SPECIAL CONTRACT TERMS AND CONDITIONS (continued)

* PREVAILING WAGE: The Ohio Department of Commerce, Division of Labor and Worker Safety, Wage and Hour Bureau has determined that work identified in this bid and to be performed under contract may be subject to the requirements of Ohio Revised Code Sections 4115.03 to 4115.16, Prevailing Wage. The prevailing wage scale, as published by the Ohio Department of Commerce, Division of Labor and Worker Safety, Wage and Hour Bureau shall be attached to each project scope requested by the agency. Upon award of a Contract by DAS, the successful Contractor, and all of its sub-contractors, guarantees that the prevailing wage for the area, to include any adjustments thereto, as published by the Ohio Department of Commerce, Division of Labor and Worker Safety, Wage and Hour Bureau will apply to any worker assigned by the Contractor or all of its sub-contractors to any project that requires prevailing wage. It is the responsibility of the Contractor to determine on a project by project basis if prevailing wage rules and regulations apply. The agency requesting the services of the Contractor may request an audit of the Contractor's employee pay records to assure compliance with the Contract and prevailing wage requirements.

CATEGORY ONE PREVAILING WAGE RATE CALCULATIONS: For projects in Category One that the Contractor, in coordination with the Ohio Department of Commerce, has determined must be quoted at Prevailing Wage rates, the Contractor must calculate the hourly rates to be charged to the Agency. The hourly rates will be calculated for each required job classification by multiplying the exact Prevailing Wage rate currently in effect for the project site by the appropriate Overhead % from the Bid Price Pages and add this to the exact Prevailing Wage rate to get the Prevailing Wage rate for the quote. The project quote must break out each job classification and show the calculation of each Prevailing Wage rate.

Example:

If the Bidder enters \$50.00 per hour on the Bid Price Page for Regular Wage and actually pays the employee \$30.00 per hour, the Overhead % to be entered on the Bid price page would be 40%. $(\$50.00 - \$30.00) / \$50.00 * 100$

To calculate the Contractor's maximum allowable wage rate for quotes that require Prevailing Wage, the Contractor would get the Ohio Department of Commerce Prevailing Wage rates for the project site and multiply each one by the Overhead % and add that to the exact Prevailing Wage rates. If the exact prevailing wage rate for the above job classification was \$42.56, then the maximum allowable wage rate on quotes requiring Prevailing Wage rates would be \$59.58. $\$42.56 + (\$42.56 * .40)$.

AWARD OF BID RS903913: The awards for Districts 1, 3-12 in Category One were bid separately under bid RS903913 and incorporated into this Contract.

** AWARD OF BID RS900814: The award for District 2 in Category One was bid separately under bid RS900814 and incorporated into this Contract.

* Indicates a revision to the Prevailing Wage paragraph requiring that the Contractor attach the then current Prevailing Wage tables to the Scope of Work submitted to the agency for approval.

** Indicates that the award of bid RS900814 for District 2 in Category One is incorporated into this Contract.
