawer and 5-drawer models that are available in 42", 36" and 30" widths. All models are equipped with: deluxe steel ball bearing slides; an integral lock that controls all drawers; an interlock system that enhances safety by allowing only one drawer to be opened at a time. A counterweight is included with each lateral file model to help prevent tipping when drawers are fully extended. Lateral files are equipped with full-extension heavy-duty steel ball-bearing slides on all drawers and integrated drawer pulls. A core-removable lock secures all drawers with one lock assembly ("gang locking"). A Keyed-Alike option is available. By choosing the Keyed-Alike option, customers can purchase lock cores for multiple lateral file units, and for other selected Virco models with locks, that open by means of a single key. Metal surfaces are available with a powder coat finish. An optional conversion bar kit, consisting of four powder coated steel bars, enables lateral files to accommodate legal size and letter size documents from front to back, rather than from side to side. For an optional conversion bar kit, specify model CBKLF. Optional drawer divider kit, consisting of one powder coated steel drawer divider, is available to help organize lateral file drawers. For an optional drawer divider kit, specify model 53LFDD.

HOW TO ORDER:

- To order, specify the model number (e.g., TPEP6).

Note:

1. The TP Series 4TRAC Power System is provided in a pigtail hardwire (TPEH6 or TPEH10) or plug-in (TPEP6 or TPEP10) configuration.
2. Customers purchasing the TP Series Power Kits listed above must also purchase a model TPEH6 or TPEH10 Power Entry pigtail for hardwire electrical connection; or a model TPEP6 or TPEP10 plug-in connection for each individual stand-alone table, or one per row of networked tables. Please review the model TPEH and TPEP descriptions above for more information.
3. Virco's TP Series 4TRAC Power System can be adapted to any Virco table series.
4. Grommets and miniports are not included in TP Series Power Kits. If desired, Sales Representatives should be careful to note required grommet or miniport locations on tables with their customer.
5. We suggest the use of additional Virco wire management solutions when installing TP Series Power Kits.
6. Customers are always required to run and install data cables and connections from their source in the wall or floor to the miniports on the tables.

UPHOLSTERY TESTING

The following Virco upholstery materials pass California Technical Information Bulletin 117, Section E: Ultratexhyde vinyl, Bastille fabric, Confetti fabric, Express fabric, Linen vinyl, Pacifica fabric, Sedona fabric, Select vinyl, and fabric for Sage™ Series upholstered seating models.

FURNITURE WITH OAK FINISH

Virco's Oak finish highlights the grain and color accents of each furniture item. Because they're crafted from natural hardwood, no two pieces of Oak furniture have exactly the same grain pattern and color; instead, variations in grain and color result in uniquely complementary furniture groupings.

60", 72" AND 84" BOOKCASES

To avoid the risk of a serious tip-over accident, these bookcases must be securely anchored to a wall. Refer to the assembly instructions for more information.

GUIDELINES FOR STACKING & MOVING FURNITURE

The number of pieces of furniture that can be safely stacked or moved on Virco's mobile storage equipment will vary depending on many factors, including the furniture's height, weight and general design; the speed at which the unit will be moved; the terrain over which it will travel; and the strength of the operator(s). Care should be taken not to stack to the point of unsteadiness. Virco recommends starting with small, easily handled loads and adding one to two pieces of furniture at a time to determine the safe capacity for each set of conditions. Use Virco mobile storage equipment with appropriate Virco furniture only.

PRODUCT DEVELOPMENT

New for 2015, Virco proudly introduces the Analogy™ classroom furniture collection. Designed for Virco by the award-winning tandem of Peter Glass and Bob Mills, Analogy seating models incorporate the ergonomic benefits that have helped to make the company's best-selling ZUMA® and Sage™ product lines – also designed by Glass and Mills – so popular with educators and students nationwide.

In addition to an array of 4-leg stack chairs with four seat heights, the Analogy line includes a selection of cantilever chairs and rockers that can be ordered for K-12 settings in four seat heights and shell sizes, including an extra large shell that's ideal for taller and larger students. New Analogy 4-leg and sled-based combos are also available with an extra large shell.

Other 2015 introductions range from Agile Combo models with casters on their front legs and rubber-base glides on their rear legs for an appropriate degree of combo unit mobility in collaborative learning venues, to new Civitas™ chairs and stools with ergonomically contoured plywood seats and backs for college and university common-area environments.

Like the new items mentioned above, other recent Virco product additions, such as Textameter™ instructor workstations, offer unsurpassed performance and value, as well as GREENGUARD® Gold certification for low chemical emissions into indoor air. And we're working on even more new products for 2015!

If you have a new product suggestion that you'd like to share with us, please contact Randal Smith, Virco's Vice President of Marketing & Corporate Stewardship, at 310-533-0474, extension 3492.

VIRCO AND THE ENVIRONMENT

GREENGUARD®

Hundreds of Virco furniture models have earned stringent GREENGUARD® Gold certification (formerly known as Greenguard Children & Schools Program certification) for low chemical emissions into indoor air. When this icon is shown at the bottom of a page in this price list, all products on that page are Greenguard Gold certified. For the most current listing of Virco's Greenguard-certified products – including models that may have been certified since the publication of this price list – go to www.greenguard.org and click on the Find Products link.

To search the Greenguard Certification Product Guide for Virco's Greenguard-certified products, be sure to search by the series name (for example, ZUMA®) or series number (for example, 3000 Series) rather than by specific model numbers (for example, ZU418 or 3018) since the search function will not recognize Virco model numbers. The Greenguard Certification Product Guide also has printable Greenguard certificates for Virco's Greenguard-certified furniture items. Please note that these certificates refer to Virco product groups (for example, ZUMA 4-Leg Chairs, ZUMA Cantilevered Chairs, and ZUMA Mobile Chairs) rather than to specific model numbers.

As the Greenguard website states, "GREENGUARD Certification ensures that a product has met some of the world's most rigorous and comprehensive standards for low emissions of volatile organic compounds (VOCs) into indoor air." To date, over 300 manufacturers – including Virco – provide customers with Greenguard-certified products.

LEED®

Many of Virco's customers are interested in the LEED® program. LEED, which stands for Leadership in Energy and Environmental Design, is a program of the non-profit U.S. Green Building Council. LEED is a well-known standard for environmentally-friendly buildings.

Virco furniture can help you earn points under the LEED for Schools and rating systems. Hundreds of Virco's Greenguard-certified products can help you earn an Indoor Air Quality (IAQ) credit under the LEED for Schools rating system. Depending on the project, Virco furniture can also help you earn LEED credits for Materials & Resources (MR). ZUMAfrd™ and Virco's other Greenguard-certified products are well suited to green building projects. Virco's Take-Back program can also help reduce the environmental impact of a renovation project.

For any questions about how Virco products can help your building project earn LEED points, please contact your Virco Sales Representative; or contact:

Bob Roskos, Corporate Copywriter, at bobroskos@virco.com, or at 310-533-0474, Ext. 3485.

WASTEWISE

The U.S. Environmental Protection Agency's WasteWise program -- according to its website -- "helps organizations and businesses reduce waste and practice sustainable materials management through the prevention and recycling of municipal solid waste (common household and business waste) and select industrial materials."

Virco joined the EPA's WasteWise Program as a charter member in 1994. Over the years, we've been privileged to receive a number of WasteWise honors, including: WasteWise Program Champion (1998, 1999 & 2001); WasteWise Partner of the Year for Large Businesses (2000 & 2002); and WasteWise Climate Change Partner of the Year (2002). In 2003, Virco was designated as a charter member of the WasteWise Hall of Fame.

If your organization isn't already a member, we strongly encourage you to join WasteWise; information is available at:

http://www.epa.gov/epawaste/conserve/smm/wastewise/about.htm.

TAKE-BACK PROGRAM

Through this ground-breaking program – launched in 2006 – Virco takes back out-of-service furniture from qualifying schools, colleges and universities and recycles the components. Some of this recycled material can then be included in the Fortified Recycled Wood™ that's used to make seats, backrests and work surfaces for our highly sustainable Telos® and ZUMAfrd furniture. For more on Virco's Take-Back program, go to www.virco.com and see the press release entitled "Virco Launches Trail-Blazing Take-Back Program." You can also contact:

Bob Roskos, Corporate Copywriter, at bobroskos@virco.com, or at 310-533-0474, Ext. 3485.

CASH FOR CARDBOARD

Virco's "Cash for Cardboard" Program helps 35 schools near our Conway, Arkansas facility reap the benefits of recycling. Virco builds recycling bins for these schools, collects their cardboard and transports it to a recycling vendor, then returns the proceeds to the schools. To date, the Cash for Cardboard Program has enabled these schools to earn over $100,000. For more information about Cash for Cardboard, contact:

Bob Roskos, Corporate Copywriter, at bobroskos@virco.com, or at 310-533-0474, Ext. 3485.
