- b. The information system must protect audit information and audit tools from unauthorized access, modification, and deletion.

(11) IRS Publication 1075 compliance is mandatory. The aforementioned compliance items are a small selection of key elements contained within the requirements defined in IRS publication 1075. The Attorney General reserves the right to impose additional and more stringent requirements as deemed necessary to protect FTI (Federal Tax Information).

Such person shall also notify each such officer and employee that any such unauthorized inspection or disclosure of returns or return information may also result in an award of civil damages against the officer or employee [United States for Federal employees] in an amount equal to the sum of the greater of \$1,000 for each act of unauthorized inspection or disclosure with respect to which such defendant is found liable or the sum of the actual damages sustained by the plaintiff as a result of such unauthorized inspection or disclosure plus in the case of a willful inspection or disclosure which is the result of gross negligence, punitive damages, plus the costs of the action. These penalties are prescribed by IRC 7213A and 7431 and set forth at 26 CFR 301.6103(n)-1.

(3) Additionally, it is incumbent upon Consultant to inform its officers and employees of the penalties for improper disclosure imposed by the Privacy Act of 1974, 5 U.S.C. 552a. Specifically, 5 U.S.C. 552a(i)(1), which is made applicable to contractors by 5 U.S.C. 552a(m)(1), provides that any officer or employee of a contractor, who by virtue of his/her employment or official position, has possession of or access to agency records which contain individually identifiable information, the disclosure of which is prohibited by the Privacy Act or regulations established thereunder, and who knowing that disclosure of the specific material is prohibited, willfully discloses the material in any manner to any person or agency not entitled to receive it, shall be guilty of a misdemeanor and fined not more than \$5,000.

(4) Granting a contractor access to FTI must be preceded by certifying that each individual understands the agency's security policy and procedures for safeguarding IRS information. Contractors must maintain their authorization to access FTI through annual recertification. The initial certification and recertification must be documented and placed in the agency's files for review. As part of the certification and at least annually afterwards, contractors must be advised of the provisions of IRCs 7431, 7213, and 7213A (see Exhibit 4 of Publication 1075, Sanctions for Unauthorized Disclosure, and Exhibit 5 of Publication 1075, Civil Damages for Unauthorized Disclosure). The training provided before the initial certification and annually thereafter must also cover the incident response policy and procedure for reporting unauthorized disclosures and data breaches (See Section 10 of Publication 1075). For both the initial certification and the annual certification, Consultant must sign, either with ink or electronic signature, a confidentiality statement certifying their understanding of the security requirements.

III. INSPECTION

The IRS and the Agency, with 24 hour notice, shall have the right to send its inspectors into the offices and plants of Consultant to inspect facilities and operations performing any work with FTI under this Agreement for compliance with requirements defined in IRS Publication 1075. The IRS' right of inspection shall include the use of manual and/or automated scanning tools to perform compliance and vulnerability assessments of information technology (IT) assets that access, store, process or transmit FTI. On the basis of such inspection, corrective actions may be required in cases where Consultant is found to be noncompliant with Agreement safeguards.

This Ohio Attorney General (“AGO”) Non-Employee Computer Usage, Network Access, Internet Usage, and Social Media Policy Contractor Employee Acknowledgement (the “Acknowledgement”) sets forth the policies and procedures for proper computer, network, Internet, and social media use by all non-AGO personnel performing work for the AGO (the “User”). This Computer Usage, Network Access, Internet Usage, and Social Media Policy (the “Policy”) applies to all independent contractors and/or any other consultant performing work for any contractor or consultant doing business with the AGO and their employees. Any violation of this Policy may result in, among other penalties and liabilities, immediate removal of User access to all AGO systems and notification to the User’s employer of the violation. Some circumstances may justify termination of this Agreement for cause by the AGO. The AGO may temporarily suspend or block a User’s access to an account when it appears reasonably necessary to do so to protect the security of the AGO network or to protect the AGO from liability. **All Users will be held personally responsible and liable, to the fullest extent of the law, for actions in violation of this Policy.**

 - Malware,
 - Changes in security infrastructure,
 - System failures,
 - Compromised user accounts, and

Notice: This Agreement is provided in draft form for informational purposes only. The Ohio Attorney General reserves the right to modify this draft Agreement at any time prior to final signature.

PHI will be sent to a Business Associate via secure email. If the PHI cannot be sent via secure email, the AGO will consult with its Privacy Officer to determine another appropriate means of delivery.

If a Business Associate of the AGO asks the AGO to provide the requested PHI to the individual requestor, the AGO may, in its sole discretion, agree to such a request.  - iii. Uses or disclosures made pursuant to a written, HIPAA-compliant authorization for the release of PHI, under 45 C.F.R. §164.508. When an individual authorizes the AGO to Use or Disclose of PHI, the AGO's ability to Use and Disclose PHI will be determined by the authorization;
 - iv. Disclosures of PHI made to the Secretary of the Dept. of Health and Human Services for the purpose of investigating and determining compliance with

HIPAA under 45 C.F.R. §§160.300 through 160.316;

- v. Uses or Disclosures of PHI that are required by law under 45 C.F.R. §164.512(a); or
 - vi. Uses and Disclosures of PHI that are required to comply with the HIPAA Rules.
3. Upon request and written agreement, the AGO shall comply with the a minimum-necessary policy of a covered entity with which the AGO has a Business Associate agreement, if that policy is more stringent than the AGO's minimum-necessary policy.
 4. The AGO will take reasonable steps to help ensure that PHI is shared only with individuals who need access to the PHI to perform their jobs.
 5. AGO Sections that routinely handle PHI will achieve this goal by establishing protocols that define the minimum amount of PHI necessary for routine Uses, Disclosures, and requests.

Example 1 – Attorney X works in the Health & Human Services Section and represents the Ohio Medicaid program. Attorney X routinely has cases and other matters that involve PHI. Attorney X is assigned to defend against a new lawsuit filed against the Medicaid program. Defense of the case will require the Use of PHI. Pursuant to the Section's written protocols, when the Document Management System workspace for the case is created, only attorneys and administrative staff in the Health & Human Services Section to access the workspace. Attorney X will secure hard copies of all PHI by placing them in a locked file cabinet when not in use.

Later in the case, Attorneys X and Y receive discovery from their client that includes PHI. The discovery (including the PHI) is loaded into the Review Platform for review and production. Pursuant to the Section's written protocols, the only people who have permission to review this information in the Review Platform are other individuals in the Health & Human Services Section.

Example 2 – Employee Z is a non-attorney who works in the Collections Enforcement Section. He receives calls that might involve a wide variety of collection matters, including those involving PHI. Pursuant to the Section's written protocols, Employee Z has access to all collection matters in the Debt Collection System computer system, including those involving PHI, because he does not know which matters he might be called about.

Example 3 – Paralegal A works with three attorneys in the Court of Claims Section. Paralegal B works with three different attorneys in the same section. Pursuant to the Section's written protocols, Paralegal A has access to: a) all of the Document Management System workspaces of the 5 attorneys for whom she works and any other electronic storage devices and systems to which her attorneys have access;

and b) the Document Management System workspaces and other electronic devices and systems of other attorneys who work with Paralegal B. This is because Paralegal A occasionally covers for Paralegal B during vacations and absences and because attorneys assigned to Paralegal A and B often collaborate on cases.

Example 4 – Secretary C works in the Employment Law Section. She is assigned to work with six attorneys. Pursuant to written protocols, she has access to the Document Management System workspaces and other electronic devices and systems of all attorneys in the section. This is because attorneys in the Employment Law Section collaborate on the majority of their cases, so secretaries are often working with teams of attorneys, instead of individual attorneys. Also Secretary C needs to cover for other secretaries due to vacations and absences.

Example 5 – Attorney D works in the Executive Agencies Section and has an administrative case in which she needs to rebut a claim that an individual’s right knee is incapable of bearing any weight. Attorney D has obtained complete medical records regarding the Plaintiff in discovery, including documents regarding the Plaintiff’s hysterectomy and treatment for substance abuse in 2003. Pursuant to written protocols, Attorney D will use only those portions of the medical record necessary to prove her case. He determines that that such information includes medical information about the Plaintiff’s right knee, as well as other medical information used to impeach Plaintiff.

6. Sections that do not routinely handle PHI will achieve the goal in subsection (a), above, by developing written criteria reasonably designed to limit their requests for PHI and their disclosures of PHI to the minimum necessary to accomplish the purpose for which the request or disclosure is made.

As discussed above, the AGO will request or disclose a Limited Data Set, when practicable. When it is impracticable to request or disclose a Limited Data Set, the Section will provide the minimum amount of PHI necessary, considering such criteria as: 1) the parties to the request; 2) the type of PHI being sought; 3) the amount of PHI being sought; and 4) the purported use of the PHI being sought.

A Section may rely upon a representation that a request for PHI represents the minimum necessary information if it is reasonable to do so under the circumstances and the request is: i) from a public official under 45 C.F.R. §164.512; ii) the information is requested by a covered entity; iii) the request is from a business associate of a covered entity and is for the purpose of providing professional services for the covered entity; iv) or the applicable requirements of 45 C.F.R. §164.512(i) have been met when the request relates to research.

K. Breach Notification

The AGO will comply with the notification provisions of the HIPAA Rules in the event of a Breach of Unsecured PHI.

Any suspected Breach of Unsecured PHI by the AGO will be immediately reported to the Privacy Officer. The Privacy officer will promptly investigate and determine whether a Breach of Unsecured PHI has occurred. A Breach is presumed to have occurred if there is an unauthorized access, acquisition, or disclosure of Unsecured PHI unless the AGO can show that there is a low probability that the information was compromised based on a risk assessment of:

- a. The nature and extent of the PHI involved;
- b. The unauthorized person who used the PHI or to whom the Disclosure was made;
- c. Whether the PHI was actually acquired or viewed; and
- d. The extent to which the risk to the PHI has been mitigated.

A Breach does not include any of the following:

- a. An unintentional acquisition, access, or use of PHI by a workforce member or a person acting under the authority of a Covered Entity or Business Associate if the acquisition, access, or use was made in good faith and within the scope of authority and does not result in further use or disclosure in an impermissible manner;
- b. Any inadvertent disclosure by someone who is authorized to access PHI at a Covered Entity or Business Associate to another person authorized to access PHI at the same entity and the information received as a result of the disclosure is not further used or disclosed in an impermissible manner;
- c. A disclosure of PHI where a Covered Entity or Business Associate has a good faith belief that an unauthorized person to whom the disclosure was made would not reasonably have been able to retain such information.

If the Privacy Officer determines that the AGO has experienced a Breach of Unsecured PHI, he will notify the Covered Entity whose PHI is affected by the Breach within 60 days after the Breach was discovered, unless a law enforcement official asks the AGO not to report the Breach under 45 C.F.R. §164.412.

A Breach is discovered when the AGO knows of the Breach or, by exercising reasonable diligence, an individual who is an employee, officer, or agent of the AGO would have known about the breach. The AGO will provide the Covered Entity with the following information regarding the Breach:

- a. The identity of the individual(s) whose Unsecured PHI was improperly accessed, used, or disclosed;
- b. A brief description of what happened, including the date of the Breach and the date of discovery of the Breach, if known;
- c. A description of the types of Unsecured PHI that were involved in the Breach (e.g., name, SSN, diagnosis code, etc.);
- d. Any steps individuals should take to protect themselves from potential harm resulting from the Breach;
- e. A brief description of what the AGO is doing to investigate the Breach, mitigate harm to individuals, and protect against further Breaches; and
- f. Contact procedures for individuals to ask questions or learn additional information which will include a toll-free telephone number, an email address, website, or postal address.

The AGO has the burden of proving that all required notifications were made and that a given use or disclosure of Unsecured PHI did not constitute a Breach.

L. Subcontractors

The AGO will ensure that it enters into a Business Associate Agreement with all Subcontractors, unless the AGO is otherwise permitted to provide the PHI to the Subcontractor. The exceptions that the AGO will most likely encounter are those at 45 C.F.R. §164.510 (disclosures in emergencies and to an individual's representative) and those at 45 C.F.R. §164.512 (disclosures for which no individual Authorization is required).

Whenever the AGO is considering Disclosing PHI to a Subcontractor with whom it does not have a Business Associate agreement, it will notify the Privacy Officer of the proposed Disclosure. The Privacy Officer will review the relationship between the parties and determine whether the parties need to enter into a Business Associate agreement. If they do, the Privacy Officer will work internally with AGO personnel or contact the Subcontractor directly and use his best efforts to obtain a signed Business Associate agreement between the Subcontractor and the AGO before PHI is disclosed to the Subcontractor.

M. Marketing and Fundraising; Sale of Protected Health Information

The AGO will not use PHI for marketing (as that term is defined in the HIPAA Rules) or fundraising purposes. The AGO will not sell PHI.

V. CONTACT

The AGO's HIPAA Privacy Officer is available for consultation or questions regarding this procedure.
