SPECIFICATION (Cont'd.)

If the project, or parts of it, requires installation on the State's property, the State will provide the Contractor with reasonable access to the installation site for the installation and any site preparation that is needed. After the installation is complete, the Contractor will complete an installation letter and secure the signature of the Agency Project Representative certifying that installation is complete and the project, or applicable portion of it, is operational. The letter shall describe the nature, date and location of the installation, as well as the date it was certified as installed and operational by the Agency Project Representative.

- L. Excusable Delay: Neither party will be liable for any delay in its performance that arises from causes beyond its control and with its negligence or fault. The delayed party will notify the other promptly of any material delay in performance and will specify in writing the proposed revised performance date as soon as practicable after notice of delay. In the event of any such excusable delay, the date of performance or of delivery will be extended for a period equal to the time lost by reason of the excusable delay. The delayed party must also describe the cause of the delay and what steps it is taking to remove the cause. The delayed party may not rely on a claim of excusable delay to avoid liability for a delay if the delayed party has not taken commercially reasonable steps to mitigate or avoid the delay. Things that are controlled by the Contractor's subContractors will be considered controllable by the Contractor, except for third party manufacturers supply commercial items and over whom the Contractor has no legal control.
