

Product Name	Manufacturer	Manufacturer Part No	Vendor Part No	Description	Unit of Measure	State Price
Systems Administrator 1	GNCS	GNCS-SA1	GNCS-SA1	Fundamental System Administration and local network support for various servers, workstations, clients, printers and direct attached storage.	1 hour	\$80.00
Systems Administrator 2	GNCS	GNCS-SA2	GNCS-SA2	System Administration and local network support for various servers, workstations, clients, printers and direct attached storage.	1 hour	\$90.00
Systems Administrator 3	GNCS	GNCS-SA3	GNCS-SA3	System Administration and local network support for various servers, workstations, clients, printers and direct attached or NAS storage.	1 hour	\$105.00
Systems Administrator 4	GNCS	GNCS-SA4	GNCS-SA4	System Administration and local network support for various servers, workstations, clients, printers and direct attached or NAS storage.	1 hour	\$115.00
Systems Administrator 5	GNCS	GNCS-SA5	GNCS-SA5	System Administration and local network support for various servers, workstations, clients, printers and direct attached or NAS storage.	1 hour	\$135.00
Systems Administrator 6	GNCS	GNCS-SA6	GNCS-SA6	System Administration and local network support for various servers, workstations, clients, printers and direct attached, NAS, and SAN storage.	1 hour	\$150.00
Systems Administrator 7	GNCS	GNCS-SA7	GNCS-SA7	System Administration and local network support for various servers, workstations, clients, printers and direct attached, NAS, and SAN storage.	1 hour	\$165.00
Systems Administrator 8	GNCS	GNCS-SA8	GNCS-SA8	Advanced System Administration and local network support for various servers, workstations, clients, printers and direct attached, NAS, and SAN storage.	1 hour	\$185.00
Systems Administrator 9	GNCS	GNCS-SA9	GNCS-SA9	Advanced System Administration and local network support for various servers, workstations, clients, printers and complex storage environments including DA, NAS, and SAN based storage	1 hour	\$200.00
Systems Administrator 10	GNCS	GNCS-SA10	GNCS-SA10	Complex System Administration and local network support for various servers, workstations, clients, printers and complex storage environments including DA, NAS, and SAN based storage	1 hour	\$225.00
Database Administrator 1	GNCS	GNCS-DB1	GNCS-DB1	Provides database administration and support for commercial database products (ORACLE, MySQL, SQL Server, DB2, Ingress, Informix). Resolves problems and troubleshoots technical issues	1 hour	\$90.00

Product Name	Manufacturer	Manufacturer Part No	Vendor Part No	Description	Unit of Measure	State Price
Database Administrator 2	GNCS	GNCS-DB2	GNCS-DB2	Provides database administration and support for commercial database products (ORACLE, MySQL, SQL Server, DB2, Ingress, Informix). Resolves problems and troubleshoots technical issues	1 hour	\$105.00
Database Administrator 3	GNCS	GNCS-DB3	GNCS-DB3	Provides database administration and support for commercial database products (ORACLE, MySQL, SQL Server, DB2, Ingress, Informix). Resolves problems and troubleshoots technical issues	1 hour	\$115.00
Database Administrator 4	GNCS	GNCS-DB4	GNCS-DB4	Provides database administration and support for commercial database products (ORACLE, MySQL, SQL Server, DB2, Ingress, Informix). Resolves problems and troubleshoots technical issues	1 hour	\$135.00
Database Administrator 5	GNCS	GNCS-DB5	GNCS-DB5	Provides advanced database administration and support for commercial database products (ORACLE, MySQL, SQL Server, DB2, Ingress, Informix). Resolves problems and troubleshoots technical issues	1 hour	\$150.00
Database Administrator 6	GNCS	GNCS-DB6	GNCS-DB6	Provides advanced database administration and support for commercial database products (ORACLE, MySQL, SQL Server, DB2, Ingress, Informix). Resolves problems and troubleshoots technical issues	1 hour	\$165.00
Database Administrator 7	GNCS	GNCS-DB7	GNCS-DB7	Provides advanced database administration and support for commercial database products (ORACLE, MySQL, SQL Server, DB2, Ingress, Informix). Resolves problems and troubleshoots technical issues	1 hour	\$190.00
Database Administrator 8	GNCS	GNCS-DB8	GNCS-DB8	Provides advanced database administration and support for commercial database products (ORACLE, MySQL, SQL Server, DB2, Ingress, Informix). Resolves problems and troubleshoots technical issues	1 hour	\$210.00
Database Administrator 9	GNCS	GNCS-DB9	GNCS-DB9	Provides complex database architecture, administration and support for commercial database products (ORACLE, MySQL, SQL Server, DB2, Ingress, Informix). Resolves complex problems and troubleshoots technical issues	1 hour	\$225.00
Cluster Administrator 4	GNCS	GNCS-CA4	GNCS-CA4	Provides advanced system administration and local network support for various commercial servers, workstations, clients, and printers, in a clustered environment.	1 hour	\$125.00
Cluster Installer 3	GNCS	GNCS-CI3	GNCS-CI3	Provides advanced system administration required to establish a clustered environment. Can architect, design and implement operational clusters (Veritas, SunCluster, HACMP, Oracle RAC, and Microsoft Cluster) in a datacenter environment.	1 hour	\$145.00

Product Name	Manufacturer	Manufacturer Part No	Vendor Part No	Description	Unit of Measure	State Price
Cluster Installer 4	GNCS	GNCS-CI4	GNCS-CI4	Provides advanced system administration required to establish a clustered environment. Can architect, design and implement operational clusters (Veritas, SunCluster, HACMP, Oracle RAC, and Microsoft Cluster) in a datacenter environment.	1 hour	\$165.00
Cluster Installer 6	GNCS	GNCS-CI6	GNCS-CI6	Provides advanced system administration required to establish a clustered environment. Can architect, design and implement operational clusters (Veritas, SunCluster, HACMP, Oracle RAC, and Microsoft Cluster) in a datacenter environment.	1 hour	\$200.00
Virtualization Engineer 1	GNCS	GNCS-VE1	GNCS-VE1	Installs and configures virtual machines	1 hour	\$115.00
Virtualization Engineer 5	GNCS	GNCS -VE5	GNCS -VE5	Design, Install, and configure virtualized computing environments.	1 hour	\$165.00
Virtualization Engineer 9	GNCS	GNCS-VE9	GNCS-VE9	Design, Install, and Configure virtualized computing environments, create virtualized workloads, and design/install a Virtual Machine Management environment	1 hour	\$225.00
Project Manager 4	GNCS	GNCS-PM4	GNCS-PM4	Manages projects including project teams, resources, and schedules.	1 hour	\$125.00
Project Manager 6	GNCS	GNCS-PM6	GNCS-PM6	Manages projects including project teams, resources, and schedules.	1 hour	\$155.00
Project Manager 9	GNCS	GNCS-PM9	GNCS-PM9	Manages projects or Programs including single or multiple project teams, resources, and schedules.	1 hour	\$200.00
System Architect 5	GNCS	GNCS-ARCH5	GNCS-ARCH5	Provides input for and contributes to customer project design activities. May produce appropriate design documentation	1 hour	\$150.00
System Architect 6	GNCS	GNCS-ARCH6	GNCS-ARCH6	Provides input for and contributes to customer project design activities. May produce appropriate design documentation	1 hour	\$165.00
System Architect 7	GNCS	GNCS-ARCH7	GNCS-ARCH7	Provides input for and contributes to customer project design activities. May produce appropriate design documentation	1 hour	\$190.00
System Architect 8	GNCS	GNCS-ARCH8	GNCS-ARCH8	Provides input for and contributes to customer project design activities. May produce appropriate design documentation	1 hour	\$210.00

Product Name	Manufacturer	Manufacturer Part No	Vendor Part No	Description	Unit of Measure	State Price
System Architect 9	GNCS	GNCS-ARCH9	GNCS-ARCH9	Provides input for and contributes to customer project design activities. May produce appropriate design documentation	1 hour	\$225.00
Application developer 1	GNCS	GNCS-DEV1	GNCS-DEV1	Provides application development for any of the common toolsets including Java and C++. May also provide product specific knowledge such as that required for Novell Identity Management projects	1 hour	\$110.00
Application developer 2	GNCS	GNCS-DEV2	GNCS-DEV2	Provides application development for any of the common toolsets including Java and C++. May also provide product specific knowledge such as that required for Novell Identity Management projects	1 hour	\$125.00
Application developer 3	GNCS	GNCS-DEV3	GNCS-DEV3	Provides application development for any of the common toolsets including Java and C++. May also provide product specific knowledge such as that required for Novell Identity Management projects	1 hour	\$140.00
Application developer 4	GNCS	GNCS-DEV4	GNCS-DEV4	Provides application development for any of the common toolsets including Java and C++. May also provide product specific knowledge such as that required for Novell Identity Management projects	1 hour	\$155.00
Application developer 5	GNCS	GNCS-DEV5	GNCS-DEV5	Provides application development for any of the common toolsets including Java and C++. May also provide product specific knowledge such as that required for Novell Identity Management projects	1 hour	\$170.00
Application developer 6	GNCS	GNCS-DEV6	GNCS-DEV6	Provides application development for any of the common toolsets including Java and C++. May also provide product specific knowledge such as that required for Novell Identity Management projects	1 hour	\$185.00
Application developer 7	GNCS	GNCS-DEV7	GNCS-DEV7	Provides application development for any of the common toolsets including Java and C++. May also provide product specific knowledge such as that required for Novell Identity Management projects	1 hour	\$200.00
Application developer 8	GNCS	GNCS-DEV8	GNCS-DEV8	Provides application development for any of the common toolsets including Java and C++. May also provide product specific knowledge such as that required for Novell Identity Management projects	1 hour	\$215.00
Application developer 9	GNCS	GNCS-DEV9	GNCS-DEV9	Provides application development for any of the common toolsets including Java and C++. May also provide product specific knowledge such as that required for Novell Identity Management projects	1 hour	\$230.00
