

Product Name	Manufacturer	Manufacturer Part No	Description	Unit of Measure	State Price
Administrative Support, Assoc	SIS	2012-Administrative Support, Assoc	Administrative Support, Assoc (11/15/2012-11/14/2017). Under direct supervision applies administrative knowledge and support for office automation systems. Provides knowledge and capability in the use of personal computers and appropriate software applications to produce reports to include financial, records and office administration. May provide assistance during briefings to include VTC assistance or other multimedia. Uses automated methods to monitor and track automated data processing equipment, office materials and assists with supply lists and <u>electronic baskets.</u>	Hour	\$25.52
Administrative Support, SR.	SIS	2012-Administrative Support, SR.	Administrative Support, SR (11/15/2012-11/14/2017). Under direct supervision applies administrative knowledge and support for office automation systems. Provides knowledge and capability in the use of personal computers and appropriate software applications to produce reports to include financial, records and office administration. May provide assistance during briefings to include VTC assistance or other multimedia. Supports customer requirements for internal/external briefings/reports by assisting with preparation, scheduling and material coordination. Uses automated methods to monitor/ track automated data processing equipment, office materials and assists with supply lists and electronic baskets.	Hour	\$59.21
Architect	SIS	2012-Architect	Architect (11/15/2012-11/14/2017). Responsible for all or part of the architecture of a system, sub-system or component. Responsibilities may include network or subsystem componentization, object modeling, performance, database design, operation and maintenance, Security, availability, stability, etc.	Hour	\$192.60
Architect, Sr.	SIS	2012-Architect, Sr.	Architect, Sr. (11/15/2012-11/14/2017). Performs complex software design activities integrating multiple technologies. Provides architectural guidelines for all software design activities to current and future technological environments. Maintains state-of-the-art knowledge of technologies, planning, design, and analysis methodologies. Responsible for the design and architectural guidelines required for current and future software technological <u>activities.</u>	Hour	\$218.96
Business Process Engineer	SIS	2012-Business Process Engineer	Business Process Engineer (11/15/2012-11/14/2017). Under general supervision, serves as subject matter expert associated with content, processes, and procedures associated with enterprise applications. Applies functional knowledge to design and customize workflow systems that provide seamless integration for client/server applications. Writes functional requirements, develops test plans, and works with production issues.	Hour	\$84.75
Business Process Engineer, Prin.	SIS	2012-Business Process Engineer, Prin.	Business Process Engineer, Prin. (11/15/2012-11/14/2017). Serves as senior subject matter expert associated with content, processes, and procedures associated with ERP. Defines detailed requirements, analyzes business needs, and validates solutions with the client. Details requirements through product development and other functions to support the project team. Monitors other business analysts in software development methods and processes and implementation of those methods. Evaluates development projects and assists in tailoring the development process to meet the project needs.	Hour	\$102.16
Communication Network Manager	SIS	2012-Communication Network Manager	Communication Network Manager (11/15/2012-11/14/2017). Provides technical direction and engineering knowledge for communications activities including planning, designing, installing and maintaining large communications networks. Develops, operates, and maintains voice, wireless, video, and data communications systems. Provides complex engineering or analytical tasks and activities associated with one or more technical <u>areas within the communications function.</u>	Hour	\$74.75
Communication Specialist	SIS	2012-Communication Specialist	Communication Specialist (11/15/2012-11/14/2017). Assists in the planning, design, and implementation of communications networks. Responsible for providing assistance and technical support for network design activities. Assists in the review/assessment of user needs. Performs feasibility studies for small projects. Assists in the evaluation and selection of equipment.	Hour	\$48.90

Configuration Management Specialist	SIS	2012-Configuration Management Specialist	Configuration Management Specialist (11/15/2012-11/14/2017). Under general supervision provides configuration management planning. Describes provisions for configuration identification, change control, configuration status accounting, and configuration audits. Regulates the change process so that only approved and validated changes are incorporated into product documents and related software.	Hour	\$95.56
Configuration Management Specialist, Sr.	SIS	2012-Configuration Management Specialist, Sr.	Configuration Management Specialist, Sr. (11/15/2012-11/14/2017). Provides configuration management planning. Describes provisions for configuration identification, change control, configuration status accounting, and configuration audits. Regulates the change process so that only approved and validated changes are incorporated into product documents and related software. Maintains documents and hardware systems associated to the application programs, providing for confirmation of the adequacy of data for use in functional and physical configuration audits.	Hour	\$119.10
Consultant	SIS	2012-Consultant	Consultant (11/15/2012-11/14/2017). Perform various tasks associated with IT professional services. Responsibilities may include, but are not limited to defining requirements, re-engineering business processes and/or defining and implementing operational procedures in the domain of the project.	Hour	\$84.00
Consultant, Sr.	SIS	2012-Consultant, Sr.	Consultant, Sr. (11/15/2012-11/14/2017). Lead consultant for a contract/order/project. May interface to customer and perform some project management functions as well. Performs engineering (and/or systems engineering) functions as required for the defined project. These may include producing requirements, possibly including use cases; re-engineering business processes and/or defining and implementing operational procedures in the domain of the project	Hour	\$100.36
Consultant, Prin.	SIS	2012-Consultant, Prin.	Consultant, Prin. (11/15/2012-11/14/2017). Senior consultant for a contract/order/project. Interface to customer and perform project management functions as needed. Performs engineering (and/or systems engineering) functions as required for the defined project or across multiple projects. These may include producing requirements, including use cases; re-engineering business processes and/or defining and implementing operational procedures in the domain of the project.	Hour	\$123.42
Database Analyst	SIS	2012-Database Analyst	Database Analyst (11/15/2012-11/14/2017). Duties include providing technical expertise in the management, operation, and administration of COTS DBMS products and environments; supporting developers in the use and access to DBMS environments; developing programs and utilities to facilitate management, monitoring, and loading of database environments; developing and executing system backup and recovery operations; performing database modeling, design, construction, review, analysis, assessment, and maintenance for management information systems and/or the software engineering environment or repositories; coordinating and managing support efforts from test and evaluation specialists, system engineers, and software engineers utilizing relational, object-oriented database management systems and distributed database considerations and recommendations. Under general supervision, designs, implements and maintains moderately complex databases. Maintains database dictionaries and integration of systems through database design. Competent to work on most phases of database administration but may require some instruction and guidance in other phases.	Hour	\$75.73

Database Analyst, Sr.	SIS	2012-Database Analyst, Sr.	Database Analyst, Sr. (11/15/2012-11/14/2017). Duties include providing technical expertise in the management, operation, and administration of COTS DBMS products and environments; supporting developers in the use and access to DBMS environments; developing programs and utilities to facilitate management, monitoring, and loading of database environments; developing and executing system backup and recovery operations; performing database modeling, design, construction, review, analysis, assessment, and maintenance for management information systems and/or the software engineering environment or repositories; coordinating and managing support efforts from test and evaluation specialists, system engineers, and software engineers utilizing relational, object-oriented database management systems and distributed database considerations and recommendations. Under general direction, designs, implements and maintains complex database with respect to JCL, access methods, access time, device allocation, validation checks, organization, protection and security, documentation and statistical methods. Includes maintenance of database dictionaries, overall monitoring of standards and procedures and integration of systems through database design. Competent to work at the highest level of all phases of database management.	Hour	\$88.30
Database Analyst, Prin.	SIS	2012-Database Analyst, Prin.	Database Analyst, Prin. (11/15/2012-11/14/2017). Duties include providing technical expertise in the management, operation, and administration of COTS DBMS products and environments; supporting developers in the use and access to DBMS environments; developing programs and utilities to facilitate management, monitoring, and loading of database environments; developing and executing system backup and recovery operations; performing database modeling, design, construction, review, analysis, assessment, and maintenance for management information systems and/or the software engineering environment or repositories; coordinating and managing support efforts from test and evaluation specialists, system engineers, and software engineers utilizing relational, object-oriented database management systems and distributed database considerations and recommendations. Under general direction, designs, implements and maintains complex database with respect to JCL, access methods, access time, device allocation, validation checks, organization, protection and security, documentation and statistical methods. Includes maintenance of database dictionaries, overall monitoring of standards and procedures and integration of systems through database design. Competent to work at the highest level of all phases of database management.	Hour	\$96.22
Functional Analyst	SIS	2012-Functional Analyst	Functional Analyst (11/15/2012-11/14/2017). Duties include developing and maintaining systems (HW/SW), processes and procedures associated with multi-functional information systems, database, and security administration. Competent to work at technical levels of phases of applications systems analysis and programming activities	Hour	\$74.23
Functional Analyst, Sr.	SIS	2012-Functional Analyst, Sr.	Functional Analyst, Sr. (11/15/2012-11/14/2017). Duties include developing and maintaining systems (HW/SW), processes and procedures associated with multi-functional information systems, database, and security administration. Competent to work at high technical levels of all phases of applications systems analysis and programming activities	Hour	\$93.19
Functional Analyst, Prin.	SIS	2012-Functional Analyst, Prin.	Functional Analyst, Prin (11/15/2012-11/14/2017). Duties include developing and maintaining systems (HW/SW), processes and procedures associated with multi-functional information systems, database, and security administration. Competent to work at the highest technical level of all phases of applications systems analysis and programming activities	Hour	\$102.52

Graphics Designer	SIS	2012-Graphics Designer	Graphics Designer (11/15/2012-11/14/2017). Responsible for the design, layout and coordination of project graphics requirements. Maintains creative files, samples and back-up copies, collects files for print production. Updates/maintains existing materials by ensuring artwork meets customer image standards, redesigning/upgrading graphics, maintaining the artwork library and recommending usage. Conceptualizes graphic elements and layout, ensuring technical adherence to specifications of customers. Manages project schedules and deadlines.	Hour	\$70.32
Information Assurance Development Engineer	SIS	2012-Information Assurance Development Engineer	Information Assurance Development Engineer (11/15/2012-11/14/2017). Analyzes and defines security requirement for computer systems which may include mainframes, workstations, and personal computers. Designs, (11/15/2012-11/14/2017). develops, engineers, and implements solutions that meet security requirements. Provides integration and implementation of the <u>computer system security solution</u>	Hour	\$119.62
Information Assurance Engineer	SIS	2012-Information Assurance Engineer	Information Assurance Engineer (11/15/2012-11/14/2017). Establishes and satisfies complex system-wide information security requirements based upon the analysis of user, policy, regulatory, and resource demands. Supports customers at the highest levels in the development and implementation of doctrine and policies. Applies know-how to government and commercial common user systems, as well as to dedicated special purpose systems requiring specialized security features and procedures	Hour	\$145.98
Information Assurance Network Specialist	SIS	2012-Information Assurance Network Specialist	Information Assurance Network Specialist (11/15/2012-11/14/2017). Analyzes general information assurance-related technical problems and provides basic engineering and technical support in solving these problems. Designs, develops, engineers, and implements solutions that meet network security requirements. Performs vulnerability/risk analyses of computer systems and applications during all phases of the system <u>development life cycle</u> .	Hour	\$100.15
Information Security Business Analyst	SIS	2012-Information Security Business Analyst	Information Security Business Analyst (11/15/2012-11/14/2017). Determines enterprise information security standards. Develops and implements information security standards and procedures. Ensures that all information systems are functional and secure.	Hour	\$89.85
Management Strategy Consultant	SIS	2012-Management Strategy Consultant	Management Strategy Consultant (11/15/2012-11/14/2017). Provides extremely high-level subject matter proficiency for work described in the task. Provides advanced technical knowledge and analysis of highly specialized applications and operational environment, high-level functional systems analysis, design, integration, documentation, training, and implementation advice on complex problems that require doctorate level knowledge of the subject matter for effective implementation.	Hour	\$293.74
Network Engineer	SIS	2012-Network Engineer	Network Engineer (11/15/2012-11/14/2017). Designs, installs, Tests and analyzes all elements of complex network facilities (including power, software, communications devices, lines, modems, and terminals). Monitors and controls the performance and status of the network resources. Utilizes software and hardware tools and identifies and diagnoses complex problems and factors affecting <u>network performance</u>	Hour	\$86.18
Network Technician	SIS	2012-Network Technician	Network Technician (11/15/2012-11/14/2017). Monitors and responds to hardware, software, and network problems. Provides the routine testing and analysis of all elements of the network facilities (including power, software, communications machinery, lines, modems, and terminals). Monitors and controls the performance and status of the network resources. May participate in design and installation activities.	Hour	\$42.53

Systems Administrator	SIS	2012-Systems Administrator	Systems Administrator (11/15/2012-11/14/2017). Under general supervision, responsible for installing, configuring, and maintaining operating system workstations and servers, including web servers. Performs software installations and upgrades to operating systems and layered software packages. Schedules installations and upgrades and maintains them in accordance with established IT policies and procedures. Monitors and tunes the system to achieve optimum performance levels. Ensures workstation/server data integrity by evaluating, implementing, and managing appropriate software and hardware solutions. Ensures data/media recoverability by implementing a schedule of system backups and database archive operations. Supports media management through internal methods and procedures or through offsite storage and retrieval services.	Hour	\$52.63
Systems Administrator, Sr.	SIS	2012-Systems Administrator, Sr.	Systems Administrator, Sr. (11/15/2012-11/14/2017). Responsible for installing, configuring, and maintaining operating system workstations and servers, including web servers. Performs software installations and upgrades to operating systems and layered software packages. Schedules installations and upgrades and maintains them in accordance with established IT policies and procedures. Monitors and tunes the system to achieve optimum performance levels. Ensures workstation/server data integrity by evaluating, implementing, and managing appropriate software and hardware solutions. Ensures data/media recoverability by implementing a schedule of system backups and database archive operations. Supports media management through internal methods and procedures or through offsite storage and retrieval services. Develops and promotes standard operating procedures. Conducts routine hardware and software audits of workstations and servers to ensure compliance with established standards, policies, and configuration guidelines. Develops and maintains a comprehensive operating system hardware and software configuration database/library of all supporting documentation.	Hour	\$129.76
Program Manager	SIS	2012-Program Manager	Program Manager (11/15/2012-11/14/2017). Responsible for all aspects of the development and implementation of assigned projects and provides a single point of contact for those projects. Takes projects from original concept through final implementation. Interfaces with all areas affected by the project including end users, computer services, and client services. Defines project scope and objectives. Develops detailed work plans, schedules, project estimates, resource plans, and status reports. Conducts project meetings and is responsible for project tracking and analysis. Ensures adherence to quality standards and reviews project deliverables. Manages the integration of vendor tasks and tracks and reviews vendor deliverables. Provides technical and analytical guidance to project team	Hour	\$83.81
Program Manager, Sr.	SIS	2012-Program Manager, Sr.	Program Manager, Sr. (11/15/2012-11/14/2017). Responsible for all aspects of the development and implementation of assigned projects and provides a single point of contact for those projects. Takes projects from original concept through final implementation. Interfaces with all areas affected by the project including end users, computer services, and client services. Defines project scope and objectives. Develops detailed work plans, schedules, project estimates, resource plans, and status reports. Conducts project meetings and is responsible for project tracking and analysis. Ensures adherence to quality standards and reviews project deliverables. Manages the integration of vendor tasks and tracks and reviews vendor deliverables. Provides technical and analytical guidance to project team. In addition to the above, must have proven expertise in the management and control of costs and resources and demonstrated capability in managing multi-task programs.	Hour	\$97.99

Program Manager, Prin.	SIS	2012-Program Manager, Prin.	Program Manager, Prin. (11/15/2012-11/14/2017). Responsible for all aspects of the development and implementation of assigned projects and provides a single point of contact for those projects. Takes projects from original concept through final implementation. Interfaces with all areas affected by the project including end users, computer services, and client services. Defines project scope and objectives. Develops detailed work plans, schedules, project estimates, resource plans, and status reports. Conducts project meetings and is responsible for project tracking and analysis. Ensures adherence to quality standards and reviews project deliverables. Manages the integration of vendor tasks and tracks and reviews vendor deliverables. Provides technical and analytical guidance to project team. Recommends and takes action to direct the analysis and solutions of problems	Hour	\$114.67
Programmer/ Analyst	SIS	2012-Programmer/ Analyst	Programmer/ Analyst (11/15/2012-11/14/2017). Responsible for development, testing, implementation and maintenance of application systems may include minimal design.	Hour	\$62.48
Programmer/ Analyst, Sr.	SIS	2012-Programmer/ Analyst, Sr.	Programmer/ Analyst, Sr. (11/15/2012-11/14/2017). Performs lead role with respect to analysis, specification, development, testing, implementation and maintenance of platform and application systems, including design and data modeling; may also include database design and implementation.	Hour	\$75.25
Programmer/ Analyst, Prin.	SIS	2012-Programmer/ Analyst, Prin.	Programmer/ Analyst, Prin. (11/15/2012-11/14/2017). Performs lead role with respect to analysis, specification, development, testing, implementation and maintenance of platform and application systems, including design and data modeling; may also include database design and implementation.	Hour	\$97.32
Quality Assurance Spec	SIS	2012-Quality Assurance Spec	Quality Assurance Spec (11/15/2012-11/14/2017). Provides development of project Software Quality Assurance Plan and the implementation of procedures that conforms to the requirements of the contract. Provides an independent assessment of how the project's software development process is being implemented relative to the defined process and recommends methods to optimize the organization's process	Hour	\$56.24
Security Manager, Prin.	SIS	2012-Security Manager, Prin.	Security Manager, Prin. (11/15/2012-11/14/2017).Coordinates, develops, and evaluates security programs for an organization.	Hour	\$113.70
Subject Manager Expert	SIS	2012-Subject Manager Expert	Subject Manager Expert (11/15/2012-11/14/2017). Leads, facilitates and organizes solution development for program involving extensive scope and complexity. Has extensive Technical and Functional understanding facilitating the interpreting, organizing, executing and coordinating IT engagements relative to a particular domain through successful delivery. Makes integrated Functional and technical decisions, which are considered authoritative, and which demonstrate mature judgment in anticipating and solving complex problems. Work requires the technical capability to assess the cost, schedule performance implications of existing and projected technological advances, as well as being able to evaluate the impact of new and innovative technology solution strategies.	Hour	\$222.73
System Engineer, Prin.	SIS	2012-System Engineer, Prin.	System Engineer, Prin. (11/15/2012-11/14/2017). Performs a variety of systems engineering tasks and activities that are broad in nature and are concerned with major systems design, integration, and implementation, including personnel, hardware, software, budgetary, and support facilities and/or equipment. Provides quality assurance review and the evaluation of new and existing software products	Hour	\$82.09
Technical Writer	SIS	2012-Technical Writer	Technical Writer (11/15/2012-11/14/2017). Performs moderately complex technical writing work. Work involves organizing, developing, and composing compiled information, and editing materials. Works under general supervision with moderate latitude for the use of initiative and independent judgment.	Hour	\$56.05

Technical Writer, Prin.	SIS	2012-Technical Writer, Prin.	Technical Writer, Prin. (11/15/2012-11/14/2017). Develops, drafts, revises, and edits reports, articles, manuals, specifications, presentation materials, and other technical documents. Interprets information obtained through research and provided by technical specialists. Applies knowledge of documentation content and format standards to prepare, edit, and publish technical materials. Proficient in the use of Help Editors or tools such as Microsoft's <u>Word or PowerPoint</u> .	Hour	\$77.77
Technician	SIS	2012-Technician	Technician (11/15/2012-11/14/2017). Exercises independent judgment in ensuring installation, problem recognition, research, isolation, resolution and follow-up steps. Is able to resolve complex problems immediately. Typically involves use of problem management database and/or help desk system. May provide guidance/training for less experienced personnel. May perform installations and/or maintain VTC and/or multimedia equipment.	Hour	\$54.71
Technician, Sr.	SIS	2012-Technician, Sr.	Technician, Sr. (11/15/2012-11/14/2017). Provides support for microcomputers and peripherals, network systems, LAN/WAN interfaces, Blackberries, and other information management services. Works with clients supporting computer based initiatives. Upgrades installed systems with new versions and releases of hardware, software, and communications components and provides computer hardware and software acceptance, installation and checkout support. May perform installations and/or maintain VTC and/or multimedia equipment.	Hour	\$73.88
Technician, Prin.	SIS	2012-Technician, Prin.	Technician, Prin. (11/15/2012-11/14/2017). Opens trouble tickets for customer problems, and resolve customer problems with hardware and software remotely. May resolve problems, process account requests, and resets user passwords. May analyze data collected from the service desk to identify trends and possible problem areas, and recommends corrective actions such as standards, training, and in-house documentation. Supports Desk top maintenance troubleshooting desktops, printers and other peripherals. May perform installations and/or maintain VTC and/or multimedia equipment	Hour	\$82.09
Training Specialist	SIS	2012-Training Specialist	Training Specialist (11/15/2012-11/14/2017). Duties include defining curriculum, developing course materials (teacher's guides, grading methods, students' notes, exercises, tests, and audiovisual presentation materials), organizing and conducting classes, soliciting student feedback, and reporting on class performance of students; and assisting in the development of computer assisted <u>training tutorials</u>	Hour	\$54.21
Training Specialist, Sr.	SIS	2012-Training Specialist, Sr.	Training Specialist, Sr. (11/15/2012-11/14/2017). Duties include defining curriculum, developing course materials (teacher's guides, grading methods, students' notes, exercises, tests, and audiovisual presentation materials), organizing and conducting classes, soliciting student feedback, and reporting on class performance of students; and assisting in the development of computer assisted training tutorials	Hour	\$67.76
Training Specialist, Prin.	SIS	2012-Training Specialist, Prin.	Training Specialist, Prin. (11/15/2012-11/14/2017). Duties include defining curriculum, developing course materials (teacher's guides, grading methods, students' notes, exercises, tests, and audiovisual presentation materials), organizing and conducting classes, soliciting student feedback, and reporting on class performance of students; and assisting in the development of computer assisted training tutorials.	Hour	\$129.76
Website Developer	SIS	2012-Website Developer	Website Developer (11/15/2012-11/14/2017). Designs, develops, and implements software packages for web sites. Troubleshoots, debugs and implements software code. Has knowledge of standard concepts, practices, and procedures within a particular field. Relies on limited experience and judgment to plan and accomplish goals. Performs a variety of tasks. Works under general supervision; typically reports to a project leader or manager. A certain degree of creativity and latitude required. Customer service and communication skills are necessary.	Hour	\$60.87

Stellar Innovations 534590 Original Price List

Website Developer, Prin.	SIS	2012-Website Developer, Prin.	Website Developer, Prin. (11/15/2012-11/14/2017). Designs, develops, and implements software packages for web sites. Troubleshoots debugs and implements software code. Consults with clients and other project team members to design, build and manage web sites. Develops installation programs for websites. May negotiate contracts/agreements with software vendors and other internet companies. Has knowledge of a variety of concepts, practices, and procedures within a particular field. Relies on experience and judgment to plan and accomplish goals. Performs a variety of complicated tasks. May lead and direct the work of others. A wide degree of creativity and latitude is expected.	Hour	\$74.01
--------------------------	-----	-------------------------------	---	------	----------------
