Products and Services Price List
For the Interface Server Suite

Product License Fees

Description/Specifications:

The Interface Server Suite is a collection of programs that enables user interfaces to communicate with numerous and varied data stores. These programs are built on the standard TCP/IP network protocol and its application suite. Any data store accessible by the TCP/IP application suite can communicate to user interfaces (built on most operating system platforms) through the implementation of Interface Server programs. These License Fees include ninety (90) days of Silver Maintenance Plan support.

Product	Part Number	Multi-User Server License Fee
BackEnd Server	IFS-P000	\$1,000.00
Oracle Socket	IFS-P001	\$500.00
Informix Socket	IFS-P002	\$500.00
MySql Socket	IFS-P003	\$500.00
IBM Socket	IFS-P004	\$500.00
PostgreSQL Socket	IFS-P005	\$500.00
File Processing Socket	IFS-P006	\$500.00
ODBC Socket	IFS-P007	\$500.00
Embedded Database Socket	IFS-P008	\$500.00

Product Maintenance Programs

Description/Specifications:

Maintenance programs for the Interface Server Suite include unlimited e-mail and telephone support during the indicated hours. Maintenance also includes all patches, bug fixes and upgrades to new versions. Program prices are calculated as a percentage of the product license fees.

Plan	Part Number	Annual Plan Price
Silver Plan (8am-6pm EST)	IFS-M000	10% of Product License Fee
Gold Plan (24 x 7)	IFS-M001	15% of Product License Fee

Product Delivery Terms

Products will be delivered 30 days after receipt of order, FOB destination.

Professional Services Rates

Description/Specifications:

Technical, analytical, and management services for the customizing of the Interface Server Suite are available
