CONTRACT AWARD: The contract will be awarded to the lowest responsive and responsible bidder by category of product. Failure to bid all items may result in the bidder being deemed not responsive.												
EVALUATION: Bids will be evaluated in accordance with Article I-17 of the "Instructions to Bidders". In addition, the State will evaluate the bid based on the Total Item Price which equals the estimated number of units multiplied by the unit bid price plus the appropriate delivery charge. If estimated usages are unknown a quantity of one (1) will be used for the evaluation. If there is no "delivery charge per mile round trip map mileage rate" supplied or, the calculated value of the delivery charge is less than the minimum delivery charge, the minimum delivery charge will be used for evaluation purposes. The State reserves the right to reject the "per mile" delivery charge or the "minimum" delivery charge if it is determined to be excessive. Example Calculation: Total Item Price = [(vehicle unit bid price) x (estimated number of units)] + [(delivery charge per mile round trip x 300) x estimated number of vehicles]

In addition, the State will evaluate the bid based on the Total Item Price which equals the estimated number of units multiplied by the unit bid price plus the appropriate delivery charge. If estimated usages are unknown a quantity of one (1) will be used for the evaluation. If there is no "delivery charge per mile round trip map mileage rate" supplied or, the calculated value of the delivery charge is less than the minimum delivery charge, the minimum delivery charge will be used for evaluation purposes. The State reserves the right to reject the "per mile" delivery charge or the "minimum" delivery charge if it is determined to be excessive.</p> <p>Example Calculation: Total Item Price = [(vehicle unit bid price) x (estimated number of units)] + [(delivery charge per mile round trip x 300) x estimated number of vehicles]</p>
