The State of Ohio, through the Department of Administrative Services on behalf of the Ohio Department of Medicaid is requesting proposals for:

An Ohio Medicaid Enterprise System (OMES), Provider Network Management RFP

INQUIRY PERIOD BEGINS: February 8, 2018
INQUIRY PERIOD ENDS: March 7, 2018
PROPOSAL DUE DATE: March 21, 2018
OPENING TIME: 1:00 P.M. (Eastern Time)
OPENING LOCATION: Department of Administrative Services
General Services Division
Bid Desk
4200 Surface Road
Columbus, Ohio 43228-1313

This RFP consists of five parts and 11 attachments, totaling 123 consecutively numbered pages. Three supplements and one exhibit document also are included with this RFP. Please verify that you have a complete copy.

In lieu of taking exceptions to RFP requirements, including but not limited to terms and conditions, scope of work statements, service levels requirements, etc., or providing assumptions that may be unacceptable to the State, offerors are strongly encouraged to use the inquiry process in Part Three of the RFP.

1. PART ONE: EXECUTIVE SUMMARY

1.1. PURPOSE
This is a Request for Competitive Sealed Proposals (“RFP”) under Sections 125.071 and 125.18 of the Ohio Revised Code (the “Revised Code”) and Section 123:5-1-8 of the Ohio Administrative Code (the “Administrative Code”). The Ohio Department of Medicaid (ODM), have asked the Department of Administrative Services (DAS) to solicit competitive sealed proposals (“Proposals”) for an Ohio Medicaid Enterprise System (OMES), Provider Network Management (the “Project”), and this RFP is the result of that request.

The State Provider Network Management services are to assist in the modernization of the Medicaid Management Information System (MMIS) and integration of new modules and functionality.

If a suitable offer is made in response to this RFP, the State of Ohio (the “State”), through the Department of Administrative Services, may enter into a contract (the “Contract”) to have the selected offeror (the “Contractor”) perform all or part of the Project. This RFP provides details on what is required to submit a Proposal for the Project, how the State will evaluate the Proposals, and what will be required of the Contractor in performing the work.

This RFP also gives the estimated dates for the various events in the submission process, selection process, and performance of the work. While these dates are subject to change, prospective offerors must be prepared to meet them as they currently stand.

Once awarded, the contract will be in effect until June 30th, 2019. ODM may renew this Contract for five additional two-year terms, contingent on Contractor performance, the future needs of ODM, and the availability of funds for this contract.

The State may reject any Proposal if the offeror fails to meet a deadline in the submission or evaluation phases of the selection process or objects to the dates for performance of the Project or the terms and conditions in this RFP.

1.2. BACKGROUND
The Ohio Department of Medicaid (ODM) is the State Medicaid agency for the State of Ohio, and is responsible for administering Titles XIX (Medicaid) and XXI (Children’s Health Insurance Program (CHIP)) of the Social Security Act. ODM oversees the provision of health care services for about three million eligible persons through a network of more than 108,000 providers and six capitated Managed Care Plans (MCPs). ODM provides health care services through a suite of programs, including Medicaid, CHIP, Medicaid Waiver programs, and additional related programs supported by other funding sources.

The Centers for Medicare and Medicaid Services (CMS) considers the Ohio Medicaid Enterprise (OME) to consist of ODM and the ODM sister State agencies that participate in Medicaid and related program operations. CMS encourages states to leverage technology investments across all participating agencies, and ODM intends to support the sister State agencies with the planned OMES.
1.3. Objectives

The successful contractor shall demonstrate an understanding of the OME objectives for the modernization of the MMIS, and describe how their proposed solution facilitates achievement of these objectives by the OME and the participating agencies. The objectives apply to all components and stakeholders of the OMES, and include:

- **Consolidation of all screening, credentialing, revalidation, and eligibility activities** for all medical and non-medical providers participating in OME programs into consistent processes supported by a single system component
- **Better integrate manual processes** associated with provider eligibility into the automated systems
- **Alignment with CMS guidance** relating to implementation and operation of a modern MMIS
- **Collaborative enterprise governance** among participating agencies
- **Improved information sharing** among participating sister state agencies
- **Modern technical platforms** supporting Medicaid operations
- **Increased system flexibility** to enable quicker response to service offerings, rapidly-changing business requirements, and stakeholder expectations
- **Shared components** to allow consolidation of functionality that can be leveraged by SSAs performing similar business activities
- **Elimination of older, isolated systems and processes** supporting business functions not addressed by the current core MMIS components
- **Consolidating information across the OME** for enterprise reporting and analytical purposes
- **Improving performance management** and stakeholder accountability
- **Continuous quality improvement** in operations and health outcomes
- **Alignment with applicable industry standards and best practices**

1.4. Scope of Work.

An overview of the project scope of Work is provided below. The Project scope of the Work and requirements are provided in greater detail within Supplements 1 and 2 to this RFP.

In summary, the required functionality for the OMES Provider Network Management solution includes:

- **Provider Application Processing** – Online and mobile, self-service application for all providers desiring participation in programs operated by the agencies within the OME, including medical practitioners, home-based service providers (atypical providers), and facilities (e.g., hospitals, Nursing facilities (NFs), and Intermediate Care Facilities (ICFs)), including the processing of providers desiring affiliation with the State’s MCPs
- **Automated Provider Eligibility, Screening, and Credentialing** – Highly automated and flexible eligibility determinations for providers, based on the applicant’s requested program
participation, and including automated confirmation of the applicant’s qualifications and background checks

- **Provider Enrollment Processing** – Highly automated processes to associate eligible providers to their requested programs and the services they are authorized to provide within the program(s), continuously monitor provider eligibility, respond to adverse information that may be received after eligibility determination, and terminate provider enrollment when appropriate

- **Provider Management and Oversight Activities** – Highly automated and self-service processes to monitor and support the network of providers servicing the OME programs, including provider communications, provider performance monitoring, processing of potentially adverse information regarding providers, continuous monitoring of continued provider eligibility, facility change of ownership, data gathering to support rate-setting activities, and provider affiliation with the MCPs

- **Provider Information Management** – Maintenance of the OMES Provider Registry, the system of record for provider information used throughout OMES in support of operational processing of all OMES functions

- **Provider Self-Service Portal** – Operation and support for a self-service portal allowing providers access to information and functions necessary to conduct business with the OME, accessed via browser and mobile platforms

- **OMES Integration** – Implementation and operational integration with other OMES components necessary to perform functions within the Provider Network Management Module, and in support of functions performed by other OMES components

Additionally, the Awarded Vendor shall assist ODM with CMS certification as detailed in the Scope of Work, including but not limited to providing assistance on any deficiencies found during the certification process.

**Any potential future enhancements will be based on the Interval Deliverable Agreement (IDA) process (see Attachment Two).**
1.5. **CALENDAR OF EVENTS**

The schedule for the RFP process and the Work is given below. The State may change this schedule at any time. If the State changes the schedule before the Proposal due date, it will do so through an announcement on the State Procurement Website’s question and answer area for this RFP. The Website announcement will be followed by an amendment to this RFP, also available through the State’s Procurement Website. After the Proposal due date and before the award of the Contract, the State will make schedule changes through the RFP amendment process. Additionally, the State will make changes in the Work schedule after the Contract award through the change order provisions in the General Terms and Conditions Attachment to this RFP. It is each prospective offeror’s responsibility to check the Website question and answer area for this RFP for current information regarding this RFP and its Calendar of Events through award of the Contract.

There are references in this RFP to the Proposal due date. Unless it is clearly provided to the contrary in this RFP, any such reference means the date and time (Columbus, Ohio local time) that the Proposals are due and not just the date.
2. PART TWO: STRUCTURE OF THIS RFP

2.1. ORGANIZATION

This RFP is organized into five parts and has eleven (11) attachments. The parts and attachments are listed below. There also may be one or more supplements to this RFP listed below.

2.2. PARTS:

Part 1 Executive Summary
Part 2 Structure of this RFP
Part 3 General Instructions
Part 4 Evaluation of Proposals
Part 5 Award of the Contract

2.3. ATTACHMENTS:

Attachment One Evaluation Criteria
Attachment Two Special Provisions
Attachment Three Requirements for Proposals
Attachment Four General Terms and Conditions
Attachment Five Sample Contract
Attachment Six Offeror Certification Form
Attachment Seven Offeror Profile Summary
Attachment Eight Standard Affirmation and Disclosure Form (EO 2011-2012K)
Attachment Nine Cost Summary Workbook
Attachment Ten Sample Business Associate Agreement (BAA)
Attachment Eleven Master Contract for Software Licensing (USE FOR ON-PREMISE PROPOSAL)

2.4. SUPPLEMENTS AND EXHIBITS:

Supplement 1 Statement of Work
Supplement 2 System Requirements
Supplement 3 State Architecture and Computing Standards, Security, Privacy and Data Handling Requirements
Exhibit 1 OMES Provider Network Management Exhibit List (FOR INFORMATION PURPOSES ONLY)
3. PART THREE: GENERAL INSTRUCTIONS

The following sections provide details on how to get more information about this RFP and how to respond to it. All responses must be complete and in the prescribed format.

3.1. CONTACTS

The following Procurement Representative will represent the State during the RFP process:

Andrew Miller
Acquisition Analyst
Department of Administrative Services
Enterprise IT Contracting
30 East Broad Street, 39th Floor
Columbus, Ohio 43215

During the performance of the Project, a State representative (the “Project Representative”) will represent the State and be the primary contact for the Project. The State will designate the Project Representative after the Contract award.

3.2. INQUIRIES

Offerors may make inquiries regarding this RFP anytime during the inquiry period listed in the Calendar of Events. To make an inquiry, offerors must use the following process:

- Access the State’s Procurement Website at http://procure.ohio.gov;
- From the Quick Links menu on the right, select “Bid Opportunities Search”;
- In the “Document/Bid Number” field, enter the RFP number found on the first page of this RFP (the RFP number begins with zero followed by the letter “A”);
- Select “Request for Proposals” from the Opportunity Type dropdown;
- Click the “Search” button;
- On the Opportunity Search Results page, click on the hyperlinked Bid Number;
- On the Opportunity Details page, click the “Submit Inquiry” button;
- On the document inquiry page, complete the required “Personal Information” section by providing:
  - First and last name of the prospective offeror’s representative (the “Offeror Representative” who is responsible for the inquiry,
  - Name of the prospective offeror,
  - The Offeror Representative’s business phone number, and
  - The Offeror Representative’s email address;
• Type the inquiry in the space provided including:
  o A reference to the relevant part of this RFP,
  o The heading of the provision in question, and
  o The page number of the RFP where the provision can be found.
• Enter the Confirmation Number at the bottom of the page
• Click the “Submit” button.

An offeror submitting an inquiry will receive an immediate acknowledgement that the State has received the inquiry as well as an email acknowledging receipt. The offeror will not receive a personalized response to the question nor notification when the State has answered the question.

Offerors may view inquiries and responses on the State’s Procurement Website by using the “Bid Opportunities Search” feature described above and by clicking the “View Q & A” button on the document information page.

The State usually responds to inquiries within three business days after receipt, excluding weekends and State holidays. The State will not respond to any inquiries received after 8:00 a.m. on the inquiry end date.

The State does not consider questions asked during the inquiry period through the inquiry process as exceptions to the terms and conditions of this RFP.

3.3. AMENDMENTS TO THE RFP

If the State revises this RFP before the Proposals are due, it will announce any amendments on the State Procurement Website.

Offerors may view amendments by using the “Bid Opportunities Search” function of the State’s Procurement Website (described in the Inquiries Section above) and then clicking on the amendment number to display the amendment.

When an amendment to this RFP is necessary, the State may extend the Proposal due date through an announcement on the State Procurement Website. The State may issue amendment announcements any time before 5:00 p.m. on the day before Proposals are due, and it is each prospective offeror’s responsibility to check for announcements and other current information regarding this RFP.

After the Proposal due date, the State will distribute amendments only to those offerors whose Proposals are under active consideration. When the State amends the RFP after the due date for Proposals, the State will permit offerors to withdraw their Proposals within five business days after the amendment is issued. This withdrawal option will allow any offeror to remove its Proposal from active consideration should the offeror feel that the amendment changes the nature of the transaction so much that the offeror’s Proposal is no longer in its interest.
Alternatively, the State may allow offerors that have Proposals under active consideration to modify their Proposals in response to the amendment.

If the State allows offerors to modify their Proposals in response to an amendment, the State may limit the nature and scope of the modifications. Unless otherwise provided in the State’s notice, offerors must make any modifications or withdrawals in writing and submit them to the State within five business days after the amendment is issued at the address and in the same manner required for the submission of the original Proposals. If this RFP provides for a negotiation phase, this submission procedure will not apply to changes negotiated during that phase. The State may reject any modification that is broader in scope than the State has authorized in the announcement of the amendment and treat it as a withdrawal of the offeror’s Proposal.

3.4. PROPOSAL SUBMITTAL

Each offeror must submit a technical section and a cost section as part of its total Proposal before the Proposal due date. The offeror must submit the technical section and the cost section of its Proposal in separate, opaque packages. The package with the technical section of the Proposal must be sealed and contain one (1) originally signed technical section and six (6) copies of the technical section. The package with the cost section must be sealed and contain three (3) complete copies of the cost section of the Proposal. Further, the offeror must mark the outside of each package with either “RFP #0A1227 - Ohio Medicaid Enterprise System (OMES), Provider Network Management RFP – Technical Proposal” or “RFP #0A1227 Ohio Medicaid Enterprise System (OMES), Provider Network Management RFP – Cost Summary,” as appropriate.

All offerors are subject to the architecture and computing standards, and security, privacy and data handling requirements of Supplement 3, regardless of the offeror’s proposed solution.

Included in each sealed package, the offeror also must provide an electronic “searchable” copy of everything contained within the package on CD-ROM in Microsoft Office (native format), Microsoft Word (native format), Microsoft Project (native format), Microsoft Excel (native format) or Adobe Acrobat format, as appropriate. If there is a discrepancy between the hard copy and the electronic copy of the Proposal, the hard copy will control, and the State will base its evaluation of the offeror’s Proposal on the hard copy.

Proposals are due and must be received by the Department of Administrative Services Bid Desk no later than 1:00 p.m. (Columbus, Ohio local time) on the Proposal due date. Proposals submitted by email, fax, or other electronic means are not acceptable, and the State may reject them. Offerors must submit their Proposals to:

Department of Administrative Services
Attn: Andrew Miller c/o Bid Desk RFP 0A1227
4200 Surface Road
Columbus, Ohio 43228

Bid Desk Main Phone Number: 614-466-5090
The State may reject any Proposals or unsolicited modifications it receives after the deadline. An offeror that mails its Proposal must allow for adequate mailing time to ensure its timely receipt. Offerors also must allow for potential delays due to increased security. The Bid Desk accepts packages between the hours of 7:30 A.M. to 4:00 P.M. Monday through Friday, excluding State Holidays. No deliveries will be accepted before or after these hours without prior arrangements. Offerors must allow sufficient time since the State may reject late Proposals regardless of the cause for the delay.

Each offeror must carefully review the requirements of this RFP and the contents of its Proposal. Once opened, Proposals cannot be altered or withdrawn, except as allowed by this RFP.

By submitting a Proposal, the offeror acknowledges it has read this RFP, understands it, and agrees to be bound by its requirements and terms and conditions. The State is not responsible for the accuracy of any information regarding this RFP that is obtained from a source other than the inquiry process described in the RFP.

Revised Code Section 9.24 prohibits the State from awarding a contract to any entity against whom the Auditor of State has issued a finding for recovery (a "Finding"), if the Finding is unresolved at the time of the award. This also applies to renewals of contracts. By submitting a Proposal, the offeror warrants it is not subject to an unresolved Finding under Section 9.24 at the time of its submission. Additionally, the offeror warrants it will notify the Department of Administrative Services in writing immediately upon becoming subject to such an unresolved Finding after submitting its Proposal and before the award of a Contract under this RFP. Should the State select the offeror’s Proposal for award of a Contract, this warranty of immediate written notice will apply during the term of the Contract, including any renewals or extensions. Further, the State may treat any unresolved Finding against the Contractor that prevents a renewal of the Contract as a breach, in accordance with the provisions of Attachment Four, General Terms and Conditions.

The State may reject any Proposal if the offeror takes exception to the terms and conditions of this RFP, includes unacceptable assumptions or conditions in its Proposal, fails to comply with the procedure for participating in the RFP process, or fails to meet any requirement of this RFP. In its sole discretion, the State also may reject any Proposal it believes is not in its interest to accept and may decide not to award a contract to any or all of the offerors responding to this RFP.

Offerors may not prepare or modify their Proposals on State premises.

All Proposals and other material offerors submit will become the property of the State and may be returned only at the State’s option. All Proposals will be open to the public after the State has awarded the Contract. Consequently, offerors should not include any confidential information in their Proposals or other material submitted as part of the evaluation process.
The State will retain all Proposals, or a copy of them, as part of the Contract file for at least three years. After the three-year retention period, the State may return, destroy, or otherwise dispose of the Proposals and any copies of them.

3.5. Waiver of Defects
The State may waive any defects in any Proposal or in the submission process followed by an offeror, but the State will only do so if it believes that it is in the State's interest and will not cause any material unfairness to other offerors.

3.6. Multiple or Alternate Proposals
The State will not accept multiple Proposals from a single offeror or any alternative solutions or options to the requirements of this RFP. Any offeror that submits multiple Proposals for each of these options may have all of its Proposals rejected. Additionally, any offeror that disregards a requirement in this RFP by proposing an alternative to it or otherwise may have its Proposal rejected by the State.

3.7. Changes to Proposals
The State will allow modifications or withdrawals of Proposals only if the State receives them before the Proposal due date. No modifications or withdrawals will be permitted after the due date, except as authorized by this RFP.

3.8. Proposal Instructions
The technical proposal and the cost proposal must each be organized in an indexed binder ordered in the same manner as the response items are ordered in the applicable attachments to this RFP. The requirements for a Proposal's contents and formatting are contained in the attachments to this RFP. The State wants clear and concise Proposals, but offerors must answer questions completely and meet all the RFP's requirements.

The State is not liable for any costs an offeror incurs in responding to this RFP or by participating in the evaluation process, regardless of whether the State awards the Contract through this process, decides not to go forward with the Work, cancels this RFP for any reason, or contracts for the Work through some other process or through another RFP.
4. PART FOUR: EVALUATION OF PROPOSALS

4.1. DISCLOSURE OF PROPOSAL CONTENTS
The State will seek to open the Proposals in a manner that avoids disclosing their contents. Additionally, the State will seek to keep the contents of all Proposals confidential until the Contract is awarded. But the State will prepare a registry of Proposals that contains the name of each offeror. The public may inspect that registry after the State opens the Proposals.

4.2. REJECTION OF PROPOSALS
The State may reject any Proposal that is not in the required format, does not address all the requirements of this RFP, objects to the terms or conditions of this RFP, or that the State determines is excessive in price or otherwise not in the State’s interest to accept. In addition, the State may cancel this RFP, reject all the Proposals, and/or seek to do the Work through a new RFP or other means.

4.3. EVALUATION OF PROPOSALS GENERALLY
The evaluation process may consist of up to six distinct phases:
1. Initial review;
2. Technical evaluation;
3. Evaluation of costs;
4. Requests for more information;
5. Determination of responsibility; and

The State may decide whether phases four and six are necessary, and the State may rearrange the order in which it proceeds with the phases. The State also may add or remove sub-phases to any phase at any time, if the State believes doing so will improve the evaluation process.

4.4. CLARIFICATIONS AND CORRECTIONS
During the evaluation process, in the State’s sole discretion, it may request clarifications from any offeror under active consideration and may give any offeror the opportunity to correct defects in its Proposal, if the State believes doing so would not result in an unfair advantage for the offeror, and it is in the State’s interest. The State may reject any clarification that is non-responsive or broader in scope than what the State requested. If the State does so, or if the offeror fails to respond to the request for clarification, the State then may request a corrected clarification, consider the offeror’s Proposal without the clarification, or disqualify the offeror’s Proposal.

Corrections and clarifications must be completed off State premises.
4.5. **INITIAL REVIEW**

The State will review all Proposals for format and completeness. The State normally rejects incomplete or incorrectly formatted Proposals, though it may waive any defects or allow an offeror to submit a correction, if the State believes doing so would not result in an unfair advantage for the offeror and is in the State’s interest. Late proposals will not be opened or considered. After the initial review, the State will forward all timely, complete, and properly formatted Proposals to an evaluation team, led by the Procurement Representative.

4.6. **TECHNICAL EVALUATION**

The State will evaluate each Proposal that it has determined is timely, complete, and properly formatted. The evaluation will be scored according to the requirements identified in this RFP, including the requirements in Attachment One. Other attachments to this RFP may further refine these requirements, and the State has a right to break these requirements into components and weight any components of a requirement according to their perceived importance.

The State also may have the Proposals or portions of them reviewed and evaluated by independent third parties or various State personnel with experience that relates to the Work or to a criterion in the evaluation process. Additionally, the State may seek reviews from end users of the Work or the advice or evaluations of various State personnel that have subject matter expertise or an interest in the Work. The State may adopt or reject any recommendations it receives from such reviews and evaluations and give them such weight as the State believes is appropriate.

During the technical evaluation, the State will calculate a point total for each Proposal that it evaluates. At the sole discretion of the State, it may reject any Proposal receiving a significant number of zeros for sections in the technical portions of the evaluation. The State may select those offerors submitting the highest rated Proposals for the next phase. The number of Proposals that advance to the next phase will be within the State’s discretion, but regardless of the number of Proposals selected, they always will be the highest rated Proposals from this phase.

At any time during this phase, in the State’s sole discretion, it may ask an offeror to correct, revise, or clarify any portions of its Proposal.

The State will document all major decisions and make these a part of the Contract file, along with the evaluation results for each Proposal considered.

4.7. **REQUIREMENTS**

Attachment One provides project requirements the State will use to evaluate the Proposals, including any mandatory requirements. If the offeror’s Proposal meets all the mandatory requirements, the offeror’s Proposal may be included in the next phase of the evaluation, which will consider the other project requirements described in Attachment One.
In the case of any requirements that call for a team of people, the offeror must submit a team that collectively meets all the team requirements. But the experience of multiple candidates may not be combined to meet a single requirement. Further, previous experience of the candidate submitted for a Project Manager position may not be used to meet any other team member requirements. Each candidate proposed for the Work team must meet at least one of the requirements.

This RFP asks for responses and submissions from offerors, most of which represent components of the requirements in Attachment One. While each requirement represents only a part of the total basis for a decision to award the Contract to an offeror, a failure by an offeror to make a required submission or meet a mandatory requirement normally will result in a rejection of that offeror’s Proposal. The value assigned to each requirement is only a value used to determine which Proposal is the most advantageous to the State in relation to the other Proposals that the State received. It is not a basis for determining the importance of meeting that requirement.

If the State does not receive any Proposals that meet all the mandatory requirements, the State may cancel this RFP. Alternatively, if the State believes it is in its interest, the State may continue to consider one or more of the highest-ranking Proposals despite their failure to meet all the mandatory requirements. The State may not consider any lower-ranking Proposals unless all Proposals ranked above it are also considered, except as provided below.

In any case where no Proposal meets all the mandatory requirements, it may be that an upper ranking Proposal contains a failure to meet a mandatory requirement that the State believes is critical to the success of the RFP’s objectives. When this is so, the State may reject that Proposal and consider lower ranking Proposals. Before doing so, the State may notify the higher ranking offeror of the situation and allow the offeror an opportunity to cure its failure to meet that mandatory requirement.

If the highest ranking offeror cures its failure to meet a mandatory requirement that the State has deemed critical to the success of the RFP’s objectives, the State may continue to consider the offeror’s Proposal. But if the offeror is unwilling or unable to cure the failure, its Proposal may be rejected. The State then may continue to consider the other remaining Proposals, including, if the State so chooses, Proposals that ranked lower than the rejected Proposal.

4.8. Cost Evaluation

Once the technical merits of the Proposals are considered, the State may consider the costs of one or more of the highest-ranking Proposals. But it is within the State’s discretion to wait until after any interviews, presentations, and demonstrations to evaluate costs. Also, before evaluating the technical merits of the Proposals, the State may do an initial review of costs to determine if any Proposals should be rejected because of excessive cost. The State may reconsider the excessiveness of any Proposal’s cost at any time in the evaluation process.

The State may select one or more of the Proposals for further consideration in the next phase of the evaluation process based on the price performance formula contained in Attachment One. The Proposal(s) selected for consideration in the next phase always will be the highest-ranking Proposal(s) based on this analysis. That is, the State may not move a lower-ranking Proposal to
the next phase unless all Proposals that rank above it also are moved to the next phase, excluding any Proposals that the State disqualifies because of excessive cost or other irregularities.

If the State finds that it should give one or more of the highest-ranking Proposals further consideration, the State may move the selected Proposals to the next phase. The State alternatively may choose to bypass any or all subsequent phases and make an award based solely on its scoring of the preceding phases, subject only to its review of the highest-ranking offeror’s responsibility, as described below.

4.9. REQUESTS FOR MORE INFORMATION

The State may require some offerors to interview, make a presentation about their Proposals, or demonstrate their products or services. If the presentations, demonstrations, or interviews are held as part of the technical evaluation phase, all offerors that have Proposals under evaluation may participate. Alternatively, if the presentations, demonstrations, or interviews are held after the technical evaluation, the State normally will limit them to one or more of the highest ranking offerors. The State normally will limit such presentations, demonstrations, and interviews to areas in which it seeks further information from the highest ranking offeror or offerors. Typically, these discussions provide an offeror with an opportunity to do one or more of the following:

- Clarify its Proposal and ensure a mutual understanding of the Proposal’s content;
- Showcase its approach to the Work; and
- Demonstrate the professionalism, qualifications, skills, and work knowledge of its proposed candidates.

The State will schedule the presentations, demonstrations, and interviews at its convenience and discretion. The State will determine the scope and format of any such presentations, demonstrations, and interviews and may record them. Additionally, if the State moves more than one offeror to this phase, the scope and format of these presentations, demonstrations, and interviews may vary from one offeror to the next, depending on the particular issues or concerns the State may have with each offeror’s Proposal.

The State normally will not rank interviews, demonstrations, and presentations. Rather, if the State conducts the interviews, demonstrations, or presentations as part of the technical evaluation, the State may use the information it gathers during this process in evaluating the technical merits of the Proposals. If the State holds the demonstrations, presentations, or interviews only for one or more of the top-ranking offerors after the evaluation phase, the State may decide to revise its existing Proposal evaluations based on the results of this process.

4.10. DETERMINATION OF RESPONSIBILITY

The State may review the background of one or more of the highest-ranking offerors and its or their key team members and subcontractors to ensure their responsibility. For purposes of this RFP, a key team member is a person that an offeror identifies by name in its Proposal as a member of its proposed team. The State will not award the Contract to an offeror that it determines is not responsible or that has proposed candidates or subcontractors to do the Work
that are not responsible. The State’s determination of an offeror’s responsibility may include the following factors: experience of the offeror and its key team members and subcontractors, its and their past conduct on previous contracts, past performance on previous contracts, ability to execute this Contract properly, and management skill. The State may make this determination of responsibility based on the offeror’s Proposal, reference evaluations, a review of the offeror’s financial ability, and any other information the State requests or determines is relevant.

Some of the factors used in determining an offeror’s responsibility, such as reference checks, may also be used in the technical evaluation of Proposals in phase two of the evaluation process. In evaluating those factors in phase two, the weight the State assigns to them, if any, for purposes of the technical evaluation will not preclude the State from rejecting a Proposal based on a determination that an offeror is not responsible. For example, if the offeror’s financial ability is adequate, the value, if any, assigned to the offeror’s relative financial ability in relation to other offerors in the technical evaluation phase may or may not be significant, depending on the nature of the Work. If the State believes the offeror’s financial ability is inadequate, the State may reject the offeror’s Proposal despite its other merits.

The State may make a responsibility determination at any time during the evaluation process, but it typically will do so only once it has evaluated the technical merits and costs of the Proposals. The State always will review the responsibility of an offeror selected for an award before making the award, if it has not already done so earlier in the evaluation process. If the State determines that the offeror selected for award is not responsible, the State then may go down the line of remaining offerors, according to rank, and determine responsibility with the next highest-ranking offeror.

4.11. REFERENCE CHECKS

As part of the State’s determination of an offeror’s responsibility, the State may conduct reference checks to verify and validate the offeror’s and its proposed candidates’ and subcontractors’ past performance. Reference checks that indicate poor or failed performance by the offeror or a proposed candidate or subcontractor may be cause for rejection of the offeror’s Proposal. Additionally, the State may reject an offeror’s Proposal as non-responsive if the offeror fails to provide requested reference contact information.

The State may consider the quality of an offeror’s and its candidates’ and subcontractors’ references as part of the technical evaluation phase, as well as in the State’s determination of the offeror’s responsibility. The State also may consider the information it receives from the references in weighing any requirement contained in the technical evaluation phase, if that information is relevant to the requirement. In checking an offeror’s or any of its proposed candidates’ or subcontractors’ references, the State will seek information that relates to the offeror’s previous contract performance. This may include performance with other governmental entities, as well as any other information the State deems important for the successful performance and management of the Work and a positive working relationship between the State and the offeror. In doing this, the State may check references other than those provided in the offeror’s Proposal. The State also may use information from other sources, such as third-party reporting agencies. On behalf of itself and each of its candidates and subcontractors, each offeror submitting a Proposal consents to parties contacted by the State as part of the reference check process providing the State with reasonable information.
requested by the State. The offeror warrants that it has the authority to grant this consent on behalf of each of its candidates and subcontractors.

4.12. **FINANCIAL ABILITY**

Part of State’s determination of an offeror’s responsibility may include the offeror's financial ability to perform the Contract. This RFP may expressly require the submission of audited financial statements from all offerors in their Proposals, but if this RFP does not make this an express requirement, the State still may insist that an offeror submit audited financial statements for up to the past three years, if the State is concerned that an offeror may not have the financial ability to carry out the Contract. Also, the State may consider financial information other than the information that this RFP requires as part of the offeror's Proposal, such as credit reports from third-party reporting agencies.

4.13. **CONTRACT NEGOTIATIONS**

The final phase of the evaluation process may be contract negotiations. It is entirely within the discretion of the State whether to permit negotiations. An offeror must not submit a Proposal assuming that there will be an opportunity to negotiate any aspect of the Proposal, and any Proposal that is contingent on the State negotiating with the offeror may be rejected. If negotiations are held, they will be scheduled at the convenience of the State, and the selected offeror or offerors must negotiate in good faith and without unreasonable delay.

The State may limit negotiations to particular aspects of any Proposal or the RFP, limit the offerors with whom the State negotiates or to dispense with negotiations entirely. Should the evaluation result in a top-ranked Proposal, the State may limit negotiations to only that offeror and not hold negotiations with any lower-ranking offeror. If negotiations are unsuccessful with the top-ranked offeror, the State then may go down the line of remaining offerors, according to rank, and negotiate with the next highest-ranking offeror. Lower-ranking offerors do not have a right to participate in negotiations conducted in such a manner.

If the State decides to negotiate simultaneously with more than one offeror, or decides that negotiations with the top-ranked offeror are not satisfactory and therefore negotiate with one or more of the lower-ranking offerors, the State then will determine if an adjustment in the ranking of the offerors with which it held negotiations is appropriate based on the negotiations. The Contract award, if any, then will be based on the final ranking of offerors, as adjusted.

Auction techniques that reveal one offeror’s price to another or disclose any other material information derived from competing Proposals are prohibited. Any oral modification of a Proposal must be reduced to writing by the offeror as described below.

Following negotiations, the State may set a date and time for the offeror(s) with which the State conducted negotiations to submit a best and final Proposal. If negotiations were limited and all changes were reduced to signed writings during negotiations, the State need not require a best and final Proposal.
If best and final Proposals are required, they may be submitted only once, unless the State
determines that it is in the State's interest to conduct additional negotiations. In such cases, the
State may require another submission of best and final Proposals. Otherwise, discussion of or
changes in the best and final Proposals will not be allowed. If an offeror does not submit a best
and final Proposal, the State will treat that offeror's previous Proposal as its best and final
Proposal.

From the opening of the Proposals to the award of the Contract, everyone evaluating Proposals
on behalf of the State will seek to limit access to information contained in the Proposals solely to
those people with a need to know the information. The State also will seek to keep this
information away from other offerors, and the State may not tell one offeror about the contents
of another offeror's Proposal in order to gain a negotiating advantage.

Before the award of the Contract or cancellation of the RFP, any offeror that seeks to gain
access to the contents of another offeror's Proposal may be disqualified from further
consideration.

Negotiated changes will be reduced to writing and become a part of the Contract file, which will
be available for public inspection after award of the Contract or cancellation of the RFP,
provided the State does not plan to reissue the RFP. If the State plans to reissue the RFP, the
Contract file will not be available until the subsequent RFP process is completed. Unless the
State agrees otherwise in writing, the offeror must draft and sign the written changes and submit
them to the State within five business days. If the State accepts the changes, the State will give
the offeror written notice of the State's acceptance, and the negotiated changes to the
successful offer will become a part of the Contract.

4.14. FAILURE TO NEGOTIATE

If an offeror fails to provide the necessary information for negotiations in a timely manner, or
fails to negotiate in good faith, the State may terminate negotiations with that offeror, remove
the offeror's Proposal from further consideration, and seek such other remedies as may be
available in law or in equity.
5. PART FIVE: AWARD OF THE CONTRACT

5.1. CONTRACT AWARD

The State plans to award the Contract based on the schedule in the RFP, if the State decides the Project is in its best interest and has not changed the award date.

Included with this RFP, as Attachment Five, is a sample of the Contract for the RFP. The State will issue two originals of the Contract to the Contractor proposed for award. The offeror must sign and return the two originals to the Procurement Representative. The Contract will bind the State only when the State’s duly authorized representative signs all copies and returns one to the Contractor with an award letter, the State issues a purchase order, and all other prerequisites identified in the Contract have occurred.

The Contractor must begin work within 15 business days after the State issues a purchase order under the Contract, unless the State agrees otherwise in writing. If the State awards a Contract pursuant to this RFP, and the Contractor is unable or unwilling to perform the work, the State may terminate the Contract, effective immediately on notice to the Contractor. The State then may return to the evaluation process under this RFP and resume the process without giving further consideration to the originally selected Proposal. The State also may seek such other remedies as are available in law or in equity for the Contractor’s failure to perform under the Contract.

5.2. BUSINESS ASSOCIATE AGREEMENT

Prior to Contract award, the offeror must sign the Business Associate Agreement in Attachment Ten of this RFP. This Health Insurance Portability and Accountability Act of 1996 (hereafter, HIPAA) Business Associate Agreement will be made a part of the Contract.

The Associate performs certain services on behalf of or for the Agency pursuant to the underlying Contract that requires the exchange of information including protected health information protected by the

Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), as amended by the American Recovery and Reinvestment Act of 2009 (Pub. L. No. 111-5) (the “HITECH Act”), any associated regulations and the federal regulations published at 45 CFR parts 160 and 164 (sometimes collectively referred to as “HIPAA”). The Agency’s Health Plan is a “Covered Entity” as that term is defined in HIPAA, and the parties to the underlying Contract are entering into this Agreement to establish the responsibilities of both parties regarding HIPAA-covered information and to bring the underlying Contract into compliance with HIPAA.

5.3. CONTRACT

If this RFP results in a Contract award, the Contract will consist of this RFP, including all attachments, written amendments to this RFP, the Contractor's Proposal, and written, authorized amendments to the Contractor's Proposal. It also will include any materials incorporated by reference in the above documents and any purchase orders and change orders
issued under the Contract. The form of the Contract is included as a one-page attachment to this RFP, but it incorporates all the documents identified above. The general terms and conditions for the Contract are contained in Attachment Four to this RFP. If there are conflicting provisions between the documents that make up the Contract, the order of precedence for the documents is as follows:

1. The one-page Contract (Attachment Five) in its final form;
2. The RFP, including the supplements and attachments, amended and clarified version of Contractor’s Response. Contractor’s Response includes Attachment Four – General Terms and Conditions, and all other Attachments, Supplements and materials included in Contractor’s Response; and
3. The attached Cost Proposal Workbook.
4. The applicable Purchase Order

Change Orders and amendments issued after the Contract is executed may expressly change the provisions of the Contract. If they do so expressly, then the most recent of them will take precedence over anything else that is part of the Contract.

The term of the Contract will be from the award date until June 30th 2019. The State may renew this Contract for up to five (5) additional two-year term(s), subject to and contingent on the discretionary decision of the Ohio General Assembly to appropriate funds for this Contract in each new biennium. Any such renewal of all or part of the Contract also is subject to the satisfactory performance of the Contractor and the needs of the State.
6. Attachments

6.1. ATTACHMENT ONE: EVALUATION CRITERIA

**Mandatory Requirements.** The first table lists the mandatory requirements for this RFP. If the offeror’s Proposal meets all the mandatory requirements, the offeror’s Proposal may be included in the next part of the technical evaluation phase as described in the next table.

<table>
<thead>
<tr>
<th>Mandatory Requirements</th>
<th>Accept</th>
<th>Reject</th>
</tr>
</thead>
<tbody>
<tr>
<td>The Offeror must demonstrate experience within the last thirty-six months as the prime contractor for at least three federal, state, local government or private healthcare entities where a solution of similar size and scope is currently being or has been implemented.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>The Offeror must provide a detailed plan which demonstrates that a minimum of 15% of the cost of the work under the resulting contract will be subcontracted through one or more Ohio Certified Minority Business Enterprise (MBE) vendors. The MBE plan shall include, at minimum, the name(s) of the MBE vendor(s), percent of total project cost allocated to each MBE vendor, description of work to be performed by each MBE vendor, and letter(s) of intent signed by each identified MBE vendor, and MBE Certification letters for each MBE vendor.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Scored Criteria.** In the technical evaluation phase, the State will rate the technical merits of the Proposals based on the following requirements and the weight assigned to each requirement:

<table>
<thead>
<tr>
<th>Scored Requirements</th>
<th>Weight</th>
<th>Does Not Meet</th>
<th>Partially Meets</th>
<th>Meets</th>
<th>Exceeds</th>
</tr>
</thead>
<tbody>

**Evaluation Scoring Formula.** The evaluation team will rate the Proposals that meet the Mandatory Requirements based on the following criteria and respective weights.

<table>
<thead>
<tr>
<th>Criteria</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Technical Proposal</td>
<td>75%</td>
</tr>
<tr>
<td>Cost Summary</td>
<td>20%</td>
</tr>
<tr>
<td>MBE Set-aside</td>
<td>5%</td>
</tr>
<tr>
<td>Preference for hosted solution</td>
<td>5%</td>
</tr>
</tbody>
</table>

The State is committed to making more State contracts, services, benefits and opportunities available to minority business enterprises (MBE). To foster this commitment, the State included an MBE Set-aside component in the Evaluation Scoring Formula (shown above) of this RFP. The State requires a minimum of 15% MBE Set-aside but encourages a higher percentage.

DAS will apply the Veterans Friendly Business Enterprise preference as required by ORC 9.318 and OAC 123:5-1-16. The State shall assess 5% preference for hosted solutions. The 5% preference equates to 80 points. These points will be awarded during the scoring process and do not factor in to the minimum technical score threshold.

To ensure the scoring ratio is maintained, the State will use the following formulas to adjust the points awarded to each offeror.

The offeror with the highest point total for the Supplement 1 Work Requirements and Supplement 2 Technical Proposal will receive 750 points. The remaining offerors will receive a percentage of the maximum points available based upon the following formulas:

**Technical Proposal Points** = (Offeror’s Technical Proposal Points / Highest Number of Technical Proposal Points Obtained) x 750

The offeror with the lowest proposed Not-To-Exceed Fixed Price will receive 200 points. The remaining offerors will receive a percentage of the maximum cost points available based upon the following formula:

**Cost Summary Points** = (Lowest Not-To-Exceed Fixed Price/Offeror’s Not-To-Exceed Fixed Price) x 200

* The State is aware that this totals to 105%. However, the State wanted to make it clear that there is a preference for hosted solutions.
The offeror with the highest proposed MBE Set-aside Cost percentage will receive 50 points respectively. The remaining offerors will receive a percentage of the maximum MBE Set-aside points available based upon the following formula:

\[
\text{MBE Set-aside Points} = \left( \frac{\text{Offeror’s MBE Set-aside Cost Percentage}}{\text{Highest MBE Set-aside Cost Percentage}} \right) \times 50
\]

**Note:** For purposes of calculating the MBE Set-aside Points, the State will not award any points for proposed MBE services that are optional elements of the Scope of Work.

Total Points Score: The total points score is calculated using the following formula:

\[
\text{Total Points} = \text{Technical Proposal Points} + \text{Cost Summary Points} + \text{MBE Set-aside Points} + 80 \text{ points for hosted solution preference (if applicable)}
\]

Qualifying technical proposals will be collectively scored by the Proposal Review Team (PRT). For each of the evaluation criteria given in the following score sheet, reviewers will collectively judge whether the technical proposal exceeds, meets, partially meets or does not meet the requirements expressed in the RFP, and assign the appropriate point value, as follows:

<table>
<thead>
<tr>
<th>0</th>
<th>3</th>
<th>7</th>
<th>9</th>
</tr>
</thead>
<tbody>
<tr>
<td>Does Not Meet Requirement</td>
<td>Partially Meets Requirement</td>
<td>Meets Requirement</td>
<td>Exceeds Requirement</td>
</tr>
</tbody>
</table>

A technical proposal’s total score will be the sum of the point value for all the evaluation criteria. The review team will collectively score each individual qualifying proposal. Technical proposals which do not meet or exceed a total score of at least 935 points out of a maximum of 1602 points, will be disqualified from further consideration. Technical Proposals meet or exceed the minimum required technical points will advance to the cost proposal score sheet.
6.2. ATTACHMENT TWO: INTERVAL DELIVERABLE AGREEMENT & SPECIAL PROVISIONS

PART ONE: INTERVAL DELIVERABLE AGREEMENT

Interval Deliverable Agreement (IDA). The State may use the Interval Deliverable Agreement (IDA) model for future work (e.g. implementation of additional State / County programs) or other work identified during the life of the Contract that cannot be defined to the appropriate level of detail during the RFP process. The Contractor must work with designated State staff to develop the deliverables and identify all work for each IDA. Deliverables or sub-deliverables will be defined prior to the start of each designated interval, and monitored throughout the designated interval and the life of the Contract. The IDAs will be identified and agreed to at least 30 days in advance of the beginning of the interval. For each IDA, the State and the Contractor will agree, in writing, to specific deliverables, work assignments, sub-deliverables, services to be provided using time and materials, the length of the interval, due dates, and Contractor staffing requirements based on positions and not-to-exceed hourly rates quoted in the Rate Card on the Cost Summary. The IDA is not effective until the State and Contractor have signed the agreement and a purchase order is issued to the Contractor. The agreed-upon IDA will be incorporated into the Contract.

The IDA (i.e., specifications, deliverables, work assignments, and due dates) may be amended based upon changing circumstances during a particular interval. An amendment to an IDA must be in writing and signed by both the State and the Contractor prior to performing the work specified in the amendment.

Specific application of standards of performance and acceptance may be defined in an IDA. The information below sets a guide and general rule of thumb for these standards.

If the IDA so indicates, there will be a period for performance testing in a production environment specific to the deliverables identified in the IDA. Prior to the performance period, the State, with the assistance of the Contractor, will perform user acceptance testing. Specifics of the performance period such as the timeframe, resources, support required, entrance and exit performance criteria, and standards of performance will be determined by the State, negotiated with the Contractor and incorporated in the IDA. The performance criteria in the IDA may be supplemented with relevant user manuals, technical materials and related writings, to the extent that the specifications in those writings supplement and refine rather than contradict the performance criteria in the IDA. Acceptance of the Deliverable depends on a successful completion of the performance period defined in this section and the IDA. This section applies to the Deliverables defined in the IDA, and any part of it, as well as replacements or substitutes for the Deliverable after completion of a successful performance period.

If the Deliverable does not meet the standard of performance during the performance period, the State will document the issues in a timely manner and in a useful and relevant form. Until the Contractor has demonstrably corrected all outstanding problems, the performance period will not restart and the Deliverable (or part thereof) will not be accepted. The performance period will continue on a day-by-day basis until the standard of performance and exit criteria are met. The Contractor will not be compensated until the Deliverable is accepted and any
additional cost associated with the iterations required to obtain acceptance are the responsibility of the Contractor.

If the Work fails to meet the standard of performance and exit criteria during the performance period, the Contractor will be in default and will not have a cure period. In addition to all other remedies the State may have under this Contract, the State will have the right to request correction or replacement of the relevant portion of the IDA.

The Work may have components that can be tested for acceptance individually. If so, there may be acceptance criteria listed in the IDA for each Deliverable that will be independently tested and accepted. But, unless the IDA expressly provides otherwise, the failure of any independently tested component to meet its acceptance criteria will give the State the right to reject the entire Deliverable. Alternatively, if the State determines that it is in the State's interest to reject only the part of the Deliverable that was independently and unsuccessully tested, it may do so. If the State chooses this option, the State will be entitled to a refund or credit toward the Contractor's Fee.

All IDAs must contain the following information, at a minimum:

- The designated interval length for each IDA.
- Goals and Objectives for the interval.
- Deliverables to be completed or partially completed during the interval. This will include, but not be limited to:
  - Deliverable Name;
  - Description of Deliverable including tasks or milestones to be completed;
  - Detailed acceptance criteria and standards of performance;
  - State dependencies identified by the Contractor for successful completion of the Deliverable;
- Deliverable Due Date;
- Risks associated with delays and incomplete Deliverables; and
- Fixed pricing for each Deliverable based on staffing requirements (services to be performed, identification of Contractor staff resource by name and position, number of hours allocated to the task for each assigned position, individual hourly rate for each Contractor resource assigned to a task, etc.).

The State may identify tasks and services that will be billed on a time and material basis. The State does not anticipate a need for time and material services for the Work, however in the event that time and materials work is appropriate, at the sole discretion of the State, the following information, at a minimum, must be provided in the IDA:

- Name, title, identification of the employer (prime or subcontractor) and number of staff;
- Staff work hours with any known exceptions noted;
▪ Description of the work to be performed by the Contractor;
▪ Specific Contractor resources assigned;
▪ Individual rate for each Contractor resource assigned;
▪ Projected number of Contractor hours allocated (per resource);
▪ Dates covered in the work;
▪ Dependencies;
▪ Management or staffing issues;
▪ Standards of performance; and
▪ Work Breakdown Schedule (WBS) for all Work in the IDA.

In addition, the following information may also be required:

▪ Staffing Issues
▪ Required work related travel and training.

It is the Contractor’s responsibility to provide qualified professionals to meet the goals, tasks, and objectives of each IDA.

The State’s intent is for all IDAs to be developed and negotiated in partnership between the State and the Contractor, with each having a vested interest in its success. In the event that the State and the Contractor are unable to negotiate an IDA, the State, may request mediation.
PART TWO: SPECIAL PROVISIONS

Software Licenses.  The Contractor must provide or arrange an Enterprise perpetual software licenses for all Commercial Software necessary to meet the requirements of this RFP.  For the Key Commercial Software, the State requires Enterprise license rights to ultimately serve its entire enterprise, which consists of hundreds of personnel workers, and hundreds of technical administrators and third-party contractors who may work with the software.  Sufficient seats for all such individuals will be required, and if multiple copies of the system will be needed, the right to copy and deploy multiple copies of the software in production, test, and development environments.  For all other Commercial Software, the State requires a license that provides adequate usage rights to meet the State’s current need, as identified elsewhere in this RFP and as disclosed in the selected Contractor’s Cost Summary.  The State may also copy the software for use on computers owned and controlled by third parties, if the purpose of doing so is to facilitate disaster recovery, emergency needs, including testing and training for such purposes, and to permit a third party to host the Key Commercial Software on behalf of the State in an outsourcing arrangement.  This license also gives the State the right to provide the authorized individuals described above access to the Key Commercial Software remotely through a browser or client software and an Internet or similar connection for all uses and purposes identified above.

NOTE: The State will retain all licenses, software, and systems procured through this RFP.

Submittal of Deliverables.  The Contractor must perform the Work in a timely and professional manner that produces Deliverables that fully meet the Contract’s requirements.  The Contractor must provide the Deliverables no later than the due dates the Contract requires.  At the time of delivery of a written Deliverable, the Contractor must submit an original and one copy of each Deliverable, plus an electronic copy.  The Contractor must provide the electronic copy in a file format acceptable to the State.

By submitting a Deliverable, the Contractor represents that, it has performed the associated tasks in a manner that meets the Contract’s requirements.

The Contractor must provide all Deliverables to the State Project Representative, who will review (or delegate review of) the materials or documents within a reasonable time after receipt, as specified in the State approved, base-lined Project Plan.

If the State determines that a Deliverable is not in compliance with the Contract, the State Project Representative will note the reason(s) for non-compliance and send notification to the Contractor Project Manager.  At no expense to the State, the Contractor then must bring the Deliverable into conformance and re-submit it to the Project Representative within ten business days.

If the State agrees the Deliverable is compliant with the Contract, the State Project Representative will sign a Deliverable Submittal Form and return a copy to the Contractor. In addition, if the State Project Representative or designee determines that the State should make a payment associated with the Deliverable, the State Project Representative will indicate that the payment should be made on the Deliverable Submittal Form.
The State form authorizing payment and the payment itself do not indicate that the State has accepted the Deliverables associated with the payment. The State’s acceptance of the Deliverables that are part of developing the Project is conditioned on a successful performance test upon completion of the Project or Services (if applicable).

**General Systems Implementation Standards.** The Contractor has and will continue to use its best efforts through quality assurance procedures to ensure there are no viruses or malware or undocumented features in its infrastructure, software and services and that they do not contain any embedded device or code (e.g., time bomb) that is intended to obstruct or prevent any use of or access to them by the State.

**Inconsistencies between Contract and Deliverables.** If any terms and conditions incorporated in a Deliverable, or other work product, are in addition to, inconsistent with, or conflict with the Contract, such terms and conditions are excluded and the Contract will prevail.

**The Contractor’s Fee Structure.** The Contract award will be for a Not-To-Exceed Fixed Price as agreed in the offerors Cost Summary Microsoft Excel® Workbook, Attachment Nine, (in native MS Excel format) payable in accordance with the following:

**Project Deliverables.** The Contractor may submit an invoice for Deliverables or milestones upon receipt of a signed Deliverable Submittal Form indicating: (i) the Deliverable or milestone completed conformed to the Contract in all material respects; and (ii) payment should be made. Project Deliverables will be paid within 30 days of receipt of a proper invoice, noting that the Deliverable has been accepted in accordance with the Contractor’s proposed Project Plan.

**Operational Run Services.** The Contractor may submit an invoice for monthly operations/run services, inclusive of any service level credits. Monthly operations/run will be paid within 30 days of receipt of a proper invoice.

**Reimbursable Expenses.** None.

**Bill to Address.** The State will provide the bill to address(s) after contract award. The bill to address may vary depending upon the work or services delivered.

**Location of Data.** The Contractor must perform all work on the Project and keep all State data within the United States, and the State may reject any Proposal that proposes to do any work or store or otherwise make State data available outside the United States. The State also may reject any Proposal for which the Contractor has not submitted the affirmation and disclosure form EXECUTIVE ORDER 2011-12K representing that it will ensure that all work on the Project will be done within the United States and that all State data will remain in the United States. Additionally, the Contractor must provide advance written notification for approval if at any time the location of work or data changes.
**Federal Provisions.** The Contractor must adhere to the following federal provisions:

  The Contractor shall comply with all applicable federal civil rights laws including, but not limited to: Title VII of the Civil Rights Act of 1964 (Pub.L.88-352); Title VI of the Civil Rights Act of 1964 (42 USC 2000d, et seq.); Americans with Disabilities Act of 1990 (42 U.S.C. § 12101, et seq.); and the Age Discrimination Act of 1975 (42 USC 6101, et seq.).

**MBE Set-aside and Reporting.** In the State’s commitment to make more State contracts, services, benefits and opportunities available to minority business enterprises (MBE), the State included in the Evaluation Scoring Formula of this RFP, a provision for the offeror to seek and set aside work for MBE subcontractors. The State requires 15% of the work to be Set-aside. In seeking proposals, the offeror must:

- Utilize a competitive process to which only Ohio certified MBEs may respond;
- Have established criteria by which prospective MBEs will be evaluated including business ability and specific experience related to the work requirements;
- Require the MBE subcontractor to maintain their certification throughout the term of the Contract, including any renewals; and,
- Propose the awarded MBE as a subcontractor under this RFP.

After award of the RFP, the Contractor must submit a quarterly report to the State Contract Manager or designee documenting the work performed by and payments made to the MBE subcontractor. These reports must reflect the level of MBE commitment agreed to in the Contract. The reports must be filed at a time and in a form prescribed by the State Contract Manager or designee.

**Notes:**

1. For this RFP Ohio certified MBEs that are the prime must subcontract with an Ohio certified MBE to meet the above requirement.
2. For purposes of calculating the MBE Set-aside points, the State will not award any points for proposed MBE services that are optional elements of the Scope of Work.

**Veteran-Friendly Business Enterprise (VBE) Program.** The State of Ohio’s Veteran-Friendly Business Enterprise (VBE) Procurement program provides preference to certified companies that compete to contract with the state to supply the goods or services it needs, including eligible construction services.

In order to be eligible for certification, the applicant business must satisfy one of the following criteria:

- At least ten percent of its employees are veterans or on active service;
- At least fifty-one percent of the applicant business is owned by veterans or persons on active service;
▪ If the applicant business is a corporation fifty-one percent of which is not owned by veterans or persons on active service, at least fifty-one percent of the board of directors are veterans or persons on active service; or

▪ The business is certified by the United States Department of Veterans Affairs as a Service-Disabled Veteran-Owned Small Business or a Veteran-Owned Small Business and the owner(s) of the business meets the definition of veteran as defined in Rule 123:5-1-01(II) of the Ohio Administrative Code.

Information regarding how to obtain this Business Certification can be located at the following link: http://das.ohio.gov/Divisions/EqualOpportunity/BusinessCertification/Veteran-FriendlyBusinessEnterprise(VBE)Program.aspx.
6.3. ATTACHMENT THREE: REQUIREMENTS FOR PROPOSALS

Proposal Format. These instructions describe the required format for a responsive Proposal. The offeror may include any additional information it believes is relevant. The offeror’s proposal submission must be submitted using the Microsoft Word version of the RFP to provide an in-line response to the RFP. An identifiable tab sheet must precede each section of the Proposal, and each Proposal must follow the format outlined below. All pages, except preprinted technical inserts, must be sequentially numbered. Any material deviation from the format outlined below may result in a rejection of the non-conforming Proposal.

Offeror responses should use a consistent contrasting color (blue is suggested to contrast with the black text of this document) to provide their response to each requirement so that the offeror response is readily distinguishable to the State. Below is an example of the required format for responding to the RFP requirements. To aid offerors in the creation of the most favorable depiction of their responses, alternative formats are acceptable that use typefaces, styles or shaded backgrounds, so long as the use of these formats are consistent throughout the offerors response and readily distinguishable from the baseline RFP. Alterations to the State provided baseline RFP language is strictly prohibited. The State will electronically compare offeror responses to the baseline RFP and deviations or alterations to the State’s RFP requirements may result in a rejection of the offeror’s Proposal.

To ensure that each Proposal addresses the required sections of the RFP, offerors must address each RFP requirement by section and sub-section heading and provide the offeror’s proposed solution or response to the requirement by section and subsection in-line using the provided Microsoft Word version of this RFP.

Illustrative Example: Customers Served in the Widget Space:

Instructions: The offeror is to describe the customers (i.e., companies, agencies, entities, etc.) served in the Widget domain and the nature of the services provided, as well as the duration of the service.

Offeror Response: The Acme Corporation has been in business for over 20 years, Acme is a leading supplier of Widget and Widget based services with clients in a variety of sectors including public (23 states) and private (125 of the Fortune 400).

Additionally, offerors must include the entire content of Attachment Four as a single section in their proposal. Offerors must include a statement at the beginning of the section indicating that the offeror has read, understands and agrees to the General Terms and conditions contained in Attachment Four and the Federal provisions included in attachment Two, part two.

Each Proposal must include a response to every request for information in this Attachment and Supplement 1 whether the request requires a simple "yes" or "no" or requires a detailed explanation. When a detailed response is required, simply repeating the RFP’s requirement and agreeing to comply may be an unacceptable response and may cause the Proposal to be rejected.
Offerors are required to limit their responses to Supplement 1 and Supplement 2 to no longer than a total of three times the State provided page count for Supplement 1 and 2. For example, if Supplement 1 is 80 pages, the offeror’s in-line responses, inclusive of the text of the State requirements, will not exceed 240 pages in total. Offerors must choose a similarly sized typeface (generally 11 point for text and 9 point for tables) to that used for the State’s requirements and not utilize smaller than 9 point fonts to work under this page limit restriction.

Offerors are advised to limit offeror marketing statements and positioning to the area(s) of the RFP applicable to those statement(s) and not include duplicative or otherwise repetitive statements throughout its response. This page limit will not apply to: State mandatory forms, representations and affirmations, response form(s) and other structured forms required under this RFP.

Each Proposal must contain the following *tabbed sections in the in-line response*:

**Technical Proposal**

1. Cover Letter
2. Supplier Information Form (OBM-5657)
3. Subcontractor Letters
4. Offeror Certification Form
5. Offeror Profile (as it relates to the proposed work)
6. Offeror Profile Summary Forms
7. Proposed Solution –
   a. Supplement 1 Response
   b. Supplement 2 Response
9. Assumptions
10. Support Requirements
11. Equipment and System Elements
12. Pre-Existing Materials
13. Commercial Materials
14. Proposed Changes to Attachment Eleven, as appropriate
15. Terms for Commercial Materials
16. Conflict of Interest Statement
17. Proof of Insurance
18. Payment Address
19. Legal Notice Address
20. W-9 Form
21. Independent Contractor Acknowledgement
22. Standard Affirmation and Disclosure Form (EO 2011-12K)
23. Affirmative Action
26. Attachment Four: General Terms and Conditions Acceptance

Cost Proposal
Cost Summary - Microsoft Excel Workbook – Attachment Nine (must be separately sealed, in native Excel format – not PDF)

Cover Letter. The cover letter must be in the form of a standard business letter and must be signed by an individual authorized to legally bind the offeror. The cover letter must include a brief executive summary of the solution the offeror plans to provide. The letter must also have the following:

1. A statement regarding the offeror’s legal structure (e.g., an Ohio corporation), Federal tax identification number, and principal place of business;
2. A list of the people who prepared the Proposal, including their titles; and
3. A statement certifying the Contractor is a business entity and will not submit the Independent Contractor/Worker Acknowledgement to the ordering agency.
4. The name, address, e-mail, phone number, and fax number of a contact person who has authority to answer questions regarding the Proposal.

Supplier Information Form. The offeror must submit a signed and completed Supplier Information Form (OBM-5657). The form is available at: http://www.supplier.obm.ohio.gov/download/Forms/Supplier_New.pdf

Subcontractor Letters. For each proposed subcontractor, the offeror must attach a letter from the subcontractor, signed by an individual authorized to legally bind the subcontractor, with the following included in the letter:

1. The subcontractor’s legal status, federal tax identification number, D-U-N-S number, and principal place of business address;
2. The name, phone number, fax number, email address, and mailing address of a person who is authorized to legally bind the subcontractor to contractual obligations;
3. A description of the work the subcontractor will do;
4. A statement of the subcontractor’s commitment to do the work if the offeror is selected; and
5. A statement that the subcontractor has read and understands the RFP and will comply with the requirements of the RFP.

Offeror Certification Form. The offeror must complete Attachment 6, Offeror Certification Form.

Offeror Profile. Each Supplement response must include a description of the offeror capability, capacity, and experience in support of the requirements of each Supplements response. The description should include the date the offeror was established, its leadership, number of employees, number of employees the offeror will engage in tasks directly related to the Project,
and any other background information or relevant experience that will help the State assess the ability of the offeror to fulfill the obligations of the Contract.

Offeror Profile Summary Form(s). This RFP includes an Offeror Profile Summary Form as Attachment Seven. The offeror must use this form and fill it out completely to provide the required information.

The Offeror Profile Summary Form contained in this document has been customized for the applicable offeror requirements. (Refer to Attachment Seven.) Each page of the form may contain minor variations. If an offeror elects to duplicate the form electronically, the offeror must carefully review each page of the form to ensure that it has been copied accurately. Failure to duplicate the form exactly may lead to the rejection of the offeror’s Proposal.

Each offeror (or proposed subcontractor) must meet all the mandatory requirements in the RFP. If an offeror does not meet all the mandatory requirements, the State may reject the offeror’s Proposal as non-responsive, the offeror must use the Offeror Profile Summary Form(s) (Attachment Seven) and fill them out completely to provide the required information. All offerors must also demonstrate experience to meet each of the applicable mandatory requirement(s) evaluation criteria by including the Offeror Mandatory Requirement Form provided in this RFP. Each offeror must meet the applicable mandatory requirement(s) in the RFP. If an offeror does not meet the applicable mandatory requirement(s), the State may reject the offeror’s Proposal as non-responsive.

The various sections of the Offeror Profile Summary Forms are described below:

a) Mandatory Experience and Qualifications. The offeror must complete this section to demonstrate that it has the experience needed to meet the RFP’s mandatory requirements. For each reference, the offeror must provide the following information:

- Contact Information. The offeror must provide a client contact name, title, phone number, email address, company name, and mailing address. The offeror also must include the same information for an alternate client contact, in case the State cannot reach the primary contact. Failure to provide this information or providing information that is inaccurate or out of date may result in the State not including the reference in the evaluation process or rejecting the offeror’s Proposal. The contact information given must be for a person within the client’s organization and not a co-worker or a contact within the offeror’s organization, subsidiaries, partnerships, etc.

- Project Name. The offeror must provide the name of the project where it obtained the mandatory experience.

- Dates of Experience. The offeror must complete this area with a beginning month and year and an ending month and year to show the length of time the offeror actually performed the work, not just the length of time the offeror was engaged by the reference.

- Description of the Related Service Provided. The State will not assume that, since the experience requirement is provided at the top of the page, all descriptions on that page relate to that requirement. The offeror must reiterate the experience being described,
including the capacity in which the work was performed and the role of the offeror on the Project. It is the offeror's responsibility to customize the description to clearly substantiate the qualification.

- Description of how the related service shows the offeror's (or proposed subcontractor's) experience, capability, and capacity to develop the Deliverables and to achieve the milestones within the scope of work of this RFP.

The offeror must list each project experience separately and completely every time it is referenced, regardless of whether it is on the same or different pages of the form.

**Proposed Solution** – All Supplements are being provided as a Microsoft Word document through the State’s procurement website as a convenience for responding to the RFP. The Supplement’s content must not be modified. If the content is modified, reformatted or omitted, the offeror’s response may be disqualified. As part of their response, Offerors are to provide native Microsoft Word, Excel and Project based documents that comprise the requirements of a Supplement, inclusive of their response.

- **Supplement 1 Response.** Supplement 1- Statement of Work Requirements is being provided as a Microsoft Word document through the State’s procurement website as a convenience for responding to the RFP. The supplement’s content must not be modified. If the content is modified, reformatted or omitted, the offeror’s response may be disqualified. As part of their response, Offerors are to provide native Microsoft Word documents that comprise the requirements of a Supplement, inclusive of their response.

  The offeror must demonstrate a complete and coherent solution to Supplement 1 pertaining to the Work. This area of the offeror’s proposal must clearly demonstrate the offeror will be prepared to quickly undertake and successfully complete the required services, activities, and Deliverables. The offeror’s response to Supplement 1 must be inserted in this section of the offeror’s proposal response.

- **Supplement 2 Response.** Using Supplement 2, the offeror must describe in detail how its proposed solution meets the functional and technical requirements described in this RFP. The offeror may not simply state that the proposed solution will meet or exceed the specified requirements. Instead, the offeror must provide an appropriate response code and a written narrative that shows that the offeror understands each of the functional and technical requirements of this RFP and how the offeror’s proposed solution meets those requirements.

  All the specifications given in this RFP for equipment and other system elements are minimum system requirements. The offeror may recommend features or other elements in excess of the minimum but must clearly identify them as such, provide the rationale behind the recommendations, and explain how they will benefit the State. The recommendations may not result in additional evaluation credit being given.

  The offeror’s response to Supplement 2 must be inserted in this section of the offeror's proposal response.
Acceptance of Supplement 3 – State Architecture and Computing Standards, Security and Privacy, IT Computing Policy and Data Handling Requirements. Offerors must include the entire content of Supplement 3 as a single section in their proposal. The offerors must include a statement at the beginning of the section indicating that the offeror has read, understands and agrees to the Requirements contained in Supplement 3.

The offeror’s response to Supplement 3 must be inserted in this section of the offeror’s proposal response.

Assumptions. The offeror must list all the assumptions the offeror made in preparing the Proposal. If any assumption is unacceptable to the State, the State may at its sole discretion request that the offeror remove the assumption or choose to reject the Proposal. No assumptions may be included regarding the outcomes of negotiation, terms and conditions, or requirements. Assumptions should be provided as part of the offeror response as a stand-alone response section that is inclusive of all assumptions with reference(s) to the section(s) of the RFP that the assumption is applicable to. Offerors should not include assumptions elsewhere in their response.

Support Requirements. The offeror must describe the support it wants from the State other than what the State has offered in this RFP. Specifically, the offeror must address the following:

- Nature and extent of State support required in terms of staff roles, percentage of time available, and so on;
- Assistance from State staff and the experience and qualification levels required; and
- Other support requirements.

The State may not be able or willing to provide the additional support the offeror lists in this part of its Proposal. The offeror therefore must indicate whether its request for additional support is a requirement for its performance. If any part of the list is a requirement, the State may reject the offeror’s Proposal, if the State is unwilling or unable to meet the requirements.

Equipment and System Elements. The offeror must identify all proposed equipment needed for the Project during the installation, customization (as applicable), implementation, and ongoing operations. The offeror’s Proposal must include the proposed manufacturer’s name and model for all equipment. Additionally, the offeror must identify any equipment that the State will require for the implementation and ongoing operation of the Project that is not otherwise specified in this RFP.

The equipment and other system specifications in this RFP are minimum Project requirements. The offeror may include features, equipment, or other elements in excess of the minimum but must clearly identify them as such. All elements of the proposed solution must meet the mandatory technical requirements for the Project. If any element of the proposed solution does not meet the minimum requirements, the offeror’s Proposal may be rejected as non-responsive.

Pre-Existing Materials. The offeror must list any Pre-existing Materials it owns that will be included in a Deliverable if the offeror wants a proprietary notice on copies that the State
distributes. For example, the offeror may have standard user interfaces or standard shells that it incorporates in what is otherwise custom software. (See the Ownership of Deliverables section of the General Terms and Conditions.) The State may reject any Proposal that includes existing materials for a custom solution, if the State believes that such is not appropriate or desirable for the Project.

**Commercial Materials.** The offeror must list any commercial and proprietary materials that the offeror will deliver that are easily copied, such as Commercial Software, and in which the State will have less than full ownership (“Commercial Materials”). Generally, these will be from third parties and readily available in the open market. The offeror need not list patented parts of equipment, since they are not readily copied. If the offeror expects the State to sign a license for the Commercial Material, the offeror must include the license agreement as an attachment. But for Key Commercial Software, the offeror may not include a standard license agreement; rather, the offeror must comply with the next section’s requirements regarding Attachment Ten. If the State finds any provisions of any proposed license agreement objectionable and cannot or does not negotiate an acceptable solution with the licensor, regardless of the reason and in the State’s sole discretion, then the offeror’s Proposal may be rejected. If the State is not going to sign a license, but there will be limits on the State’s use of the Commercial Materials different from the standard license in the General Terms and Conditions, then the offeror must detail the unique scope of license here. Any deviation from the standard license, warranty, and other terms in Attachment Four also may result in a rejection of the offeror’s Proposal.

**Proposed Changes to Attachment Eleven.** If the offeror seeks changes to Attachment Eleven, the Master Contract, the offeror must identify those changes, with the precise alternative language the offeror seeks, and include the markup of the Master Contract as an attachment to its Proposal. Generalized objections to the Master Contract’s terms and conditions are not acceptable. The State may reject any Proposal with extensive changes to the Master Contract or with changes that the State finds objectionable. Alternatively, the State may seek to negotiate over proposed changes to attempt to make them acceptable to the State. The State, in its sole and exclusive judgment, will determine whether any changes are acceptable and whether any negotiations make the proposed changes acceptable to the State.

**Terms for Commercial Materials.** If the offeror proposes a Deliverable that contains Commercial Software or other Commercial Materials with terms that differ from the terms in Attachment Four for Commercial Software and Materials, other than Key Commercial Software, which must be dealt with in accordance with the preceding section, then those terms must be detailed here, and any proposed separate agreement covering those items must be included in the offeror’s Proposal. This is required even if the State will not be expected to sign the agreement. Any deviation from the standard terms in Attachment Four may result in a rejection of the offeror’s Proposal.

**Conflict of Interest Statement.** Each Proposal must include a statement indicating whether the offeror or any people that may work on or benefit from the Project through the offeror have a possible conflict of interest (e.g., employed by the State of Ohio, etc.) and, if so, the nature of that conflict. The State may reject a Proposal in which an actual or apparent conflict is disclosed. The State also may terminate the Contract if it discovers any actual or apparent conflict of interest that the offeror did not disclose in its Proposal.
**Proof of Insurance.** The offeror must provide the certificate of insurance required by Attachment Four. The policy may be written on an occurrence or claims made basis.

**Payment Address.** The offeror must give the address to which the State should send payments under the Contract.

**Legal Notice Address.** The offeror must give the name, title, and address to which the State should send legal notices under the Contract.

**Independent Contractor Acknowledgement Form.** Unless the offeror is a “business entity” as that term is defined in ORC. 145.037 (“an entity with five or more employees that is a corporation, association, firm, limited liability company, partnership, sole proprietorship, or other entity engaged in business”), the offeror must complete and submit an originally signed Independent Contractor Acknowledgement form in its entirety. All other copies of a Proposal may contain copies of the Independent Contractor Acknowledgement form. The offeror must indicate on the outside of the binder which Proposal contains the originally signed Independent Contractor Acknowledgement form. A current version of the Independent Contractor Acknowledgement form is available at: [https://www.opers.org/forms-archive/PEDACKN.pdf](https://www.opers.org/forms-archive/PEDACKN.pdf).

**Standard Affirmation and Disclosure Form (EO 2011-12K).** The offeror must complete and sign the Affirmation and Disclosure Form (Attachment Eight) as part of its Proposal. Executive Order 2011-12K is available at: [http://www.governor.ohio.gov/Portals/0/pdf/executiveOrders/EO%202011-12K.pdf](http://www.governor.ohio.gov/Portals/0/pdf/executiveOrders/EO%202011-12K.pdf).

Copies of approved Affirmative Action plans must be supplied by the offeror as part of its Proposal or inclusion of an attestation to the fact that the offeror has completed the process and is pending approval by the EOD office.

**Acceptance of Attachment Two: Interval Deliverable Agreement and Special Provisions.** Offerors must include the entire content of Attachment Two as a single section in their proposal. The offerors must include a statement at the beginning of the section indicating that the offeror has read, understands and agrees to the Interval Deliverable Agreement and
Special Provisions contained in Attachment Two. The State may reject any Proposal if the offeror takes exception to special provisions of this RFP.

In addition, the attachment’s content must not be modified. If the content is modified, reformatted or omitted, the offeror’s response may be disqualified.

**Acceptance of Attachment Four – General Terms and Conditions.** Offerors must include the entire content of Attachment Four as a single section in their proposal. The offerors must include a statement at the beginning of the section indicating that the offeror has read, understands and agrees to the General Terms and conditions contained in Attachment Four.

**Cost Summary (must be separately sealed package).** This RFP includes Cost Summary Workbooks in Microsoft Excel® as Attachment Nine. Offerors may not reformat the State’s Cost Summary Workbooks. Each offeror must complete the applicable Cost Summary Workbooks in the exact format provided, since the State may reject any Proposal with a reformatted Cost Summary Workbook or that is not separately sealed. (See: Part Three: General Instructions, Proposal Submittal.)

The Offeror’s Cost Proposal must provide sufficient detailed information to allow the State to assess the reasonableness of the Offeror’s cost for each defined component of the project as detailed in the Cost Workbook (a Microsoft Excel Spreadsheet provided as part of this RFP). The Offeror’s Cost Proposal must be inclusive and complete for each area identified in The Cost Workbook. The Offeror should note that the State’s goal is to compare total Offeror’s costs to deliver the services to the State. Therefore, all Cost Proposals will be evaluated based on a proposed cost and total cost basis. Line items identified as ‘Optional’ will not be evaluated for scoring purposes.

**In all cases, costs that are not specified by the Offeror in this template will not be considered nor allowable.** All assumptions regarding the Offeror’s cost proposal must be included in the identified Tab in the Cost Workbook. Please note that the Offeror must keep all cost information separate from the Technical Proposal submission.

This package of the Offeror’s response must use the Cost Workbook as described below.

**Cost Response Workbook Instructions**

The Offeror’s Cost Proposal must use and be compliant with the Cost Workbook. Offerors must complete this workbook as instructed and place it in a separate, sealed package, clearly marked as the Cost Workbook with the Offeror’s name, the RFP number, and the RFP submission date.

Costs must be compliant with the terms and conditions of the RFP, including the State’s General Provisions and Mandatory Requirements of the RFP (not the Offeror’s exceptions to the terms and conditions). The Offeror will base their Cost Proposals on the Scope of Work described in Supplement 1 and 2 of the RFP.

The Offeror will include all one-time and ongoing costs in the Cost Proposal. Total Costs are required by the Project team for evaluation and budget purposes, while additional detail of costs is required for the State’s understanding of the costs.
The costs for all Phases for the design, development and implementation must be not-to-exceed-fixed-price with payments based on deliverables as proposed by the Offeror. The ongoing Software Maintenance payments for the Offeror System must be shown as an annual cost.

The Offeror will provide fixed Hourly Rates to the State for work to be performed during any potential IDA (interval deliverable agreement) period. In addition, fixed Labor rates must be available for the State to use for Unanticipated Tasks as necessary. Unanticipated tasks represent logical and minor (generally in the 10-100-hour range per item inclusive of all design, development and certification activities) enhancements to the system that are identified by the State in the course of the development effort, as required by the State and authorized in writing, to increase the functionality, usability, navigation or workflow, operations or performance of the system.

The State requires the Offeror to provide a capability to address Unanticipated Tasks or approved enhancements. The Offeror must work with the State for the allocation of this pool of hours through a mutually agreed upon resource plan aligned with associate hours and costs as defined in the Cost Workbook. Unanticipated Task Requests may be required under this hour pool. The following provide an example of Unanticipated Task requests:

Unanticipated Task requests require no modification, configuration, or customization of the environments.

The Offeror will provide costs for Packaged Software, Hardware, or Hosting as necessary for their proposed solution. All Hardware and Software and associated warranties or maintenance must be purchased in the State’s name. The Offeror must provide to the State all documentation related to hardware/software purchases including, but not limited to invoices, packing slips, license agreements, and other identifying details that may be required for inventory, audit and accounting. Offerors proposing hosting services will be required to disclose the hosting provider to the State. The Offeror must disclose and provide the service level terms of any hosting provider.

The Offeror will provide service on request to end-users in accordance with the Run Book or other supporting documents. Requests will normally be made by the State to more effectively manage demand.

Routine tracking procedures will provide visibility of all Unanticipated Task requests in accordance with the Run Book or other supporting documents. The Offeror and the State will develop a prioritization approach for Unanticipated Task requests based upon business impact and document such process in the Run Book or other supporting documents.

**Completion of the Cost Workbook and Worksheets is mandatory.** Alterations to the Cost Workbook and Worksheets (Forms) or their respective formulas is prohibited (except for those specific areas in which instructions allow the Offeror to define or add rows). Any alterations to the Workbook, Worksheets (Forms) and their respective formulas may result in the rejection of the Proposal. Offerors should model their costs outside of the State provided Cost Workbook but propose them to the State using the Cost Workbook as part of their final RFP response.

The Cost Summary Workbook must not include exceptions, additional terms and conditions, or assumptions.
The offeror’s total cost for the Project must be represented as the Not-To-Exceed Fixed Price.

The State will not be liable for or pay any Project costs that the offeror does not identify in its Proposal.
6.4. ATTACHMENT FOUR: GENERAL TERMS AND CONDITIONS

PART ONE: PERFORMANCE AND PAYMENT

Statement of Work. The selected offeror's Proposal and the State’s Request for Proposal (collectively, the "RFP Documents") are a part of this Contract and describe the work (the "Project") the Contractor must do and any materials the Contractor must deliver (the "Deliverables") under this Contract. The Contractor must do the Project in a professional, timely, and efficient manner and must provide the Deliverables in a proper fashion. The Contractor also must furnish its own support staff necessary for the satisfactory performance of the Project.

The Contractor must consult with the appropriate State representatives and others necessary to ensure a thorough understanding of the Project and satisfactory performance. The State may give instructions to or make requests of the Contractor relating to the Project, and the Contractor must comply with those instructions and fulfill those requests in a timely and professional manner. Those instructions and requests will be for the sole purpose of ensuring satisfactory completion of the Project and will not amend or alter the scope of the Project.

Term. Unless this Contract is terminated or expires without renewal, it will remain in effect until the Project is completed to the satisfaction of the State, including all optional renewal periods for maintenance or continuing commitments, and the Contractor is paid. However, the current General Assembly cannot commit a future General Assembly to an expenditure. Therefore, this Contract will automatically expire at the end of each biennium, the first of which is June 30, 2019. The State may renew this Contract in the next biennium by issuing written notice to the Contractor of the decision to do so. This expiration and renewal procedure also will apply to the end of any subsequent biennium during which the Project continues, including any optional renewal periods. Termination or expiration of this Contract will not limit the Contractor’s continuing obligations with respect to Deliverables that the State paid for before or after termination or limit the State’s rights in such.

The State’s funds are contingent upon the availability of lawful appropriations by the Ohio General Assembly. If the General Assembly fails to continue funding for the payments and other obligations due as part of this Contract, the State’s obligations under this Contract will terminate as of the date that the funding expires without further obligation of the State.

The Project has a completion date that is identified in the RFP Documents. The RFP Documents also may have several dates for the delivery of Deliverables or reaching certain milestones in the Project. The Contractor must make those deliveries, meet those milestones, and complete the Project within the times the RFP Documents require. If the Contractor does not meet those dates, the Contractor will be in default, and the State may terminate this Contract under the termination provision contained below.

The State also may have certain obligations to meet. Those obligations, if any, are also listed in the RFP Documents. If the State agrees that the Contractor’s failure to meet the delivery, milestone, or completion dates in the RFP Documents is due to the State’s failure to meet its
own obligations in a timely fashion, then the Contractor will not be in default, and the delivery, milestone, and completion dates affected by the State’s failure to perform will be extended by the same amount of time as the State’s delay. The Contractor may not rely on this provision unless the Contractor has in good faith exerted reasonable management skill to avoid an extension and has given the State meaningful written notice of the State’s failure to meet its obligations within five business days of the Contractor’s realization that the State’s delay may impact the Project. The Contractor must deliver any such notice to both the Project Representative and Procurement Representative and title the notice as a “Notice of State Delay.” The notice must identify any delay in detail, as well as the impact the delay has or will have on the Project. Unless the State decides, in its sole and exclusive judgment, that an equitable adjustment in the Contractor’s Fee is warranted in the case of an extended delay, an extension of the Contractor’s time to perform will be the Contractor’s exclusive remedy for the State’s delay. Should the State determine that an equitable adjustment in the Contractor’s Fee is warranted, the equitable adjustment will be handled as a Change Order under the Changes Section of this Contract, and the extension of time and equitable adjustment will be the exclusive remedies of the Contractor for the State’s delay.

The State seeks a complete project, and the Contractor must provide any incidental items omitted in the RFP Documents as part of the Contractor’s not-to-exceed fixed price. The Contractor also must fully identify, describe, and document all systems that are delivered as a part of the Project. Unless expressly excluded elsewhere in the RFP, all hardware, software, supplies, and other required components (such as documentation, conversion, training, and maintenance) necessary for the Project to be complete and useful to the State are included in the Project and the not-to-exceed fixed price.

Compensation. In consideration of the Contractor’s promises and satisfactory performance, the State will pay the Contractor the amount(s) identified in the RFP Documents (the “Fee”), plus any other expenses identified as reimbursable in the RFP Documents. In no event, however, will payments under this Contract exceed the “total not-to-exceed” amount in the RFP Documents without the prior written approval of the State and, when required, the Ohio Controlling Board and any other source of funding. The Contractor’s right to the Fee is contingent on the complete and satisfactory performance of the Project or, in the case of milestone payments or periodic payments of an hourly, daily, weekly, monthly, or annual rate, all relevant parts of the Project tied to the applicable milestone or period. Payment of the Fee also is contingent on the Contractor delivering a proper invoice and any other documents the RFP Documents require. An invoice must comply with the State’s then current policies regarding invoices and their submission. The State will notify the Contractor in writing within 15 business days after it receives a defective invoice of any defect and provide the information necessary to correct the defect.

The Contractor must send all invoices under this Contract to the “bill to” address in the RFP Documents or in the applicable purchase order.

The State will pay the Contractor interest on any late payment, as provided in Section 126.30 of the Ohio Revised Code (the “Revised Code”). If the State disputes a payment for anything covered by an invoice, within 15 business days after receipt of that invoice, the State will notify the Contractor, in writing, stating the grounds for the dispute. The State then may deduct the disputed amount from its payment as a nonexclusive remedy. If the Contractor has committed a
material breach, in the sole opinion of the State, the State also may withhold payment otherwise due to the Contractor. Both parties will attempt to resolve any claims of material breach or payment disputes through discussions among the Contractor’s Implementation Manager (e.g., Contractor’s Project Manager), the Contractor’s Project executive, the State’s Project Representative, and the State Contract Management Administrator. The State will consult with the Contractor as early as reasonably possible about the nature of the claim or dispute and the amount of payment affected. When the Contractor has resolved the matter to the State’s satisfaction, the State will pay the disputed amount within 30 business days after the matter is resolved. The State has no obligation to make any disputed payments until the matter is resolved, and the Contractor must continue its performance under this Contract pending resolution of the dispute or claim.

If the State has already paid the Contractor on an invoice but later disputes the amount covered by the invoice, and if the Contractor fails to correct the problem within 30 calendar days after written notice, the Contractor must reimburse the State for that amount at the end of the 30 calendar days as a nonexclusive remedy for the State. On written request from the Contractor, the State will provide reasonable assistance in determining the nature of the problem by giving the Contractor reasonable access to the State’s facilities and any information the State has regarding the problem.

Payment of an invoice by the State will not prejudice the State’s right to object to or question that or any other invoice or matter in relation thereto. The Contractor’s invoice will be subject to reduction for amounts included in any invoice or payment made which are determined by the State not to constitute allowable costs, on the basis of audits conducted in accordance with the terms of this Contract. At the State’s sole discretion all payments shall be subject to reduction for amounts equal to prior overpayments to the Contractor.

If the RFP Documents provide for any retainage, the State will withhold from each invoice paid the percentage specified in the RFP Documents as retainage. The State will pay the retainage only after the State has accepted the Project, and then only in accordance with the payment schedule specified in the RFP Documents. The State will withhold all amounts under this section arising from claims or disputes in addition to any retainage specified in the RFP Documents.

**Reimbursable Expenses.** The State will pay all reimbursable expenses identified in the RFP Documents, if any, in accordance with the terms in the RFP Documents and, where applicable, Section 126.31 of the Revised Code. The Contractor must assume all expenses that it incurs in the performance of this Contract that are not identified as reimbursable in the RFP Documents.

In making any reimbursable expenditure, the Contractor always must comply with the more restrictive of its own, then current internal policies for making such expenditures or the State’s then current policies. All reimbursable travel will require the advance written approval of the State’s Project Representative. The Contractor must bill all reimbursable expenses monthly, and the State will reimburse the Contractor for them within 30 business days of receiving the Contractor’s invoice.
Right of Offset. The State may set off the amount of any Ohio tax liability, liquidated damages or other damages or claims for damages, or other obligation of the Contractor or its subsidiaries to the State, including any amounts the Contractor owes to the State under this or other contracts, against any payments due from the State to the Contractor under this or any other contracts with the State.

Certification of Funds. None of the rights, duties, or obligations in this Contract will be binding on the State, and the Contractor will not begin its performance until all the following conditions have been met:

(a) All statutory provisions under the Revised Code, including Section 126.07, have been met;
(b) All necessary funds are made available by the appropriate State entities;
(c) If required, the Controlling Board of Ohio approves this Contract; and
(d) If the State is relying on federal or third-party funds for this Contract, the State gives the Contractor written notice that such funds are available.

Employment Taxes. All people furnished by the Contractor (the “Contractor Personnel”) are employees or subcontractors of the Contractor, and none are or will be deemed employees or contractors of the State. No Contractor Personnel will be entitled to participate in, claim benefits under, or become an “eligible employee” for purposes of any employee benefit plan of the State by reason of any work done under this Contract. The Contractor will pay all federal, state, local, and other applicable payroll taxes and make the required contributions, withholdings, and deductions imposed or assessed under any provision of any law and measured by wages, salaries, or other remuneration paid by or which may be due from the Contractor to the Contractor Personnel. The Contractor will indemnify, defend (with the consent and approval of the Ohio Attorney General), and hold the State harmless from and against all claims, losses, liability, demands, fines, and expense (including court costs, defense costs, and redeemable attorney fees) arising out of or relating to such taxes, withholdings, deductions, and contributions with respect to the Contractor Personnel. The Contractor’s indemnity and defense obligations also apply to any claim or assertion of tax liability made by or on behalf of any Contractor Personnel or governmental agency on the basis that any Contractor Personnel are employees or contractors of the State, that the State is the “joint employer” or “co-employer” of any Contractor Personnel, or that any Contractor Personnel are entitled to any employee benefit offered only to eligible regular fulltime or regular part-time employees of the State.

Sales, Use, Excise, and Property Taxes. The State is exempt from any sales, use, excise, and property tax. To the extent sales, use, excise, or any similar tax is imposed on the Contractor in connection with the Project, such will be the sole and exclusive responsibility of the Contractor. Further, the Contractor will pay such taxes, together with any interest and penalties not disputed with the appropriate taxing authority, whether they are imposed at the time the services are rendered or a later time.
Related Contracts. The Contractor warrants that the Contractor has not and will not enter into any contracts without written approval of the State to perform substantially identical services for the State, such that the Project duplicates the work done or to be done under the other contracts.

Other Contractors. The State may hold other contracts for additional or related work, including among others independent verification and validation (IV&V) work for this Project. The Contractor must fully cooperate with all other contractors and State employees and coordinate its work with such other contractors and State employees as may be required for the smooth and efficient operation of all related or additional work. The Contractor may not act in any way that may unreasonably interfere with the work of any other contractors or the State’s employees. Further, the Contractor must fully cooperate with any IV&V contractor assigned to this Project. Such cooperation includes expeditiously providing the IV&V contractor with full and complete access to all project work product, records, materials, personnel, meetings, and correspondence as the IV&V contractor may request. If the State assigns an IV&V contractor to the Project, the State will obligate the IV&V contractor to a confidentiality provision similar to the Confidentiality Section contained in this Contract. Additionally, the Contractor must include the obligations of this provision in all its contracts with its subcontractors that work on this project.

Subcontracting. The Contractor may not enter into subcontracts related to the Project after award without written approval from the State. Nevertheless, the Contractor will not need the State’s written approval to subcontract for the purchase of commercial goods that are required for satisfactory completion of the Project. All subcontracts will be at the sole expense of the Contractor unless expressly stated otherwise in the RFP Documents.

The State’s approval of the use of subcontractors does not mean that the State will pay for them. The Contractor will be solely responsible for payment of its subcontractor and any claims of subcontractors for any failure of the Contractor or any of its other subcontractors to meet the performance schedule or performance specifications for the Project in a timely and professional manner. The Contractor must hold the State harmless for and must indemnify the State against any such claims.

The Contractor assumes responsibility for all Deliverables whether it, a subcontractor, or third-party manufacturer produces them in whole or in part. Further, the Contractor will be the sole point of contact with regard to contractual matters, including payment of all charges resulting from the Contract. Further, the Contractor will be fully responsible for any default by a subcontractor, just as if the Contractor itself had defaulted.

If the Contractor uses any subcontractors, each subcontractor must have a written agreement with the Contractor. That written agreement must incorporate this Contract by reference. The agreement also must pass through to the subcontractor all provisions of this Contract that would be fully effective only if they bind both the subcontractor and the Contractor. Among such provisions are the limitations on the Contractor’s remedies, the insurance requirements, record keeping obligations, and audit rights. Some sections of this Contract may limit the need to pass through their requirements to subcontracts to avoid placing cumbersome obligations on minor
subcontractors. This exception is applicable only to sections that expressly provide an exclusion for small-dollar subcontracts. Should the Contractor fail to pass through any provisions of this Contract to one of its subcontractors and the failure damages the State in any way, the Contractor must indemnify the State for the damage.

**Record Keeping.** The Contractor must keep all financial records in accordance with generally accepted accounting principles or equivalent consistently applied. The Contractor also must file documentation to support each action under this Contract in a manner allowing the documentation to be readily located. Additionally, the Contractor must keep all Project-related records and documents at its principal place of business or at its office where the work was performed.

**Access.** During the term of this contract, Contractor shall provide representatives from the State and Federal Government with full access to the system, including onsite inspection, at any time requested by the State or Federal Government to determine whether conditions in 42 CFR 433, subpart C are being met.

**Audits.** During the term of this Contract and for three years after the payment of the Contractor’s Fee, on reasonable notice, and during customary business hours, the State may audit the Contractor’s records and other materials that relate to the Project. This audit right also applies to the State’s duly authorized representatives and any person or organization providing financial support for the Project. State audit rights will apply to those Contractor materials that are required to verify the accuracy of a Contractor invoice to the State inclusive of: Contractor personnel timesheets; Contractor purchased or provided equipment for benefit of the State that will remain in the State’s possession; State deliverable acceptance documentation; any required State written approvals as required herein; final Work products and deliverables; any partial or incomplete Work products or deliverables that should the Contractor submit for partial compensation from the State as a result of termination of this contract.

The State and the Federal Government also reserve the right to inspect, review, investigate, or audit all parts of the Contractor’s and subcontractors’ facilities engaged in performing work related to this RFP at any time while the Contract is active. In this capacity, the State or its representatives must have access to facilities, records, reports, personnel and any other appropriate aspects of the System.

**Right to Terminate as a Result of Audit Findings.** In the event the State determines that the results of any examination of the Contractor is unsatisfactory per the requirements of the Contract and not remedied within a 45-day period following written notice from the State, the State may terminate this Agreement, in part or in full.

If the Contractor fails to satisfy the requirements of the State with regard to security of information, or if an examination reveals information that would result in a continuing contractual relationship that causes the State to be in violation of any law, the State may terminate this Contract immediately without notice.

If the Contractor fails to satisfy the requirements of the State with regard to matters not related to items contained in the preceding two (2) paragraphs, the State will provide Contractor with notice and an opportunity to cure the failure within forty-five (45) days. If the failure is not cured
by Contractor within such forty-five (45) day period, the State may terminate this Contract
without further notice.

**Insurance.** Contractor shall procure and maintain for the duration of the contract insurance
against claims for injuries to persons or damages to property which may arise from or in
connection with the performance of the work hereunder by the Contractor, its agents,
representatives, or employees. Contractor shall procure and maintain for the duration of the
contract insurance for claims arising out of their professional services and including, but not
limited to loss, damage, theft or other misuse of data, infringement of intellectual property,
invasion of privacy and breach of data.

**MINIMUM SCOPE AND LIMIT OF INSURANCE**

Coverage shall be at least as broad as:

1. **Commercial General Liability (CGL):** written on an “occurrence” basis, including products
   and completed operations, property damage, bodily injury and personal & advertising
   injury with limits no less than $1,000,000 per occurrence. If a general aggregate limit
   applies, either the general aggregate limit shall apply separately to this project/location
   or the general aggregate limit shall be twice the required occurrence limit. Defense costs
   shall be outside the policy limit.

2. **Automobile Liability:** covering Code 1 (any auto), or if Contractor has no owned autos,
   Code 8 (hired) and 9 (non-owned), with a limit no less than $1,000,000 per accident for
   bodily injury and property damage.

3. **Workers’ Compensation insurance** as required by the State of Ohio, or the state in which
   the work will be performed, with Statutory Limits, and Employer’s Liability Insurance with
   a limit of no less than $1,000,000 per accident for bodily injury or disease. If Contractor
   is a sole proprietor, partnership or has no statutory requirement for workers’
   compensation, Contractor must provide a letter stating that it is exempt and agreeing to
   hold Entity harmless from loss or liability for such.

4. **Technology Professional Liability (Errors and Omissions) Insurance** appropriate to the
   Contractor’s profession, with limits not less than $2,000,000 per occurrence or claim,
   $2,000,000 aggregate. Coverage shall be sufficiently broad to respond to the duties and
   obligations as is undertaken by Contractor in this agreement and shall cover all
   applicable Contractor personnel or subcontractors who perform professional services
   related to this agreement.

5. **Cyber liability (first and third party)** with limits not less than $5,000,000 per claim,
   $10,000,000 aggregate. Coverage shall be sufficiently broad to respond to the duties and
   obligations as is undertaken by Contractor in this agreement and shall include, but not be
   limited to, claims involving infringement of intellectual property, including but not limited to
   infringement of copyright, trademark, trade dress, invasion of privacy violations,
   information theft, damage to or destruction of electronic information, release of private
information, alteration of electronic information, extortion and network security. The coverage shall provide for breach response costs as well as regulatory fines and penalties and credit monitoring expenses with limits sufficient to respond to these obligations.

The Insurance obligations under this agreement shall be the minimum Insurance coverage requirements and/or limits shown in this agreement. Any insurance proceeds in excess of or broader than the minimum required coverage and/or minimum required limits, which are applicable to a given loss, shall be available to the State of Ohio. No representation is made that the minimum Insurance requirements of this agreement are sufficient to cover the obligations of the Contractor under this agreement.

The insurance policies are to contain, or be endorsed to contain, the following provisions:

**Additional Insured Status**
Except for Workers’ Compensation and Professional Liability insurance, the State of Ohio, its officers, officials and employees are to be covered as additional insureds with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts, or equipment furnished in connection with such work or operations. Coverage can be provided in the form of an endorsement to the Contractor’s insurance.

**Primary Coverage**
For any claims related to this contract, the Contractor’s insurance coverage shall be primary insurance. Any insurance or self-insurance maintained by the State of Ohio, its officers, officials and employees shall be excess of the Contractor’s insurance and shall not contribute with it.

**Umbrella or Excess Insurance Policies**
Umbrella or excess commercial liability policies may be used in combination with primary policies to satisfy the limit requirements above. Such Umbrella or excess commercial liability policies shall apply without any gaps in the limits of coverage and be at least as broad as and follow the form of the underlying primary coverage required above.

**Notice of Cancellation**
Contractor shall provide State of Ohio with 30 days written notice of cancellation or material change to any insurance policy required above, except for non-payment cancellation. Material change shall be defined as any change to the insurance limits, terms or conditions that would limit or alter the State’s available recovery under any of the policies required above. A lapse in any required insurance coverage during this Agreement shall be a breach of this Agreement.

**Waiver of Subrogation**
Contractor hereby grants to State of Ohio a waiver of any right to subrogation which any insurer of said Contractor may acquire against the State of Ohio by virtue of the payment of any loss under such insurance. Contractor agrees to obtain any endorsement that may be
necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the State of Ohio has received a waiver of subrogation endorsement from the insurer.

**Deductibles and Self-Insured Retentions**

Deductibles and self-insured retentions must be declared to and approved by the State. The State may require the Contractor to provide proof of ability to pay losses and related investigations, claims administration and defense expenses within the retention. The policy language shall provide, or be endorsed to provide, that the deductible or self-insured retention may be satisfied by either the named insured or the State.

**Claims Made Policies**

If any of the required policies provide coverage on a claims-made basis:

1. The Retroactive Date must be shown and must be before the date of the contract or the beginning of contract work.

2. Insurance must be maintained and evidence of insurance must be provided for at least five (5) years after completion of the contract of work.

3. If coverage is canceled or non-renewed, and not replaced with another claims-made policy form with a Retroactive Date prior to the contract effective date, the Contractor must purchase "extended reporting" coverage for a minimum of five (5) years after completion of contract work. The Discovery Period must be active during the Extended Reporting Period.

**Verification of Coverage**

Contractor shall furnish the State of Ohio with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by the State of Ohio before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor’s obligation to provide them. The State of Ohio reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

**Subcontractors**

Contractor shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Contractor shall ensure that State of Ohio is an additional insured on insurance required from subcontractors.

**Special Risks or Circumstances**

State of Ohio reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.
Replacement Personnel. If the RFP Documents contain the names of specific people (e.g., Key Project Personnel) who will work on the Project, then the quality and professional credentials of those people were material factors in the State's decision to enter into this Contract. Therefore, the Contractor must use all commercially reasonable efforts to ensure the continued availability of those people. Also, the Contractor may not remove those people from the Project without the prior written consent of the State, except as provided below.

The Contractor may remove a person listed in the RFP Documents from the Project, if doing so is necessary for legal or disciplinary reasons. However, the Contractor must make a reasonable effort to give the State 30 calendar days' prior, written notice of the removal.

If the Contractor removes a person listed in the RFP Documents from the Project for any reason other than those specified above, the State may assess liquidated damages in the amount of $1,500.00 for every day between the date on which the individual was removed and the date that this Contract is terminated or the individual's qualified replacement, selected in accordance with the process identified in this section, starts performing on the Project. The State also may provide the Contractor with written notice of its default under this section, which the Contractor must cure within 30 days. Should the Contractor fail to cure its default within the 30-day cure period, this Contract will terminate immediately for cause, and the State will be entitled to damages in accordance with the Suspension and Termination Section of this Contract due to the termination. Should the State assess liquidated damages or otherwise be entitled to damages under this provision, it may offset these damages from any Fees due under this Contract.

The Contractor must have qualified replacement people available to replace any people listed in the RFP Documents by name or identified as a key individual on the Project. When the removal of a listed person is permitted under this Section, or if a person becomes unavailable, the Contractor must submit the resumes for two replacement people to the State for each person removed or who otherwise becomes unavailable. The Contractor must submit the two resumes, along with such other information as the State may reasonably request, within five business days after the decision to remove a person is made or the unavailability of a listed person becomes known to the Contractor.

The State will select one of the two proposed replacements or will reject both of them within ten business days after the Contractor has submitted the proposed replacements to the State. The State may reject the proposed replacements for any legal reason. Should the State reject both replacement candidates due to their failure to meet the minimum qualifications identified in the RFP Documents, or should the Contractor fail to provide the notice required under this Section or fail to provide two qualified replacement candidates for each removed or unavailable person, the Contractor will be in default and the cure period for default specified elsewhere in this Contract will not apply. In any such case, the State will have the following options:

(a) The State may assess liquidated damages in the amount of $1,500.00 for every day between the date on which the Contractor failed to provide the applicable notice, failed to provide the two replacement candidates, or the date the State rejected all candidates for cause and the date on which the Contractor affects a cure or the Contract expires without renewal or is terminated.
(b) The State may terminate this Contract immediately for cause and without any cure period.

Should the State exercise its option under item (a) above, it nevertheless will be entitled anytime thereafter to exercise its option under item (b) above. Additionally, should the State terminate this Contract under this provision, it will be entitled to damages in accordance with the Suspension and Termination Section of this Contract due to the termination. Should the State assess liquidated damages or otherwise be entitled to damages under this provision, it may offset these damages from any Fees due under this Contract.

The State may determine that the proposed replacement candidates meet the minimum qualifications of this Contract and still substantially reduce the value the State perceived it would receive through the effort of the original individual(s) the Contractor proposed and on whose credentials the State decided to enter into this Contract. Therefore, the State will have the right to reject any candidate that the State determines may provide it with diminished value.

Should the State reject both proposed candidates for any legal reason other than their failure to meet the minimum qualifications identified in the RFP Documents, the State may terminate this Contract for its convenience.

The State has an interest in providing a healthy and safe environment for its employees and guests at its facilities. The State also has an interest in ensuring that its operations are carried out in an efficient, professional, legal, and secure manner. Therefore, the State will have the right to require the Contractor to remove any individual involved in the Project, if the State determines that any such individual has or may interfere with the State's interests identified above. In such a case, the request for removal will be treated as a case in which an individual providing services under this Contract has become unavailable, and the Contractor must follow the procedures identified above for replacing unavailable people. This provision also applies to people that the Contractor's subcontractors engage, if they are listed by name or as a key person in the RFP Documents.

**Suspension and Termination.** The State may terminate this Contract in full or in part for cause if the Contractor defaults in meeting its obligations under this Contract and fails to cure its default within the time allowed by this Contract, or if a petition in bankruptcy (or similar proceeding) has been filed by or against the Contractor. The State also may terminate this Contract if the Contractor violates any law or regulation in doing the Project, or if it appears to the State that the Contractor's performance is substantially endangered through no fault of the State. In any such case, the termination will be for cause, and the State's rights and remedies will be those identified below for termination for cause.

On written notice, the Contractor will have 30 calendar days to cure any breach of its obligations under this Contract, provided the breach is curable. If the Contractor fails to cure the breach within 30 calendar days after written notice, or if the breach is not one that is curable, the State will have the right to terminate this Contract immediately on notice to the Contractor. The State also may terminate this Contract in the case of breaches that are cured within 30 calendar days but are persistent. "Persistent" in this context means that the State has notified the Contractor in writing of the Contractor's failure to meet any of its obligations three times. After the third notice, the State may terminate this Contract on written notice to the Contractor without a cure
period if the Contractor again fails to meet any obligation. The three notices do not have to relate to the same obligation or type of failure. Some provisions of this Contract may provide for a shorter cure period than 30 calendar days or for no cure period at all, and those provisions will prevail over this one. If a particular section does not state what the cure period will be, this provision will govern.

The State also may terminate this Contract in full or in part for its convenience and without cause or if the Ohio General Assembly fails to appropriate funds for any part of the Project. If a third party is providing funding for the Project, the State also may terminate this Contract should that third party fail to release any Project funds. The RFP Documents normally identify any third-party source of funds for the Project, but an absence of such in the RFP Documents will not diminish the State's rights under this section.

The notice of termination, whether for cause or without cause, will be effective as soon as the Contractor receives it. Upon receipt of the notice of termination, the Contractor must immediately cease all work on the project and take all steps necessary to minimize any costs the Contractor will incur related to this Contract. The Contractor also must immediately prepare a report and deliver it to the State. The report must be all-inclusive and must detail the work completed at the date of termination, the percentage of the Project's completion, any costs incurred in doing the Project to that date, and any Deliverables completed or partially completed but not delivered to the State at the time of termination. The Contractor also must deliver all the completed and partially completed Deliverables to the State with its report. However, if the State determines that delivery in that manner would not be in its interest, then the State will designate a suitable alternative form of delivery, which the Contractor must honor.

If the State terminates this Contract for cause, the State will be entitled to cover for the Work by using another Contractor on such commercially reasonable terms as the State and the covering contractor may agree. The Contractor will be liable to the State for all costs related to covering for the Work to the extent that such costs, when combined with payments already made to the Contractor for the Work before termination, exceed the costs that the State would have incurred under this Contract. The Contractor also will be liable for any other direct damages resulting from its breach of this Contract or other action leading to termination for cause. If the Contractor fails to deliver Deliverables or provide satisfactory services, the State has the right to withhold any and all payments due to the Contractor without penalty or work stoppage by the Contractor until such failure to perform is cured.

If the termination is for the convenience of the State, the Contractor will be entitled to the Contract price as prorated by the State Contract price for deliverables, products or services accepted by the State and not previously paid for provided in that in no event will total payments exceed the amount payable to the Contractor is the Contract had been fully performed. For items not specifically priced, the State will use fair market value to determine the price owed. The Contractor will use generally accepted accounting principles or equivalent and sound business practices in determining all costs claimed, agreed to, or determined under this clause.

The State will have the option of suspending this Contract in full or in part rather than terminating the Project, if the State believes that doing so would better serve its interests. In the event of a suspension for the convenience of the State, the Contractor will be entitled to receive payment for the work performed before the suspension. In the case of suspension of the Project for cause rather than termination for cause, the Contractor will not be entitled to any
compensation for any work performed. If the State reinstates the Project after suspension for cause, rather than terminating this Contract after the suspension, the Contractor may be entitled to compensation for work performed before the suspension, less any damage to the State resulting from the Contractor's breach of this Contract or other fault. Any amount due for work before or after the suspension for cause will be offset by any damage to the State from the default or other event giving rise to the suspension.

In the case of a suspension for the State's convenience, the State will calculate the amount of compensation due to the Contractor for work performed before the suspension in the same manner as provided in this section for termination for the State's convenience. The Contractor will not be entitled to compensation for any other costs associated with a suspension for the State's convenience, and the State will make no payment under this provision to the Contractor until the Contractor submits a proper invoice. If the State decides to allow the work to continue rather than terminating this Contract after the suspension, the State will not be required to make any payment to the Contractor other than those payments specified in this Contract and in accordance with the payment schedule specified in this Contract for properly completed work.

Any notice of suspension, whether with or without cause, will be effective immediately on the Contractor's receipt of the notice. The Contractor will prepare a report concerning the Project just as is required by this Section in the case of termination. After suspension of the Project, the Contractor may not perform any work without the consent of the State and may resume work only on written notice from the State to do so. In any case of suspension, the State retains its right to terminate this Contract rather than to continue the suspension or resume the Project.

The State may not suspend the Project for its convenience more than twice during the term of this Contract, and any suspension for the State's convenience may not continue for more than 30 calendar days. If the Contractor does not receive notice to resume or terminate the Project within the 30-day suspension, then this Contract will terminate automatically for the State's convenience at the end of the 30 calendar day period.

Any default by the Contractor or one of its subcontractors will be treated as a default by the Contractor and all of its subcontractors. The Contractor will be solely responsible for satisfying any claims of its subcontractors for any suspension or termination and must indemnify the State for any liability to them. Notwithstanding the foregoing, each subcontractor must hold the State harmless for any damage caused to them from a suspension or termination. They must look solely to the Contractor for any compensation to which they may be entitled.

Representatives. The State's representative under this Contract will be the person identified in the RFP Documents or in a subsequent notice to the Contractor as the “Project Representative.” The Project Representative will review all reports the Contractor makes in the performance of the Project, will conduct all liaison with the Contractor, and will accept or reject the Deliverables and the completed Project. The Project Representative may delegate his responsibilities for individual aspects of the Project to one or more managers, who may act as the Project Representative for those individual portions of the Project.

The Contractor's Implementation Manager under this Contract will be the person identified on the RFP Documents as the "Implementation Manager." The Implementation Manager will be
the Contractor’s liaison with the State under this Contract. The Implementation Manager also will conduct all Project meetings and prepare and submit to the Project Representative all reports, plans, and other materials that the RFP Documents require from the Contractor.

Either party, upon written notice to the other party, may designate another representative. However, the Contractor may not replace the Implementation Manager without the approval of the State if that person is identified in the RFP Documents by name or as a key individual on the Project.

**Project Responsibilities.** The State will be responsible for providing only those things, if any, expressly identified in the RFP Documents. If the State has agreed to provide facilities or equipment, the Contractor, by signing this Contract, warrants that the Contractor has either inspected the facilities and equipment or has voluntarily waived an inspection and will work with the equipment and facilities on an “as is” basis.

The Contractor must assume the lead in the areas of management, design, and development of the Project. The Contractor must coordinate the successful execution of the Project and direct all Project activities on a day-to-day basis, with the advice and consent of the Project Representative. The Contractor will be responsible for all communications regarding the progress of the Project and will discuss with the Project Representative any issues, recommendations, and decisions related to the Project.

If any part of the Project requires installation on the State's property, the State will provide the Contractor with reasonable access to the installation site for the installation and any site preparation that is needed. After the installation is complete, the Contractor must complete an installation letter and secure the signature of the Project Representative certifying that installation is complete and the Project, or applicable portion of it, is operational. The letter must describe the nature, date, and location of the installation, as well as the date the Project Representative certified the installation as complete and operational.

Unless otherwise provided in the RFP Documents, the Contractor is solely responsible for obtaining all official permits, approvals, licenses, certifications, and similar authorizations required by any local, state, or federal agency for the Project and maintaining them throughout the duration of this Contract.

**Changes.** The State may make reasonable changes within the general scope of the Project. The State will do so by issuing a written order under this Contract describing the nature of the change (“Change Order”). Additionally, if the State provides directions or makes requests of the Contractor without a change order, and the Contractor reasonably believes the directions or requests are outside the specifications for the Project, the Contractor may request a Change Order from the State. The parties will handle such changes as follows: The Contractor will provide pricing to the State. The State will execute a Change Order once it and the Contractor have agreed on the description of and specifications for the change, as well as any equitable adjustments that need to be made in the Contractor’s Fee or the performance schedule for the work. Then within five business days after receiving the Change Order, the Contractor must sign it to signify agreement with it.
If a change causes an increase in the cost of, or the time required for, the performance of the Project, the Contractor must notify the State in writing and request an equitable adjustment in its Fee, the delivery schedule, or both before the Contractor signs the Change Order. If the Contractor claims an adjustment under this section in connection with a change to the Project not described in a written Change Order, the Contractor must notify the State in writing of the claim within five business days after the Contractor is notified of the change and before work on the change begins. Otherwise, the Contractor will have waived the claim. In no event will the State be responsible for any increase in the Fee or revision in any delivery schedule unless the State expressly ordered the relevant change in writing and the Contractor has complied with the requirements of this section. Provided the State has complied with the procedure for Change Orders in this section, nothing in this clause will excuse the Contractor from proceeding with performance of the Project, as changed.

Where an equitable adjustment to the Contractor’s Fee is appropriate, the State and the Contractor may agree upon such an adjustment. If the State and the Contractor are unable to agree, either party may submit the dispute to the senior management of the Contractor and the senior management of the State’s Department of Administrative Services for resolution. If within 30 calendar days following referral to senior management, the claim or dispute has not been resolved, the Contractor must submit its actual costs for materials needed for the change (or estimated amount if the precise amount of materials cannot be determined) and an estimate of the hours of labor required to do the work under the Change Order. The Contractor must break down the hours of labor by employee position, and provide the actual hourly pay rate for each employee involved in the change. The total amount of the equitable adjustment for the Change Order then will be made based on the actual cost of materials (or estimated materials) and actual rate for each person doing the labor (based on the estimated hours of work required to do the change). Labor rates will be increased by 25% to cover benefits and taxes. The equitable adjustment for the Change Order then will be set based on this amount, plus 15% to cover overhead and profit. This amount will be the not-to-exceed amount of the Change Order. If the change involves removing a requirement from the Project or replacing one part of the Project with the change, the State will get a credit for the work no longer required under the original scope of the Project. The credit will be calculated in the same manner as the Contractor’s Fee for the change, and the not-to-exceed amount will be reduced by this credit.

The Contractor is responsible for coordinating changes with its subcontractors and adjusting their compensation and performance schedule. The State will not pay any subcontractor for the Change Order. If a subcontractor will perform any work under a Change Order, that work must be included in the Contractor’s not-to-exceed amount and calculated in the same manner as the Contractor’s equitable adjustment for the portion of the work the Contractor will perform. The Contractor will not receive an overhead percentage for any work a subcontractor will do under a Change Order.

If the RFP Documents provide for the retainage of a portion of the Contractor’s Fee, all equitable adjustments for Change Orders also will be subject to the same retainage, which the State will pay only on completion and acceptance of the Project, as provided in the RFP Documents.

**Excusable Delay.** Neither party will be liable for any delay in its performance that arises from causes beyond its control and without its negligence or fault. The delayed party must notify the
other promptly of any material delay in performance and must specify in writing the proposed revised performance date as soon as practicable after notice of delay. In the event of any such excusable delay, the date of performance or of delivery will be extended for a period equal to the time lost by reason of the excusable delay. The delayed party also must describe the cause of the delay and what steps it is taking to remove the cause. The delayed party may not rely on a claim of excusable delay to avoid liability for a delay if the delayed party has not taken commercially reasonable steps to mitigate or avoid the delay. Things that are controllable by the Contractor’s subcontractors will be considered controllable by the Contractor, except for third-party manufacturers supplying commercial items and over whom the Contractor has no legal control.

**Independent Contractor Acknowledgement.** It is fully understood and agreed that Contractor is an independent contractor and is not an agent, servant, or employee of the State of Ohio or the Ohio Department of Administrative Services. Contractor declares that it is engaged as an independent business and has complied with all applicable federal, state, and local laws regarding business permits and licenses of any kind, including but not limited to any insurance coverage, workers’ compensation, or unemployment compensation that is required in the normal course of business and will assume all responsibility for any federal, state, municipal or other tax liabilities. Additionally, Contractor understands that as an independent contractor, it is not a public employee and is not entitled to contributions from DAS to any public employee retirement system.

Contractor acknowledges and agrees any individual providing personal services under this agreement is not a public employee for purposes of Chapter 145 of the Ohio Revised Code. Unless Contractor is a “business entity” as that term is defined in ORC. 145.037 (“an entity with five or more employees that is a corporation, association, firm, limited liability company, partnership, sole proprietorship, or other entity engaged in business”) Contractor shall have any individual performing services under this agreement complete and submit to the ordering agency the Independent Contractor/Worker Acknowledgement found at the following link: [https://www.opers.org/forms-archive/PEDACKN.pdf](https://www.opers.org/forms-archive/PEDACKN.pdf)

Contractor’s failure to complete and submit the Independent/Worker Acknowledgement prior to commencement of the work, service or deliverable, provided under this agreement, shall serve as Contractor’s certification that contractor is a “Business entity” as the term is defined in ORC Section 145.037.

**Background Checks.** All Contractor and subcontractor personnel assigned to the Project who have access to sensitive or confidential information or to sensitive State systems must have a current fingerprint search and background check performed by the Federal Bureau of Investigation or other Federal investigative authority. The fingerprint search and background checks must be completed before any such Contractor or subcontractor personnel gain access to State facilities, sensitive and/or confidential information or systems. All costs associated with this will be at the Contractor’s expense. At its discretion, the State may reject any Contractor or subcontractor personnel based on the information provided in the completed background check.

**Publicity.** The Contractor may not advertise or publicize that it is doing business with the State or use this Contract or the Contractor’s relationship with the State as a marketing or sales tool, unless the State agrees otherwise in writing.
Confidentiality. The State may disclose to the Contractor written material or oral or other information that the State treats as confidential ("Confidential Information"). Title to the Confidential Information and all related materials and documentation the State delivers to the Contractor will remain with the State. The Contractor must treat such Confidential Information as secret, if it is so marked, otherwise identified as such, or when, by its very nature, it deals with matters that, if generally known, would be damaging to the best interest of the public, other contractors, potential contractors with the State, or individuals or organizations about whom the State keeps information. By way of example, information must be treated as confidential if it includes any proprietary documentation, materials, flow charts, codes, software, computer instructions, techniques, models, information, diagrams, know-how, trade secrets, data, business records, or marketing information. By way of further example, the Contractor also must treat as confidential materials such as police and investigative records, files containing personal information about individuals or employees of the State, such as personnel records, tax records, and so on, court and administrative records related to pending actions, any material to which an attorney-client, physician-patient, or similar privilege may apply, and any documents or records excluded by Ohio law from public records disclosure requirements.

The Contractor may not disclose any Confidential Information to third parties and must use it solely to do the Project. The Contractor must restrict circulation of Confidential Information within its organization and then only to people in the Contractor's organization that have a need to know the Confidential Information to do the Project. The Contractor will be liable for the disclosure of such information, whether the disclosure is intentional, negligent, or accidental, unless otherwise provided below.

The Contractor will not incorporate any portion of any Confidential Information into any work or product, other than a Deliverable, and will have no proprietary interest in any of the Confidential Information. Furthermore, the Contractor must cause all of its Personnel who have access to any Confidential Information to execute a confidentiality agreement incorporating the obligations in this section.

The Contractor's obligation to maintain the confidentiality of the Confidential Information will not apply where such: (1) was already in the Contractor's possession before disclosure by the State, and such was received by the Contractor without obligation of confidence; (2) is independently developed by the Contractor; (3) except as provided in the next paragraph, is or becomes publicly available without breach of this Contract; (4) is rightfully received by the Contractor from a third party without an obligation of confidence; (5) is disclosed by the Contractor with the written consent of the State; or (6) is released in accordance with a valid order of a court or governmental agency, provided that the Contractor (a) notifies the State of such order immediately upon receipt of the order and (b) makes a reasonable effort to obtain a protective order from the issuing court or agency limiting disclosure and use of the Confidential Information solely for the purposes intended to be served by the original order of production. The Contractor must return all originals of any Confidential Information and destroy any copies it has made on termination or expiration of this Contract.
Information that may be available publicly through other sources about people that is personal in nature, such as medical records, addresses, phone numbers, social security numbers, and similar things are nevertheless sensitive in nature and may not be disclosed or used in any manner except as expressly authorized in this Contract. Therefore, item (3) in the preceding paragraph does not apply, and the Contractor must treat such information as Confidential Information whether it is available elsewhere or not.

The Contractor may disclose Confidential Information to its subcontractors on a need-to-know basis, but the Contractor first must obligate them to the requirements of this section.

Confidentiality Agreements. When the Contractor performs services under this Contract that require the Contractor’s and its subcontractors’ personnel to access facilities, data, or systems that the State in its sole discretion deems sensitive, the State may require the Contractor’s and its subcontractors’ personnel with such access to sign an individual confidential agreement and policy acknowledgements, and have a background check performed before accessing those facilities, data, or systems. Each State agency, board, and commission may require a different confidentiality agreement or acknowledgement, and the Contractor’s and its subcontractors’ personnel may be required to sign a different confidentiality agreement or acknowledgement for each agency. The Contractor must immediately replace any of its or its subcontractors’ personnel who refuse to sign a required confidentiality agreement or acknowledgment or have a background check performed.

Ownership of Deliverables. The State owns all Deliverables that the Contractor produces under this Contract, including any software modifications, and documentation, with all rights, title, and interest in all intellectual property that come into existence through the Contractor’s custom work being assigned to the State. Additionally, the Contractor waives any author rights and similar retained interests in custom-developed material. The Contractor must provide the State with all assistance reasonably needed to vest such rights of ownership in the State. The Contractor will retain ownership of all tools, methods, techniques, standards, and other development procedures, as well as generic and preexisting shells, subroutines, and similar material incorporated into any custom Deliverable (“Preexisting Materials”), if the Contractor provides the non-exclusive license described in the next paragraph.

The Contractor may grant the State a worldwide, nonexclusive, royalty free, perpetual license to use, modify, and distribute all Preexisting Materials that are incorporated into any custom-developed Deliverable rather than grant the State ownership of the Preexisting Materials. The State may distribute such Pre-existing materials to third parties only to the extent required by governmental funding mandates. The Contractor may not include in any custom Deliverable any intellectual property unless such has been created under this Contract or qualifies as Pre-existing Material. If the Contractor wants to incorporate any Pre-existing Materials into a custom Deliverable, the Contractor must first disclose that desire to the State in writing and seek the State’s approval for doing so in advance. The State will not be obligated to provide that approval, unless the Contractor disclosed its intention to do so in the RFP Documents. On the Contractor’s request, the State will incorporate into any copies of a custom Deliverable any proprietary notice that the Contractor included with the original copy, if that notice is reasonably necessary to protect the Contractor’s interest in any Pre-existing Materials contained in the custom Deliverable.
Subject to the limitations and obligations of the State with respect to Preexisting Materials, the State may make all custom Deliverables available to the general public without any proprietary notices of any kind.

For Deliverables that include custom materials such as software, scripts, or similar computer instructions developed for the State, the State is entitled to the source material. Scripts and similar functionality may not be locked or otherwise protected from access by the State, unless the State has any passwords or other tools necessary to access the material. Source material must include annotations or comments according to industry standards. Further, the State is entitled to any working papers the Contractor has developed during the performance of the Project that would reasonably assist the State in using the Deliverables that include source materials or that would help the State protect its interests in the Deliverable or update, modify, or otherwise maintain the Deliverable. This also includes all design and architectural materials, such as schemas.

The Contractor may use Confidential Information only as necessary for Contractor’s performance under or pursuant to rights granted in this Agreement and for no other purpose. The Contractor’s limited right to use Confidential Information expires upon expiration or termination of this Agreement for any reason. The Contractor’s obligations of confidentiality and non-disclosure survive termination or expiration for any reason of this Agreement.

License in Commercial Material. As used in this section, "Commercial Material" means anything that the Contractor or a third party has developed at private expense, is commercially available in the marketplace, subject to intellectual property rights, and readily copied through duplication on magnetic media, paper, or other media. Examples include written reports, books, pictures, videos, movies, computer programs, and computer source code and documentation.

Any Commercial Material that the Contractor intends to deliver as a Deliverable must have the scope of the license granted in such material disclosed in the RFP Documents or as an attachment referenced in the RFP Documents, if that scope of license is different from the scope of license contained in this section for Commercial Materials.

Except for Commercial Material that is software ("Commercial Software"), if the Commercial Material is copyrighted and published material, then the State will have the rights permitted under the federal copyright laws for each copy of the Commercial Material delivered to it by the Contractor.

Except for Commercial Software, if the Commercial Material is patented, then the State will have the rights permitted under the federal patent laws for each copy of the Commercial Material delivered to it by the Contractor.

Except for Commercial Software, if the Commercial Material consists of trade secrets, then the State will treat the material as confidential. In this regard, the State will assume all obligations with respect to the Commercial Material that the Contractor assumes under the Confidentiality section of this Contract with respect to the State’s Confidential Information. Otherwise, the
State will have the same rights and duties permitted under the federal copyright laws for each copy of the Commercial Material delivered to it by the Contractor, whether or not the material is copyrighted when delivered to the State.

For Commercial Software, the State will have the rights in items (1) through (6) of this section with respect to the software. The State will not use any Commercial Software except as provided in the six items below or as expressly stated otherwise in this Contract. The Commercial Software may be:

1. Used or copied for use in or with the computer or computers for which it was acquired, including use at any State installation to which such computer or computers may be transferred;
2. Used or copied for use in or with a backup computer for disaster recovery and disaster recovery testing purposes or if any computer for which it was acquired is inoperative;
3. Reproduced for safekeeping (archives) or backup purposes;
4. Modified, adapted, or combined with other computer software, but the modified, combined, or adapted portions of the derivative software incorporating any of the Commercial Software will be subject to same restrictions set forth in this Contract;
5. Disclosed to and reproduced for use on behalf of the State by support service contractors or their subcontractors, subject to the same restrictions set forth in this Contract; and
6. Used or copied for use in or transferred to a replacement computer.

Commercial Software delivered under this Contract is licensed to the State without disclosure restrictions unless it is clearly marked as confidential or secret. The State will treat any Commercial Software that is marked as confidential or secret as Confidential Information to the extent that such is actually the case.

Key Commercial Software will be covered by a separate Master Contract for Software Licensing, in the form of Attachment Eleven. When such a Master Contract is executed, it will be a separate agreement and not part of this Contract, though the Contractor remains responsible for ensuring that the completed Project, including any Key Commercial Software, meets the requirements of this Contract and performs according to the RFP Documents requirements.
PART FOUR: REPRESENTATIONS, WARRANTIES, AND LIABILITIES

**General Warranties.** The Contractor warrants that the recommendations, guidance, and performance of the Contractor under this Contract will: (1) be in accordance with sound professional standards and the requirements of this Contract and without any material defects; and (2) unless otherwise provided in the RFP Documents, be the work solely of the Contractor. The Contractor also warrants that: (1) no Deliverable will infringe on the intellectual property rights of any third party; and (2) the Contractor’s work and the Deliverables resulting from that work will be merchantable and fit for the particular purposes described in the RFP Documents.

Additionally, with respect to the Contractor's activities under this Contract, the Contractor warrants that: (1) the Contractor has the right to enter into this Contract; (2) the Contractor has not entered into any other contracts or employment relationships that restrict the Contractor's ability to perform the contemplated services; (3) the Contractor will observe and abide by all applicable laws and regulations, including those of the State regarding conduct on any premises under the State's control and security for the State’s data, systems, and networks; (4) the Contractor has good and marketable title to any goods delivered under this Contract and in which title passes to the State; (5) the Contractor has the right and ability to grant the license granted in any Deliverable in which title does not pass to the State; and (6) the Contractor is not subject to any unresolved findings of the Auditor of State under Revised Code Section 9.24 and will not become subject to an unresolved finding that prevents the extension or renewal of this Contract.

The warranties regarding material defects, merchantability, and fitness are one-year warranties. All other warranties will be continuing warranties. If any portion of the Project fails to comply with these warranties, and the Contractor is so notified in writing, the Contractor must correct such failure with all due speed or must refund the amount of the compensation paid for such portion of the Project. The Contractor also must indemnify the State for any direct damages and claims by third parties based on a breach of these warranties. This obligation of indemnification will not apply where the State has modified or misused the Deliverable and the claim is based on the modification or misuse. The State will give the Contractor notice of any such claim as soon as reasonably practicable. If a successful claim of infringement is made, or if the Contractor reasonably believes that an infringement claim that is pending may actually succeed, the Contractor must do one of the following things: (1) modify the Deliverable so that it is no longer infringing; (2) replace the Deliverable with an equivalent or better item; (3) acquire the right for the State to use the infringing Deliverable as it was intended for the State to use under this Contract; or (4) remove the Deliverable and refund the amount the State paid for the Deliverable and the amount of any other Deliverable or item that requires the availability of the infringing Deliverable for it to be useful to the State.

**Software Warranty.** If this Contract involves software as a Deliverable, then, on acceptance and for 12 months after the date of acceptance of any Deliverable that includes software, the Contractor warrants as to all software developed under this Contract that: (a) the software will operate on the computer(s) for which the software is intended in the manner described in the relevant software documentation, the Contractor's Proposal, and the RFP Documents; (b) the software will be free of any material defects; (c) the Contractor will deliver and maintain relevant and complete software documentation, commentary, and source code; and (d) the source code language used to code the software is readily available in the commercial market, widely used and accepted for the type of programming involved, and support programming in the language.
is reasonably available in the open market; and (e) the software and all maintenance will be
provided in a professional, timely, and efficient manner.

For Commercial Software licensed from a third party that is incorporated into a Deliverable, and
for which the State has not approved a separate license agreement governing that Commercial
Software’s warranties as part of the RFP process, the Contractor represents and warrants that it
has done one of the following things: (a) obtained the right from the third-party licensor to
commit to the warranties and maintenance obligations in this Section; (b) obtained a binding
commitment from the licensor to make those warranties and maintenance obligations directly to
the State; or (c) fully disclosed in the RFP Documents any discrepancies between the
requirements of this section and the commitment the third-party licensor has made.

In addition, for Commercial Software that is incorporated into a Deliverable, the Contractor will:
(a) maintain or cause the third-party licensor to maintain the Commercial Software so that it
operates in the manner described in the RFP Documents (or any attachment referenced in the
RFP Documents) and relevant Commercial Software documentation; (b) supply technical
bulletins and updated user guides; (c) supply the State with updates, improvements,
enhancements, and modifications to the Commercial Software and documentation and, if
available, the commentary and the source code; (d) correct or replace the Commercial Software
and/or remedy any material programming error that is attributable to the Contractor or the third-
party licensee; (e) maintain or cause the third-party licensor to maintain the Commercial
Software and documentation to reflect changes in the subject matter the Commercial Software
deals with; (f) maintain or obtain a commitment from the third-party licensor to maintain the
Commercial Software so that it will properly operate in conjunction with changes in the operating
environment in which it is designed to operate.

For purposes of the warranties and the delivery requirements in this Contract, software
documentation means well written, readily understood, clear, and concise instructions for the
software’s users as well as a system administrator. The software documentation will provide the
users of the software with meaningful instructions on how to take full advantage of all of the
capabilities designed for end users. It also means installation and system administration
documentation for a system administrator to allow proper control, configuration, and
management of the software. Source code means the uncompiled operating instructions for the
software. However, the Contractor will not be obligated to provide source code for Commercial
Software unless it is readily available from the licensor. The source code must be provided in
the language in which it was written and will include commentary that will allow a competent
programmer proficient in the source language to readily interpret the source code and
understand the purpose of all routines and subroutines contained within the source code.

GENERAL EXCLUSION OF WARRANTIES. THE CONTRACTOR MAKES NO
WARRANTIES, EXPRESS OR IMPLIED, OTHER THAN THOSE EXPRESS WARRANTIES
CONTAINED IN THIS CONTRACT.

Indemnity for Property Damage and Bodily Injury. The Contractor must indemnify the State
for all liability and expense resulting from bodily injury to any person (including injury resulting in
death) and damage to tangible or real property arising out of the performance of this Contract,
provided that such bodily injury or property damage is due to the negligence or other tortious
conduct of the Contractor, its employees, agents, or subcontractors. The Contractor will not be
responsible for any damages or liability to the extent caused by the negligence or willful misconduct of the State, its employees, other contractors, or agents.

Limitation of Liability. Neither party will be liable for any indirect, incidental, or consequential loss or damage of the other party, including but not limited to lost profits, even if the parties have been advised, knew, or should have known of the possibility of such damages. Additionally, neither party will be liable to the other for direct or other damages in excess of a) two times the Not-To-Exceed Fixed Price of this Contract for the RFP including all Supplements and separately, b) two times the most recent twenty-four (24) months of the Managed Services charges paid or payable for such work contained in the RFP including all Supplements. The limitations in this paragraph do not apply to any obligation of the Contractor to indemnify the State against claims made against it or for damages to the State caused by the Contractor's negligence or other tortious conduct.

PART FIVE: ACCEPTANCE AND MAINTENANCE

Standards of Performance and Acceptance. There will be a period for performance testing of the completed Project. During the performance period, the State, with the assistance of the Contractor, will perform acceptance testing. The performance period will last no less than 30 calendar days, during which time the Project must meet the standard of performance required by the RFP Documents for 14 consecutive calendar days. The performance criteria in the RFP Documents will be supplemented with the relevant user manuals, technical materials, and related writings, to the extent that the specifications in those writings supplement and refine rather than contradict the performance criteria in the RFP Documents. Acceptance of the Project depends on a successful completion of the performance period defined in this section and the RFP Documents. This section applies to the Project, and any part of it, as well as replacements or substitutes for the Project after completion of a successful performance period.

If the Project does not meet the standard of performance during the initial performance period, the State will give the Contractor details about the problems in a timely manner and in a useful and relevant form. Until the Contractor demonstrably corrects all outstanding problems, the second performance period will not start, and the State will not accept the Project (or part thereof). The second performance test will continue on a day-by-day basis until the standard of performance is met for a total of 14 consecutive calendar days or until the 30-day performance period has ended without meeting the standard of performance.

If the Project fails to meet the standard of performance after 30 calendar days from the start of the second performance period, the Contractor will be in default and will not have a cure period. In addition to all other remedies the State may have under this Contract, the State may request a correction or replacement of the relevant portion of the Project.

The Project may have components that can be tested for acceptance individually. If that is so, there may be acceptance criteria listed on the RFP Documents for each part of the Project that will be independently tested and accepted. However, unless the RFP Documents expressly provide otherwise, the failure of any independently tested component to meet its acceptance criteria will give the State the right to reject the entire Project. Alternatively, if the State determines that it is in the State's interest to reject only the part of the Project that was
independently and unsuccessfully tested, it may do so. If the State chooses this option, the State will be entitled to a refund or credit toward the Contractor's Fee equal to the cost of acquiring a replacement for the rejected component.

The acceptable level of performance for the Project will be 98.5%, unless otherwise specified in the RFP Documents. The performance level for the Project is computed by dividing the sum of the uptime by the number of working hours during the test time. “Uptime” means the total hours, rounded to the nearest quarter hour, during which all components of the Project are operational and all functions of the Project are available to its users. The number of “working hours” means the total number of working hours for the period during which the Project was scheduled to be available to its users. Uptime and downtime will be measured in hours and quarter hours.

The Project “downtime” is that period when any part of the Project is inoperable due to failure of the Project or a particular Deliverable to operate according to the specifications in the RFP Documents, the user documentation, or the published technical specifications. During a period of downtime, the State may use operable components of the Project when that will not interfere with repair of inoperable components of the Project. Downtime will start from the time the State notifies the Project Manager of the inoperable condition of the Project until the Project is returned in proper operating condition.

The Project will not be accepted until the performance period is complete.

Should it be necessary, the State may delay the start of the performance period, but the delay will not exceed 14 consecutive calendar days after the scheduled date for implementation of the Project. Such a delay will not be considered a suspension of work under the Suspension and Termination section of this Contract.

**Passage of Title.** Title to any Deliverable will pass to the State only on acceptance of the Deliverable. All risk of loss, regardless of the cause, will remain with the Contractor until title to the Deliverable passes to the State.

**Software Maintenance.** If this Contract involves software as a Deliverable, then, during the warranty period, as well as any optional maintenance periods that the State exercises, the Contractor must correct any material programming errors that are attributable to the Contractor within a reasonable period of time. However, the State must notify the Contractor, either orally or in writing, of a problem with the software and provide sufficient information for the Contractor to identify the problem.

The Contractor’s response to a programming error will depend upon the severity of the problem. For programming errors that slow the processing of data by a small degree, render minor and non-mandatory functions of the System inoperable or unstable, or require users or administrators to employ workarounds to fully use the software, Contractor will respond to the request for resolution within four business hours. Furthermore, the Contractor must begin working on a proper solution for the problem within one business day, dedicating the resources required to fix the problem. For any defects with more significant consequences, including
those that render key functions of the system inoperable or significantly slow processing of data, the Contractor will respond within two business hours of notice. The Contractor also must begin working on a proper solution for the problem immediately after responding and, if requested, provide on-site assistance and dedicate all available resources to resolving the problem.

For software classified as Commercial Software in the Ownership of Deliverables section and for which the State has not signed a separate license agreement, the Contractor must acquire for the State the right to maintenance for one year. That maintenance must be the third-party licensor’s standard maintenance program, but at a minimum, that maintenance program must include all, updates, patches, and fixes to the software. It also must include a commitment to keep the software current with the operating environment in which it is designed to function (and, if applicable, the subject matter covered by the software) and to correct material defects in the software in a timely fashion. Additionally, the Contractor must obtain a commitment from the licensor to make maintenance available for the product for at least five years after the first year of maintenance. The Contractor also must obtain a commitment from the licensor to limit increases in the annual Fee for maintenance to no more than 7% annually. If the licensor is unable to provide maintenance during that five-year period, then the licensor must be committed to doing one of the following two things: (a) give the State a pro rata refund of the license fee based on a five-year useful life; or (b) release the source code for the software (except third party software) to the State for use by the State solely for the purpose of maintaining the copy(ies) of the software for which the State has a proper license. For purposes of receiving the source code, the State agrees to treat it as confidential and to be obligated to the requirements under the Confidentiality section of this Contract with respect to the source code. That is, with respect to the source code that the State gets under this section, the State will do all the things that the Confidentiality section requires the Contractor to do in handling the State's Confidential Information.

**Principal Period of Maintenance (General).** This section applies if software or Equipment will be a Deliverable under this Contract.

Travel time and expenses related to remedial and preventive maintenance will not be considered billable but will be included in the Contractor's firm, fixed Fee for the Project during the warranty period and a part of the annual maintenance Fee during later annual maintenance periods.

**Maintenance Access (General).** This section applies if software or Equipment will be a Deliverable under this Contract.

The Contractor must keep the Project in good operating condition during the warranty period and any annual maintenance period during which the State contracts for continued maintenance. The State will provide the Contractor with reasonable access to the Project to perform maintenance. All maintenance that requires the Project to be inoperable must be performed outside the State's customary working hours, except when the Project is already inoperable. Preventive or scheduled maintenance will be performed at mutually agreeable times, within the parameters of the manufacturer's published schedule.
Key Maintenance Personnel (General). This section applies if software or Equipment will be a Deliverable under this Contract.

The Contractor must identify all key people responsible for providing maintenance on the Project, furnish the State with a means of identifying these people, furnish the State with their credentials, and notify the State at least 30 calendar days in advance of any reductions in staffing levels of key people at the office serving the State.

PART SIX: CONSTRUCTION

Entire Document. This Contract is the entire agreement between the parties with respect to its subject matter and supersedes any previous agreements, whether oral or written.

Binding Effect. This Contract will be binding upon and inure to the benefit of the respective successors and assigns of the State and the Contractor.

Amendments – Waiver. No change to any provision of this Contract will be effective unless it is in writing and signed by both parties. The failure of either party at any time to demand strict performance by the other party of any of the terms of this Contract will not be a waiver of those terms. Waivers must be in writing to be effective, and either party may at any later time demand strict performance.

Severability. If any provision of this Contract is held by a court of competent jurisdiction to be contrary to law, the remaining provisions of this Contract will remain in full force and effect to the extent that such does not create an absurdity.

Construction. This Contract will be construed in accordance with the plain meaning of its language and neither for nor against the drafting party.

Headings. The headings used herein are for the sole sake of convenience and may not be used to interpret any section.

Notices. For any notice under this Contract to be effective, it must be made in writing and sent to the address of the appropriate contact provided elsewhere in the Contract, unless such party has notified the other party, in accordance with the provisions of this section, of a new mailing address. This notice requirement will not apply to any notices that this Contract expressly authorized to be made orally.

Continuing Obligations. The terms of this Contract will survive the termination or expiration of the time for completion of Project and the time for meeting any final payment of compensation, except where such creates an absurdity.
Time. Unless otherwise expressly provided, any reference in this document to a number of days for an action or event to occur means calendar days, and any reference to a time of the day, such as 5:00 p.m., is a reference to the local time in Columbus, Ohio.

Time is of the Essence. Contractor hereby acknowledges that time is of the essence for performance of this Contract unless, otherwise agreed to in writing by the parties.

PART SEVEN: LAW AND COURTS

Compliance with Law. The Contractor must comply with all applicable federal, state, and local laws while performing under this Contract.

Drug-Free Workplace. The Contractor must comply with all applicable state and federal laws regarding keeping a drug-free workplace. The Contractor must make a good faith effort to ensure that all the Contractor’s Personnel, while working on state property, will not have or be under the influence of illegal drugs or alcohol or abuse prescription drugs in any way.

Conflicts of Interest and Ethics Compliance Certification. None of the Contractor’s Personnel may voluntarily acquire any personal interest that conflicts with their responsibilities under this Contract. Additionally, the Contractor may not knowingly permit any public official or public employee who has any responsibilities related to this Contract or the Project to acquire an interest in anything or any entity under the Contractor’s control, if such an interest would conflict with that official’s or employee’s duties. The Contractor must disclose to the State knowledge of any such person who acquires an incompatible or conflicting personal interest related to this Contract. The Contractor also must take steps to ensure that such a person does not participate in any action affecting the work under this Contract. However, this will not apply when the State has determined, in light of the personal interest disclosed, that person's participation in any such action would not be contrary to the public interest.

Ohio Ethics Law and Limits on Political Contributions. The Contractor certifies that it is currently in compliance and will continue to adhere to the requirements of the Ohio ethics laws. The Contractor also certifies that all applicable parties listed in Ohio Revised Code Section 3517.13 are in full compliance with Ohio Revised Code Section 3517.13.

Unresolved Finding for Recovery. If the Contractor was subject to an unresolved finding of the Auditor of State under Revised Code Section 9.24 on the date the parties sign this Contract, the Contract is void. Further, if the Contractor is subject to an unresolved finding of the Auditor of State under Revised Code Section 9.24 on any date on which the parties renew or extend this Contract, the renewal or extension will be void.

Equal Employment Opportunity. The Contractor will comply with all state and federal laws regarding equal employment opportunity and fair labor and employment practices, including Ohio Revised Code Section 125.111 and all related Executive Orders.
Before a contract can be awarded or renewed, an Affirmative Action Program Verification Form must be submitted to the Department of Administrative Services Equal Opportunity Division to comply with the affirmative action requirements. Affirmative Action Verification Forms and approved Affirmative Action Plans can be found by going to the Ohio Business Gateway at: http://business.ohio.gov/efiling/

Minority Business Enterprise Subcontracting Requirement. The State is committed to making more State contracts and opportunities available to minority business enterprises (MBE) certified by the Ohio Department of Administrative Services pursuant to Section 123.151 of the Ohio Revised Code and Rule 123:2-15-01 of the Ohio Administrative Code. This RFP contains a sheltered solicitation requirement which requires the Offeror to seek and set aside a portion of the Work to be exclusively performed by Ohio certified MBE businesses. For more information regarding Ohio MBE certification requirements, including a list of Ohio certified MBE businesses, please visit the DAS Equal Opportunity Division web site at: http://das.ohio.gov/Divisions/EqualOpportunity/MBEEEECertification/tabid/134/default.aspx

Sheltered Solicitation. In seeking solicitations from Ohio certified MBE subcontractors, the Offeror must:

- Utilize a competitive process to which only Ohio certified MBEs may respond;
- Have established criteria by which prospective Ohio MBEs will be evaluated including business ability and specific experience related to the Work requirements; and
- Require the Ohio certified MBE maintain a valid certification throughout the term of the Contract, including any renewals.

MBE Subcontractor Plan. Offeror's proposal must include an Ohio certified MBE subcontractor plan (Plan). The Plan must:

- State the specific percentage of the cost of the Work that it will set aside for Ohio certified MBE subcontractors only which must equal, at a minimum, 15% of the cost of the contract;
- Include a description of a competitive process used for the selection of Ohio certified MBE subcontractors to which only Ohio certified MBEs may respond; and
- Identification of proposed portions of the Work to be performed by Ohio certified MBE subcontractors.

Scoring.

Pre-award identification of Ohio certified MBE subcontractor and Agency required minimum percentage. In the Evaluation Scoring Formula of the RFP, the Offeror who identifies one or more qualified Ohio certified MBE subcontractor and has the highest percentage of its cost proposal meeting or exceeding the minimum percentage set aside exclusively for Ohio certified MBE subcontractors' Work will receive the maximum number of points set forth in the RFP. If remaining Offerors meet the minimum percentage and have identified one or more qualified Ohio certified MBE subcontractor, the Offeror will receive a percentage of the maximum points allowed. Offerors who do not meet the minimum percentage or do not identify one or more Ohio certified MBE subcontractor will receive zero points.

Tracking.
Once awarded, Contractor shall indicate on all invoices submitted to the Agency the dollar amount attributed to the goods or services provided by the selected Ohio certified MBE subcontractors along with documentation of the Ohio certified MBE subcontractor’s activities. Offeror shall report all Ohio certified MBE subcontractor payments under this Contract monthly to the Agency. Compliance with [OFFEROR OR BIDDER]’s proposed cost set-aside percentage is a term of this contract and failure to attain the proposed percentage by the expiration of the contract may result in the [OFFEROR OR BIDDER] being found in breach of contract.

**REMEDIES**

**Modification or Waiver.**
Contractor may apply in writing to the Agency, on a form prescribed by DAS, for a waiver or modification of its proposed MBE set-aside cost percentage. However, no modification or waiver request may be submitted before at least [thirty percent (30%)] of the Work is completed or after eighty percent (80%) of the work is completed. Contractor shall submit evidence acceptable to Agency demonstrating that Contractor made every reasonable effort to seek Ohio certified MBE subcontractors, in order to justify the granting of a waiver or modification. Within 30 days of receipt of the request, Agency will determine whether Contractor’s good faith efforts and submitted documentation justify the granting of a waiver or modification. If a waiver or modification is denied, Contractor will have an opportunity to attain the percentage before the completion of the work. Compliance with any modified cost set-aside percentage is a term of this contract and failure to attain the percentage each fiscal year of the contract may result in the Contractor being found in breach of contract.

**Fee at Risk.**
Compliance with Offeror’s proposed cost MBE set-aside percentage is a term of this contract. Contractor agrees to place fifteen percent of its payment at risk for failure to attain the MBE set-aside percentage.

**Security & Safety Rules.** When using or possessing State data or accessing State networks and systems, the Contractor must comply with all applicable State rules, policies, and regulations regarding data security and integrity. And when on any property owned or controlled by the State, the Contractor must comply with all security and safety rules, regulations, and policies applicable to people on those premises.

**Governing the Expenditure of Public Funds on Offshore Services (EO 2011-12K).** The Service Provider affirms it has read and understands Executive Order 2011-12K and will abide by those requirements in the performance of this Agreement. Notwithstanding any other terms of this Agreement, the State reserves the right to recover any funds paid for Services the Service Provider performs outside of the United States for which it did not receive a waiver. The State does not waive any other rights or remedies provided the State in this Agreement.

The Service Provider agrees to complete the attached Executive Order 2011-12K Affirmation and Disclosure Form, which is incorporated and becomes a part of this Agreement.
**Injunctive Relief.** Nothing in this Contract is intended to limit the State’s right to injunctive relief, if such is necessary to protect its interests or to keep it whole.

**Assignment.** The Contractor may not assign this Contract or any of its rights or obligations under this Contract without the prior, written consent of the State. The State is not obligated to provide its consent to any proposed assignment.

**Governing Law.** This Contract will be governed by the laws of Ohio, and venue for any disputes will lie exclusively with the appropriate court in Franklin County, Ohio.

**Registration with the Secretary of State.** By providing a Charter Number and signature within the Certification Offer Letter, the Contractor attests that the Contractor is:

- An Ohio corporation that is properly registered with the Ohio Secretary of State; or
- A foreign corporation, not incorporated under the laws of the state of Ohio, but is registered with the Ohio Secretary of State pursuant to Ohio Revised Code Sections 1703.01 to 1703.31, as applicable.

Any foreign corporation required to be licensed under O.R.C. § 1703.01-1703.31, which transacts business in the state of Ohio, without being so licensed, or when its license has expired or been canceled, a forfeit not less than $250.00 nor more than ten thousand dollars. No officer of a foreign corporation [http://codes.ohio.gov/orc/1703.01](http://codes.ohio.gov/orc/1703.01) shall transact business in the state of Ohio, if such corporation is required by O.R.C. § 1703.01-1803.31 to procure and maintain a license, but has not done so. Whoever violates this is guilty of a misdemeanor of the forth degree. Questions regarding registration should be directed to (614) 466-3910, or visit [http://www.sos.state.oh.us](http://www.sos.state.oh.us).

**Boycotting.** Pursuant to Ohio Revised Code 9.76 (B) Contractor warrants that Contractor is not boycotting any jurisdiction with whom the State of Ohio can enjoy open trade, including Israel, and will not do so during the contract period.
6.5. ATTACHMENT FIVE - SAMPLE CONTRACT

A CONTRACT BETWEEN
THE DEPARTMENT OF ADMINISTRATIVE SERVICES
ON BEHALF OF THE ____________________________
AND

______________________________________________________

(CONTRACTOR)

THIS CONTRACT, which results from RFP 0A1227, entitled ___________________, is
between the State of Ohio, through the Department of Administrative Services, on behalf of
______________________________, and _________________________ (the “Contractor”).

The Contract is the result of agreed upon changes to the RFP, its attachments and supplements
including any written amendments to the RFP, any materials incorporated by reference in the
RFP, the Contractor’s Proposal, and written, authorized amendments and clarifications to the
Contractor’s Proposal. It also includes any purchase orders and change orders issued under
the Contract.

This Contract consists of:

1. This one-page Contract (Attachment Five) in its final form;
2. The attached, amended and clarified version of Contractor’s Response to RFP 0A1227 dated
   ____________________ (“Contractor’s Response”). Contractor’s Response includes Attachment
   Four - General Terms and Conditions, and all other Attachments, Supplements and materials
   included in Contractor’s Response;
3. The attached Cost Proposal Workbook dated ____________________ ; and
4. The applicable Purchase Order.

Change Orders and amendments issued after the Contract is executed may expressly change
the provisions of the Contract. If they do so expressly, then the most recent of them will take
precedence over anything else that is part of the Contract.

The term of the Contract will from the award date until June 30, 2019. The State may renew this
Contract for up to five (5) additional two-year term(s), subject to and contingent on the
discretionary decision of the Ohio General Assembly to appropriate funds for this Contract in
each new biennium. Any such renewal of all or part of the Contract also is subject to the
satisfactory performance of the Contractor and the needs of the State.
TO SHOW THEIR AGREEMENT, the parties have executed this Contract as of the dates below.

6.6. ATTACHMENT SIX - OFFEROR CERTIFICATION FORM

**Note:** Offeror must provide a response to each of the numbered items in the Offeror Certification Form.

1. The offeror is not currently subject to an "unresolved" finding for recovery under Revised Code Section 9.24, and the offeror will notify the Procurement Representative any time it becomes subject to such a finding before the award of a Contract arising out of this RFP.

2. The offeror certifies that it will not and will not allow others to perform work for the State of Ohio outside the geographic limitations contained in Attachment Two or take data that belongs to the State of Ohio outside the geographic limitations contained in Attachment Two without express written authorization from the State.

3. The offeror certifies that its responses to the following statements are true and accurate. The offeror’s answers apply to the last seven years. Please indicate yes or no in each column.

<table>
<thead>
<tr>
<th>Yes/No</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>The offeror has had a contract terminated for default or cause.</td>
</tr>
<tr>
<td></td>
<td>The offeror has been assessed any penalties in excess of $10,000.00, including liquidated damages, under any of its existing or past contracts with any organization (including any governmental entity).</td>
</tr>
<tr>
<td></td>
<td>The offeror was the subject of any governmental action limiting the right of the offeror to do business with that entity or any other governmental entity.</td>
</tr>
<tr>
<td></td>
<td>Trading in the stock of the company has ever been suspended with the date(s) and explanation(s).</td>
</tr>
<tr>
<td></td>
<td>The offeror, any officer of the offeror, or any owner of a 20% interest or greater in the offeror has filed for bankruptcy, reorganization, a debt arrangement, moratorium, or any proceeding under any bankruptcy or insolvency law, or any dissolution or liquidation proceeding.</td>
</tr>
<tr>
<td></td>
<td>The offeror, any officer of the offeror, or any owner with a 20% interest or greater in the offeror has been convicted of a felony or is currently under indictment on any felony charge.</td>
</tr>
</tbody>
</table>
If the answer to any item above is affirmative, the offeror must provide complete details about the matter. While an affirmative answer to any of these items will not automatically disqualify an offeror from consideration, at the sole discretion of the State, such an answer and a review of the background details may result in a rejection of the Proposal. The State will make this decision based on its determination of the seriousness of the matter, the matter’s possible impact on the offeror’s performance under the Contract, and the best interest of the State.

4. The offeror certifies that neither it nor any of its people that may work on or benefit from the Contract through the offeror has a possible conflict of interest (e.g., employed by the State of Ohio, etc.) other than the conflicts identified immediately below:

<table>
<thead>
<tr>
<th>Potential Conflicts (by person or entity affected)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
</tr>
</tbody>
</table>

(Attach an additional sheet if more space is need.)

The State may reject a Proposal in which an actual or apparent conflict is disclosed. And the State may cancel or terminate the Contract for cause if it discovers any actual or apparent conflict of interest that the offeror did not disclose in its Proposal.

5. The offeror certifies that all its and its subcontractors’ personnel provided for the Work will have a valid I-9 form on file with the offeror or subcontractor, as appropriate, and will have presented valid employment authorization documents, if they are not United States citizens.

6. The offeror certifies that it’s regular, fulltime employees will perform at least 30% of the Work.

7. The following is a complete list of all subcontractors, if any, that the offeror will use on the Work, if the State selects the offeror to do the Work:

____________________________________________________________________

____________________________________________________________________

____________________________________________________________________

____________________________________________________________________

____________________________________________________________________

____________________________________________________________________
The offeror certifies that it has obtained and submitted a subcontractor letter, as required by Attachment Three, for each subcontractor it plans to use to do the Work.

8. The offeror certifies that any MBE program participants will provide necessary data to ensure program reporting and compliance.

9. If the Offeror qualifies as a Veteran Friendly Business Enterprise as defined by ORC 9.318 and OAC 123:5-1-01 (KK), the certification must also contain the following sentence: Contractor affirms that they are certified as a Veteran Friendly Business Enterprise as defined by Ohio Revised Code 9.318 and Ohio Administrative Code 123:5-1-01 (KK)

Provide the following information for a contact person who has authority to answer questions regarding the offeror’s Proposal:

<table>
<thead>
<tr>
<th>Name:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Title:</td>
</tr>
<tr>
<td>Mailing Address:</td>

OFFEROR MANDATORY REQUIREMENTS

MANDATORY REQUIREMENT #2:

The Offeror must provide a detailed plan which demonstrates that a minimum of 15% of the cost of the work under the resulting contract will be subcontracted through one or more Ohio Certified Minority Business Enterprise (MBE) vendors. The MBE plan shall include, at minimum, the name(s) of the MBE vendor(s), percent of total project cost allocated to each MBE vendor, description of work to be performed by each MBE vendor, and letter(s) of intent signed by each identified MBE vendor, and MBE Certification letters for each MBE vendor. If partnering with more than one MBE vendor, please attach separate forms for each MBE vendor.

<table>
<thead>

<th>Name of Offeror or proposed sub-contractor:</th>
<th>Percentage of the total project cost allocated to this subcontract:</th>
<th>MBE Certification Number:</th>
</tr>
</thead>
</table>

Describe in detail the products or services to be provided by MBE subcontractor.

***Please attach separate letter of intent signed by each MBE subcontractor, to include a brief description of the products or services to be provided and percentage of the total project cost to be allocated to the MBE Subcontractor.

***Please attach a copy of the MBE Certification Letter from the Ohio Department of Administrative Services.
EXECUTIVE ORDER 2011-12K

Governing the Expenditure of Public Funds on Offshore Services
All of the following provisions must be included in all invitations to bid, requests for proposals, state term schedules, multiple award contracts, requests for quotations, informal quotations and statements of work. This information is to be submitted as part of the response to any of the procurement methods listed.

CONTRACTOR/SUBCONTRACTOR AFFIRMATION AND DISCLOSURE:

By the signature affixed to this response, the Bidder/Offeror affirms, understands and will abide by the requirements of Executive Order 2011-12K. If awarded a contract, the Bidder/Offeror becomes the Contractor and affirms that both the Contractor and any of its Subcontractors will perform no services requested under this Contract outside of the United States.

The Bidder/Offeror will provide all the name(s) and location(s) where services under this Contract will be performed in the spaces provided below or by attachment. Failure to provide this information may subject the Bidder/Offeror to sanctions, termination or a damages assessment. If the Bidder/Offeror will not be using Subcontractors, indicate “Not Applicable” in the appropriate spaces.

1. Principal location of business of Contractor:

   (Address) (City, State, Zip)

   Name/Principal location of business of subcontractor(s):

   (Name) (Address, City, State, Zip)

   (Name) (Address, City, State, Zip)

2. Location where services will be performed by Contractor:

   (Address) (City, State, Zip)

   Name/Location where services will be performed by subcontractor(s):

   (Name) (Address, City, State, Zip)

   (Name) (Address, City, State, Zip)
3. Location where state data will be stored, accessed, tested, maintained or backed-up, by Contractor:

   ________________________________  ________________________________
   (Address)                        (Address, City, State, Zip)

Name/Location(s) where state data will be stored, accessed, tested, maintained or backed-up by Sub-contractor(s):

   ________________________________  ________________________________
   (Name)                          (Address, City, State, Zip)

   ________________________________  ________________________________

(Name)  (Address, City, State, Zip) 

Contractor also affirms, understands and agrees that Contractor and its sub-contractors are under a duty to disclose to the State any change or shift in location of Services performed by Contractor or its subcontractors before, during and after execution of any Contract with the State. Contractor agrees it will so notify the State immediately of any such change or shift in location of its Services. The State has the right to immediately terminate the contract, unless a duly signed waiver from the State has been attained by the Contractor to perform the Services outside the United States. 

On behalf of the Contractor, I acknowledge that I am duly authorized to execute this Affirmation and Disclosure form and have read and understand that this form is a part of any Contract that Contractor may enter into with the State and is incorporated therein.

6.9. ATTACHMENT NINE - COST PROPOSAL

Attachment Nine is included as an electronic form in the Opportunity Description on the State Procurement Website for this RFP. The Cost Proposal is to be submitted in Microsoft Excel workbook in native Excel format – not PDF.
6.10. ATTACHMENT TEN - SAMPLE BUSINESS ASSOCIATE AGREEMENT

THIS AGREEMENT is entered into this ____ day of ____________, ____., by and between __________________________________________ (referred to as “Business Associate”) and the State of Ohio, Department of Administrative Services (referred to as “Agency”), for length of underlying agreement.

WHEREAS, Agency will make available and/or transfer to Business Associate confidential, personally identifiable health information in conjunction with the terms and conditions of the underlying agreement, and

WHEREAS, such information may be used or disclosed only in accordance with the privacy regulations [45 CFR §§ 164.502(e); 164.504(e)] and the security regulations [45 CFR §§ 164.308; 164.314] issued pursuant to the Health Insurance Portability and Accountability Act [42 USC §§ 1320d - 1320d-8], relevant amendments effected by the American Recovery and Reinvestment Act of 2009 [Pub. L. 111-5, §§ 13400 et seq.] and the terms of this Agreement, or more stringent provisions of the law of the State of Ohio;

NOW THEREFORE, the parties agree as follows:

1. Definitions.

1.1. **Protected Health Information** ("PHI") means individually identifiable information relating to the past, present or future physical or mental health or condition of an individual, provision of health care to an individual, or the past, present or future payment for health care provided to an individual, as more fully defined in 45 CFR § 160.103, and any amendments thereto, received from or on behalf of the Agency.

1.2. **Unsecured PHI** is PHI that is not rendered unusable, unreadable or indecipherable to unauthorized individuals through the use of a technology or methodology specified by the Secretary of the U.S. Department of Health and Human Services.

1.3. **Business Associate** shall have the meaning given to such term in 45 CFR § 160.103.

1.4. **Individual** means the person who is the subject of the PHI, as defined in 45 CFR § 160.103, and includes the person’s personal representative.

1.5. **Privacy Rule** means the Standards for Privacy of Individually Identifiable Health Information found at 45 CFR Parts 160 and Part 164, Subparts A and E, and any amendments thereto.
2. **Copy of Privacy Practices.** If applicable, Agency shall provide to the Business Associate a copy of the current Notice of Privacy Practices and any relevant information on changes to or agreed upon restrictions relating to legal permissions for the use or disclosure of PHI.

3. **Permitted Use.** The Business Associate agrees that it shall not receive, create, use or disclose PHI except as follows:

   3.1. **Covered Functions.** Except as otherwise limited in this Agreement, Business Associate may use or disclose the PHI on behalf of, or to provide services to, Agency for the purposes necessary to complete the tasks, or provide the services, associated with, and required by the terms of the underlying agreement.

   3.2. **Disclosure Restrictions.** If necessary for the proper management and administration of the Business Associate or to carry out legal responsibilities of the Business Associate. PHI may only be disclosed to another person/entity for such purposes if:

      3.2.1. Disclosure is required by law; or

      3.2.2. Where the Business Associate obtains reasonable assurances from the person to whom disclosure is made that the PHI released will be held confidentially and only may be used or further disclosed as required by law or for the purposes of the disclosure; and person/entity agrees to notify Business Associate of any breaches of confidentiality in a timely fashion and in writing. Documentation needs to follow the same standards and time frames as item 6 below.

   3.3. **Data Aggregation.** To permit the Business Associate to provide data aggregation services relating to the operations of Agency. Aggregation is defined as combining PHI received from multiple Business Associates to produce data analysis that relates to the operation of the respective Covered Entities.

4. **Minimize Use of PHI.** The Business Associate agrees that it will not request, use or release more than the minimum necessary amount of PHI to accomplish the purpose of the use, disclosure or request.

5. **Business Associate Safeguards.** The Associate will use appropriate safeguards to prevent any unauthorized use or disclosure of PHI and shall implement the administrative, physical and technical safeguards that reasonably protect the confidentiality, integrity and availability of the PHI that it creates, receives, maintains or transmits on behalf of the Agency. The Associate will use all appropriate safeguards under 45 CFR 164 Subpart C including those identified as addressable. The Associate will comply with 74 FR 19006 Guidance Specifying the Technologies and Methodologies That Render PHI Unusable, Unreadable, or Indecipherable to Unauthorized Individuals for Purposes of the Breach Notification Requirements under Section 13402 of Title XIII. With regard to electronic PHI not covered by the Guidance published at 74 FR 19006, the Associate will protect electronic PHI at rest and in transit through encryption that complies with State of Ohio IT Standard, ITS-SEC-01 Data Encryption and Cryptography.

6.1. Incident Reporting.

6.1.1. Business Associate shall report to Covered Entity the following:

6.1.1.1. Any use or disclosure of PHI which is not in compliance with the terms of this Agreement or applicable law of which it becomes aware; and

6.1.1.2. Any security incident of which it becomes aware. For purposes of this Agreement, “security incident” means the attempted or successful unauthorized access, use, disclosure, modification, or destruction of information or interference with system operations in an information system.

6.1.2. Within 24 hours of discovery of a suspected reportable incident as described in 6.1.1 above, Business Associate shall notify Covered Entity of the existence and nature of the incident as understood at that time. Business Associate shall immediately investigate the incident and within 72 hours of discovery shall provide Covered Entity, in writing, a report describing the results of Business Associate’s investigation, including:

6.1.2.1. What data elements were involved, the extent of the data involved in the incident, and the identification of affected individuals, if applicable;

6.1.2.2. A description of the unauthorized persons known or reasonably believed to have improperly used or disclosed PHI, or to have been responsible for the incident;

6.1.2.3. A description of where the PHI is believed to have been improperly transmitted, sent, or utilized, if applicable;

6.1.2.4. A description of the probable causes of the incident;

6.1.2.5. A description of the proposed plan for preventing similar future incidents, including ongoing risk remediation plan approval; and

6.1.2.6. Whether the Associate believes any federal or state laws requiring notifications to individuals are triggered.

6.1.3. Reporting and other communications made to the Covered Entity under this section must be made to the agency’s HIPAA privacy officer at:
6.2. **Business Associate Mitigation.** In addition, Business Associate agrees to mitigate, to the extent practicable, any harmful effect that is known to Business Associate of a use or disclosure of PHI by Business Associate in violation of the requirements of this Agreement, and report its mitigation activity back to the agency. Business Associate shall preserve evidence.

6.3. **Coordination.** Business Associate will coordinate with the agency to determine additional, specific actions that will be required of the Business Associate for mitigation of the Breach, which may include notification to the individuals, entities or other authorities. Notifications, if any, will be made at the direction of the agency.

6.4. **Incident costs.** Business Associate shall bear all costs associated with the incident. This may include, but not be limited to, costs associated with notifying affected individuals. It also may include the cost of investigation, remediation, and assistance to individuals including services such as a standard level of identity-theft protection service that includes credit-monitoring such as AllClear ID’s standard service with credit monitoring or other comparable service available to Ohio agencies under state term schedules.

7. **Agency Indemnification.** Business Associate hereby indemnifies Agency and agrees to hold Agency harmless from and against any and all losses, expense, damage or injury that Agency may sustain as a result of, or arising out of, Business Associate, or its agent's or subcontractor's, unauthorized use or disclosure of PHI.

8. **Subcontractor Obligations.** Business Associate shall ensure that all of its subcontractors and agents are bound, in writing, by the same restrictions and obligations contained herein, including but not limited to the obligation to implement reasonable and appropriate safeguards to protect the information, the subcontractor creates, receives, maintains, or transmits PHI on behalf of the Business Associate. The Business Associate obtain Agency approval prior to entering into such agreements.

9. **Access to PHI.** Business Associate shall make all PHI and related information maintained by Business Associate or its agents or subcontractors available as soon as practicable following a request for PHI, but within fifteen (15) days, to the extent necessary to fulfill the following obligations:

9.1. **Inspection and Copying.** Make the PHI maintained by Associate or its agents or subcontractors in Designated Record Sets available to Agency for inspection and
copying to enable Agency to fulfill its obligations under the Privacy Rule, including, but not limited to, 45 CFR § 164.524 and consistent with Section 13405 of the HITECH Act.

9.2. Accounting. To account for disclosures of PHI in accordance with the provisions of the Privacy Rule, including, but not limited to 45 CFR § 164.528 and the HITECH Act; and shall make all PHI in its possession available to Agency as soon as practicable following a request for PHI, but within fifteen (15) days, to fulfill Agency's obligation to amend PHI and related information in accordance with 45 CFR § 164.526, and shall, as directed by Agency, incorporate any amendments or related statements into the information held by the Business Associate and any subcontractors or agents.

10. Compliance and HHS Access. The Business Associate shall make available to the agency and to the Secretary of the U.S. Department of Health and Human Services any and all internal practices, documentation, books, and records related to the use and disclosure of PHI received from the agency, or created or received by the Business Associate on behalf of the agency. Such access is for the purpose of determining the agency's compliance with HIPAA, regulations promulgated by the United States Department of Health and Human Services, and any amendment thereto. Any non-compliance by the Business Associate with the terms of this Agreement or the privacy and security regulations shall be a breach of this Agreement if the Business Associate knew of the breach and failed to take immediate and reasonable steps to cure the non-compliance. The Business Associate agrees that Agency has the right to immediately terminate this Agreement and seek relief, if Agency determines that the Business Associate has violated a material term of the Agreement.

11. Ownership and Destruction of Information. The PHI and any related information created or received from or on behalf of Agency is and shall remain the property of the Agency. The Business Associate agrees that it acquires no title in or rights to the information, including any de-identified information. Upon termination of this Agreement, Business Associate agrees, at the option of Agency, to return or securely destroy all PHI created or received from or on behalf of Agency following 74 FR 19006 Guidance Specifying the Technologies and Methodologies That Render PHI Unusable, Unreadable, or Indecipherable to Unauthorized Individuals for Purposes of the Breach Notification Requirements under Section 13402 of Title XIII. The Business Associate agrees that it will not retain any copies of PHI except as required by law. If PHI is destroyed, the Business Associate agrees to provide Agency with appropriate documentation or certification evidencing such destruction. If return or destruction of all PHI and all copies of PHI is not feasible, the Business Associate agrees to extend the protections of this Agreement to such information for as long as it is maintained and to limit further uses and disclosures to those which make return or destruction infeasible. Termination of this Agreement shall not affect any of its provisions that, by wording or nature, are intended to remain effective and to continue in operation.

12. Termination. Notwithstanding any term or condition in the underlying agreement, the State may terminate the underlying agreement if at any time it determines that the Associate has violated a material term of this Business Associate Agreement. In the alternative, the State may, at its sole discretion, take any action provided in the underlying agreement, may suspend the Agreement, or may allow Associate a reasonable period of time to cure before termination, when such action is determined to be in the State's best interest. Upon suspension of the agreement, the State may, at its sole discretion, require the Associate to comply with the requirements of Paragraph 11, Ownership and Destruction of Information, in
the same manner as though the agreement had been terminated. This paragraph shall in no way alter, amend, limit or change the terms and conditions in the underlying agreement as they relate to performance of the underlying agreement, and shall solely relate to violation of the terms of the Business Associate Agreement.

13. **Survivorship.** The obligations to safeguard the confidentiality, privacy and security of PHI imposed herein shall survive the termination of this Agreement.

14. **Injunctive Relief.** Notwithstanding any rights or remedies under this Agreement or provided by law, Agency retains all rights to seek injunctive relief to prevent or stop the unauthorized use or disclosure of PHI by the Business Associate, any of its subcontractors or agents, or any third party who has received PHI from the Business Associate.

15. **Binding Effect.** Subject to the limitations on assignment provided elsewhere in this Agreement, the Agreement shall be binding on the parties and their successors, but neither party may assign the Agreement without the prior written consent of the other, which consent shall not be unreasonably withheld. This Agreement will be binding upon and inure to the benefit of the respective successors and assigns of the State and the Associate.

16. **Ambiguities, Strict Performance and Priorities.** Any ambiguities in this Agreement shall be resolved in favor of an interpretation that promotes compliance with HIPAA, regulations promulgated thereunder and HITECH. Any conflicts in the security and privacy terms and conditions of this agreement with those in the underlying agreement shall be interpreted to favor of the terms and conditions that promote greater degree of security and privacy. The parties agree that any modifications to those laws shall modify the obligations of the parties hereunder without the need for formal amendment of the Agreement. Any other amendments to this Agreement shall not be effective without the written agreement of both parties. This Agreement will be construed in accordance with the plain meaning of its language and neither for nor against the drafting party. The headings in this Agreement are for convenience only and will not affect the interpretation of any of the Agreement terms and conditions. If at any time either party fails to demand strict performance by the other party of any of the terms of this Agreement, such failure will not be construed as a waiver of any such term, and either party may at any time demand strict and complete performance by the other party.

17. **Notice.** For any notice under this Agreement to be effective the notice must be made in writing and sent to the address of the appropriate contact provided in the Agreement.
18. Notwithstanding section 6 of this Agreement, any notice to the other party pursuant to this Agreement shall be deemed provided if sent by first class United States mail, postage prepaid, as follows:

To Agency:

To Business Associate:

IN WITNESS WHEREOF, the parties hereto agree to the foregoing,

[Business Associate Name Here]  Ohio Department of Administrative Services

Representative  Representative

Title  Title

Date:  Date:
6.11. ATTACHMENT ELEVEN - MASTER CONTRACT FOR SOFTWARE LICENSING (MLA NUMBER [0000000])

THIS CONTRACT (the “Contract”) is between the State of Ohio (the “State”), through the Department of Administrative Services with offices at 30 East Broad Street, Columbus, Ohio 43215, and [Company name of the Contractor] (the "Contractor"), with offices at [street address, city, state and zip code for the Contractor], and whose Federal Tax ID Number is [the Contractor’s TIN] and D-U-N-S Number is [the Contractor’s D-U-N-S].

BACKGROUND

The State and the Contractor have entered into this Contract to provide the terms and conditions under which the Contractor will grant one or more perpetual, nonexclusive licenses to the State to use certain software that the Contractor publishes or markets (the "Software"). Any such licenses will be described in one or more schedules to this Contract (“Schedules”) and will include a license to use the Software’s user and technical documentation (the “Documentation”). It also may include a license to use the Software’s source code and related material (“Source Code”), if it is so indicated elsewhere in this Contract or on the applicable Schedule. Additionally, this Contract governs the Contractor’s obligation to provide the State with assistance troubleshooting the Software and with updates, correction, enhancements, and new releases of the Software (“Support”).

PART I: LICENSE AND USE

1. **Grant of License.** The Contractor grants to the State a nonexclusive, nontransferable, and perpetual license to use the executable code version of the Software identified in each Schedule under this Contract, along with the related Documentation, and if indicated in an applicable Schedule, the Source Code for the Software. The license begins on the date identified in the applicable Schedule as the start date for the license (the “Start Date”). Unless indicated otherwise in this Contract, such use will be limited to use solely for the exercise of any function of State government by any State agency or political subdivision of the State (“Affiliated Entities”). The applicable Schedule governing the license will describe the scope of each license granted to the State in further detail, and the State agrees to limit its use of the Software as described in the applicable Schedule. The State may not republish the Software or the Documentation or distribute it to any third party, unless and only to the extent that this Contract or the scope of license in the applicable Schedule expressly so permits. The State will have a right to use the Software at any of its locations worldwide, subject only to applicable restrictions on export of technology from the US, the scope of license in the applicable Schedule, and the restrictions in this Contract on using the Software in hazardous environments.

2. **Generated Files.** “Generated Files” are files that the State creates using the Software and in which the State’s data or results from the State’s instructions are stored. Examples
of such files could include, among others, text files generated with a word processor, data tables created with a database engine, and image files created with a graphics application. Applications consisting of instruction sets created with a programming language that the Contractor licensed to the State also would be considered Generated Files. As between the State and the Contractor, the State will own all Generated Files that the State prepares by using the Software, excluding such portions of the Generated Files that consist of embedded portions of the Software. The Contractor or its licensors will retain ownership of any portions of the Software embedded into Generated Files. But the Contractor grants to the State a nonexclusive, royalty-free right to reproduce and distribute to third parties any portions of the Software embedded in any Generated Files that the State creates while using the Software in the manner in which the Software is designed to be used. In the State’s distribution of the Generated Files, the State may not use the Contractor’s name, logo, or trademarks, except to the extent that such are incorporated in such Generated Files by the design of the Software when used as intended.

3. License Restrictions. The State may not reverse engineer, de-compile, or disassemble any Software for which it is not licensed to use the Software’s Source Code. Additionally, the State may not assign, transfer, or redistribute the Software to any party in whole or in part, except as expressly provided by this Contract or the applicable Schedule. It also may not rent, time share, or operate a service bureau with respect to the Software. And the State may not charge a fee to any third party for access to or use of the Software, unless this Contract or the applicable Schedule permits such. (One Affiliated Entity using the Software on behalf of another Affiliated Entity is not the operation of a service bureau for purposes of this Contract, even if the Affiliated Entity charges the other Affiliated Entity for the costs of the service.) Additionally, except as authorized in this Contract or the applicable Schedule, the State may not grant any sublicense to access or use the Software. Notwithstanding the foregoing, and provided they have agreed in writing to honor the terms of this Contract, the State’s Affiliated Entities may use the Software in the same manner as the State, subject to the applicable limits on the license and the obligations contained in this Contract. Further, for any Software designed for communications, such as e-commerce applications, or for Web presentations, the State may communicate with third parties using the Software and use the Software for presentations to third parties via the Internet. Additionally, the State engages various contractors to do work for it, and the State may provide such contractors with access to and use of the Software solely for use on behalf of the State, including in a facilities management, hosting, disaster recovery, or outsourcing arrangement. But the State may not provide access to the Software to any such contractors except for use solely on behalf of the State.

4. Locking Devices. Some Software may require the use of a key to prevent unauthorized installation and use of the Software, but the Software may not include expiration codes, “time bombs”, or similar devices that can disable the software once a proper key is provided. Further, the software may not contain any routines, functions, or devices that can or are designed to transmit or transfer any data surreptitiously to the Contractor or any other party. Nor may the software contain any routines, functions, or similar devices designed to permit the Contractor or a third party to surreptitiously access data on the State’s network or on any of the State’s computers. Should the State need assistance with a key or similar device to use the Software within the State’s scope of license, the
Contractor will assist the State at any time and without charge or fee, regardless of whether such Software is then under Support.

5. **Copies.** In addition to the copies of the Software authorized by the license in the applicable Schedule, the State may make a reasonable number of copies of the Software for backup, archival, disaster recovery, testing, development, and image management purposes. And the State may use these copies for such purposes without paying any additional fee or charge, so long as any such additional copies are not used in a production environment while the production copy or copies of the Software are used for production. No other copies of the Software may be made by or for the State. With respect to the Documentation for any Software, the State may make as many copies of it in either paper-based or electronic form as the State may reasonably require for its own internal purposes. Additionally, the State may incorporate portions of the Documentation in other materials, such as training and reference manuals, provided that such materials are used solely for the internal purposes of the State and the use bears a reasonable nexus to the State’s use of the Software. Each copy of the Software or Documentation that the State makes must bear the same copyright and other proprietary notices that appear on the original copy provided to the State. If the Contractor has granted the State a license to use the Source Code for the Software, the State may make a reasonable number of copies of the Source Code, modify it, compile it, and otherwise use it as reasonably necessary to support its licensed use of the Software.

6. **Hazardous Environments.** The State recognizes that some Software may not be designed or intended for use as or with online control equipment or systems in hazardous environments requiring fail-safe performance. This includes equipment or systems such as those used in the operation of nuclear facilities, aircraft navigation, air traffic control, direct life support machines, and munitions. It also includes any other equipment or systems in which the State reasonably can foresee that failure of the Software could lead to death, personal injury, or severe physical or environmental damage. For any Software designated as not intended for hazardous environments in the applicable Schedule, the State may not use or permit the use of the Software in conjunction with any such equipment or systems.

7. **Object Reassignment.** Any Software licensed by the number of items that it may be used on, by, or in conjunction with, such as nodes, computers, users, or sites (“Objects”), may be reassigned to other, similar Objects within the State at any time and without any additional fee or charge. For example, a computer-specific license may be transferred to another computer, a site license may be transferred to another site, and a named user license may be assigned to another user. But any such reassignment must be in conjunction with termination of use by or with the previous Object, if such termination is required to keep the total number of licensed Objects within the scope of the applicable license. Should the State require a special code, a unique key, or similar device to reassign the Software as contemplated by this section, the Contractor will provide such a code, key, or similar device to the State at any time and without a fee or charge, regardless of whether such Software is then under Support. A later section in this Contract governs assignment of the State’s license in any Software to a successor in interest.
8. **Upgrades, Updates, and Corrections.** All portions of the Software, including any corrections, patches, service packs, updates, upgrades, and new versions and releases are the property of Contractor, are part of the Software, and are governed by the State's license in the Software. In no event will the Software or any modification of it be deemed a work made for hire, even if the Contractor has made the modification expressly for the State, unless the parties agree otherwise in writing.

**PART II: FEES AND PAYMENT**

1. **Fees.** The State will pay to the Contractor the fees for licensing the Software identified in each Schedule under this Contract ("License Fees"), as well as all applicable fees for Support of the Software ("Support Fees") that are identified in any Schedule under this Contract. The License Fee for each license is due and payable on the 30th day after the later of the date on which the applicable license starts (the "Start Date") or the date the State receives a proper invoice for the License Fee at the office designated in the applicable purchase order. A Support Fee will be due payable on the 30th day after the later of the date on which the applicable period of Support (the "Support Period") begins or the date the State receives a proper invoice for the Support Fee at the office designated in the applicable purchase order. The State will not be obligated to acquire or renew Support for any Software unless it issues a purchase order for such.

2. **Taxes.** The State is exempt from all sales, use, excise, property, and similar taxes ("Taxes"). To the extent any Taxes are imposed on the Contractor in connection with this Contract or the Software, the Contractor must pay such Taxes, together with any interest and penalties not properly disputed with the appropriate taxing authority.

3. **Invoices.** The Contractor must submit an original invoice with three copies to the office designated in the purchase order as the "bill to" address. To be a proper invoice, the invoice must include the following information:

   (1) Name and address of the Contractor, as designated in this Contract.
   (2) The Contractor's federal tax identification number, as designated in this Contract. (3) The Contractor's invoice remittance address, as designated in this Contract.
   (4) The purchase order number authorizing the delivery of the Software or Support.
   (5) A description of what the Contractor delivered, including, as applicable, the time period, serial number, unit price, quantity, and total price of the Software and Support. If the invoice is for Software with multiple installments of the License Fee, the Contractor also must include the payment number (e.g., 11 of 36).

If an invoice does not meet this section's requirements, or if the Contractor fails to give proper notice of a price increase (see the Pricing section below), the State will send the Contractor written notice. The State will send the notice, along with the improper invoice, to the Contractor's address designated for receipt of purchase orders within 15 days. The notice will contain a description of the defect or impropriety and any additional information the Contractor needs to correct the invoice. If such notification has been sent, the payment due date will be 30 days after the State receives a
corrected and proper invoice or the applicable Start Date in the Schedule, whichever is later.

The date the State issues a warrant (the State's equivalent to a check) in payment of an invoice will be considered the date payment is made. Without diminishing the Contractor's right to timely payment, the payment will be overdue only if it is not received by the 30th day after the payment's due date. If the State has not issued payment by then, interest will begin to accrue under Ohio Revised Code ("Code") Section 126.30.

4. Non-Appropriation of Funds. The State's funds are contingent on the availability of lawful appropriations by the Ohio General Assembly. If the Ohio General Assembly fails to continue funding for the Fees due hereunder, as determined by the Director of the Department of Administrative Services, this Contract will terminate with respect to the Software or Support affected by the non-appropriation as of the date that the funding expires, and the State will have no further obligation to make any payments. This provision will not alter the rights of the State in any Software or to any Support for which the State already has made payment at the time of the non-appropriation.

5. OBM Certification. This Contract is subject to Code Section 126.07. All orders and Schedules under this Contract are void until the Director of the Office of Budget and Management for the State certifies that there is a balance in the appropriation available to pay for the order.

6. Currency. The State will make all payments under this Contract by warrant (the State’s equivalent to a check) in US Dollars, regardless of the location where the Support is provided or the Software is located.

7. Disputed Amounts. The parties will resolve any amounts disputed under this Contract expeditiously and in good faith by having the representatives of the parties who signed this Contract enter into informal discussions. Once resolved through the dispute resolution process, the amount must be paid within 30 days of the resolution. If the State disputes any amount under this Contract in good faith, the State may withhold its payment pending resolution notwithstanding anything to the contrary elsewhere in this Contract.

8. Pricing. Subject to the limitations in this section, the Contractor may modify its pricing for Software or Support at any time and without notice to the State. But no such change will apply to any Software or Support that the State orders or for which it receives an invoice before the effective date of the change. Nor will any price increase apply to any Software for which the State and the Contractor have entered in to a Price-hold Addendum; the pricing for such Software will be fixed for the term of the price-hold. Additionally, for five years from the date of the State's first license of any Software, the State will be entitled to acquire additional licenses for the same Software at a discount that is equal to the discount extended to the State for the initial license of the Software, even though the list price for the Software may have increased. Such licenses will be granted under the terms contained in this Contract via the execution of a Schedule hereto. Thereafter, the State
will not be obligated to pay more than the Contractor’s then current, published License Fee for any such Software, less the discount described in the following sentence. For all additional licenses acquired more than five years after the initial license in the same Software, the State still will be entitled to a discount of a percentage identified by the contractor, from the then current list price for the license. Support Fees under this Contract may not increase from one Support Period to the next by more than a percentage identified by the contractor, for any license in the Software. Further, in no event will the Support Fee the State pays be greater than the fee paid by any other customer of the Contractor for the same type license.
PART III: CONTRACT ADMINISTRATION

1. **Term.** Once entered into, the term of this Contract will be from the date the duly authorized representative of the State signed it through June 30, 201[ ]. Expiration of this Contract without renewal will not affect any licenses granted to the State before the expiration. It also will not affect the rights and the responsibilities of the parties with respect to such licenses.

2. **Renewal.** The State may renew this Contract for additional two-year terms, subject to and contingent on the discretionary decision of the Ohio General Assembly to appropriate funds for this Contract in each new biennium. Any such renewal of this Contract also is subject to the satisfactory performance of the Contractor and the needs of the State. The State’s failure to renew this Contract will not affect any licenses granted to the State before the expiration. It also will not affect the rights and the responsibilities of the parties with respect to such licenses.

3. **Delivery.** The Contractor must deliver all Software licensed under this Contract to the State F.O.B. at the State’s site specified in the applicable Schedule. If the Contractor and the State agree so in writing, the Contractor may deliver any Software licensed under this Contract via electronic transmission over the Internet, provided the Contractor maintains sufficient bandwidth to accommodate delivery in this fashion. Upon physical delivery or successful completion of an electronic transmission, title to any media on which the Software and Documentation are contained and risk of loss of the Software and Documentation will pass to the State.

4. **Schedules.** For all Software that the State licenses, the Contractor and the State will enter into a written Schedule to this Contract, signed by duly authorized representatives of both parties. The Schedule will describe the Software, the license granted in the Software, and the date the license starts (“Start Date”). It also will identify the License Fee for the license granted, the number of physical copies of the media on which the Software is shipped, and the operating system or systems for which the Software is designed. In addition, the Schedule will identify the Support Fee or the percentage of the License Fee used to calculate the Support Fee. All additional Software that the State seeks to license from the Contractor under this Contract, as well as all additional licenses that the State wishes to acquire in Software already licensed under this Contract, will be subject to the Contractor’s prior, written approval in each such case. But the Contractor will consent for any Software that is covered by a Price-hold Addendum. The Contractor also must consent for any Software that is or designed to operate in conjunction with Software already acquired by the State under this Contract, if the Software at issue is generally available to other customers and the State is not in material breach of this Contract.

5. **Confidentiality.** Each party may disclose to the other written material or oral or other forms of information that it treats as confidential (“Confidential Information”). Title to any Confidential Information one party delivers to the other will remain with the disclosing party or its licensors. Each party agrees to treat any Confidential Information it receives from the other party as secret, if it is so marked, otherwise identified as such, or when, by
its very nature, it deals with matters that, if generally known, would be damaging to the best interest of the other party or its licensors.

The Contractor’s Confidential Information may include the Software and Documentation, if the Software and Documentation are the trade secrets of Contractor and marked as such in a reasonable manner. Information of the State that the Contractor must presume to be Confidential Information, regardless of whether it is marked as such, includes any proprietary documentation, materials, flow charts, codes, software, computer instructions, techniques, models, information, diagrams, know-how, data, business records, and business plans. Such also includes files containing personal information about other contractors or employees of the State, such as personnel records, and any material to which an attorney-client, physician-patient, or similar privilege may apply. It also includes any State records that Ohio law excludes from public records disclosure requirements.

Each party agrees not to disclose any Confidential Information of the other to any third parties and to use it solely to meet its obligations under this Contract or as otherwise contemplated under this Contract. Additionally, each party will restrict circulation of Confidential Information within its organization and permit access to it only by people who have a need to know the Confidential Information for the purposes contemplated by this Contract. The receiving party will be liable to the disclosing party for any damages that result from its improper or unauthorized disclosure of any Confidential Information.

Except for Software, Source Code, or Documentation that represents Confidential Information, neither party may incorporate any portion of the other party’s Confidential Information into any work or product. With respect to Software, Source Code, or Documentation that is Confidential Information, the foregoing will not apply to any portion of the Software incorporated into Generated Files by the design of the Software when used as intended. Nor will the foregoing apply to portions of the Documentation that the State incorporates into material such as training and reference manuals in accordance with this Contract’s applicable provisions. And the foregoing will not apply to any Source Code properly licensed to the State that the State modifies for use within the scope if its license in the applicable Software. Furthermore, the receiving party must cause all of its personnel who have access to any Confidential Information of the other party to execute a confidentiality agreement incorporating the obligations of this section. Additionally, for any director, officer, employee, partner, agent, or subcontractor of the Contractor (“Contractor Personnel”) that require access to the State’s premises, the State may require an individual non-disclosure agreement incorporating the terms of this section to reinforce the importance of such obligations. The State may bar any Contractor Personnel who refuse to execute such a non-disclosure agreement from entering the State’s facilities.

The receiving party’s obligation to maintain the secrecy of the Confidential Information will not apply where it:
(a) Was already in the receiving party's possession before disclosure by the other party, and the receiving party obtained it without an obligation of confidence;
(b) Is independently developed by the receiving party;
(c) Except as provided in the next paragraph, is or becomes publicly available without breach of this Contract;
(d) Is rightfully obtained by the receiving party from a third party without an obligation of confidence;
(e) Is disclosed by the receiving party with the written consent of the other party; or
(f) Is released in accordance with a valid order of a court or governmental agency, provided that the receiving party:

(1) Notifies the other party of such order immediately upon receipt of the order; and
(2) Makes a reasonable effort to obtain a protective order from the issuing court or agency limiting disclosure and use of the Confidential Information solely for the purposes intended to be served by the original order of production.

Information that may be available publicly through other sources about people that is personal in nature, such as medical records, addresses, phone numbers, social security numbers, and similar things are nevertheless sensitive in nature and may not be disclosed or used in any manner except as expressly authorized in this Contract. Therefore, item (3) in the preceding paragraph does not apply, and the Contractor must treat such information as Confidential Information whether it is available elsewhere or not.

Except for properly licensed Software, Source Code, or Documentation that contains Confidential Information, the receiving party must return or destroy all copies of any Confidential Information when it is no longer needed for the receiving party to perform under this Contract, but in any case, no later than on termination of this Contract. For properly licensed Software, Source Code, and Documentation that represents Confidential Information, the State may retain it for so long as the State has a valid license in it.

The receiving party may disclose Confidential Information to its contractors on a need-to-know basis, but only after they have agreed in writing to be obligated to the requirements of this section.

6. Escrow. Except for Software that the Contractor delivers to the State with its Source Code, the Contractor must escrow the Source Code for all Software with Escrow Associates, LLC (the “Agent”) under an existing escrow agreement between the State and the Agent. The Agent may release the Source Code to the State on the occurrence of any of the following:

(a) The Contractor ceases business without a successor in interest that assumes all the Contractor’s obligations under this Contract;
(b) The Contractor files or has filed against it a petition in bankruptcy or similar proceeding that is not dismissed within 60 days;
(c) The Contractor stops supporting any Licensed Software;
(d) The State terminates this Contract for cause; or
(e) The Contractor materially or consistently fails to perform its Support obligations in a timely and professional manner.

The release will apply only to the Source Code for Software affected by the triggering event. The Source Code for the Software will be in the form customarily used by programmers to read and modify such Source Code. It also will include all supporting documentation and annotations reasonably required for productive use of the Source Code by a competent programmer skilled in the programming language in which the Source Code is written. The Contractor will deliver to the Agent the Source Code for each version or release of the Software that the State acquires. The State will be solely responsible for paying all escrow fees associated with the escrow agreement, and upon any release of Source Code from escrow, the State will treat the material as Confidential Information and use it solely to maintain the Software for its own internal purposes.

The escrow agreement with the Agent is a supplementary agreement to this Contract, within the meaning of Title 11, Section 365(n), of the United States Code, and neither the Contractor nor its trustee in bankruptcy may interfere with the State’s license in the Software or right to access any Source Code by virtue of any bankruptcy proceedings.

From time to time, the State may change the company it uses as the Agent. The State will do so only on written notice to the Contractor and will use only a US-based, well-recognized escrow company.

7. **Insurance.** During any Support Period for which the State has paid the applicable Support Fee, the Contractor must purchase and maintain the following minimum insurance coverages at its sole expense:

   (A) Worker’s compensation insurance covering all employees to comply with the laws of the state or states where operations are conducted and employer’s liability insurance with a limit of not less than $1,000,000. If operations are conducted in a monopolistic state, the employer’s liability insurance must be provided through a stop gap endorsement.

   (B) General liability insurance covering all operations under this Contract, with a combined single limit of not less than $1,000,000 each occurrence. The policy must include with its other coverages products and completed operations, broad form property damage, blanket contractual liability coverage, independent contractors (work sublet) and cross liability.

   (C) Automobile liability insurance covering all automotive equipment used in performing under this Contract (whether owned, non-owned, or hired) with a combined single limit of not less than $1,000,000 each accident.
The policies specified in (A) above must be with companies acceptable to the State and endorsed to waive rights of subrogation against the State. The policies specified in (B) and (C) above must be endorsed to include the State as an additional insured with respect to operations performed under this Contract. All the above policies must be primary to any policies the State purchases or maintains.

The Contractor must furnish the State with an insurance certificate as evidence of the above coverages and requirements. The certificate also must contain the following statement:

“Thirty days’ prior written notice will be given to the State of Ohio in the event of cancellation or material change in coverage.”

The coverages required represent the State’s minimum requirements, and they may not be construed to void or limit the Contractor’s indemnity obligations under this Contract.

8. **Excusable Delay.** Neither party will be liable for any delay in its performance under this Contract that arises from causes beyond its control and without its negligence or fault. The delayed party must notify the other promptly of any material delay in performance and must specify in writing the proposed revised performance date as soon as practicable after notice of delay. For any such excusable delay, the date of performance or delivery will be extended for a period equal to the time lost by reason of the excusable delay. The delayed party must also describe the cause of the delay and what steps it is taking or will take to remove the cause. The delayed party may not rely on a claim of excusable delay to avoid liability for a delay if the party has not taken commercially reasonable steps to mitigate or avoid the delay.

9. **Network Security.** The Contractor may not connect to the State’s internal computer network without the prior, written consent of the State, which the State will reasonably provide if necessary or appropriate for the Contractor to provide Support. But as a condition of connecting to the State’s computer network, the Contractor must secure its own connected systems in a manner consistent with the State’s then-current security policies, which the State will provide to the Contractor on request. The State may audit the Contractor’s security measures in effect on any such connected systems without notice. The State also may terminate the Contractor’s network connections immediately should the State determine that the Contractor’s security measures are not consistent with the State’s policies or are otherwise inadequate given the nature of the connection or the data or systems to which the Contractor may have access.

10. **Termination.** This Contract will continue in full force and effect unless terminated according to the terms of this Contract. The State may terminate this Contract at any time on 30 days prior written notice to the other party or in the event of any default by the Contractor, which the Contractor fails to cure within 30 days after written notice. The State also may terminate this Contract upon any sale of a majority interest in the Contractor to a third party or if a receiver, liquidator, trustee, or like official is appointed for the Contractor or any substantial portion of its property.
Additionally, the State may terminate this Contract if the Contractor files or consents to any petition in bankruptcy or other insolvency proceedings or makes any assignment for the benefit of its creditors. Termination of this Contract will not extinguish any of the rights and obligations of a party under this Contract that, by the terms of that right or obligation, continue after the date of termination. And no termination will extinguish any of the rights or obligations that, by their very nature, must continue after termination to give full effect to the purpose of those rights and obligations. Termination of this Contract will not entitle the State to any refund of any License or Support Fee, nor will it extinguish any license or price-hold the State has acquired in any Software before the date of termination, except as provided in the next paragraph.

With or without terminating this Contract in accordance with the paragraph above, on 30 days prior written notice to the State, the Contractor may terminate any license in any Software granted to the State under this Contract. But the Contractor may do so only if the State materially breaches any terms of this Contract with respect to the license or licenses the Contractor seeks to terminate. Such termination notice will be effective 30 days after the State receives it, provided that the State does not cure its breach of this Contract within those 30 days. All Software licenses not affected by the State’s breach will remain in place and unaffected by the termination. Any such termination will be in addition to any other remedies the Contractor may have under this Contract for the State’s breach.
PART IV: WARRANTIES, LIABILITIES, AND REMEDIES

1. **Warranties.** The Contractor warrants for one year from the Start Date that the Software will be free of material defects and will function in substantial conformance to its Documentation when used in the operating environment for which it is intended and in accordance with its Documentation. The Contractor also warrants that the Software will be merchantable and fit for the particular purpose for which the State acquired it. Moreover, the Contractor warrants that the Software will be free of viruses at the time of its delivery under this Contract. Additionally, the Contractor warrants that all media on which the Software is delivered to the State will be free from defects for one year after delivery to the State.

2. **Warranty Exclusions.** The Contractor's warranties with respect to the Software's performance in accordance with its Documentation, its fitness, and its merchantability do not cover any error caused by any change to the Software made by any party other than the Contractor and not at the Contractor's request or otherwise in accordance with this Contract or the Software's Documentation. It also does not cover damage to the Software caused by accident, neglect, or misuse of the Software by any party other than the Contractor or anyone else acting on the Contractor's behalf. Further, the State's use of the Software in an operating environment or in conjunction with a hardware platform that does not meet the Contractor's minimum specifications, as set out in the applicable Schedule or Documentation, may result in errors or failures that are outside the scope of the Contractor's warranty. Additionally, use of the Software in combination with other software, hardware, firmware, data, or technology not licensed or approved by the Contractor in writing may cause failures that also are outside the scope of the Contractor's warranty, provided that the Software is not designed or intended for use with such items.

THE EXPRESS WARRANTIES IN THIS CONTRACT ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED.

3. **Remedies.** The Contractor's entire liability and the State's sole remedy for any breach of the above media warranty is limited to requiring the Contractor to replace the defective media expeditiously and without charge to the State. Furthermore, the Contractor's entire liability and the State's sole remedy for any breach of the above warranties of fitness, merchantability, and against defects in the Software will be limited to the Contractor expeditiously correcting the defect or issue and providing the State with a patch containing the correction. If within the times given below, the Contractor does not provide a replacement copy for defective media or Software containing a virus or fails to deliver a fix for a defect in the Software or a correction solving a fitness or merchantability issue, the Contractor must refund all License Fees paid by the State for the affected the Software. In the case of defective media or Software containing a virus, the Contractor will have 15 days after written notice to provide a replacement. In the case of other defects, merchantability issues, or fitness issues, the Contractor will have 30 days after written notice to deliver a correction that resolves the problem. Upon the Contractor's issuance of a refund, the State will return or destroy all copies of the Software and, upon the Contractor's request, certify in writing that it has done so.
4. **Indemnity.** The Contractor will indemnify the State for all direct damages to the State caused by the negligence or willful misconduct of the Contractor. The Contractor also agrees to indemnify, defend, and hold the State harmless from and against all claims, liabilities, demands, losses, expenses (including by way of example only, court costs and experts’ and attorneys’ fees), and causes of action of every kind and character in favor of any third party caused or arising out the activities or performance of the Contractor or the Contractor’s Personnel. The foregoing obligations do not apply to the extent caused by the State’s actual negligence or willful misconduct. Any defense of the State requires and is subject to the approval and consent of the Ohio Attorney General.

5. **Infringement.** The Contractor will release, protect, indemnify, defend, and hold the State harmless from and against any claims of infringement by any third parties based on the Software, Source Code, or Documentation licensed under this Contract. Any defense of the State requires and is subject to the approval and consent of the Ohio Attorney General and will be at the Contractor’s sole cost and expense. Further, the Contractor will indemnify the State for any liability resulting from any such claims, demands, or suits, as well as hold the State harmless for the Contractor’s liability, losses, and damages resulting from such. This obligation of defense and indemnification will not apply where the State has modified or misused the Software, Source Code, or Documentation, and the claim or the suit is based on the modification or misuse. The Contractor’s obligation to hold the State harmless also will not apply if the claim, suit, liability, or damage arises out of the State’s misuse of the Software, Source Code, or Documentation. The State agrees to give the Contractor notice of any such claim as soon as reasonably practicable and to allow the Contractor to control the defense of the any such claim, upon consultation with and the approval of the Office of the State’s Attorney General.

If a successful claim of infringement is made, or if the Contractor reasonably believes that an infringement or similar claim that is pending actually may succeed, the Contractor will do one of the following four things as soon as reasonably possible to avoid or minimize any interruption of the State’s business:

(a) Modify the offending Software, Source Code, or Documentation so that it is no longer infringing;
(b) Replace the offending Software, Source Code, or Documentation with an equivalent or better item;
(c) Acquire the right for the State to use the infringing Software, Source Code, or Documentation as it was intended for the State to use under this Contract; or
(d) Remove the infringing Software, Source Code, or Documentation and refund the amount the State paid for the Software and the amount of any other Software or item that requires the availability of the infringing Software, Source Code, or Documentation for it to be useful to the State.
6. **Limitation of Liability.** CONTRACTOR agrees to defend, indemnify and hold the State and ODM, its officials, employees and agents harmless from and against any and all liability, loss and expense (including reasonable attorneys’ fees) or claims for personal injury, property damage, patent and copyright infringement, or for any liability or claims under the Business Associate Requirements Under HIPAA, and/or any other type of claim that arises from the performance of the Deliverables under this contract. CONTRACTOR’s sole and exclusive remedy for any ODM failure to perform under this Contract will be an action in the Ohio Court of Claims pursuant to ORC Chapter 2743 that will be subject to the limitations set forth in this Article. In no event will ODM be liable for any indirect or consequential damages, including loss of profits, even if ODM knew or should have known of the possibility of such damages. To the extent that ODM is a party to any litigation arising out of or relating in any way to this Contract or the performance thereunder, such an action shall be brought only in a court of competent jurisdiction in Franklin County, Ohio. Subject to ORC 109.02, CONTRACTOR agrees to defend ODM against any such claims or legal actions if called upon by ODM to do so.
PART V: SOFTWARE SUPPORT

1. **Support.** Each Support Period will run for each two year renewal period except for the first year which will run from the purchase to June 30, 2019. Subsequent Support Periods will begin on July 1\textsuperscript{st} of each biennial period. During each Support Period for which the State has paid the applicable Support Fee, the Contractor will provide the State with telephonic assistance and advice for using the Software. The Contractor also will provide remote troubleshooting and problem resolution by developing and providing fixes or patches for errors in the Software. As part of the biennial Support that the Contractor provides in exchange for the applicable Support Fee, the Contractor also will deliver to the State all service packs for the Software, as well as all updates and new releases and versions of the Software. The biennial Support Fee will be calculated as a percentage of the then current License Fee for the applicable Software license. The percentage used to calculate the Support Fee will be provided in the applicable Schedule governing the Software license. The manner in which the Contractor provides Support will be governed by the Contractor’s policies and programs described in the applicable Software Documentation or other materials that the Contractor uses to notify its customers generally of such policies. But regardless of the Contractor’s policies and programs, unless otherwise agreed in the applicable Schedule, in all cases such Support must comply with the requirements of this Contract. And the Contractor must provide the Support in a competent, professional, and timely manner.

2. **Minimum Availability.** Support for any Software licensed under this Contract must be available for a minimum of five years from the Start Date of the license. Thereafter, for so long as the Contractor makes Support available to other customers, the State will be entitled to participate in that Support under the terms of this Contract and in exchange for the Support Fee identified in the applicable Schedule.

3. **Reductions.** The State may acquire licenses that are based on the number of users, nodes, computers, and processors, instances of the Software or other counts of objects covered by a license (“Objects”). In any such cases, the State may request that the Support Fees for a Support Period be calculated based on fewer Objects than included in the previous Support Period, with an appropriate adjustment in the applicable Support Fee. But patches, services packs, updates, and new versions or releases of the Software made available to the State under this Contract for such Software may be applied only to the number of Objects included in the then current Support Period. Nevertheless, the State may continue using any version of the Software that is available at the time Support was reduced on or for the unsupported Objects, provided that such is physically possible based on the Software’s configuration. In any case where supported and unsupported Objects cannot be treated separately (e.g., a single server license supporting multiple concurrent connection), the State must limit its use of the Software to the supported number of Objects to take advantage of its reduction rights under this section.

4. **Lapse and Reinstatement.** If the State opts to not renew Support for some or all of the Software licensed by the State under this Contract, the State may subsequently purchase Support for such Software. But it may do so only if the Contractor continues to make it generally available to its customers when the State makes the decision to reacquire Support. Further, any such Support will require, in addition to the Support Fee for the
then current Support Period, the payment of the immediately preceding year’s Support Fees for that Software, or the applicable instances of it. Notwithstanding anything to the contrary in this Contract, no interest will be due on the Support Fees for the past Support Periods. In conjunction with the reinstatement of Support, the State will be entitled to any patches, service packs, upgrades, and new releases, and versions of the Software issued during the unsupported interval.

5. **Support Parameters.** The State may initiate Support requests for problems it encounters with the Software by telephone, email, Internet, or fax, and the Contractor must maintain lines of communication that support all four forms of communication. The Contractor must make Support available from at least 7:00 a.m. to 7:00 p.m. in each time zone where the Contractor maintains a Support center, and it must do so by staffing its Support function with an adequate number of qualified personnel to handle its traditional volume of calls. Further, the Contractor must maintain at least one Support center in North America with adequate English-speaking Support personnel. Support must be available during the business hours identified above from at least Monday through Friday throughout the Support Period, except for customary holidays. Further, subject to the State’s obligation to pay the applicable Support Fees, the Contractor must support both the most recent major release of the Software as well as the immediately preceding major release of Software. The State’s technical staff may contact any Support center that the Contractor maintains, and they may choose to do so based on convenience, proximity, service hours, languages spoken, or otherwise.

6. **Incident Classification.** The Contractor must classify and respond to Support calls by the underlying problem’s effect on the State. In this regard, the Contractor may classify the underlying problem as critical, urgent, or routine. The guidelines for determining the severity of a problem and the appropriate classification of, and response to, are described below.

The Contractor must designate a problem as “critical” if the Software is functionally inoperable, the problem prevents the Software from being used in production mode or there is significant potential for data integrity problems. This classification assumes there is no existing patch for the problem. The Contractor must classify a problem as “urgent” if the underlying problem significantly degrades the performance of the Software or materially restricts the State’s use of the Software in a production mode. A problem also will be considered urgent if a commonly used feature often generates application errors, causes the Software to freeze, locks up the computer on which the Software is running, or otherwise routinely does not work as intended. Classification of a problem as urgent rather than critical assumes that the State still can conduct business with the Software. As with the critical classification, the urgent classification assumes there is no existing patch or acceptable workaround procedure for the problem. Finally, the Contractor may classify a Support call as “routine” if the underlying problem is a question on end use or configuration of the Software. It also may be classified as routine when the problem does not materially restrict the State’s use of the Software in its production environment, such as when a feature or combination of features generates minor or rare errors. Also, if any problem that otherwise should be classified as critical or urgent can be solved either by a known workaround or an existing patch, the problem may be treated as routine.
The Contractor must apply the above classifications in good faith to each call for
Support, and the Contractor must give due consideration to any request by the State to
reclassify a problem, taking into account the State’s unique business and technical
environments and any special needs it may have.

7. **Incident Response.** The Contractor must respond to critical problems by ensuring that
appropriate managerial personnel are made aware of the problem and that they actively
track and expedite a resolution. The Contractor must assign Support or development
personnel at the appropriate level to the problem, and those personnel must prepare a
work plan for the problem’s expeditious resolution. The work plan must assume that the
Contractor’s appropriate staff will work without material interruption until the problem is
resolved properly. The Contractor’s personnel must maintain daily contact with the State’s
technical staff to keep the State abreast of efforts being made to solve the problem. The
Contractor also must provide the State’s technical staff with direct access to the
Contractor’s Support personnel and product development personnel, if appropriate, who
are assigned to the problem. If the resolution of the problem requires a patch, the
Contractor will ship the patch electronically as soon as the patch is available.

The Contractor must respond to urgent problems by having its product development and
Support personnel work in concert to develop a fix or a workaround. The Contractor’s
Support personnel must maintain regular contact with the State to keep its technical staff
abreast of progress toward a resolution of the problem. The Contractor’s Support staff
must include the problem in regular status reports to the Contractor’s management team.
And the Contractor’s Support staff must provide the Software patch or workaround
procedure as soon as it is available.

The Contractor must respond to routine problems by providing the State with a patch or
workaround on a priority basis if the problem is one for which an existing patch or
workaround already exists. For newly identified problems falling into this classification, the
Contractor’s Support personnel must generate a problem report, and the appropriate
development or Support personnel then must prioritize the problem in relation to other
outstanding product issues. The assigned priority then will govern the problem solving or
developmental work needed to address the problem and the schedule for delivering a
solution. For routine calls that involve end usage and configuration issues rather than
bugs or other technical problems, the Contractor’s first or second level Support personnel
must provide the State’s technical staff with telephonic assistance on a non-priority basis.

8. **Response Times.** The maximum time that the Contractor takes to respond initially to a
Support request may vary based upon the classification of the request. During normal
hours of operation for the Contractor’s Support function, the Contractor’s response time
for a critical Support request will be less than one hour. The Contractor’s response time
for an urgent request must be less than two hours during operating hours. And the
Contractor’s response time for a routine Support request must be less than four hours
during normal operating hours.

9. **Escalation Process.** Any Support call that is not resolved must be escalated to the
Contractor’s management under the following parameters. Unresolved problems that are
classified as critical must be escalated to the Contractor’s Support manager within four
hours and to the director level after one day. If a critical problem is not resolved within three days, it must escalate to the corporate officer level and then to the CEO level after five days. The Contractor's Support staff will escalate unresolved urgent problems to its Support manager within three days, to the director level after seven days, and to the corporate officer level after 14 days.

10. **State Obligations.** To facilitate the Contractor meeting its Support obligations, the State must provide the Contractor with the information reasonably necessary to determine the proper classification of the underlying problem. It also must assist the Contractor as reasonably necessary for the Contractor's Support personnel to isolate and diagnose the source of the problem. Additionally, to assist the Contractor's tracking of Support calls and the resolution of Support issues, the State must make a reasonable effort to use any ticket or incident number that the Contractor assigns to a particular incident in each communication with the Contractor. The State also must install and implement the most recently available Software updates, including service packs and patches, if the Contractor reasonably believes it to be necessary to achieve a satisfactory resolution of a problem.

11. **Limitations.** The Contractor is not responsible for the resolution of problems caused by the State’s use of the Software on hardware that does not meet the minimum specifications set out in the Software's Documentation. The Contractor also is not responsible for resolving problems caused by third party software not approved by the Contractor for use with the Software. Additionally, the Contractor need not resolve problems caused by unauthorized modifications to the Software.

12. **Updates.** The Contractor must make all Software updates and service packs, as well as new releases and new versions of it, available to the State at no additional charge and as part of its Software Support. The Contractor will notify the State of the availability of any Software updates and new versions and releases on at least a quarterly basis. The Contractor may post patches and updates on the Internet rather than delivering them to the State on physical media. The Contractor must provide Support, including upgrades, service packs, new releases, and new versions, as appropriate, to keep current with changes in the operating systems and critical applications with which the Software is designed to run for a minimum of five years from the date the Software is licensed to the State. For purposes of the last sentence, a “critical application” is any computer program that the Software is specifically designed to work in conjunction with. An example would be Software that requires an Oracle database engine to function. The Oracle database engine would be a critical application for that Software.

13. **Follow-on Software.** If the Contractor stops supporting or upgrading any Software but then offers or later releases another product that performs substantially similar functions, the State will be entitled to convert its license for the unsupported Software to a license in the new Software. Any such conversion will be without charge to the State, provided only that the State has paid all applicable Support Fees for the unsupported Software since first acquiring it through the time when the Contractor terminated Support.

14. **Functionality Migration.** If the Contractor eliminates functionality material to the use or performance of any Software licensed under this Contract (“Original Software”) and then includes the functionality in a new product (“New Software”), the Contractor must grant the
State a license to use the migrated functionality of such New Software, but not to any other functionality in the New Software, if (i) the State is a subscriber to Support for the Original Software at the time the New Software is available and is entitled to receive subsequent releases of the Original Software, and (ii) the New Software is available for the same operating system or technical environment as the Original Software. The license granted to the State for the New Software will be (i) pursuant to the terms and conditions of this Contract and the applicable Schedule governing the Original Software, (ii) subject to the use restrictions and other limitations for the Original Software in this Contract and applicable Schedule, (iii) granted without the payment of additional fees other than fees for Support which would otherwise be due for the Original Software.

15. **Support Location.** For each Schedule under this Contract, the Contractor must disclose the location(s) where it will perform all Support, the location(s) where any State data applicable to this Contract will be maintained or made available, and the principal place of business for the Contractor and all its subcontractors that may perform Support under this Contract. While performing under this Contract, the Contractor may not change the location(s) where Support is performed or change the location(s) where it maintains or makes the State’s data available to a location outside the country of the original location(s) without prior, written approval of the State, which the State is not obligated to provide. Further, each of the Contractor’s subcontractors that perform Support under this Contract must agree in writing to and be bound by this and all other provisions of this Contract that inure to the benefit of the State.

**PART VI: CONSTRUCTION**

1. **Entire Document.** This Contract will apply to all Software that the State acquires from the Contractor during the term of this Contract, unless the parties expressly agree otherwise in a written document signed by the duly authorized representatives of the parties. Furthermore, this Contract, along with the Schedules and Addenda entered into under it, is the entire agreement between the parties with respect to its subject matter, and it supersedes any previous statements or agreements, whether oral or written.

2. **Additional Documents.** All terms and conditions contained in any document not signed by both parties, such as a purchase order, invoice, or a click-wrap license, are excluded from this Contract and will have no legal effect.

3. **Binding Effect.** Subject to the limitations on assignment provided elsewhere in this Contract, this Contract will be binding upon and inure to the benefit of the respective successors and assigns of the State and the Contractor.

4. **Amendments.** No amendment or modification of any provision of this Contract will be effective unless it is in writing and signed by both parties.

5. **Waiver.** The failure of either party at any time to demand strict performance by the other party of any of the terms of this Contract will not be construed as a waiver or a relinquishment of any such term. Either party may at any later time demand strict and complete performance by the other party of such a term.
6. **Severability.** If any provision of this Contract is held by a court of competent jurisdiction to be contrary to applicable law, the remaining provisions of this Contract will remain in full force and effect to the extent that such does not create an absurdity or material injustice.

7. **Plain Meaning.** This Contract must be construed in accordance with the plain meaning of its language and neither for nor against the drafting party.

8. **Headings.** The headings used herein are for the sole sake of convenience and may not be used to interpret any section.

9. **Notices.** For any notice under this Contract to be effective, it must be made in writing and sent to the address of the appropriate party first appearing above, unless that party has notified the other party, in accordance with the provisions of this section, of a new mailing address for notices.

10. **Continuing Obligations.** To the extent necessary to carry out their purpose, the terms of this Contract will survive the termination of this Contract. Some such provisions that require survival to carry out their full intent include the indemnity, warranty, and limitation of liability provisions. Other examples include the confidentiality section, the escrow section, and the grant of Software licenses. Additional provisions include the Support obligations for existing licenses, and the Pricing section with respect to related Software licenses and caps on increases in Support for existing licenses.

11. **Counterparts.** This Contract may be executed simultaneously in two or more counterparts, each of which will be deemed an original, but all of which together will constitute one and the same instrument.

**PART VII: LAW AND COURTS**

1. **Compliance with Law.** The parties will comply with all applicable federal, state, and local laws in all endeavors under this Contract.

2. **Export Restrictions.** The State may not directly or indirectly export or transmit the Software or Documentation to any country in violation of any applicable US regulation, order, or statute.

3. **UCITA.** The Uniform Computer Information Transactions Act ("UCITA") will not apply to this Contract. To the extent that UCITA, or any version of it that is adopted by any jurisdiction in any form, is applicable, the parties agree to opt out of it pursuant to the opt-out provisions contained therein. Likewise, the United Nations Convention on Contracts for the International Sale of Goods will not apply to this Contract.

4. **Injunctive Relief.** Nothing in this Contract is intended to limit either party’s right to injunctive relief if such is necessary to protect its interests or to keep it whole.
5. **Governing Law.** The laws of Ohio will govern this Contract, excluding its laws dealing with conflict of law, and venue for any disputes will lie exclusively with the appropriate court in Franklin County, Ohio.

**PART VIII: MISCELLANEOUS**

1. **Conflict of Interest.** No Contractor Personnel may voluntarily acquire any personal interest that conflicts with their responsibilities under this Contract. Further, the Contractor will not knowingly permit any Ohio public official or public employee who has any responsibilities related to this Contract to acquire any interest in anything or any entity under the Contractor’s control, if such an interest would conflict with that official’s or employee’s duties. The Contractor will disclose to the State knowledge of any such person who acquires an incompatible or conflicting personal interest related to this Contract. And the Contractor will take steps to ensure that such a person does not participate in any action affecting the work under this Contract. But this will not apply when the State has determined, in light of the personal interest disclosed, that the person’s participation in any such action would not be contrary to the public interest.

2. **Assignment.** Neither party may assign this Contract without the prior, written consent of the other party, which the other party will not withhold unreasonably. Any such assignment, unless otherwise agreed in writing, is contingent on the assignee assuming all the assignor’s rights and obligations under this Contract.

3. **Independent Contractor Acknowledgement.** It is fully understood and agreed that Contractor is an independent contractor and is not an agent, servant, or employee of the State of Ohio or the Ohio Department of Administrative Services. Contractor declares that it is engaged as an independent business and has complied with all applicable federal, state, and local laws regarding business permits and licenses of any kind, including but not limited to any insurance coverage, workers’ compensation, or unemployment compensation that is required in the normal course of business and will assume all responsibility for any federal, state, municipal or other tax liabilities. Additionally, Contractor understands that as an independent contractor, it is not a public employee and is not entitled to contributions from DAS to any public employee retirement system.

Contractor acknowledges and agrees any individual providing personal services under this agreement is not a public employee for purposes of Chapter 145 of the Ohio Revised Code. Unless Contractor is a “business entity” as that term is defined in ORC. 145.037 (“an entity with five or more employees that is a corporation, association, firm, limited liability company, partnership, sole proprietorship, or other entity engaged in business”) Contractor shall have any individual performing services under this agreement complete and submit to the ordering agency the Independent Contractor/Worker Acknowledgement found at the following link:

https://www.opers.org/forms-archive/PEDACKN.pdf#zoom=80

Contractor’s failure to complete and submit the Independent/Worker Acknowledgement prior to commencement of the work, service or deliverable, provided under this
agreement, shall serve as Contractor’s certification that contractor is a “Business entity” as the term is defined in ORC Section 145.037.

4. **Employees.** All Contractor Personnel are employees or contractors of the Contractor, and none are or will be deemed employees or contractors of the State. No Contractor Personnel will be entitled to participate in, claim benefits under, or become an “eligible employee” for purposes of any employee benefit plan of the State by reason of the subject matter of this Contract or work performed under this Contract. The Contractor must pay all federal, state, local, and other applicable payroll taxes and make the required contributions, withholdings, and deductions imposed or assessed under any provision of any law, rule, or regulation and measured by wages, salaries, or other remuneration paid by or which may be due from the Contractor to the Contractor Personnel. The Contractor will indemnify, defend, and hold the State harmless from and against all claims, losses, liability, demands, fines, and expenses (including court costs, defense costs, and redeemable attorney fees) arising out of or relating to such taxes, withholdings, deductions, and contributions with respect to the Contractor Personnel. The Contractor’s indemnity and defense obligations also apply to any claim or assertion of tax liability made by or on behalf of any Contractor Personnel or governmental agency on the basis that any Contractor Personnel are employees or contractors of the State, that the State is the “joint employer” or “co-employer” of any Contractor Personnel, or that any Contractor Personnel are entitled to any employee benefit offered only to eligible regular fulltime and regular part-time employees of the State. Notwithstanding the foregoing, any defense of the State requires and is subject to the approval and consent of the Ohio Attorney General.

5. **Publicity.** The Contractor may not advertise or publicize that it is doing business with the State or use this Contract or the Contractor’s relationship with the State as a marketing or sales tool, unless the State agrees otherwise in writing.

6. **Cancellation.** The State may cancel this Contract without cause and on 30 days written notice or at any time if the General Assembly or any other funding source fails to continue funding. But in the case of any license of Software entered before the effective date of the cancellation, the State will have the right to continue such license after termination on the terms contained in this Contract.

7. **Deliveries.** All deliveries will be F.O.B. destination.

8. **EEO.** The Contractor must comply with all Ohio laws, rules, and Executive Orders of the Governor of Ohio regarding equal employment opportunity, including Ohio Revised Code Section 125.111.

9. **Drug Free Workplace.** The Contractor must comply with all applicable Ohio laws regarding maintaining a drug-free workplace. The Contractor will make a good faith effort to ensure that all its employees, while working on the State’s property, do not possess and will not be under influence of illegal drugs or alcohol or abuse prescription drugs.
10. **Ohio Ethics Law and Limits on Political Contributions.** The Contractor certifies that it is currently in compliance and will continue to adhere to the requirements of the Ohio ethics laws. The Contractor also certifies that all applicable parties listed in Ohio Revised Code Section 3517.13 are in full compliance with Ohio Revised Code Section 3517.13.

11. **Travel Expenses.** Any travel or living expenses required by the Contractor to do its obligations under this Contract will be at the Contractor’s expense. The State will pay for any additional travel that it requests only with prior, written approval. All additional travel and living expenses that the State requests in addition to what this Contract requires the Contractor to provide at the Contractor’s expense will be paid in accordance with the Office of Budget and Management’s Travel Rules in Section 126-1-02 of the Ohio Administrative Code.

12. **Order of Priority.** If there is any inconsistency or conflict between this Contract and any provision of anything incorporated by reference, this Contract will prevail.

13. **Record Keeping.** The Contractor must keep all financial records in accordance with generally accepted accounting principles consistently applied. The Contractor will file documentation to support each action under this Contract in a manner allowing it to be readily located. And the Contractor will keep all related records and documents at its principal place of business.

14. **Audits.** During the term of this Contract and for three years after the payment of any fee to the Contractor under this Contract, on reasonable notice and during customary business hours, the State may audit the Contractor’s records and other materials that relate to this Contract. This audit right will also apply to the State’s duly authorized representatives and any person or organization providing the State with financial support related to this Contract.

   If any audit reveals any misrepresentation or any overcharge to the State, the State will be entitled to recover damages, as well as the cost of the audit.

15. **Ohio Revised Code Section 9.24.** Contractor warrants that it is not subject to an unresolved finding for recovery under Ohio Revised Code Section 9.24. If this warranty was false on the date the parties signed this Contract, the Contract is void. Further, if the Contractor is subject to an unresolved finding of the Auditor of State under Revised Code Section 9.24 on any date on which the parties renew or extend this Contract, the renewal or extension will be void.

16. **Governing the Expenditure of Public Funds on Offshore Services (EO 2011-12K).** The Service Provider affirms it has read and understands Executive Order 2011-12K and will abide by those requirements in the performance of this Agreement. Notwithstanding any other terms of this Agreement, the State reserves the right to recover any funds paid for Services the Service Provider performs outside of the United States for which it did not receive a waiver. The State does not waive any other rights or remedies provided the State in this Agreement.
The Service Provider agrees to complete the attached Executive Order 2011-12K Affirmation and Disclosure Form (Attachment Nine of the associated RFP), which is incorporated and becomes a part of this Agreement.

17. **Security & Safety Rules.** When using or possessing State data or accessing State networks and systems, the Contractor must comply with all applicable State rules, policies, and regulations regarding data security and integrity. And when on any property owned or controlled by the State, the Contractor must comply with all security and safety rules, regulations, and policies applicable to people on those premises.

18. **Boycotting.** Pursuant to Ohio Revised Code 9.76 (B) Contractor warrants that Contractor is not boycotting any jurisdiction with whom the State of Ohio can enjoy open trade, including Israel, and will not do so during the contract period.
TO SHOW THEIR AGREEMENT, the parties have executed this Contract as of the dates appearing below.

PRICE HOLD ADDENDUM NUMBER [0000000.00]

This license addendum ("Addendum") is between the State of Ohio (the "State"), through the Department of Administrative Services with offices at 30 East Broad Street, Columbus, Ohio 43215, and [Company name of the Contractor] (the "Contractor"), with offices at [street address, city, state and zip code for the Contractor], and is entered into under that certain Master Contract for Software Licensing between the State and the Contractor that is dated [Date of the Contract] and numbered [0000000] (the "Contract").

This Addendum does not represent a license of Software. Instead, it provides a price-hold for the Software listed below and permits the State to acquire the Software in exchange for the License Fees and Support Fees listed below. The State is not obligated to license any of the Software listed below, but if it does at any time during the period starting on the date this Addendum is signed and______________ thereafter (Price-hold Period), the State will be entitled to acquire such Software for the Fees specified below. The State may acquire such Software by executing a standard Schedule in the form of that attached to the Contract. The State has the right to acquire some or all of the Software listed below and to acquire the Software in increments during the Price-hold Period using multiple Schedules. Nothing in the Addendum commits the State to any volume of licensing or total expenditure. The State may acquire some, all, or none of the Software in such volumes as it determines during the Price Hold Period.
