**Notes**

1 According to the manufacturer, new batteries do not develop full energy (run time) potential until after a couple months of use. This "burn-in" period is usually 50 charge cycles.  
Average run times are 3.4 hours for standard and 4.8 hours for heavy duty batteries.

Model 6100 Continuous Runtime Chart (220 AH Battery Package):

	Run Time
1. QuickMop® dry mopping only	10 hours
2. Sweeping (Main and single side brush)	3.5 hours
3. Sweeping (Main and dual side brush)	3.25 hours

The above runtimes are guidelines. Actual times will vary based on floor conditions, final machine configuration and usage.

2 Should the customer wish to use their own battery supplier, they have two options:  
a. Buy batteries to fit in our steel case - see below for internal dimensions.  
b. Buy their own steel case battery (there is no deduction for this) - see below for external dimensions.

	Width	Height
External Dimensions:	22.18 in. 563 mm	21.24 in. 539 mm
Internal Dimensions:	21.81 in. 554 mm	20.88 in. 530 mm

An extra steel case can be ordered without batteries; part number 369483.

Battery compartment is 21.62 in. (550 mm) x 22.24 in. (565 mm) x 14.50 in. (365 mm).  
Max weight 480 lbs (220kg).

3 Customer MUST order shipping crate if LESS BATTERY is selected.  
Continental USA orders ONLY.

4 Recommend purchase of 2 (two) carts if you do not have a station to roll off the batteries on to.

5 The QuickMop® comes with one set of floor mops. There are two types from which to select (please select one).  
You will need to order a quantity of (2) of either of the following part numbers for each QuickMopTM assembly.

Color	Application
Blue Mops	Finished Floor Applications
Natural (White) Mops	Concrete Floor Applications

6 Reach of vacuum wand is 11 feet, comes with a box of 10 vacuum bags (p/n 83269).

7 The Union Mix Brush is commonly used for Carpet

8 Pad wrap available only in the Continental US and is the default packaging method.  
Customer MUST order Crate or Skid if WITHOUT BATTERY is selected.  
Crate is mandatory when shipping to AK and HI. Packaging is added at No Charge when shipping to these locations.

9 CUSTOM PAINT: Customized painting is limited to metal parts only.  
 All non-metal components must remain standard TENNANT colors.  
 When selling a Custom Color, you will need to confirm that the color falls within the standard colors available from our powder supplier (50 plus colors to choose from). Please request a color chart from our Custom Engineering Group (Abby Liubakka (X1302) or Dan Feyma (X1772)) and obtain the customer's approval. The order can not be processed without their approval. If the color is outside this range, it can still be obtained but it will be at an additional charge and will increase the lead time. For pricing and lead time impact information contact our Custom Engineering Group.  
 When choosing the special paint the following information is needed and must be added to the Quote Special Instructions section. Failure to do so will create a two-week delay in your order.  
 a. Which parts do you want painted, White parts, green parts, black parts?  
 (unless otherwise agreed upon with Custom Solutions Dept., all white and Tennant teal parts will be painted with custom color)  
 b. Color requested.

10 Part numbers beginning with "CP" followed by a 6-digit number or a 6-digit number with the first three digits "324 & 325" indicate a CUSTOM option. Please keep in mind that these items may require a longer lead time.

- 1 Only available on 225 AH wet batteries.
- 2 Configuration Recommendation Criteria:  

<b>Standard Configuration -</b>	<b>Panel Filter/Live Wand</b>
<b>Panel Filter/High Air Flow System</b>	<b>(Less High Air Flow System)</b>
Most Applications, Particularly:	Light Applications:
Continual Dust Accumulation	Light Dust
Sensitive to Dusting	Less Sensitive to Dust
Medium to Heavy Dust	Want Live Vacuum Wand
Vacuum Wand Available as an Option	
- 3 Carpet Cleaning Package includes either standard or extended run time batteries (whichever is chosen) and includes Union Mix (Carpet Brush) and Battery Acid Containment Bags.
- 4 When dual side brushes are chosen, it is recommended to use the extended run time batteries kit #80131 with this option.
- 5 Recommended for light dust applications only. Ordering the Live Wand option will reroute the airflow permanently through a "live wand" that is always available to the operator for detailing or edge cleaning. This will remove the High Air Flow system and will replace it with the Live Vacuum Wand. No additional charge.
- 6 Vacuum wand to be installed on front cover. Order only when purchasing the standard machine with the High Air Flow System. When any of the part numbers 373143 or 373146 are ordered, the Live Vacuum Wand is standard and it is not possible to order this option. Kit supplies a hose and wand that is stored onboard and connects for use.
- 7 This will remove the Panel Filter System with the Bag Filter System. This is recommended only for carpet applications and very light dust applications.
- 8 Recommended for use with paper filter collector bag or for an additional level of filtration. This is a "Custom" option. Please keep in mind that this may require a longer delivery time.
- 9 Wide Trac Pneumatic Tire and Caster Kit is to better equip machines for outdoor use.
- 10 Only Union Mix Brush is available with Carpet Cleaning Equipment Pkg
- 11 Pad wrap available only in the Continental US and is the default packaging method. Customer MUST order Skid w/Carton, Stackable or Skid w/Stretch Wrap if WITHOUT BATTERY is selected.
