Must be U.S. Dollars

Dollar amounts must be filled in for the column for each size range bid. In order to evaluate this information, the Offeror must provide pricing in all rows for the size range they are proposing. If the Offeror is unable to bid a specific size range, they must mark "NO BID" in each row of that column.

The State intends to award Multiple Contracts to provide the State options for timely removal of scrap tires.

Sites may be at locations with either short or long transportation distances. The bid prices should reflect the difference in the work to be performed to remove the scrap tires. Use Part Two of Attachment Ten to account for different transportation distances. The cost factor for the county or counties of your business location should be 1.0. The cost factor for other counties may be less than, equal to, or more than 1.0.
