REINVENTING

Get the most out of your play

Powered by Wind

100% of our factory's electricity is powered by wind and other renewable energy. Burke is the only major playground manufacturer that has earned the Green Power Partner designation from the U.S. Environmental Protection Agency. www.bciburke.com/green

Recycled Products

From the steel tubes used in our playgrounds to the paper we print our catalogs on, we maintain high standards for recycled content. Our StoneBorders, Burke Turf™ and Tiles are made from 100% recycled materials and our recycled platforms, roofs and site amenities are made from 95% recycled materials.

IG VALUE!

Background purchase with Burke!

TOTAL COST OF OWNERSHIP

The most important “package” included in every playground we ship is one you can’t even see. We call it our Total Cost of Ownership Package™ and it’s your assurance that no playground offers a lower true cost than a playground from Burke. So what exactly is in this package? Exceptional Burke Built Quality, Superior Materials, Non-Prorated Generations Warranty and Value Added Resources. Learn more on pages 158 - 159.

ISO 9001:2008 &
ISO 14001:2004
CERTIFIED COMPANY

Playground Safety Surfacing

At Burke, we offer great surfacing solutions to help keep your kids safe while providing an attractive, accessible playground site. Our Burke Turf and Burke Tiles™ are certified to meet all applicable ASTM standards for impact attenuation and accessibility. Your Burke representative can help you with every step in selecting and installing the most appropriate surface for your playground.

REINVENTING

Introducing the ALL-NEW

**NEW
PRODUCT**

RockVenture™

RockVenture is the perfect complement to your nature-themed play space! Children ages 5-12 will experience the thrill and challenge of a realistic rock climbing adventure in a safe playground setting. See page 120.

Rock 'N' Roll Slide

One of our most popular slides is now reinvented to bring your playground to new heights. Children ages 5-12 will love the fun and fast user experience of this new slide for 64" and 72" deck heights. See page 98.

NATUREPlay!

/ ClubHouse Play System.

**CLICK HERE
TO INTERACT!**

ClubHouse Board Panels

These natural looking planks add a random and whimsical look to your kid-friendly nature playground. Best of all they are made from durable HDPE with 75% post-consumer waste and are 100% recyclable.

Point Climbers

Challenge the peaks of Burke's NEW climbers and take climbing adventures to a new level. See page 100.

NATUREPLAY CLUBHOUSE

We're taking the NaturePlay® Adventure Series to a whole new level with a ClubHouse design that offers kids and families the opportunity to reconnect and rediscover the wonders of nature within a safe and durable environment. A full collection of ClubHouse components, including climbers, panels, enclosures and roofs, cultivate imaginations and nurture the need for play. Mix and match these new play events with Burke's exclusive NaturePlay Tree Trunk play system to create a playspace that blends seamlessly into the natural vista of any environment.

REINVENTING

Introducing exciting NEW play events

**NEW
PRODUCT**

Odyssey Deck Links

IMAGINATIVE PLAY

Studies show that imaginative play helps nurture a child's social, emotional and cognitive development as well as promote creativity and language skills. What better way to foster imagination and socialization than to create a safe, natural playspace where children can explore while engaging in active, healthy play.

Made with a central GFRC Timber Tower, this realistic tree design encourages creative play while providing a challenging rock climbing event. Customize it with slides, climbers and ClubHouse panels and roofs that complement the "tree house" theme to complete a dream playground that blends perfectly into its natural surroundings. Return to the great outdoors with Burke and watch imaginations soar.

NUNP-2324

"Built-in" realistic rock climbing event provides 2 paths to the 72" platform.

Crawl Tunnel adds an adventurous ground-level activity.

The 72" platform design adapts to fit 96" platform slide configurations!

NUNP-2325

Our NaturePlay RockVenture Climber and NaturePlay Transfer Stump complement the Timber Tower and add to the realistic nature theme.

Complete Your Design with Burke Tiles Safety Surfacing!

A Burke Tiles surface is the perfect landscape on which to build your new incredible playground! Extremely durable and wear-resistant, Burke Tiles are available in a beautiful palette of clean and appealing colors and our interlocking system makes them easier and faster to install. Burke Tiles meet the ASTM 1292 requirements for impact attenuation. It's also an ideal surfacing solution for accessibility and meets the ADA standards for playground surfacing. Learn more at www.bciburke.com/burketiles.

Burke's "Play for Everyone" philosophy helps to guide our product design process and promotes a focus on inclusive play so all people, of all abilities, can play together in a safe and comfortable environment. From Playground Access to spinning to sensory play, we strive to design each and every playspace with attention to the needs of all people. Because at Burke, "Play for Everyone" just isn't our motto, it is our way of life.

Playground Access is one of the most important aspects to inclusive play spaces and allows children with physical limitations to access the playground and experience the social, physical and developmental benefits of play. This includes everything from entry to the play area and safety surfacing to ramps and transfer stations.

Multiple Play Areas - It is recommended to include multiple play areas, some that are more physically active and others that are quieter and more interactive.

Variety - Make sure to include a variety of play events that require different challenge levels so children with different skill levels can play together.

Social Play - Include areas where ALL children can gather to socialize, learn and play together, whether it is an area to relax, a cooperative play event like the Volito Multi-User Swing or an imaginative play Trike Trail.

Sensory Play - Include play events that encourage sensory involvement to enhance cognitive motor skills, stimulate creative thinking and support tactile and auditory growth.

Motion Play - Play events that sway, swing or spin help kids develop necessary perceptual skills, spacial awareness and sensory integration. They can also help to build strength, balance and coordination.

Chin-Up Bars set at two different heights accommodate children that are standing as well as sitting in a wheelchair or other mobility device. Panels, overheads and climbers are set close together to allow kids of all abilities to play side-by-side.

Trike Trails provide a fun, imaginative and accessible addition to playgrounds. They can accommodate a number of play events, including a Drive Thru, Gas Station, Cozy Corners and sensory panels.

NEW PRODUCT

The Volito is the latest in multi-user, to-fro swings! Kids love to swing and with Volito, the whole group can swing together. The large disc-like seat is perfect for children of all abilities to interact and develop improved balance and posture.

When over 500 volunteers gathered to build an inclusive playground at Coronado Elementary School in Salina, Kansas, a play extravaganza was created for children of all abilities to play side-by-side. A local service organization dedicated to creating mobility and independence for people with disabilities provided the vision to propel the project to completion. A multitude of other community champions fueled it along the way, including the Coronado PTO. The playground is equipped with safety surfacing that is conducive to wheelchairs, walkers and running kids. The fully ramped components, from the turf to the highest deck, promote frolicking fun and safe, interactive play.

Burke's "Play for Everyone" philosophy helps to guide our product design process and promotes a focus on inclusive play so all people, of all abilities, can play together in a safe and comfortable environment. From Playground Access to spinning to sensory play, we strive to design each and every playspace with attention to the needs of all people. Because at Burke, "Play for Everyone" just isn't our motto, it is our way of life.

Playground Access is one of the most important aspects to inclusive play spaces and allows children with physical limitations to access the playground and experience the social, physical and developmental benefits of play. This includes everything from entry to the play area and safety surfacing to ramps and transfer stations.

Multiple Play Areas - It is recommended to include multiple play areas, some that are more physically active and others that are quieter and more interactive.

Variety - Make sure to include a variety of play events that require different challenge levels so children with different skill levels can play together.

Social Play - Include areas where ALL children can gather to socialize, learn and play together, whether it is an area to relax, a cooperative play event like the Volito Multi-User Swing or an imaginative play Trike Trail.

Sensory Play - Include play events that encourage sensory involvement to enhance cognitive motor skills, stimulate creative thinking and support tactile and auditory growth.

Motion Play - Play events that sway, swing or spin help kids develop necessary perceptual skills, spacial awareness and sensory integration. They can also help to build strength, balance and coordination.

MOTION

The KidForce Spinner is one of our most popular spinning events that builds strength, balance and coordination.

Chin-Up Bars set at two different heights accommodate children that are standing as well as sitting in a wheelchair or other mobility device. Panels, overheads and climbers are set close together to allow kids of all abilities to play side-by-side.

Trike Trails provide a fun, imaginative and accessible addition to playgrounds. They can accommodate a number of play events, including a Drive Thru, Gas Station, Cozy Corners and sensory panels.

Playground Ramps - Burke offers Transfer Stations and both double and single wide access ramps so the excitement of playing is available to everyone.

MOTION NEW PRODUCT
The Cruiser brings all children together on an exciting motion play event that holds up to two wheelchairs and 12 children.

SOUND
Sound Garden - Real piano, drum and rain sounds promote creative and collaborative play for children of all abilities while providing tactile and auditory stimulation.

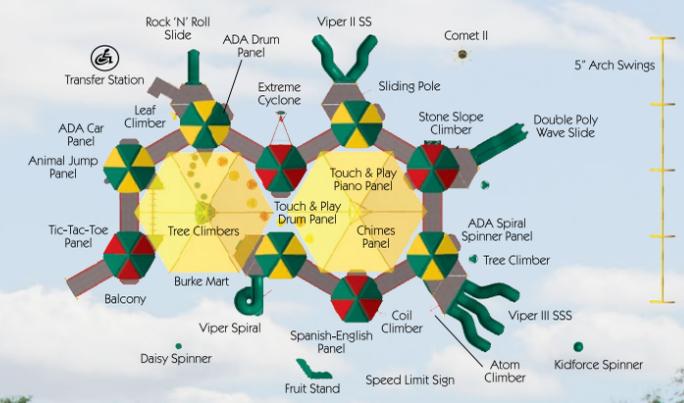

MOTION NEW PRODUCT
The Volito is the latest in multi-user, to-fro swings! Kids love to swing and with Volito, the whole group can swing together. The large disc-like seat is perfect for children of all abilities to interact and develop improved balance and posture.

Swings Bring ALL children together by combining traditional Belt Seats with Adaptive Swing Seats.

VISIT US AT TO INTERACT!

When over 500 volunteers gathered to build an inclusive playground at Coronado Elementary School in Salina, Kansas, a play extravaganza was created for children of all abilities to play side-by-side. A local service organization dedicated to creating mobility and independence for people with disabilities provided the vision to propel the project to completion. A multitude of other community champions fueled it along the way, including the Coronado PTO. The playground is equipped with safety surfacing that is conducive to wheelchairs, walkers and running kids. The fully ramped components, from the turf to the highest deck, promote frolicking fun and safe, interactive play.

According to the CDC, more than one third of children in the U.S. are overweight or obese and trends show those numbers rising. Burke created Intensity® to help combat childhood obesity by keeping kids active and engaged. With Intensity Equipment comes the Intensity Curriculum, written in partnership with personal trainers. It gives teachers, recreational specialists and playground supervisors the tools needed to actively engage children in fitness-orientated activities on Intensity playgrounds. The best part is Intensity Curriculum comes free with every Fitness Play Complex.

Often times, deep sorrow and tragedy stir the human spirit to accomplish amazing acts. Champion Park in Enid, Oklahoma is a shining example. A spectacular playground was designed to honor former Oklahoma football player Austin Box who passed away unexpectedly in 2011. Austin's sister, Whitney Box, helped design the new park with the Austin Box "12" Foundation and the city of Enid. The goal of the playspace is to inspire kids to "Play like a champion today," and integrates an array of climbers, slides and spinners to engage neighborhood kids and families in play while celebrating Box's life.

Infinite Design Options

Burke Components comprise of an incredible collection of slides, climbers, bridges, overhead events, tunnels, panels and more! Your custom Burke playground will be unmatched in quality, variety, fun and long-term value. Infinite playground design options are yours with these exciting, challenging and engaging components. Only Burke gives you this kind of unlimited creative freedom to easily build a playground that's guaranteed to exceed all your expectations. Explore these pages and Reinvent Your Playground with Burke!

Invent Your Playground!

Your Burke representative can help you choose the appropriate accessories, bridges, links, shade systems and roofs to complete the design based on your needs. They will even place the structure into your recreational space and provide you with a 3D rendering of your new playground!

1 Select the play system that best fits your needs.

See page 156 for more information on our play systems.

2 Pick from our selection of awesome slides. Make sure to place one slide close to a transfer station for a more inclusive design.

3 Choose from dozens of play panels! Make sure to include ground level events for a more inclusive design.

4 Pick your favorite climbers. Include 2 climbers for every slide.

6 Add Post Toppers, Roofs and/or Accessories to enhance the play value and aesthetics of your design!

5 Add an overhead event. Overhead events help build upper body strength and balance. Ages 5 and up only.

DESIGN

Your Own!

The Viper Slide can't be tamed, but kids love trying! Viper's exciting twisty and fast serpentine action is guaranteed to generate high energy fun and safe, healthy play. The Viper Slide offers you incredible freedom to exercise your own imagination while designing your playground layout. Connect up to 3 Slides to each platform entrance for maximum fun while using minimal space. Easy to assemble and maintain, Burke's highest quality materials and advanced engineering ensure strength, integrity and long-lasting durability. Contact your Burke representative to find the right twist and turn for your playground.

NEW PRODUCT

SOUND

BB-2320

Sound Garden

Incorporate musical exploration into your playground with Burke's all-new Sound Garden. Real piano, drum and rain sounds provide creative and collaborative play opportunities for children of all abilities. The different music panels can be configured in multiple orientations to incorporate a variety of musical activities. Two-sided educational panels add additional play value and allow more children to explore the excitement of music together.

Custom Panels

Add imagination to your playground with Burke's custom panels. Use a single panel to add a touch of personalization or combine several panels to theme entire structures. Our Custom Routed and Full Color Panels are available in over a dozen standard sizes giving you unlimited design possibilities. Simply provide your ideas or artwork to your local Burke representative and our in-house design team will create your custom playground.

A New Spin!

Kids will always be kids, and play adventure for them will always include swinging, swaying, sliding, climbing, spinning, teetering and tottering! That's why Burke Basics remain so popular, but that doesn't mean we've given up Reinventing Play. We are constantly developing fresh ideas from classic concepts, producing innovative and exciting products that kids will love.

Infinite Design Options

Burke Components comprise of an incredible collection of slides, climbers, bridges, overhead events, tunnels, panels and more! Your custom Burke playground will be unmatched in quality, variety, fun and long-term value. Infinite playground design options are yours with these exciting, challenging and engaging components. Only Burke gives you this kind of unlimited creative freedom to easily build a playground that's guaranteed to exceed all your expectations. Explore these pages and Reinvent Your Playground with Burke!

Invent Your Playground!

Your Burke representative can help you choose the appropriate accessories, bridges, links, shade systems and roofs to complete the design based on your needs. They will even place the structure into your recreational space and provide you with a 3D rendering of your new playground!

1 Select the play system that best fits your needs.

See page 156 for more information on our play systems.

6 Add Post Toppers, Roofs and/or Accessories to enhance the play value and aesthetics of your design!

DESIGN

Your Own!

2 Pick from our selection of awesome slides.

Make sure to place one slide close to a transfer station for a more inclusive design.

3 Choose from dozens of play panels!

Make sure to include ground level events for a more inclusive design.

5 Add an overhead event. Overhead events help build upper body strength and balance. Ages 5 and up only.

4 Pick your favorite climbers.

Include 2 climbers for every slide.

The Viper Slide can't be tamed, but kids love trying! Viper's exciting twisty and fast serpentine action is guaranteed to generate high energy fun and safe, healthy play. The Viper Slide offers you incredible freedom to exercise your own imagination while designing your playground layout. Connect up to 3 Slides to each platform entrance for maximum fun while using minimal space. Easy to assemble and maintain, Burke's highest quality materials and advanced engineering ensure strength, integrity and long-lasting durability. Contact your Burke representative to find the right twist and turn for your playground.

Playgrounds Powered by Wind

By participating in programs that support the development of clean energy, we are able to purchase **100%** of our electricity usage from wind and other renewables. This positions Burke as an environmental leader within the playground industry.

We've also partnered with the U.S. Environmental Protection Agency Green Power Partnership Program. Through this partnership, we meet specific goals for green energy use and report to the EPA on our usage each year. For more information visit www.epa.gov/greenpower.

Safety

The **Customer Product Safety Commission (CPSC)** created playground safety guidelines to help local communities, schools, day care centers, cooperations and other groups build safe playgrounds. The **American Society for Testing and Materials (ASTM)** is an independent world renowned developer of technical standards utilized in testing products. ASTM and CPSC guidelines are built into our proprietary EZ Design program ensuring every Burke playground is designed to meet or exceed all their standards. To highlight our commitment to safety, BCI Burke is the only playground manufacturer to partner with the National Program for Playground Safety (NPPS) and provide a **FREE** Safe Playground Supervision Kit with each play system purchased.

BCI Burke Company, LLC, is a member in good standing of IPEMA, the International Play Equipment Manufacturers Association. IPEMA is a member-driven international trade organization which represents and promotes an open market for manufacturers of play equipment and surfacing.

In the interest of playground safety, the International Play Equipment Manufacturers Association (IPEMA) provides a Third Party Certification Service whereby a designated independent laboratory, with TÜV America (TÜV), validates an equipment manufacturer's certification of conformance to ASTM F1487, Standard Consumer Safety Performance Specification for Playground Equipment for Public Use, except sections 7.1.1, 10 & 12.6.1; to CAN/CSA Z614, Children's Playspaces and Equipment, except clauses 9.8, 10 & 11; or both. The use of the corresponding logo in Burke's Catalog signifies that Burke has received written validation from the independent laboratory that the product(s) associated with the use of the logo conforms to the requirements of the indicated standard.

Check IPEMA website www.ipema.org to confirm product validation.

In the interest of playground safety, the International Play Equipment Manufacturers Association (IPEMA) provides a Third Party Certification Service whereby a designated independent laboratory, with TÜV America (TÜV), validates a surfacing manufacturer's certification of conformance to ASTM F1292, Standard Specification for Impact Attenuation Under and Around Playground Equipment, and for an engineered wood fiber manufacturer its certification of conformance, also to ASTM F2075, Standard Specification for Engineered Wood Fiber for use as a Playground Safety Surface Under and Around Playground Equipment, Section 4.4, for testing Sieve Analysis and Section 4.6, for testing the presence of Tramp Metal. The use corresponding logo in Burke's Catalog signifies that Burke has received written validation from the independent laboratory that the product(s) associated with the use of the logo conforms to the requirements of the indicated standard.

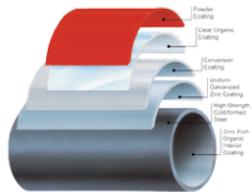

Check IPEMA website www.ipema.org to confirm product validation, its thickness and critical height.

The space requirements shown in this publication are shown to ASTM Standards. Requirements for other standards may be different.

Allied Tube & Conduit

Allied Tube & Conduit is the leading supplier of galvanized and commercial quality tubing to both manufacturers and metal distributors in over 70 consumer and industrial markets. Their unique in-line galvanizing process produces superior corrosion resistance by utilizing a triple layer of protection. This advanced processing technique was first introduced in 1959 and is still relevant today.

ISO 9001:2008 and ISO 14001:2004

NSF-ISR attests that BCI Burke Company, LLC is in compliance with the International Environmental Management Standard ISO 14001:2004 and ISO 9001:2008.

ISO 9001:2008 emphasizes processes to aid in continuous improvement in quality and customer service. ISO 14001:2004 ensures Burke follows strict environmental controls in manufacturing processes.

Designs to Fit Your Needs

BCI Burke's proprietary EZ Design software makes it easier than ever for you to get the exact playground design you want. As your local Burke playground representative creates your custom playground, EZ Design automatically works in the background to make sure the playground design meets ADAAG, ASTM and CPSC guidelines. Your Burke representative can even place your custom structure into your recreational space and provide you with **FREE** 3D renderings of your new Burke playground.

Value Added Resources

Community Build Playground Handbook - BCI Burke provides you with a **FREE** step-by-step guide to planning your playground purchase, installation and community build project and events. Best of all, your Burke representative will be there to help guide you throughout the whole process.

NPPS Safety Kit - BCI Burke truly gives you the most value for your money. As part of our Total Cost of Ownership Package, we offer value-added resources **FREE** with every playground purchase. The National Program for Playground Safety (NPPS) Playground Supervision Safety Kit helps supervisors and educators be prepared on the playground.

Customized Maintenance Kit - To help maintain a safe, functioning playground we include a Custom Maintenance Schedule, Touch-up Paint, Graffiti Remover and Carrying Case **FREE** with every playground structure purchase.

Intensity Curriculum - To help combat childhood obesity, BCI Burke created the Intensity Curriculum for teachers, recreational specialists and playground supervisors to actively engage children in safe, fitness-oriented activities on Intensity playgrounds. The kit is **FREE** with every Intensity fitness play complex (for ages 5-12) purchase and includes access to exclusive online instructional videos, an Intensity Curriculum handbook and a lanyard with instructional cards for on-the-playground convenience.

Funding Solutions

Financing - If your organization needs a new Burke playground but doesn't have the capital on hand, BCI Burke's lease-to-own program can assist you in acquiring the funding you need so your kids can enjoy their new Burke playground today.

Grant Resource Center - We've partnered with The School Funding Center to provide up-to-date grant information along with expert grant writing services. The School Funding Center has one of the most comprehensive and current grant databases available on the internet today and maintains a network of experienced grant writers who can create grant applications for affordable fees.

Funds for Fun - Deciding to build a new or add equipment to a current playground is easy. After the decision is made, the next question is, "Where will the money come from?" At BCI Burke, we understand the dedication and hard work it takes to raise the funds for playground equipment. That's why we have created a direct donation fundraising program to help your organization raise the funds it needs for your new park, recreation or school playground.

Purchasing Cooperatives

HGACBuy is a unit of local government that strives to make the governmental procurement process more efficient by establishing competitively priced contracts for goods and services, and providing the customer service necessary to help its members achieve their procurement goals.

TCPN is a national governmental purchasing cooperative able to leverage the purchasing potential of governmental entities in all 50 states - this means equal pricing for the smallest entity and the largest buyer. TCPN contracts are available for use, and benefit, public and private schools, colleges and universities, cities, counties, non-profits and all governmental entities.

GSA

Federal parks, child development programs, military bases and other agencies are a major priority for BCI Burke, and agencies can purchase Burke playgrounds through Premier Playgrounds, the company's GSA contract (GS-07F-0081M), for installation virtually anywhere in the world.

KaBOOM!

BCI Burke has been chosen as a Preferred Vendor for KaBOOM!, the national non-profit working to save play for America's children. Burke is proud to support KaBOOM!'s vision of a great place to play within walking distance of every child in America. Visit ourdreamplayground.org to see how KaBOOM! can help your community through access to grants and do-it-yourself project tools that help you plan your playground project, recruit volunteers and raise funds.

School Specialty

BCI Burke has partnered with School Specialty, a national education company that provides innovative products, programs and services to help schools and educators engage and inspire students of all ages and abilities.

VALUE ADDED RESOURCES & PARTNERSHIPS

Burke Built™ Quality**Made in the USA****KoreKconnect®****Direct-Bolt****EZKconnect®****Stainless Steel Hardware****Powder Coating****Compound Plastics**

KoreKconnect Direct-Bolt Clamp System: Nucleus and Voltage feature our Industry-leading KoreKconnect direct-bolt clamp system resulting in the strongest and most accurate connection system ever. Factory drilled holes make for easy, precise installation and an error-free fit. Best of all, KoreKconnect is covered for 100 years under our non-prorated Generations Warranty.

Direct-Bolt Connection System: Intensity, Intensity 2-5 and Little Buddies feature Burke's trusted direct-bolt connection that uses a durable, straightforward direct-bolt system to ensure a trouble-free installation and provide the necessary strength to accommodate the demands of playing children. Like our KoreKconnect system, Direct-Bolt connections are covered for 100 years under our Generations Warranty.

EZKconnect Deck Mounting System: Our exclusive self-leveling deck attachment and factory CNC construction allows for faster and precise location of decks during installation. The 2-bolt per corner deck attachment increases overall structure strength and stability.

Platforms: Burke's oversized non-slip platforms are constructed of heavy-duty punched steel that can support more than 2 tons. Our vinyl coating is California compliant, free of lead and other hazardous heavy metals.

Tamper-Resistant Stainless Steel Hardware: All hardware is covered for 100 years under our Generations Warranty.

Premium Powder Coatings: Our industry-leading powder coatings and finishes prevent fading, last longer and deter rust. We also offer a "coastal package" powder coat system. This special powder coat system for metal components and upright posts will provide added corrosion and chemical protection along with added longevity to the color and gloss retention of the powder coated parts. Contact your Burke representative for more information on colors, price and warranty.

Compound Plastics with UV-15: You'll get long wear and bright, vibrant colors that hold up for years thanks to our thick, durable rotomolded plastics with UV-15 protection. That's why we can cover them for 15 years under our Generations Warranty.

Climbing Cables: Our climbing cables are flexible enough to provide movement, yet strong enough to last. Our ropes are made from 6 polypropylene cords with steel reinforcement wrapped around 3 polypropylene cords in the center. Each cord contains 8 galvanized steel strands covered with polypropylene multi-fibers.

Aluminum Connectors: Swivel connectors at the end of our ropes allow assembly at any angle with no unwanted twists in the net. The aluminum fittings used to secure the joints are swaged in place to prevent any movement between the rope and fittings that could cause wear.

BCI Burke Generations Warranty™
The Longest and Strongest warranty in the industry

BCI Burke Company, LLC ("Burke") warrants that all standard products are warranted to be free from defects in materials and workmanship, under normal use and service, for a period of one (1) year from the date of invoice.

We stand behind our products.

In addition, the following products are warranted, under normal use and service from the date of invoice as follows:

- One Hundred (100) Year Limited Warranty on aluminum and steel upright posts (including Intensity®, Voltage™, Nucleus™ and Little Buddies®) against structural failure due to corrosion, deterioration or workmanship.
- One Hundred (100) Year Limited Warranty on KoreKconnect® clamps against structural failure due to corrosion, deterioration or workmanship.
- One Hundred (100) Year Limited Warranty on Hardware (nuts, bolts, washers)
- One Hundred (100) Year Limited Warranty on bolt-through fastening and clamp systems (Voltage™, Intensity®, Nucleus™ and Little Buddies®).
- Twenty-Five (25) Year Limited Warranty on spring assemblies and aluminum cast animals.
- Fifteen (15) Year Limited Warranty on main structure platforms and decks, metal roofs, table tops, bench tops, railings, loops and rungs.
- Fifteen (15) Year Limited Warranty on all plastic components including StoneBorders against structural failure due to materials or workmanship.
- Ten (10) Year Limited Warranty on ShadePlay Canopies fabric, threads, and cables against degradation, cracking or material breakdown resulting from ultra-violet exposure, natural deterioration or manufacturing defects. This warranty is limited to the design loads as stated in the specifications.
- Ten (10) Year Limited Warranty on NaturePlay® Boulders and GFRC products against structural failure due to natural deterioration or workmanship. Natural wear, which may occur with any concrete product with age, is excluded from this warranty
- Ten (10) Year Limited Warranty on Full Color Custom Signage against manufacturing defects that cause delamination or degradation of the sign. Full Color Custom Signs also carry a two (2) year warranty against premature fading of the print and graphics on the signs.
- Five (5) Year Limited Warranty on Intensity® cables against premature wear due to natural deterioration or manufacturing defects.
- Five (5) Year Limited Warranty on swing seats and hangers; Kid Koaster® Trolleys and other moving parts against structural failure due to materials or workmanship.
- Three (3) Year Limited Warranty on electronic panel speakers, sound chips and circuit boards against electronic failure caused by manufacturing defects.

The warranty stated above is valid only if the equipment is erected in conformity with the layout plan and/or installation instructions furnished by BCI Burke Company, LLC using approved parts; have been maintained and inspected in accordance with BCI Burke Company, LLC instructions. Burke's liability and your exclusive remedy hereunder will be limited to repair or replacement of those parts found in Burke's reasonable judgment to be defective. Any claim made within the above stated warranty periods must be made promptly after discovery of the defect. A part is covered only for the original warranty period of the applicable part. Replacement parts carry the applicable warranty from the date of shipment of the replacement from Burke. After the expiration of the warranty period, you must pay for all parts, transportation and service charges.

Burke reserves the right to accept or reject any claim in whole or in part. Burke will not accept the return of any product without its prior written approval. Burke will assume transportation charges for shipment of the returned product if it is returned in strict compliance with Burke's written instructions.

THE FOREGOING WARRANTIES ARE EXCLUSIVE AND IN LIEU OF ANY OTHER WARRANTY, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTY OR MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. IF THE FOREGOING DISCLAIMER OF ADDITIONAL WARRANTIES IS NOT GIVEN FULL FORCE AND EFFECT, ANY RESULTING ADDITIONAL WARRANTY SHALL BE LIMITED IN DURATION TO THE EXPRESS WARRANTIES AND BE OTHERWISE SUBJECT TO AND LIMITED BY THE TERMS OF BURKE'S PRODUCT WARRANTY. SOME STATES DO NOT ALLOW THE EXCLUSION OF CERTAIN IMPLIED WARRANTIES, SO THE ABOVE LIMITATION MAY NOT APPLY TO YOU.

Warranty Exclusions: The above stated warranties do not cover: "cosmetic" defects, such as scratches, dents, marring, or fading; damage due to incorrect installation, vandalism, misuse, accident, wear and tear from normal use, exposure to extreme weather; immersion in salt or chlorine water, unauthorized repair or modification, abnormal use, lack of maintenance, or other cause not within Burke's control; and

Limitation of Remedies: Burke is not liable for consequential or incidental damages, including but not limited to labor costs or lost profits resulting from the use of or inability to use the products or from the products being incorporated in or becoming a component of any other product. If, after a reasonable number of repeated efforts, Burke is unable to repair or replace a defective or nonconforming product, Burke shall have the option to accept return of the product, or part thereof, if such does not substantially impair its value, and return the purchase price as the buyer's entire and exclusive remedy. Without limiting the generality of the foregoing, Burke will not be responsible for labor costs involved in the removal of products or the installation of replacement products. Some states do not allow the exclusion of incidental damages, so the above exclusion may not apply to you.

TERMS OF SALE

Pricing: Prices published in this catalog are in USD, are approximate and do not include shipping & handling, surfacing, installation nor applicable taxes. All prices are subject to change without notice. Contact your Burke representative for current pricing. Payments are to be made in USD.

Weights: Weights are approximate and may vary with actual orders.

Installation: All equipment is shipped unassembled. For a list of factory-certified installers in your area, please contact your Burke representative.

Specifications: Product specifications in this catalog were correct at the time of publication. However, product improvements are ongoing at Burke, and we reserve the right to change or discontinue specifications without notice.

Loss or Damage in Transit: A signed bill of lading is our receipt from a carrier that our shipment to you was complete and in good condition upon arrival. Before you sign, please check the Bill of Lading carefully when the shipment arrives to make sure nothing is missing and there are no damages. Once the shipment leaves our plant, we are no longer responsible for any damage, loss or shortage.

For more information regarding the warranty, call Customer Service at 920-921-9220 or 1-800-356-2070.
