ANET-CC-APP Connector-S		AccessNet Contact Center VSiebel 7.x Application Connector (SA)* - The Siebel 7 Application Connector for I3 integrates the functionality of the Interaction Center's Client into the Siebel Web or Thin Client using a combination of Interactive Intelligence's ClientCOM API and Siebel's Adaptive Communications API. The seamless integration allows the Siebel Agent to do all phone operations while providing a powerful "screen pop" to virtually any Siebel view based on data collected in the phone system. This integration gives IT departments the ability to choose their architecture infrastructure. The Siebel 7 Application Connector for I3 can be deployed to agent workstation or simply installed on one server. AccessNet Licenses: Upgrade Only	1	\$30,629.72
