E2 Core System - .NET	enfoTech & Consulting Inc.	E2-Core-NET	E2 is a secured Internet and XML based system for regulatory agencies to collect environmental compliance data from the regulated facilities over the Internet. The E2 is designed to address all environmental programs and to support a wide range of reporting needs such as routine reporting of monitoring data for wastewater, drinking water, air, hazardous waste material, annual reports, and compliance certification. The E2 System is designed to integrate with state backend databases to significantly improve data quality, save resources, and improve business processes. .NET version.	Server	\$100,000.00
E2 Core System - Java	enfoTech & Consulting Inc.	E2-Core-Java	E2 is a secured Internet and XML based system for regulatory agencies to collect environmental compliance data from the regulated facilities over the Internet. The E2 is designed to address all environmental programs and to support a wide range of reporting needs such as routine reporting of monitoring data for wastewater, drinking water, air, hazardous waste material, annual reports, and compliance certification. The E2 System is designed to integrate with state backend databases to significantly improve data quality, save resources, and improve business processes. Java version.	Server	\$200,000.00
E2 e-DMR Module - .NET	enfoTech & Consulting Inc.	E2-EDMR-NET	Electronic Discharge Monitoring compliance reporting module for E2. .NET version.	Server	\$30,000.00
E2 e-DMR Module - Java	enfoTech & Consulting Inc.	E2-EDMR-Java	Electronic Discharge Monitoring compliance reporting module for E2. Java version.	Server	\$50,000.00
E2 e-DWR Module - .NET	enfoTech & Consulting Inc.	E2-EDWR-NET	Electronic Drinking Water compliance reporting module for E2. .NET version.	Server	\$45,000.00
E2 e-DWR Module - Java	enfoTech & Consulting Inc.	E2-EDWR-Java	Electronic Drinking Water compliance reporting module for E2. Java version.	Server	\$50,000.00
E2 e-CRM Module - .NET	enfoTech & Consulting, Inc.	E2-EGWR-NET	Electronic Groundwater Discharge compliance reporting module for E2. .NET version.	Server	\$35,000.00
E2 e-CRM Module - Java	enfoTech & Consulting, Inc.	E2-EGWR-Java	Electronic Groundwater Discharge compliance reporting module for E2. Java version.	Server	\$37,500.00
E2 e-PWTA Module - .NET	enfoTech & Consulting, Inc.	E2-EPWTA-NET	Private Well Testing compliance reporting module for E2. .NET version.	Server	\$45,000.00
E2 e-PWTA Module - Java	enfoTech & Consulting, Inc.	E2-EPWTA-Java	Private Well Testing compliance reporting module for E2. Java version.	Server	\$50,000.00
E2 e-Air Module - .NET	enfoTech & Consulting, Inc.	E2-EAIR-NET	Electronic Air compliance reporting module for E2. .NET version.	Server	\$60,000.00
E2 e-Air Module - Java	enfoTech & Consulting, Inc.	E2-EAIR-Java	Electronic Air compliance reporting module for E2. Java version.	Server	\$85,000.00
E2 e-Volunteer Water Monitoring Module - .NET	enfoTech & Consulting, Inc.	E2-EVWM-NET	Electronic Volunteer Water Monitoring module for E2. .NET version.	Server	\$40,000.00
E2 e-Volunteer Water Monitoring Module - Java	enfoTech & Consulting, Inc.	E2-EVWM-Java	Electronic Volunteer Water Monitoring module for E2. Java version.	Server	\$45,000.00
GovOnline e-Permit Core System - .NET	enfoTech & Consulting, Inc.	GovOnline-P-Core-NET	GovOnline is a secure Internet and XML based system that allows regulatory agencies to accept and process permit applications online. The regulated facilities have the ability to apply for permits, pay required fees, receive approval notification, track application status, and print the final permit document online. The GovOnline System is designed to integrate with state backend databases to significantly improve data quality, save resources, and improve business processes. .NET version.	Server	\$120,000.00
GovOnline e-Permit Core System - Java	enfoTech & Consulting, Inc.	GovOnline-P-Core-Java	The e-Permit System is a secure Internet and XML based system that allows regulatory agencies to accept and process permit applications online. Regulated facilities may apply for permits, pay required fees, receive approval notification, track application status, and print final permit documents online. The e-Permit System is designed to integrate with state backend databases to significantly improve data quality, save resources, and improve business processes. Java version	Server	\$240,000.00
GovOnline e-Permit Air Permit to Install - NET	enfoTech & Consulting, Inc.	GovOnline-P-Air-NET	Air permit flow for e-Permit. .NET version.	Server	\$10,500.00
GovOnline e-Permit Air Permit to Install - Java	enfoTech & Consulting, Inc.	GovOnline-P-Air-Java	Air permit flow for e-Permit. Java version.	Server	\$16,500.00

Product Name	Manufacturer	Manufacturer Part No	Description	Unit of Measure	State Price
GovOnline e-Permit Groundwater Discharge Permit - .NET	enfoTech & Consulting, Inc.	GovOnline-P-GDP-NET	Groundwater Discharge permit flow for e-Permit. .NET version.	Server	\$14,500.00
GovOnline e-Permit Groundwater Discharge Permit - Java	enfoTech & Consulting, Inc.	GovOnline-P-GDP-Java	Groundwater Discharge permit flow for e-Permit. Java version.	Server	\$22,500.00
GovOnline e-Permit Joint Permit Application - .NET	enfoTech & Consulting, Inc.	GovOnline-P-JPA-NET	Joint Permit Application permit flow for e-Permit. .NET version.	Server	\$19,500.00
GovOnline e-Permit Joint Permit Application - Java	enfoTech & Consulting, Inc.	GovOnline-P-JPA-Java	Joint Permit Application permit flow for e-Permit. Java version.	Server	\$29,500.00
GovOnline e-Permit Wastewater Construction Permit - .NET	enfoTech & Consulting, Inc.	GovOnline-P-WCP-NET	Wastewater Construction permit flow for e-Permit. .NET version.	Server	\$10,500.00
GovOnline e-Permit Wastewater Construction Permit - Java	enfoTech & Consulting, Inc.	GovOnline-P-WCP-Java	Wastewater Construction permit flow for e-Permit. Java version.	Server	\$16,500.00
GovOnline e-Permit NPDES Major Wastewater Discharge Permit - .NET	enfoTech & Consulting, Inc.	GovOnline-P-NPDES-NET	NPDES Major Wastewater Discharge permit flow for e-Permit. .NET version.	Server	\$19,500.00
GovOnline e-Permit NPDES Major Wastewater Discharge Permit - Java	enfoTech & Consulting, Inc.	GovOnline-P-NPDES-Java	NPDES Major Wastewater Discharge permit flow for e-Permit. Java version.	Server	\$29,500.00
GovOnline e-Permit Water Supply System Permit - .NET	enfoTech & Consulting, Inc.	GovOnline-P-WSSP-NET	Water Supply System permit flow for e-Permit. .NET version.	Server	\$10,500.00
GovOnline e-Permit Water Supply System Permit - Java	enfoTech & Consulting, Inc.	GovOnline-P-WSSP-Java	Water Supply System permit flow for e-Permit. Java version.	Server	\$16,500.00
GovOnline e-Permit Regulated HW Waste Site Identification - .NET	enfoTech & Consulting, Inc.	GovOnline-P-RWSI-NET	Regulated HW Waste Site Identification permit flow for e-Permit. .NET version.	Server	\$14,500.00
GovOnline e-Permit Regulated HW Waste Site Identification - Java	enfoTech & Consulting, Inc.	GovOnline-P-RWSI-Java	Regulated HW Waste Site Identification permit flow for e-Permit. Java version.	Server	\$22,500.00
GovOnline e-Permit Notice of Intent (NOI) for Storm Water Discharge - .NET	enfoTech & Consulting, Inc.	GovOnline-P-NOI-NET	Notice of Intent (NOI) for Storm Water Discharge permit flow for e-Permit. .NET version.	Server	\$10,500.00
GovOnline e-Permit Notice of Intent (NOI) for Storm Water Discharge - Java	enfoTech & Consulting, Inc.	GovOnline-P-NOI-Java	Notice of Intent (NOI) for Storm Water Discharge permit flow for e-Permit. Java version.	Server	\$16,500.00
GovOnline e-Permit Notice of Coverage (NOC) for Storm Water Discharge - .NET	enfoTech & Consulting, Inc.	GovOnline-P-NOC-NET	Notice of Coverage (NOC) for Storm Water Discharge permit flow for e-Permit. .NET version.	Server	\$10,500.00
GovOnline e-Permit Notice of Coverage (NOC) for Storm Water Discharge - Java	enfoTech & Consulting, Inc.	GovOnline-P-NOC-Java	Notice of Coverage (NOC) for Storm Water Discharge permit flow for e-Permit. Java version.	Server	\$16,500.00

Product Name	Manufacturer	Manufacturer Part No	Description	Unit of Measure	State Price
GovOnline e-Permit No Exposure Certification for Storm Water Discharge - .NET	enfoTech & Consulting, Inc.	GovOnline-P-NEC-NET	No Exposure Certification for Storm Water Discharge permit flow for e-Permit. .NET version.	Server	\$10,500.00
GovOnline e-Permit No Exposure Certification for Storm Water Discharge - Java	enfoTech & Consulting, Inc.	GovOnline-P-NEC-Java	No Exposure Certification for Storm Water Discharge permit flow for e-Permit. Java version.	Server	\$16,500.00
GovOnline e-Permit Pesticide Survey Form - .NET	enfoTech & Consulting, Inc.	GovOnline-P-PSF-NET	Pesticide Survey Form permit flow for e-Permit. .NET version.	Server	\$10,500.00
GovOnline e-Permit Pesticide Survey Form - Java	enfoTech & Consulting, Inc.	GovOnline-P-PSF-Java	Pesticide Survey Form permit flow for e-Permit. Java version.	Server	\$16,500.00
GovOnline e-Permit Certificate of Coverage for Non-Storm Water (short form) - .NET	enfoTech & Consulting, Inc.	GovOnline-P-COC-short-NET	Certificate of Coverage for Non-Storm Water (short form) permit flow for e-Permit. .NET version.	Server	\$10,500.00
GovOnline e-Permit Certificate of Coverage for Non-Storm Water (short form) - Java	enfoTech & Consulting, Inc.	GovOnline-P-COC-short-Java	Certificate of Coverage for Non-Storm Water (short form) permit flow for e-Permit. .NET version.	Server	\$16,500.00
GovOnline e-Permit Certificate of Coverage for Non-Storm Water (long form) - .NET	enfoTech & Consulting, Inc.	GovOnline-P-COC-long-NET	Certificate of Coverage for Non-Storm Water (long form) permit flow for e-Permit. .NET version.	Server	\$19,500.00
GovOnline e-Permit Certificate of Coverage for Non-Storm Water (long form) - Java	enfoTech & Consulting, Inc.	GovOnline-P-COC-long-Java	Certificate of Coverage for Non-Storm Water (long form) permit flow for e-Permit. Java version.	Server	\$29,500.00
eAquaPro Inventory System	enfoTech & Consulting Inc.	AQUI-P1	eAquaPro Inventory is a web-based application developed to help State Agencies manage its National Pollutant Discharge Elimination System (NPDES) program. The System manages Facilities, Permits, Inspections, Monitoring, DMR, Compliance, and Enforcement data.	Server	\$220,000.00
eAquaPro WQ System	enfoTech & Consulting Inc.	AQUX-P1	eAquaPro Water Quality system is a web-based system designed to streamline collection and management of Ambient Water Quality monitoring data. The eAquaPro WQ system allows the laboratories, contractors, or volunteers to establish projects, sampling locations, and submit monitoring data via Internet. The System also performs data validations of all submissions to ensure data quality meeting certain EPA's guidelines. It manages sampling requirements, trip schedules, QAP plans and offers geospatial and trending analyses of water quality data. The System supports data submission to the EPA's WQX data system.	Server	\$120,000.00
eAirPro Inventory System	enfoTech & Consulting Inc.	AIRI-P1	eAirPro Inventory is a web-based application designed to help Regulatory Agencies to manage air emission sources, emissions, and emission-based fees. It also allows emission sources to calculate/report emissions via Internet. Features include dashboard, source management, annual "master list of reporters", emission calculations, emission audit, fee calculation, and invoicing and fee payment. The System supports emission calculations from Industrial Operations, Residential, Vehicle Emissions, Transport (Aviation, Ports, Railways, Pipelines), Waste (Wastewater Treatment, Landfill), Agriculture and Fishing, Land Use and Forestry, Natural Sources. The System also provides a data mining tool and produces GHG equivalent reports in accordance with the United Nations' IPCC guidelines.	Server	\$180,000.00

Product Name	Manufacturer	Manufacturer Part No	Description	Unit of Measure	State Price
eAirPro AQS System	enfoTech & Consulting Inc.	AIRS-P1	eAirPro Air Quality System is a web-based system with a central database for managing ambient air quality monitoring data. The system interfaces with real-time air monitoring equipment. It offers features for real time data collection, data quality checks, API index calculation, field data management, geospatial analysis, and time series air quality trending graphs. The public component of eAirPro AQS allows publication of air quality data, data search, and data export. The System also interfaces with Exchange Network protocols to submit data to USEPA.	Server	\$105,000.00
eWastePro System	enfoTech & Consulting Inc.	WAS-P1	eWastePro System is a web-based central database for managing waste generators/transporters/TSD, waste disposal plans, site remediation, clean-up projects, inspections, compliance and enforcement. Specifically, the eWastePro System will provide data tracking functions for the following programs: <ul style="list-style-type: none"> <li>- RCRA regulated facilities (including all data required by EPA RCRA 8700-12 Site Identification forms)</li> <li>- RCRA's Waste Disposal Plans</li> <li>- EPA Waste Code Permitted at TSD Facility</li> <li>- Management Method Code at TSD Facility</li> <li>- Brownfield Program</li> <li>- Voluntary Clean-Up Program (VCP)</li> <li>- Superfund Site Details</li> <li>- Non-Hazardous Industrial Waste Certification (NHIW)</li> <li>- Permit Data and Permit Details (for hazardous, solid waste, and waste tire program)</li> <li>- Compliance Schedule and Submission log (received date, and review comments)</li> <li>- Inspection data</li> <li>- Compliance and enforcement</li> </ul>	Server	\$130,000.00
EMS System	enfoTech & Consulting Inc.	EMS-P1	EMS System is a web-based event tracking for managing complain intake, resource assignment, investigation, resolution, and time tracking to fulfill regulatory mandate. The EMS offers two portals" <ul style="list-style-type: none"> <li>• EMS-State Portal: to be used by DEQ Staff to review/response to complaints and service requests submitted by the general publics and regulated facilities.</li> <li>• EMS-Public Portal: to be used by public to submit complaints and track resolution</li> </ul> EMS offers confidential data protection, supports freedom of information act, and collects customer satisfaction survey data	Server	\$110,000.00
iPACS - Standard Version	enfoTech & Consulting, Inc.	IPACS-Standard	iPACS is an integrated web-based application designed for water utilities to manage industrial waste control & compliance information. The iPACS supports the following environmental programs: <ul style="list-style-type: none"> <li>- Pretreatment &amp; Industrial Waste Control</li> <li>- Fat Oil and Grease (FOG)</li> <li>- Storm water BMP,</li> <li>- Illicit Discharge Elimination,</li> <li>- Extra Strength Surcharge,</li> <li>- Spill Response and Complaint Management,</li> <li>- Waste Haulers,</li> <li>- Wellhead Risk Assessment/Protection,</li> <li>- Invoice/Finance, etc.</li> </ul> iPACS interface with LIMS, GIS, and tablet PC for mobile computing.	Server	See Exhibit I, Schedule A- enfoTech Software Products and Services Pricing - Section (I)

Product Name	Manufacturer	Manufacturer Part No	Description	Unit of Measure	State Price
iPACS - Advanced Version	enfoTech & Consulting, Inc.	IPACS-Advanced	iPACS is an integrated web-based application designed for water utilities to manage industrial waste control & compliance information. The iPACS supports the following environmental programs: - Pretreatment & Industrial Waste Control - Fat Oil and Grease (FOG) - Storm water BMP, - Illicit Discharge Elimination, - Extra Strength Surcharge, - Spill Response and Complaint Management, - Waste Haulers, - Wellhead Risk Assessment/Protection, - Invoice/Finance, etc. iPACS interface with LIMS, GIS, and tablet PC for mobile computing.	Server	See Exhibit I, Schedule A- enfoTech Software Products and Services Pricing - Section (I)
iPACS - Enterprise-Wide Version	enfoTech & Consulting, Inc.	IPACS-Enterprise-Wide	iPACS is an integrated web-based application designed for water utilities to manage industrial waste control & compliance information. The iPACS supports the following environmental programs: - Pretreatment & Industrial Waste Control - Fat Oil and Grease (FOG) - Storm water BMP, - Illicit Discharge Elimination, - Extra Strength Surcharge, - Spill Response and Complaint Management, - Waste Haulers, - Wellhead Risk Assessment/Protection, - Invoice/Finance, etc. iPACS interface with LIMS, GIS, and tablet PC for mobile computing.	Server	See Exhibit I, Schedule A- enfoTech Software Products and Services Pricing - Section (I)
FAST - Field Assistance Service Tracking System	enfoTech & Consulting, Inc.	FAST-NET	FAST is designed to assist field personnel to improve data access and collection processes, and to become more efficient in performing field work. FAST can be used with Tablet PCs, Pocket PCs, or desktop PCs to help inspectors and sampling crew to electronically capture inspection results, record field readings, and issue citations, temporary permits or other enforcement activities in the field. .NET version.	User-Computer License	\$1,200.00
Data Flow Wizard - .NET	enfoTech & Consulting, Inc.	ENODE-DataFlow-NET	Data Flow Wizard allows the developers to develop data flows from start to finish without any coding or deployment required. It has the ability to coordinate a series of activities into one single data flow. .NET version.	Server	\$15,000.00
XML Flow Composer - .NET	enfoTech & Consulting, Inc.	ENODE-XMLFlow-NET	The XML Flow Composer allows data flow developers to compose or parse XML without any coding or redeployment required. Traditional Stored Procedure-based or code-based XML Composition / Parsing options are still supported. .NET version.	Server	\$15,000.00
