REQUEST FOR PROPOSALS

RFP NUMBER: CSP901121
INDEX NUMBER: DOH058
UNSPSC CATEGORY: 81000000

The state of Ohio, through the Department of Administrative Services, Office of Procurement Services, for the Department of Health, is requesting proposals for:

REAL-TIME SYNDROMIC SURVEILLANCE PROGRAM

RFP ISSUED: June 11, 2020
INQUIRY PERIOD BEGINS: June 11, 2020
INQUIRY PERIOD ENDS: July 1, 2020 at 8:00 a.m.
PROPOSAL DUE DATE: July 8, 2020 by 1:00 p.m.

Proposals received after the due date and time will not be evaluated.

OPENING LOCATION: Department of Administrative Services
Office of Procurement Services
ATTN: Bid Desk
4200 Surface Rd.
Columbus, OH 43228-1395

Offerors must note that all proposals and other material submitted will become the property of the state and may be returned only at the state's option. Proprietary information should not be included in a proposal or supporting materials because the state will have the right to use any materials or ideas submitted in any proposal without compensation to the offeror. Additionally, all proposals will be open to the public after the award of the contract has been posted on the State Procurement Web site. Refer to the Ohio Administrative Code, Section 123:5-1-08 (E).

This RFP consists of five (5) parts and nine (9) attachments, two (2) supplements, totaling 71 consecutively numbered pages. Please verify that you have a complete copy.
PART ONE: EXECUTIVE SUMMARY

PURPOSE. This is a Request for Competitive Sealed Proposals (RFP) under Section 125.071 of the Ohio Revised Code (ORC) and Section 123:5-1-08 of the Ohio Administrative Code (OAC). The Department of Administrative Services (DAS), Office of Procurement Services, on behalf of the Ohio Department of Health (the Agency, DOH or ODH), is soliciting competitive sealed proposals (Proposals) for real-time syndromic surveillance system (Project) and this RFP is the result of that request. If a suitable offer is made in response to this RFP, the State of Ohio (State), through DAS, may enter into a contract (the Contract) to have the selected Offeror (the Contractor) perform all or part of the Project (the Work). This RFP provides details on what is required to submit a Proposal for the Work, how the State will evaluate the Proposals, and what will be required of the Contractor in performing the Work.

This RFP also gives the estimated dates for the various events in the submission process, selection process, and performance of the Work. While these dates are subject to change, prospective Offerors must be prepared to meet them as they currently stand.

Once awarded, the term of the Contract will be from the award date through August 31, 2021. The State may solely renew this Contract at the discretion of DAS for a period of one month. Any further renewals will be by mutual agreement between the Contractor and DAS for any number of times and for any period of time. The cumulative time of all mutual renewals may not exceed five (5) years and are subject to and contingent upon the discretionary decision of the Ohio General Assembly to appropriate funds for this Contract in each new biennium. DAS may renew all or part of this Contract subject to the satisfactory performance of the Contractor and the needs of the Agency.

Any failure to meet a deadline in the submission or evaluation phases and any objection to the dates for performance of the Project may result in DAS refusing to consider the Proposal of the Offeror.

BACKGROUND. Early detection and characterization of health events (e.g. outbreaks, seasonal illness, pandemic influenza, environmental exposure) assists in reducing morbidity and mortality through prevention and control measures. Syndromic surveillance is a tool for early detection, tracking and characterization of health events. A syndromic surveillance system is a secure local or web interface that accepts data from multiple sources in near real-time and regularly analyzes the data to detect potential health events. A syndromic surveillance system allows public health agencies, medical professionals, and select poison control staff to query system data for anomaly review, situational awareness, decision making, and further development or refinement (classifier definition and threshold determination). Ohio has several syndromic surveillance data fields including chief complaint, disposition and diagnosis data from sources such as hospital emergency departments, urgent care centers, and outpatient clinics. Ohio also has access to call data to poison control centers. Once syndromic surveillance data is received, it can be utilized to monitor the distribution of people seeking care both spatially and temporally by specific symptom(s), syndrome(s), and/or diagnosis/diagnoses.

These are the current numbers for Ohio: 229 emergency departments, 2 poison control centers, hundreds of urgent care centers, and thousands of ambulatory practices. Approximately 95% of Ohio’s emergency departments and 100% of Ohio’s poison control centers are included in ODH’s current syndromic surveillance system. In addition, 16 urgent care centers are included and ambulatory practices for three large healthcare systems. Participating facilities submit Health Level 7 (HL7) patient administration messages over a secure delivery data transmission format such as a virtual privacy network (VPN) or secure shell (SSH) file transfer protocol (SFTP). This transfer occurs in real-time as data is entered into the facility’s certified electronic health record technology system. Updates to the patient’s visit generate additional message updates through to the final billing codes. Poison control center calls are collected via a web services connection to the National Poison Data System (NPDS). The existing system includes approximately:

- 221 hospitals,
- 16 urgent care centers,
- 3 health care systems with all associated ambulatory practices,
- 2 Ohio poison control centers, and
- data from Ohio’s infectious disease reporting system.

Data from each source is received and stored in an off-site database. The current system provides for spatial temporal analysis based upon the zip of code of the patient’s residence or facility’s location through pre-established algorithms or on demand by users. Results of these analyses are then made available to end users through a secure web user interface.

QUALIFIED APPLICANTS. Qualified applicants are organizations able to support development, implementation, and maintenance of real-time syndromic surveillance methodologies, data collection, facility onboarding, and systems used for analysis of data. Experience with hospital emergency department registration data, urgent care registration data, outpatient clinic data, poison control center data, and reportable infectious disease data is also beneficial.

OBJECTIVES. ODH seeks professional services to:

1. maintain the existing connections,
2. onboard new facilities,
3. expand surveillance functions independently and with the guidance of ODH programs,
4. improve data quality and timeliness from submitting facilities,
5. improve data access for system users while maintaining or improving a high level of security,
6. offer analyses appropriate for time-series data,
7. generate notifications to appropriate public health jurisdictions,
8. incorporate other approved data sources to improve surveillance,
9. provide data to other approved stakeholders, and
10. utilize data gathered since the system began in 2003.

OVERVIEW OF THE WORK’S SCOPE. The scope of the Work is provided in Attachment One: Part One of this RFP. This section only gives a summary of the Work. If there is any inconsistency between this summary and the attachment's description of the Work, the attachment will govern.

Offerors are responsible for addressing how it will onboard facilities, perform maintenance of existing data feeds, the establishment of additional data feeds, storage and analysis of data, making analysis available to end-users, notifications to appropriate users, and summary information such as dashboards, reports, and publications, and enforcing the Ohio Department of Health’s Syndromic Surveillance Technical Specifications as outlined in the Scope of Work.

CALENDAR OF EVENTS. The schedule for the Project is given below and is subject to change. DAS may change this schedule at any time. If DAS changes the schedule before the Proposal due date, it will do so through an announcement on the State Procurement Web site area for this RFP. The Web site announcement will be followed by an addendum to this RFP, also available through the State Procurement Web site. After the Proposal due date and before the award of the Contract, DAS will make scheduled changes through the RFP addendum process. DAS will make changes in the Project schedule after the Contract award through the change order provisions located in the general terms and conditions of the Contract. It is each prospective Offeror’s responsibility to check the Web site question and answer area for this RFP for current information regarding this RFP and its calendar of events through award of the Contract. No contact shall be made with agency/program staff until contract award is announced.

DATES:

Firm Dates
RFP Issued: June 11, 2020
Inquiry Period Begins: June 11, 2020
Inquiry Period Ends: July 1, 2020, at 8:00 a.m.
Proposal Due Date: July 8, 2020, by 1:00 p.m.

Estimated Dates
Contract Award Notification: TBD

NOTE: These dates are subject to change.

There are references in this RFP to the Proposal due date. Prospective Offerors must assume, unless it is clearly stated to the contrary, that any such reference means the date and time (Columbus, OH local time) that the Proposals are due.

Proposals received after 1:00 p.m. on the due date will not be evaluated.
PART TWO: STRUCTURE OF THIS RFP

ORGANIZATION. This RFP is organized into five (5) parts, nine (9) attachments and two (2) supplements. The parts and attachments are listed below.

PARTS:

Part One  Executive Summary  
Part Two  Structure of this RFP  
Part Three  General Instructions  
Part Four  Evaluation of Proposals  
Part Five  Award of the Contract  

ATTACHMENTS:

Attachment One  Work Requirements and Special Provisions  
  Part One  Work Requirements  
  Part Two  Special Provisions  
Attachment Two  Requirements for Proposals  
Attachment Three  General Terms and Conditions  
  Part One  Performance and Payment  
  Part Two  Work & Contract Administration  
  Part Three  Ownership & Handling of Intellectual Property & Confidential Information  
  Part Four  Representations, Warranties, and Liabilities  
  Part Five  Acceptance and Maintenance  
  Part Six  Construction  
  Part Seven  Law & Courts  
Attachment Four  Contract  
Attachment Five  Offeror Profile Summary  
  5-A  Offeror Profile Form  
  5-B  Offeror Prior Project Form  
  5-C  Offeror Prior Project Form  
  5-D  Offeror Prior Project Form  
Attachment Six  Offeror References  
Attachment Seven  Offeror's Candidate Summary  
  7-A  Offeror's Candidate References  
  7-B  Offeror's Candidate Education, Training, Licensure, and Certifications  
  7-C  Offeror's Candidate Experience  
Attachment Eight  Offeror Performance Form  
Attachment Nine  Cost Summary Form  

SUPPLEMENTS:

Supplement One  Ohio's Syndromic Surveillance Supplements Information  
Supplement Two  Supplement S Response – State Information Security and Privacy Requirements, State Data Handling Requirements  
Ohio Department of Health Data Sharing and Confidentiality Agreement
PART THREE: GENERAL INSTRUCTIONS

The following sections provide details on how to get more information about this RFP and how to respond to this RFP. All responses must be complete and in the prescribed format.

CONTACTS. The following person will represent DAS:

Kristen Howard  
Ohio Department of Administrative Services  
Office of Procurement Services  
4200 Surface Road  
Columbus, OH 43228-1395

During the performance of the Work, a State representative (the “Agency Project Representative”) will represent the Agency and be the primary contact for matters relating to the Work. The Agency Project Representative will be designated in writing after the Contract award.

INQUIRIES. Offerors may make inquiries regarding this RFP any time during the inquiry period listed in the Calendar of Events. To make an inquiry, Offerors must use the following process:

2. From the Quick Links Menu on the right, select “Bid Opportunities Search”.
3. In the “Document/Bid Number” field, enter the RFP number found on the first page of this RFP.
4. Click “Search” button.
5. On the Procurement Opportunity Search Results page, click the hyperlinked Document Number.
6. On the Procurement Opportunity Search Details page, click on the blue box with the words “Submit Inquiry”.
7. On the Opportunity Document Inquiry page, complete the required “Personal Information” section by providing:
   a. First and last name of the prospective Offeror’s representative who is responsible for the inquiry.
   b. Representative’s business phone number.
   c. Representative’s company name
   d. Representative’s e-mail address.
8. Type the inquiry in the space provided including:
   a. Reference the relevant part of this RFP.
   b. The heading for the provision under question.
   c. The page number of the RFP where the provision can be found.
9. Enter the Confirmation Number at the bottom of the page
10. Click the “Submit” button.

Offerors submitting inquiries will receive an immediate acknowledgement that their inquiry has been received as well as an e-mail acknowledging receipt of the inquiry. Offerors will not receive a personalized e-mail response to their question, nor will they receive notification when the question has been answered.

Offerors may view inquiries and responses using the following process:

2. From the “Quick Links” menu on the right, select “Bid Opportunities Search”.
3. In the “Document/Bid Number” field, enter the RFP number found on the first page of this RFP.
4. Click the “Search” button.
5. On the Procurement Opportunity Search Detail page, click on the blue box with the words “View Q and A”.
6. All inquiries with responses submitted to date are viewable.

DAS will try to respond to all inquiries within 48 hours of receipt, excluding weekends and State holidays. DAS will not respond to any inquiries received after 8:00 a.m. on the inquiry end date.

Offerors are to base their RFP responses, and the details and costs of their proposed projects, on the requirements and performance expectations established in this RFP for the future contract, not on details of any other potentially related contract or project. If Offerors ask questions about existing or past contracts using the Internet Q&A process, DAS will use its discretion in deciding whether to provide answers as part of this RFP process.

DAS is under no obligation to acknowledge questions submitted through the Q&A process if those questions are not in accordance with these instructions or deadlines.
PROTESTS. Any Offeror that objects to the award of a Contract resulting from the issuance of this RFP may file a protest of the award of the Contract, or any other matter relating to the process of soliciting the Proposals. Such protest must comply with the following information:

1. The protest must be filed by a prospective or actual offeror objecting to the award of a Contract resulting from the RFP. The protest must be in writing and contain the following information:
   a. The name, address, and telephone number of the protester;
   b. The name and number of the RFP being protested;
   c. A detailed statement of the legal and factual grounds for the protest, including copies of any relevant documents;
   d. A request for a ruling by DAS;
   e. A statement as to the form of relief requested from DAS; and
   f. Any other information the protester believes to be essential to the determination of the factual and legal questions at issue in the written request.

2. A timely protest will be considered by DAS, on behalf of the agency, if it is received by the DAS, Office of Procurement Services (OPS) within the following periods:
   a. A protest based on alleged improprieties in the issuance of the RFP, or any other event preceding the closing date for receipt of proposals which are apparent or should be apparent prior to the closing date for receipt of proposals, must be filed no later than five (5) business days prior to the proposal due date.
   b. If the protest relates to the recommendation of the evaluation committee for an award of the Contract, the protest must be filed as soon as practicable after the Offeror is notified of the decision by DAS regarding the Offeror’s proposal.

3. An untimely protest may be considered by DAS at the discretion of DAS. An untimely protest is one received by the DAS OPS after the time periods set in paragraph 2 above. In addition to the information listed in paragraph 1, untimely protests must include an explanation of why the protest was not made within the required time frame.

4. All protests must be filed at the following location:

   Department of Administrative Services
   Office of Procurement Services
   4200 Surface Road
   Columbus, OH 43228-1395

   SUBJECT: CSP901121 DOH058

This protest language only pertains to this RFP offering.

ADDENDA TO THE RFP. If DAS decides to revise this RFP before the Proposal due date, an addendum will be announced on the State Procurement Web site.

Offerors may view addenda using the following process:

2. From the “Quick Links menu on the right, select “Bid Opportunities Search”.
3. In the “Document/Bid Number” field, enter the RFP number found on the first page of this RFP.
4. Click the “Search” button.
5. On the Procurement Opportunity Search Results page, click the hyperlinked Document Number.
6. On the Procurement Opportunity Search Detail page, under “Associated PDF Files”, links to one or more Addendums, will be displayed. Click on the addenda hyperlink to view.

When an addendum to this RFP is necessary, DAS may extend the Proposal due date through an announcement on State Procurement Web site. It is the responsibility of each prospective Offeror to check for announcements and other current information regarding this RFP.

After the submission of Proposals, addenda will be distributed only to those Offerors whose submissions are under active consideration. When DAS issues an addendum to the RFP after Proposals have been submitted, DAS will permit Offerors to withdraw their Proposals.

This withdrawal option will allow any Offeror to remove its Proposal from active consideration should the Offeror feel that the addendum changes the nature of the transaction to the extent that the Offeror’s Proposal is no longer in its interests. Alternatively, DAS may allow Offerors that have Proposals under active consideration to modify their Proposals in response to the addendum, as described below.
Whenever DAS issues an addendum after the Proposal due date, DAS will tell all Offerors whose Proposals are under active consideration whether they have the option to modify their Proposals in response to the addendum. Any time DAS amends the RFP after the Proposal due date, an Offeror will have the option to withdraw its Proposal even if DAS permits modifications to the Proposals. If the Offerors are allowed to modify their Proposals, DAS may limit the nature and scope of the modifications. Unless otherwise stated in the notice by DAS, modifications and withdrawals must be made in writing and must be submitted within ten (10) business days after the addendum is issued. If this RFP provides for a negotiation phase, this procedure will not apply to changes negotiated during that phase. Withdrawals and modifications must be made in writing and submitted to DAS at the address and in the same manner required for the submission of the original Proposals. Any modification that is broader in scope than DAS has authorized may be rejected and treated as a withdrawal of the Offeror's Proposal.

**PROPOSAL SUBMITTAL.** Each Offeror must submit a Technical Proposal and a Cost Proposal as part of its Proposal package. Proposals must be submitted as two (2) separate components (Technical Proposal and Cost Proposal) in separate sealed envelopes/packages. Each Technical Proposal package must be clearly marked "CSP901121 RFP – Technical Proposal" on the outside of each Technical Proposal package's envelope. Each Cost Proposal package must be clearly marked “CSP901121 RFP – Cost Proposal” on the outside of each Cost Proposal package's envelope. Each Offeror must submit one (1) original, completed and signed in blue ink, and four (4) copies for a total of five (5) Proposal packages.

The Offeror must also submit, in the sealed package, a complete copy of the Proposals on CD-ROM in Microsoft Office (Word, Excel, or Project) 2003 or higher, format and/or PDF format as appropriate. In the event there is a discrepancy between the hard copy and the electronic copy, the hard copy will be the official Proposal. Proposals are due no later than the proposal due date, at 1:00 p.m. Proposals submitted by e-mail or fax are not acceptable and will not be considered.

If an Offeror includes in its proposal confidential, proprietary, or trade secret information, it must also submit a complete redacted version of its Technical Proposal in accordance with Confidential, Proprietary or Trade Secret Information that follows. Offerors shall only redact (black out) language that is exempt from disclosure pursuant to Ohio Public Records Act. Offerors must also submit an itemized list of each redaction with the corresponding statutory exemption from disclosure. The redacted version must be submitted as a paper copy as well as an electronic copy on CD ROM in a searchable PDF format. The redacted version, as submitted, will be available for inspection and released in response to public records requests. If a redacted version is not submitted, the original submission of the proposal will be provided in response to public records requests.

Proposals must be submitted to:

Department of Administrative Services  
Office of Procurement Services - Bid Desk  
4200 Surface Road  
Columbus, OH 43228-1395

DAS will reject any Proposals or unsolicited Proposal addenda that are received after the deadline. An Offeror that mails its Proposal must allow adequate mailing time to ensure its timely receipt. DAS recommends that Offerors submit proposals as early as possible. Proposals received prior to the deadline are stored, unopened, in a secured area until 1:00 p.m. on the due date. Offerors must also allow for potential delays due to increased security. DAS will reject late proposals regardless of the cause for the delay.

Each Offeror must carefully review the requirements of this RFP and the contents of its Proposal. Once opened, Proposals cannot be altered, except as allowed by this RFP.

By submitting a Proposal, the Offeror acknowledges that it has read this RFP, understands it, and agrees to be bound by its requirements. DAS is not responsible for the accuracy of any information regarding this RFP that was gathered through a source different from the inquiry process described in the RFP.

ORC Section 9.24 prohibits DAS from awarding a Contract to any Offeror(s) against whom the Auditor of State has issued a finding for recovery if the finding for recovery is “unresolved” at the time of award. By submitting a Proposal, the Offeror warrants that it is not now, and will not become subject to an “unresolved” finding for recovery under Section 9.24, prior to the award of a Contract arising out of this RFP, without notifying DAS of such finding. ORC Section 9.231 applies to this contract.

DAS may reject any Proposal if the Offeror takes exception to the terms and conditions of this RFP, fails to comply with the procedure for participating in the RFP process, or the Offeror's Proposal fails to meet any requirement of this RFP. Any question asked during the inquiry period will not be viewed as an exception to the Terms and Conditions.
CONFIDENTIAL, PROPRIETARY OR TRADE SECRET INFORMATION. DAS procures goods and services through an RFP in a transparent manner and in accordance with the laws of the State of Ohio. All proposals provided to DAS in response to this RFP become records of DAS and as such, will be open to inspection by the public after award unless exempt from disclosure under the Ohio Revised Code or another provision of law.

Unless specifically requested by the State, an Offeror should not voluntarily provide to DAS any information that the Offeror claims as confidential, proprietary or trade secret and exempt from disclosure under the Ohio Revised Code or another provision of law. Additionally, the Offeror must understand that all Proposals and other material submitted will become the property of the State and may be returned only at the State's option. Confidential, proprietary or trade secret information should not be voluntarily included in a Proposal or supporting materials because DAS will have the right to use any materials or ideas submitted in any Proposal without compensation to the Offeror.

However, if the State requests from the Offeror, or if the Offeror chooses to include, information it deems confidential, proprietary, or trade secret information, the Offeror may so designate such information as “CONFIDENTIAL” by redacting only that information that is exempt from disclosure under the Ohio Revised Code or another provision of law and must provide a list of the redactions stating the specific statutory exemption for each redaction. The Offeror must clearly designate the part of the proposal that contains confidential, proprietary or trade secret information in order to claim exemption from disclosure by submitting both an unredacted copy and a redacted copy of its proposal in both electronic and paper (hard) format. Both electronic and paper (hard) copies shall be clearly identified as either “ORIGINAL COPY” or “REDACTED COPY”. Failure to properly redact and clearly identify all copies will result in the State treating all information in the original proposal as a public record.

DAS may review the claimed confidential, proprietary or trade secret information to determine whether the redaction is proper. The decision as to whether such confidentiality is appropriate rests solely with DAS. If DAS determines that the information marked as confidential, trade secret, or proprietary does not meet a statutory exception to disclosure, DAS will inform the Offeror, in writing, of the information DAS does not consider confidential.

Upon receipt of DAS' determination that all or some portion of the Offeror’s designated information will not be treated as exempt from disclosure, the Offeror may exercise the following options:

1. Withdraw the Offeror’s entire Proposal (prior to award only);
2. Request that DAS evaluate the Proposal without the redacted information (prior to award only); or
3. Withdraw the designation of confidentiality, trade secret, or proprietary information for such information.

In submitting a proposal, each Offeror agrees that DAS may reveal confidential, proprietary and trade secret information contained in the proposal to DAS staff and to the staff of other state agencies, any outside consultant or other third parties who serve on an evaluation committee or who are assisting DAS in development of specifications or the evaluation of proposals. The State shall require said individuals to protect the confidentiality of any specifically identified confidential, proprietary or trade secret information obtained as a result of their participation in the evaluation.

Finally, if information submitted in the Proposal is not marked as confidential, proprietary or trade secret, it will be determined that the Offeror waived any right to assert such confidentiality and the entire Proposal shall be deemed a public record.

DAS will retain all Proposals, or a copy of them, as part of the Contract file for the required retention period. After the retention period, DAS may return, destroy, or otherwise dispose of the Proposals or the copies.

WAIVER OF DEFECTS. DAS may waive any defects in any Proposal or in the submission process followed by an Offeror. DAS will only do so if it believes that it is in the State’s interests and will not cause any material unfairness to other Offerors.

MULTIPLE OR ALTERNATE PROPOSALS. DAS accepts multiple Proposals from a single Offeror, but DAS requires each such Proposal be submitted separately from every other Proposal the Offeror makes. Additionally, the Offeror must treat every Proposal submitted as a separate and distinct submission and include in each Proposal all materials, information, documentation, and other items this RFP requires for a Proposal to be complete and acceptable. No alternate Proposal may incorporate materials by reference from another Proposal made by the Offeror or refer to another Proposal. DAS will judge each alternate Proposal on its own merit.

ADDENDA TO PROPOSALS. Addenda or withdrawals of Proposals will be allowed only if the addendum or withdrawal is received before the Proposal due date. No addenda or withdrawals will be permitted after the due date, except as authorized by this RFP.
PROPOSAL INSTRUCTIONS. Each Proposal must be organized in an indexed binder ordered in the same manner as the response items are ordered in Attachment Two of this RFP.

DAS wants clear and concise Proposals. Offerors should, however, take care to completely answer questions and meet the RFP’s requirements thoroughly. All Offerors, including current contract holders, if applicable, must provide detailed and complete responses as Proposal evaluations, and subsequent scores, are based solely on the content of the Proposal.

No assumptions will be made, or values assigned for the competency of the Offeror whether or not the Offeror is a current or previous contract holder.

The requirements for the Proposal’s contents and formatting are contained in an attachment to this RFP.

DAS will not be liable for any costs incurred by an Offeror in responding to this RFP, regardless of whether DAS awards the Contract through this process, decides not to go forward with the Project, cancels this RFP for any reason, or contracts for the Project through some other process or by issuing another RFP.
PART FOUR: EVALUATION OF PROPOSALS

EVALUATION OF PROPOSALS. The evaluation process consists of, but is not limited to, the following steps:

1. Certification. DAS shall open only those proposals certified as timely by the Auditor of State.

2. Initial Review. DAS will review all certified Proposals for format and completeness. DAS normally rejects any incomplete or incorrectly formatted Proposal, though it may waive any defects or allow an Offeror to submit a correction. If the Offeror meets the formatting and mandatory requirements listed herein, the State will continue to evaluate the proposal.

3. Proposal Evaluation. The DAS procurement representative responsible for this RFP will forward all timely, complete, and properly formatted Proposals to an evaluation committee, which the procurement representative will chair. The evaluation committee will rate the Proposals submitted in response to this RFP based on criteria and weight assigned to each criterion.

The evaluation committee will evaluate and numerically score each Proposal that the procurement representative has determined to be responsive to the requirements of this RFP. The evaluation will be according to the criteria contained in this Part of the RFP. An attachment to this RFP may further refine these criteria, and DAS has a right to break these criteria into components and weight any components of a criterion according to their perceived importance.

The evaluation committee may also have the Proposals or portions of them reviewed and evaluated by independent third parties or various State personnel with technical or professional experience that relates to the Work or to a criterion in the evaluation process. The evaluation committee may also seek reviews of end users of the Work or the advice or evaluations of various State committees that have subject matter expertise or an interest in the Work. In seeking such reviews, evaluations, and advice, the evaluation committee will first decide how to incorporate the results in the scoring of the Proposals. The evaluation committee may adopt or reject any recommendations it receives from such reviews and evaluations.

The evaluation will result in a point total being calculated for each Proposal. At the sole discretion of DAS, any Proposal, in which the Offeror received a significant number of zeros for sections in the technical portions of the evaluation, may be rejected.

DAS will document all major decisions in writing and make these a part of the Contract file along with the evaluation results for each Proposal considered.

4. Clarifications & Corrections. During the evaluation process, DAS may request clarifications from any Offeror under active consideration and may give any Offeror the opportunity to correct defects in its Proposal if DAS believes doing so does not result in an unfair advantage for the Offeror and it is in the State’s best interests. Any clarification response that is broader in scope than what DAS has requested may result in the Offeror's proposal being disqualified.

5. Interviews, Demonstrations, and Presentations. DAS may require top Offerors to be interviewed. Such presentations, demonstrations, and interviews will provide an Offeror with an opportunity to clarify its Proposal and to ensure a mutual understanding of the Proposal's content. This will also allow DAS an opportunity to test or probe the professionalism, qualifications, skills, and work knowledge of the proposed candidates. The presentations, demonstrations, and interviews will be scheduled at the convenience and discretion of DAS. DAS may record any presentations, demonstrations, and interviews. No more than the top three (3) Proposals may be requested to present an oral presentation of their proposed Work Plan to the evaluation committee.

6. Contract Negotiations. Negotiations will be scheduled at the convenience of DAS. The selected Offeror(s) are expected to negotiate in good faith.

a. General. Negotiations may be conducted with any Offeror who submits a competitive Proposal, but DAS may limit discussions to specific aspects of the RFP. Any clarifications, corrections, or negotiated revisions that may occur during the negotiations phase will be reduced to writing and incorporated in the RFP, or the Offeror’s Proposal, as appropriate. Negotiated changes that are reduced to writing will become a part of the Contract file open to inspection to the public upon award of the Contract. Any Offeror whose response continues to be competitive will be accorded fair and equal treatment with respect to any clarification, correction, or revision of the RFP and will be given the opportunity to negotiate revisions to its Proposal based on the amended RFP.

b. Top-ranked Offeror. Should the evaluation process have resulted in a top-ranked Proposal, DAS may limit negotiations to only that Offeror and not hold negotiations with any lower-ranking Offeror. If negotiations are unsuccessful with the top-ranked Offeror, DAS may then go down the line of remaining Offerors, according to
rank, and negotiate with the next highest-ranking Offeror. Lower-ranking Offerors do not have a right to participate in negotiations conducted in such a manner.

c. **Negotiation with Other Offerors.** If DAS decides to negotiate with all the remaining Offerors or decides that negotiations with the top-ranked Offeror are not satisfactory and negotiates with one or more of the lower-ranking Offerors, DAS will then determine if an adjustment in the ranking of the remaining Offerors is appropriate based on the negotiations. The Contract award, if any, will then be based on the final ranking of Offerors, as adjusted.

Negotiation techniques that reveal one Offeror's price to another or disclose any other material information derived from competing Proposals are prohibited. Any oral modification of a Proposal will be reduced to writing by the Offeror as described below.

d. **Post Negotiation.** Following negotiations, DAS may set a date and time for the submission of best and final Proposals by the remaining Offeror(s) with which DAS conducted negotiations. If negotiations were limited and all changes were reduced to signed writings during negotiations, DAS need not require the submissions of best and final Proposals.

It is entirely within the discretion of DAS whether to permit negotiations. An Offeror must not submit a Proposal assuming that there will be an opportunity to negotiate any aspect of the Proposal. DAS is free to limit negotiations to particular aspects of any Proposal, to limit the Offerors with whom DAS wants to negotiate, and to dispense with negotiations entirely.

DAS generally will not rank negotiations. The negotiations will normally be held to correct deficiencies in the preferred Offeror's Proposal. If negotiations fail with the preferred Offeror, DAS may negotiate with the next Offeror in ranking. Alternatively, DAS may decide that it is in the interests of the State to negotiate with all the remaining Offerors to determine if negotiations lead to an adjustment in the ranking of the remaining Offerors.

From the opening of the Proposals to the award of the Contract, everyone working on behalf of the State to evaluate the Proposals will seek to limit access to information contained in the Proposals solely to those people with a need to know the information. They will also seek to keep this information away from other Offerors, and the evaluation committee will not be allowed to tell one Offeror about the contents of another Offeror's Proposal in order to gain a negotiating advantage.

Before the award of the Contract or cancellation of the RFP, any Offeror that seeks to gain access to the contents of another Offeror's Proposal may be disqualified from further consideration.

The written changes will be drafted and signed by the Offeror and submitted to DAS within a reasonable period of time. If DAS accepts the change, DAS will give the Offeror written notice of DAS' acceptance. The negotiated changes to the successful offer will become a part of the Contract.

e. **Failure to Negotiate.** If an Offeror fails to provide the necessary information for negotiations in a timely manner, or fails to negotiate in good faith, DAS may terminate negotiations with that Offeror and collect on the Offeror's proposal bond, if a proposal bond was required in order to respond to this RFP.

7. **Best and Final Offer.** If best and final proposals, or best and final offers (BAFOs), are required, they may be submitted only once; unless DAS makes a determination that it is in the State's interest to conduct additional negotiations. In such cases, DAS may require another submission of best and final proposals. Otherwise, discussion of or changes in the best and final proposals will not be allowed. If an Offeror does not submit a best and final proposal, the Offeror's previous Proposal will be considered the Offeror's best and final proposal.

8. **Determination of Responsibility.** DAS may review the highest-ranking Offerors or its key team members to ensure that the Offeror is responsible. The Contract may not be awarded to an Offeror that is determined not to be responsible. DAS' determination of an Offeror's responsibility may include the following factors: the experience of the Offeror and its key team members; past conduct and past performance on previous contracts; ability to execute this contract properly; and management skill. DAS will make such determination of responsibility based on the Offeror's Proposal, reference evaluations, and any other information DAS requests or determines to be relevant.

9. **Reference Checks.** DAS may conduct reference checks to verify and validate the Offeror's or proposed candidate's past performance. Reference checks indicating poor or failed performance by the Offeror or proposed candidate may be cause for rejection of the proposal. In addition, failure to provide requested reference contact information may result in DAS not including the referenced experience in the evaluation process.

The reference evaluation will measure the criteria contained in this part of the RFP as it relates to the Offeror's previous contract performance including, but not limited to, its performance with other local, state, and federal entities. DAS reserves the right to check references other than those provided in the Offeror's Proposal. DAS may
obtain information relevant to criteria in this part of the RFP, which is deemed critical to not only the successful operation and management of the Project, but also the working relationship between the State and the Offeror.

10. **Financial Ability.** Part of the Proposal evaluation criteria is the qualifications of the Offeror which may include, as a component, the Offeror’s financial ability to perform the Contract. This RFP may expressly require the submission of financial statements from all Offerors in the Proposal contents attachment. If the Proposal contents attachment does not make this an expressed requirement, the State may still request that an Offeror submit audited financial statements for up to the past three (3) years if the State is concerned that an Offeror may not have the financial ability to carry out the Contract.

In evaluating an Offeror’s financial ability, if requested, the State will review the documentation provided by the Offeror to determine if the Offeror's financial position is adequate or inadequate. If the State believes the Offeror's financial ability is not adequate, the State may reject the Proposal despite its other merits.

DAS will decide which phases are necessary. DAS has the right to eliminate or add phases at any time in the evaluation process.

To maintain fairness in the evaluation process, all information sought by DAS will be obtained in a manner such that no Offeror is provided an unfair competitive advantage.

**MANDATORY REQUIREMENTS.** The following Table 1 contains items that are considered minimum requirements for this RFP.

Determining the Offeror’s ability to meet the minimum requirements is the first step of the DAS evaluation process. The Offeror must demonstrate, to DAS, it meets all minimum requirements listed in the Mandatory Requirements section (Table 1). The Offeror's response to the minimum requirements must be clearly labeled “Mandatory Requirements” and collectively contained in Tab 1 of the Offeror’s Proposal in the “Cover Letter and Mandatory Requirements” section. (Refer to Attachment Two of the RFP document for additional instructions.)

DAS will evaluate Tab 1, alone, to determine whether the Proposal meets all Mandatory Requirements. If the information contained in Tab 1 does not clearly meet every Mandatory Requirement, the Proposal may be disqualified by DAS and DAS may not evaluate any other portion of the Proposal.

**TABLE 1 - MANDATORY PROPOSAL REQUIREMENTS**

<table>
<thead>
<tr>
<th>Mandatory Requirements</th>
<th>No Mandatory Requirements</th>
</tr>
</thead>
</table>

If the State receives no Proposals meeting all of the Mandatory Requirements, the State may elect to cancel this RFP.

**PROPOSAL EVALUATION CRITERIA.** If the Offeror provides sufficient information to DAS, in Tab 1, of its proposal, demonstrating it meets the Mandatory Requirements, the Offeror’s Proposal will be included in the next part of the evaluation process which involves the scoring of the Proposal Technical Requirements, followed by the scoring of the Cost Proposals. In the Proposal evaluation phase, the evaluation committee rates the Proposals submitted in response to this RFP based on the following listed criteria and the weight assigned to each criterion. The maximum available points allowed in this RFP are distributed as indicated in Table 2 - Scoring Breakdown.
DAS will apply the Veterans Friendly Business Enterprise preference as required by ORC 9.318 and OAC 123:5-1-16.

The scale below (0-5) will be used to rate each proposal on the criteria listed in the Technical Proposal Evaluation table.

<table>
<thead>
<tr>
<th>Criteria</th>
<th>Maximum Available Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Proposal Technical Requirements</td>
<td>1175 Points</td>
</tr>
<tr>
<td>Proposal Cost</td>
<td>503 Points</td>
</tr>
<tr>
<td>Maximum Available Points</td>
<td>1678 Points</td>
</tr>
</tbody>
</table>

DAS will score the Proposals by multiplying the score received in each category by its assigned weight and adding all categories together for the Offeror's Total Technical Score in Table 3. Representative numerical values are defined as follows:

**DOES NOT MEET (0 pts.):** Response does not comply substantially with requirements or is not provided.

**WEAK (1 pt.):** Response was poor related to meeting the objectives.

**WEAK TO MEETS (2 pts.):** Response indicates the objectives will not be completely met or at a level that will be below average.

**MEETS (3 pts.):** Response generally meets the objectives (or expectations).

**MEETS TO STRONG (4 pts.):** Response indicates the objectives will be exceeded.

**STRONG (5 pts.):** Response significantly exceeds objectives (or expectations) in ways that provide tangible benefits or meets objectives (or expectations) and contains at least one enhancing feature that provides significant benefits.

Total Technical Score: ______________

In this RFP, DAS asks for responses and submissions from Offerors, most of which represent components of the above criteria. While each criterion represents only a part of the total basis for a decision to award the Contract to an Offeror, a failure by an Offeror to make a required submission or meet a mandatory requirement will normally result in a rejection of that Offeror’s Proposal. The value assigned above to each criterion is only a value used to determine which Proposal is the most advantageous to the State in relation to the other Proposals that DAS received.

Once the technical merits of a Proposal are evaluated, the costs of that Proposal will be considered. It is within DAS’ discretion to wait to factor in a Proposal’s cost until after any interviews, presentations, demonstrations or discussions. Also, before evaluating the technical merits of the Proposals, DAS may do an initial review of costs to determine if any Proposals should be rejected because of excessive cost. DAS may reconsider the excessiveness of any Proposal’s cost at any time in the evaluation process.
COST PROPOSAL POINTS. DAS will calculate the Offeror's Cost Proposal points after the Offeror's total technical points are determined, using the following method:

Cost points = (lowest Offeror's cost/Offeror's cost) x Maximum Available Cost Points as indicated in the “Scoring Breakdown” table. The value is provided in the Scoring Breakdown table. “Cost” = Total Cost identified in the Cost Summary section of Offeror Proposals. In this method, the lowest cost proposed will receive the Maximum Available Cost Points.

The number of points assigned to the cost evaluation will be prorated, with the lowest accepted cost proposal given the maximum available points possible for this criterion. Other acceptable cost proposals will be scored as the ratio of the lowest price proposal to the proposal being scored, multiplied by the maximum available points possible for this criterion.

An example for calculating cost points, where Maximum Available Cost Points Value = 60 points, is the scenario where Offeror X has proposed a cost of $100.00. Offeror Y has proposed a cost of $110.00 and Offeror Z has proposed a cost of $120.00. Offeror X, having the lowest cost, would get the maximum available 60 cost points. Offeror Y’s cost points would be calculated as $100.00 (Offeror X’s cost) divided by $110.00 (Offeror Y’s cost) equals 0.909 times 60 maximum points, or a total of 54.5 points. Offeror Z’s cost points would be calculated as $100.00 (Offeror X’s cost) divided by $120.00 (Offeror Z’s cost) equals 0.833 times 60 maximum available points, or a total of 50 points.

Cost Score: ____________________

FINAL STAGES OF EVALUATION. The Offeror with the highest point total from all phases of the evaluation (Technical Points + Cost Points) will be recommended for the next phase of the evaluation.

Technical Score: ________ + Cost Score: ________ = Total Score: ________________

If DAS finds that one or more Proposals should be given further consideration, DAS may select one or more of the highest-ranking Proposals to move to the next phase. DAS may alternatively choose to bypass any or all subsequent phases and make an award based solely on the proposal evaluation phase.

REJECTION OF PROPOSALS. DAS may reject any Proposal that is not in the required format, does not address all the requirements of this RFP, or that DAS believes is excessive in price or otherwise not in its interests to consider or to accept. In addition, DAS may cancel this RFP, reject all the Proposals, and seek to do the Project through a new RFP or by other means.

DISCLOSURE OF PROPOSAL CONTENTS. DAS will seek to open the Proposals in a manner that avoids disclosing their contents. Additionally, DAS will seek to keep the contents of all Proposals confidential until the Contract is awarded. DAS will prepare a registry of Proposals containing the name and address of each Offeror. That registry will be open for public inspection after the Proposals are opened.
PART FIVE: AWARD OF THE CONTRACT

CONTRACT AWARD. DAS plans to award the Contract based on the schedule in the RFP, if DAS decides the Project is in the best interests of the State and has not changed the award date.

The signature page for the Contract is included as Attachment Four of this RFP. In order for an Offeror's Proposal to remain under active consideration, the Offeror must sign, the two (2) copies enclosed, in blue ink and return the signed Contracts to DAS with its response. Submittal of a signed Contract does not imply that an Offeror will be awarded the Contract. In awarding the Contract, DAS will issue an award letter to the selected Contractor. The Contract will not be binding on DAS until the duly authorized representative of DAS signs both copies and returns one (1) to the Contractor, the Agency issues a purchase order, and all other prerequisites identified in the Contract have occurred.

DAS expects the Contractor to commence work upon receipt of a state issued purchase order. If DAS awards a Contract pursuant to this RFP and the Contractor is unable or unwilling to commence the work, DAS reserves the right to cancel the Contract and return to the original RFP process and evaluate any remaining Offeror Proposals reasonably susceptible of being selected for award of the Contract. The evaluation process will resume with the next highest ranking, viable Proposal.

CONTRACT. If this RFP results in a Contract award, the Contract will consist of this RFP including all attachments, written addenda to this RFP, the Contractor’s accepted Proposal and written authorized addenda to the Contractor’s Proposal. It will also include any materials incorporated by reference in the above documents and any purchase orders and change orders issued under the Contract. The general terms and conditions for the Contract are contained in Attachment Three of this RFP. If there are conflicting provisions between the documents that make up the Contract, the order of precedence for the documents is as follows:

1. This RFP, as amended;
2. The documents and materials incorporated by reference in the RFP;
3. The Offeror's proposal, as amended, clarified, and accepted by DAS; and

Notwithstanding the order listed above, change orders and amendments issued after the Contract is executed may expressly change the provisions of the Contract. If they do so expressly, then the most recent of them will take precedence over anything else that is part of the Contract.
ATTACHMENT ONE: WORK REQUIREMENTS AND SPECIAL PROVISIONS

PART ONE: WORK REQUIREMENTS

This attachment describes the Project and what the Contractor must do to complete the Project satisfactorily. It also describes what the Offeror must deliver as part of the completed Project (the “Deliverables”), and it gives a detailed description of the Project’s schedule.

SCOPE OF WORK AND DELIVERABLES. In order to attain the objectives as outlined previously, the following minimum tasks will be accomplished by the Contractor.

II. Definitions:

Submitters: Provides data to the Ohio Syndromic Surveillance Program to incorporate into the Offeror’s syndromic surveillance system (System). Submitters include, but are not limited to hospitals, urgent care centers, outpatient practices, the Ohio Department of Health (disease reporting data), the national poison data system (poison control calls), Assistant Secretary for Preparedness and Response (ASPR) locations, adjacent states, and Health Information Exchanges (HIEs).

System: The Offeror’s syndromic surveillance system

III. System Requirements:

A. Operational by September 1, 2020 with the following requirements:

1. Capability of receiving various files or message types over a secure network connection in near real-time and process to a secure user interface from Submitters. The requirements include:

   a) Accept and process the admit, discharge, and transfer (ADT) messages in all currently used HL7 formats (e.g. 2.2, 2.3.1, 2.5.1) and file types HL7. The Offeror must have the ability to receive all the following message types and associated data elements (Supplement A): ADT^A01^ADT_A01, ADT^A04^ADT_A01, ADT^A08^ADT_A01, and ADT^A03^ADT_A03. Capturing other message types may be necessary to obtain data elements (e.g. discharge diagnosis codes on patients moved to the inpatient setting, merging of facility system records).

   b) Capture, maintain, update, and expand current field, component, and subcomponent requirements as found in OSSTS in the Supplement One of this RFP (current version online). ODH will provide updates to the Offeror as new versions are approved.

   c) Accept and process data files (.CSV, .XLS, .XLSX, .DBF, .TXT, and other file types) from other sources, such as Ohio’s infectious disease reporting system, Assistant Secretary for Preparedness and Response (ASPR) locations, Poison Control data, or other Submitters.
d) Accept and process unusual formatting or resolve CEHRT formatting and reporting issues intermittently until time permits for additional parallel testing within the first year of this contract.
e) Retain original files from the Submitter and map data fields to appropriate matching fields in the Offeror's system or create new fields and/or tables, and make data available for download, visualization, and review of the submitted data in the Offeror's System. ODHSSP reserves the right to permit exceptions for the Offeror.

B. Extract from the message types described in section III.A.1 (and subsections) and make available in the Offeror's secure, web-based user interface for visual inspection and download per Supplement B. The Offeror will aggregate and update the patient visit information and update the record based on the appropriate times and dates of the message updates. The patient stated chief complaint field and admit reason(s) subcomponents will not be updated unless the content was submitted incorrectly, or the data provided is a pre-registration without information (e.g. “SQUAD”). It would be beneficial to see the visit information in a consistent order across all facilities in the Offeror’s user interface and downloads. It may be best to arrange fields in the user interface in a chronological order (newest to oldest). It is important for the Offeror to know the workflow of the patients through the Submitter’s CEHRT product and be able to relay this information to public health to assist with appropriate classifier development. The Offeror will work with the Submitter and ODH on the best solutions to:

1. Consolidate or create a new patient record for patients who are readmitted within 24 hours for the same or different admit reason.
2. how the Submitter will or will not update previous visit information on patients that present again to their hospital
3. exclusion or overwrite of incorrect pre-registration data
4. denote patient transfers and capture discharge information
5. merge Submitter records (e.g. duplicate visits in the Offeror’s System)

C. Obtain real-time data from the NPDS Link Web Service and other secure web services to provide analytic time-series figures with algorithm overlays, temporal-spatial mapping, and seasonal forecasting tools for System users in the interface. The data source(s) and applications are due to change during calendar year 2020 for both of Ohio’s Poison Control Centers. Coordination and testing with these Centers to continue availability of the data is required. An API may be available in the centers’ new system(s). The Offeror’s System will need to be updated regularly with changes to their System(s) not limited to any of the data elements listed below or classifier definitions. The ODHSSP or the Poison Control Centers vendor will supply updated information to the Offeror. The Offeror will also seek information directly from centers’ software vendor. Data will be selected on human species (or null) and allow users to select matching criteria based on:

1. Start date and end date (or duration) and include time
2. Residential zip code
3. Residential county
4. Patient’s Age
5. Patient’s administrative sex (gender in NPDS)
6. Call Type
7. Caller Site, including Call Site code labels
8. Route of substance exposure
9. Clinical effects
10. Substance (generic and product codes and labels, e.g. “Ibuprofen” and “Advil”)
11. Therapies
12. Exposure site
13. Scenario
14. or other fields in their new system, as appropriate for public health (per the ORC or OAC).

D. Receive reportable disease data from Ohio’s infectious disease reporting systems in near-real time, provide analytic time-series figures with algorithm overlays, temporal-spatial mapping, and seasonal forecasting tools for System users. The Offeror will also use this data to send Class A notifications to the appropriate local health department System users. The Ohio infectious disease reporting system is slated for a system change in October 2020. The Offeror may need to update values or fields captured with the new CDC compliant system or deactivate select components as needed (e.g. Class A notifications). Current filterable fields for analysis will include:

1. Reportable condition
2. Reportable condition code
3. ODRS Case ID
4. Race
5. Ethnicity
6. Jurisdiction
7. Zip code
8. Age at event
9. Sex
10. Send to CDC
11. Classification Status
12. Event date
13. Onset date
14. Report date
15. Diagnosing facility
16. Diagnosing county
17. Outbreak ID
18. Outbreak title
19. Count date (for tuberculosis cases)

New System values and changes to record processing will be provided to the Offeror for planning and implementation when the information becomes available.

E. Provide a means for System user(s) to download all data fields, components, and subcomponents (section III.B., III.C., III.D., and subsections). Provide querying or filtering for the downloads to allow for easy specific selection of the data desired. Provide multiple options for download of data by end System user (e.g. figures, tables, line lists, raw HL7 message(s), summary reports, data quality reports, ASPR submission data sets).

F. Aggregate patient records to the visit level and update as additional information becomes available as the main record for review (section III.B. and subsections). For each record, create additional views including:

1. Longitudinal patient information (patient visit records in chronological order), including at the same facility or healthcare system.
2. Cross-sectional visit (data table of the messages of the patient visit).
3. Option to roll-up of same day visits of matching patient identifiers at the same facility or same healthcare system, including transfers.

G. Complete spatial-temporal analysis utilizing accepted statistical models and time-series algorithms such as cumulative sums, recursive least squares, Poisson, exponential moving average, and moving average to detect aberrant clusters of incidences at the state, county, and zip code levels. The Offeror will permit System users to modify options for each time-series algorithm (e.g. alphas, betas, duration of moving average).

H. Provide analysis results and reporting in graphical and cartographic format via secure web portal that can be accessed by users from any personal computer and hand-held device with an internet connection.

I. Maintain security of data and System access in a manner consistent with current IT industry standards for protected health information and provide complete copies of datasets in a format consistent with more common database architecture (e.g. SQL) when and as directed by ODH.

J. Maintain the original files from the Submitters.

K. Provide security information for data access by System User(s) as defined by applicable laws (e.g. Ohio Revised Code, 1347.15 “Access rules for confidential personal information” http://codes.ohio.gov/orc/1347.15). Upgrade Offeror’s System to meet or exceed federal and state requirements provided from ODH (e.g. general counsel, Ohio Information Technology).

L. Provide functionality in the user interface to assist in managing and classifying alerts of potential health events (statistical anomalies). Provide:

1. Two-month line chart with expected, threshold, and observed lines for the algorithm used.
2. Two-month trendline from a year prior, centered around one year from the date and time of the anomaly; include the expected, threshold, and observed lines; Allow the year prior display to be toggled on or off as a layer.
   a) Additional testing on the distribution of groups (chi-squared or Fisher’s exact tests (cell specific size appropriate, see subsections below) on age groups, administrative sex, facilities, race, ethnicity, zip codes (if a county alert), city (if a county alert) or county (if a statewide alert) based upon visits for the classifier one week prior or the first week without the day being a federal holiday, unless the anomaly is on a holiday. Apply the appropriate degrees of freedom for the statistics; Do not provide chi squared analyses for a distribution frequency table when in the table (1.) no cell in the table has an expected count less than 1 and (2.) no more than 20% of the cells should have an expected count less than 5. If cells are less than 5, use a Fisher’s exact test.
3. Annual review data
4. Description or summary of the alert’s statistics.
5. Map to show the impacted location and surrounding area.

M. Accept and update data in fields that are corrected by the Submitter. Note: “Corrected data” replaces information that was originally entered incorrectly or is a placeholder value for the information that will be obtained later. “Corrected data” is not continual updates of information as new diagnostic test results are obtained, leading to a refined data element that is reported elsewhere. For example, a patient stated chief complaint of “chest pain” will not be updated to “heartburn” when an EKG and laboratory results return negative, but the “GI cocktail” resolved the pain.

N. Provide the ability to adjust weighted values of the tokens (words in Natural Language Processing) in a classifier.

O. Provide an environment for testing of an upcoming production release by ODH specified users (see section IV.BB)

IV. Service Requirements:

A. Implementation:

1. Have the System established by August 1, 2020.
2. Migrate data from the previous Offeror or data files from ODH to the Offeror’s System.
   a) Data from the previous Offeror may need to be moved to other fields than placed by the Submitter.
   b) Data may need to be moved to other locations after discussions with the Submitter of where the data was captured from
3. Provide trainings of the System on Monday, August 24, 2020, Wednesday, August 26, 2020, and Friday, August 28, 2020 beginning no earlier than 9 AM ET. Record the second or third training and provide it as an available video for System users for the year.
   a) Prepare with ODHSSP and OHVIPS in advance of the presentation. Discussion may be desired by ODHSSP and OHVIPS.
   b) If slides for the training are needed, provide slides to ODHSSP for an internal ODH review 3 weeks prior (August 3, 2020) to the first training.
   c) Present a live demo experience of the Offeror’s System (with fake or highly scrambled data with the removal of any private health information from fields).
   d) If slides for the training are needed, provide slides to ODHSSP for an internal ODH review 3 weeks prior (August 3, 2020) to the first training.

B. The Offeror will not be the primary point of contact of Submitters. The communications need to be routed through ODHSSP to assure information is current in the Ohio Public Health Reporting web application (https://www.ohiopublichealthreporting.info). If a Submitter directly contacts the Offeror, the specified contacts at ODHSSP will be provided by the Offeror to the Submitter.

C. The Offeror will provide Onboarding Services:

1. ODH will review and select facilities (Submitters) to onboard to the Offeror’s system. These are facilities that have not tested against the OSSTS, (Supplement A) or are changing out their CEHRT system and need to go through testing.
2. Onboarding will be conducted in a testing environment of the Offeror’s System until the OSSTS is met by the Submitter. When meeting the requirements, a date and time will be picked for switching to production between the Offeror and Submitter. The Offeror will notify ODH on the same day of the move to the production environment of the Offeror’s System to permit updates to the Submitter’s status of federal incentives.
3. The timing of Onboarding facilities will be determined based on availability of ODH funding.
4. Onboarding status updates of Submitters will be provided at a minimum of monthly to ODH. Moving a facility through the onboarding process with at least weekly testing communications with the Submitter and ODH keeps Submitters in “active engagement”, per Centers for Medicare and Medicaid Services (CMS) Federal Final Rules.
5. If a facility cannot meet an OSSTS requirement, it will be the decision of ODH as to whether to move the facility into production.
6. Exceptions to OSSTS requirements are only permitted by ODH. If the Submitter has a reasonable request, ODH will review it. Exceptions do not transcend to all Submitters or those with matching vendor products or versions. Submitters that request exceptions will be requested to test again if any changes are made including patches to update software.
7. The Offeror will try to resolve any minor post-production changes that do not meet OSSTS with the Submitter quickly after moving to production. If the issue is not resolved within one hour of moving to production, the Submitter will be required to return to the previous production feed and resume testing once a fix is in place.
8. The Offeror will not provide information contradicting OSSTS to Submitters or make offers to Submitters. The Offeror will not contact potential Submitters or the CEHRT vendors with offers.
D. The Offeror will provide Testing Services:

1. Testing is necessary when a Submitter is upgrading their CEHRT system.
2. Parallel testing will be conducted until the OSSTS requirements are met by Submitter. One production data feed from the Submitter will go to the Offeror's production environment (System) while the production data feed to test will be submitted to the Offeror's test environment.
3. Testing is needed by Submitters for changes of secure files transfers or pathway changes (e.g. changes of routing through an HIE to the Offeror versus directly to the Offeror). Submitters will do this in parallel with their production feed too (no downtime).

E. The Offeror will expedite resolution for Submitter downtime events and post-production testing:

1. The Offeror is responsible for identifying downtime events and working with the Submitter to return the feed to production.
2. The Offeror must monitor the Submitters compliance with OSSTS. Any Submitter not meeting the OSSTS must go through parallel testing to get back into OSSTS compliance.

F. Production corrections from Submitters:

1. Upon ODH request the Offeror must be able to remove messages that were submitted in error from the Submitter's production environment. If the Offeror is requested to remove records by the Submitter, the Offeror will still need to consult with ODH for permission.
2. Accept and process unusual formatting or resolve CEHRT formatting reporting issues to ODHSSP and the Submitter each month until issue is fixed and moved to production.

G. Establish and maintain data feeds to include current and any new Submitters. Submissions to the Offeror will need to be reviewed and approved by ODH.

1. Ohio’s two Poison Control Centers are due to transition to a new system this calendar year and will offer other options for data analysis or data collection, such as an Application Programming Interface (API) for data acquisition.
2. ODH will transition to a new disease reporting system; the estimated transition date is October 2020. The Offeror will work with ODH and Conduent when this transition is set to take place to allow for a clean transition of disease reporting system data.

H. Provide consultative support for healthcare facility, data submitters, and HIE information technology personnel during establishment of a VPN link, SFTP connection, or other standardly available secure file transfer methodology.

I. Provide System consultation with IT staff at participating healthcare facilities, HIEs, or Offeror’s System interface users.

J. Provide technical expertise to the Submitters to ensure compliance with Ohio’s current syndromic surveillance technical specifications (Supplement A or newer version).

K. Onboard current users and activate, deactivate, and/or modify accounts throughout the term contract period(s).

L. Provide ODH administrative users access to all messages and files (raw test, staging, production, and other environments) from Submitters.

M. The Offeror will provide records to NSSP at regular intervals as prescribed by NSSP and ODH. The Offeror will create batched HL7 messages using ODH prescribed cleaned data values from Submitter data.

1. Some local codes sent from Submitters have not changed to 2015 Edition HIT standards (e.g. sending on legacy feed due to timeliness concerns, sending additional information that would otherwise be blank). These values should be mapped to the best corresponding value prior to being sent to NSSP and approved by ODH.
2. Incorporate and keep current a list of Submitter contacts to be utilized in reporting downtime events and contacting with data concerns. Allow ODH administrators and Offeror staff to update with timely contact information. Provide active/inactive dates for contacts.

N. Provide, support enhanced development, and regularly update a customized area in the user interface for user defined dashboards of information (e.g. figures, tables, and maps) and a separate ad hoc query area with user selected filtering or layering (as appropriate). Allow for dashboards and ad hoc queries to be saved and refreshed at a later point in time or shared to other users. Include means of analytics (e.g. time-series algorithms, standard deviation options, confidence intervals, Fisher’s exact test, chi-squared, t-tests). Include seasonal analysis (week, year) and appropriate considerations for holidays. Access to individual records will be available to users with an
appropriate level of access. The Offeror will use the following data sources and elements for filters in the customized area (Supplement C).

O. Provide, support enhanced development, and regularly update a temporal-spatial analysis area, including a map with layered data sets of information available (Supplement C). Raster data of all facilities will be included. Geo-political boundaries (state, county, city, local health districts) and zip code outlines of shapes will be included. Analysis will provide heat map or other appropriate analytics to be conducted by the end user. Clustering/hot spots will provide statistical information and line listing for review. Filtering mentioned with each data set layer (e.g. healthcare facility, other state/commonwealth with data sharing agreements, Poison Control Center, and Ohio infectious disease reporting system(s)) will also be available to users with an appropriate level of access.

P. Display and update dashboards and standardized reports for all System users (as needed) from the Opioid-related, Suicide-related Prevention, and Infectious Disease requirements (Supplements E, F, G, and H).

Q. Provide access to the secure web user interface (Offeror’s System) for an unlimited number of users. Allow for contact information changes for individual System users, changes of notifications, and changes to geographical areas covered, among other user updates.
1. Provide access to System who have a signed and approved data user agreement approved by ODH SSP administrator or designated proxy.
2. Notify ODH within one business day of bounced/declined notifications for email recipients to assure access is turned off when users leave a position that needs access. Do not share short-term (less than 2 weeks) out of office message replies.

R. Incorporate and maintain an up-to-date contact list of all Submitters and their staff. Contacts will receive notification of downtime events and will be contacted regarding data concerns. The contact list must include name, position, organization, telephone number, and email address. Allow ODH administrators and Offeror to update contact information. Provide active/inactive dates for contacts.

S. Classifiers will be reviewed by the Offeror at least annually and updated when needed by public health to identify public health events. Analysis will be used to determine utility of classifiers and determine necessary updates. Note that each classification should have multiple classifiers. The Offeror will need to demonstrate the changes made and how they have improved each classifier. ODH will request and receive changes to classifiers at any time.

1. Infectious disease classifiers (Supplement G).
2. Opioid-Related Classifiers (Supplement E and H)
3. Suicide-Related Classifiers (Supplement F)
4. National classifiers as they become available (Supplements E, F, G, and H)
5. Attendance at mass gathering or other surveillance events.
6. Diagnosis classifiers
7. ODH Custom Classifiers

T. Develop and support enhancements of email notifications to appropriate end users (state, local health department users) on above threshold anomalies.

1. Data from emergency department and urgent care center visits will be the data applied to selected classifiers. Thresholds and classifiers will be reviewed by the Offeror with ODH and recommendations for alerting levels will be made before the system goes live with any classifier (including Supplements E, F, G, and H). Implementation of notifications will be made by the Offeror and ODH will have access to review any user’s account settings. Delivery will be made to appropriate health department (local, state) System user(s).
2. Development and testing with ODH will be necessary to assure proper notification reporting of Class A Reportable Conditions. Notification of Class A reportable conditions will be sent to authorized staff at ODH and the health department of jurisdiction included in the data file sent from ODH to the Offeror. Each notification shall include:  
   a) Reportable condition
   b) ODRS Case ID
   c) Jurisdiction

U. Prior to going live and quarterly thereafter, the Offeror will provide the following information to ODHSSP:

1. classifier definitions,
2. thresholds and options of each classifier prior to anomaly notifications, and
3. a current Ohio specific user guide to the System
V. Adjustments for baseline and expected data counts of the spatial-temporal analysis when a facility’s feed drops from submitting to production status. Anomalies shall not be generated until a complete reference baseline can be established by all Submitters in the geographical areas (state, county, city, local health districts, and zip code outlines).

W. Adjust data fields and coded values before transmitting the emergency and urgent care center facility data to NSSP Syndromic Surveillance Platform in a format, frequency, and manner (e.g. secure) specified by CDC and approved by ODH.

1. This currently is ADT HL7 2.5.1 messages in batch format.
2. ODH will determine the content and filtering of the data to provide NSSP.
3. The Offeror will need to be able to send a production data feed to staging and production NSSP environments multiple times a year.
4. ODH will provide the Offeror the requirements for HL7 messages to include in the data feed. The Offeror is required to make changes requested by ODH.

X. Assist ODH with aggregating selected data in a consumable format and transmitting securely to:

1. Ohio’s secure health data portal in the format, frequency, and manner specified by ODH.
2. ODH in a format and manner specified by ODH in order to create and maintain a database for additional surveillance projects and analysis.
3. Other states/commonwealths when memorandums of understanding between Ohio and the other states are signed. The Offeror shall adapt their System or interface to transmit specified data to the State/Commonwealth for their receiving requirements.
4. Local health departments in a manner prescribed by the local health departments.

Y. Backup the System’s databases and servers in an offsite location for continuation of services in the event of a disaster. The backup System must be available with current and incoming data with no interruption of service in the event of a disaster. Stress testing on the current and backup Systems will be conducted annually by the Offeror, outside of times of crisis, and results provided to ODH.

1. Providing 24/7/365 operation and access to the System to ensure minimal interruption of analysis functions.
2. Ensure less than one percent downtime for operations and availability.

Z. Continually develop and refine tools and interfaces to create and analyze classifiers. ODH will need the functionality to build upon narrow and broad classifiers (Supplements E, F, G, and H) for:

1. Facility data (emergency department, urgent care center, ambulatory practices, other states/commonwealths, Veterans Affairs emergency departments, inpatient, or outpatient)
   a) Patient stated chief complaints
   b) Clinical admit reasons
   c) Initial patient temperature
   d) Triage notes
   e) Clinical notes
   f) Procedure codes
   g) Discharge disposition
   h) Discharge diagnoses

2. Poison Control
   a) Call Type
   b) Route of substance exposure
   c) Clinical effects
   d) Substance (generic and product codes and labels, e.g. “Ibuprofen” and “Advil”)
   e) Therapies
   f) Exposure site
   g) Scenario

3. Reportable diseases
   a) Reportable diseases
   b) Case status
AA. If the Offeror is working with other jurisdictions, ODH must approve the tools, classifiers, and products prior to release to the System for Ohio users.

BB. ODH must be provided ten (10) business days for user acceptance testing of newly developed software prior to release. ODH must have the opportunity to accept/reject development options. If issues are identified, the Offeror must either fix the issue or provide ODH the option to not proceed with a release at least 3 days prior to release. If an emergency or off-cycle release is needed, defined by ODH, these timelines may be waived by ODH.

CC. The Offeror will include new fields that are requested by ODH, when submitting System updates (e.g. NPDS, the Ohio infectious disease system) or to respond to a public health crisis.

DD. The Offeror will provide annual updates to changing value sets such as zip codes and diagnosis codes (International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) and SNOMED Clinical Terms (SNOMED CT)), and procedure codes (American Medical Association’s Current Procedural Terminology (CPT-4), SNOMED CT, International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS)). Code sets will need to be updated and reassessed at least annually. Current and historic System code sets are imperative for accurate classifiers. Code sets, depending on the source, may change on different dates each year. International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Ninth Revision, Procedure Coding System (ICD-9-PCS) are no longer updated but will be included in the completion of assessment of visits when only code values are submitted (absent of a text description) for clinical admit reasons or discharge diagnosis codes.

EE. The Offeror will update Offeror’s processes, standards, and System in response to changes in Ohio code and Federal Rules on Syndromic Surveillance and grant funding requirements.

FF. The Offeror must support ODH by:

1. Being available during normal business hours, Monday through Friday 8:00 AM – 5:00 PM Eastern Time for consultation of analysis, address System inquiries, review Submitter data, and hold monthly Submitter status updates, development, and bug fix meetings.

2. Providing 24/7/365 availability for emergency situations and technical support.

3. Supporting end-user with clear System instructions, definitions, and testing.

4. Providing a minimum of ten (10) person-hours each month to complete development projects prioritized as specified by ODH. The Offeror will be prepared to discuss what development has occurred each month. Improvements and projects will include, but are not limited to, the items listed below, if another project is not specified by ODH:
   a) Continuously improve the data quality from Submitters and feed by reviewing submitted values and fields for meeting requirements of reporting (e.g. Ohio syndromic surveillance technical specifications) and downstream uses (matching classifiers, improving classifiers, receiving all billing discharge diagnosis and procedure codes).
   b) Continuously improve the classification of patient stated chief complaint, clinical admit reason, and discharge diagnosis data into classifier categories.
   c) Continuously evaluate and adjust the sensitivity and specificity of the aberration detection algorithms used to generate alerts, resulting in classifiers that identify true health events. When appropriate, denote when distributions or comparisons are statistically significant, based on thresholds approved by ODH.

5. Using set IT industry standards to securely move data, either by electronic or physically means.

6. Returning out-of-production Submitters to production as quickly as possible with high data quality (specified with OSSTS). Communicate with ODH to the status of returning Submitters to production when Submitters performed system upgrades, patches, or other CEHRT installations without testing.

7. Onboarding new Submitters to the Offeror’s System and ensure that all Submitters have signed data sharing agreements with the Offeror and ODH.

8. Removing data records or field values from the System that should not have been incorporated from Submitters. The Offeror will need to work with the Submitters to identify which records need to be removed from the System.

9. Ensuring at least 75 percent of all emergency department visits across Ohio for any day are reported to the NSSP at CDC and meet the standards previously set by ODH.
10. Removing “test patients”, “test messages”, or undesired submission from Submitters that were sent to the production System.

GG. Reporting by the Offeror’s System:

1. Provide facility downtime events (no longer submitting to production) and return to anomaly detection (due to sufficient historical baseline in production) notifications and reports at least twice each business day.

2. Provide a facility downtime and return to surveillance table for all dashboards or ad hoc query area in the user interface.
   a) Facilities listed will be specific to the user’s access (hospital/healthcare system users will only see their facilities; public health will see all facilities).
   b) The table must include “Facility Name”; “Facility County”; “Date Stopped Submitting to Production”; “Date Resumed Submitting to Production”; “Data Gap Start Date”; “Data Gap End Date”; “Data Duplicates/Too Many Encounters Sent Start Date”; and “Data Duplicates/Too Many Encounters End Date”, “System users notified”, and “Facility Users Notified”.
   c) Provide a list of zip code associations to geo-political boundaries used by the Offeror’s System to System users if the Submitter(s) provide data during their anomaly detection downtime.
   d) Provide access to a census table if there is a data gap or too many encounters reported that cannot be resolved with the data submitter.

3. The Offeror will produce a report, at least once annually, prior to a maintenance fee payment for continuing renewal of the contract, and for each onboarded, tested, downtime event, or post-production event with a Submitter. The report will be provided to ODH and provide the following information:
   a) CEHRT vendor, product, and version and last CEHRT update
   b) Review date(s)
   c) Contact information (name, position title, telephone, email) for interface technician(s), lead contact for emergency department or clinical staff knowledgeable with CEHRT data entry.
   d) Contact information of those individuals that reviewed the content with the Offeror, if not those in (2)(R)
   e) Provide an explanation from the Submitter as to why the facility was out of production. If nothing can be determined as the root cause, the CEHRT vendor, product, and version and last CEHRT update will be noted.
   f) Secure connection used, including facility specific settings (e.g. VPN using TCP/IP and port, SFTP).
   g) Connection pathway (e.g. routed through the named Health Information Exchange (HIE)) and if differing connection settings.
   h) File and message types used, including if modification of the messages occurs along the routing of the field (e.g. identifier changed by the HIE and local coded values changed).
   i) Formatting of each field, component, and subcomponent, including optional fields against the standards in the OSSTS.
   j) CEHRT data fields used for each mapped data value in the Offeror’s System.
   k) Potential CEHRT data fields that were excluded from use and reasons why excluded.
   l) A checkbox of whether the facility desires to send the data field, component, or subcomponent.
   m) Report if acknowledgement (ACK) messages are sent back to the Submitter or facility (when Submitter is an HIE).
   n) Proper onboarding will include patient workflow within the Submitter’s system. A diagram or screenshots will be needed as to how a patient is processed through the Submitter’s system. Particular attention will be reported on the distinction of:
      1) Patient stated chief complaint
      2) Triage notes
      3) Clinical admit reason
      4) Clinical notes
      5) Preliminary diagnoses
      6) Facility discharge diagnoses (typically the final clinical codes, but not the billing/final diagnoses)
      7) Billing/Final diagnoses
   o) The report will be modified as information becomes available. Preliminary report is due within 6 hours of a normal business day.

4. Provide and update customized data and administrative reports in the user interface for surveillance purposes and to identify data transmission or data quality problems. These reports include:
   a) Facilities not reporting to production
b) Facilities reporting statistically less records or visits than what is expected

c) Facilities not reporting required or some select field, component, or subcomponent data elements (Ohio syndromic surveillance technical specification).

d) Reports for opioid-related and suicide-related tables (Supplements E, F, G, and H).

e) National syndromic surveillance standard reports

f) OSSTS report(s)

g) Modification to these reports will be necessary when criteria changes (e.g. when OSSTS are updated).

HH. Training by the Offeror:

1. Provide an environment to hold training and tests of the System with state and local public health jurisdictions.

2. Assist System users to create customized dashboards, ad hoc queries, and temporal-spatial analyses.

3. Provide training to ODH staff so they can provide training of users when updates are made. Strides by the Offeror with this service will help with routine surveillance and during public health crises when the Offeror will be busy with other System changes.

4. Provide ongoing training to ODH employees on how to use the System and guidance on how other profiles will interface and use the System. If the Offeror does not have a test environment in the System, the Offeror will need to create “dummy profiles” to allow for review of how the System performs with different levels of access.

II. Transition

1. Should a Contract not get renewed or should the Contract terminate, the Offeror will be required to complete the following:

   a) The data provided to the Offeror by ODH (Ohio infectious disease and including user provided data on anomalies) and Submitters is owned by the respective parties, not the Offeror. The data sent to the System, including meta, derivatives, accounts, facility contacts, System accessing, logs of accessing the System will be provided to ODH in a format specified by ODH to continue onto the specified ODH syndromic surveillance system.

   b) The Offeror must destroy all the submitted, meta, or other data related to this project, per current IT industry standards, if requested by ODH. Before deletion, the Offer must provide ODH with a fully secured copy and must receive written permission by ODH before it can be deleted.

V. Deliverables

The Offeror is to provide its annual “per facility cost” to sustain current surveillance system and implementation of additional data sources on the Cost Summary, Attachment Ten:

A. Base Contract – Includes the annual charge for establishing and performing activities as provided in the Scope of Work

B. New facility onboarding - Indicate the per facility cost to be charged for new facilities to test and onboard. Costs will include establishing secure electronic delivery and troubleshooting, testing messages, maintenance of existing data feeds, storage and analysis of data, making analysis available to end-users, review and refinement of classifiers, canned reports, ad hoc query area, dashboards, and publications as outlined above in Scope of Work.

C. Maintenance - Indicate the per facility costs to be charged ODH for the maintenance of existing data feeds, storage and analysis of data, making analysis available to end-users, review and refinement of classifiers, canned reports, ad hoc query area, dashboards, and publications as outlined above in Scope of Work. Ohio has two instances of “shared” facilities defined as one facility that has two ED. For this purpose of cost, “shared” facilities count as one facility. These shared sets are 1.) the Ohio State University Hospital and The James Cancer Center and 2.) ProMedica Toledo Hospital and Children’s Hospital. Only one facility of the shared sets will be assessed during maintenance invoicing.

D. Data Transfer – Indicate the annual cost to be charged to ODH for transmitting data to the National Syndromic Surveillance Program at the Centers for Disease Control and Prevention and to other states or commonwealths as outlined above in Scope of Work.

E. Reportable Disease Analysis – Indicate the annual cost to be charged to ODH for receiving reportable disease data from the Ohio’s infectious disease reporting systems in near-real time, provide analytic tools for System users, temporal spatial analysis, and provide alerting capabilities for Class A reportable diseases as outlined above in Scope of Work.
F. Poison Control data – Indicate the annual cost to be charged to ODH for obtaining queried data from the National Poison Data System (NPDS) or the Poison Control Centers’ replacement system in near-real time, provide analytic tools for System users, temporal spatial analysis as outlined above in Scope of Work.

G. Data Transfer – Indicate the annual cost to be charged to ODH for setting up, testing, and transmitting data to Ohio’s secure health data portal (Innovate Ohio), ODH, and other state/commonwealth jurisdictions as outlined above in Scope of Work.

The Offeror will not use their role with the Submitters to misguide, misinform, enter into side agreements or contracts, or leverage their extended authority as the Offeror of ODH and ODHVIPS against ODH, ODHVIPS, or any stakeholders (e.g. NSSP, CDC, other states).

OFFEROR RESPONSIBILITIES. The Contractor must meet all RFP requirements and perform Work as defined in the Scope of Work.
ATTACHMENT ONE: WORK REQUIREMENTS AND SPECIAL PROVISIONS

PART TWO: SPECIAL PROVISIONS

THE OFFEROR’S FEE STRUCTURE. The Contractor will be paid as proposed on the Cost Summary Form after the Agency approves the receipt of product(s) and continued completion of all deliverables.

REIMBURSABLE EXPENSES. None.

BILL TO ADDRESS.

Accounts Payable
Ohio Department of Health
246 North High Street
Columbus, OH 43215
ATTACHMENT TWO: REQUIREMENTS FOR PROPOSALS

PROPOSAL FORMAT. Each Proposal must include sufficient data to allow the State to verify the total cost for the Project and all of the Offeror’s claims of meeting the RFP’s requirements. Each Proposal must respond to every request for information in this attachment whether the request requires a simple "yes" or "no" or requires a detailed explanation. Simply repeating the RFP’s requirement and agreeing to comply will be an unacceptable response and may cause the Proposal to be rejected.

These instructions describe the required format for a responsive Proposal. The Offeror may include any additional information it believes is relevant. An identifiable tab sheet must precede each section of a Proposal, and each Proposal must follow the format outlined below. All pages, except pre-printed technical inserts, must be sequentially numbered. Any material deviation from the format outlined below may result in a rejection of the non-conforming Proposal.

Each Proposal must contain the following information, in order, with tabbed sections as listed below:

1. Cover Letter and Mandatory Requirements
2. Certification
3. Signed Contracts
4. Offeror Profile and Prior Projects
5. Offeror References
6. Staffing Plan
7. Personnel Profile Summary
8. Work Plan
9. Support Requirements
10. Conflict of Interest Statement
11. Assumptions
12. Proof of Insurance
13. Payment Address
14. Contract Performance
15. W-9 Form and Supplier Registration
16. Affirmative Action Plan
17. Prohibition of the Expenditure of Public Funds for Offshore Services
18. Cost Summary Form
19. Supplement S Response
20. Supplement 3 Response

REQUIREMENTS:

1. **Cover Letter.** The cover letter must be in the form of a standard business letter and must be signed by an individual authorized to legally bind the Offeror. The cover letter will provide an executive summary of the solution the Offeror plans to provide. The letter must also have the following:

   a. A statement regarding the Offeror’s legal structure (e.g., an Ohio corporation), Federal tax identification number, and principal place of business.
   b. A list of the people who prepared the Proposal, including their titles.
   c. The name, phone number, fax number, e-mail address, and mailing address of a contact person who has authority to answer questions regarding the Proposal.
   d. A list of all subcontractors, if any, that the Offeror will use on the Project if the Offeror is selected to do the Work.
   e. For each proposed subcontractor, the Offeror must attach a letter from the subcontractor, signed by someone authorized to legally bind the subcontractor, with the following included in the letter:

      1) The subcontractor’s legal status, tax identification number, and principal place of business address.
      2) The name, phone number, fax number, e-mail address, and mailing address of a person who is authorized to legally bind the subcontractor to contractual obligations.
      3) A description of the work the subcontractor will do.
      4) A commitment to do the work if the Offeror is selected.
      5) A statement that the subcontractor has read and understood the RFP and will comply with the requirements of the RFP.
      6) A statement that the Subcontractor will maintain any permits, licenses, and certifications required to perform work.
f. A statement that the Offeror's proposed solution for the Project meets all the requirements of this RFP.

g. A statement that the Offeror has not taken any exception to the Terms and Conditions.

h. A statement that the Offeror does not assume there will be an opportunity to negotiate any aspect of the proposal.

i. A statement indicating the Offeror will comply with all Federal and Ohio (Ohio Revised Code) Laws and Rules of the Ohio Administrative Code as those law and rules are currently enacted and promulgated, and as they may subsequently be amended and adopted.

j. A statement that the Contractor shall not substitute, at Project start-up, different personnel from those evaluated by the State except when a candidate’s unavailability is no fault of the Contractor (e.g., Candidate is no longer employed by the Contractor, is deceased).

k. A statement that the Offeror is not now and will not become subject to an “unresolved” finding for recovery under Revised Code Section 9.24, prior to the award of a Contract arising out of this RFP, without notifying DAS of such finding.

l. A statement that all the Offerors personal and business associates are in compliance with Chapter 3517 of the Revised Code regarding limitations on political contributions and will remain in compliance for the duration of the Contract and with all applicable provisions that extend beyond the expiration of the Contract. Refer to the Political Contributions paragraph in Attachment Three, Part Seven of this RFP document.

m. All contractors from whom the State or any of its political subdivisions make purchases in excess of $2500.00 shall have a written affirmative action program for the employment and effective utilization of economically disadvantaged persons, as referred to in division (E)(1) of section 122.71 of the Revised Code. Annually, each such contractor shall file a description of the affirmative action program and a progress report on its implementation with the Equal Employment Opportunity office of the Department of Administrative Services. Provide a statement that the Offeror has been approved through this affirmative action program. Refer to the Affirmative Action paragraph in Attachment Two and to the Equal Employment Opportunity paragraph in Attachment Three, Part Seven of this RFP.

n. Registration with the Secretary of State. By the signature affixed to this Offer, the Offeror attests that the Offeror is:

1) An Ohio corporation that is properly registered with the Ohio Secretary of State; or

2) A foreign corporation not incorporated under the laws of the State of Ohio but is registered with the Ohio Secretary of State pursuant to Ohio Revised Code Sections 1703.01 to 1703.31, as applicable.

Any foreign corporation required to be licensed under Sections 1703.01 to 1703.31 of the Ohio Revised Code, which transacts business in the State of Ohio, without being so licensed, or when its license has expired or been canceled, shall forfeit not less than $250 nor more than ten thousand dollars. No officer of a foreign corporation shall transact business in the State of Ohio, if such corporation is required by Section 1703.01 to 1703.31 of the Revised Code to procure and maintain a license but has not done so. Whoever violates this is guilty of a misdemeanor of the fourth degree.

Offeror attests that it is registered with the Ohio Secretary of State.

The Offeror's Charter Number is: ________________________.

Questions regarding registration should be directed to (614) 466-3910 or visit the Web site at: http://www.sos.state.oh.us

All Offerors who seek to be considered for a contract award must submit a response that contains an affirmative statement using the language in paragraph(s) a. through n. above.

Responses to all Mandatory Requirements from Table 1 must be included in this section (Tab 1).

2. Certification. Each Proposal must include the following certification signed by the individual Offeror.

(Insert Company name) affirms they are the prime Offeror.

(Insert Company name) affirms it shall not and shall not allow others to perform work or take data outside the United States without express written authorization from DAS.

(Insert Company name) affirms that all personnel provided for the Project, who are not United States citizens, will have executed a valid I-9 form and presented valid employment authorization documents.

(Insert Company name) affirms that any small business program participants will provide necessary data to ensure program reporting and compliance.

(Insert Company name) agrees that it is a separate and independent enterprise from the State of Ohio, the Agency, and the Department of Administrative Services. (Insert Company name) has a full opportunity to find other business and has
made an investment in its business. Moreover (Insert Company name) will retain sole and absolute discretion in the judgment of the manner and means of carrying out its obligations and activities under the Contract. This Contract is not to be construed as creating any joint employment relationship between (Insert Company name) or any of the personnel provided by (Insert Company name), the Agency, or the Department of Administrative Services.

(Insert Company name) affirms that the individuals supplied under the Contract are either: (1) employees of (Insert Company name) with (Insert Company name) withholding all appropriate taxes, deductions, or contributions required under law; or (2) independent contractors to (Insert Company name).

If the Offeror’s personnel are independent Contractors to the Offeror, the certification must also contain the following sentence:

(Insert Company name) affirms that it has obtained a written acknowledgement from its independent Contractors that they are separate and independent enterprises from the State of Ohio and the Department of Administrative Services and the Agency for all purposes including the application of the Fair Labor Standards Act, Social Security Act, Federal Unemployment Tax Act, Federal Insurance Contributions Act, the provisions of the Internal Revenue Code, Ohio tax law, worker’s compensation law and unemployment insurance law.

If the Offeror qualifies as a Veteran Friendly Business Enterprise as defined by ORC 9.318 and OAC 123:5-1-01 (KK), the certification must also contain the following sentence:

(Insert Company name) affirms that they are certified as a Veteran Friendly Business Enterprise as defined by Ohio Revised Code 9.318 and Ohio Administrative Code 123:5-1-01(KK).

3. Signed Contracts. The Offeror must provide two (2) originally signed, blue ink copies of the included Contract, Attachment Four. Offeror must complete, sign and date both copies of the Contract and include it with their Proposal. (Attachment Four).

4. Offeror Profile and Prior Projects. Each Proposal must include a profile of the Offeror’s capability, capacity, and relevant experience working on projects similar to this Work. The profile must also include the Offeror’s legal name; address; telephone number; fax number; e-mail address; home office location; date established; ownership (such as public firm, partnership, or subsidiary); firm leadership (such as corporate officers or partners); number of employees; number of employees engaged in tasks directly related to the Work; and any other background information that will help the State gauge the ability of the Offeror to fulfill the obligations of the Contract. The financial stability of the company should also be described and is considered a necessary component of this portion of the Proposal's response. This RFP includes Offeror Profile Summary Form as Attachment Five A which must be completed for the Offeror. The Offeror must use this form and fill it out completely to provide the Offeror requirement information.

The Offeror shall also provide information on the firm’s background as well as evidence that it has in place the personnel, internal procedures, and any other resources required under the terms of the Contract to ensure successful performance and contract compliance. Offerors must describe current operational capacity of the organization and the Offeror’s ability to absorb the additional workload resulting from this Project. Failure to recreate the form accurately to include all fields, may lead to the rejection of the Offeror’s Proposal.

The Offeror must document previous experience and expertise in providing a minimum of three (3) previous projects, similar in size and complexity, in the previous five (5) years. These projects must be of similar size, scope and nature. Details of the similarities must be included. Attachment Five B, C, and D must be filled out completely for each of the three (3) projects provided. The Offeror must use these forms and fill them out completely to provide the Offeror requirement information. Failure to recreate the form accurately to include all fields, may lead to the rejection of the Offeror's Proposal.

5. Offeror References. The Offeror must include a minimum of three (3) references for organizations and/or clients for whom the Offeror has successfully provided services on projects that were similar in their nature, size, and scope to the Work. These references must relate to work that was completed within the past five (5) years. This RFP includes an Offeror Reference Form as Attachment Six. Failure to recreate the form accurately may lead to the rejection of the Offeror’s Proposal.

The State does not assume that since the experience requirement is provided at the top of the page that all descriptions on that page relate to that requirement. Offerors must reiterate the experience being described, including the capacity in which the experience was performed and the role of the Offeror on the Project. It is the Offeror’s responsibility to customize the description to clearly substantiate the qualification. Previous experience must include the conduct, management, and coordination of projects. Incumbents must ensure specifics are addressed. Evaluations will not be based on intrinsic knowledge of evaluation committee members.
The description of the related service shows the Offeror’s experience, capability, and capacity to develop this Project’s deliverables and/or to achieve this Project’s milestones. Details such as the size of the contracting organizations, duration of involvement, level of responsibility, significant accomplishments, as well as a thorough description of the nature of the experience will be required for appropriate evaluation by the committee.

a. Contact Information. The contact name, title, phone number, e-mail address, company name, and mailing address must be completely filled out. If the primary contact cannot be reached, the same information must be included for an alternate contact in lieu of the primary contact. Failure to provide requested contact information may result in the State not including the reference in the evaluation process.

b. Project Name. The name of the project where the mandatory experience was obtained and/or service was provided.

c. Dates of Experience. Must be completed to show the length of time the Offeror performed the experience being described, not the length of time the Offeror was engaged for the reference. The Offeror must complete these dates with a beginning month and year and an ending month and year.

d. Description of the Related Service Provided. The State does not assume that since the experience requirement is provided at the top of the page that all descriptions on that page relate to that requirement. Offerors must reiterate the experience being described, including the capacity in which the experience was performed and the role of the Offeror on the Project. It is the Offeror’s responsibility to customize the description to clearly substantiate the qualification.

e. Description of how the related service shows the Offeror’s experience, capability and capacity to develop this Project’s deliverables and/or to achieve this Project’s milestones.

f. The Offeror’s project experience must be listed separately and completely every time it is referenced, regardless of whether it is on the same or different pages of the form.

When contacted, each reference must be willing to discuss the Offeror’s previous performance on projects that were similar in their nature, size, and scope to the Work.

6. Staffing Plan. The Offeror must provide a staffing plan that identifies all key personnel required to do the Project and their responsibilities on the Project. The State is seeking a staffing plan that matches the proposed Project personnel and qualifications to the activities and tasks that will be completed on the Project. In addition, the plan must have the following information:

a. A matrix matching each key team member to the staffing requirements in this RFP.

b. A contingency plan that shows the ability to add more staff if needed to ensure meeting the Project’s due date(s).

c. A discussion of the Offeror’s ability to provide qualified replacement personnel.

d. The Offeror must submit a statement and chart that clearly indicate the time commitment of the proposed work team, including the Project Manager, to the Project and any other, non-related work during the term of the Contract. The Offeror must also include a statement indicating to what extent, if any, the Project Manager may be used on other projects during the term of the Contract. The evaluation committee may reject any Proposal that commits the proposed Project Manager to other work during the term of the Contract if the evaluation committee believes that doing so will be detrimental to the Offeror’s performance.

7. Personnel Profile Summary. This RFP includes Offeror Candidate Forms as Attachments Seven A, B and C. The Offeror must use these forms and fill them out completely for each key candidate referenced. The forms must be completed using typewritten or electronic means. The forms may be recreated electronically, but all fields and formats must be retained. Failure to recreate the forms accurately may lead to the rejection of the Offeror’s Proposal.

All candidate requirements must be provided using the Offeror Candidate Forms (See Attachments Seven A, B and C.) The various sections of the form are described below:

a. Candidate References. If fewer than three (3) projects are provided, the Offeror must include information as to why fewer than three (3) projects were provided. The State may disqualify the proposal if fewer than three (3) projects are given. (Refer to Attachment Seven A.)

For each reference the following information must be provided:

1) Candidate’s Name.

2) Contact Information. The contact name, title, phone number, e-mail address, company name, and mailing address must be completely filled out. If the primary contact can not be reached, the same information must be included for an alternate contact in lieu of the primary contact. Failure to provide requested contact information may result in the State not including the reference experience in the evaluation process.
3) Dates of Experience. Must be completed to show the length of time the candidate performed the technical experience being described, not the length of time the candidate worked for the company. The Offeror must complete these dates with a beginning month and year and an ending month and year.

4) Description of the Related Service Provided. The State does not assume that since the technical requirement is provided at the top of the page that all descriptions on that page relate to that requirement. Contractors must reiterate the technical experience being described, including the capacity in which the experience was performed and the role of the candidate in the reference project as it relates to this RFP Project. It is the Contractors’ responsibility to customize the description to clearly substantiate the candidate's qualification.

b. Education and Training. This section must be completed to list the education and training of the proposed candidates and will demonstrate, in detail, the proposed candidate’s ability to properly execute the Contract based on the relevance of the education and training to the requirements of the RFP. Must include copies of any pertinent licenses and or certificates. (Refer to Attachment Seven B.)

c. Required Experience and Qualifications. This section must be completed to show how the candidate meets the required experience requirements. If any candidate does not meet the required requirements for the position the candidate has been proposed to fill, the Offeror's Proposal may be rejected as non-responsive. (Refer to Attachment Seven C.)

The candidate’s project experience must be listed separately and completely every time it is referenced, regardless of whether it is on the same or different pages of the form.

One of the criteria on which the State may base the award of the Contract is the quality of the Offeror's Work Team. Switching personnel after the award will not be accepted without due consideration. The Offeror must propose a Work Team that collectively meets all the requirements in this RFP. Additionally, each team member may have mandatory requirements listed in this RFP that the team member must individually meet. All candidates proposed must meet the technical experience for the candidate’s position and be named.

8. Work Plan. Offeror must fully describe its current capacity, approach, methods, and specific work steps for doing the Work on this Project. The State encourages responses that demonstrate a thorough understanding of the nature of the Project and what the Contractor must do to complete the Project satisfactorily. To this end, the Offeror must submit for this section of the Proposal the Project plan that will be used to create a consistent, coherent management plan of action that will be used to guide the Project. The Project plan should include detail sufficient to give the State an understanding of the Offeror's knowledge and approach, including Gantt charts documenting the successful completion of all of the deliverables to complete the Project.

The Work Plan must demonstrate an understanding of the requirements of the project as described in Attachment One Part One Work Requirements. Describe the methodologies, processes and procedures it will utilize in the implementation and production of the Scope of Work. Provide a comprehensive Work Plan that gives ample description and detail as to how it proposes to accomplish this project and what resources are necessary to meet the deliverables.

The State seeks insightful responses that describe proven state-of-the-art methods. Recommended solutions should demonstrate that the Offeror would be prepared to immediately undertake and successfully complete the required tasks. The Offeror’s Work Plan should clearly and specifically identify key personnel assignments. (NOTE: The staffing plan should be consistent with the Work plans).

Additionally, the Offeror should address potential problem areas, recommended solutions to the problem areas, and any assumptions used in developing those solutions.

9. Support Requirements. The Offeror must describe the support it wants from the State other than what the State has offered in this RFP. Specifically, the Offeror should address the following:

a. Nature and extent of State support required in terms of staff roles, percentage of time available, etc.;
b. Assistance from State staff and the experience/qualification level required; and

c. Other support requirements.

The State may not be able or willing to provide the additional support the Offeror lists in this part of its Proposal. The Offeror must therefore indicate whether its request for additional support is a requirement for its performance. If any part of the list is a requirement, the State may reject the Offeror's Proposal if the State is unwilling or unable to meet the requirements.

10. Conflict of Interest Statement. Each Proposal must include a statement indicating whether the Offeror or any people that may work on the Project through the Offeror have a possible conflict of interest (e.g., employed by the State of Ohio) and,
if so, the nature of that conflict. The State has the right to reject a Proposal in which a conflict is disclosed or cancel the Contract if any interest is later discovered that could give the appearance of a conflict.

11. Assumptions. The Offeror must provide a comprehensive listing of any and all of the assumptions that were made in preparing the proposal. If any assumption is unacceptable to the State, it may be cause for rejection of the Proposal. No assumptions shall be included regarding negotiation, terms and conditions, and requirements.

12. Proof of Insurance. In this section, the Offeror must provide the certificate of insurance required by the General Terms & Conditions, Attachment Three, Part Two. The policy may be written on an occurrence or claims made basis.

13. Payment Address. The Offeror must provide the address to which payments to the Offeror will be sent.

15. W-9 Form and Supplier Registration. The Offeror must complete Federal Form W-9, Request for Taxpayer Identification Number and Certification form. At least one (1) original (signed in blue ink) must be submitted in the “original” copy of the Proposal. All other copies of the Proposal may contain duplicates of this form. If a subsidiary company is involved, Offerors must have an original W-9 for both the parent and subsidiary companies. In addition, the Offeror must be registered as a supplier with the State through the Supplier Portal. Registration can be completed or confirmed at: https://supplier.ohio.gov

Approved Affirmative Action Plans can be found by going to the Equal Opportunity Department’s Web site: https://eodreporting.oit.ohio.gov/affirmative-action

Copies of approved Affirmative Action plans shall be supplied by the Offeror as part of its Proposal or inclusion of an attestation to the fact that the Offeror has completed the process and is pending approval by the EOD office.

17. Offshore Services. The Contractor must complete the Contractor/Subcontractor Affirmation and Disclosure form affirming the Contractor understands and will meet the requirements of the above prohibition. During the performance of this Contract, the Contractor must not change the location(s) disclosed on the Affirmation and Disclosure Form, unless a duly signed waiver from the State has been attained to perform the services outside the United States.

18. Cost Summary Form. The Cost Summary Form (Attachment Nine) must be submitted with the Offeror’s Proposal. The Offeror’s total cost for the entire Project must be represented as the firm fixed price, for a total fiscal year cost. Offerors shall provide a comprehensive cost analysis; this cost must include all ancillary costs. All costs for furnishing the services must be included in the Cost Proposals as requested. No mention of or reference to, the Cost Proposals may be made in responses to the general, technical, performance, or support requirements of this RFP.

All prices, costs, and conditions outlined in the proposal shall remain fixed and valid for acceptance for 120 days, starting on the due date for proposals. The awarded contractor must hold the accepted prices and/or costs for the initial term of the contract. No price change shall be effective without prior written consent from DAS, OPS.

NOTE: Offeror’s should ensure Cost Proposals are submitted separately from the Technical Proposals, as indicated the Proposal Submittal paragraph of this RFP (see Part Three). This information should not be included in the Technical Proposal.

The State shall not be liable for any costs the Offeror does not identify in its Proposal.

19. Supplement S Response – State Information Security and Privacy Requirements, State Data Handling Requirements. Offerors must include a fully completed copy of Supplement Two in this section of their proposal. Offerors must follow the completion instructions contained in the supplement when preparing their response. When responding, Offerors should note the redaction process described in the RFP section entitled “Proposal Submittal.” This section is located within the General Instructions (Part 3) of the RFP.

20. Supplement 3 Response – Ohio Department of Health Data Sharing and Confidentiality Agreement. Offerors must include a fully completed copy of Supplement Two in this section of their proposal. Offerors must sign the Signature Page contained in the supplement when preparing their response. When responding, Offerors should not the redaction process described in the RFP section entitled “Proposal Submittal”. This section is located within the General Instructions (Part 3) of the RFP.
STATEMENT OF WORK. The RFP and the Offeror's Proposal (collectively referred to as the "RFP") are a part of this Contract and describe the Work (the "Project") the Contractor will do and any materials the Contractor will deliver (the "Deliverables") under this Contract. The Contractor will do the Project in a professional, timely, and efficient manner and will provide the Deliverables in a proper fashion. The Contractor will also furnish its own support staff necessary for the satisfactory performance of the Project.

The Contractor will consult with the appropriate State representatives and others necessary to ensure a thorough understanding of the Project and satisfactory performance. The State may give instructions to or make requests of the Contractor relating to the Project. The Contractor will comply with those instructions and fulfill those requests in a timely and professional manner. Those instructions and requests will be for the sole purpose of ensuring satisfactory completion of the Project and will not amend or alter the scope of the Project.

TERM. Unless this Contract is terminated, or expires without renewal, it will remain in effect until the Project is completed to the satisfaction of the State and the Contractor is paid. The current General Assembly cannot commit a future General Assembly to an expenditure. Therefore, this Contract will automatically expire at the end of each biennium. The State, however, may renew this Contract in the next biennium by issuing written notice to the Contractor of the decision to do so. This expiration and renewal procedure will also apply to the end of any subsequent biennium during which the Project continues. Termination or expiration of this Contract will not limit the Contractor's continuing obligations with respect to Deliverables that the State paid for before termination or limit the State's rights in such.

It is understood that the State's funds are contingent upon the availability of lawful appropriations by the Ohio General Assembly. If the General Assembly fails at any time to continue funding for the payments and other obligations due as part of this Contract, the State's obligations under this Contract are terminated as of the date that the funding expires without further obligation of the State.

The Project has a completion date that is identified in the RFP. The RFP may also have several dates for delivery of Deliverables or reaching certain milestones in the Project. The Contractor must make those deliveries, meet those milestones, and complete the Project within the times the RFP and the mutually agreed to Work Plan requires. If the Contractor does not meet those dates, the Contractor will be in default, and the State may terminate this Contract under the termination provision contained below. The State may also have certain obligations to meet. Those obligations, if any, are also listed in the RFP. If the State agrees that the Contractor's failure to meet the delivery, milestone, or completion dates in the RFP is due to the State's failure to meet its own obligations in a timely fashion, then the Contractor will not be in default, and the delivery, milestone, and completion dates affected by the State's failure to perform will be extended by the same amount of time as the State's delay. The Contractor may not rely on this provision unless the Contractor has in good faith exerted all professional management skill to avoid an extension and has given the State meaningful written notice of the State's failure to meet its obligations within five (5) business days of the Contractor's realization that the State's delay will impact the Project. The notice to the State must be directed at making the State aware of its delay and the impact of its delay. It must be sent to the Agency Project Representative and the State Procurement Representative. Remedies resulting from the State's delay will be at the State's discretion.

The State seeks a complete Project. Any incidental items omitted in the RFP will be provided as part of the Contractor's not-to-exceed fixed price. The Contractor must fully identify, describe, and document all systems that are delivered as a part of the Project. All hardware, software, supplies, and other required components (such as documentation, conversion, training, and maintenance) for the Project to be complete and useful to the State are included in the Project and the not-to-exceed fixed price.

ECONOMIC PRICE ADJUSTMENT. The Contract price(s) will remain firm throughout the initial term of the Contract. Thereafter, prior to Contract renewal, the Contractor may submit a request to adjust their price(s) to be effective on the effective date of the Contract's renewal. No price adjustment will be permitted prior to the effective date; on purchase orders that are already being processed; or on purchase orders that have been filled.

Price increases must be supported by a general price increase in the cost of the materials/services rendered due to documented increases in the cost of related materials/services. Detailed documentation, to include a comparison list of the Contract items and proposed price adjustments must be submitted to support the requested adjustment. Supportive documentation should include, but is not limited to: copies of the old and current price lists or similar documents which indicate the original base cost of the product to the Contractor and the corresponding adjustment, and/or copies of correspondence sent by the Contractor's supplier on the supplier's letterhead, which contain the above price information and explains the source of the adjusted costs in such areas as raw materials, freight, fuel or labor, etc.
Should there be a decrease in the cost of the finished product due to a general decline in the market or some other factor, the Contractor is responsible to notify DAS immediately. The price decrease adjustment will be incorporated into the Contract and will be effective on all purchase orders issued after the effective date of the decrease. If the price decrease is a temporary decrease, such should be noted on the invoice. In the event that the temporary decrease is revoked, the Contract pricing will be returned to the pricing in effect prior to the temporary decrease. Failure to comply with this provision will be considered as a default and will be subject to the Suspension and Termination section contained herein.

**COMPENSATION.** In consideration of the Contractor's promises and satisfactory performance, the State will pay the Contractor the amount(s) identified in the RFP (the "Fee"), plus any other expenses identified as reimbursable in the RFP. In no event will payments under this Contract exceed the "not-to-exceed" amount in the RFP without the prior, written approval of the State and, when required, the Ohio Controlling Board and any other source of funding. The Contractor's right to the Fee is contingent on the complete and satisfactory performance of the Project or, in the case of milestone payments or periodic payments of an hourly, daily, weekly, monthly, or annual rate, all relevant parts of the Project tied to the applicable milestone or period. Payment of the Fee is also contingent on the Contractor delivering a proper invoice and any other documents required by the RFP.

An invoice must comply with the State's then-current policies regarding invoices and their submission. The State will notify the Contractor in writing within fifteen (15) business days after it receives a defective invoice of any defect and provide the information necessary to correct the defect.

The Contractor will send all invoices under this Contract to the "bill to" address in the RFP or in the applicable purchase order.

The State will pay the Contractor interest on any late payment as provided in Section 126.30 of the Ohio Revised Code (the "Revised Code"). If the State disputes a payment for anything covered by an invoice, within 15 business days after receipt of that invoice, the State will notify the Contractor, in writing, stating the grounds for the dispute. The State may then deduct the disputed amount from its payment as a non-exclusive remedy. If, in the opinion of the State, a material breach has occurred by the Contractor, the State retains the right to withhold payment from the Contractor. Both parties agree that an attempt at resolution of any claims or material breach or disputes will first be made jointly by the Contractor Project Manager, the Contractor Project Principal, the Agency Project Representative and the State Procurement Administrator. If, within 30 calendar days following the above notification, the claim or dispute has not been resolved, only then will it be submitted to non-binding mediation (pursuant to the rules as stipulated by the American Arbitration Association). A claim or dispute must be submitted to non-binding mediation prior to the initiation of any formal legal process. The State will consult with the Contractor as early as reasonably possible about the nature of the claim or dispute and the amount of payment affected. When the Contractor has resolved the matter to the State's satisfaction, the State will pay the disputed amount within 30 business days after the matter is resolved. No payments are required to be made by the State until the matter is resolved.

If the State has already paid the Contractor on an invoice but later disputes the amount covered by the invoice, and if the Contractor fails to correct the problem within 30 calendar days after written notice, the Contractor will reimburse the State for that amount at the end of the 30 calendar days as a non-exclusive remedy for the State. On written request from the Contractor, the State will provide reasonable assistance in determining the nature of the problem by giving the Contractor reasonable access to the State's facilities and any information the State has regarding the problem.

**REIMBURSABLE EXPENSES.** The State will pay all reimbursable expenses identified in the RFP, if any, in accordance with the terms in the RFP and, where applicable, Section 126.31 of the Revised Code. The Contractor will assume all expenses that it incurs in the performance of this Contract that are not identified as reimbursable in the RFP.

In making any reimbursable expenditure, the Contractor will always comply with the more restrictive of its own, then-current internal policies for making such expenditures or with the State's then-current policies. All reimbursable travel will require the advance written approval of the State's Agency Project Representative. All reimbursable expenses will be billed monthly and paid by the State within 30 business days of receiving the Contractor's invoice.

**CERTIFICATION OF FUNDS.** None of the rights, duties, or obligations in this Contract will be binding on the State, and the Contractor will not begin its performance, until all the following conditions have been met:
1. All statutory provisions under ORC Section 126.07, have been met.
2. All necessary funds are made available by the appropriate state agencies.
3. If required, approval of this Contract is given by the Controlling Board of Ohio.

If the State is relying on Federal or third-party funds for this Contract, the State gives the Contractor written notice that such funds have been made available.
EMPLOYMENT TAXES. Each party will be solely responsible for reporting, withholding, and paying all employment related taxes, payments, and withholdings for its own personnel, including, but not limited to, Federal, state and local income taxes, social security, unemployment or disability deductions, withholdings, and payments (together with any interest and penalties not disputed with the appropriate taxing authority). All people the Contractor provides to the State under this Contract will be deemed employees of the Contractor for purposes of withholdings, taxes, and other deductions or contributions required under the law.

SALES, USE, EXCISE, AND PROPERTY TAXES. The State is exempt from any sales, use, excise, and property tax. To the extent sales, use, excise, or any similar tax is imposed on the Contractor in connection with the Project, such will be the sole and exclusive responsibility of the Contractor. The Contractor will pay such taxes, together with any interest and penalties not disputed with the appropriate taxing authority, whether they are imposed at the time the services are rendered or at a later time.

NOTICE ON THE USE OF SOCIAL SECURITY NUMBERS AS FEDERAL TAX IDENTIFICATION NUMBERS. DAS requires suppliers and contractors wishing to do business with the State to provide their Federal Taxpayer Identification Number to the Department. The Department does this so that it can perform statutorily required “responsibility” analyses on those suppliers and contractors doing business with the State and, under limited circumstances, for tax reporting purposes. If you are a supplier or contractor using your Social Security Number as your Federal Taxpayer Identification Number, please be aware that the information you submit is a public record, and the Department may be compelled by Ohio law to release Federal Taxpayer Identification Numbers as a public record. If you do not want to have your Social Security Number potentially disclosed as a Federal Taxpayer Identification Number, the Department encourages you to use a separate Employer Identification Number (EIN) obtained from the United States Internal Revenue Service’s to serve as your Federal Taxpayer Identification Number.

ELECTRONIC COMMERCE PROGRAM. The State of Ohio is an active participant in E-Commerce to include Electronic Data Interchange (EDI). This program will benefit both the State and the Contractor by reducing time delays in receiving invoices and making payments that are associated with the existing manual processes. The contractor is encouraged to move toward compliance with electronic commerce technologies as this will be the preferred method of doing business with the State of Ohio. Information regarding E-Commerce is available on the Office of Budget and Management's website at https://budget.ohio.gov/StateAccounting/edi/default.aspx for additional information regarding E-Commerce.
ATTACHMENT THREE: GENERAL TERMS AND CONDITIONS

PART TWO: WORK & CONTRACT ADMINISTRATION

RELATED CONTRACTS. The Contractor warrants that the Contractor has not and will not enter into any contracts without written approval of the State to perform substantially identical services for the State such that the Project duplicates the work done or to be done under the other contracts.

PROHIBITION OF THE EXPENDITURE OF PUBLIC FUNDS FOR OFFSHORE SERVICES. No State Cabinet, Agency, Board or Commission will enter into any contract to purchase services provided outside the United States or that allows State data to be sent, taken, accessed, tested, maintained, backed-up, stored, or made available remotely outside (located) of the United States. Notwithstanding any other terms of this Contract, the State reserves the right to recover any funds paid for services the Contractor performs outside of the United States for which it did not receive a waiver. The State does not waive any other rights and remedies provided the State in the Contract.

The Contractor must complete the Contractor/Subcontractor Affirmation and Disclosure form affirming the Contractor understands and will meet the requirements of the above prohibition. During the performance of this Contract, the Contractor must not change the location(s) disclosed on the Affirmation and Disclosure Form, unless a duly signed waiver from the State has been attained to perform the services outside the United States.

SUBCONTRACTING. The Contractor may not enter into subcontracts for the Work after award without written approval from the State. The Contractor will not need the State's written approval to subcontract for the purchase of commercial goods that are required for satisfactory completion of the Work. All subcontracts will be at the sole expense of the Contractor unless expressly stated otherwise in the RFP.

The State's approval of the use of subcontractors does not mean that the State will pay for them. The Contractor will be solely responsible for payment of its subcontractor and any claims of subcontractors for any failure of the Contractor or any of its other subcontractors to meet the performance schedule or performance specifications for the Project in a timely and professional manner. The Contractor will hold the State harmless for and will indemnify the State against any such claims. If the Contractor uses any subcontractors, each subcontractor must have a written agreement with the Contractor. That written agreement must incorporate this Contract by reference. The agreement must also pass through to the subcontractor all provisions of this Contract that would be fully effective only if they bind both the subcontractor and the Contractor. Among such provisions are the limitations on the Contractor’s remedies, the insurance requirements, record keeping obligations, and audit rights. Some sections of this Contract may limit the need to pass through their requirements to subcontracts to avoid placing cumbersome obligations on minor subcontractors. This exception is applicable only to sections that expressly provide exclusions for small-dollar subcontracts. Should the Contractor fail to pass through any provisions of this Contract to one of its subcontractors and the failure damages the State in any way, the Contractor will indemnify the State for the damage.

RECORD KEEPING. The Contractor will keep all financial records in accordance with generally accepted accounting procedures consistently applied. The Contractor will file documentation to support each action under this Contract in a manner allowing it to be readily located. The Contractor will keep all Project-related records and documents at its principal place of business or at its office where the work was performed.

The Contractor will keep a separate account for the Project (the "Project Account"). All payments made from the Project Account will be only for obligations incurred in the performance of this Contract and will be supported by contracts, invoices, vouchers, and any other data needed to audit and verify the payments. All payments from the Project Account will be for obligations incurred only after the effective date of this Contract unless the State has given specific written authorization for making prior payments from the Project Account.

AUDITS. During the term of this Contract and for three (3) years after the payment of the Contractor’s Fee, on reasonable notice and during customary business hours, the State may audit the Contractor’s records and other materials that relate to the Project. This audit right will also apply to the State’s duly authorized representatives and any person or organization providing financial support for the Project. Unless it is impracticable to do so, all records related to this Contract must be kept in a single location, either at the Contractor’s principle place of business or its place of business where the work was done. If this is not practical, the Contractor will assume the cost of collecting, organizing, and relocating the records and any technology needed to access the records to the Contractor’s office nearest Columbus whenever the State or anyone else with audit rights requests access to the Contractor’s Project records. The Contractor will do so with all due speed, not to exceed five (5) business days.
If any audit reveals any material deviation from the Project's specifications, any misrepresentation, or any overcharge to the State, the State will be entitled to recover damages, as well as the cost of the audit.

For each subcontract in excess of $25,000, the Contractor will require its subcontractors to agree to the requirements of this section and of the record-keeping section. Subcontracts with smaller amounts involved need not meet this requirement. The Contractor may not artificially break up contracts with its subcontractors to take advantage of this exclusion.

INSURANCE. Until all obligations under this Agreement or any Order are satisfied, and without limiting Contractor's indemnification obligations under Indemnity, Contractor shall provide and maintain the insurance policies set forth below. All commercial insurance required shall be provided by insurers with a rating of not less than A-VII from AM Best or a comparable rating agency. Contractor shall also cause each of its Subcontractors to comply with all requirements in this Section.

Coverage shall be at least as broad as:

1. Commercial General Liability (CGL): written on an "occurrence" basis, including products and completed operations, property damage, bodily injury and personal & advertising injury with limits no less than $1,000,000 per occurrence. If a general aggregate limit applies, either the general aggregate limit shall apply separately to this project/location or the general aggregate limit shall be twice the required occurrence limit. Defense costs shall be outside the policy limits.

2. Automobile Liability insurance covering, Code 1 (any auto), or if Contractor has no owned autos, Code 8 (hired) and 9 (non-owned), with a limit no less than $1,000,000 per accident for bodily injury and property damage.

3. Workers' Compensation insurance as required by the State of Ohio, or the state in which the work will be performed, with Statutory Limits, and Employer's Liability Insurance with a limit of no less than $1,000,000 per accident for bodily injury or disease. If Contractor is a sole proprietor, partnership or has no statutory requirement for workers' compensation, Contractor must provide a letter stating that it is exempt and agreeing to hold State of Ohio harmless from loss or liability for such.

4. Technology Errors and Omissions Insurance appropriate to the Contractor's profession, with limits not less than $2,000,000 per occurrence or claim, $2,000,000 aggregate. Coverage shall be sufficiently broad to respond to the duties and obligations as is undertaken by Contractor in this agreement and shall cover all applicable Contractor personnel or subcontractors who perform professional services related to this agreement.

5. Cyber liability (first and third party) with limits not less than $5,000,000 per claim, $5,000,000 aggregate. Coverage shall be sufficiently broad to respond to the duties and obligations as is undertaken by Contractor in this agreement and shall include, but not be limited to, claims involving infringement of intellectual property, including but not limited to infringement of copyright, trademark, trade dress, invasion of privacy violations, information theft, damage to or destruction of electronic information, release of private information, alteration of electronic information, extortion and network security. The coverage shall provide for breach response costs as well as regulatory fines and penalties and credit monitoring expenses with limits sufficient to respond to these obligations.

The insurance policies are to contain, or be endorsed to contain, the following provisions:

Additional Insured Status
Except for Workers' Compensation and Technology Errors and Omissions insurance, the State of Ohio, its officers, officials and employees are to be covered as additional insureds with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts, or equipment furnished in connection with such work or operations. Coverage can be provided in the form of an endorsement to the Contractor's insurance.

Primary Coverage
For any claims related to this contract, the Contractor's insurance coverage shall be primary insurance. Any insurance or self-insurance maintained by the State of Ohio, its officers, officials and employees shall be excess of the Contractor's insurance and shall not contribute with it.

Umbrella or Excess Insurance Policies
Umbrella or excess commercial liability policies may be used in combination with primary policies to satisfy the limit requirements above. Such Umbrella or excess commercial liability policies shall apply without any gaps in the limits of coverage and be at least as broad as and follow the form of the underlying primary coverage required above.
Notice of Cancellation
Contractor shall provide State of Ohio with 30 days' written notice of cancellation or material change to any insurance policy required above, except for non-payment cancellation. Material change shall be defined as any change to the insurance limits, terms or conditions that would limit or alter the State's available recovery under any of the policies required above. A lapse in any required insurance coverage during this Agreement shall be a breach of this Agreement.

Waiver of Subrogation
Contractor hereby grants to State of Ohio a waiver of any right to subrogation which any insurer of said Contractor may acquire against the State of Ohio by virtue of the payment of any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the State of Ohio has received a waiver of subrogation endorsement from the insurer.

Deductibles and Self-Insured Retentions
Deductibles and self-insured retentions must be declared to and approved by the State. The State may require the Contractor to provide proof of ability to pay losses and related investigations, claims administration and defense expenses within the retention. The policy language shall provide, or be endorsed to provide, that the deductible or self-insured retention may be satisfied by either the named insured or the State.

Insurance certificate, Acord Form 25, Certificate Holder block, must contain the following name and address:

State of Ohio
4200 Surface Road
Columbus, OH 43228

Claims Made Policies
If any of the required policies provide coverage on a claims-made basis:

1. The Retroactive Date must be shown and must be before the date of the contract or the beginning of contract work.
2. Insurance must be maintained and evidence of insurance must be provided for at least five (5) years after completion of the contract of work.
3. If coverage is canceled or non-renewed, and not replaced with another claims-made policy form with a Retroactive Date prior to the contract effective date, the Contractor must purchase "extended reporting" coverage for a minimum of five (5) years after completion of contract work. The Discovery Period must be active during the Extended Reporting Period.

Verification of Coverage
Contractor shall furnish the State of Ohio with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by the State of Ohio before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them. The State of Ohio reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

Subcontractors
Contractor shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Contractor shall ensure that State of Ohio is an additional insured on insurance required from subcontractors.

Special Risks or Circumstances
State of Ohio reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

STATE PERSONNEL. During the term of this Contract and for one (1) year after completion of the Project, the Contractor will not hire or otherwise contract for the services of any state employee involved with the Project.

REPLACEMENT PERSONNEL. If the Offeror's Proposal contains the names of specific people who will work on the Project, then the quality and professional credentials of those people were material factors in the State's decision to enter into this Contract. Therefore, the Contractor will use all commercially reasonable efforts to ensure the continued availability of those people. Also, the Contractor will not remove those people from the Project without the prior, written consent of the State except as provided below.

The Contractor may remove a person listed in its Proposal from the Project if doing so is necessary for legal or disciplinary reasons. The Contractor must make a reasonable effort to give the State 30 calendar days' prior, written notice of the removal.
The Contractor must have qualified replacement people available to replace any people listed by name in its Proposal. When the removal of a listed person is permitted under this Section, or if a person becomes unavailable, the Contractor will submit the resumes for two (2) replacement people for each person removed or who otherwise becomes unavailable. The Contractor will submit the two (2) resumes, along with such other information as the State may reasonably request, within five (5) business days after the decision to remove a person is made or the unavailability of a listed person becomes known to the Contractor.

The State will select one of the two proposed replacements or will reject both of them within ten business days after the Contractor has submitted the proposed replacements to the State. The State may reject the proposed replacements for any legal reason(s). Should the State reject both replacement candidates due to their failure to meet the minimum qualifications identified in the RFP, or should the Contractor fail to provide the notice required under this Section or fail to provide two (2) qualified replacement candidates for each removed or unavailable person, the Contractor will be in default and the cure period identified in the RFP, or should the Contract or fail to provide the notice required under this Section or fail to provide two (2) qualified replacement candidates for each removed or unavailable person, the Contractor will be in default and the cure period for default specified elsewhere in this Contract will not apply. In the event of such a default, the State will have the right to terminate this Contract and to have the damages specified elsewhere in this Contract for termination due to default.

The State may determine that proposed replacement candidates meet the minimum qualifications of this Contract and still substantially reduce the value the State perceived it would receive through the work of the original individual(s) the Contractor proposed and on whose credentials the State decided to enter into this Contract. Therefore, the State will have the right to reject any candidate that the State determines will provide it with diminished value.

Should the State reject both proposed candidates for any legal reason other than their failure to meet the minimum qualifications identified in the RFP, then such rejection may be deemed a termination for convenience.

The State has an interest in providing a healthy and safe environment for its employees and guests at its facilities. The State also has an interest in ensuring, and right to ensure, that its operations are carried out in an efficient, professional, legal, and secure manner. The State, therefore, will have the right to require the Contractor to remove any individual working on the Project if the State determines that any such individual has or may interfere with the State’s interests identified above. In such a case, the request for removal will be treated as a case in which an individual providing services under this Contract has substantially endangered through no fault of the State. In any such case, the termination will be for cause, and the State’s rights and remedies will provide it with diminished value.

Should the State reject both proposed candidates for any legal reason other than their failure to meet the minimum qualifications identified in the RFP, then such rejection may be deemed a termination for convenience.

CONTRACT NON-COMPLIANCE. A primary goal of the Agency is to assure that the program receives high quality services from the Contractor. To this end, the Agency will work in partnership with the Contractor(s) to meet this goal. The partnership is defined by the Contract and it is important that communication between the Contractor and state agencies be open and supportive. Should contract non-compliance be an issue, the Agency shall make every effort to resolve the problem.

1. Non-Compliance Issues. Contractor non-compliance with the specifications and terms and conditions outlined in the Contract may result in the imposition of remedies as explained below in paragraph 2.

   a. The Agency must be promptly notified of any procedural changes outside the technical requirements listed herein.

2. Resolution for Contract Non-Compliance. The Agency will be responsible for monitoring the Contractor's performance and compliance with the terms, conditions, and specifications of the contract.

   a. For any infractions not immediately remedied by the Contractor, the Agency will notify DAS through a Complaint to Supplier (CTV) to help resolve the infraction.

   b. DAS will impose upon the Contractor remedies for non-compliance regarding contract specifications and terms and conditions. Remedies imposed will be in proportion with the severity of the non-compliance and may be progressive in nature.

SUSPENSION AND TERMINATION. The State may terminate this Contract if the Contractor defaults in meeting its obligations under this Contract and fails to cure its default within the time allowed by this Contract, or if a petition in bankruptcy (or similar proceeding) has been filed by or against the Contractor. The State may also terminate this Contract if the Contractor violates any law or regulation in doing the Project, or if it appears to the State that the Contractor’s performance is substantially endangered through no fault of the State. In any such case, the termination will be for cause, and the State’s rights and remedies will be those identified below for termination for cause.

On written notice, the Contractor will have 30 calendar days to cure any breach of its obligations under this Contract, provided the breach is curable. If the Contractor fails to cure the breach within 30 calendar days after written notice or if the breach is not one that is curable, the State will have the right to terminate this Contract. The State may also terminate this Contract in the case of breaches that are cured within 30 calendar days but are persistent. “Persistent” in this context means that the State has notified the Contractor in writing of the Contractor’s failure to meet any of its obligations three (3) times. After the third notice, the State may terminate this Contract without a cure period if the Contractor again fails to meet any obligation. The three (3) notices do not have to relate to the same obligation or type of failure. Some provisions of this Contract may
provide for a shorter cure period than 30 calendar days or for no cure period at all. Those provisions will prevail over this one. If a particular section does not state what the cure period will be, this provision will govern.

The State may also terminate this Contract for its convenience and without cause or if the Ohio General Assembly fails to appropriate funds for any part of the Project. If a third party is providing funding for the Project, the State may also terminate this Contract should that third party fail to release any Project funds. The RFP identifies any third-party source of funds for the Project.

The notice of termination, whether for cause or without cause, will be effective as soon as the Contractor receives it. Upon receipt of the notice of termination, the Contractor will immediately cease all work on the Project and take all steps necessary to minimize any costs the Contractor will incur related to this Contract. The Contractor will also immediately prepare a report and deliver it to the State. The report must be all-inclusive; no additional information will be accepted following the initial submission. The report must detail the work completed at the date of termination, the percentage of the Project’s completion, any costs incurred in doing the Project to that date and any Deliverables completed or partially completed but not delivered to the State at the time of termination. The Contractor will also deliver all the completed and partially completed Deliverables to the State with its report. If delivery in that manner would not be in the State’s interest, then the Contractor will propose a suitable alternative form of delivery.

If the State terminates this Contract for cause, it will be entitled to cover for the Project by using another Contractor on such commercially reasonable terms as it and the covering contractor may agree. The Contractor will be liable to the State for all costs related to covering for the Project to the extent that such costs, when combined with payments already made to the Contractor for the Project before termination, exceed the costs that the State would have incurred under this Contract. The Contractor will also be liable for any other direct damages resulting from its breach of this Contract or other action leading to termination for cause.

If the termination is for the convenience of the State, the Contractor will be entitled to compensation for any work on the Project that the Contractor has performed before the termination. Such compensation will be the Contractor’s exclusive remedy in the case of termination for convenience and will be available to the Contractor only once the Contractor has submitted a proper invoice for such, with the invoice reflecting the amount determined to be owing to the Contractor by the State. The State will make that determination based on the lesser of the percentage of the Project completed or the hours of work performed in relation to the estimated total hours required to perform the entire applicable unit(s) of Work.

The State will have the option of suspending rather than terminating the Project where the State believes that doing so would better serve its interests. In the event of a suspension for the convenience of the State, the Contractor will be entitled to receive payment for the work performed before the suspension. In the case of suspension of the Project rather than termination for cause, the Contractor will not be entitled to any compensation for any work performed. If the State reinstates the Project after suspension for cause, rather than terminating this Contract after the suspension, the Contractor may be entitled to compensation for work performed before the suspension, less any damage to the State resulting from the Contractor’s breach of this Contract or other fault. Any amount due for work before or after the suspension for cause will be offset by any damage to the State from the default or other event giving rise to the suspension.

In the case of a suspension for the State’s convenience, the amount of compensation due to the Contractor for work performed before the suspension will be determined in the same manner as provided in this section for termination for the State’s convenience. The Contractor will not be entitled to compensation for any other costs associated with a suspension for the State’s convenience. No payment under this provision will be made to the Contractor until the Contractor submits a proper invoice.

Any notice of suspension, whether with or without cause, will be effective immediately on the Contractor’s receipt of the notice. The Contractor will prepare a report concerning the Project just as is required by this Section in the case of termination. After suspension of the Project, the Contractor will perform no work without the consent of the State and will resume work only on written notice from the State to do so. In any case of suspension, the State retains its right to terminate this Contract rather than to continue the suspension or resume the Project. If the suspension is for the convenience of the State, then termination of the Contract will be a termination for convenience. If the suspension is with cause, the termination will also be for cause.

The State will not suspend the Project for its convenience more than once during the term of this Contract, and any suspension for the State’s convenience will not continue for more than 30 calendar days. If the Contractor does not receive notice to resume or terminate the Project within the 30-day period, then this Contract will terminate automatically for the State’s convenience at the end of the 30-calendar day period.

Any default by the Contractor or one of its subcontractors will be treated as a default by the Contractor and all of its subcontractors. The Contractor will be solely responsible for satisfying any claims of its subcontractors for any suspension or termination and will indemnify the State for any liability to them. Each subcontractor will hold the State harmless for any damage caused to them from a suspension or termination. They will look solely to the Contractor for any compensation to which they may be entitled.
The Contractor may, at its discretion, request termination with a minimum 60-day notice in writing. The State will review the request and respond in writing to the Contractor with its findings.

**CONTRACT REMEDIES.**

1. **Actual Damages.** Contractor is liable to the State of Ohio for all actual and direct damages caused by Contractor’s default. The State may buy substitute supplies or services, from a third party, for those that were to be provided by Contractor. The State may recover the costs associated with acquiring substitute supplies or services, less any expenses or costs saved by Contractor’s default, from Contractor.

2. **Liquidated Damages.** If actual and direct damages are uncertain or difficult to determine, the State may recover liquidated damages in the amount of 1% of the value of the order, deliverable or milestone that is the subject of the default, for every day the default is not cured by Contractor.

3. **Deduction of Damages from Contract Price.** The State may deduct all or any part of the damages resulting from Contractor’s default from any part of the price still due on the contract, upon prior written notice being issued to the Contractor by the State.

**REPRESENTATIVES.** The State’s representative under this Contract will be the person identified in the RFP or a subsequent notice to the Contractor as the “Agency Project Representative”. The Agency Project Representative will review all reports made in the performance of the Project by the Contractor, will conduct all liaison with the Contractor, and will accept or reject the Deliverables and the complete Project. The Agency Project Representative may assign to a manager, responsibilities for individual aspects of the Project to act as the Agency Project Representative for those individual portions of the Project.

The Contractor’s Project Manager under this Contract will be the person identified in the Proposal as the “Project Manager.” The Project Manager will conduct all liaisons with the State under this Contract. Either party, upon written notice to the other party, may designate another representative. The Project Manager may not be replaced without the approval of the State if that individual is identified in the Proposal as a key individual on the Project.

**WORK RESPONSIBILITIES.** The State will be responsible for providing only those things expressly identified, if any, in the RFP. If the State has agreed to provide facilities or equipment, the Contractor, by signing this Contract, warrants that the Contractor has either inspected the facilities and/or equipment or has voluntarily waived an inspection and will work with the equipment and/or facilities on an “as is” basis.

The Contractor will assume the lead in the areas of management, design, and development of the Project. The Contractor will coordinate the successful execution of the Project and direct all Project activities on a day-to-day basis, with the advice and consent of the Agency Project Representative. The Contractor will be responsible for all communications regarding the progress of the Project and will discuss with the Agency Project Representative any issues, recommendations, and decisions related to the Project.

If the Project, or parts of it, requires installation on the State’s property, the State will provide the Contractor with reasonable access to the installation site for the installation and any site preparation that is needed. After the installation is complete, the Contractor will complete an installation letter and secure the signature of the Agency Project Representative certifying that installation is complete and the Project, or applicable portion of it, is operational. The letter will describe the nature, date, and location of the installation, as well as the date it was certified as installed and operational by the Agency Project Representative.

Unless otherwise provided in the RFP, the Contractor will be responsible for obtaining all official permits, approvals, licenses, certifications, and similar authorizations required by any local, state, or Federal agency for the Project and maintaining them throughout the duration of this Contract.

**CHANGES.** The State may make reasonable changes, within the general scope of the Project. The State will do so by issuing a written order under this Contract describing the nature of the change (“Change Order”). Additionally, if the State provides directions or makes requests of the Contractor without a change order, and the Contractor reasonably believes the directions or requests are outside the specifications for the Project, the Contractor will have the right to request a Change Order from the State. Scope of Work changes will be managed as follows: pricing will be provided from the Contractor to the State. The State will execute a Change Order once it and the Contractor have agreed on the description of and specifications for the change as well as any equitable adjustments that need to be made in the Contractor’s Fee or the performance schedule for the Work. Within five (5) business days after receiving the Change Order, the Contractor will sign it to signify agreement.

If a change causes an increase in the cost of, or the time required for, the performance of the Project, the Contractor will notify the State in writing and request an equitable adjustment in the Contractor’s Fee, the delivery schedule, or both before the Contractor signs the Change Order. If the Contractor claims an adjustment under this section in connection with a change to the Project not described in a written Change Order, the Contractor must notify the State of the claim within five (5) business
days after the Contractor is notified of the change and before work on the change begins. Otherwise, the Contractor will have waived the claim. In no event will the State be responsible for any increase in the Fee or revision in any delivery schedule unless the relevant change was specifically ordered in writing by the State and the Contractor has complied with the requirements of this section. Provided the State has complied with the procedure for Change Orders in this section, nothing in this clause will excuse the Contractor from proceeding with performance of the Project, as changed.

Where an equitable adjustment to the Contractor's Fee is appropriate, the State and the Contractor may agree upon such an adjustment. If the State and the Contractor are unable to agree, and the Contractor seeks an equitable adjustment in its Fee, either party may submit the dispute to the senior management of the Contractor and the State for resolution. If, within 30 calendar days following referral to senior management, the claim or dispute has not been resolved, only then will it be submitted to non-binding mediation (pursuant to the rules as stipulated by the American Arbitration Association). A claim or dispute must be submitted to non-binding mediation prior to the initiation of any formal legal process. Costs of mediation will be shared equally. Both parties further agree to use best efforts to resolve any claims or disputes arising during the performance of this Contract within 30 calendar days following the initiation of the dispute process. The resolved amount will be the not-to-exceed amount of the Change Order. If the change involves removing a requirement from the Project or replacing one part of the Project with the change, the State will get a credit for the work no longer required under the original scope of the Project. The credit will be calculated in the same manner as the Contractor's Fee for the change, and the not-to-exceed amount will be reduced by this credit.

The Contractor will be responsible for coordinating changes with its subcontractors and adjusting their compensation and performance schedule. The State will not pay any subcontractor for the Change Order. If a subcontractor will perform any work under a Change Order, that work must be included in the Contractor's not-to-exceed amount and calculated in the same manner as the Contractor's equitable adjustment for the portion of the work the Contractor will perform. The Contractor will not receive an overhead percentage for work a subcontractor will do under a Change Order.

EXCUSABLE DELAY. Neither party will be liable for any delay in its performance that arises from causes beyond its control and without its negligence or fault. The delayed party will notify the other promptly of any material delay in performance and will specify in writing the proposed revised performance date as soon as practicable after notice of delay. In the event of any such excusable delay, the date of performance or of delivery will be extended for a period equal to the time lost by reason of the excusable delay. The delayed party must also describe the cause of the delay and what steps it is taking to remove the cause. The delayed party may not rely on a claim of excusable delay to avoid liability for a delay if the delayed party has not taken commercially reasonable steps to mitigate or avoid the delay. Things that are controllable by the Contractor's subcontractors will be considered controllable by the Contractor, except for third-party manufacturers supplying commercial items and over whom Contractor has no legal control.

INDEPENDENT STATUS OF THE CONTRACTOR. It is fully understood and agreed that Contractor is an independent contractor and is not an agent, servant, or employee of the State of Ohio or the Ohio Department of Administrative Services. Contractor declares that it is engaged as an independent business and has complied with all applicable federal, state, and local laws regarding business permits and licenses of any kind, including but not limited to any insurance coverage, workers' compensation, or unemployment compensation that is required in the normal course of business and will assume all responsibility for any federal, state, municipal or other tax liabilities. Additionally, Contractor understands that as an independent contractor, it is not a public employee and is not entitled to contributions from the State to any public employee retirement system.

Contractor acknowledges and agrees any individual providing personal services under this agreement is not a public employee for purposes of Chapter 145 of the Ohio Revised Code. Unless Contractor is a “business entity” as that term is defined in O.R.C. 145.037 (“an entity with five or more employees that is a corporation, association, firm, limited liability company, partnership, sole proprietorship, or other entity engaged in business”) Contractor shall have any individual performing services under the agreement complete and submit to the ordering agency the Independent Contractor/Worker Acknowledgement found at the following link: [https://www.opers.org/forms-archive/PEDACKN.pdf#zoom=80](https://www.opers.org/forms-archive/PEDACKN.pdf#zoom=80).

Contractor's failure to complete and submit the Independent Contractor/Worker Acknowledgement prior to commencement of the work, service or deliverable, provided under this contract, shall serve as Contractor's certification that Contractor is a “Business entity” as the term is defined in O.R.C. 145.037.

Publicity. The Contractor will not advertise or publicize that it is doing business with the State or use this Contract or the Contractor's relationship with the State as a marketing or sales tool, unless the State agrees otherwise in writing.
ATTACHMENT THREE: GENERAL TERMS AND CONDITIONS

PART THREE: OWNERSHIP & HANDLING OF INTELLECTUAL PROPERTY & CONFIDENTIAL INFORMATION

CONFIDENTIALITY. The State may disclose to the Contractor written material or oral or other information that the State treats as confidential ("Confidential Information"). Title to the Confidential Information and all related materials and documentation the State delivers to the Contractor will remain with the State. The Contractor must treat such Confidential Information as secret if it is so marked, otherwise identified as such, or when, by its very nature, it deals with matters that, if generally known, would be damaging to the best interests of the public, other contractors or potential contractors with the State, or individuals or organizations about whom the State keeps information. By way of example, information should be treated as confidential if it includes any proprietary documentation, materials, flow charts, codes, software, computer instructions, techniques, models, information, diagrams, know-how, trade secrets, data, business records, or marketing information. By way of further example, the Contractor also must treat as confidential materials such as police and investigative records, files containing personal information about individuals or employees of the State, such as personnel records, tax records, and so on, court and administrative records related to pending actions, any material to which an attorney-client, physician-patient, or similar privilege may apply, and any documents or records expressly excluded by Ohio law from public records disclosure requirements.

The Contractor agrees not to disclose any Confidential Information to third parties and to use it solely to do the Project. The Contractor will restrict circulation of Confidential Information within its organization and then only to people in the Contractor's organization that have a need to know the Confidential Information to do the Project. The Contractor will be liable for the disclosure of such information whether the disclosure is intentional, negligent, or accidental, unless otherwise provided below.

The Contractor will not be liable for any unintentional disclosure of Confidential Information that results despite the Contractor's exercise of at least the same degree of care as it normally takes to safeguard its own secrets, except when the Contractor's procedures are not reasonable given the nature of the Confidential Information or when the disclosure nevertheless results in liability to the State.

The Contractor will not incorporate any portion of any Confidential Information into any work or product, other than a Deliverable, and will have no proprietary interest in any of the Confidential Information. Furthermore, the Contractor will cause all of its employees who have access to any Confidential Information to execute a confidentiality agreement incorporating the obligations in this section.

The Contractor's obligation to maintain the confidentiality of the Confidential Information will not apply where such: (1) Was already in the Contractor's possession before disclosure by the State, and such was received by the Contractor without obligation of confidence; (2) Is independently developed by the Contractor; (3) Is or becomes publicly available without breach of this Contract; (4) Is rightfully received by the Contractor from a third party without an obligation of confidence; (5) Is disclosed by the Contractor with the written consent of the State; or (6) Is released in accordance with a valid order of a court or governmental agency, provided that the Contractor (a) Notifies the State of such order immediately upon receipt of the order and (b) Makes a reasonable effort to obtain a protective order from the issuing court or agency limiting disclosure and use of the Confidential Information solely for the purposes intended to be served by the original order of production. The Contractor will return all originals of any Confidential Information and destroy any copies it has made on termination or expiration of this Contract.

The Contractor may disclose Confidential Information to its subcontractors on a need-to-know basis, but they will be obligated to the requirements of this section.

HANDLING OF THE STATE'S DATA. The Contractor must use due diligence to ensure computer and telecommunications systems and services involved in storing, using, or transmitting State data are secure and to protect that data from unauthorized disclosure, modification, or destruction. To accomplish this, the Contractor must:

1. Apply appropriate risk management techniques to ensure security for all sensitive data, including but not limited to any data identified as Confidential Information elsewhere in this Contract.
2. Ensure that its internal security policies, plans, and procedures address the basic security elements of confidentiality, integrity, and availability.
3. Maintain plans and policies that include methods to protect against security and integrity threats and vulnerabilities, as well as and detect and respond to those threats and vulnerabilities.
4. Maintain appropriate identification and authentication process for information systems and services associated with State data.
5. Maintain appropriate access control and authorization policies, plans, and procedures to protect system assets and other information resources associated with State data.
6. Implement and manage security audit logging on information systems, including computers and network devices.
The Contractor must maintain a robust boundary security capacity that incorporates generally recognized system hardening techniques. This includes determining which ports and services are required to support access to systems that hold State data, limiting access to only these points, and disable all others. To do this, the Contractor must use assets and techniques such as properly configured firewalls, a demilitarized zone for handling public traffic, host-to-host management, Internet protocol specification for source and destination, strong authentication, encryption, packet filtering, activity logging, and implementation of system security fixes and patches as they become available. The Contractor must use two-factor authentication to limit access to systems that contain particularly sensitive State data, such as personally identifiable data.

Unless the State instructs the Contractor otherwise in writing, the Contractor must assume all State data is both confidential and critical for State operations, and the Contractor's security policies, plans, and procedure for the handling, storage, backup, access, and, if appropriate, destruction of that data must be commensurate to this level of sensitivity. As part of the Contractor's protection and control of access to and use of data, the Contractor must employ appropriate intrusion and attack prevention and detection capabilities. Those capabilities must track unauthorized access and attempts to access the State's data, as well as attacks on the Contractor's infrastructure associated with the State's data. Further, the Contractor must monitor and appropriately address information from its system tools used to prevent and detect unauthorized access to and attacks on the infrastructure associated with the State's data.

The Contractor must use appropriate measures to ensure that State's data is secure before transferring control of any systems or media on which State data is stored. The method of securing the data must be appropriate to the situation and may include erasure, destruction, or encryption of the data before transfer of control. The transfer of any such system or media must be reasonably necessary for the performance of the Contractor's obligations under this Contract.

The Contractor must have a business continuity plan in place. The Contractor must test and update the IT disaster recovery portion of its business continuity plan at least annually. The plan must address procedures for response to emergencies and other business interruptions. Part of the plan must address backing up and storing data at a location sufficiently remote from the facilities at which the Contractor maintains the State's data in case of loss of that data at the primary site. The plan also must address the rapid restoration, relocation, or replacement of resources associated with the State's data in the case of a disaster or other business interruption. The Contractor's business continuity plan must address short- and long-term restoration, relocation, or replacement of resources that will ensure the smooth continuation of operations related to the State's data. Such resources may include, among others, communications, supplies, transportation, space, power and environmental controls, documentation, people, data, software, and hardware. The Contractor also must provide for reviewing, testing, and adjusting the plan on an annual basis.

The Contractor may not allow the State's data to be loaded onto portable computing devices or portable storage components or media unless necessary to perform its obligations under this Contract properly. Even then, the Contractor may permit such only if adequate security measures are in place to ensure the integrity and security of the data. Those measures must include a policy on physical security for such devices to minimize the risks of theft and unauthorized access that includes a prohibition against viewing sensitive or confidential data in public or common areas. At a minimum, portable computing device must have anti-virus software, personal firewalls, and system password protection. In addition, the State's data must be encrypted when stored on any portable computing or storage device or media or when transmitted from them across any data network. The Contractor also must maintain an accurate inventory of all such devices and the individuals to whom they are assigned.

Any encryption requirement identified in this provision must meet the Ohio standard as defined in Ohio IT standard ITS-SEC-01, “Data Encryption and Cryptography”.

The Contractor must have reporting requirements for lost or stolen portable computing devices authorized for use with State data and must report any loss or theft of such to the State in writing as quickly as reasonably possible. The Contractor also must maintain an incident response capability for all security breaches involving State data whether involving mobile devices or media or not. The Contractor must detail this capability in a written policy that defines procedures for how the Contractor will detect, evaluate, and respond to adverse events that may indicate a breach or attempt to attack or access State data or the infrastructure associated with State data.

In case of an actual security breach that may have compromised State data, including but not loss or theft of devices or media, the Contractor must notify the State in writing of the breach within 24 hours of the Contractor becoming aware of the breach, and fully cooperate with the State to mitigate the consequences of such a breach. This includes any use or disclosure of the State data that is inconsistent with the terms of this Contract and of which the Contractor becomes aware, including but not limited to, any recovery of a use or disclosure that is not consistent with this Contract by an employee, agent, or subcontractor of the Contractor.
The Contractor must give the State full access to the details of the breach and assist the State in making any notifications to potentially affected people and organizations that the State deems are necessary or appropriate. The Contractor must document all such incidents, including its response to them, and make that documentation available to the State on request. In addition to any other liability under this Contract related to the Contractor's improper disclosure of State data, and regardless of any limitation on liability of any kind in this Contract, the Contractor will be responsible for acquiring one year's identity theft protection service on behalf of any individual or entity whose personally identifiable information is compromised while it is in the Contractor's possession.

OWNERSHIP OF DELIVERABLES. All deliverables produced by the Contractor and covered by this Contract, including any software modifications, and documentation, shall be owned by the State, with all rights, title, and interest in all intellectual property that come into existence through the Contractor's custom work being assigned to the State. Additionally, the Contractor waives any author rights and similar retained interests in custom-developed material. The Contractor will provide the State with all assistance reasonably needed to vest such rights of ownership in the State. The Contractor will retain ownership of all tools, methods, techniques, standards, and other development procedures, as well as generic and preexisting shells, subroutines, and similar material incorporated in any custom Deliverable ("Pre-existing Materials") if the Contractor provides the non-exclusive license described in the next paragraph.

Any Commercial Material that the Contractor intends to deliver as a Deliverable must have the scope of the license granted in such material disclosed in the RFP or as an attachment referenced in the RFP, if that scope of license is different from the scope of license contained in this section for Commercial Materials.

LICENSE IN COMMERCIAL MATERIAL. As used in this section, "Commercial Material" means anything that has been developed at private expense by the Contractor or a third party, commercially available in the marketplace, subject to intellectual property rights, and readily copied through duplication on magnetic media, paper, or other media. Examples include written reports, books, pictures, videos, movies, computer programs, and computer source code and documentation.

Except for Commercial Material that is software ("Commercial Software"), if the Commercial Material is copyrighted and published material, then the State will have the rights permitted under the Federal copyright laws for each copy of the Commercial Material delivered to it by the Contractor.

Except for Commercial Software, if the Commercial Material is patented, then the State will have the rights permitted under the Federal patent laws for each copy of the Commercial Material delivered to it by the Contractor.

Except for Commercial Software, if the Commercial Material consists of trade secrets, then the State will treat the material as confidential. In this regard, the State will assume all obligations with respect to the Commercial Material that the Contractor assumes under the Confidentiality section of this Contract with respect to State secrets. Otherwise, the State will have the same rights and duties permitted under the Federal copyright laws for each copy of the Commercial Material delivered to it by the Contractor, whether or not the material is copyrighted when delivered to the State.

For Commercial Software, the State will have the rights in items (1) through (8) of this section with respect to the software. The State will not use any Commercial Software except as provided in items (1) through (8) of this section or as expressly stated otherwise in this Contract. The Commercial Software may be:

1. Used or copied for use in or with the computer or computers for which it was acquired, including use at any State installation to which such computer or computers may be transferred.
2. Used or copied for use in or with a backup computer for disaster recovery and disaster recovery testing purposes or if any computer for which it was acquired is inoperative.
3. Reproduced for safekeeping (archives) or backup purposes.
4. Modified, adapted, or combined with other computer software, but the modified, combined, or adapted portions of the derivative software incorporating any of the Commercial Software will be subject to same restrictions set forth in this Contract.
5. Disclosed to and reproduced for use on behalf of the State by support service contractors or their subcontractors, subject to the same restrictions set forth in this Contract.

6. Used or copied for use in or transferred to a replacement computer.

However:

7. If the Commercial Software delivered under this Contract is published and copyrighted, it is licensed to the State without disclosure prohibitions.

8. If any Commercial Software is delivered under this Contract with the copyright notice in 17 U.S.C. 401, it will be presumed to be published, copyrighted, and licensed to the State without disclosure restrictions, unless a statement substantially as follows accompanies such copyright notice: "Unpublished -- rights reserved under the copyright laws of the United States.” The State will treat such Commercial Software as Confidential Information to the extent that such is actually the case.
GENERAL WARRANTIES. The Contractor warrants that the recommendations, guidance, and performance of the Contractor under this Contract will: (1) Be in accordance with sound professional standards and the requirements of this Contract and restrictions that would otherwise interfere with an individual's ability to perform the contemplated services; (2) The Contractor will observe and abide by all applicable laws and regulations, including those of the State regarding conduct on any premises under the State's control; (4) The Contractor has good and marketable title to any goods delivered under this Contract and in which title passes to the State; (5) All hardware, software, firmware, and similar devices and materials provided under this Contract will be designed to operate without regard to the turning of a century and process dates in a manner that takes into account dates occurring before and after the turning of a century; and (6) The Contractor has the right and ability to grant the license granted in any Deliverable in which title does not pass to the State.

Additionally, with respect to the Contractor's activities under this Contract, the Contractor warrants that: (1) The Contractor has the right to enter into this Contract; (2) The Contractor has not entered into any other contracts or employment relationships with third-party licensor to maintain the Commercial Software and documentation to reflect changes in the subject matter the Contractor will observe and abide by all applicable laws and regulations, including those of the State regarding conduct on any premises under the State's control; (4) The Contractor has good and marketable title to any goods delivered under this Contract and in which title passes to the State; (5) All hardware, software, firmware, and similar devices and materials provided under this Contract will be designed to operate without regard to the turning of a century and process dates in a manner that takes into account dates occurring before and after the turning of a century; and (6) The Contractor has the right and ability to grant the license granted in any Deliverable in which title does not pass to the State.

The warranty regarding material defects is a 1-year warranty. All other warranties will be continuing warranties. If any portion of the Project fails to comply with these warranties, and the Contractor is so notified in writing, the Contractor will correct such failure with all due speed or will refund the amount of the compensation paid for such portion of the Project. The Contractor will also indemnify the State for any direct damages and claims by third parties based on a breach of these warranties. This obligation of indemnification will not apply where the State has modified or misused the Deliverable and the claim is based on the modification or misuse. The State agrees to give the Contractor notice of any such claim as soon as reasonably practicable. If a successful claim of infringement is made, or if the Contractor reasonably believes that an infringement claim is pending may actually succeed, the Contractor will do one (1) of the following four (4) things: (1) Modify the Deliverable so that it is no longer infringing; (2) Replace the Deliverable with an equivalent or better item; (3) Acquire the right for the State to use the infringing Deliverable as it was intended for the State to use under this Contract; or (4) Remove the Deliverable and refund the amount the State paid for the Deliverable and the amount of any other Deliverable or item that requires the availability of the infringing Deliverable for it to be useful to the State.

SOFTWARE WARRANTY. If this Contract involves software as a Deliverable, then, on acceptance and for 12 months after the date of acceptance of any Deliverable that includes software, the Contractor warrants as to all software developed under this Contract that: (a) the software will operate on the computer(s) for which the software is intended in the manner described in the relevant software documentation, the Contractor's Proposal, and the RFP; (b) the software will be free of any material defects; (c) the Contractor will deliver and maintain relevant and complete software documentation, commentary, and source code; and (d) the source code language used to code the software is readily available in the commercial market, widely used and accepted for the type of programming involved, and support programming in the language is reasonably available in the open market; and (e) the software and all maintenance will be provided in a professional, timely, and efficient manner.

For Commercial Software licensed from a third party that is incorporated in a Deliverable, the Contractor represents and warrants that it has done 1 of the following 3 things: (a) obtained the right from the third-party licensor to commit to the warranties and maintenance obligations in this Section; (b) obtained a binding commitment from the licensor to make those warranties and maintenance obligations directly to the State; or (c) fully disclosed in the RFP any discrepancies between the requirements of this section and the commitment the third-party licensor has made.

In addition, for Commercial Software that is incorporated in a Deliverable, the Contractor will: (a) maintain or cause the third-party licensor to maintain the Commercial Software so that it operates in the manner described in the RFP (or any attachment referenced in the RFP) and relevant Commercial Software documentation; (b) supply technical bulletins and updated user guides; (c) supply the State with updates, improvements, enhancements, and modifications to the Commercial Software and documentation and, if available, the commentary and the source code; (d) correct or replace the Commercial Software and/or remedy any material programming error that is attributable to the Contractor or the third-party license; (e) maintain or cause the third-party licensor to maintain the Commercial Software and documentation to reflect changes in the subject matter the Commercial Software deals with; (f) maintain or obtained a commitment from the third-party licensor to maintain the Commercial Software so that it will properly operate in conjunction with changes in the operating environment in which it is designed to operate.

For purposes of the warranties and the delivery requirements in this Contract, software documentation means well written, readily understood, clear, and concise instructions for the software's users as well as a system administrator. The software documentation will provide the users of the software with meaningful instructions on how to take full advantage of all of the capabilities designed for end users. It also means installation and system administration documentation for a system administrator to allow proper control, configuration, and management of the software. Source code means the uncompiled operating instructions for the entire System. The Contractor will not be obligated to provide source code for Commercial Software unless it is readily available from the licensor. The source code will be provided in the language in which it was
written and will include commentary that will allow a competent programmer proficient in the source language to readily interpret the source code and understand the purpose of all routines and subroutines contained within the source code.

**EQUIPMENT WARRANTY.** If any electrical equipment, mechanical device, computer hardware, telecommunications hardware, or other type of physical machinery ("Equipment") will be a part of any Deliverable, the following warranties apply. The Contractor warrants that the Equipment fully complies with all government environmental and safety standards applicable to the Equipment. The Contractor also warrants for 1 year from the acceptance date of the Equipment that the Equipment will perform substantially in accordance with specifications described in the RFP, the user manuals, technical materials, and related writings published by the manufacturer for the Equipment. The foregoing warranties will not apply to Equipment that is modified or damaged after title passes to the State.

The Contractor will notify the State in writing immediately upon the discovery of any breach of the warranties given above. The Contractor's will do the following if any Equipment does not meet the above warranties:

1. Cause the Equipment to perform as required, or, if that is not commercially practicable, then;
2. Grant the State a refund equal to the amount the State paid for the Equipment or, if such has not been individually priced, the manufacturer's suggested retail price for the Equipment.

Except where the Contractor's breach of a warranty makes it not possible for the State to do so, the State will return the affected Equipment to the Contractor in the case of a refund under the previous paragraph.

**GENERAL EXCLUSION OF WARRANTIES.** The State makes no warranties, express or implied, other than those express warranties contained in this contract. The contractor also makes no warranties of merchantability or fitness for a particular purpose except as follows: If the Contractor has been engaged under the scope of work in the RFP to design something to meet a particular need for the State, then the Contractor does warrant that the contractor's work will meet the stated purpose for that work.

**INDEMNITY.** The Contractor will indemnify the State for any and all claims, damages, law suits, costs, judgments, expenses, and any other liabilities resulting from bodily injury to any person (including injury resulting in death) or damage to property that may arise out of or are related to Contractor's performance under this Contract, providing such bodily injury or property damage is due to the negligence of the Contractor, its employees, agents, or subcontractors. The Contractor will also indemnify the State against any claim of infringement of a copyright, patent, trade secret, or similar intellectual property rights based on the State's proper use of any Deliverable under this Contract. This obligation of indemnification will not apply where the State has modified or misused the Deliverable and the claim of infringement, is based on the modification or misuse. The State agrees to give the Contractor notice of any such claim as soon as reasonably practicable and to give the Contractor the authority to settle or otherwise defend any such claim upon consultation with and approval by the Office of the State Attorney General. If a successful claim of infringement is made, or if the Contractor reasonably believes that an infringement claim that is pending may actually succeed, the Contractor will take one (1) of the following four (4) actions:

1. Modify the Deliverable so that is no longer infringing.
2. Replace the Deliverable with an equivalent or better item.
3. Acquire the right for the State to use the infringing Deliverable as it was intended for the State to use under this Contract.
4. Remove the Deliverable and refund the fee the State paid for the Deliverable and the fee for any other Deliverable that required the availability of the infringing Deliverable for it to be useful to the State.

**LIMITATION OF LIABILITY.** Notwithstanding any limitation provisions contained in the documents and materials incorporated by reference into this contract, the parties agree as follows:

1. Neither party will be liable for any indirect, incidental or consequential loss or damage of any kind including but not limited to lost profits, even if the parties have been advised, knew, or should have known of the possibility of damages.
2. The contractor further agrees that the contractor shall be liable for all direct damages due to the fault or negligence of the contractor.
STANDARDS OF PERFORMANCE AND ACCEPTANCE. If the RFP does not provide otherwise, the acceptance procedure will be an informal review by the Agency Project Representative to ensure that each Deliverable and the Project as a whole comply with the requirements of this Contract. The Agency Project Representative will have up to 30 calendar days to do this. No formal letter of acceptance will be issued, and passage of the 30 calendar days will imply acceptance, though the State will issue a notice of noncompliance if a Deliverable or the Project as a whole does not meet the requirements of this Contract. If the Agency Project Representative issues a letter of noncompliance, then the Contractor will have 30 calendar days to correct the problems listed in the noncompliance letter. If the Contractor fails to do so, the Contractor will be in default without a cure period. If the Agency Project Representative has issued a noncompliance letter, the Deliverables or the Project as a whole will not be accepted until the Agency Project Representative issues a letter of acceptance indicating that each problem noted in the noncompliance letter has been cured. If the problems have been fixed during the 30-day period, the Agency Project Representative will issue the acceptance letter within 15 calendar days.

If the Project fails to meet the standard of performance after 90 calendar days from the start of the performance period, the Contractor will be in default and will not have a cure period. In addition to all other remedies the State may have under this Contract, the State will have the right to request correction or replacement of the relevant portion of the Project.
ATTACHMENT THREE: GENERAL TERMS AND CONDITIONS

PART SIX: CONSTRUCTION

ENTIRE DOCUMENT. This Contract is the entire agreement between the parties with respect to the subject matter and supersedes any previous statements or agreements, whether oral or written.

BINDING EFFECT. This Contract will be binding upon and inure to the benefit of the respective successors and assigns of the State and the Contractor.

AMENDMENTS – WAIVER. No change to any provision of this Contract will be effective unless it is in writing and signed by both parties. The failure of either party at any time to demand strict performance by the other party of any of the terms of this Contract will not be a waiver of those terms. Waivers must be in writing to be effective. Either party may at any later time demand strict performance.

SEVERABILITY. If any provision of this Contract is held by a court of competent jurisdiction to be contrary to law, the remaining provisions of this Contract will remain in full force and effect to the extent that such does not create an absurdity.

CONSTRUCTION. This Contract will be construed in accordance with the plain meaning of its language and neither for nor against the drafting party.

HEADINGS. The headings used herein are for the sole sake of convenience and will not be used to interpret any section.

NOTICES. For any notice under this Contract to be effective it must be made in writing and sent to the address of the appropriate contact provided elsewhere in the Contract, unless such party has notified the other party, in accordance with the provisions of this section, of a new mailing address. This notice requirement will not apply to any notices that this Contract expressly authorized to be made orally.

CONTINUING OBLIGATIONS. The terms of this Contract will survive the termination or expiration of the time for completion of Project and the time for meeting any final payment of compensation, except where such creates an absurdity.
ATTACHMENT THREE:  GENERAL TERMS AND CONDITIONS
PART SEVEN:  LAW & COURTS

COMPLIANCE WITH LAW.  The Contractor agrees to comply with all applicable federal, state, and local laws in the conduct of the Work.

DRUG-FREE WORKPLACE.  The Contractor will comply with all applicable state and Federal laws regarding keeping a drug-free workplace. The Contractor will make a good faith effort to ensure that all the Contractor employees, while working on state property, will not have or be under the influence of illegal drugs or alcohol or abuse prescription drugs in any way.

CONFLICTS OF INTEREST.  No Personnel of the Contractor may voluntarily acquire any personal interest that conflicts with their responsibilities under this Contract. Additionally, the Contractor will not knowingly permit any public official or public employee who has any responsibilities related to this Contract or the Project to acquire an interest in anything or any entity under the Contractor’s control if such an interest would conflict with that official’s or employee’s duties. The Contractor will disclose to the State knowledge of any such person who acquires an incompatible or conflicting personal interest related to this Contract. The Contractor will take steps to ensure that such a person does not participate in any action affecting the work under this Contract. This will not apply when the State has determined, in light of the personal interest disclosed, that person’s participation in any such action would not be contrary to the public interest.

OHIO ETHICS AND ELECTIONS LAW.

1. Ethics Law

   All Contractors who are actively doing business with the State of Ohio or who are seeking to do business with the State of Ohio are responsible to review and comply with all relevant provisions of O.R.C. Sections 102.01 to 102.09. Contractor certifies that it is currently in compliance and will continue to adhere to the requirements of Ohio ethics laws.

2. Political Contributions

   The Contractor affirms in its cover letter that, as applicable to the Contractor, all personal and business associates are in compliance with Chapter 3517 of the Revised Code regarding limitations on political contributions and will remain in compliance for the duration of the Contract and with all applicable provisions that extend beyond the expiration of the Contract.

EQUAL EMPLOYMENT OPPORTUNITY.  The Contractor will comply with all state and federal laws regarding equal employment opportunity, including O.R.C. Section 125.111 and all related Executive Orders.

Before a contract can be awarded or renewed, an Affirmative Action Program Verification Form must be completed using the Ohio Business Gateway Electronic Filing website http://gateway.ohio.gov. Contractor must verify compliance on an annual basis for the duration of any contract. Approved Affirmative Action Plans can be found by going to the Equal Opportunity Division’s web site: https://eodreporting.oit.ohio.gov/affirmative-action.

INJUNCTIVE RELIEF.  Nothing in this Contract is intended to limit the State's right to injunctive relief if such is necessary to protect its interests or to keep it whole.

ASSIGNMENT.  The Contractor may not assign this Contract or any of its rights or obligations under this Contract without the prior, written consent of the State.

GOVERNING LAW.  This Contract will be governed by the laws of Ohio, and venue for any disputes will lie exclusively with the appropriate court in Franklin County, Ohio.

ORC 9.76(B).  Pursuant to Ohio Revised Code 9.76 (B) Contractor warrants that Contractor is not boycotting any jurisdiction with whom the State of Ohio can enjoy open trade, including Israel, and will not do so during the contract period.
This Contract, which results from RFP CSP901121, entitled Real-Time Syndromic Surveillance Program is between the State of Ohio, through the Department of Administrative Services, Office of Procurement Services, on behalf of the Ohio Department of Health (the “State”) and

_______________________________

(the “Contractor”).

If this RFP results in a contract award, the Contract will consist of this RFP including all attachments, written addenda to this RFP, the Contractor’s proposal, and written, authorized addenda to the Contractor’s proposal. It will also include any materials incorporated by reference in the above documents and any purchase orders and change orders issued under the Contract. The form of the Contract is this one (1) page attachment to the RFP, which incorporates by reference all the documents identified above. The general terms and conditions for the Contract are contained in another attachment to the RFP. If there are conflicting provisions between the documents that make up the Contract, the order of precedence for the documents is as follows:

1. This RFP, as amended;
2. The documents and materials incorporated by reference in the RFP;
3. The Contractor’s Proposal, as amended, clarified, and accepted by the State; and
4. The documents and materials incorporated by reference in the Contractor’s Proposal.

Notwithstanding the order listed above, change orders and amendments issued after the Contract is executed may expressly change the provisions of the Contract. If they do so expressly, then the most recent of them will take precedence over anything else that is part of the Contract.

This Contract has an effective date of the later of September 1, 2020 or the occurrence of all conditions precedent specified in the General Terms and Conditions.

IN WITNESS WHEREOF, the parties have executed this Contract as of the dates below.

ATTACHMENT EIGHT
OFFEROR PERFORMANCE FORM

The Offeror must provide the following information for this section for the past seven (7) years. Please indicate yes or no in each column.

<table>
<thead>
<tr>
<th>Yes/No</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>The Offeror has had a contract terminated for default or cause. If so, the Offeror must submit full details, including the other party's name, address, and telephone number.</td>
</tr>
<tr>
<td></td>
<td>The Offeror has been assessed any penalties in excess of five thousand dollars ($5,000), including liquidated damages, under any of its existing or past contracts with any organization (including any governmental entity). If so, the Offeror must provide complete details, including the name of the other organization, the reason for the penalty, and the penalty amount for each incident.</td>
</tr>
<tr>
<td></td>
<td>The Offeror was the subject of any governmental action limiting the right of the Offeror to do business with that entity or any other governmental entity.</td>
</tr>
<tr>
<td></td>
<td>Has trading in the stock of the company ever been suspended? If so, provide the date(s) and explanation(s).</td>
</tr>
<tr>
<td></td>
<td>The Offeror, any officer of the Offeror, or any owner of a twenty percent (20%) interest or greater in the Offeror has filed for bankruptcy, reorganization, a debt arrangement, moratorium, or any proceeding under any bankruptcy or insolvency law, or any dissolution or liquidation proceeding.</td>
</tr>
<tr>
<td></td>
<td>The Offeror, any officer of the Offeror, or any owner with a twenty percent (20%) interest or greater in the Offeror has been convicted of a felony or is currently under indictment on any felony charge.</td>
</tr>
</tbody>
</table>

If the answer to any item above is affirmative, the Offeror must provide complete details about the matter. While an affirmative answer to any of these items will not automatically disqualify an Offeror from consideration, at the sole discretion of the State, such an answer and a review of the background details may result in a rejection of the Offeror's proposal. The State will make this decision based on its determination of the seriousness of the matter, the matter's possible impact on the Offeror's performance on the project, and the best interests of the State.
### ATTACHMENT NINE

**COST SUMMARY FORM**

Real-Time Syndromic Surveillance Program

CSP901121

UNSPSC CATEGORY CODE: 81000000

BUDGET: $700,000

<table>
<thead>
<tr>
<th>DESCRIPTION</th>
<th>ESTIMATED USAGE</th>
<th>UNIT OF MEASURE</th>
<th>COST</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Base Contract – Includes the annual charge for establishing and performing activities as provided in the Scope of Work</td>
<td>1-time, annual fee</td>
<td>Per Year</td>
<td>$</td>
</tr>
<tr>
<td>2. Per facility cost for new facilities to test and onboard. Costs should include establishing secure electronic delivery and troubleshooting, testing messages, maintenance of existing data feeds, storage and analysis of data, making analysis available to end-users, review and refinement of classifiers, canned reports, ad hoc query area, dashboards, and publications as outlined in the Scope of Work.</td>
<td>1 Facility</td>
<td>Per Facility</td>
<td>$</td>
</tr>
<tr>
<td>3. Per facility costs to be charged ODH for the maintenance of existing data feeds, storage and analysis of data, making analysis available to end-users, review and refinement of classifiers, canned reports, ad hoc query area, dashboards, and publications as outlined in the Scope of Work. Ohio has two instances of “shared” facilities defined as one facility that has two ED. For this purpose of cost, “shared” facilities count as one facility.</td>
<td>1 Facility</td>
<td>Per Facility</td>
<td>$</td>
</tr>
<tr>
<td>4. Data Transfer – Indicate the cost to ODH for transmitting data to the National Syndromic Surveillance Program at the Centers for Disease Control and Prevention and to other states or commonwealths as outlined in the Scope of Work.</td>
<td>1-time, annual fee</td>
<td>Per Year</td>
<td>$</td>
</tr>
<tr>
<td>5. Reportable Disease Analysis – Indicate the cost to be charged to ODH for receiving reportable disease data from the Ohio's infectious disease reporting systems in near-real time, provide analytic tools for system users, temporal spatial analysis, and provide alerting capabilities for Class A reportable diseases as outlined in the Scope of Work.</td>
<td>1-time, annual fee</td>
<td>Per Year</td>
<td>$</td>
</tr>
<tr>
<td>6. Poison Control Data – Indicate the cost to be charged to ODH for obtaining queried data from the National Poison Data System (NPDS) in near-real time, provide analytic tools for system users, temporal spatial analysis as outlined in the Scope of Work</td>
<td>1-time, annual fee</td>
<td>Per Year</td>
<td>$</td>
</tr>
<tr>
<td>7. Data Transfer – Indicate the annual cost to be charged to ODH for setting up, testing, and transmitting data to Ohio's Secure Health Data Portal (Innovate Ohio), ODH and other state/commonwealth jurisdictions as outlined in the Scope of Work.</td>
<td>1-time, annual fee</td>
<td>Per Year</td>
<td>$</td>
</tr>
</tbody>
</table>

All costs must be in U.S. Dollars.  
The State will not be responsible for any costs not identified.  
There will be no additional reimbursement for travel or other related expenses.
SUPPLEMENT ONE
OHIO’S SYNDROMIC SURVEILLANCE INFORMATION

Supplement A: Ohio's Syndromic Surveillance Technical Specifications version 2 or current version are available off of the Syndromic Surveillance Policy webpage. Syndromic Surveillance Policy webpage may change due to state vendor changes or program realignment.

Supplement B: Data to Extract on Healthcare Visits from Submitters' Files and Fields to Provide in the Offeror's User Interface

Supplement C: Filtering Fields for Dashboards, Temporal-Spatial Analyses, and Ad Hoc Queries, by Data Set

Supplement D: Age Group Standards for Reporting and Analytics

Supplement E: Opioid-Related Classifiers, Tables, Reports, and Dashboards

Supplement F: Suicide-Related Classifiers, Tables, Reports, and Dashboards

Supplement G: Infectious Disease Classifiers, Tables, Reports, and Dashboards

Supplement H: Ohio Opioid Related Classifiers
21. **Supplement S Response – State Information Security and Privacy Requirements, State Data Handling Requirements.** Offerors must include a fully completed copy of Supplement Two in this section of their proposal. Offerors must follow the completion instructions contained in the supplement when preparing their response. When responding, Offerors should note the redaction process described in the RFP section entitled “Proposal Submittal.” This section is located within the General Instructions (Part 3) of the RFP.

22. **Supplement 3 Response – Ohio Department of Health Data Sharing and Confidentiality Agreement.** Offerors must include a fully completed copy of Supplement Two in this section of their proposal. Offerors must sign the Signature Page contained in the supplement when preparing their response. When responding, Offerors should not the redaction process described in the RFP section entitled “Proposal Submittal.” This section is located within the General Instructions (Part 3) of the RFP.
