MANDATORY USE CONTRACT FOR: ORPHAN WELL - OIL AND GAS WELL PLUGGING PROJECTS

CONTRACT NUMBER: CSP904016  EFFECTIVE DATES: 11/01/16 TO 12/31/19
*Renewal through 12/31/20

The Department of Administrative Services has accepted Proposals submitted in response to Request for Proposal (RFP) No. CSP904016 that opened on 06/10/16, RFP CSP907118 that opened on 02/12/18 and CSP906119 that opened on 02/22/19. The evaluation of the Proposal responses has been completed. The Offerors listed herein have been determined to be the highest-ranking Offerors and have been awarded a Contract for the services listed. The respective Proposal responses including, Contract Terms & Conditions, any Proposal amendments, special Contract Terms & Conditions, specifications, the previous contract CSP904016, and any attachments incorporated by reference and accepted by DAS become a part of this Services Contract.

This Requirements Contract is effective beginning and ending on the dates noted above unless, prior to the expiration date, the Contract is renewed, terminated, or cancelled in accordance with the Contract Terms and Conditions.

This Requirements Contract is available to the Ohio Department of Natural Resources, Division of Oil & Gas Resources Management as applicable.

The agency is eligible to make purchases of the contracted services in any amount and at any time as determined by the agency. The State makes no representation or guarantee that department will purchase the volume of services as advertised in the Request for Proposal.

This Requirements Contract and any Amendments thereto are available from the DAS Web site at the following address:

www.ohio.gov/procure

* Indicates a 12-month mutual renewal effective 01/01/20 through 12/31/20.
ORPHAN WELL - OIL AND GAS WELL PLUGGING PROJECTS

The Agency is responsible for regulating Ohio’s oil and natural gas industry and for the protection of all Ohioans and our environment while ensuring the state’s abundant natural resources are managed properly. “Idle and orphaned well” means a well for which a bond has been forfeited or an abandoned well for which no money is available to plug the well in accordance with ORC 1509 and rules adopted under it. The plugging projects on which selected Contractors may be requested to submit project bids will involve oil and gas wells which have been deemed by the Agency to be idle and orphaned wells (“Orphan Wells”), and that will be plugged with monies from bonds that have been forfeited and/or monies from the Oil and Gas Well Fund. These Orphan Wells will vary in geographical area, depth and condition. A site-specific Scope of Work, listing the Agency’s plugging requirements for each Orphan Well will be provided to the prequalified Contractors for each plugging project.

PROJECT ASSIGNMENT PROCESS

1. Projects may consist of one or more wells grouped together. Each project will have a unique name and number. All new project notifications and supporting documents will be placed on the Ohio Department of Natural Resources (ODNR) Website for review and response. Electronic notification will be sent to all Contractors listed on MAC110 Contract. Project notifications and supporting documents may include site locations, dates, submission instructions, and other necessary information.

2. Project submissions received will be considered for completeness of statement of work (SOW), cost and funding availability.

3. A Notice to Proceed Letter and Purchase Order will be forwarded to the assigned contractor prior to the start of work. In accordance with ORC 1509.071 F(2), a Performance Bond is required for each project.

4. Outcomes of the Project Assignment Process will be posted to the ODNR website.
ORPHAN WELL - OIL AND GAS WELL PLUGGING PROJECTS

Amendment 14-Insurance Language Modification

*INSURANCE. Until all obligations under this Agreement or any Order are satisfied, and without limiting Contractor’s indemnification obligations under Indemnity, Contractor shall provide and maintain the insurance policies set forth below. All commercial insurance required shall be provided by insurers with a rating of not less than A-VII from AM Best or a comparable rating agency. Contractor shall also cause each of its Subcontractors to comply with all requirements in this Section.

Coverage shall be at least as broad as:

1. Commercial General Liability (CGL): written on an “occurrence” basis, including products and completed operations, property damage, bodily injury and personal & advertising injury with limits no less than $2,000,000 per occurrence. If a general aggregate limit applies; the general aggregate limit shall apply separately to each project. Defense costs shall be outside the policy limits.

2. Automobile Liability insurance covering, Code 1 (any auto), or if Contractor has no owned autos, Code 8 (hired) and 9 (non-owned), with a limit no less than $500,000 per accident for bodily injury and property damage.

3. Workers’ Compensation insurance as required by the State of Ohio, or the state in which the work will be performed, with Statutory Limits, and Employer’s Liability Insurance with a limit of no less than $1,000,000 per accident for bodily injury or disease. If Contractor is a sole proprietor, partnership or has no statutory requirement for workers’ compensation, Contractor must provide a letter stating that it is exempt and agreeing to hold State of Ohio harmless from loss or liability for such.

The Insurance obligations under this agreement shall be the minimum Insurance coverage requirements and/or limits shown in this agreement. Any insurance proceeds in excess of or broader than the minimum required coverage and/or minimum required limits, which are applicable to a given loss, shall be available to the State of Ohio. No representation is made that the minimum Insurance requirements of this agreement are sufficient to cover the obligations of the Contractor under this agreement.

The insurance policies are to contain, or be endorsed to contain, the following provisions: Additional Insured Status Except for Workers’ Compensation, the State of Ohio, its officers, officials and employees are to be covered as additional insureds with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts, or equipment furnished in connection with such work or operations. Coverage can be provided in the form of an endorsement to the Contractor’s insurance.

Primary Coverage
For any claims related to this contract, the Contractor’s insurance coverage shall be primary insurance. Any insurance or self-insurance maintained by the State of Ohio, its officers, officials, and employees shall be excess of the Contractor’s insurance and shall not contribute with it.

Umbrella or Excess Insurance Policies
Umbrella or excess commercial liability policies may be used in combination with primary policies to satisfy the limit requirements above. Such Umbrella or excess commercial liability policies shall apply without any gaps in the limits of coverage and be at least as broad as and follow the form of the underlying primary coverage required above.

Notice of Cancellation
Contractor shall provide State of Ohio with 30 days’ written notice of cancellation or material change to any insurance policy required above, except for non-payment cancellation. Material change shall be defined as any change to the insurance limits, terms or conditions that would limit or alter the State’s available recovery under any of the policies required above. A lapse in any required insurance coverage during this Agreement shall be a breach of this Agreement.

Waiver of Subrogation
Contractor hereby grants to State of Ohio a waiver of any right to subrogation which any insurer of said Contractor may acquire against the State of Ohio by virtue of the payment of any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the State of Ohio has received a waiver of subrogation endorsement from the insurer.

* Indicates update to Insurance sections of the Terms & Conditions, and repagination.
ORPHAN WELL - OIL AND GAS WELL PLUGGING PROJECTS

Amendment 14-Insurance Language Modification

Deductibles and Self-Insured Retentions
Deductibles and self-insured retentions must be declared to and approved by the State. The State may require the Contractor to provide proof of ability to pay losses and related investigations, claims administration, and defense expenses within the retention. The policy language shall provide, or be endorsed to provide, that the deductible or self-insured retention may be satisfied by either the named insured or the State.

Claims Made Policies
If any of the required policies provide coverage on a claims-made basis:

1. The Retroactive Date must be shown and must be before the date of the contract or the beginning of contract work.

2. Insurance must be maintained, and evidence of insurance must be provided for at least five (5) years after completion of the contract of work.

3. If coverage is canceled or non-renewed, and not replaced with another claims-made policy form with a Retroactive Date prior to the contract effective date, the Contractor must purchase "extended reporting" coverage for a minimum of five (5) years after completion of contract work. The Discovery Period must be active during the Extended Reporting Period.

Verification of Coverage
Contractor shall furnish the State of Ohio with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause. All certificates and endorsements are to be received and approved by the State of Ohio before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor’s obligation to provide them. The State of Ohio reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

Subcontractors
Contractor shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Contractor shall ensure that State of Ohio is an additional insured on insurance required from subcontractors.

Special Risks or Circumstances
State of Ohio reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

Additionally, the following Ohio Revised Code applies:

Pursuant to Ohio Revised Code 9.76 (B) Contractor warrants that Contractor is not boycotting any jurisdiction with whom the State of Ohio can enjoy open trade, including Israel, and will not do so during the contract period.

* Indicates update to Insurance sections of the Terms & Conditions, and repagination.
* Indicates update of the index number of the contract from MAC110 to DNR110.

** Indicates repagination
