Expert Witness Testimony

A. Unlimited Testimony Coverage

1. Cost

- a. Single order quantities up to 99 radar units: \$100.00 per radar.
- b. Single order quantities of 100 or more units: No Charge

2. Coverage Description

If this service is purchased by the customer, MPH will provide testimony by an expert witness to testify on both the technical accuracy of the radar speed measuring device and the method of operation. Such expert witness shall be provided upon request in any court case, at all judicial levels, for the individual radar units for which the unlimited testimony is purchased. The expert witness testimony shall be provided at the full expense of MPH Industries. The purchaser shall bear no portion of said expense for providing such witness. MPH will provide such expert witness upon request throughout the working life of the radar speed measuring device purchased with expert testimony service, not to exceed three (3) years from the date of purchase.

B. Restricted Testimony Coverage

1. Cost

- a. Single order quantities up to 24 radar units: \$50.00 per radar.
- b. Single order quantities of 25 or more units: No Charge

2. Coverage Description

If this service is purchased by the customer, MPH will provide testimony by an expert witness on both the technical accuracy of the radar speed measuring device and the method of operation. Such expert witness shall be provided upon request of the customer once (1) per judicial level per jurisdiction, for the individual radar units for which the restricted testimony was purchased. This option must be purchased at the same time the radar unit is purchased. The expert witness testimony shall be provided at the full expense of MPH Industries. The purchaser shall bear no portion of said expense for providing such witness.
