Subject Matter Expert I	Currier, McCabe and Associates, Inc.	100	Subject Matter Expert I (3/1/17 - 02/28/18) Supports the definition and implementation of planning processes and systems at the enterprise or group level and including both strategic and operational activities. Evaluates expectations for and capabilities of the information management organization and makes recommendations to improve service. May require specialized training with a specific software / hardware tool set.	Hourly	\$250.28
Project Manager III	Currier, McCabe and Associates, Inc.	303	Project Manager III (3/1/17 - 02/28/18) Manages a large project ensuring that the project comes in on time and under budget. Responsible for the overall management of the specific task order(s) and insuring that the technical solutions and schedules in the task order are implemented in a timely manner. Performs enterprise wide horizontal integration planning and interfaces to other functional systems. Assigns and delegates tasks to analysts and developers also working on the project. Tracks the progress of a project using tools such as Microsoft's Project.	Hourly	\$95.24
Project Manager IV	Currier, McCabe and Associates, Inc.	304	Project Manager IV (3/1/17 - 02/28/18) Manages a large project ensuring that the project comes in on time and under budget. Responsible for the overall management of the specific task order(s) and insuring that the technical solutions and schedules in the task order are implemented in a timely manner. Performs enterprise wide horizontal integration planning and interfaces to other functional systems. Assigns and delegates tasks to analysts and developers also working on the project. Tracks the progress of a project using tools such as Microsoft's Project.	Hourly	\$112.39
Project Manager V	Currier, McCabe and Associates, Inc.	305	Project Manager V (3/1/17 - 02/28/18) Manages a large project ensuring that the project comes in on time and under budget. Responsible for the overall management of the specific task order(s) and insuring that the technical solutions and schedules in the task order are implemented in a timely manner. Performs enterprise wide horizontal integration planning and interfaces to other functional systems. Assigns and delegates tasks to analysts and developers also working on the project. Tracks the progress of a project using tools such as Microsoft's Project.	Hourly	\$150.16
Project Manager VII	Currier, McCabe and Associates, Inc.	307	Project Manager VII (3/1/17 - 02/28/18) Manages a large project ensuring that the project comes in on time and under budget. Responsible for the overall management of the specific task order(s) and insuring that the technical solutions and schedules in the task order are implemented in a timely manner. Performs enterprise wide horizontal integration planning and interfaces to other functional systems. Assigns and delegates tasks to analysts and developers also working on the project. Tracks the progress of a project using tools such as Microsoft's Project.	Hourly	\$180.62
Business Analyst III	Currier, McCabe and Associates, Inc.	403	Business Analyst III (3/1/17 - 02/28/18) Devises, designs, or modifies procedures to solve complex problems considering computer equipment capacity and limitations, operating time and form of desired results. Prepares detailed specifications, data flow diagrams, or flowcharts from which programs will be written. Analyzes and revises existing system logic and documentation as necessary. Has full technical knowledge of all phases of applications systems analysis. May use CASE tools. Also has duties instructing, directing, and checking the work of other systems analysis personnel. Responsible for testing and quality assurance review. This position requires experience in information systems, computer programming, analysis and developing systems involving computer technology.	Hourly	\$84.82
Information Systems Consultant II	Currier, McCabe and Associates, Inc.	502	Information Systems Consultant II (3/1/17 - 02/28/18) Top-level technical expert. Specializes in software development on mainframe, midrange, desktop, client/server, or web platforms. Works with user groups to solve business problems with available technology including hardware, software, databases, and peripherals. Has high level of diverse technical experience related to studying and analyzing system needs, systems development and systems process analysis, design, and re-engineering. Has skills and experience related to business management, systems engineering, operations research, or management engineering. Keeps abreast of technological developments and applications. This position requires experience in information systems, computer programming, analysis and developing systems involving computer technology.	Hourly	\$79.25

Information Systems Consultant IV	Currier, McCabe and Associates, Inc.	504	Information Systems Consultant IV (3/1/17 - 02/28/18) Top-level technical expert. Specializes in software development on mainframe, midrange, desktop, client/server, or web platforms. Works with user groups to solve business problems with available technology including hardware, software, databases, and peripherals. Has high level of diverse technical experience related to studying and analyzing system needs, systems development and systems process analysis, design, and re-engineering. Has skills and experience related to business management, systems engineering, operations research, or management engineering. Keeps abreast of technological developments and applications. This position requires experience in information systems, computer programming, analysis and developing systems involving computer technology.	Hourly	\$106.37
Information Systems Consultant V	Currier, McCabe and Associates, Inc.	504	Information Systems Consultant V (3/1/17 - 02/28/18) Top-level technical expert. Specializes in software development on mainframe, midrange, desktop, client/server, or web platforms. Works with user groups to solve business problems with available technology including hardware, software, databases, and peripherals. Has high level of diverse technical experience related to studying and analyzing system needs, systems development and systems process analysis, design, and re-engineering. Has skills and experience related to business management, systems engineering, operations research, or management engineering. Keeps abreast of technological developments and applications. This position requires experience in information systems, computer programming, analysis and developing systems involving computer technology.	Hourly	\$120.27
Information Systems Consultant VII	Currier, McCabe and Associates, Inc.	504	Information Systems Consultant VII (3/1/17 - 02/28/18) Top-level technical expert. Specializes in software development on mainframe, midrange, desktop, client/server, or web platforms. Works with user groups to solve business problems with available technology including hardware, software, databases, and peripherals. Has high level of diverse technical experience related to studying and analyzing system needs, systems development and systems process analysis, design, and re-engineering. Has skills and experience related to business management, systems engineering, operations research, or management engineering. Keeps abreast of technological developments and applications. This position requires experience in information systems, computer programming, analysis and developing systems involving computer technology.	Hourly	\$170.32
Web Developer IV	Currier, McCabe and Associates, Inc.	604	Web Developer IV (3/1/17 - 02/28/18) Responsible for planning, developing, and deploying web sites including preparation of text, graphics, audio, and video for web pages. Works directly with clients to determine project scope and specifications. Manages resources, and ensures overall quality of completed web site. Requires understanding of web-based technologies and thorough knowledge of tag-based languages such as HTML, DHTML, or XML. At the higher levels, requires experience with web-based languages such as Java, J++, or VB Script. Typically requires an Associate's degree and understanding of web technologies. This position requires the minimum experience noted below in information systems, computer programming, analysis and developing systems involving computer technology.	Hourly	\$79.25
Web Developer VIII	Currier, McCabe and Associates, Inc.	608	Web Developer VIII (3/1/17 - 02/28/18) Responsible for planning, developing, and deploying web sites including preparation of text, graphics, audio, and video for web pages. Works directly with clients to determine project scope and specifications. Manages resources, and ensures overall quality of completed web site. Requires understanding of web-based technologies and thorough knowledge of tag-based languages such as HTML, DHTML, or XML. At the higher levels, requires experience with web-based languages such as Java, J++, or VB Script. Typically requires an Associate's degree and understanding of web technologies. This position requires the minimum experience noted below in information systems, computer programming, analysis and developing systems involving computer technology.	Hourly	\$150.16

Product Name	Manufacturer	Manufacturer Part No	Description	Unit of Measure	State Price
ERP Developer II	Currier, McCabe and Associates, Inc.	702	ERP Developer II (3/1/17 - 02/28/18) Responsible for implementation of a large Enterprise Resource Planning Package (such as SAP, Baan, Peoplesoft, J.D. Edwards, Oracle Financials, Deltek). Duties may include task management, business analysis, data mapping and migration, or software design and modification involved in the implementation of an ERP package. Performs enterprise wide horizontal integration planning and interfaces to other functional systems. This position requires the minimum experience noted below in information systems, computer programming, analysis and developing systems involving computer technology.	Hourly	\$77.86
Database Architect III	Currier, McCabe and Associates, Inc.	803	Database Architect III (3/1/17 - 02/28/18) A Database specialist experienced in data normalization, data modeling, database administration, database design, or SQL programming. Experience with a data modeling tool capable of producing an entity-relationship diagram and capable of forward or reverse engineering (such tools include ERWIN, System Architect, and Designer 2000). Experienced with a large-scale relational database (such as Oracle, Sybase, or SQL Server). May also be experience in database development using SQL or a Computer Aided Software Engineering (CASE) tool. At the higher levels, may also have Database Administration (DBA) skills. Also at the higher levels, may be capable of fine-tuning a database and database optimization. This position requires the minimum experience noted below in information systems, computer programming, analysis and developing systems involving computer technology.	Hourly	\$90.38
Database Architect IV	Currier, McCabe and Associates, Inc.	804	Database Architect IV (3/1/17 - 02/28/18) A Database specialist experienced in data normalization, data modeling, database administration, database design, or SQL programming. Experience with a data modeling tool capable of producing an entity-relationship diagram and capable of forward or reverse engineering (such tools include ERWIN, System Architect, and Designer 2000). Experienced with a large-scale relational database (such as Oracle, Sybase, or SQL Server). May also be experience in database development using SQL or a Computer Aided Software Engineering (CASE) tool. At the higher levels, may also have Database Administration (DBA) skills. Also at the higher levels, may be capable of fine-tuning a database and database optimization. This position requires the minimum experience noted below in information systems, computer programming, analysis and developing systems involving computer technology.	Hourly	\$115.41
Database Architect VII	Currier, McCabe and Associates, Inc.	807	Database Architect VII (3/1/17 - 02/28/18) A Database specialist experienced in data normalization, data modeling, database administration, database design, or SQL programming. Experience with a data modeling tool capable of producing an entity-relationship diagram and capable of forward or reverse engineering (such tools include ERWIN, System Architect, and Designer 2000). Experienced with a large-scale relational database (such as Oracle, Sybase, or SQL Server). May also be experience in database development using SQL or a Computer Aided Software Engineering (CASE) tool. At the higher levels, may also have Database Administration (DBA) skills. Also at the higher levels, may be capable of fine-tuning a database and database optimization. This position requires the minimum experience noted below in information systems, computer programming, analysis and developing systems involving computer technology.	Hourly	\$161.28
Database Architect VIII	Currier, McCabe and Associates, Inc.	808	Database Architect VIII (3/1/17 - 02/28/18) A Database specialist experienced in data normalization, data modeling, database administration, database design, or SQL programming. Experience with a data modeling tool capable of producing an entity-relationship diagram and capable of forward or reverse engineering (such tools include ERWIN, System Architect, and Designer 2000). Experienced with a large-scale relational database (such as Oracle, Sybase, or SQL Server). May also be experience in database development using SQL or a Computer Aided Software Engineering (CASE) tool. At the higher levels, may also have Database Administration (DBA) skills. Also at the higher levels, may be capable of fine-tuning a database and database optimization. This position requires the minimum experience noted below in information systems, computer programming, analysis and developing systems involving computer technology.	Hourly	\$225.93

Product Name	Manufacturer	Manufacturer Part No	Description	Unit of Measure	State Price
Network Engineer II	Currier, McCabe and Associates, Inc.	902	Network Engineer II (3/1/17 - 02/28/18) Manages LAN performance and maintains LAN security. Installs network software. Troubleshoots LAN problems and network configuration problems. Implements network LAN policies, standards, and procedures. Administers and manages User Accounts, File and Print Sharing services including server file system security policies and procedures. Administers and manages Electronic Mail accounts and policies. Troubleshoots LAN Server problems. At the more senior levels, responsible for the overall integration of the network including the planning, design, installation, maintenance, management, and coordination of the corporate LAN/WAN (may include local, metropolitan, and wide area networks). Has responsibility for technical architecture and recommendations related to LAN/WAN. Knowledgeable in a multi-platform, multi-protocol environment. Knowledgeable in troubleshooting and testing equipment and tools. This position requires experience in PC/LAN Administration including a good knowledge of Network Operating Systems such as Windows NT Server, and Novell NetWare.	Hourly	\$69.52
Network Engineer IV	Currier, McCabe and Associates, Inc.	904	Network Engineer IV (3/1/17 - 02/28/18) Manages LAN performance and maintains LAN security. Installs network software. Troubleshoots LAN problems and network configuration problems. Implements network LAN policies, standards, and procedures. Administers and manages User Accounts, File and Print Sharing services including server file system security policies and procedures. Administers and manages Electronic Mail accounts and policies. Troubleshoots LAN Server problems. At the more senior levels, responsible for the overall integration of the network including the planning, design, installation, maintenance, management, and coordination of the corporate LAN/WAN (may include local, metropolitan, and wide area networks). Has responsibility for technical architecture and recommendations related to LAN/WAN. Knowledgeable in a multi-platform, multi-protocol environment. Knowledgeable in troubleshooting and testing equipment and tools. This position requires experience in PC/LAN Administration including a good knowledge of Network Operating Systems such as Windows NT Server, and Novell NetWare.	Hourly	\$97.33
Help Desk Coordinator II	Currier, McCabe and Associates, Inc.	1102	Help Desk Coordinator II (3/1/17 - 02/28/18) Responds to and diagnoses problems through discussions with users. Includes problem recognition, research, isolation and resolution steps. Typically is able to resolve less complex problems immediately, while more complex problems are elevated to higher-level Help Desk tiers. May involve use of problem management database and help desk systems. This position requires the minimum experience noted below in information systems and computer technology. A BS-BA Degree is equivalent to four years of experience. A MS-MA Degree is equivalent to two additional years of experience.	Hourly	\$66.74
Solution Architect I	Currier, McCabe and Associates, Inc.	1401	Solution Architect I (3/1/17 - 02/28/18) Establishes system information requirements to develop large scale information systems. Designs architecture to include the software, hardware, and communications. Ensures compatibility, compliance, and regulatory requirements. Evaluates work flows, organization, and planning. Develops corrective action when necessary. This position requires the minimum experience noted below. A MS-MA Degree is equivalent to two additional years of experience.	Hourly	\$79.25
ETL Developer I	Currier, McCabe and Associates, Inc.	1501	ETL Developer I (3/1/17 - 02/28/18) Responsible for the extracting, gathering, transforming, loading and validating of data. Seamlessly integrates data between multiple systems by loading data from various sources / feeds, transforming the data according to business rules and loading the data in destination databases. Most commonly used ETL tools that consultants may have worked with include: IBM DataStage, Informatica PowerCenter, OWB, ODI, SAS ETL Studio, BO Data Integrator, Microsoft SQL Server Integration Services (SSIS) and Jasper ETL. This position requires the minimum experience noted below. A MS-MA Degree is equivalent to two additional years of experience.	Hourly	\$75.78

Product Name	Manufacturer	Manufacturer Part No	Description	Unit of Measure	State Price
ETL Developer IV	Currier, McCabe and Associates, Inc.	1504	ETL Developer IV (3/1/17 - 02/28/18) Responsible for the extracting, gathering, transforming, loading and validating of data. Seamlessly integrates data between multiple systems by loading data from various sources / feeds, transforming the data according to business rules and loading the data in destination databases. Most commonly used ETL tools that consultants may have worked with include: IBM DataStage, Informatica PowerCenter, OWB, ODI, SAS ETL Studio, BO Data Integrator, Microsoft SQL Server Integration Services (SSIS) and Jasper ETL. This position requires the minimum experience noted below. A MS-MA Degree is equivalent to two additional years of experience.	Hourly	\$152.24
Enterprise Architect II	Currier, McCabe and Associates, Inc.	1702	Enterprise Architect II (3/1/17 - 02/28/18) Enterprise Architecture professionals are responsible for understanding new software and systems technologies that are emerging in use, driving the initial assets and engagements using these technologies. The Enterprise Architect will be responsible for establishing system information requirements to develop large scale information systems. They will, design architecture to include the software, hardware, and communications, ensure compatibility, compliance, and regulatory requirements and evaluate work flows, organization, and planning. Enterprise Architecture professionals have diverse, technology-centric backgrounds, have experience in delivering solutions based on advanced technology and are self-starters who are enthusiastic about technology and have a deep personal interest in working on the leading edge.	Hourly	\$175.89
IT Infrastructure Manager IV	Currier, McCabe and Associates, Inc.	2304	IT Infrastructure Manager IV (3/1/17 - 02/28/18) The Infrastructure Manager's role is to plan, organize, and manage staff and overall operations to ensure the stable operation of the organization's IT infrastructure. This includes developing, maintaining, supporting, and optimizing key functional areas, particularly network infrastructure, server infrastructure, data communications, and telecommunications systems. The Infrastructure Manager will also schedule and direct activities to resolve hardware and software problems in a timely and accurate fashion. Oversees management of the data centers, technical service centers, production scheduling, help desks, communication networks and computer systems operations. Directs the maintenance and support of all electronic and computerized systems; information processing equipment, and software for the acquisition, storage, and retrieval of information. Sets the direction for all information processing and communication systems and operations. Manages the enterprise's information technology budget. Determines network architecture strategies and standards.	Hourly	\$150.86
IT Trainer II	Currier, McCabe and Associates, Inc.	2402	IT Trainer II (3/1/17 - 02/28/18) Responsible for system and policy training for IT systems. Duties may include authoring training materials, creation of schedules and presentations, performance of training sessions and refresher training courses via webinar and live stand-up classroom sessions. IT Trainers are professionals that have diverse, technology-centric training backgrounds, have experience in delivering training based on advanced technology and are self-starters who are enthusiastic about technology and have a deep personal interest in training and education. This position requires the minimum experience noted below in information systems, computer programming, analysis and developing systems involving computer technology.	Hourly	\$68.82
