

REQUESTS FOR EQUIPMENT QUOTES

Southern State Community College Truck Driving Academy

July, 2014

Background Information and contact info:

The Truck Driving Academy (TDA) at Southern State Community College has received Ohio Board of Regents (OBOR) funds for the purchase of needed equipment to support CDL and related training. Currently, the TDA has 15 college and career center partners offering CDL and related training throughout southern and eastern Ohio. In addition to the traditional CDL program, the TDA provides customized training to college and career centers in support of their Heavy Equipment Operator and Utility Line Technician training programs. The requests for equipment quotes will be reviewed and evaluated with regards to operational requirements, as well as the requirements of the Ohio Board of Regents and the Controlling Board. It is expected that the equipment will be used, and those, if any, selected for purchase, will be at or below industry accepted pricing for the make, model, and year of the unit(s). Include picture and unit information with quote.

Please direct any questions about the equipment descriptions to John Joy, Dean, Workforce Development, Southern State Community College. Email is jjoy@sscc.edu and the phone number is 937-382-6645 ext. 4510.

REQUESTS FOR QUOTES

RTDA 0601-Power Utility trucks

2 used electric/power company utility trucks suitable for use with Line Technician students in training at partner college and career center schools. Prefer manual transmission, industry standard equipment. Trucks must be mechanically sound, able to pass D. O. T. level inspection.

RTDA 0602-Utility trailers

2 used single axle utility trailers for use with Utility trucks described in RTDA 0601. Trailers must be compatible to hitch to the trucks.

RTDA 0603- School buses

2 late-model used school buses. Must be able to pass mechanical inspection and be ready to pass for OSHP inspection.

RTDA 0604-Low-boy trailer

1 used “Low-boy” trailer, approximately 50 feet in length. At least dual axle, FVW of 35 tons. Working tie downs for securing standard heavy excavation equipment such as backhoes, bulldozers, etc. Lighting and mechanical condition sufficient to pass inspection.

RTDA 0605-Tractor Cab conversions

4 conversions of existing “sleeper” cab configuration to ODPS approved seating for CDL training. Include removal of sleeper cab furnishings and installation of seats approved by D. O. T. for use by CDL students. For more information contact Eddie Mullins at 937-725-4898.

RTDA –Paint/Vinyl coating of purchased units

Provide quote for labor and material to paint or vinyl coat tractor and 53 foot trailer with color, logo, and graphics provided and approved by Southern State Community College. For more information contact Eddie Mullins at 937-725-4898.
