

STATE OF OHIO  
DEPARTMENT OF ADMINISTRATIVE SERVICES  
GENERAL SERVICES DIVISION  
OFFICE OF PROCUREMENT SERVICES  
4200 SURFACE ROAD, COLUMBUS, OH 43228-1395

MANDATORY USE CONTRACT FOR: ORPHAN WELL - OIL AND GAS WELL PLUGGING PROJECTS

CONTRACT NUMBER: CSP904016

EFFECTIVE DATES: 11/01/16 TO 12/31/19

The Department of Administrative Services has accepted Proposals submitted in response to Request for Proposal (RFP) No. CSP904016 that opened on 06/10/16. The evaluation of the Proposal responses has been completed. The Offeror listed herein has been determined to be the highest ranking Offeror and has been awarded a Contract for the services listed. The respective Proposal response including, Contract Terms & Conditions, any Proposal amendment, special Contract Terms & Conditions, specifications, pricing schedules and any attachments incorporated by reference and accepted by DAS become a part of this Services Contract.

This Requirements Contract is effective beginning and ending on the dates noted above unless, prior to the expiration date, the Contract is renewed, terminated, or cancelled in accordance with the Contract Terms and Conditions.

This Requirements Contract is available to the Ohio Department of Natural Resources, Division of Oil & Gas Resources Management as applicable.

The agency is eligible to make purchases of the contracted services in any amount and at any time as determined by the agency. The State makes no representation or guarantee that department will purchase the volume of services as advertised in the Request for Proposal.

This Requirements Contract and any Amendments thereto are available from the DAS Web site at the following address:

[www.ohio.gov/procure](http://www.ohio.gov/procure)

## ORPHAN WELL - OIL AND GAS WELL PLUGGING PROJECTS

The Agency is responsible for regulating Ohio's oil and natural gas industry and for the protection of all Ohioans and our environment while ensuring the state's abundant natural resources are managed properly. "Idle and orphaned well" means a well for which a bond has been forfeited or an abandoned well for which no money is available to plug the well in accordance with ORC 1509 and rules adopted under it. The plugging projects on which selected Contractors may be requested to submit project bids will involve oil and gas wells which have been deemed by the Agency to be idle and orphaned wells ("Orphan Wells"), and that will be plugged with monies from bonds that have been forfeited and/or monies from the Oil and Gas Well Fund. These Orphan Wells will vary in geographical area, depth and condition. A site specific Scope of Work, listing the Agency's plugging requirements for each Orphan Well will be provided to the prequalified Contractors for each plugging project.

### PROJECT ASSIGNMENT PROCESS

1. Projects may consist of one or more wells grouped together. Each project will have a unique name and number. All new project notifications and supporting documents will be placed on the Ohio Department of Natural Resources (ODNR) Website for review and response. Electronic notification will be sent to all Contractors listed on MAC110 Contract. Project notifications and supporting documents may include site locations, dates, submission instructions, and other necessary information.
2. Project submissions received will be considered for completeness of statement of work (SOW), cost and funding availability. The review team will make a recommendation to ODNR's Fiscal Management and forward approved SOW for the Contractor's signature, followed by ODNR final approval.
3. A copy of the signed SOW and a purchase order will be forwarded to the designated Contractor prior to the start of work.
4. All submissions will receive notification of determination.
