EM1 American Flag

EM5 American Flag

To be in compliance with proper flag etiquette, it is appropriate to wear an American flag patch on the left or right sleeve. When worn on the left sleeve, the union would appear toward the front and the stripes would run horizontally toward the back (EM1). When worn on the right sleeve, it is considered proper to reverse the design so that the union is at the observer's right to suggest that the flag is flying in the breeze as the wearer moves forward (EM5).

EM1 American Flag

EM5 American Flag

To be in compliance with proper flag etiquette, it is appropriate to wear an American flag patch on the left or right sleeve. When worn on the left sleeve, the union would appear toward the front and the stripes would run horizontally toward the back (EM1). When worn on the right sleeve, it is considered proper to reverse the design so that the union is at the observer's right to suggest that the flag is flying in the breeze as the wearer moves forward (EM5).

### ONLINE WARRANTY REGISTRATION

#### LION Protective Gloves® Warranty Registration

Taking advantage of warranty protection has never been easier! You can now register your LION Protective Gloves® purchases quickly and easily over the Internet at [www.lionprotects.com/gloves-care-and-use](http://www.lionprotects.com/gloves-care-and-use). The short online form also gives you the opportunity to give valuable feedback about the quality of our products and service.

We solicited feedback via warranty registration cards long before our certification to ISO 9001 required us to do so. While the warranty registration cards fulfilled our ISO requirement, you had to fill out the card by hand and mail it back to us. We believe that you will find online registration more convenient.

**ONLINE WARRANTY REGISTRATION**

Taking advantage of warranty protection has never been easier! You can now register your LION Technical Footwear™ purchases quickly and easily over the Internet at <http://www.lionprotects.com/technical-footwear-care-and-use>. The short online form also gives you the opportunity to give valuable feedback about the quality of our products and service.

We solicited feedback via warranty registration cards long before our certification to ISO 9001 required us to do so. While the warranty registration cards fulfilled our ISO requirement, you had to fill out the card by hand and mail it back to us. We believe that you will find online registration more convenient.
