

Product Name	Manufacturer	Manufacturer Part No	Description	Unit of Measure	State Price
Consultant/Planner	Distinctive Business Solutions	DBS-CP-10	Functional Responsibility: Works with project planners, managers and consultants to provide critical data on feasibility, timeframes, and critical path items to key decision makers. This individual will have specialized training and experience in specific project related matter. Will apply this experience in the investigation and solution of key issues	Dollar Per Hour	\$130.00
Project Manager	Distinctive Business Solutions	DBS-PM-10	Functional Responsibility: Manages programs/projects. Will develop the best solution based on the dynamics and diversity of the team. Will use on-line project tools to improve communication among team members, especially in de-centralized organizations ensuring robust client interface. Responsible for tracking and reporting on strategic deployment issues, use of relevant success metrics, tasks, deliverables and successful completion of project. Provides the ability to lead multiple project teams consisting of diverse functional backgrounds uses the latest in project tools. Possesses excellent oral and written communication skills.	Dollar Per Hour	\$90.00
Application Engineer I	Distinctive Business Solutions	DBS-AE-10	Functional Responsibility: Designs, develops, and implements solutions at the application level. These applications are developed using open source or generally available "off the shelf" code. Analyzes element capabilities, attributes, relationships, and performance characteristics to satisfy functional requirements. Integrates third party applications, existing content and data structures into fully integrated solution. Uses integrated quality gate process to improve time to market and reduce cost.	Dollar Per Hour	\$95

Application Engineer II	Distinctive Business Solutions	DBS-AE-102	<p>Functional Responsibility: Designs, develops, and implements solutions at the application level. These applications use custom developed code. Analyzes element capabilities, attributes, relationships, and performance characteristics to satisfy functional requirements. Integrates third party applications, existing content and data structures into fully integrated solution. Uses integrated quality gate process to improve time to market and reduce cost. May provide task direction to team members.</p>	Dollar Per Hour	\$115.00
Quality Assurance Engineer	Distinctive Business Solutions	DBS-QA-10	<p>Functional Responsibility: Performs tasks related to specialized inspection and testing of project output to ensure that quality standards are met. Uses existing systems/processes and participates in the development of new systems to identify project failure trends and to verify consistency of various design standards. Recommends corrective action for procedural, product, or process deficiencies. May interface with customers, vendors, and various company departments to resolve quality problems and provide information. Participates in audits. Provides technical support to inspection personnel.</p>	Dollar Per Hour	\$65.00

Systems Engineer I	Distinctive Business Solutions	DBS-SE-10	<p>Functional Responsibility: Analyzes and evaluates user requirements by coordinating with the user to define the problem, data availability, report requirements, and system design problems. Defines system objectives and prepares system design specifications. Analyzes alternative means of deriving input data to select the most accurate, feasible, and economical methods. Defines input and output file specifications including file organization. Defines controls, conversion procedures, and system implementation plans. May provide task direction to team members</p>	Dollar Per Hour	\$75.00
Systems Engineer II	Distinctive Business Solutions	DBS-SE-102	<p>Functional Responsibility: Senior staff professional with general knowledge of the domain area. Performs tasks requiring little independent judgment. Works at the task level with supervision and guidance from senior staff. Analyzes and evaluates moderately complex user requirements by coordinating with the user to define the problem, data availability, report requirements, and system design problems. Defines system objectives and prepares system design specifications. Analyzes alternative means of deriving input data to select the most accurate, feasible, and economical methods. Defines input and output file specifications including file organization. Defines controls, conversion procedures, and system implementation plans. May provide task direction to team members.</p>	Dollar Per Hour	\$90.00

Architect I	Distinctive Business Solutions	DBS-AR-10	<p>Functional Responsibility: Designs systems, database, and/or network architectures that include software, hardware, and communications solutions to support the total requirements, as well as provide for present and future cross-functional requirements and interfaces. Evaluates compatibility of information system development efforts with agency architectures and recommends appropriate adjustments. May provide task direction to team members.</p>	Dollar Per Hour	\$110.00
Architect II	Distinctive Business Solutions	DBS-AR-102	<p>Functional Responsibility: Establishes information requirements for enterprise-wide or large-scale information systems, databases, and/or networks. Designs architectures that include software, hardware, and communications solutions to support the total requirements, as well as provide for present and future cross-functional requirements and interfaces. Evaluates compatibility of information system development efforts with agency architectures and recommends appropriate adjustments. May provide consulting support and task direction to team members.</p>	Dollar Per Hour	\$135.00
System Administrator	Distinctive Business Solutions	DBS-SA-10	<p>Functional Responsibility: Maintains data files and control procedures for business systems that may be mainframe-, mini-, or client/server-based. Assigns passwords and monitors use of resources. Troubleshoots computer-related problems and, as necessary, contacts appropriate service representatives to resolve systems problems. Installs hardware and software. Performs backups, database administration, and file recovery. Provides assistance to users in accessing and using business systems</p>	Dollar Per Hour	\$90.00

			<p>Functional Responsibility: Researches, organizes, writes, edits, and produces data for a wide variety of highly complex technical publications. Recommends overall organization and layout, editorial standards, and publication methods. Coordinates publication with outside sources and vendors as needed. Develops department editing standards and styles. Checks document for spelling, grammar, and content problems. Interviews engineers and other technical personnel, as needed. May provide task direction to team members</p>		
Technical Writer	Distinctive Business Solutions	DBS-TW-10		Dollar Per Hour	\$90.00
			<p>Functional Responsibility: Installs and maintains extremely complex networks that typically link numerous computing platforms, operating systems, and network topologies across widely dispersed geographic areas. Evaluates hardware and software. Tests and implements interface programs. Develops security procedures. Manages network performance. Troubleshoots and resolves complex problems. May require certification and require extensive expertise across hardware and systems supplied by multiple vendors. May provide task direction to team members.</p>		
Network Administrator	Distinctive Business Solutions	DBS-NA-10		Dollar Per Hour	\$85.00
