OCC's Professional Services Terms and Conditions Exhibit A

PART ONE: PROJECT BACKGROUND

Purpose. This is a Request for Proposal (“RFP”) issued by the Office of the Ohio Consumers’ Counsel (“OCC”) to solicit bids from Independent Contractors for technical assistance with evaluation of the Ohio Power Company’s amended application for a Power Purchase Agreement (“PPA”) filed with the Public Utilities Commission of Ohio (“PUCO”) on May 15, 2015, in Case No. 14-1693-EL-RDR. This RFP focuses on evaluating whether the PPA is consistent with the regulatory scheme in Ohio, as set by S.B. 3 and S.B. 221.

On February 25, 2015, in Case No. 13-2385-EL-SSO, the PUCO issued an Opinion and Order (the “February 25 Order”) modifying and approving an Electric Security Plan (“ESP”) for Ohio Power Company (“AEP Ohio” or “the Utility”). The February 25 Order set AEP Ohio’s Standard Service Offer (“SSO”) rates from June 1, 2015, through May 31, 2018. The PUCO in that decision declined to adopt AEP Ohio’s proposed PPA; however, the PUCO authorized the establishment of a placeholder PPA rider, at the initial rate of zero. It ruled that AEP Ohio would have to seek further approval of PPAs in future filings before the PUCO.

The PUCO’s February 25 Order set forth several new factors it may use in deciding whether to approve future PPAs. Those factors are as follows: (1) financial need of the generating plant; (2) necessity of the generating facility, in light of future reliability concerns, including supply diversity; (3) description of how the generating plant is compliant with all pertinent environmental regulations and its plan for compliance with pending environmental regulations; and (4) the impact that a closure of the generating plant would have on electric prices and the resulting effect on economic development within the state of Ohio. The PUCO also established guidelines concerning reliability and pricing issues as they relate to AEP Ohio’s revised application. Specifically, AEP Ohio must, in its amended PPA rider proposal, provide for rigorous PUCO review of the rider, including a proposed process for a periodic substantive review and audit; a commitment to full information sharing with the PUCO and its Staff; and an alternative plan to allocate the rider’s financial risk between both the Utility and its ratepayers. AEP Ohio was also instructed to include a severability provision that recognizes that all other provisions of its ESP will continue, in the event that the PPA rider is invalidated, in whole or in part at any point, by a court of competent jurisdiction.

AEP Ohio’s revised PPA proposal reflects that the Utility intends to enter into a PPA with AEP Generation Resources (“AEPGR”) for the output and costs (including a guaranteed return) of several specific generating units (“PPA Units” or “involved facilities”), which includes approximately 3100MW of generation output (or approximately 1/3 of its total generation in Ohio). Recovery of charges for the guaranteed purchase of the PPA generation output is to be collected from the Utility’s customers via a non-bypassable surcharge (or credit). AEP Ohio will, in turn, offer the output of the involved generation units into the PJM Interconnection, L.L.C. (“PJM”) markets for sale. Revenue shortfalls associated with the guaranteed purchase and sale of the generation will be billed to customers via a non-bypassable surcharge. Revenue surpluses will take the form of a bill credit.

AEP Ohio proposes a fixed capital structure of 50% long-term debt and 50% equity. While the Affiliated PPA generating assets transferred on December 31, 2013, AEPGR has not yet permanently financed the assets. Thus, AEP Ohio proposes proxy rates for the cost of debt, which would be used until 2017. AEP Ohio proposes floating Return on Equity (ROE) based on the daily Moody’s index for the month of December of the preceding calendar year, plus 650 basis points. An ROE band of 8.9% to 15.0% is proposed. The term of the PPA will be for the economic lives of the involved facilities.

AEP Ohio maintains that its revised PPA proposal meets all of the PUCO’s new factors and guidelines adopted in its February 25 Order for PPA approval. Specifically, AEP Ohio maintains that, among other things, its

RFP 2016-06 AMENDED

amended PPA proposal presents a significant financial hedge that can truly stabilize retail rates. AEP Ohio further submits that its amended PPA proposal yields substantial benefits to Ohio's economy via the preservation of tax and local economic benefits of the facilities remaining operational. The Utility further contends that its plan will assist the economic development by attracting new business to Ohio through stable electric rates. The Utility estimates that over a 10-year term, the involved PPAs could yield at least \$574 million in customer credits and avoid \$1.6 billion in unnecessary transmission upgrades if the PPA generation facilities were to close. Finally, AEP Ohio contends that if the PUCO fails to adopt the proposed PPAs, it will cede regulatory authority and flexibility to the federal government. The Utility alleges that the revised proposed PPAs will deliver the supply of stable and reasonably-priced power for years to come.

Background. The OCC plays an integral part in Ohio's government and economy by fulfilling its role as the advocate agency for residential utility consumers. Established in 1976, the OCC's services for Ohio consumers include advocacy on their behalf on issues involving the affordability and quality of their utility services. OCC also provides education for consumers regarding their utility services.

The law governing the agency's activities is contained in Chapter 4911 of the Ohio Revised Code.

PART THREE: SCOPE OF WORK AND DELIVERABLES

This section describes the scope of work and deliverables for what the selected Independent Contractor must deliver as part of the completed work (the "Deliverables") to meet the terms and conditions of a subsequent contract.

Scope of Work. Upon request by an OCC employee, the selected Independent Contractor will, with input and assistance from OCC staff, perform specific tasks, as specifically requested by OCC, to assist in representation of the interests of Ohio's residential consumers to address specific issues related to AEP Ohio's amended PPA application filed on May 15, 2015, at the PUCO in Case No. 14-1693-EL-RDR. The selected Independent Contractor will also address policy issues related to the appropriateness of the amended PPA application. In light of the regulatory scheme established in Ohio under S.B. 3 and S.B. 221. This project will address whether AEP Ohio's consumers should fund the operations of the involved generation facilities, in spite of the fact that there currently exists a deregulated competitive market for electric generation service in the state of Ohio. The purpose of the project is to determine: (1) the effect the Utilities' proposal will have on generation rates and services in the state of Ohio and in AEP Ohio's service territory; (2) the effect the Utilities' proposal will have on the state of Ohio's economy, as compared to not funding the facilities; and (3) the effect the Utilities' proposal will have on the state of competition for generation services provided to Ohio's consumers. Such determinations should be made in the context of the State of Ohio's deregulation of electricity generation and transition to a competitive market therefor. The Independent Contractor may also be requested to assist legal counsel to provide analysis concerning the extent of the state of Ohio's jurisdiction over these deregulated generation facilities after the filing is made at and approved by the Federal Energy Regulatory Commission.

AEP Ohio proposes, among other things, to purchase all the energy, capacity, and ancillary services from the following generation units: Cardinal 1; Conesville 4, 5, and 6; Stuart 1, 2, 3, and 4; and the Utility's share of the W.H. Zimmer 1 facility. The Utilities also propose to purchase the output resulting from its entitlement and interest in the Ohio Valley Electric Corporation ("OVEC"). That is, the generation outputs of these "involved facilities" are to be purchased by the Utilities on an operating cost-plus basis to include: fuel expenses, operations and maintenance expenses, depreciation, taxes, and a guaranteed return on equity. AEP Ohio proposes floating Return on Equity (ROE) based on the daily Moody's index for the month of December of the preceding calendar year, plus 650 basis points. An ROE band of 8.9% to 15.0% is proposed. AEP Ohio proposes to offer the involved generation (capacity, energy, and ancillary services) into PJM's various markets for generation services. All revenues from any sales will be used to offset the costs of the facilities. The term of the individual PPAs will be for the economic lives of the involved facilities. The Utilities' proposal to fund these generation facilities is entitled the PPA Rider, which can be located online at the following URL: <http://dis.puc.state.oh.us/> by entering "14-1693" in the search dialog box. Witness Vegas' testimony begins the initial dialog regarding the revised PPA. Witness Allen provides additional details regarding the proposal and related issues.

Deliverables and Duties. The selected Independent Contractor will need to assess the involved economics of AEP Ohio's proposal and provide an in-depth analysis and whether such proposal is consistent with S.B. 3 as passed by the Ohio 123rd General Assembly in 1999 and S.B. 221 adopted by the Ohio 127th General Assembly in 2008. In addition, the Independent Contractor will need to present his/her assessment and recommendations through written testimony and defend such testimony at depositions and hearings. Among other things, such written testimony shall include a dialog and analysis concerning AEP Ohio's phase in to competition the over the ten-year transition period and the PUCO-approved capacity deferral charge and the retail stability rider. The testimony must also include analysis and dialog

RFP 2016-06 AMENDED

as to whether AEP Ohio should be permitted to collect potentially above-market charges for deregulated generation through non-bypassable charges to captive local distribution company customers, and whether such a transfer of risk to captive customers for unregulated services is appropriate and is consistent with sound regulatory policy. In addition, the analysis shall include dialog as to whether AEP Ohio's proposal is consistent with Ohio's laws, including S.B.3 and S.B.221. Moreover, the analysis and dialog addressed by the testimony must include a discussion concerning whether the proposed PPA rider (and its associated revenue guarantees) and the RRS contradicts the legislative intent and the policy goals of electric deregulation in the state of Ohio, and whether the proposed RRS advances the state's policies of ensuring reasonably priced retail electric service and diversity of electric suppliers. The selected Independent Contractor or the (approved by OCC) Independent Contractor's Subcontractor, shall also be responsible for the following:

Deliverables

- a) Timely review and evaluation of AEP Ohio's Application, Testimony of certain witnesses and Exhibits filed in this proceeding on May 15, 2015, and any subsequently filed documentation;
- b) The preparation of timely discovery questions (interrogatories and requests for documents) for the purpose of obtaining any other additional information the Independent Contractor deems necessary to fully evaluate the issues, perform analysis, make recommendations, and prepare testimony supporting such recommendations;
- c) Timely Review responses to discovery questions, prepare additional discovery questions if necessary, and incorporate responses into evaluation;
- d) Prepare timely written direct testimony and, if necessary, supplemental or rebuttal testimony to any witness in this proceeding (including the Utilities, PUCO Staff and intervenor witnesses);
- e) Attend depositions of the Utility, Staff, and/or other intervenor witnesses (may require travel) if deemed necessary by OCC's Lead Attorney and be deposed (may require travel) if so noticed;
- f) Attend hearings as deemed necessary (will require travel) by OCC's Lead Attorney, including defending (through cross-examination and redirect testimony), written testimony and rebuttal testimony; and
- g) Assist and provide technical support, as deemed necessary by OCC's Lead Attorney, in legal preparation of prehearing and settlement conferences, witness testimony, opposing witness (may include the Utility, Staff, and other intervenors), cross-examination, briefs, reply briefs, applications for rehearing, and related motions with respect to this proceeding and any appeal of this proceeding.

PART FOUR: BID REQUIREMENTS

Bid Format. Each bid must include sufficient data to allow the OCC to verify the total cost for the work and all of the prospective Independent Contractor's claims of meeting the RFP's requirements. These instructions describe the required format for a responsive bid. The prospective Independent Contractor may include any additional information it believes is relevant.

- 1) **Independent Contractor Profile.** Each bid must include a general profile of the prospective Independent Contractor's relevant experience working on projects similar to this work. In the **Independent Contractor Profile**, or in **Personnel Profile Summaries** (see below), details on prior and current similar and/or relevant work projects should be provided, including the scope of such work and clients. While detail is generally preferred on an Independent Contractor's most recent work, Independent Contractors are encouraged to provide detail on relevant work in Ohio.

The profile must also include the prospective Independent Contractor's legal name, address, and telephone number; home office location; date established; ownership (such as public firm, partnership, or subsidiary); firm leadership (such as corporate officers or partners); total number of employees nationwide and in Ohio; the percentage of women employees nationwide and in Ohio; the percentage of minorities nationwide and in Ohio; number of employees to be engaged in tasks directly related to the work; and any other background information the prospective Independent Contractor believes would be useful during the bid evaluation process.

- 2) **Work Plan.** The prospective Independent Contractor must fully describe its approach, methods, and specific work steps for doing the work and producing the **Work Requirements and Deliverables** set forth in Part Three of this RFP. The OCC encourages responses that demonstrate a thorough understanding of the nature of the work and what the Independent Contractor must do to get the work done well. The prospective Independent Contractor must also provide a complete and detailed description of the way it will do the work that addresses the areas of interest identified below. The OCC seeks insightful responses that describe proven, state-of-the-art methods. Recommended solutions should demonstrate the prospective Independent Contractor's ability to quickly undertake and successfully complete the required tasks.

The prospective Independent Contractor's work plan must clearly and specifically identify key personnel assignments, by individual, as to who would be addressing the deliverables set forth in Part Three of this RFP.

- 3) **Personnel Profile Summaries.** Each bid must include a profile and/or resume that demonstrates the competency of the Independent Contractor's staff by submitting the following information:
 - **Team Members' Names**
 - **Experience and Qualifications.** Experience and qualifications relevant to this project.
 - **Dates of Employment.** The length of time the team members performed relevant work requiring the necessary technical expertise.
 - **Project Experience.** The work of the team members on projects of similar or greater size and scope.
- 4) **References.** The prospective Independent Contractor must include three references for which the prospective Independent Contractor has successfully provided services on projects that were similar in their nature, size, and scope of work. These references must relate to work that was completed within the past five (5) years.

Note: Each reference must be willing to discuss the prospective Independent Contractor's performance with an OCC representative.

- 5) **Cost Summary.** Each prospective Independent Contractor must provide a cost summary table showing: (1) Team Members' names, (2) their hourly rates, (3) their estimated hours, and (4) total estimated project cost for the Work Requirements and Deliverables set forth in Part Three of this RFP.
 - a) The OCC requires the inclusion of ALL expenses associated with this project within the hourly rates and hours used to determine the costs for the deliverables, thereby eliminating the need for expense billings. Items to be taken into consideration in determining the cost of each deliverable should include supplies and materials, transportation and per diems, copying and overnight mail charges, etc. The successful bidder will be responsible for direct payment to vendors for any requirements for overnight mail and any "on-site" photocopying charges.
 - b) The Independent Contractor may invoice only for actual work performed and documented.
- 6) The OCC will not be liable for any costs the prospective Independent Contractor does not identify in its bid.
- 7) The prospective Independent Contractor must complete the Standard Affirmation and Disclosure form attached to this RFP which addresses Executive Order 2011-12K, Governing the Expenditure of Public Funds on Offshore Services. This executive order states in part "...No State Cabinet Agency, Board or Commission ("Executive Agency") shall enter into any contract which uses any public funds within its control to purchase services which will be provided outside of the United States..." By the signature affixed to this response, the Bidder/Offeror affirms, understands and will abide by the requirements of Executive Order 2011-12K. If awarded a contract, the Bidder/Offeror becomes the Independent Contractor and affirms that both the Independent Contractor and any of its subcontractors shall perform no services requested under this Contract outside of the United States. To access the executed Executive Order, please visit: <http://procure.ohio.gov/pdf/EO201112K.pdf>.
- 8) Submit an original W9 form along with your response to this RFP so that, if a contract is awarded, the OCC can process any invoices submitted by your company. The Internet link to the form is: <http://www.irs.gov/pub/irs-pdf/fw9.pdf>. The form must be signed and dated.
- 9) Submit a statement as part of your response to this RFP, affirming that you or members of your staff do not currently owe any money to the state of Ohio or have an unresolved finding for recovery from the Auditor of State as per Ohio Revised Code (ORC) 125.25. To access more information regarding ORC 125.25, please visit: <http://codes.ohio.gov/orc/125.25>.
- 10) **Campaign Contribution.** House Bill 694 requires that every contract for goods or services of more than \$500 must contain a certification signed by the contract recipient certifying that the recipient is in compliance with ORC 3517.13 Divisions (I) or (J) regarding limitations on political contributions. If awarded a contract, the Independent Contractor will certify that they are in full compliance with these Divisions of ORC 3517.13. For more information, please refer to <http://codes.ohio.gov/orc/3517.13>.

PART FIVE: EVALUATION OF BIDS

Evaluation of Bids. Generally, the evaluation process may consist of up to four distinct phases:

- 1) The Initial Review of all bids for defects.
- 2) The Evaluation of the bids.
- 3) Request for More Information (Interviews, Presentations, and Demonstrations).
- 4) Negotiations.

It is within the purview of the OCC to decide whether phases three and four are necessary.

Initial Review. The bids will be reviewed for their timeliness, format, and completeness. Any late, incomplete, or incorrectly formatted bids may be rejected. Likewise, any defects may be waived or a prospective Independent Contractor may be allowed to submit a correction.

If a late bid is received, it will not be considered unless the prospective Independent Contractor has received prior OCC approval for a late bid for good cause shown.

Rejection of Bid. The OCC may reject any bid that is not in the required format, does not address all the requirements of this RFP, or that the OCC believes is excessive in price or otherwise not in the best interest of the OCC to consider or to accept. In addition, the OCC may cancel this RFP, reject all the bids, and seek to do the work through a new RFP or other means.

Clarifications. During the evaluation process, clarifications may be requested from any prospective Independent Contractor under active consideration and the clarification may give any prospective Independent Contractor the opportunity to correct defects in its bid. This may be done in cases where doing so would not result in an unfair advantage to the prospective Independent Contractor and the clarification is in the best interest of the OCC.

Contract Award. The OCC plans to tentatively award a Contract for this work on **August 28, 2015**. The OCC reserves the right to change the contract award date if it becomes necessary. The contract will be awarded to the Independent Contractor that demonstrates a clear understanding of OCC's expectations; can complete the scope of work and deliverables within the designated timeframe, and at the lowest or most competitive cost.
