PROJECT No. MG-SB-83**

PROJECT DESCRIPTION

The Thomas Fork Doser project consists of constructing a new doser system and silo alongside Bailey Run Road for treating acid mine drainage. Major components of work include removing an existing 48-inch concrete pipe, installing approximately 164 linear feet of concrete elliptical pipe, two concrete headwalls, a concrete lined channel, a concrete foundation for a doser system and silo, installation of a doser system and silo, installation of approximately 240 linear feet of PVC pipe, manholes, approximately 515 tons of various sizes of stone, concrete sidewalk, fences, and other miscellaneous work items.

The project is approximately 3 miles northwest of Pomeroy, Ohio. It is located in Salisbury Township in Meigs County. The site is near the intersection of SR143 and Bailey Run Road (T-165) on the south side of Bailey Run Road and adjacent to the Bailey Run waterway.

The Ohio Department of Natural Resources, Division of Mineral Resources Management, or its authorized representative, reserves the right to adjust the size of the work area and the sequence of construction operations as necessary, based on conditions encountered during the implementation of the abatement program.

The following people may be reached at the Division of Mineral Resources Management Athens Office at (740) 592-3748.
