SCAN & VALIDATE PROPERTY MANAGER (Year 1), Manager Seat on Server (Unrestricted Access)	AssetWorks	SV100	Many processes must come together to successfully complete a physical inventory. AssetWorks Scan & Validate is a web-based solution that streamlines every aspect of the inventory process. Its comprehensive functionality automates the scanning and reconciliation of assets, and integrates into your existing asset management system. The system utilizes hand-held computers (scanners) to scan barcode tags and manage data in the field. Scan & Validate is designed to work with other enterprise applications. The system includes built-in import and export utilities to facilitate the transfer of fields specific to your inventory process by using a layout that you provide. Scan & Validate literally becomes an extension of your current asset management system.	$2,078.09
