2009 CONSUMER PRICE LIST

Turnout Clothing, Emergency Response Clothing, Proximity Clothing

WARRANTY:

Fire-Dex, LLC warrants its protective clothing products to be free from defects in workmanship for the serviceable life of the products when used by appropriately trained personnel following proper fire fighting procedures and when the product's warning, use and care instructions are followed.

Inasmuch as Fire-Dex has no control over the manner or way in which our product is used after it leaves our plant, Fire-Dex, cannot be responsible by warranty or otherwise, for results or effect of its use. Each user should make their own tests (preferably by a qualified safety engineer) to determine the suitability of our product for his particular application.

WARNING FOR TURNOUT CLOTHING: *Protective clothing systems are for conventional structural fire fighting only to protect the body (excluding head, hands & feet) against temperature extremes, steam, hot water and particles. For effective protection, both coat and pant must be worn. This clothing is not proximity or entry gear. It is not designed to be kept in direct contact with flames or molten metal, or for protection against hazardous chemical, biological or radiological agents. User must have the background necessary to select correct clothing for the job and use it safely.* WHEN PROPERLY CONFIGURED, FIRE-DEX® CLOTHING MEETS OR EXCEEDS CURRENT NFPA AND OSHA REQUIREMENTS. Prices and terms subject to change without notice or obligation.

SIZING INFORMATION:

Turnout Coats/Jackets: Available in *Even Chest Sizes Only*, 32-74 (measure loosely around body just under the arms). If ordering a 40" chest coat, ours will measure 48" to 50" on the exterior of the coat. This allows for station wear or other clothing to be worn underneath. Standard sleeve lengths (measured from the base of the neck, out over the shoulder and down the arm to the desired length) vary ($\pm \frac{1}{2}$ " Sewing Tolerances) with coat sizes on the chart below.

Pants: Available in *Even Waist Sizes Only*, 28 - 68. (Measure loosely over station wear at point on body where pant waist will be worn. DO NOT add to this measurement or assume sizing comparable with competitors' gear.) If ordering size 36" waist, ours measures 36" on the interior of the waist band. Standard inseam for all sizes is 29"; custom inseams are available up to 32" with no additional charge. For inseams 33" and up refer to "Additional Charges" section. Fire-Dex also offers women's size pants. When ordering women's sizes include hip measurement.

Additional Charges for Custom Sizing on Coats/Jackets and Pants:

Turnout Coat/Jacket Chest Oversize Charge: Refer to sizing chart for the percentage; this is applied to shell material and liner (thermal and moisture) prices.

Turnout Coat/Jacket Custom Sleeve Charge: Add \$15.00 to the total price of coat for custom sleeve lengths. Refer to sizing chart for standard sleeve lengths (varies by chest size).

Turnout Coat /Jacket Custom Length Charge:

Traditional Coat: Add 7% to shell and liner materials only for coat lengths 36" to 40"

Add 15% to shell and liner materials only for coat lengths 41" to 45"

Add 25% to shell and liner materials only for coat lengths 46" to 50"

Assault Gear™ Jacket: Add 3% to shell and liner materials only on the 28" coat for 30" length

Pants: Add 10% to shell and liner materials only for inseams 33" to 36"

Add 20% to shell and liner materials only for inseams 37" and up

Fire-Dex® Custom Turnout Coats
