General Maintenance Offerings

Preventative Maintenance Agreement

The preventative maintenance agreement will act as a proactive plan, affording regularly scheduled inspections of equipment on an annual, quarter customer to purchase an initial number of predetermined hours, which are then applied to their regular inspections throughout the specified agreem necessitate Commercial Control's cleaning, inspecting, and production of written reports describing their findings, inclusive of equipment functionali an inspection of the facility takes 8 hours with four inspections per year, the amount billed will be 32 labor hours). Per the terms of the agreement th associated with these inspections.

Equipment Inspections

One-time equipment inspections are also available to our customers. The inspection hours will then be scheduled by the client and will necessitate describing their findings, inclusive of equipment functionality. Inspection costs will be determined based upon the hourly labor rate (ie. If an inspecti will be 32 labor hours).

Full Service Maintenance Contract

The full service maintenance contract offers 24 hour labor coverage, throughout the term of the contract, as well as replacement equipment costs fo negligence, and acts of God are not covered under the contract. All materials utilized in replacements are included in Commercial Control Services of CCS professionals, and is based upon the age, condition, expected failure rates, and amount of time required to perform full service maintenanc Agencies review and acceptance.

ly, or monthly basis. The maintenance agreement typically requires the
