SPECIAL CONTRACT TERMS AND CONDITIONS (Cont'd)

CONTRACT AWARD: The contract will be awarded to the lowest responsive and responsible bidder by line item or by Total Product Line (TPL) low lot total award by generic product name to one (1) manufacturer as offered by the lowest responsive and responsible bidders meeting all bid specifications and requirements listed herein. A TPL award may be considered for all strengths of a generic product name according to packaging. A TPL award may be made for bulk bottle packaging by generic product name. A TPL award may be made by generic product name for Unit Dose (UD) packaging. Since TPL awards are based on the manufacturer, multiple bidders can receive awards in the TPL line awards. The decision to award either line item or TPL low lot total from a single manufacturer shall be at the discretion of Pharmacy Service Center in conjunction with the Office of Procurement Services.

A line item may be awarded based on an alternate pack (box or case) size if there are significant differences among bids. Unit Quantity Size requested is based on known information, and not necessarily the best fit for the applicable use. If an alternate pack size offers a lower price per unit and meets applicable use (quantity used before expiration, etc.), equivalent units will be compared for the line item award. In addition, the State reserves the right to reject all bids (no award) due to excessive price for a line item or if product does not meet applicable use of the agency, in its best interest. The decision to award either the stated or alternate pack size, or to reject all bids, shall be at the discretion of Pharmacy Service Center in conjunction with the Office of Procurement Services.

EVALUATION: Bids will be evaluated in accordance with Article I-17 of the "Instructions to Bidders". In addition, the state will make line item awards to the lowest responsive and responsible bidder meeting all bid specifications and requirements listed herein. The TPL low lot total award will be determined as follows: For each bidder, the state will multiply the estimated annual usage of each dosage of the item by the corresponding low manufacturer price quoted, and add these totals together to arrive at a "per manufacturer" cost total. For alternate pack size differences, equivalent units will be evaluated for lowest price. Note: See Contract Award paragraph, above, for more information about TPL low lot total award.

NOTICE TO BIDDERS: The State of Ohio, although not making therapeutic awards, has developed a therapeutic formulary. Cost may be utilized when determining therapeutic ranking within the formulary.

FIXED-PRICE WITH ECONOMIC ADJUSTMENT: The contract prices(s) will remain firm for the first six (6) months duration of the contract. Thereafter, the Contractor may submit a request to increase its price(s), up to one (1) time during each subsequent six (6) month period, per each awarded item. Price increases will be effective forty five (45) calendar days after acceptance by DAS. Acceptance of the price increase request by DAS will be possible after the Contractor has submitted all necessary justification documentation.

It is the successful contractor(s) responsibility to supply the Office of Procurement Services with its price increase request(s) with justification documentation and is to be in the possession of the Office of Procurement Services no later than (30) calendar days before the contractor's anticipated/requested effective date.

No price adjustment will be permitted prior to the effective date of the increase received by the Contractor from his suppliers, or on purchase orders that are already being processed, or on purchase orders that have been filled and are awaiting shipment. If the Contractor receives orders requiring quarterly delivery, the increase will apply to all deliveries made after the effective date of the price increase.

The price increase must be supported by a general price increase in the cost of the finished supplies, due to increases in the cost of raw materials, labor, freight, Workers' Compensation and/or Unemployment Insurance, etc. Detailed documentation, to include a comparison list of the contract items and proposed price increases, must be submitted to support the requested increase. Supportive documentation should include, but is not limited to: copies of the old and the current price lists or similar documents which indicate the original base cost of the product to the Contractor and the corresponding increase, and/or copies of correspondence sent by the Contractor's supplier on the supplier's letterhead, which contain the above price information and explains the source of the increase in such areas as raw materials, freight, fuel or labor, etc.

SPECIAL CONTRACT TERMS AND CONDITIONS (Cont'd)

Additional supportive documentation should include invoices from sub-contractors, transportation, or raw material suppliers as applicable. Contractors shall retain copies of invoices from its suppliers for the duration of the contract and should provide copies upon request, as justification.

Price increase requests must include a signed cover letter and/or a checklist approved by DAS. The cover letter or checklist shall include, at minimum, the Contractor's authorized signature, the Contract Number and/or Index Number, Item Reference Number, NDC Number, date of the current cost list (or invoice), and the date of the last cost list (or invoice) immediately prior to the most recent bid or price change, for each item. DAS may provide the Contractor with an approved checklist to assist Contractor in organizing the required information, and may revise the checklist when necessary. If deemed necessary, DAS may require the approved checklist to be submitted together with the price increase requests.

Cost documents for the original base cost must be relevant to the original bid price. Old and current cost documents must contain the same type of costing information (for example, both must contain the same pricing index, such as WAC) and must be complete with all applicable pages. The old and current cost pages should include the NDC number, effective date(s), manufacturer name, product description, the author/issuer of the document, and signature, if applicable.

Contractor should be prepared to provide the state with the source(s) and contact person(s) information of the documentation for verification, if requested. Price increase requests which increase profit will not be considered. Any price increase which is later discovered to be undeserved due to an improper Contractor price request submission may be deemed as Contractor's default and subject to Contract Remedies.

Note: Within 30 days after award, Contractors are encouraged provide DAS with a copy of the original cost list and/or invoice document(s) which the bid price of the awarded item(s) are based upon. This option may help the state reduce the processing time of price increase requests.

Price increase will be based on the original awarded product and not a substitute item, and price increase for a substitute item will not be allowed. If an original awarded product is discontinued and a substitute item is approved by DAS, then the price of the substitute item will not be increased for the remainder of the contract. However, the substitute item may be removed from the contract if proper justification supporting the discontinued, original awarded item is submitted and accepted by DAS. All price increase requests shall be accepted and approved solely at the discretion of DAS.

Should there be a decrease in the cost of the finished product due to a general decline in the market or some other factor, the Contractor is responsible to notify DAS immediately. The price decrease adjustment will be incorporated into the contract and will be effective on all purchase orders issued after the effective date of the decrease. If the price decrease is a temporary decrease, such should be noted on the invoice. In the event that the temporary decrease is revoked, the contract pricing will be returned to the pricing in effect prior to the temporary decrease. For quarterly deliveries, any decrease will be applied to deliveries made after the effective date of the decrease. Failure to comply with this provision will be considered as a default and will be subject to Provision I.C. "Termination/Suspension" and Provision II. of the "Contract Remedies:" of the "Standard Contract Terms and Conditions".

The samples submitted must have the same NDC number as the product being offered on the bid. The samples will be used in the evaluation process to determine the lowest responsive and responsible bidder. Any variation between the samples and product being delivered will be considered as an event of default. Any variations between the samples and actual product being delivered that are due to manufacturer changes may be acceptable and shall require prior written approval from DAS.

Even if the manufacturer's product is in "current" stock at the State Pharmacy Service Center facility, a sample must still be submitted.

This includes the tamper resistant packaging requirements for over-the-counter drug products and the manufacturer name and address being printed on the label of all legend (prescription) drugs. For items requested in Unit Dose packaging, EACH unit dose MUST be labeled with the product name, lot number and expiration date. Method of packing products for shipment/delivery shall meet the standards of the industry. Random packing or intermixing of multiple products and/or multiple lots within the same shipping carton are not the industry standards. Shipment of multiple lots and loose packaging of drug product may result in a "Complaint to Vendor" being issued, and possibly the cancellation of the contract due to noncompliance with contract terms.
- F. Expiration Date: All products must be of current manufacture. The expiration period, if any, shall exceed one (1) year. The state will not accept any drug product that is not labeled with an expiration date unless the product in question is specifically exempted by Federal statute 21 CFR 211.137 (g) and is not commercially available. In the absence of a labeled expiration date the State requires the manufacture date for each product and lot shipped as well as its shelf life. This information shall be submitted with both the packing slip and on the invoice. Vitamin products classified as dietary supplements (which are thereby subject to food, not drug, requirements and exempt from labeling the expiration date) are not acceptable.
- H. Vitamin and/or Mineral Product Formulations: Bidders offering vitamin and/or mineral products containing more than one ingredient shall submit the formulation of the product with their bid. Failure to provide said label may result in the bid being deemed not responsive.
- I. The State's preference on injectable items is vials rather than ampules. If bidder has both available, the bidder shall offer both.
- J. When bidding on oral contraceptives make sure to clearly bid if quote is per cycle or per box.
- K. Reference to Hospital Labeling on Price Pages indicates that packaging must have Hospital, not Retail, Individual Labeling where each dose is labeled with Product Name, Lot Number and Expiration Date.
