The estimated usage for each line item will be multiplied by the prices submitted by individual bidders to determine the estimated annual cost per line item for each bidder. The estimated annual cost for each line item will be totaled to determine the lowest responsive and responsible low lot bidder. Failure to bid all items may render your bid not responsive.

SPECIAL CONTRACT TERMS AND CONDITIONS (Continued)

MINIMUM ORDER: The minimum order for a single or multiple items placed against a contract awarded pursuant to this bid for delivery F.O.B. destination, transportation charges prepaid at any one time to any one destination shall be not less than 30,000 linear yards. All freight charges must be supported by a copy of the actual freight invoice.

PRODUCT SAMPLES: The bidder(s) may be required to submit samples of the supplies being offered. The samples may be used in the evaluation process to determine the lowest responsive and responsible bidder. If requested the bidder will be required to provide the samples within seven (7) calendar days after notification. Failure to provide the samples within the stated time period will result in the bidder being deemed not responsive. After award of the contract, the samples will be used as a basis for comparison with actual product delivered under contract. Any variation between the samples and product delivered will be considered as an event of default. Any variations between the samples and actual product being delivered that are due to manufacturer changes may be acceptable and shall require prior written approval from DAS.

SAMPLE SUBMISSION: Samples if requested, shall be a manufacturer's labeled minimum cut of one (1) yard full cut swatch to be sent to DAS Office of Procurement Services, Attn: Walter Schneider, 4200 Surface Rd., Columbus, OH 43228-1395 for each item requested, on or before the deadline date specified by DAS Office of Procurement Services, marked as to width, weight per square yard, yarn construction, thread count, and finish.

FIXED-PRICE WITH ECONOMIC ADJUSTMENT: The contract prices(s) will remain firm for the first nine (9) months duration of the contract. Thereafter, the Contractor may submit a request to adjust their price(s) to be effective thirty (30) calendar days after acceptance by DAS. No price adjustment will be permitted prior to the effective date of the increase received by the Contractor from his suppliers, or on purchase orders that are already being processed, or on purchase orders that have been filled and are awaiting shipment. If the Contractor receives orders requiring quarterly delivery, the increase will apply to all deliveries made after the effective date of the price increase.

The price adjustment must be supported by a general price increase in the cost of the finished supplies, due to increases in the cost of raw materials, labor, freight, Workers' Compensation and/or Unemployment Insurance, etc. Detailed documentation, to include a comparison list of the contract items and proposed price increases, must be submitted to support the requested increase. Supportive documentation should include, but is not limited to: copies of the old and the current price lists or similar documents which indicate the original base cost of the product to the Contractor and the corresponding increase, and/or copies of correspondence sent by the Contractor's supplier on the supplier's letterhead, which contain the above price information and explains the source of the increase in such areas as raw materials, freight, fuel or labor, etc.

Should there be a decrease in the cost of the finished product due to a general decline in the market or some other factor, the Contractor is responsible to notify DAS immediately. The price decrease adjustment will be incorporated into the contract and will be effective on all purchase orders issued after the effective date of the decrease. If the price decrease is a temporary decrease, such should be noted on the invoice. In the event that the temporary decrease is revoked, the contract pricing will be returned to the pricing in effect prior to the temporary decrease. For quarterly deliveries, any decrease will be applied to deliveries made after the effective date of the decrease. Failure to comply with this provision will be considered as a default and will be subject to Provision I.C. "Termination/Suspension" and Provision II. of the "Contract Remedies:" of the "Standard Contract Terms and Conditions".
