Disposable backboards are significantly less expensive than all other backboards. Cost effective for even single injuries, they are especially valuable for large use applications, such as multi victim vehicle accidents or emergency evacuations of hospitals or nursing homes up to mass casualty incidents involving hundreds or even thousands of victims.

	<p>Advantages:</p> <ul style="list-style-type: none">• They come packaged in boxes of 5 and take up little space since they store flat.• When needed simply pull the zip tabs on the back of the boards and in less than 30 seconds a fully configured backboard is in place and ready to go to work. There is no glue or tape to dry out and fail over time.	<ul style="list-style-type: none">• FSI Fluid Resistant Disposable Adult and Pediatric Backboards are functional and cost effective for handling a single injury to a large disaster. FSI Disposable Backboards are the budgetary solution when preparing for multiple victims up to potential mass casualty incidents involving hundreds or even thousands of victims requiring stretcher borne attention.
