PART ONE: EXECUTIVE SUMMARY

Introduction. This is a Request for Proposals (RFP) under Section 125.071 of the Ohio Revised Code (ORC) and Section 123:5-1-08 of the Ohio Administrative Code (OAC). The Ohio Consumers' Counsel (OCC) is soliciting competitive sealed proposals (Proposals) for **Evaluation of the Dayton Power and Light Company's Application for an Electric Security Plan – Economic Impact**. If a suitable offer is made in response to this RFP, the OCC may enter into a contract (Contract) to have the selected Offeror (the Contractor) perform all or part of the Project. This RFP provides details on what is required to submit a Proposal, how OCC will evaluate the Proposals, and what will be required of the Contractor in performing the work.

Background. The OCC plays an integral part in Ohio's government and economy by fulfilling its role as the advocate agency for residential utility consumers. Established in 1976, the OCC's services for Ohio consumers include advocacy on their behalf on issues involving the affordability and quality of their utility services. OCC also provides education for consumers regarding their utility services.

The law governing the agency's activities is contained in chapter 4911 of the Ohio Revised Code.

Purpose. This is a Request for Proposal ("RFP") issued by the Office of the Ohio Consumers' Counsel ("OCC") to solicit bids from Independent Contractors for technical assistance with evaluation of the Dayton Power and Light Company's ("DPL") application for an Electric Security Plan ("ESP") filed with the Public Utilities Commission of Ohio ("PUCO") on February 22, 2016, in Case No. 16-395-EL-SSO. As part of the ESP DPL has requested approval of arrangements with its affiliated power generators ("generator arrangement"). This RFP focuses on evaluating the economic impact of the ESP and the generator arrangement on residential customers.

On February 25, 2015, in Case No. 13-2385-EL-SSO, the PUCO issued an Opinion and Order (the "February 25 Order") that set forth several new factors it may use in deciding whether to approve future arrangements with affiliated generators. Those factors are as follows: (1) financial need of the generating plant; (2) necessity of the generating facility, in light of future reliability concerns, including supply diversity; (3) description of how the generating plant is compliant with all pertinent environmental regulations and its plan for compliance with pending environmental regulations; and (4) the impact that a closure of the generating plant would have on electric prices and the resulting effect on economic development within the state of Ohio. The PUCO also established guidelines concerning reliability and pricing issues as they relate to any future applications containing arrangements with affiliated generators. Specifically, DPL must, in its generator arrangement proposal, provide for rigorous PUCO review of the rider, including a proposed process for a periodic substantive review and audit; a commitment to full information sharing with the PUCO and its Staff; and an alternative plan to allocate the generator arrangement's financial risk between the DPL and its ratepayers. DPL was also instructed to include a severability provision that recognizes that all other provisions of its ESP will continue, in the event that the PPA rider is invalidated, in whole or in part at any point, by a court of competent jurisdiction.

DPL currently owns generating assets that the PUCO has ordered DPL to transfer to an affiliate by January 1, 2017. DPL claims that adverse conditions in the energy and capacity markets, and a series of environmental regulations, could result in the closure of certain generating plants. The closure of these plants would allegedly cause \$26.5 billion in adverse economic impacts in Ohio.

Under DPL's generator arrangement it proposes to obtain, on behalf of its retail customers, the output equal to the company's 2,181-MW entitlement of the coal fired J.M. Stuart Units 1-4, W.H. Zimmer Unit 1, Miami Fort Units 1-7, Killen Unit 2 and Conesville Unit 4 plants; along with DPL's 4.88% entitlement in the Ohio Valley Electric Corp.'s coal fired Kyger Creek and Clifty Creek plants ("RER Units"). Customers will pay for the generation output via a non-bypassable surcharge (or credit). DPL will, in turn, offer the output of the involved generation units into the PJM Interconnection, L.L.C. ("PJM") markets for sale. Revenue shortfalls associated with the purchase and sale of the generation will be billed to customers via a non-bypassable surcharge. Revenue surpluses will take the form of a bill credit. The term of the generator arrangement will be for ten years.

DPL maintains that its revised generator arrangement proposal meets all of the PUCO's factors and guidelines adopted in its February 25 Order for PPA approval. Specifically, DPL maintains that, among other things, its proposal is designed to promote economic growth and stability in Ohio by allowing at-risk generation plants to remain operational. DPL further submits that its proposal yields substantial benefits to Ohio's economy via the preservation of tax and local economic benefits of the facilities remaining operational. It estimates that over a 10-year term, the proposal could yield at least \$450 million in customer credits and avoid \$112 million in unnecessary transmission upgrades if the generation facilities were to close. DPL alleges that the proposal will deliver the supply of stable and reasonably-priced power for years to come.

DPL's proposal to fund these generation facilities is entitled the Reliable Electric Rider ("RER"), which can be located online at the following URL: <http://dis.puc.state.oh.us/> by entering "16-395" in the search dialog box. Witness Raga's testimony begins the initial dialog regarding the proposal. Witnesses Meehan, Harrison, and Grande-Moran provide additional details and insight regarding the economic impact of the facilities.

PART THREE: SCOPE OF WORK AND DELIVERABLES

This section describes the scope of work and what the selected Offeror must deliver as part of the completed work (the “Deliverables”) to meet the terms and conditions of a subsequent contract.

Scope of Work. This section describes the scope of work and deliverables for what the selected Independent Contractor must deliver as part of the completed work (the “Deliverables”) to meet the terms and conditions of a subsequent contract.

The selected Independent Contractor will assist OCC employees in evaluating DPL’s Application in terms of its alleged economic benefits to Ohio’s customers and the plan’s costs to residential customers. The selected Independent Contractor will need to assess the economics of DPL’s proposal and provide an in-depth analysis. Such an analysis would include assessing the economic analysis presented by Mr. Meehan, Mr. Grande-Moran, and Mr. Harrison that addresses the alleged benefits to the state from the electricity production of the RER Units. The Independent Contractor should also provide alternative analysis or modeling of the economic impact of the generating units. The selected Independent Contractor will need to present an assessment and recommendations through written testimony and defend such testimony at depositions and hearings.

Deliverables. When expressly requested by OCC, in connection with proceedings before the PUCO, the selected Independent Contractor will evaluate, make recommendations, and present and defend testimony regarding whether, and the extent to which, DPL’s proposal to purchase the entire capacity of the RER Units is an economically sound and cost effective proposition for DPL’s residential customers.

The selected Independent Contractor will be expected to determine: (1) the effect the proposal will have on the state of Ohio’s economy, as compared to not funding the facilities; (2) the economic impact of the proposal on the state of Ohio and DPL’s service territory; (3) any economic impact of continuing to run inefficient generation facilities regardless of market prices; (4) the effect on customers’ discretionary income and state of Ohio’s competitiveness to the extent maintaining such inefficient generation facilities at a guaranteed profit results in a net costs to consumers. In addition, the project is to include a review and analysis of DPL’s economic analysis presented by Mr. Meehan, Mr. Grande-Moran, and Mr. Harrison.

More specifically, at the direction of OCC, the selected Independent Contractor will be expected to do the following:

1. Timely review and evaluate DPL’s Application, testimony and exhibits of DPL Witnesses Meehan, Harrison, and Grande-Moran filed in this proceeding on February 22, 2016 and any subsequently filed documentation;
2. Prepare timely discovery questions (interrogatories and requests for documents) for the purpose of obtaining any other additional information the Independent Contractor deems necessary to fully evaluate the issues, perform analysis, make recommendations, and prepare testimony supporting such recommendations;
3. Timely review responses to discovery questions, prepare additional discovery questions if necessary, and incorporate responses into evaluation;

4. Prepare timely written direct testimony and, if necessary, supplemental or rebuttal testimony to any witness in this proceeding (including DPL, PUCO Staff, and intervenor witnesses);
5. Attend depositions of DPL and other intervenor witnesses (may require travel) if deemed necessary by OCC's Lead Attorney and be deposed (may require travel) if so noticed;
6. Attend hearings as deemed necessary (will require travel) by OCC's Lead Attorney, including defending (through cross-examination and redirect testimony) written testimony and rebuttal testimony; and
7. Assist and provide technical support, as deemed necessary by OCC's Lead Attorney, in legal preparation of prehearing and settlement conferences, witness testimony, opposing witness (may include the DPL, PUCO Staff, and other intervenors) cross-examination, briefs, reply briefs, applications for rehearing, and related motions with respect to this proceeding and any appeal of this proceeding.

PART FOUR: PROPOSAL REQUIREMENTS

Proposal Format. Each proposal must include sufficient data to allow the OCC to verify the total cost for the work and all of the Offeror's claims of meeting the RFP's requirements. These instructions describe the required format for a responsive proposal. The Offeror may include any additional information it believes is relevant.

1. **Offeror Profile.** Each proposal must include a general profile of the prospective Offeror's relevant experience working on projects similar to this work. In the **Offeror's Profile Summary**, (See *Attachment One*), details on prior and current similar and/or relevant work projects should be provided, including the scope of such work and clients. While detail is generally preferred on an Offeror's most recent work, Offeror's are encouraged to provide detail on relevant work in Ohio.

The profile must also include the Offeror's legal name, address, and telephone number; home office location; date established; ownership (such as public firm, partnership, or subsidiary); firm leadership (such as corporate officers or partners); total number of employees nationwide and in Ohio; the percentage of women employees nationwide and in Ohio; the percentage of minorities nationwide and in Ohio; number of employees to be engaged in tasks directly related to the work; and any other background information the prospective Offeror's believes would be useful during the proposal evaluation process.

2. **Work Plan.** The prospective Offeror must fully describe its approach, methods, and specific work steps for doing the work and producing the **Work Requirements and Deliverables** set forth in Part Three of this RFP. The OCC encourages responses that demonstrate a thorough understanding of the nature of the work and what the Offeror must do to get the work done well. The prospective Offeror must also provide a complete and detailed description of the way it will do the work that addresses the areas of concern identified below. The OCC seeks insightful responses that describe proven, state-of-the-art methods. Recommended solutions should demonstrate the prospective Offeror's ability to quickly undertake and successfully complete the required tasks.

The prospective Offeror's work plan must clearly and specifically identify key personnel assignments, by individual, as to who would be addressing the deliverables set forth in Part Three of this RFP.

3. **Personnel Profile Summaries.** Each proposal must include a profile and/or resume that demonstrates the competency of the Offeror by submitting the following information:
 - **Team Members Names**
 - **Experience and Qualifications.** Experience and qualifications relevant to this project.
 - **Dates of Employment.** The length of time the team members performed relevant work requiring the necessary technical expertise.
 - **Project Experience.** The work of the team members on projects of similar or greater size and scope.
4. **References.** The prospective Offeror must include three references for which the prospective Offeror has successfully provided services on projects that were similar in their nature, size, and scope of work. These references must relate to work that was completed within the past five (5) years.

Note: Each reference must be willing to discuss the prospective Offeror's performance with an OCC representative.

5. Cost Summary. Each Offeror must provide a cost summary table showing: (1) Team Members' names, (2) their hourly rates, (3) their estimated hours, and (4) total estimated project cost for the Work Requirements and Deliverables set forth in Part Three of this RFP.

- a) The OCC requires the inclusion of ALL expenses associated with this project within the hourly rates and hours used to determine the costs for the deliverables, thereby eliminating the need for expense billings. Items to be taken into consideration in determining the cost of each deliverable should include supplies and materials, transportation and per diems, copying and overnight mail charges, etc. The successful Offeror will be responsible for direct payment to vendors for any requirements for overnight mail and any "on-site" photocopying charges.
- b) Offeror will invoice only for actual work performed and documented.

The OCC will not be liable for any costs the prospective Offeror does not identify in its proposal.

6. Submit an original W9 form along with your response to this RFP so that, if a contract is awarded, the OCC can process any invoices submitted by your company. The Internet link to the form is: <http://www.irs.gov/pub/irs-pdf/fw9.pdf>. The form must be signed and dated.
7. The Offeror must complete the Standard Affirmation and Disclosure form attached to this RFP which addresses Executive Order 2011-12K, Governing the Expenditure of Public Funds on Offshore Services. This executive order states in part "...No State Cabinet Agency, Board or Commission ("Executive Agency") shall enter into any contract which uses any public funds within its control to purchase services which will be provided outside of the United States..." By the signature affixed to this response, the Bidder/Offeror affirms, understands and will abide by the requirements of Executive Order 2011-12K. If awarded a contract, the Bidder/Offeror becomes the Independent Contractor and affirms that both the Independent Contractor and any of its subcontractors shall perform no services requested under this Contract outside of the United States. To access the executed Executive Order, please visit: <http://procure.ohio.gov/pdf/EO201112K.pdf>.
8. Submit a statement as part of your response to this RFP, affirming that you or members of your staff do not currently owe any money to the state of Ohio or have an unresolved finding for recovery from the Auditor of State as per Ohio Revised Code (ORC) 125.25. To access more information regarding ORC 125.25, please visit: <http://codes.ohio.gov/orc/125.25>.
10. Campaign Contribution. House Bill 694 requires that every contract for goods or services of more than \$500 must contain a certification signed by the contract recipient certifying that the recipient is in compliance with ORC 3517.13 Divisions (I) or (J) regarding limitations on political contributions. If awarded a contract, the Offeror will certify that they are in full compliance with these Divisions of ORC 3517.13. For more information, please refer to <http://codes.ohio.gov/orc/3517.13>.

PART FIVE: EVALUATION OF PROPOSALS AND CONTRACT AWARD

Evaluation of Proposals. The evaluation process may consist of up to four distinct phases:

1. The Initial Review of all proposals for defects.
2. The Evaluation of the Proposals technical merits and cost summary.
3. Request for More Information (Interviews, Presentations, and Demonstrations).
4. Contract Negotiations.

It is within the purview of the OCC to decide whether phases three and four are necessary.

Initial Review. The proposals will be reviewed for their timeliness, format, and completeness. Any late, incomplete, or incorrectly formatted proposals may be rejected. Likewise, any defects may be waived or a prospective Offeror may be allowed to submit a correction.

If a late proposal is received, it will not be.

Team Review of the Proposals. Each member of the review team will evaluate and numerically score the technical merits each Proposal. The evaluation will be according to the criteria contained in *PART SIX* of the RFP. The evaluation team has a right to break these criteria into components and weight any components of a criterion according to their perceived importance. The evaluation team will meet and review each Offeror's scores and come to an agreement on a consensus score.

Once the technical merits are evaluated, the cost summary will be evaluated.

Clarifications: During the evaluation process, clarifications may be requested from any Offeror under consideration and the clarification may give any Offeror the opportunity to correct defects in its Proposal. This may be done in cases where doing so would not result in an unfair advantage to the Offeror and the clarification is in the best interest of the OCC.

Rejection of Proposal. The OCC may reject any proposal that is not in the required format, does not address all the requirements of this RFP, or that the OCC believes is excessive in price or otherwise not in the best interest of the OCC to consider or to accept. In addition, the OCC may cancel this RFP, reject all the proposals, and seek to do the work through a new RFP or other means.

Interviews, Presentations and Demonstrations. The evaluation team may require an Offeror to interview with the evaluation team regarding their Proposal. Such presentation, demonstrations, and interviews provide the Offeror with an opportunity to clarify its Proposal and to ensure a mutual understanding of the RFP content. These presentations, demonstrations, and interviews will be scheduled at the convenience and discretion of the evaluation team. This phase of the evaluation is not an opportunity for the Offeror to engage in any negotiations over the form of the Proposal or required scope of the services.

Contract Negotiations. The final phase of the evaluation process may be contract negotiations. The evaluation team will schedule all negotiations. The selected Offeror(s) must negotiate in good faith. The evaluation team may conduct negotiations with any Offeror who submits a competitive Proposal, but the evaluation team may limit discussions to specific aspects of the RFP. Neither the Team, nor an Offeror, may disclose to another Offeror a priced Proposal or any other material information derived from competing Proposals. Any negotiated changes will be reduced to writing and become part of the contract file.

In the event that the Offeror fails to negotiate in good faith, OCC may terminate negotiations and is under no obligations to enter into a contract with the Offeror.

Contract Award. The contract will be awarded to the Offeror that demonstrates a clear understanding of OCC's expectations; can complete the scope of work and deliverables within the designated timeframe, and is the most competitive or lowest cost per point ration.

The OCC plans to tentatively award a Contract for this work no later than the date specified in Part Two of this RFP. The OCC reserves the right to change the contract award date if it becomes necessary.

In awarding the Contract, OCC will issue an award letter to the selected Offeror. The Contract will not be binding on OCC until the OCC's duly authorized representative signs the Contract, the OCC issues a purchase order and all other prerequisites identified in the Contract have occurred. The selected Offeror will receive an executed copy of the contract.

Contract. If this RFP results in a Contract award, the Contract will include this RFP, written amendments to this RFP, the Offeror's Proposal, and written, authorized amendments to the Offeror's Proposal. The RFP and Proposal will be attached and incorporated into the standard ODRC Service Contract (see Attachment Five). The Contract may also include any materials incorporated by reference in the above documents. The general terms and conditions for the Contract are contained in the Service Contract Attachment Five to this RFP. If there are conflicting provisions between the documents that make up the Contract, the order of preference for the documents is as follows:

1. This RFP, as amended;
2. The documents and materials incorporated by reference in the RFP;
3. The Offeror's Proposal, as amended; and
4. The documents and materials incorporated by reference in the Offeror's Proposal.

Notwithstanding the order listed above, amendments issued after the Contract is executed may expressly change the provisions of the Contract. If they do so expressly, then the most recent amendment will take precedence over anything else that is part of the Contract.

Total Cost: \$ _____

COST PROPOSAL POINTS OCC will use the information the Offeror submits on the Cost Summary Form to calculate Cost Proposal Points. OCC will calculate the Offeror’s Cost Proposal points after the Offeror’s total technical points are determined, using the following method:

Cost points = (lowest Offeror’s cost/Offeror’s cost) x Maximum Allowable Cost Points as indicated in the “Scoring Breakdown” table. “Cost” = Firm Fixed Price identified in the Cost Summary section of Offeror’s Proposal. In this method, the lowest cost proposed will receive the maximum allowable points.

The number of points assigned to the cost evaluation will be prorated, with the lowest accepted Cost Proposal given the maximum number of points possible for this criterion. Other acceptable Cost Proposals will be scored as the ratio of the lowest Cost Proposal to the Proposal being scored, multiplied by the maximum number of points possible for this criterion.

An example for calculating cost points, where Maximum Allowable Cost Points Value = 60 points, is the scenario where Offeror X has proposed a cost of \$100.00. Offeror Y has proposed a cost of \$110.00 and Offeror Z has proposed a cost of \$120.00. Offeror X, having the lowest cost, would get the maximum 60 cost points. Offeror Y’s cost points would be calculated as \$100.00 (Offeror X’s cost) divided by \$110.00 (Offeror Y’s cost) equals 0.909 times 60 maximum points, or a total of 54.5 points. Offeror Z’s cost points would be calculated as \$100.00 (Offeror X’s cost) divided by \$120.00 (Offeror Z’s cost) equals 0.833 times 60 maximum points, or a total of 50 points.
