

REQUEST FOR PROPOSALS

ADDENDUM # 1

ISSUED: 07/30/2013

RFP NUMBER: CSP903814
INDEX NUMBER: DNR004

The State of Ohio, through the Department of Administrative Services, Office of Procurement Services, for the Ohio Department of Natural Resources is requesting proposals for:

CONSTRUCTION DESIGN OF LAKE ERIE WILDLIFE RESEARCH VESSEL

Attached is page 4 to this Request for Proposal (RFP). Remove the corresponding page from the existing RFP and replace with the attached.

Reason for Addendum. This addendum is issued to indicate a revision and renumbering of Section 1.4.1, Deliverables and to add a definition of construction-ready.

PROPOSAL DUE DATE:
OPENING LOCATION:

August 9, 2013 by 1:00 PM
Department of Administrative Services
General Services Bid Desk
4200 Surface Road
Columbus, Ohio 43228-1395

- 1.4.1 DELIVERABLES: (List of expected, but not limited to deliverables) - Proposed design must be a complete package of plans consisting of a minimum of the listed deliverables that are construction-ready. * Construction ready is defined as the Contractor is to complete a design for the needs of the Agency which will include a concept design, preliminary designs and a final design for construction. With the understanding that the selected construction Contractor will need to alter the design plans to fit their construction methodologies. ODNR will be involved with the review of all stages. The Contractor will create a complete set of designs that can be given to a shipyard for construction, with the understanding that some changes will need to be made. Consultation during the shipyard selection period is not included in this RFP project; ODNR is looking to complete the design portion of the process only with this RFP.

**

- A. General arrangement
- B. Specifications
- C. Speed and Powering
- D. Stability
- E. Hull line/Outboard profile
- F. Machinery arrangement
- G. Shafting and Rudder arrangement
- H. Electrical Load Analysis
- I. Fire & Safety plan
- J. Fuel oil one line diagram
- K. Lube oil one line diagram
- L. AC L& DC one line diagram
- M. Waste water one line diagram
- N. Potable water one line diagram
- O. Bilge and fire main one line diagram
- P. Fire suppression one line diagram
- Q. Hydraulic system one line diagram
- R. Steering one line diagram
- S. Cooling water one line diagram
- T. HVAC one line diagram
- U. Exhaust one line diagram
- V. Lighting plan
- W. Fishing gear **
- X. Tank plan
- Y. Internal/External communication plans
- Z. Life saving and fire equipment plan
- AA. Outfitting plan
- BB. Master Equipment list **
- CC. Structural concepts **

1.4.2 MANDATORY SITE VISIT

The Design crew must commit to a site visit to Sandusky, Ohio if awarded the Contract. The Offerors must include the cost of the visit in the proposal. The purpose of the site visit is to give the design team a chance to ride along on the R/V Explorer to further understand the mission critical needs of the agency. The site visit will be scheduled within one month of the Contract being awarded.

- 1.5 CONFIDENTIAL INFORMATION The process to procure goods and services by DAS is open to inspection by the public. DAS makes available prices (offered and accepted), terms of payment, Proposal materials, evaluation scores, product information, and other types of information DAS uses in evaluating and/or awarding the Contract, consistent with Ohio's public records law. DAS will seek to open the Proposals in a manner that avoids disclosing their contents. Additionally, DAS will seek to keep the contents of all Proposals confidential until the Contract is awarded. Further, the DAS will open for public inspection all Proposals provided to the DAS in response to this RFP after award.

** Section 1.4.1 is revised to indicate renumbering of the list of deliverables to separate Speed and Powering from Stability (C. and D.). There is no dry lab or wet lab but a workbench area and sample freezer at the port side stern of the pilot house is desired. There is no true galley required, but the addition of a microwave and refrigerator in the pilot house is desired. No berthing is required.

Deliverable W (formerly V) states "fishing gear"; the Offeror is to provide the fishing gear plan/arrangement/costs as part of the master equipment list (BB). This includes the structural needs to cover the science side of the design (net reels, winches, dive doors, davits, etc.), and how they affect the overall performance/design of the vessel.
