BID NOTICE DATE

04/25/19

SELECT YOUR PREFERRED METHOD OF RECEIVING PURCHASE ORDERS AND ENTER THE E-MAIL OR FAX NUMBER INFORMATION (ONLY SELECT ONE METHOD)

☐ E-Mail  ☐ Fax

In addition to the standard terms for payment, the payment terms for state agency(ies) will be 2%,10 Days, Net 30 Days unless otherwise stated in the following space. If no discount is offered, bidder should circle “Net 30 Days”. _____%, ____Days, Net 30 Days

PARTICIPATING AGENCY(IES): The Ohio Department of Public Safety

THE DEPARTMENT OF ADMINISTRATIVE SERVICES, OFFICE OF PROCUREMENT SERVICES, IS SOLICITING BIDS FOR:

EMERGENCY GENERATOR MAINTENANCE AND REPAIR SERVICES

TERM OF CONTRACT: This Invitation to Bid is to establish a requirements contract to procure the described supplies or services on behalf of the above participating agency(ies). The agency(ies) may place orders against the Contract beginning 05/22/19 or upon the date when DAS signs the Contract, whichever is later in time. The Contract will expire 06/30/21 unless DAS terminates the Contract based upon reasons set forth in the Standard Contract Terms and Conditions. No agencies may place purchase orders against the Contract beyond the expiration date unless DAS renews the Contract by amendment. The Contractor may begin performance under the Contract only upon receipt of a valid order from a participating agency.

CONTRACT RENEWAL. This Contract may be renewed after the ending date of the Contract solely at the discretion of the Contracting Agency for a period of one month. Any further renewals will be by mutual agreement between the Contractor and the Contracting Agency for any number of times and for any period of time. The cumulative time of all mutual renewals may not exceed 0 months unless the Contracting Agency determines that additional renewal is necessary.

INSTRUCTIONS TO BIDDERS and STANDARD TERMS AND CONDITIONS, Revised 10/2013, are a part of this Invitation to Bid. Copies may be downloaded by clicking the link above. All prior versions of Instructions to Bidders, Contract Terms and Conditions are null and void.

Contract Components. Once awarded, the Contract will consist of: the complete Invitation to Bid, including the Instructions to Bidders, the Standard Contract Terms and Conditions, any Special Contract Terms and Conditions, the bid specifications and any written addenda or amendments to the Invitation to Bid or Contract; the completed competitive sealed bid, including proper modifications, clarifications and samples; and applicable, valid State of Ohio purchase orders or other ordering documents (“Contract”).

INQUIRIES: All inquiries should be submitted a minimum of five (5) working days prior to the bid opening date through the Procurement website, http://procure.ohio.gov/. Locate the “Quick Links” menu on the right, select “Bid Opportunities Search”; Step 1, enter the “Bid Number; Step 2, click “Search”; Step 3, click the “Document/Bid Number.” The “Submit Inquiry” button is at the bottom right of the Opportunity Detail page. Bidders will not receive a personalized e-mail response to their question, nor will they receive notification when the question is answered. Responses may be viewed by clicking the “View Q & A” button located beneath the “Submit Inquiry” button.

The ORIGINAL signed Bid must be submitted to the Office of Procurement Services by 1:00 o'clock p.m., on the above listed opening date to receive consideration for award. It is requested that the Bidder NOT sign their bid in BLACK ink. BIDDER CERTIFIES, by signature affixed to its bid, that the information provided by it in its bid including the certified statements, is accurate and complete. Bidder declares to have read and understood and agrees to be bound by all of the instructions, terms, conditions and specifications of this Invitation to Bid and agrees to fulfill the requirements of any awarded contract at the prices bid.
CERTIFICATION STATEMENTS

Bidders claiming preference for Domestic Source End Products, the Ohio preference, and/or the Veteran Friendly Business Enterprise (VBE) must complete the following information. Any bidder who intentionally submits false or misleading information in an attempt to receive a bid preference will be immediately disqualified and may be subject to legal action up to and including debarment. The state reserves the right to clarify any information during the evaluation process.

***BIDDERS MUST COMPLETE THE APPROPRIATE CERTIFICATION BELOW TO RECEIVE THE PREFERENCE.***

A. DOMESTIC PREFERENCE (BUY AMERICAN): Revised Code 125:11 and Administrative Code 123:5-1(K)
[Not applicable to “Excepted Products”]

1. Where is each product/services being offered mined, raised, grown, produced or manufactured?
   - United States: □ (Specify State) □ Canada □ Mexico (Go to B-1)
   - Other: (Specify Country) (Go to A-2)

2. End product is manufactured outside the United States and at least 50% of the cost of its components are produced, mined, raised, grown or manufactured within the United States. The cost of components may include transportation costs to the place of manufacture and, in the case of components of foreign origin, duty whether or not a duty free entry certificate is issued.
   - □ Yes (Go to Section B-1) □ No (Go to Section A-3)

3. The Bidder hereby certifies that each end product, except the products listed below, is a domestic source end product as defined in the Buy American Act and that components of unknown origin have been considered to have been mined, produced, grown or manufactured outside the United States.

   - (Item) (Country of Origin)
   - (Item) (Country of Origin)

B. OHIO PREFERENCE (BUY OHIO): Revised Code 125:09 and Administrative Code 123:5-1-06

1. The products/services being offered are raised, grown, produced, mined or manufactured in Ohio.
   - □ Yes □ No (Go to B-2)

2. Bidder has significant economic presence within the state of Ohio. □ Yes (Answer a, b, c, d below) □ No (Go to B-3)
   a) Bidder has paid the required taxes due the state of Ohio □ Yes □ No
   b) Bidder is registered with the Ohio Secretary of State
      □ Yes (Charter/Registration No.: ____________________________) □ No
      Questions regarding registration should be directed to (614) 466-3910 or visit their web site at:
      http://sos.state.oh.us/
   c) Bidder has ten or more employees based in Ohio or border state. □ Yes □ No (Go to B-2d)
   d) Bidder has seventy-five percent or more employees based in Ohio or border state. □ Yes □ No (Go to B-3)

3. Border state bidder: (Except products mined in Michigan)
   □ Yes (Specify which state then go to B-2c): □ KY □ MI □ NY □ PA □ IN □ No (Go to B-4)

4. Border state bidder: mined products mined in respective border state (Except for products mined in Michigan)
   □ Yes □ No □ Not Applicable

C. VETERANS PREFERENCE (BUY VETERAN): Revised Code 9.318 and Administrative Code 123:5-1-16

Is the bidder a certified Veteran Friendly Business Enterprise as defined in Administrative Code 123:5-1-01(KK)
   □ Yes □ No
SPECIAL CONTRACT TERMS AND CONDITIONS

AMENDMENTS TO CONTRACT TERMS AND CONDITIONS: The following Amendments to the Contract Terms and Conditions do hereby become a part hereof. In the event that an Amendment conflicts with the Contract Terms and Conditions, the Amendment will prevail.

SUPPLEMENTAL BID: Any award made as a result of this bid will become a part of Contract No. OT900115 effective 05/01/19 or upon the date when DAS signs the Contract, whichever is later in time.

MANDATORY/REQUIRED SUBMISSIONS: As specified, mandatory submissions must be submitted with the bid response. Required documentation/materials should be submitted with the bid. If not submitted with the bid, the Bidder must provide the said documentation/materials within three (3) business days, after notification, to the Office of Procurement Services. Failure to provide mandatory submissions with the bid response or failure to provide the required documentation/materials, as applicable, within the stated time period may result in the Bidder being deemed as not responsive.

DELIVERY AND ACCEPTANCE: Services will be performed as set forth in the Contract and in accordance with paragraphs S-8, S-9, and S-10 of the SUPPLEMENTAL CONTRACT TERMS AND CONDITIONS. The location of performance will be noted on the purchase order issued by the participating agency. Payment for services rendered will occur upon the inspection and written confirmation by the ordering agency that the services provided conform to the requirements set forth in the Contract. Unless otherwise provided in the Contract, payment must be conclusive except as regards to latent defects, fraud, or such gross mistakes as amount to fraud.

SITE VISIT: Prior to submitting their bid response, the Bidder may visit the Ohio Department of Public Safety locations in order to become familiar with the requirements of the bid. Once a Contract is awarded, failure of the Bidder to have performed a site visit to become familiar with the requirements of the bid will be insufficient reason to support any request to be released from the Contract. The Bidder may contact Jill Kellner at 614-752-7876 to set up a site visit appointments.

EVALUATION: Bids will be evaluated in accordance with Article 1-17 of the “Instructions to Bidders. Bidders must complete the Bid Submission Forms in Attachment 8 and include all costs associated with performing the required work. Bids will be evaluated for each ODPS Contract District.

To determine the low lot total price for each ODPS Contract District, the State will add the cost of 20 hours of labor at the straight time rate, 10 hours of labor at the emergency service rate, 10 hours of labor at the overtime rate, the load bank testing rate for all units, the annual scheduled service rate for all units, and the product of the repair/replacement parts percentage discount times $300, and the rental cost of the generator is $500.00. For example, if the straight time rate was $15, emergency rate $26, overtime rate was $22, load bank testing was $1,200, annual scheduled service rate was $4,200 and the percentage discount was 12%, and rental generator is 10% mark-up times $500.00, the calculation would be:

\[
(20 \times 15) + (10 \times 26) + (10 \times 22) + 1,200 + 4,200 + (0.88 \times 300) + (1.10 \times 500) \text{ for a lot total of } \$6,994.
\]

CONTRACT AWARD: The contract will be awarded to the lowest responsive and responsible bidder by bid district. Failure to bid all items within a district may result in the bidder being deemed not responsive. A Bidder may bid on the Northeast (NE), Northwest (NW), Southeast (SE) and/or Southwest (SW) ODPS Contract District(s). **

CONTRACT RENEWAL: This contract may be renewed solely at the discretion of DAS for a period of one (1) month. Any further renewals will be for an appropriate period of time by mutual agreement. The cumulative time of all renewals may not exceed thirty-six (36) months unless DAS determines that additional renewals are necessary.

USAGE REPORTS: Every twelve (12) months the Contractor must submit a report (written or on CD) indicating sales generated by this Contract. The report must list usage by customer, by line item, showing the quantities/dollars generated by this Contract. The report must be forwarded to the Office of Procurement Services, 4200 Surface Road, Columbus, OH 43228-1395, Attn: Contract OT9000115 Analyst.

** Note: Invitation to Bid Number OT906419 is an opportunity for only four (4) of five (5) districts; a Bidder may only bid on the Northeast (NE), Northwest (NW), Southeast (SE) and/or Southwest (SW) Districts for Bid Number OT906419. The remaining Districts were awarded under a separate Invitation to Bid.
SPECIAL CONTRACT TERMS AND CONDITIONS (Continued)

TERMS OF PAYMENT: All non-scheduled or emergency service must be invoiced to the facility only after said work is completed. The Contractor must include the description of all work performed and contract number on all statements and invoices. Charges for scheduled service at all locations must be at the scheduled service rate listed on the Bid Submission Form for the specific service frequency. The scheduled service rate quoted by each Bidder should include all labor, transportation, parts, fluids and supplies normally replaced during service periods. The Contractor may bill 1/12 of the annual scheduled service rate per month.

COMPENSATION: In consideration of the Contractor’s satisfactory performance, the State will pay the Contractor the amounts quoted on the Bid Submission Forms. The Contractor’s right to payment is contingent on the complete and satisfactory performance of the work. The Contractor may not submit more than one invoice for work performed within a thirty (30) day period. Upon receipt of proper invoices, the ODPS will make payment within thirty (30) days to the Contractor. In order to be considered a proper invoice, the Contractor must include on all invoices: the vendor identification number, purchase order number, and total cost of services. The Contractor must submit an original and two copies monthly to:

Ohio Department of Public Safety
Attn: Fiscal Services (BMV)
P.O. Box 16520
Columbus, Ohio 43216-6520

Contractors must bill each site with supporting documentation with all invoices that must include, but not be limited to, the following:

1. Arrival times / length of time at each site.
2. Verification from facility personnel that work was completed satisfactorily.
3. A complete list of all installed items to include part numbers and cost.
4. Break down of straight time hours and overtime hours.
5. Unless expressly provided for elsewhere in this Contract, the Contractor must be responsible for and assume all office and business expenses that are incurred as a result of the performance of this Contract.

OWNERSHIP: Any and all written, electronic, or multimedia documents, presentations, reports, studies, deliverables, and/or software developed under this Contract (hereinafter referred to under this Section as “Deliverables”) will become the property of the ODPS. The ODPS, and any person, agency, or instrumentality providing financial assistance for the work performed under this Contract will have an unrestricted right to reproduce, distribute, modify, maintain, and use the Deliverables. The Contractor will not obtain copyright, patent, or other proprietary protection for the Deliverables without the written approval of the ODPS, except that the Contractor will reserve its rights in all methods, pre-existing work, software, and data used to prepare the Deliverables. The Contractor must not include in any Deliverables any copyrighted matter, unless the copyright owner and any person, agency, or instrumentality providing financial assistance for the work performed under this Contract gives prior written approval to use such copyrighted matter in the manner provided under this Contract. The Contractor must identify in writing, prior to the start of work under this Contract any and all proprietary, copyrighted, and/or patented materials it intends to use.

The Contractor agrees that all Deliverables may be made freely available to the general public to the extent required by law.

This Section will survive the termination of this Contract and may be enforced by the ODPS in any court of competent jurisdiction.

BACKGROUND CHECK: Upon contract award, all Contractor’s staff who will perform work under the contract must undergo a complete and thorough background check at the ODPS’ expense. This will include previous work addresses for the past ten (10) years. An extensive investigation will be conducted by the ODPS prior to the assignment of the Contractor’s staff to begin work.

Background checks will be performed to determine if current or potential employees of the Contractor have any types of convictions in the following areas:

1. Any record of violence, domestic or otherwise;
2. Drug-related convictions;
3. Theft; and
4. Other offenses deemed a risk for work performed under the contract.

Those employees and potential employees of the Contractor with felony convictions or other criminal records, unless specifically approved by the ODPS, will not be permitted to perform work under this contract.
**CONTRACT CHANGES:** The State may make reasonable changes within the general scope of this Contract. The State will do so by issuing a written amendment under this Contract describing the nature of the change. If a change causes an increase in the cost of, or the time required for, the performance of the services, the Contractor will notify the State in writing within five (5) days of receiving the amendment and request an equitable adjustment to the Contractor’s fee, the delivery schedule, or both. Any Contract changes will be handled through a contract amendment.

Examples of possible changes would be the addition of new ODPS sites with generators or the replacement of generators at existing sites. Additionally, minor changes to the list of service tasks would be acceptable.

**EXCUSABLE DELAY:** Neither the State nor the Contractor will be liable for any delay in its performance that arises from causes beyond its control and without its negligence or fault. The delayed party will notify the other promptly of any material delay in performance and will specify in writing the proposed revised performance date as soon as practicable after the delay. The delayed party must also describe the cause of the delay and what steps it is taking to remove the cause. The delayed party may not rely on a claim of excusable delay to avoid liability for a delay if the delayed party has not taken reasonable steps to mitigate or avoid the delay. An example of things that are not controllable by the Contractor would be a third party manufacturer supplying commercial items over whom the Contractor has no control.

**SUB-CONTRACTING:** Sub-contracting is not permitted under this Contract.

**REPLACEMENT PERSONNEL:** The quality and professional credentials of the proposed resources submitted with the Bidder’s response are factors in the State’s decision to award a Contract. The Contractor may not remove the proposed resources from the Work without the prior, written consent of the State, for the duration of the Contract, including any extensions except for reasons listed. If the Contractor removes the proposed resources without prior written consent of the State, the Contractor will be in default and the State may terminate this Contract immediately for cause and without any cure period.

The Contractor may only remove the proposed resources listed in the Bid response for legal or disciplinary reasons. In this event, the Contractor will have seven business days to provide two (2) proposed qualified replacement resources for each removed resource. The State may reject the proposed replacement resources for the following reasons:

- Failure of the resource to meet the Mandatory Requirements and Qualifications identified in this ITB
- Failure of the Contractor to provide two qualified replacement resources for each removed resource

If the State rejects the replacement resource(s), the Contractor will be in default and the State may terminate this Contract immediately for cause, or provide a waiver.

**NONDISCLOSURE AGREEMENT:** Contractor resource(s) may be required to submit a completed and signed Nondisclosure Agreement to the ODPS as soon as possible after the Contract has been awarded and prior to a Purchase Order being issued. If required, failure to provide the required form may result in immediate dismissal of the resource, whereupon, the Contractor must submit replacement resource(s) with equal or better qualifications within the time limits as set forth in the Replacement Personnel section of this ITB.

**CONFIDENTIALITY AND CONDUCT AGREEMENT:** Contractors resource(s) may be required to submit a completed and signed Confidentiality and Conduct Agreement to the ODPS as soon as possible after the Contract has been awarded and prior to a Purchase Order being issued. If required, failure to provide the required form may result in immediate dismissal of the resource, whereupon, the Bidder must submit a replacement resource with equal or better qualifications within the time limits as set forth in the Replacement Personnel section of this ITB.

**WORK RULES, POLICIES AND PROCEDURE COMPLIANCE:** The Contractor agrees, as a condition of being awarded this contract, to require each of its agents, officers, and employees to abide by the State of Ohio and the ODPS’ policies, work rules, safety rules, or policies regulating the conduct of persons on State property at all times while performing duties pursuant to this Contract. Additionally, if the Contractor is using or possessing State data or accessing State networks and systems, the Contractor must comply with all applicable State rules, policies and regulations regarding data security and integrity. And when on any property owned or controlled by the State, the Contractor must comply with all security and safety rules, regulations, and policies applicable to people on those premises. The Contractor agrees and understands that a violation of any of these policies or rules constitutes a breach of the Contract and sufficient grounds for immediate termination of the Contract by DAS. The Contractor’s resources assigned to work on this project will be provided a copy of the Consultant Policy Assignments and are required to sign a verification of receipt and acceptance/compliance within five business days after start of work onsite at the ODPS.
The Ohio Department of Administrative Services (DAS) for the Ohio Department of Public Safety (ODPS) is soliciting Bids for Emergency Power Generator Inspection, Testing, Preventive Maintenance, and Repair Services. If a suitable Bid is made in response to this Invitation To Bid (ITB), the State of Ohio (State) may enter into a Contract to have the selected Bidder ("Contractor") perform the Work as described in the Scope of Work. This ITB provides details on what is required to submit a Bid for the Work, how the State will evaluate the Bids, and what will be required of the Contractor in performing the Work.

I. Scope of Work:

The Scope of Work for this Contract includes the inspection, testing, preventive maintenance and repair services for emergency power generators, (free standing [mobile w/trailers] and fixed units) and associated systems, owned by the ODPS which include the following locations: several Ohio State Highway Patrol (OSHP) District Headquarters (DHQ), OSHP Posts, and remote sites throughout the State as listed in Attachment 2. The State has been divided into five (5) ODPS Contract Districts: Northwest, Northeast, Southwest, Southeast and Central. The Contract will be awarded by ODPS Contract District(s). See Attachment 1 for counties located within the (5) ODPS Contract District. These services must be in accordance with the applicable generator manufacturer’s recommendations and as specified herein.

II. Classification:

Generators that require service are of various brands and types. Specific information about each unit is provided in Attachment 2.

III. ODPS Contract Districts (Counties):

Note: Refer to District Map in (Attachment 1) and defined by ODPS locations in (Attachment 2).

IV. Bidder Mandatory Requirements:

The Bidder must meet the following mandatory requirements in order to be eligible for award consideration:

A. The Contractor must only assign technicians to this contract that have a minimum of three (3) years experience in inspection, testing, maintenance and repair of emergency power generators (free standing [mobile] and fixed) and associated systems. Resumes of these technicians must be provided with the ITB and must include confirmation of education/training and any certifications held by the technicians. The forms in Attachment 6A, 6B (if applicable), and 6C should be used to document a technician's experience, education, training and certifications. Reproduce the forms as needed for each technician.

B. (Not Applicable)

C. The Bidder must provide evidence of experience in inspecting, testing, maintaining and repairing emergency power generators and associated systems. The Bidder must complete the Bidder’s Profile Form on Attachment 7A. The Bidder must provide at least three (3) examples of providing these services within the past two years on Attachment 7B. Additionally, the Bidder must provide at least three (3) references including names, addresses, and telephone numbers for customers for whom the Bidder has provided services within the past two (2) years on Attachment 7C. Reproduce the forms as needed to provide the required information.

* Note: Invitation to Bid Number OT906419 is an opportunity for only four (4) of five (5) districts; a Bidder may only bid on the Northeast (NE), Northwest (NW, Southeast (SE) and/or Southwest (SW) Districts for Bid Number OT906419. The remaining Districts were awarded under a separate Invitation to Bid.
V. **General Requirements:**

Inspection, testing, maintenance and repair service of the generators must be in accordance with the generator manufacturer's recommendations. Elapsed time between scheduled service visits at each facility or remote site must be within a two (2) week period of the scheduled service date. Deviation from this schedule may be cause for cancellation of this contract.

Until completion and acceptance of the work, the Contractor must not change or remove a technician except with the consent of the facility contact person or designee.

No work under this contract shall be done by subcontractors.

VI. **Contact Persons:**

Unless stated otherwise, the contact person for each OSHP Post will be the Post Commander.

For OSHP Post contact information, refer to [http://www.statepatrol.ohio.gov/Counties.stm#Franklin](http://www.statepatrol.ohio.gov/Counties.stm#Franklin).

During the term of this contract, each party must notify the other parties of changes in contact person(s).

VII. **Charges For Scheduled Service:**

Charges for scheduled services at all locations will be at the flat rate listed on the Bid Submission Form (See Attachment 8). The flat rate provided by each Bidder must include all labor, travel, parts, fluids and supplies normally required/replaced during the required scheduled service.

VIII. **Contractor Performance:**

The Contractor must perform the inspections, testing (non-load and full-load), and preventive maintenance service of the generators and associated systems at each facility based on the service frequency in accordance with the applicable generator manufacturer's recommendations and as specified herein.

NOTE: All facilities have the option to request load bank testing.

The Contractor must notify the facility contact person not less than two (2) days prior to each inspection of that location and two hours in advance of arrival for emergency calls.

Any inspections required to comply with State and/or Federal regulations in effect during the contract period must be included in the Bid price. This would include any new regulations enacted during the Contract period.

The Contractor must maintain a complete set of records of the inspections, including, but not limited to, inspection dates, equipment checked, pieces of equipment replaced, technicians involved, system operation and performance status and recommendations for improvement, etc. One copy of the records will be provided to the facility contact person. Records provided must include a completed copy of the Emergency Generator Checklist, which may be provided by each facility.

Following completion of each inspection, the Contractor's team must review with the facility contact, the details of the work just completed and the condition of the system, plus any recommendations for necessary repairs or improvements to the system. Quotations for recommended repairs must be sent to the facility contact person within ten (10) days from the facility's request. Within two (2) weeks following an inspection, the Contractor must file a written inspection report with the facility contact person.

The Contractor must provide consultation services, by telephone (at no additional cost), to the facility to assist them in trouble-shooting problems with their emergency generator systems.

The Contractor's written service report left with the facility contact person must include the arrival and departure times of the technician(s). If the Contractor fails to include the appropriate arrival and departure times on the service report, this may cause a delay in payment of invoices for the service and/or inspection.
IX. Hours of Service:

Unless noted otherwise herein, scheduled service must be performed between 7:30 a.m. until 4:00 p.m., Monday through Friday, except State holidays. The State observes the following holidays: New Years Day, Martin Luther King Day, President’s Day, Memorial Day, Independence Day, Labor Day, Columbus Day, Veteran’s Day, Thanksgiving Day and Christmas Day. See Attachment 5 for the schedule. Future years dates may vary and are subject to change.

Emergency service will consist of having the Contractor's technician(s) arrive at the applicable generator location within four hours after notification by the facility, or the applicable contact person. The facility may contact the Contractor via pager, office or cell phone, fax and answering machine, as acceptable communication medium. Any situation that results in a non-operational power generator will be considered an "Emergency".

Emergency service will be charged as an additional cost item at the rate provided on the Bid Submission Form. The emergency service hourly rate must only be charged for time on-site and does not include travel.

Overtime will be paid at no more than one and one-half (1 ½) times the straight time rate provided on the Bid Submission Form. Overtime will be any hours over eight (8) hours in a work day, forty (40) hours in a work week and/or weekends and State holidays per technician.

The Contractor must be capable of responding at any time of the day or night upon notification when a shut-down or emergency has occurred. The Contractor must have adequate personnel available to provide emergency services twenty-four (24) hours per day, three hundred sixty-five days per year.

Invoices for emergency services must be forwarded to the facility contact and must contain a complete list of materials and supplies required, labor, and a written report covering the details of the emergency. NOTE: Maintenance and repairs on portable and mobile generators, when requested, will be charged at the Emergency rate.

Any additional emergency work will be performed upon request by the facility contact. If the estimated cost of the repairs exceeds $1,000.00, the repairs must be approved by the appropriate facility contact.

X. Service Center Locations:

All Bidders must include in their ITB response, a listing of their service center locations that will be assigned to provide regularly scheduled and emergency services under any resultant contract. If a Bidder proposes multiple service center locations, they must designate the center which will be responsible for each ODPS Contract District or Facility.

XI. Parts Discount:

Replacement parts must be invoiced at the discounted rate from list price quoted in the catalog. The State reserves the right to request additional documentation from the Contractor to support the pricing for replacement parts. In the event the ODPS desires to purchase additional repair/replacement parts, the Contractor must provide the parts at the contracted discounted price. Any expenditure exceeding $1,000.00 for labor and parts will require prior approval from the facility’s contact person.

XII. Engineering Consultation:

During the term of the contract, the Contractor must provide, without additional charges, engineering consultation services upon request of the facility contact. A technician very familiar with the facility and equipment must provide this consultation.

The type of consultation must be provided by the facility contact, and may include, but not limited to, problem solving, recommendations, specification development and preparing written reports.
SPECIFICATIONS AND REQUIREMENTS (Continued)

XIII. **Maintaining Records – Reporting:**

The Contractor must maintain, for the facility, a complete set of records of the inspections, including, but not limited to, inspection dates, equipment checked, pieces of equipment replaced, oil analysis report, technicians involved, system operation and performance status, recommendations for improvement, etc. The records must be provided to the facility upon request.

XIV. **Workmanship – Responsibility:**

A. The Contractor must be responsible for maintaining high quality service, quality of work and obtaining all necessary permits, at the Contractor's expense.

B. The Contractor must be responsible for the acts or negligence of employees when performing work under this Contract. The Contractor's employees must observe the rules and regulations of the facility when engaged in work under this Contract on the facility's premises and adjacent private or public properties.

C. Upon completion of an inspection, the Contractor's team must leave the systems in satisfactory working condition; or, if not in operation, the team must inform the facility contact, explain why it is inoperative, and what must be done to put it into satisfactory working condition.

D. The Contractor must guarantee their workmanship and material for a period of one year from the date of acceptance by the facility and must promptly remedy, at the Contractor's expense, all defects which become evident during the guarantee period, and pay all expenses for any damage to other systems or structures resulting from work on the generators and associated systems.

E. The Contractor must be responsible for having a current Material Safety Data Sheet (MSDS) for any chemical the Contractor brings onto facility grounds for the purpose of this Contract (ref. OSHA Standard CFR 1910.1200). A copy of this MSDS must be given to the facility contact prior to using the chemical.

F. If preventive maintenance is not performed on schedule and is the cause of further damage, the Contractor will be responsible for all costs of the resulting damage and repair of any equipment or facilities.

G. Removal and proper disposal of all materials, including, but not limited to, oil, coolant, fluids and parts, will be the responsibility of the Contractor. Disposal of materials must be in accordance with all federal, state and local laws.

XV. **Telephone Diagnostics:**

If an "emergency repair" is requested by a facility, the Contractor should first contact the facility personnel and determine if the problem can be corrected before dispatching a technician to the facility.

XVI. **Providing Rental Generators:**

A. The Contractor must provide rental generators within twenty-four (24) hours after having received the request from a facility contact. The Contractor's rental rates must be those currently in effect at the time of the rental. If the Contractor does not have the type and size of generator required in stock, the Contractor will secure the generator from a third party.

B. The Contractor will provide the rental generator the rate provided in their bid and shall not exceed a twenty percent (20%) markup based on the third party rental cost. The third party invoice must be submitted as documentation. The requested rental generator markup % must be submitted on the Bid Submission Form (Attachment 8).

C. The Contractor must deliver and install the rental generator and all required equipment at the facility. Operational instructions must be given to the facility contact, and/or designee. Rental generators must be of equal size and output range for each unit replaced.
XVII. General Requirements/Preventive Maintenance and Inspection Services:

Each facility and awarded Contractor will mutually agree on the frequency of service. At the discretion of the facility, maintenance must include but will not be limited to the following:

A. Engine and Mounting
   1. Verify and record oil pressure and water temperature.
   2. Test all safety shutdown circuits and alarms (over speed, over crank, low oil pressure, high water temperature low coolant level).
   3. Inspect air intake system (air filter, crankcase breather, and turbocharger).
   4. Inspect muffler system and drain condensation trap; verify rain cap operation.
   5. Inspect engine starting system; verify cable integrity and connections.
   6. Inspect exhaust flex coupling and piping for leaks and proper connection.
   7. Check for abnormal vibration or noise.
   8. Inspect spark plugs, plug wires and distributor.
   9. Check ignition system.
  10. Check and clean injector pump and injector flow rate, pressure and spray pattern.
  11. Check valve clearance.
  12. Check bolt torque.

B. Fuel System
   1. Inspect all fuel lines and hoses for leaks and general condition.
   2. Inspect day tank and float assembly for proper operation and leaks.
   3. Inspect fuel pump for leaks.
   4. Verify proper operation of governor and governor linkage.
   5. Check fuel level in primary supply tank.
   6. Drain water and sediment from fuel filter and fuel supply tanks.
   7. Adjust engine idle speed setting and electric governing system; check for proper governor operation.
   9. Check hydraulic governor oil level; change if necessary.

C. Coolant System
   1. Inspect all clamps, verify condition of all hoses and identify any leaks.
   2. Verify proper operation of engine water jacket heater.
   3. Test coolant freeze point and verify coolant level.
   4. Test coolant additive package for proper corrosion inhibitors.
SPECIFICATIONS AND REQUIREMENTS (Continued)

5. Inspect belt condition and tension; correct as required.
6. Inspect radiator core for visual blockage or obstructions.
7. Inspect for proper operation of intake louvers.
8. Verify proper operation of remote radiator and belt condition.

D. Battery and Battery Charger System
1. Clean all battery terminals; verify integrity of cables and connectors.
2. Load-test battery.
3. Measure specific gravity of each battery cell.
4. Inspect electrolyte level and add fluid if necessary.
5. Verify proper operation and float voltage of external battery charger.
6. Verify and record output of engine alternator.

E. Controls
1. Verify and record output voltage and adjust voltage regulator, if necessary.
2. Calibrate control meters.
3. Verify and record output frequency and adjust governor, if necessary.
4. Verify operation of all control panel lamps.
5. Inspect for any loose connections, terminals or discoloration.

F. Lubricating System
1. Check for oil leaks.
2. Check oil and change if necessary.
3. Change filter element; clean if screen-type.
4. Lubricate generator, cranking motor, water pump and fan hub, if needed.
5. Run engine and check for proper oil pressure, fuel oil pressure, oil/water temperatures, density and exhaust gas color.
6. Inspect engine external for worn parts.
7. Check engine exhaust system for leakage.

G. Generator
1. Inspect and lubricate generator end bell bearing.
2. Inspect brushes, brush holders and commutators.
3. Inspect cooling screen and general condition of alternator.
SPECIFICATIONS AND REQUIREMENTS (Continued)

4. Inspect for abnormal vibration.
5. Verify connections and insulation condition.
6. Verify proper operation of shunt trip on mainline circuit breaker.
7. Check rotor and starter.
8. Check and clean voltage regulator.
9. Check and clean exciter.

H. Automatic Transfer Switch (Paralleling Switchgear, Bypass Switchgear, Manual Transfer Switches)
1. Verify proper operation of exerciser clock; adjust if necessary.
2. Provide visual inspection of all contacts and connection points.
3. Perform building load test if practical and inspect for proper transfer and re-transfer.
4. Verify operation of all control lamps.

I. Optional Load Bank Testing (Note: The frequency of Load Bank testing schedules may be changed at the discretion of the facility or Facility Manager).
1. Perform a four (4) hour resistive load bank test: two (2) hours at fifty percent (50%), one (1) hour at seventy-five percent (75%), one (1) hour at one hundred percent (100%).
2. Record all performance data at fifteen (15) minute intervals including oil pressure, water temperature, voltage and frequency.
3. Identify proper operation of fuel system, cooling system and overall condition of engine/generator set.
4. Load bank testing shall be performed with no interruption to the normal power supply.

J. Other
1. Check AC generator brushes and commutator.
2. Check battery (s) and add water, if necessary.
3. Check battery charger and adjust, if necessary.
4. Check automatic transfer switch(es), clean enclosure, lubricate moving components.
5. Check circuit breaker and check stator leads to breaker for loose connections.
6. Check voltage regulator and voltage adjust rheostat.
7. Check vibration isolators.
8. Check automatic start panel for proper operation.
9. Check and clean rotating exciter.
10. Check full bridge rectifier and exciter, clean same.
11. Check all stator leads for insulation breakdown.
SPECIFICATIONS AND REQUIREMENTS (Continued)

12. Check all wiring and all safety shutdowns for loose connections.
13. Check Direct Current (DC) alternator for proper operation.
14. Check all engine wiring and Alternating Current (AC) wiring for burned and/or loose connections, repair or replace.
15. Run unit under load, check operations of switch gear and auto-start.
16. If acceptable by the Facility personnel, operate system to check full sequence of operation.
17. Record settings of temperature control switch and adjust for winter or summer operation.
18. Change lube oil.
19. Change primary and bypass lube filters.

XVIII. Specific Location Requirements/Preventive Maintenance and Inspection Services:

The site specific requirements below are in addition to any other requirements listed in this ITB.

A. The Ohio State Highway Patrol (OSHP):

With the exception of portable generators, the contract portion applicable to OSHP Posts and remote sites shall include the following annual services:

1. Check coolant levels.
2. Analyze coolant for proper antifreeze percentages and adjust accordingly.
3. Inspect cooling system hoses.
4. Tighten hose clamps as needed.
5. Clean fuel filter.
6. Clean air cleaner.
7. Service belts as required.
8. Check engine heater operation.
9. Check generator set for fuel, oil, and coolant leaks.
10. Check air intakes and outlets.
11. Check transfer tank operation.
12. Drain exhaust line.
13. Check battery charger operation and charge rate.
14. Check battery electrolyte levels and specific gravity.
15. Check generator output voltage and adjust as necessary.
16. Emergency system operation with load transfer.
SPECIFICATIONS AND REQUIREMENTS (Continued)

17. Emergency system operation without load transfer.
18. Frequency check / governor adjustment.
19. Check transfer switch and accessory operation.
20. Check engine alternator charge rates.
21. Check engine and generator gauge and indicator operation.
22. Check generator set controller operation including shut-down functions and emergency stop.
23. Lube, oil and filter change.
24. Fuel filter change.
25. Engine tune-up with parts.
26. Four (4) hour external resistive load bank test: two (2) hours at fifty percent (50%), one (1) hour at seventy five percent (75%), one (1) hour at one hundred percent (100%).

B. (Not Applicable)
C. (Not Applicable)
D. (Not Applicable)

XIX. Quarterly Service Requirements:

During a Quarterly visit, service technicians will perform the following:

A. Cooling System
   2. Add Coolant (up to four (4) gallons) to bring the coolant to correct level.
   3. Inspect condition of radiator cap, gasket and sealing surface.
   4. Visual Inspection of water pump and cooling system gaskets for leaks.
   5. Inspect belts for cracking and fraying.
   6. Check jacket water heater(s) for proper operation and adjust thermostat setting as needed.
   7. Check belt tension.
   8. Inspect flexible water connections for crackling, leaks and pliability.

B. Lubrication System
   1. Add crankcase oil (up to two (2) gallons of oil meeting or exceeding manufacturer’s specifications, such as API CH-4, CG-4, CF-4 or Natural Gas oil if spark ignited) to bring the oil to its correct level.
   2. Inspect Oil heater for proper operation and leaks.
   3. Check for excessive crankcase blow-by with engine running.
   4. Visual inspection front and rear crankshaft seals and lubrication system gaskets for leaks.
C. Fuel System
   1. Inspect flexible fuel lines for cracking, leaks and pliability.
   2. Test day tank pump for proper operation and level.
   3. Operate fuel priming pump and check for proper operation and leaks.
   4. Drain water from water separator.
   5. Check fuel system for leaks.
   6. Check Governor Oil level in main fuel tank.
   7. Record fuel level in main fuel tank.

D. Starting System
   1. Top off electrolyte level.
   2. Check and record battery charger amperage.
   3. Check battery charger and adjust float rate for optimum battery performance and life.
   4. Check and record alternator for proper charge rate with engine running.
   5. Check for proper cranking termination upon starting.

E. Exhaust System
   1. Inspect flexible exhaust coupling for cracks and excessive leakage.
   2. Check for abnormal exhaust characteristics with engine running (signs of wet stacking).
   3. Inspect exterior of exhaust manifolds for oil/fuel slobber (signs of wet stacking).
   4. Inspect exhaust rain protection and exhaust outlet screening.

F. Air Intake System
   1. Inspect air filters for plugging and deterioration.

G. Installation
   1. Make walk around inspection of complete installation.
   2. Inspect generator set vibration isolators and adjust as needed.
   3. Check for unit on-line capability in less than ten (10) seconds.
   4. Check for abnormal noise or vibration.
   5. Re-Check oil level with engine running.
   6. Re-Check for leaks with engine running.
   7. Check for proper operation of remote fan motors, thermostats, circulating pumps and solenoid valves.
   8. Check inlet and discharge louvers for proper operation with engine running and stopped.
H. Control Panel
   1. Operational check of illumination and safety lamps.
   2. Check proper operation of engine and generator instruments with generator running.
   3. Adjust Governor Control for optimum performance and frequency.
   4. Adjust voltage regulator for proper voltage.

I. Upon Completion of Service
   1. Reset all controls to automatic.
   2. Set circuit breaker to correct position.
   3. Check fuel valves for correct position.
   4. Check voltage regulator is on and NOT tripped.
   5. Check battery charger is ON.
   6. Check day tank controls are ON.
   7. Louver controls are ON.
   8. Jacket Water Heater(s) are ON.
   9. Remote Radiator Fan Controls are ON.
  10. Auxiliary water pump controls are ON.
  11. Cooling System
      a. Inspection of pulleys for excessive wear.
  12. Fuel System
      a. Inspection of steel fuel lines for cracks, leaks and proper line bracket support.
      b. Check the main tank for water (if accessible).
  13. Starting System
      a. Clean and apply corrosion inhibitor to the terminals of lead acid batteries as needed.
      b. Tighten battery cable connections as needed.
      c. Inspect and tighten starter motor(s), connections and wiring.
  14. Exhaust System
      a. Drain water in exhaust moisture traps.
      b. Inspect exhaust manifold(s) for broken or missing hardware.
  15. Air Intake System
      a. Test air cleaner indicator.
XX. **Semi-Annual Service Requirements:**

   During a Semi-annual visit, service technicians will perform the services listed in the Quarterly visits as well as the following:

   **A. Cooling System**
   1. Analyze coolant for proper antifreeze percentage.
   2. Analyze coolant conditioner level and add additional Supplemental Coolant Additive (SCA) as needed.
   3. Tighten hose clamps as needed.
   4. Lubricate fan drive with Caterpillar bearing lubricant for high speed applications and temperatures: minus thirty (-30) degrees Fahrenheit to three hundred twenty five (325) degrees Fahrenheit.
   5. Lubrication System
   6. Check crankcase breather, inspect hose and connections.
   7. Take oil sample for “Caterpillar Scheduled Oil Sampling Program” (S.O.S), or the appropriate prime mover program depending on the facility. Fuel System
   8. Clean primary fuel filter (if screen type).
   9. Drain water and sediment from day tank (if accessible).
   10. Clean Inlet filters for day tank.
   11. Test day tank alarms.

   **B. Starting System**
   1. Test and record battery cells’ Electrolyte specific gravity.
   2. Check and record battery voltage dip level during over crank test for minimum voltage required to maintain controls during start-up.

   **C. Air Intake System**
   1. Inspection of air cleaner seal for pliability and sealing.
   2. Inspection of turbocharger for excessive end play clearance (if accessible) and seal leakage lubricate Governor Linkage.

   **D. Generator and Voltage Regulator**
   1. Check rotor air gap for correct clearance.
   2. Inspection of rotor and stator for damage and excessive oil or dirt build-up.
   3. Inspection of coupling and guards for loose or missing parts.
   4. Check tightness of generator leads and voltage regulator control wiring.
   5. Strap and tape any wiring or generator leads that have rubbing and/or worn insulation.
   6. Inspect brushes and slip rings or rotating rectifier.
7. Clean and adjust voltage droop potentiometer.
8. Inspect exciter field.
9. Lubricate generator bearing with bearing lubricant for high speed applications and temperatures minus ten (-10) degrees Fahrenheit to three hundred twenty five (325) degrees Fahrenheit.

E. Control Panel
1. Check for and tighten loose terminals on the generator set and the generator control panel.
2. Check tightness of relays in the generator control panel.
3. Inspect for excessive dirt accumulation and clean as needed.
4. Test auto-start system.
5. Test safeties and pre-alarms on control and annunciator panels.

XXI. Annual Service Requirements:
During the annual visit, service technicians will perform the services listed in the Quarterly, and Semi-Annual visits as applicable per the specifications listed in this section and the previous section, as well as the following additional steps:

A. Change oil filters.
B. Change primary and secondary fuel filters.
C. Change engine oil (using oil meeting or exceeding manufacturer's specifications, such as; API CH-4, CG-4, CF-4 or Natural Gas Oil if Sparked Ignited).
D. Legally dispose of waste oil and filters.
E. Replace inlet filter for day tank.
F. Load Bank Testing.
G. All additional tasks listed in the contract for annual checks.
H. After each visit, Contractor shall send a detailed follow-up report.

XXII. The ODPS Contractor Work Support:
The following items will be provided to the selected Contractor by the ODPS point of contact:

A. Any reasonable request for access to the ODPS facilities.
B. Assistance in setting up interviews with the ODPS personnel.
**ATTACHMENT 1**

**THE FIVE (5) OHIO DEPARTMENT OF PUBLIC SAFETY CONTRACT DISTRICTS**

The following table shows the counties for four of the five (5) Contract Districts to be used for this Contract. *

<table>
<thead>
<tr>
<th>District</th>
<th>Ohio Counties</th>
</tr>
</thead>
<tbody>
<tr>
<td>Northwest (NW)</td>

</tbody>
</table>
BID SUBMISSION FORM

Bidders must complete the Bid submission forms below, and include all costs associated with performing the required work.

To determine the low lot total price for each ODPS Contract District, the State will add the cost of 20 hours of labor at the straight time rate, 10 hours of labor at the emergency service rate, 10 hours of labor at the overtime rate, the load bank testing rate for all units, the annual scheduled service rate for all units, and the product of the repair/replacement parts percentage discount times $300, and the rental cost of the generator is $500.00. For example, if the straight time rate was $15, emergency rate $26, overtime rate was $22, load bank testing was $1,200, annual scheduled service rate was $4,200 and the percentage discount was 12%, and rental generator is 10% mark-up times $500.00, the calculation would be:

\[(20 \times 15) + (10 \times 26) + (10 \times 22) + 1,200 + 4,200 + (0.88 \times 300) + (1.10 \times 500)\]

for a lot total of $6,994.

The following tables must be used to provide the required information. Bidders may bid on the Northeast (NE), Northwest (NW), Southeast (SE) and/or Southwest (SW) ODPS Contract District(s). ***

** 20% is the maximum percentage allowed for the Rental Generator percentage mark-up over cost and will be used in the evaluation.
