

STATE TERM CONTRACT

THIS CONTRACT ("Contract") is between the State of Ohio ("State"), through its Department of Administrative Services, General Services Division, at 4200 Surface Road, Columbus, Ohio, 43228 and Vaske Computer, Inc. dba Collier IT ("Contractor"), with offices at 2310 West County Road D, Roseville, MN 55112.

BACKGROUND

The State recognizes that it is sometimes advantageous to do business with some manufacturers under a State term contract rather than through a competitive bidding or proposal process. In such cases, the State may enter into a contract with the manufacturer provided that the manufacturer offers its products and ancillary services at the same prices that the manufacturer offers those products and services to the US Government under the GSA's Multiple Award Schedule program or SmartBuy program. Or if the manufacturer has no contract under the GSA's Multiple Award Schedule program or SmartBuy program, the State will accept the pricing the manufacturer offers to its distributors. Further, if the manufacturer has no GSA Multiple Award Schedule or SmartBuy contract and no distributors, the State may accept the prices that the manufacturer offers to its most favored customers for each product or service.

The State also recognizes that some manufacturers work primarily through dealers for various reasons, including offering customers better support through dealers that have a local presence in a service area. Because of this, the State may sometimes agree to work directly with a manufacturer's dealers.

However, if the Contractor is not the manufacturer of the products or services under this Contract, the Contractor must submit a letter from the manufacturer that assures the State that the Contractor is an authorized dealer in the manufacturer's products or services. The letter also must assure the State that the Contractor will have sufficient quantities of the offered products for the duration of the Contract to meet the State's needs under the Contract during the initial term and any extensions. Further, the letter must identify each of the manufacturer's product and service that the Contractor will supply under this Contract. The letter also must contain an assurance of the availability through the dealer of repair services and spare parts for products covered by this Contract for five years from the date of purchase. It also must contain an assurance that software maintenance will be available under the terms of this Contract either from the dealer or the manufacturer for six years from the date of acceptance. (This assurance is not necessary for PC and PC-based server software with a perpetual license fee of less than \$10,000.00 per copy.) The dealer must submit the letter, signed by an authorized representative of the manufacturer, with the executed copies of this Contract.

This Contract establishes terms and conditions under which State agencies (including any board, instrumentality, commission, or other political body) and Ohio political subdivisions, such as counties, municipalities, and townships, may acquire the Contractor's products or services at the pricing identified below. This Contract, however, only permits such; it is not a requirements contract and does not obligate any State agency or political subdivision to acquire the Contractor's products or services.

TERMS AND CONDITIONS

1 - TERM

- 1.1 **TERM.** This Contract is effective on the date the State's duly authorized representative executes it, as evidenced by the date appearing with the representative's signature, below. Unless this Contract is terminated or expires without renewal, it will remain in effect until June 30, 2015. Termination or expiration of this Contract will not limit the Contractor's continuing obligations with respect to Deliverables that the State paid for before termination or limit the State's rights in such.
- 1.2 **CONTRACT RENEWAL.** In the State's sole discretion, it may renew this Contract for a period of one month at the end of each biennium during which this Contract remains in place. Any further renewals will be only by written agreement between the State and the Contractor. Such renewals may be for any number of times for any period not to exceed the time remaining in the State's then-current biennium.

2 - PRICING AND PAYMENT

- 2.1 **CERTIFICATION OF ACCURACY.** By checking one of the following three items, the Contractor certifies that the Contractor's prices under this Contract are:

The prices at which the Contractor currently offers each product and service to the US Government under the GSA's Multiple Award Schedule program;
The prices at which the Contractor currently offers each product and service to the US Government under the GSA's SmartBuy program; or

- ✓ The best prices at which the Contractor has offered each product and service to its most favored customers within one year before the date the Contractor executed this Contract or adds the product or service to this Contract, whichever is later.

If the Contractor is offering prices based on its most favored customer prices, the Contractor represents that it does not have a GSA Multiple Award Schedule or SmartBuy contract.

If the Contractor has submitted a manufacturer's letter to certify that the Contractor is an authorized dealer for the manufacturer, the Contractor represents that the information in the letter is accurate and that a duly authorized representative of the manufacturer signed the letter.

The Contractor further certifies that the above representations will apply and be true with respect to all future pricing information submitted to revise this Contract.

- 2.2 PRICE ADJUSTMENTS.** If the Contractor has relied on its GSA Multiple Award Schedule pricing or its GSA SmartBuy pricing, the State will be entitled to any price decreases that the Contractor offers to the GSA for any of its products and services during the term of this Contract. The Contractor must notify the State of any reduction in its GSA Multiple Award Schedule or SmartBuy pricing within 30 days of its occurrence and immediately reduce the price of the affected products or services to the State under this Contract.

If the Contractor has relied on its best customer pricing, the State will be entitled to a price decrease any time the Contractor or any of its dealers or distributors under this Contract sells a product or a service to any of its customers for less than the price agreed to between the State and the Contractor under this Contract. Any time the Contractor or any of its dealers or distributors under Section 3.1 of this Contract sells a product or provides a service to any customer for less than it is then available to the State under this Contract, the Contractor must notify the State of that event within 30 days of its occurrence and immediately reduce the price of the affected products or services to the State under this Contract.

The Contractor also must notify the State within 30 days of any general reduction in the price of any product or service covered by this Contract, even if the general reduction does not place the price of the product or service below the price available to the State under this Contract. The purpose of this notice of a general reduction in price is to allow the State to assess the value the State believes it is receiving under this Contract in light of the general reduction. If the State believes it is appropriate, the State may ask to renegotiate the Contract price for the products and services affected by the general reduction in price. If the Contractor and the State cannot agree on a renegotiated price, then on written notice to the Contractor, the State may immediately remove the affected products and services from this Contract.

- 2.3 PRICELIST.** The Contractor's pricelist for the products and services that the Contractor may provide to the State under this Contract is attached as Exhibit I. For convenience, those products and services are called "Deliverables" in this Contract. Any custom materials resulting from the Contractor's services also are called "Deliverables" in this Contract. The Contractor may not provide any other Deliverables under this Contract without a prior written amendment to this Contract that both the State and the Contractor have signed. Furthermore, the Contractor may not charge the State greater prices for these Deliverables than the prices on the Exhibit I. If Exhibit I contains or incorporates by reference any terms or conditions other than a description of the scope of license for software, a description of the Contractor's products and services, and the prices for those products and services, those terms or conditions are excluded from this Contract and are of no effect. Exhibit I is identified as the following pricelist:

Vaske Computer, Inc. Price List 2014-Ohio

The Contractor will not sell to the State any notebook computers with less than a 1.60 GHz internal clock speed. Additionally, the Contractor will not sell to the State any PCs or servers using CPUs with less than a 3.0 GHz internal clock speed. Additionally, the Contractor will not sell to the State any term software licenses. And except in the case of operating systems licensed in conjunction with desktop PCs, notebook computers, PDAs, and similar personal computing devices that the OEM does not distribute without an operating system, the Contractor will not sell or license any Microsoft software to the State. If any of the foregoing items are listed in the Contractor's pricelist, they are deleted for purposes of this Contract.

- 2.4 NOTIFICATION OF PRICE INCREASES.** If this Contract permits any price increases, the Contractor must notify the State and any affected State agencies of the increase at least 60 days before the effective date of the price increase. The Contractor must notify affected State agencies at their purchase order "bill to" address contained in the applicable purchase orders. This notification must specify, when applicable, the product serial number, location, current price, increased price, and applicable purchase order number.

- 2.5 Payment Due Date.** Payments will be due on the 30th day after the later of:

- (a) The date the State actually receives a proper invoice at the office designated in the applicable purchase order to receive it; or
- (b) The date the State accepts the Deliverable.

The date the State issues a warrant (the State's equivalent to a check) in payment of an invoice will be considered the date payment is made. Without diminishing the Contractor's right to timely payment, the payment will be overdue only if it is not received by the 30th day after the payment's due date. If the State has not issued payment by then, interest will begin to accrue under Ohio Revised Code (the "Code") § 126.30.

2.6 Invoice Requirements. The Contractor must submit an original invoice with three copies to the office designated in the purchase order as the "bill to" address. To be a proper invoice, the invoice must include the following information:

- (a) Name and address of the Contractor as designated in this Contract;
- (b) The Contractor's federal tax identification number as designated in this Contract;
- (c) The Contractor's invoice remittance address as designated in this Contract;
- (d) The purchase order number authorizing the delivery of the Deliverables;
- (e) A description of the Deliverables, including, as applicable, the time period, serial number, unit price, quantity, and total price of the Deliverables; and
- (f) If the invoice is for a lease, the Contractor also must include the payment number (e.g., 1 of 36).

If an authorized dealer has fulfilled the purchase order, then the dealer's information should be supplied in lieu of the Contractor's information. If an invoice does not meet this section's requirements, or if the Contractor fails to give proper notice of a price increase (see the next section), the State will send the Contractor written notice. The State will send the notice, along with the improper invoice, to the Contractor's address designated for receipt of purchase orders within 15 days. The notice will contain a description of the defect or impropriety and any additional information the Contractor needs to correct the invoice. If such notification has been sent, the payment due date will be 30 days after the State receives a proper invoice and has accepted the Contractor's Deliverable.

2.7 OHIO PAYMENT CARD. Participating State agencies issuing orders under this Contract may use the Ohio Payment Card. Such purchases may not exceed \$2,500 unless the Office of Budget and Management ("OBM") has authorized the agency to exceed this limit. If OBM increases the dollar limit for payment cards for all State agencies, the State will post notice of that on its Procurement Website. Participating State agencies are required to use the Ohio Payment Card in accordance with OBM's current guidelines for the Ohio Payment Card and the agency's approved plan filed with the OBM. The Contractor may process a payment in the payment card network only upon delivery and acceptance of the applicable Deliverables. For partial deliveries or performance, the Contractor may process a payment for the amount delivered or completed only and not for the entire amount ordered by the ordering agency. Upon completion of the delivery of remaining Deliverables, the Contractor may process a payment request in the payment card network for the remainder of the order. The Contractor should receive payment through its merchant bank within the time agreed upon between the Contractor and its merchant bank. The Contractor should expect normal processing fees from its merchant bank for payment card transactions, which the Contractor may not pass on to the State.

2.8 NON-APPROPRIATION OF FUNDS. The State's funds are contingent on the availability of lawful appropriations by the Ohio General Assembly. If the Ohio General Assembly fails to continue funding for any payments due hereunder, the order or orders under this Contract that are affected by the lack of funding will terminate as of the date that the funding expires, and the State will have no further obligation to make any payments with respect to the affected order or orders.

2.9 OBM CERTIFICATION. This Contract is subject to Code § 126.07. Any orders under this Contract are void until the Director of the OBM certifies that there is a balance in the appropriation available to pay for the order.

2.10 CONTROLLING BOARD AUTHORIZATION. The State's obligations under this Contract are subject to the Ohio Controlling Board continuing to authorize the State's use of its term contracts program. If the Ohio Controlling Board fails to authorize or withdraws its authorization for this program, this Contract will terminate immediately, and the Contractor may not take any more orders under it.

2.11 TRAVEL EXPENSES. Any travel that the Contractor requires to perform its obligations under this Contract will be at the Contractor's expense. The State will pay for any additional travel that it requests only with prior written approval. The State will pay for all additional travel expenses that it requests in accordance with OBM's travel policy in Rule 126-1-02 of the Ohio Administrative Code (the "Administrative Code").

2.12 TAXES. The State is exempt from all sales, use, excise, and property taxes and will not pay any such taxes. To the extent sales, use, excise, or any similar taxes are imposed on the Contractor in connection with any Deliverable, the Contractor must pay those taxes together with any interest and penalties not successfully disputed with the taxing authority.

- 2.13 **OFFSET.** The State may set off any amounts the Contractor owes to the State under this or other contracts against any payments due from the State to the Contractor under this or any other contracts with the State.

3 - CONTRACT ADMINISTRATION

- 3.1 **DEALERS AND DISTRIBUTORS.** The State authorizes the Contractor to name one or more dealers to work with the State on behalf of the Contractor. But if the Contractor decides to use any dealers, the Contractor must submit the name, principal business address, addresses for purchase orders and for payments, telephone number, and its federal tax identification number. The Contractor also must submit a completed W9 form for each dealer it wishes to name under this section. The Contractor's submission must be on its official letterhead, signed by an authorized representative, and addressed to the Deputy State Chief Information Officer, Office of Information Technology.

In doing so, the Contractor warrants that:

- (a) The Contractor has provided the dealer with a copy of this Contract, and a duly authorized representative of the dealer has agreed, in writing, to be bound by the terms and conditions in this Contract.
- (b) Such agreement specifically provides that it is for the benefit of the State as well as the Contractor.
- (c) The Contractor will remain liable under this Contract for the services of any dealer and will remedy any breach of the dealer under this Contract.
- (d) Payments under this Contract for the services of any dealer may be made directly to that dealer, and the Contractor will look solely to the dealer for any payments due to the Contractor once the State has paid the dealer.
- (e) To the extent that there is any liability to the State arising from doing business with a dealer that has not signed the agreement required under this section with the Contractor, the Contractor will indemnify the State for such liability.

If the Contractor wants to designate a dealer that will not receive payments (a "distributor"), the Contractor may do so by identifying the person or organization as a distributor in the authorizing letter. In such cases, information regarding taxpayer identification and payment addressing may be omitted, as may the distributor's W9 form. All other requirements and obligations for designating a dealer apply to designating a distributor.

The State strongly encourages the participation of small and disadvantaged businesses in its contracting programs and has created a certification program to Encourage Diversity Growth and Equity (EDGE) in State contracting. State agencies are instructed to include in their procurements such participation, including through the use of State Term Schedule contracts that are either held by EDGE businesses or that offer the opportunity to work with EDGE dealers or distributors.

- 3.2 **AUDITS.** During the term of this Contract and for three years after termination, on reasonable notice and during customary business hours, the State may audit the Contractor's records and other materials that relate to the Deliverables and to the pricing representations that the Contractor has made to acquire this Contract. This audit right also will apply to the State's duly authorized representatives and any organization providing funding for any Deliverable.

Unless it is impracticable to do so, all records related to this Contract must be kept in a single location, either at the Contractor's principle place of business or the facilities where the Contractor substantially performed under this Contract. If this is not practical, the Contractor must assume the cost of collecting, organizing, and relocating the records, along with any technology needed for accessing the records, to its office nearest Columbus, Ohio whenever the State or any entity with audit rights requests access to the records. The Contractor must do so within 15 days of receiving the State's written notice of its intent to audit the Contractor's records and must notify the State as soon as the records are ready for audit.

If any audit reveals any material misrepresentation or overcharge to the State, the State will be entitled to recover its damages, including the cost of the audit.

- 3.3 **INSURANCE.** The Contractor must provide the following insurance coverage at its own expense throughout the term of this Contract:

- a. Workers' compensation insurance, as required by Ohio law, and if some work will be done outside Ohio, the laws of the appropriate states where work will be done. The Contractor also must maintain employer's liability insurance with at least a \$1,000,000.00 limit.
- b. Commercial General Liability insurance coverage for bodily injury, personal injury, wrongful death, and property damage. The defense cost must be outside of the policy limits. Such policy must designate the State of Ohio as an additional insured, as its interest may appear. The policy also must be endorsed to include a blanket waiver of subrogation. At a minimum, the limits of the insurance must be:

\$ 2,000,000 General Aggregate
\$ 2,000,000 Products/Completed Operations Aggregate
\$ 1,000,000 Per Occurrence Limit
\$ 1,000,000 Personal and Advertising Injury Limit
\$ 100,000 Fire Legal Liability
\$ 10,000 Medical Payments

The policy must be endorsed to provide the State with 30-days prior written notice of cancellation or material change to the policy. And the Contractor's Commercial General Liability must be primary over any other insurance coverage.

- a. Commercial Automobile Liability insurance with a combined single limit of \$500,000.
- b. Professional Liability insurance covering all staff with a minimum limit of \$1,000,000 per incident and \$3,000,000 aggregate. If the Contractor's policy is written on a "claims made" basis, the Contractor must provide the State with proof of continuous coverage at the time the policy is renewed. If for any reason the policy expires, or coverage is terminated, the Contractor must purchase and maintain "tail" coverage through the applicable statute of limitations.

All certificates must be in a form that is reasonably satisfactory to the State as to the contents of the policies and the quality of the insurance carriers. All carriers must have at least an "A-" rating by A.M. Best.

- 3.4 **CONTRACT COMPLIANCE.** Any State agency that uses this Contract will be responsible for the administration of this Contract with respect to the orders that it places and may monitor the Contractor's performance and compliance with this Contract. If an agency becomes aware of any noncompliance with the terms of this Contract or the specifications of an order, the agency may document the noncompliance and give the Contractor written notice of the noncompliance for immediate correction. If the Contractor fails to cure the noncompliance, the agency may notify the State through the Department of Administrative Services, Office of State Purchasing, by executing a Complaint to Vendor form to help resolve the issue. Should the State determine that the form identifies an uncured breach of this Contract, the State may terminate this Contract and seek such other remedies as may be available to it.
- 3.5 **POLITICAL SUBDIVISIONS.** Ohio political subdivisions, such as Ohio cities, counties, and townships ("Political Subdivisions"), may rely on this Contract. Whenever a Political Subdivision relies on this Contract to issue a purchase order, the Political Subdivision will step into the shoes of the State under this Contract for purposes of its order, and, as to the Political Subdivision's order, this Contract will be between the Contractor and the Political Subdivision. The Contractor must look solely to the Political Subdivision for performance, including but not limited to payment, and must hold the State harmless with regard to such orders and the Political Subdivision's performance. But the State will have the right to terminate this Contract and seek such remedies on termination as this Contract provides should the Contractor fail to honor its obligations under an order from a Political Subdivision. Nothing in this Contract requires the Contractor to accept an order from a Political Subdivision, if the Contractor reasonably believes that the Political Subdivision is or will be unable to perform its obligations in relation to that order.
- 3.6 **RECALLS.** If a Deliverable is recalled, seized, or embargoed, or if the Contractor, a manufacturer, packer, processor, or regulatory body finds that a Deliverable has been misbranded, adulterated, or is unsafe, the Contractor must notify the State, through the Department of Administrative Services, Office of State Purchasing, as well as all agencies that have ordered the Deliverable, within ten business days after the Contractor learns of any of the above events. At the option of the State, the Contractor must either reimburse the State for the purchase price of each affected Deliverable or provide an equal or better replacement for each Deliverable at no additional cost to the State. The Contractor also must remove and replace all affected Deliverables within a reasonable time, as determined by the State. Further, at the option of the State, the Contractor may be required to reimburse the State for storage costs and handling fees, which the State may calculate from the time of delivery of each affected Deliverable to the Deliverable's actual removal. Furthermore, the Contractor must bear all costs associated with the removal and proper disposal of the affected Deliverables. The State will treat any failure to refund the purchase price or provide a suitable replacement within a reasonable time, not to exceed 30 days, as a default.
- 3.7 **TERMINATION.** The State may terminate this Contract or any order under this Contract if the Contractor defaults in meeting its obligations and fails to timely cure its default. The State also may terminate this Contract or any order under it if a petition in bankruptcy is filed by or against the Contractor and not dismissed within 60 days. And the State may terminate this Contract or any order under it if the Contractor violates any law or regulation while performing under this Contract or if it appears to the State that the Contractor's performance is substantially endangered through no fault of the State. In all of the foregoing cases, the termination will be for cause.

On written notice, the Contractor will have 30 days to cure any breach of its obligations under this Contract, provided the breach is curable. If the Contractor fails to cure the breach within 30 days after written notice or if the breach is not one that is curable, the State will have the right to terminate this Contract, the applicable orders, or both immediately upon written notice to the Contractor. Some provisions of this Contract may provide for a shorter cure period than 30 days or for no cure period at all. Those provisions will prevail over this one. If a particular section does not state what the cure period will be, this provision will govern.

The State also may terminate this Contract in the case of breaches that are cured within 30 days but are persistent. "Persistent" in this context means that the State has notified the Contractor in writing of the Contractor's failure to meet any of its obligations two times. After the second such notice, the State may terminate this Contract without a cure period if the Contractor again fails to meet any obligation. The three defaults do not have to relate to the same obligation or type of failure.

The State also may terminate this Contract or any order under this Contract for its convenience and without cause. And the State may terminate this Contract or any order under it if the Ohio General Assembly fails to appropriate funds for any order under this Contract. Further, if a third party is providing funding for an order, the State also may terminate this Contract or any order under it should that third party fail to release any funds related to this Contract or an order under it.

Any notice of termination will be effective as soon as the Contractor receives it. On receipt of the notice of termination, the Contractor will immediately cease all work on any Deliverables affected by the termination and take all steps necessary to minimize any costs the Contractor will incur related to the affected orders. The Contractor also must immediately prepare a report and deliver it to the State. The report must detail all open orders at the time of termination.

If the State terminates this Contract or any order for cause, it will be entitled to cover for the affected orders by using another vendor or vendors on such commercially reasonable terms and conditions as it and the covering vendors may agree. The Contractor will be liable to the State for all costs related to covering for the affected orders to the extent that such costs exceed the costs that the State would have incurred under this Contract for those orders. The Contractor also will be liable for any other direct damages resulting from its breach of this Contract or other event leading to termination for cause.

If the termination is for the convenience of the State, the Contractor will be entitled to compensation for any Deliverable that the Contractor has delivered before the termination. Such compensation will be the Contractor's exclusive remedy in the case of termination for convenience and will be available to the Contractor only once the Contractor has submitted a proper invoice for such, with the invoice reflecting the amount the State determines that it owes the Contractor.

3.8 EXCUSABLE DELAY. Neither party will be liable for any delay in its performance under this Contract that arises from causes beyond its reasonable control and without its negligence or fault. The delayed party must notify the other promptly of any material delay in performance and must specify in writing the proposed revised performance date as soon as practicable after notice of delay. For any such excusable delay, the date of performance or delivery will be extended for a period equal to the time lost by reason of the excusable delay. The delayed party also must describe the cause of the delay and what steps it then is taking or will take to remove the cause. The delayed party may not rely on a claim of excusable delay to avoid liability for a delay if the party has not taken commercially reasonable steps to mitigate or avoid the delay.

3.9 INDEPENDENT STATUS. The parties will be acting as independent entities. The partners, employees, officers, directors, and agents of one party may only act in the capacity of representatives of that party and not as employees, officers, directors, or agents of the other party and will not be deemed as such for any purpose. Each party assumes full responsibility for the actions of its partners, employees, officers, directors, and agents while performing under this Contract and will be solely responsible for paying those people. Additionally, each party will be solely responsible for withholding and paying social security and income taxes, making workers' compensation contributions, paying disability benefits, and providing fringe benefits, if any, for its partners, employees, officers, directors, and agents, and neither party may legally bind the other party in any manner.

3.10 LOCATION OF SERVICES AND DATA. As part of this Contract, the Contractor must disclose the following:

- (a) All locations where any services will be performed;
- (b) All locations where any State data applicable to the Contract will be maintained or made available; and
- (c) The principal place of business for the Contractor and all its subcontractors.

The Contractor may not change any location where any services are performed to a location outside the country of the original location or change any location where the data is maintained or made available to any other location outside the country of the original location without prior written approval of the State, which the State will not be obligated to provide.

4 - DELIVERY AND ACCEPTANCE

- 4.1 ACCEPTANCE.** The acceptance procedure for Deliverables will be an informal review by the agency acquiring the Deliverables to ensure that each Deliverable meets the warranties in this Contract. The State will have up to 30 days after installation to do this. The State will not issue a formal letter of acceptance, and passage of 30 days will imply acceptance, though the State will issue a notice of noncompliance if a Deliverables does not meet the warranties in this Contract.

If the State issues a noncompliance letter, the Contractor will have 30 days to correct the problems listed in the letter. If the Contractor fails to do so, the Contractor will be in default without a cure period. If the State has issued a noncompliance letter, the Deliverable will not be accepted until the State issues a letter of acceptance indicating that each problem noted in the noncompliance letter has been cured. If the problems have been fixed during the 30-day period, the State will issue the acceptance letter within 15 days after all defects have been fixed.

- 4.2 TITLE.** Title to any Deliverable will pass to the State only on acceptance of the Deliverable, and all risk of loss will remain with the Contractor until title to the Deliverable passes to the State.

- 4.3 DELIVERIES.** The Contractor must make all deliveries F.O.B. destination.

5 - INTELLECTUAL PROPERTY

- 5.1 COMMERCIAL MATERIAL.** As used in this section, "Commercial Material" means anything that the Contractor or a third party has developed at private expense and that is commercially available in the marketplace, subject to intellectual property rights, and readily susceptible to copying through duplication on magnetic media, paper, or other media. Examples include the written reports, books, pictures, videos, movies, computer programs, source code, and documentation.

Any Commercial Material that the Contractor intends to deliver as a Deliverable must have the scope of the license granted in such material disclosed in an Exhibit to this Contract, if that scope of license is different than the scope of license contained in this section for Commercial Materials.

Except for Commercial Material that is software ("Commercial Software"), if the Commercial Material is copyrighted and published material, then the State will have the rights permitted under the federal copyright laws for each copy of the Commercial Material delivered to it by the Contractor.

Except for Commercial Software, if the Commercial Material is patented, then the State will have the rights permitted under the federal patent laws for each copy of the Commercial Material delivered to it by the Contractor.

For Commercial Software, the State will have the following, perpetual rights, subject to the next paragraph. The State may:

- (1) Use and copy the Commercial Software for use in or with the computer or computers for which it was acquired, including use at any State installation to which such computer or computers may be transferred;
- (2) Use or copy the Commercial Software for use with a backup computer for disaster recovery and disaster recovery testing purposes or if any computer for which it was acquired is inoperative;
- (3) Reproduce the Commercial Software for archival, image management, and backup purposes;
- (4) Modify, adapt, and combine the Commercial Software with other computer software, provided that the modified, combined, and adapted portions of the derivative software incorporating any of the Commercial Software will be subject to same restrictions on use;
- (5) Disclose to and reproduce the Commercial Software for use on behalf of the State by support service contractors or their subcontractors, subject to the same restrictions on use; and
- (6) Use or copy the Commercial Software for use with a replacement computer.

In the case of any other scope of license (e.g., MIPs, tier, concurrent users, enterprise, site, or otherwise), the foregoing will apply except as expressly modified by the applicable license description, which must be incorporated as part of Exhibit I. If the Contractor provides greater license rights in an item included in Exhibit I to its general customer base for the Software's list price, those additional license rights also will be provided to the State without additional cost or obligation. No license description may reduce the rights in items 1 through 6 above; it may only define the extent of use, if the use is other than a CPU license.

The State will treat any Commercial Software as Confidential Information, in accordance with the requirements of the Confidential Information section of this Contract, if the Commercial Software is clearly and conspicuously labeled as confidential or secret.

5.2 CUSTOM DELIVERABLES. All custom work done by the Contractor and covered by this Contract will belong to the State, with all rights, title, and interest in all intellectual property that comes into existence through the Contractor's work under this Contract being assigned to the State. Additionally, the Contractor waives any shop rights, author rights, and similar retained interests in any such custom developed materials. The Contractor must provide the State with all assistance reasonably needed to vest such rights of ownership in the State. However, the Contractor will retain ownership of all tools, methods, techniques, standards, and other development procedures, as well as generic and preexisting shells, subroutines, and similar material incorporated in any custom Deliverable ("Pre-existing Materials").

The Contractor grants the State a worldwide, non-exclusive, royalty-free, perpetual license to use, modify, sell, and otherwise distribute all Pre-existing Materials that are incorporated in any custom-developed Deliverable. The Contractor may not include in any custom Deliverable any intellectual property unless such has been created under this Contract or qualifies as Pre-existing Material. If the Contractor wants to incorporate any Pre-existing materials in a custom Deliverable, the Contractor must disclose that desire to the State and obtain written approval from the State for doing so in advance. On the request of the Contractor, the State will incorporate any proprietary notice that Contractor may reasonably want for any Pre-existing Materials included in a custom Deliverable in all copies the State makes of that Deliverable.

Subject to the limitations and obligations of the State with respect to Pre-existing Materials, the State may make all custom Deliverables available to the general public without any proprietary notices of any kind.

5.3 CONFIDENTIALITY. The State may disclose to the Contractor written material or oral or other information that the State treats as confidential ("Confidential Information"). Title to the Confidential Information and all related materials and documentation the State delivers to the Contractor will remain with the State. The Contractor must treat such Confidential Information as secret if it is so marked, otherwise identified as such, or when, by its very nature, it deals with matters that, if generally known, would be damaging to the best interests of the public, other contractors or potential contractors with the State, or individuals or organizations about whom the State keeps information. The Contractor may not disclose any Confidential Information to third parties and must use it solely to perform under this Contract.

If any Deliverables contain data, documentation, or other written information that is confidential in nature and properly labeled as such, then it also will be Confidential Information for purposes of this section. The State will keep all such Confidential Information in confidence and will not use it other than as authorized under this Contract. Nor will the State disclose any such Confidential Information to any third party without first obligating the third party to maintain the secrecy of the Confidential Information.

If one party discloses Confidential Information ("Disclosing Party") to the other party to this Contract ("Receiving Party"), the Receiving Party's obligation to maintain the confidentiality of the Confidential Information will not apply where such:

- (1) Was already in the possession of the Receiving Party without an obligation of confidence;
- (2) Is independently developed by the Receiving Party, provided documentary evidence exists to support the independent development;
- (3) Except as provided in the next paragraph, is or becomes publicly available without a breach of this Contract;
- (4) Is rightfully received by the Receiving Party from a third party without an obligation of confidence;
- (5) Is disclosed by the Receiving Party with the written consent of the Disclosing Party; or
- (6) Is released under a valid order of a court or governmental agency, provided that the Receiving Party:
 - (a) Notifies the Disclosing Party of the order immediately upon receipt of it; and
 - (b) Makes a reasonable effort to obtain a protective order from the issuing court or agency limiting the disclosure and use of the Confidential Information solely for the purposes intended to be served by the original order of production.

Information that may be available publicly through other sources about people that is personal in nature, such as medical records, addresses, phone numbers, social security numbers, and similar things are nevertheless sensitive in nature and may not be disclosed or used in any manner except as expressly authorized in this Contract. Therefore, item (3) in the preceding paragraph does not apply, and the Contractor must treat such information as Confidential Information whether it is available elsewhere or not.

Except for Confidential Information that the Contractor delivers to the State and that is part of a Deliverable or necessary for the proper use or maintenance of a Deliverable, the Receiving Party must return all originals of any Confidential Information and destroy any copies it has made on termination or expiration of this Contract.

The disclosure of the Confidential Information of the Disclosing Party in a manner inconsistent with the terms of this provision may cause the Disclosing Party irreparable damage for which remedies other than

injunctive relief may be inadequate, and each Receiving Party agrees that in the event of a breach of the Receiving Party's obligations hereunder, the Disclosing Party will be entitled to temporary and permanent injunctive relief to enforce the provisions of this Contract without the necessity of proving actual damages. However, provision does not diminish or alter any right to claim and recover damages.

- 5.4 USE OF NAME.** The Contractor may not publicize that it is doing business with the State or use this Contract or the Contractor's relationship with the State as a marketing or sales tool, unless the State agrees otherwise in writing. The State has no obligation to agree to any such advertising, publicity, sales, or marketing activities.

6 – TRANSACTION REPORTING

- 6.1 Contractor's SALES REPORT.** The Contractor must report the quarterly dollar value (in US currency rounded to the nearest whole dollar) of the sales under this Contract each calendar quarter (i.e., January-March, April-June, July-September and October-December). The dollar value of the sales reported must equal the price paid by all State agencies and Political Subdivisions for Deliverables under this Contract during the reporting period.

The Contractor must report the quarterly dollar value of sales to the State via the Internet using the Web form at the Department of Administrative Services, OIT vendor portal, <https://cm.ohio.gov>. If no sales occur, the Contractor must show zero sales on the report. The report must be submitted 30 days after the completion of the reporting period.

The Contractor also must submit a closeout report within 120 days after the expiration of this Contract. The Contract expires on the physical completion of the last, outstanding task or delivery order of the Contract. The closeout report must cover all sales not shown in the final quarterly report and reconcile all errors and credits. If the Contractor reported all Contract sales and reconciled all errors and credits on the final quarterly report, then the Contractor should show zero sales in the closeout report.

If the Contractor fails to submit any sales report in a timely manner or falsifies any sales report, the State may terminate this Contract for cause.

- 6.2 Contractor's REVENUE SHARE.** The Contractor must pay the State a share of the sales transacted under this Contract. The Contractor must remit the revenue share in US dollars within 30 days after the end of the quarterly reporting period. The revenue share that the Contractor must pay equals .0075 of the total quarterly sales reported. The revenue share is included in the prices reflected on Exhibit I and reflected in the total amount charged to ordering activities, and the Contractor may not add a surcharge to orders under this Contract to cover the cost of the revenue share.

The Contractor must remit any amount due as the result of a quarterly or closeout report at the time the quarterly or closeout report is submitted to the Department of Administrative Services, Office of State Purchasing. The Contractor also must pay the revenue share by check. To ensure the payment is credited properly, the Contractor must identify the check as a "Revenue Share" and include the applicable State Term Contract Number, total report amount, and reporting period covered.

The Contractor must make each check payable to "Treasurer, State of Ohio", and forward it to the following address:

Department of Administrative Services
GSD Business Office
4200 Surface Road
Columbus, OH 43228

If the full amount of the revenue share is not paid within 30 days after the end of the applicable reporting period, the non-payment will constitute a contract debt to the State. The State may setoff any unpaid revenue share from any amount owed to the Contractor under this Contract and employ all other remedies available to it under Ohio law for the non-payment of the revenue share. Additionally, if the Contractor fails to pay the revenue share in a timely manner, the failure will be a breach of this Contract, and the State may terminate this Contract for cause and seek damages for the breach.

7 - WARRANTIES AND LIABILITIES

- 7.1 WARRANTIES.** The Contractor warrants that the recommendations, guidance, and performance of the Contractor and all Deliverables under this Contract will:

- (a) Be in accordance with the sound professional standards and the requirements of this Contract and without any material defects;
- (b) Not infringe on the intellectual property rights of any third party;
- (c) Be the work solely of the Contractor, unless otherwise provided in this Contract; and
- (d) Be merchantable and fit for the particular purpose for which the Deliverables were acquired.

Additionally, with respect to the Contractor's activities under this Contract, the Contractor warrants that:

- (a) The Contractor has the right to enter into this Contract;
- (b) The Contractor has not entered into any other contracts or employment relationships that restrict the Contractor's ability to perform under this Contract;
- (c) The Contractor will observe and abide by all applicable laws and regulations, including those of the State regarding conduct on any premises under the State's control;
- (d) The Contractor has good and marketable title to any products delivered under this Contract and in which title passes to the State; and
- (e) The Contractor has the right and ability to grant the license provided in any Deliverable in which title does not pass to the State.

If any work of the Contractor or any Deliverable fails to comply with these warranties, and the Contractor is so notified in writing, the Contractor must correct such failure with all due speed, not to exceed 30 days, or refund the amount of the compensation paid for the Deliverable. The Contractor also must indemnify the State for any direct damages and any claims by third parties based on any breach of these warranties.

7.2 SOFTWARE WARRANTY. If Exhibit I includes work to develop custom software as a Deliverable, then on delivery and for one year after the date of acceptance of any Deliverable that includes custom software, the Contractor warrants that:

- (a) The software will operate on the computer(s) for which the software is intended in the manner described in the relevant software documentation;
- (b) The software will be free of material defects;
- (c) The Contractor will deliver and maintain relevant and complete software documentation, commentary, and source code;
- (d) The source code language used to code the software is readily available in the commercial market, widely used and accepted for the type of programming involved, and support programming in the language is reasonably available in the open market; and
- (e) The software and all maintenance will be provided in a professional, timely, and efficient manner.

For Commercial Software developed by the Contractor or licensed from a third party, the Contractor represents and warrants that it either has the right or has obtained a binding commitment from the third party licensor to make the following warranties and commit to the following maintenance obligations. During the warranty period described in the next paragraph, the Contractor must:

- (a) Maintain or cause the third-party licensor to maintain the Commercial Software so that it operates in the manner described in its documentation;
- (b) Supply technical bulletins and updated user guides;
- (c) Supply the State with all updates, improvements, enhancements, and modifications to the Commercial Software and documentation and, if available, the commentary and the source code;
- (d) Correct or replace the software and remedy any material programming error that is attributable to the Contractor or the third-party licensor; and
- (e) Maintain or obtain a commitment from the third-party licensor to maintain the Commercial Software so that it will properly operate in conjunction with changes in the operating environment for which it was designed.

For Commercial Software designed for mainframe platforms and for Commercial Software designed for PC or PC-based servers and costing more than \$10,000.00 per license or per copy, the warranty period will be the longer of one year after acceptance or the licensor's standard warranty period. For Commercial Software designed for PC or PC-based servers and costing less than \$10,000.00 per license or per copy, the warranty period will be the longer of three months after acceptance or the licensor's standard warranty period. For PC and PC-based servers, the warranty will not include updates, improvements, enhancements, or modifications to the Commercial Software and documentation, if such are not provided as part of the licensor's standard warranty or license fee.

Software documentation means well written, readily understood, clear, and concise instructions for the software's users as well as a system administrator. The software documentation must provide the users of the software with meaningful instructions on how to take full advantage of all of the capabilities designed for end users. It also means installation and system administration documentation for a system administrator to allow proper control, configuration, and management of the software. Source code means the uncompiled operating instructions. The Contractor must provide the source code in the language in which it was written and must include such commentary or annotations as would allow a competent programmer proficient in the source language to readily interpret the source code and understand the purpose of all routines and subroutines contained within the source code.

7.3 EQUIPMENT WARRANTY. If any computer hardware or other type of electrical equipment ("Equipment") will be a part of any Deliverable, the following warranties apply. The Contractor warrants that the Equipment fully complies with all government environmental and safety standards applicable to the Equipment. The Contractor also warrants for the warranty period described in the next paragraph that the Equipment will perform substantially in

accordance with its user manuals, technical materials, and related writings published by the manufacturer with respect to such Equipment, and that such Equipment will achieve any function described in such writings. The foregoing warranty will not apply to Equipment that the State modifies or damages after title passes to it. The warranty period for all Equipment will be the longer of one year after the State accepts the Equipment or the Contractor's standard warranty period.

If any Equipment does not meet the above warranties during the applicable warranty period, the Contractor must fix the nonconforming Equipment so it performs substantially in accordance with its user manuals, technical materials, and related publications, replace the Equipment, or grant the State a refund equal to the amount it paid for the Equipment. The Contractor must either fix or replace the Equipment or refund the purchase price to the State with all due speed, not to exceed seven days in the case of a fix or a replacement or 30 days in the case of a refund. The Contractor will be responsible for all shipping costs associated with fixing, replacing, or returning any defective equipment.

7.4 INDEMNITY. The Contractor must indemnify the State against all liability or expense resulting from bodily injury to any person (including injury resulting in death) or damage to property arising out of its performance under this Contract, provided such bodily injury or property damage is due to the negligence or other tortious conduct of the Contractor, its employees, agents, or subcontractors. The Contractor also must indemnify the State against any claim of infringement of a copyright, patent, trade secret, or other intellectual property rights based on the State's proper use of any Deliverable under this Contract. This obligation of indemnification will not apply where the State has modified the Deliverable and the claim of infringement is based on the modification. The State will give the Contractor notice of any such claim as soon as reasonably practicable. If a successful claim of infringement is made, or if the Contractor reasonably believes that an infringement claim that is pending may actually succeed, the Contractor will do one of the following four things:

- (a) Modify the Deliverable so that it is no longer infringing;
- (b) Replace the Deliverable with an equivalent or better item;
- (c) Acquire the right for the State to use the Deliverable as it was intended for the State to use under this Contract; or
- (d) Remove the Deliverable and refund the fee the State paid for the Deliverable and the fee for any other Deliverable that required the availability of the infringing Deliverable for it to be useful to the State.

7.5 LIMITATION OF LIABILITY. NOTWITHSTANDING ANYTHING TO THE CONTRARY CONTAINED IN THIS CONTRACT OR ANYTHING INCORPORATED BY REFERENCE INTO THIS CONTRACT, THE PARTIES AGREE AS FOLLOWS:

- (a) NEITHER PARTY WILL BE LIABLE FOR ANY INDIRECT, INCIDENTAL, OR CONSEQUENTIAL LOSS OR DAMAGE OF ANY KIND, INCLUDING BUT NOT LIMITED TO LOST PROFITS, EVEN IF THE PARTIES HAVE BEEN ADVISED, KNEW, OR SHOULD HAVE KNOWN OF THE POSSIBILITY OF SUCH DAMAGES.
- (b) THE CONTRACTOR WILL BE LIABLE FOR ALL DIRECT DAMAGES DUE TO THE FAULT OR NEGLIGENCE OF THE CONTRACTOR OR ITS BREACH OF ANY PROVISION OF THIS CONTRACT.

8 - MAINTENANCE

8.1 SOFTWARE MAINTENANCE. If this Contract involves any custom software as a Deliverable, then during the warranty period, the Contractor must correct any material programming errors that are attributable to the Contractor within a reasonable time, provided the State notifies the Contractor, either orally or in writing, of a problem with the software and provides sufficient information to identify the problem. The Contractor's response to a programming error will depend upon the severity of the problem. In the case of programming errors that slow the processing of data by a small degree, render minor and non-critical functions of the System inoperable or unstable, or require users or administrations to employ workarounds to fully use the software, the Contractor must respond to requests for resolution within four business hours and begin working on a proper solution within one business day, dedicating the resources of one qualified programmer full-time to fixing the problem. In the case of any defects with more significant consequences, including those that render key functions of the software inoperable or significantly slow data processing, the Contractor must respond within two business hours of notification and, if requested, provide on-site assistance and dedicate all available resources to resolving the problem.

For Commercial Software other than PC or PC-based server software costing less than \$10,000.00 per copy or license, the Contractor must provide maintenance during the warranty period at no cost to the State. At a minimum, that maintenance must be the standard maintenance program that the licensor, whether the Contractor or a third party, normally provides to its client base. That maintenance program must include all new releases, updates, patches, and fixes to the Commercial Software. It also must include a commitment to keep the software current with the operating environment in which it is designed to function and a commitment to promptly correct all material defects in the software.

Additionally, the Contractor will make (or obtain a commitment from the third-party licensor to make) maintenance available for the software for at least five years after the warranty period. The Contractor will limit or obtain a

commitment from the third-party licensor, if applicable, to limit increases in the annual fee for maintenance to no more than five percent annually. If the licensor, whether it is the Contractor or a third-party, is unable to provide maintenance during that period, then the licensor must do one of the following things: (a) give the State a *pro rata* refund of the license fee based on a five-year useful life; or (b) release the source code for the software to the State for use by the State solely for the purpose of maintaining any copies of the software for which the State has a proper license. The State will treat the source code as Confidential Information under the Confidentiality Section of this Contract. In the case of third-party Commercial Software, the Contractor warrants that it has legally bound the third-party licensor to the obligations of this Contract or that the Contractor has the right to make these commitments directly to the State.

For Commercial Software designed for PC or PC-based server platforms and costing less than \$10,000.00 per copy or license, the Contractor must provide the same maintenance and user assistance during the warranty period at no additional cost to the State as the Contractor or the third-party licensor makes generally available at no additional charge to its other customers.

8.2 SOFTWARE UPGRADES. After an initial acquisition of a license in Commercial Software, the State may want to acquire a broader license than the original. Or the State may later want to migrate to another platform for the Commercial Software. When the Contractor or third-party licensor makes the broader license generally available to its customer base or makes the version of the Commercial Software that runs on the new platform to which the State wants to migrate, then the State will have a right to upgrade any of its licenses to that broader license or to acquire the version of the Software that is appropriate for the new platform that the State intends to use. In these cases, the Contractor will provide the broader license or other version of the Commercial Software in exchange for a license fee that is based on the lesser of the following:

- (a) The Contractor's (or third party licensor's) standard upgrade or migration fee;
- (b) The upgrade or migration fee in Exhibit I; or
- (c) The difference between the license fee originally paid and the then-current license fee for the license or version of the Commercial Software that the State seeks to acquire.

The foregoing will not apply to Commercial Software for PCs and PC-based server software with a license fee of less than \$10,000.00, unless the Contractor or third-party licensor makes upgrade packages available for the Commercial Software to other customers. If PC or PC-based server software upgrades are available, the State will be entitled to the most favorable license fee on which such are made available to other most favored customers or dealers, as appropriate.

8.3 EQUIPMENT MAINTENANCE. If this Contract involves computer or telecommunications hardware or other mechanical or electrical equipment ("Equipment") as a Deliverable, then, during the warranty period and during any period covered by annual maintenance, the Contractor must provide maintenance to keep the Equipment in or restore the Equipment to good working order. This maintenance must include preventative and remedial maintenance, installation of safety changes, and installation of engineering changes based upon the specific needs of the individual item of Equipment. This maintenance also must include the repair, replacement, or exchange deemed necessary to keep the Equipment in good working order. For purposes of this Contract, Equipment restored to good working order means Equipment that performs in accordance with the manufacturer's published specifications. The Contractor must use its best efforts to perform all fault isolation and problem determination attributed to the Equipment. The following services are outside the scope of this Contract:

- (a) Maintenance to bring the Equipment into compliance with any law, rule, or regulation, if such law, rule, or regulation was not in effect on the acceptance date;
- (b) Repair and replacement work or increase in maintenance time as a result of damage or loss resulting from accident, casualty, neglect, misuse, or abuse, if such is the State's fault (and beyond normal wear and tear), damage resulting from improper packing or failure to follow prescribed shipping instruction (If such is done by the State), failure of electrical power, air conditioning or humidity control, use of supplies not approved by the original manufacturer of the Equipment as describe in the Equipment's documentation, or causes other than ordinary use of Equipment;
- (c) Furnishing platens, supplies, or accessories, making specification changes, or adding or removing approved accessories, attachments, or other devices except as permitted in the Equipment's user documentation;
- (d) Maintenance or increased maintenance time resulting from any improper use, maintenance, or connection to other equipment (not done by the Contractor) that results in damage to the Equipment;
- (e) Repairs needed to restore the Equipment to good operating condition if the Equipment has been damaged by anyone other than the Contractor's authorized service personnel repairing, modifying, or performing maintenance on the Equipment.

8.4 EQUIPMENT MAINTENANCE STANDARDS. Except in the case of excusable delay, remedial Equipment maintenance by the Contractor will be completed within eight business hours after notification by the State that maintenance is required. In the case of preventative maintenance, the Contractor will perform such in accordance with the manufacturer's published schedule and specifications. If maintenance is not completed within eight hours after notification by the State, the Contractor will be in default. Failure of the Contractor to meet or maintain these

requirements will provide the State with the same rights and remedies as specified elsewhere in this Contract for default, except that the Contractor will only have eight hours to remedy a default. The Contractor will provide adequate staff to provide the maintenance required by this Contract.

8.5 EQUIPMENT MAINTENANCE CONTINUITY. If the Contractor is unable to provide Equipment maintenance to meet the State's ongoing performance requirements and if, in the State's sole opinion, the Contractor is unlikely to resume providing warranty services that meets the State's ongoing performance requirement, the Contractor will be in default, and the State will be entitled to the remedies in the default section of this Contract. The State will also be entitled to the following items from the Contractor:

- (a) All information necessary for the State to perform the maintenance, including but not limited to logic diagrams, maintenance manuals, and system and unit schematics, with all changes noted;
- (b) A listing of suppliers capable of supplying necessary spare parts;
- (c) Adequate information to permit the State to have spare parts manufactured elsewhere; and
- (d) A listing of spare parts and their recommended replacement schedule to enable the State to create a centralized inventory of spare parts.

The State will treat as Confidential Information in accordance with the Confidentiality Section of this Contract any information in items (a) through (d) above that the Contractor rightfully identifies in writing as confidential. And when disclosure to a third-party is necessary for the State to continue the maintenance, the State will require any third-party to whom disclosure is made to agree to hold the Confidential Information in confidence and to make no further disclosure of it. Further, the State agrees that any such Confidential Information will be used solely to perform maintenance for the State and will be returned to the Contractor or destroyed when such use is no longer needed.

8.6 PRINCIPAL PERIOD OF MAINTENANCE (GENERAL). Software and Equipment maintenance must be available nine working hours per weekday, between 8:00 a.m. and 5:00 p.m. Eastern Standard Time. Travel time and expenses related to remedial and preventative maintenance will not be billable and must be included in the price of the maintenance.

8.7 MAINTENANCE ACCESS (GENERAL). For all Software and Equipment maintenance under this Contract, the State will provide the Contractor with reasonable access to the Deliverable to perform maintenance. All maintenance that requires a Deliverable to be inoperable must be performed outside the State's customary working hours, except when the Deliverable is already inoperable. Preventative or scheduled maintenance must be performed at mutually agreeable times, within the parameters of the manufacturer's published schedule.

9 - ASSIGNMENT AND SUBCONTRACTING

9.1 ASSIGNMENT. The Contractor may not assign this Contract without the written consent of the State, which the State will not be obligated to provide.

9.2 SUBCONTRACTING. The State recognizes that it may be necessary for the Contractor to use subcontractors to perform portions of the work under this Contract. In those circumstances, before the Contractor engages any such subcontractor, the Contractor must submit a list identifying its subcontractors or joint venture partners performing portions of the work under the Contract. If any changes to that list occur during the term of the Contract, the Contractor must immediately provide the State an updated list of subcontractors or joint venture business partners. In addition, all subcontractors and joint venture business partners must agree in writing to be bound by all of the terms and conditions of this Contract and any specifications of any order under this Contract for which they perform work. The State may reject any subcontractor submitted by the Contractor.

10 – CONSTRUCTION

10.1 HEADINGS. The headings used in this Contract are for convenience only and may not be used in interpreting this Contract.

10.2 ENTIRE DOCUMENT. This Contract, which includes the Contractor's pricelist attached as Exhibit I and all documents referred to in this Contract, constitutes the entire agreement between the parties with respect to the subject matter and supersedes any previous agreements, whether oral or written.

10.3 BINDING EFFECT. This Contract will be binding on and benefit the respective successors and assigns of the State and the Contractor.

10.4 AMENDMENTS – WAIVER. No amendment or modification of this Contract will be effective unless it is in writing and signed by both parties. The failure of either party at any time to demand strict performance by the other party of any of the terms or conditions of this Contract may not be construed as a waiver of any those terms or conditions, and either party may at any time demand strict and complete performance by the other party.

- 10.5 **SEVERABILITY.** If a court of competent jurisdiction finds any provision of this Contract to be unenforceable, the remaining provisions of this Contract will remain in full force and affect.
- 10.6 **CONSTRUCTION.** This Contract must be construed in accordance with the plain meaning of its language and neither for nor against the drafting party.
- 10.7 **NOTICES.** For any notice under this Contract to be effective, the noticing party must make it in writing and sent it to the address of the other party first appearing above, unless that party has notified the other party, in writing and in accordance with the provisions of this section, of a new mailing address for the receipt of notices. This notice requirement will not apply to any notices that this Contract expressly authorizes to be made orally.
- 10.8 **CONTINUING OBLIGATIONS.** Any terms, conditions, representations, or warranties contained in this Contract that must survive termination or expiration of this Contract to be fully effective will survive the termination or expiration of the Contract. Additionally, termination or expiration of this Contract will not affect the State's right to continue to use any Deliverable for which it has paid, including licensed material. And no termination or expiration of the Contract will affect the State's right to receive maintenance, warranty work, or other services for which the State has paid.
- 10.9 **PRIORITY.** If there is any inconsistency or conflict between this document and any provision of anything incorporated by reference, this document will prevail.
- 10.10 **DAYS.** When this Contract refers to days, it means calendar days, unless it expressly provides otherwise.

11 - LAW AND COURTS

- 11.1 **EQUAL EMPLOYMENT OPPORTUNITY.** The Contractor will comply with all state and federal laws regarding equal employment opportunity and fair labor and employment practices, including Ohio Revised Code Section 125.111 and all related Executive Orders.

Before a contract can be awarded or renewed, an Affirmative Action Program Verification Form must be submitted to the Department of Administrative Services Equal Opportunity Division to comply with the affirmative action requirements. Affirmative Action Verification Forms and approved Affirmative Action Plans can be found by going to the Ohio Business Gateway at: <http://business.ohio.gov/efiling/>

- 11.2 **DRUG FREE WORKPLACE.** The Contractor must comply with all Ohio laws regarding maintaining a drug-free workplace and make a good faith effort to ensure that all its employees do not possess and are not under influence of illegal drugs or alcohol or abuse prescription drugs while working on State property.
- 11.3 **OHIO ETHICS LAW AND LIMITS ON POLITICAL CONTRIBUTIONS.** The Contractor certifies that it is currently in compliance and will continue to adhere to the requirements of the Ohio ethics laws. The Contractor hereby certifies that all applicable parties listed in Ohio Revised Code Section 3517.13 are in full compliance with Ohio Revised Code Section 3517.13.
- 11.4 **SECURITY & SAFETY RULES.** When using or possessing State data or accessing State networks and systems, the Contractor must comply with all applicable State rules, policies, and regulations regarding data security and integrity. And when on any property owned or controlled by the State, the Contractor must comply with all security and safety rules, regulations, and policies applicable to people on those premises.
- 11.5 **LAW AND VENUE.** This Contract is governed by and will be construed under Ohio law, and venue for all disputes will lie exclusively with the appropriate court in Franklin County, Ohio.
- 11.6 **UNRESOLVED FINDINGS.** The Contractor represents that it is not subject to an unresolved finding for recovery under Code § 9.24. If this warranty proves false when the parties sign this Contract, the Contract will be void. Additionally, if this representation proves false on the date of any renewal or extension of the Contract, the renewal or extension will be void.
- 11.7 **ANTITRUST.** The State and the Contractor recognize that, in actual economic practice, overcharges resulting from antitrust violations are usually borne by the State. The Contractor therefore assigns to the State all state and federal antitrust claims and causes of action that the Contractor has or acquires relating to the goods and services acquired under this Contract.
- 11.8 **Governing the Expenditure of Public Funds on Offshore Services (EO 2011-12K).** The Contractor affirms to have read and understands Executive Order 2011-12K and shall abide by those requirements in the performance

of this Contract. Notwithstanding any other terms of this Contract, the State reserves the right to recover any funds paid for services the Contractor performs outside of the United States for which it did not receive a waiver. The State does not waive any other rights and remedies provided the State in this Contract.

The Contractor agrees to complete the attached Executive Order 2011-12K Affirmation and Disclosure Form which is incorporated and becomes a part of this Agreement.

- 11.9 **REGISTRATION WITH THE SECRETARY OF STATE.** By providing a Charter Number and signature within the Certification Offer Letter, the Contractor attests that the Contractor is:

An Ohio corporation that is properly registered with the Ohio Secretary of State; or

A foreign corporation, not incorporated under the laws of the state of Ohio, but is registered with the Ohio Secretary of State pursuant to Ohio Revised Code Sections 1703.01 to 1703.31, as applicable.

Any foreign corporation required to be licensed under O.R.C. § 1703.01-1703.31, which transacts business in the state of Ohio, without being so licensed, or when its license has expired or been canceled, shall forfeit not less than \$250.00 nor more than ten thousand dollars. No officer of a foreign corporation (<http://codes.ohio.gov/orc/1703.01>) shall transact business in the state of Ohio, if such corporation is required by O.R.C. § 1703.01-1803.31 to procure and maintain a license, but has not done so. Whoever violates this is guilty of a misdemeanor of the fourth degree. Questions regarding registration should be directed to (614) 466-3910, or visit <http://www.sos.state.oh.us>

To **SHOW THEIR AGREEMENT**, the parties have executed this Contract on the date(s) identified below, and this Contract will be effective as of the date it is signed on behalf of the State.

StorageTek SL150 modular tape library: base unit with 30 slots and 1 LTO5 half-height 6 Gb SAS tape drive	Oracle	7101760 O-H-7101760	Hardware	\$4,433.08	\$5,833.00
StorageTek SL150 modular tape library: base unit with 30 slots and 1 LTO5 half-height 8 Gb FC tape drive	Oracle	7101750 O-H-7101750	Hardware	\$4,617.00	\$6,075.00
StorageTek SL150 modular tape library: expansion module with 30 slots	Oracle	7101770 O-H-7101770	Hardware	\$735.68	\$968.00
StorageTek SL150 modular tape library: expansion module with 30 slots (for factory installation)	Oracle	7101763 O-H-7101763	Hardware	\$602.68	\$793.00
StorageTek SL150 modular tape library: power supply	Oracle	7101771 O-H-7101771	Hardware	\$202.92	\$267.00
StorageTek SL150 modular tape library: power supply (for factory installation)	Oracle	7101769 O-H-7101769	Hardware	\$169.48	\$223.00
StorageTek SL24 tape autoloader and StorageTek SL48 tape library: external mini SAS to mini SAS fan-out cable	Oracle	XSL24-48-SAS-CBL-N H-XSL24-48-SAS-CBL	Hardware	\$190.00	\$250.00
StorageTek SL24 tape autoloader and StorageTek SL48 tape library: left hand magazine, 1 mail slot	Oracle	XSLX-LHMAG-1MS-Z-N H-XSLX-LHMAG-1MS-	Hardware	\$266.00	\$350.00
StorageTek SL24 tape autoloader and StorageTek SL48 tape library: right hand magazine	Oracle	XSLX-RH-MAG-Z-N H-XSLX-RH-MAG-Z-	Hardware	\$228.00	\$300.00
StorageTek SL3000	Oracle	7104452 O-H-7104452	Hardware	\$14,172.48	\$18,648.00
StorageTek SL3000 modular library system: activation permit for 1,000 cartridge slots	Oracle	SL3000K-1000SLOT H-SL3000K-1000SLC	Hardware	\$52,259.88	\$68,763.00
StorageTek SL3000 modular library system: activation permit for 1,000 cartridge slots, for after original system i	Oracle	XSL3000-1000SLOT-F H-XSL3000-1000SLO	Hardware	\$52,259.88	\$68,763.00
StorageTek SL3000 modular library system: activation permit for 100 cartridge slots	Oracle	SL3000K-100-SLOT H-SL3000K-100-SLC	Hardware	\$6,659.88	\$8,763.00
StorageTek SL3000 modular library system: activation permit for 100 cartridge slots, for after original system in	Oracle	XSL3000-100-SLOT-F H-XSL3000-100-SLO	Hardware	\$6,659.88	\$8,763.00
StorageTek SL3000 modular library system: activation permit for 200 cartridge slots	Oracle	SL3000K-200-SLOT H-SL3000K-200-SLC	Hardware	\$11,987.48	\$15,773.00
StorageTek SL3000 modular library system: activation permit for 200 cartridge slots, for after original system in	Oracle	XSL3000-200-SLOT-F H-XSL3000-200-SLO	Hardware	\$11,987.48	\$15,773.00
StorageTek SL3000 modular library system: activation permit for 25 cartridge slots	Oracle	SL3000-25SLOT O-H-SL3000-25SLOT	Hardware	\$1,900.00	\$2,500.00
StorageTek SL3000 modular library system: activation permit for 25 cartridge slots, for after original system insi	Oracle	XSL3000-25-SLOT-F H-XSL3000-25-SLOT	Hardware	\$1,900.00	\$2,500.00
StorageTek SL3000 modular library system: activation permit for 500 cartridge slots	Oracle	SL3000K-500-SLOT H-SL3000K-500-SLC	Hardware	\$27,422.32	\$36,082.00
StorageTek SL3000 modular library system: activation permit for 500 cartridge slots, for after original system in	Oracle	XSL3000-500-SLOT-F H-XSL3000-500-SLO	Hardware	\$27,422.32	\$36,082.00
StorageTek SL3000 modular library system: activation permit for 700 cartridge slots	Oracle	SL3000K-700-SLOT H-SL3000K-700-SLC	Hardware	\$33,630.00	\$44,250.00
StorageTek SL3000 modular library system: activation permit for dual FC port	Oracle	SL3000K-2FCPORT H-H-SL3000K-2FCPOR	Hardware	\$2,660.00	\$3,500.00
StorageTek SL3000 modular library system: activation permit for dual FC port, for after original system installati	Oracle	XSL3000-2FCPORT-F H-XSL3000-2FCPOR	Hardware	\$2,660.00	\$3,500.00
StorageTek SL3000 modular library system: activation permit for redundant TCP/IP host interface	Oracle	SL3000-2TCPPIP O-H-SL3000-2TCPPIP	Hardware	\$3,917.80	\$5,155.00
StorageTek SL3000 modular library system: activation permit for redundant TCP/IP host interface, for after orig	Oracle	XSL3000-2TCPPIP-F H-H-SL3000-2TCPPIP	Hardware	\$3,917.80	\$5,155.00
StorageTek SL3000 modular library system: base module with 1 drive array with 8 slots, no activated cartridge s	Oracle	SL3000-BASE-Z O-H-SL3000-BASE-Z	Hardware	\$39,684.92	\$52,217.00
StorageTek SL3000 modular library system: cartridge expansion module with 438-620 physical slots. Separately	Oracle	XSL3000-CEM-Z-N H-H-XSL3000-CEM-Z-I	Hardware	\$7,051.28	\$9,278.00
StorageTek SL3000 modular library system: drive expansion module with 1 drive array with 8 slots, 200 activate	Oracle	XSL3000-DEM200-F H-XSL3000-DEM200	Hardware	\$16,218.40	\$21,340.00
StorageTek SL3000 modular library system: drive expansion module with 1 drive array with 8 slots, 200 activate	Oracle	SL3000K-DEM200-Z H-SL3000K-DEM200	Hardware	\$16,218.40	\$21,340.00
StorageTek SL3000 modular library system: dual FC control card	Oracle	XSL3000K-2FCCARD H-H-XSL3000K-2FCCAF	Hardware	\$2,204.00	\$2,900.00
StorageTek SL3000 modular library system: left access expansion module	Oracle	XSL3000-AEM-LFT-N H-XSL3000-AEM-LFT	Hardware	\$19,000.00	\$25,000.00

Collier IT Pricelist

StorageTek SL3000 modular library system: redundant electronics (for onsite assembly)	Oracle	SL3000-REDELECT-Z -H-SL3000-REDELECT-	Hardware	\$20,520.00	\$27,000.00
StorageTek SL3000 modular library system: right access expansion module	Oracle	XSL3000-AEM-RT-Z-N +XSL3000-AEM-RT-;	Hardware	\$19,000.00	\$25,000.00
StorageTek SL3000 modular library system: window cartridge arrays for base module and DEM only, increases	Oracle	XSL3000-W-ARRAY-N-H-XSL3000-W-ARRA)	Hardware	\$783.56	\$1,031.00
StorageTek SL3000 Partitioning - Integrated Software Option - per Tape Library Metric	Oracle	SL3000K-PART O-H-SL3000K-PART	Hardware	\$6,267.72	\$8,247.00
StorageTek SL3000 Partitioning - Integrated Software Option - per Tape Library Metric, for after original system	Oracle	XSL3000-PART-F O-H-XSL3000-PART-F	Hardware	\$6,267.72	\$8,247.00

Oracle Communications ENUM Database - Individual Subscriber Perpetual	Oracle	L85364	O-S-L85364	Communications	Per Quotation	\$0	INDIVIDUAL SUBSCRIBER
Oracle Communications ENUM Database - TUPS Per Domain Perpetual	Oracle	L85363	O-S-L85363	Communications	Per Quotation	\$180	TUPS PER DOMAIN
Oracle Communications Express Delivery Routing - \$M Revenue Under Management Perpetua	Oracle	L85286	O-S-L85286	Communications	Per Quotation	\$3,000	\$M REVENUE UNDER MGT
Oracle Communications Express Delivery Routing - Individual Subscriber Perpetua	Oracle	L85285	O-S-L85285	Communications	Per Quotation	\$1	INDIVIDUAL SUBSCRIBER
Oracle Communications Express Delivery Routing - TUPS Per Domain Perpetua	Oracle	L85284	O-S-L85284	Communications	Per Quotation	\$900	TUPS PER DOMAIN
Oracle Communications for HP Opencall Manager - Individual Subscriber Perpetual	Oracle	L27572	O-S-L27572	Communications	Per Quotation	\$0	PER INDIVIDUAL SUBSCRIBER
Oracle Communications Geographic Address Management - 1K in Managed Resources Perpetua	Oracle	L51341	O-S-L51341	Communications	Per Quotation	\$350	1K IN MANAGED RESOURCES
Oracle Communications Geographic Address Management - Per Individual Subscriber Perpetua	Oracle	L74501	O-S-L74501	Communications	Per Quotation	\$0	PER INDIVIDUAL SUBSCRIBER
Oracle Communications GPRS Manager - \$M Revenue Under Management Perpetual	Oracle	L96051	O-S-L96051	Communications	Per Quotation	\$181	\$M REVENUE UNDER MGT
Oracle Communications GPRS Manager - Individual Subscriber Perpetual	Oracle	L27548	O-S-L27548	Communications	Per Quotation	\$0	PER INDIVIDUAL SUBSCRIBER
Oracle Communications GSM Manager - \$M Revenue Under Management Perpetual	Oracle	L96057	O-S-L96057	Communications	Per Quotation	\$619	\$M REVENUE UNDER MGT
Oracle Communications GSM Manager - Individual Subscriber Perpetual	Oracle	L27564	O-S-L27564	Communications	Per Quotation	\$1	PER INDIVIDUAL SUBSCRIBER

Oracle Communications Home Routing Gateway - \$M Revenue Under Management Perpetual	Oracle	L85298	O-S-L85298	Communications	Per Quotation	\$3,333	\$M REVENUE UNDER MGT
Oracle Communications Home Routing Gateway - Individual Subscriber Perpetual	Oracle	L85297	O-S-L85297	Communications	Per Quotation	\$1	INDIVIDUAL SUBSCRIBER
Oracle Communications Home Routing Gateway - TUPS Per Domain Perpetual	Oracle	L85296	O-S-L85296	Communications	Per Quotation	\$1,000	TUPS PER DOMAIN
Oracle Communications IMSI Masking - Customer Perpetual	Oracle	L85331	O-S-L85331	Communications	Per Quotation	\$100,000	CUSTOMER
Oracle Communications Instant Messaging Server - Application User Perpetual	Oracle	L88156	O-S-L88156	Communications	Per Quotation	\$30	APPLICATION
Oracle Communications Instant Messaging Server - Individual Subscriber Perpetual	Oracle	L83661	O-S-L83661	Communications	Per Quotation	\$3	PER INDIVIDUAL SUBSCRIBER
Oracle Communications Interconnect Manager - \$M Revenue Under Management Perpetual	Oracle	L96063	O-S-L96063	Communications	Per Quotation	\$427	\$M REVENUE UNDER MGT
Oracle Communications Interconnect Manager - Individual Subscriber Perpetual	Oracle	L27580	O-S-L27580	Communications	Per Quotation	\$0	PER INDIVIDUAL SUBSCRIBER
Oracle Communications Internet Name and Address Management - 1K in Managed Resources Perpetual	Oracle	L51451	O-S-L51451	Communications	Per Quotation	\$1,500	1K IN MANAGED RESOURCES
Oracle Communications IP Device Manager - \$M Revenue Under Management Perpetual	Oracle	L96069	O-S-L96069	Communications	Per Quotation	\$181	\$M REVENUE UNDER MGT
Oracle Communications IP Device Manager - Individual Subscriber Perpetual	Oracle	L27588	O-S-L27588	Communications	Per Quotation	\$0	PER INDIVIDUAL SUBSCRIBER
Oracle Communications IP Service Activator - Customer Edge - \$M Revenue under Management Perpetua	Oracle	L88459	O-S-L88459	Communications	Per Quotation	\$700	\$M REVENUE UNDER MGT
Oracle Communications IP Service Activator - Customer Edge - Service Access Point Perpetual	Oracle	L54520	O-S-L54520	Communications	Per Quotation	\$120	SERVICE ACCESS POINT
Oracle Communications IP Service Activator - Provider Edge - \$M Revenue under Management Perpetual	Oracle	L88458	O-S-L88458	Communications	Per Quotation	\$1,300	\$M REVENUE UNDER MGT
Oracle Communications IP Service Activator - Provider Edge - Service Access Point Perpetual	Oracle	L39732	O-S-L39732	Communications	Per Quotation	\$230	SERVICE ACCESS POINT
Oracle Communications IP Service Activator Base Cartridge for Cisco IOS XR - Customer Perpetual	Oracle	L87865	O-S-L87865	Communications	Per Quotation	\$60,000	CUSTOMER
Oracle Communications IP Service Activator Base Cartridge for Juniper JUNOS - Customer Perpetual	Oracle	L87905	O-S-L87905	Communications	Per Quotation	\$60,000	CUSTOMER
Oracle Communications IP Service Activator Cartridge for Brocade Ironware L3 VPN - Customer Perpetual	Oracle	L40172	O-S-L40172	Communications	Per Quotation	\$150,000	CUSTOMER
Oracle Communications IP Service Activator Cartridge for Brocade Ironware QoS - Customer Perpetual	Oracle	L40181	O-S-L40181	Communications	Per Quotation	\$105,000	CUSTOMER
Oracle Communications IP Service Activator Cartridge for Brocade Ironware VLAN - Customer Perpetual	Oracle	L40184	O-S-L40184	Communications	Per Quotation	\$60,000	CUSTOMER
Oracle Communications IP Service Activator Cartridge for Brocade Ironware VLL - Customer Perpetual	Oracle	L40175	O-S-L40175	Communications	Per Quotation	\$60,000	CUSTOMER
Oracle Communications IP Service Activator Cartridge for Brocade Ironware VPLS - Customer Perpetual	Oracle	L40178	O-S-L40178	Communications	Per Quotation	\$105,000	CUSTOMER
Oracle Communications IP Service Activator Cartridge for Cisco CatOS QoS - Customer Perpetual	Oracle	L51974	O-S-L51974	Communications	Per Quotation	\$70,000	CUSTOMER
Oracle Communications IP Service Activator Cartridge for Cisco CatOS VLAN - Customer Perpetual	Oracle	L51982	O-S-L51982	Communications	Per Quotation	\$70,000	CUSTOMER
Oracle Communications IP Service Activator Cartridge for Cisco IOS Interface Configuration Management - Custc	Oracle	L40118	O-S-L40118	Communications	Per Quotation	\$105,000	CUSTOMER
Oracle Communications IP Service Activator Cartridge for Cisco IOS IP Multicast - Customer Perpetual	Oracle	L40124	O-S-L40124	Communications	Per Quotation	\$70,000	CUSTOMER
Oracle Communications IP Service Activator Cartridge for Cisco IOS IPsec - Customer Perpetual	Oracle	L40130	O-S-L40130	Communications	Per Quotation	\$70,000	CUSTOMER
Oracle Communications IP Service Activator Cartridge for Cisco IOS L3 VPN - Customer Perpetual	Oracle	L40103	O-S-L40103	Communications	Per Quotation	\$140,000	CUSTOMER
Oracle Communications IP Service Activator Cartridge for Cisco IOS MPLS-TE LSP - Customer Perpetual	Oracle	L71836	O-S-L71836	Communications	Per Quotation	\$105,000	CUSTOMER
Oracle Communications IP Service Activator Cartridge for Cisco IOS Multicast VPN - Customer Perpetual	Oracle	L40121	O-S-L40121	Communications	Per Quotation	\$70,000	CUSTOMER
Oracle Communications IP Service Activator Cartridge for Cisco IOS PWE - Customer Perpetual	Oracle	L71828	O-S-L71828	Communications	Per Quotation	\$70,000	CUSTOMER
Oracle Communications IP Service Activator Cartridge for Cisco IOS QoS - Customer Perpetual	Oracle	L40106	O-S-L40106	Communications	Per Quotation	\$140,000	CUSTOMER
Oracle Communications IP Service Activator Cartridge for Cisco IOS VLAN - Customer Perpetual	Oracle	L51990	O-S-L51990	Communications	Per Quotation	\$70,000	CUSTOMER
Oracle Communications IP Service Activator Cartridge for Cisco IOS XR Interface Configuration Management - Ct	Oracle	L98227	O-S-L98227	Communications	Per Quotation	\$105,000	CUSTOMER
Oracle Communications IP Service Activator Cartridge for Cisco IOS XR L3 VPN - Customer Perpetual	Oracle	L90392	O-S-L90392	Communications	Per Quotation	\$150,000	CUSTOMER
Oracle Communications IP Service Activator Cartridge for Cisco IOS XR MPLS LSP - Customer Perpetual	Oracle	L87897	O-S-L87897	Communications	Per Quotation	\$105,000	CUSTOMER
Oracle Communications IP Service Activator Cartridge for Cisco IOS XR QoS - Customer Perpetual	Oracle	L87873	O-S-L87873	Communications	Per Quotation	\$150,000	CUSTOMER
Oracle Communications IP Service Activator Cartridge for Huawei VRP IPsec VPN - Customer Perpetual	Oracle	L40154	O-S-L40154	Communications	Per Quotation	\$60,000	CUSTOMER
Oracle Communications IP Service Activator Cartridge for Huawei VRP L3 VPN - Customer Perpetual	Oracle	L40133	O-S-L40133	Communications	Per Quotation	\$140,000	CUSTOMER
Oracle Communications IP Service Activator Cartridge for Huawei VRP MPLS LSP - Customer Perpetual	Oracle	L40148	O-S-L40148	Communications	Per Quotation	\$105,000	CUSTOMER
Oracle Communications IP Service Activator Cartridge for Huawei VRP PWE - Customer Perpetual	Oracle	L40136	O-S-L40136	Communications	Per Quotation	\$70,000	CUSTOMER
Oracle Communications IP Service Activator Cartridge for Huawei VRP QoS - Customer Perpetual	Oracle	L40139	O-S-L40139	Communications	Per Quotation	\$150,000	CUSTOMER
Oracle Communications IP Service Activator Cartridge for Juniper JUNOS Interface Configuration Management -	Oracle	L98235	O-S-L98235	Communications	Per Quotation	\$60,000	CUSTOMER
Oracle Communications IP Service Activator Cartridge for Juniper JUNOS L3 VPN - Customer Perpetual	Oracle	L40088	O-S-L40088	Communications	Per Quotation	\$150,000	CUSTOMER
Oracle Communications IP Service Activator Module - Cartridge Software Development Kit - Application User Pe	Oracle	L71103	O-S-L71103	Communications	Per Quotation	\$17,500	APPLICATION USER
Oracle Communications IP Service Activator Module - Configuration Template Module - Customer Perpetua	Oracle	L40238	O-S-L40238	Communications	Per Quotation	\$105,000	CUSTOMER
Oracle Communications IP Service Activator Module - Generic Exporter - Customer Perpetual	Oracle	L40244	O-S-L40244	Communications	Per Quotation	\$57,500	CUSTOMER
Oracle Communications IP Service Activator Module - InfoVista Integration - Customer Perpetual	Oracle	L40250	O-S-L40250	Communications	Per Quotation	\$70,000	CUSTOMER
Oracle Communications IP Service Activator Module - Interface Configuration Management - Customer Perpetu	Oracle	L40211	O-S-L40211	Communications	Per Quotation	\$87,500	CUSTOMER
Oracle Communications IP Service Activator Module - IP Multicast - Customer Perpetual	Oracle	L40229	O-S-L40229	Communications	Per Quotation	\$57,500	CUSTOMER
Oracle Communications IP Service Activator Module - IPsec VPN - Customer Perpetual	Oracle	L40223	O-S-L40223	Communications	Per Quotation	\$87,500	CUSTOMER
Oracle Communications IP Service Activator Module - L2 MPLS Martini VPN - Customer Perpetual	Oracle	L40196	O-S-L40196	Communications	Per Quotation	\$87,500	CUSTOMER
Oracle Communications IP Service Activator Module - L3 MPLS VPN - Customer Perpetual	Oracle	L40187	O-S-L40187	Communications	Per Quotation	\$87,500	CUSTOMER
Oracle Communications IP Service Activator Module - Metro Ethernet VLAN - Customer Perpetual	Oracle	L40199	O-S-L40199	Communications	Per Quotation	\$87,500	CUSTOMER
Oracle Communications IP Service Activator Module - Micromuse Netcool Omnibus - Customer Perpetua	Oracle	L40247	O-S-L40247	Communications	Per Quotation	\$70,000	CUSTOMER
Oracle Communications IP Service Activator Module - MPLS-TE LSP - Customer Perpetual	Oracle	L40205	O-S-L40205	Communications	Per Quotation	\$87,500	CUSTOMER
Oracle Communications IP Service Activator Module - QoS - Customer Perpetual	Oracle	L40190	O-S-L40190	Communications	Per Quotation	\$87,500	CUSTOMER
Oracle Communications IP Service Activator Module - VPLS - Customer Perpetual	Oracle	L40202	O-S-L40202	Communications	Per Quotation	\$87,500	CUSTOMER
Oracle Communications IP Service Activator Module - VPN Multicast - Customer Perpetual	Oracle	L40226	O-S-L40226	Communications	Per Quotation	\$57,500	CUSTOMER
Oracle Communications IP Service Activator Module - VRF Lite - Customer Perpetual	Oracle	L40208	O-S-L40208	Communications	Per Quotation	\$57,500	CUSTOMER
Oracle Communications LDAP Manager - \$M Revenue Under Management Perpetual	Oracle	L96075	O-S-L96075	Communications	Per Quotation	\$181	\$M REVENUE UNDER MGT
Oracle Communications LDAP Manager - 1M in Monthly Roaming CDR's Perpetua	Oracle	L47784	O-S-L47784	Communications	Per Quotation	\$210	PER 1M IN MONTHLY ROAMING CD
Oracle Communications LDAP Manager - Individual Subscriber Perpetual	Oracle	L27596	O-S-L27596	Communications	Per Quotation	\$0	PER INDIVIDUAL SUBSCRIBER

Oracle Communications Logical Device Account Management - 1K in Managed Resources Perpetua	Oracle	L51405	O-S-L51405	Communications	Per Quotation	\$200	1K IN MANAGED RESOURCES
Oracle Communications Logical Device Account Management - Per Individual Subscriber Perpetua	Oracle	L74504	O-S-L74504	Communications	Per Quotation	\$0	PER INDIVIDUAL SUBSCRIBER

Oracle Communications MetaSolv Solution Technology Module - ATM/FR Technology Module - Customer Perpetua	Oracle	L40366	O-S-L40366	Communications	Per Quotation	\$57,500	CUSTOMER
Oracle Communications MetaSolv Solution Technology Module - DLC Technology Module - Customer Perpetua	Oracle	L40363	O-S-L40363	Communications	Per Quotation	\$57,500	CUSTOMER
Oracle Communications MetaSolv Solution Technology Module - DSL Technology Module - Customer Perpetua	Oracle	L40369	O-S-L40369	Communications	Per Quotation	\$57,500	CUSTOMER
Oracle Communications MetaSolv Solution Technology Module - Ethernet Technology Module - Customer Perpetua	Oracle	L40378	O-S-L40378	Communications	Per Quotation	\$57,500	CUSTOMER
Oracle Communications MetaSolv Solution Technology Module - Fiber-based Broadband Delivery Technology Module - Customer Perpetua	Oracle	L49436	O-S-L49436	Communications	Per Quotation	\$87,500	CUSTOMER
Oracle Communications MetaSolv Solution Technology Module - IP Technology Module - Customer Perpetua	Oracle	L40372	O-S-L40372	Communications	Per Quotation	\$57,500	CUSTOMER
Oracle Communications MetaSolv Solution Technology Module - MPLS Technology Module - Customer Perpetua	Oracle	L40375	O-S-L40375	Communications	Per Quotation	\$57,500	CUSTOMER
Oracle Communications MetaSolv Solution Technology Module - Optical/TDM Technology Module - Customer Perpetua	Oracle	L40381	O-S-L40381	Communications	Per Quotation	\$57,500	CUSTOMER
Oracle Communications MetaSolv Solution Technology Module - SONET/SDH Technology Module - Customer Perpetua	Oracle	L40384	O-S-L40384	Communications	Per Quotation	\$57,500	CUSTOMER
Oracle Communications MetaSolv Solution Technology Module - Wireless Technology Module - Customer Perpetua	Oracle	L40387	O-S-L40387	Communications	Per Quotation	\$57,500	CUSTOMER
Oracle Communications MetaSolv Solution Utility - Location and Routing Gateway - Customer Perpetual	Oracle	L40405	O-S-L40405	Communications	Per Quotation	\$22,500	CUSTOMER
Oracle Communications MetaSolv Solution Utility - NPA NXX Split - Customer Perpetua	Oracle	L40408	O-S-L40408	Communications	Per Quotation	\$22,500	CUSTOMER
Oracle Communications Mobile Synchronization Server - Application User Perpetua	Oracle	L88168	O-S-L88168	Communications	Per Quotation	\$170	APPLICATION
Oracle Communications Mobile Synchronization Server - Individual Subscriber Perpetua	Oracle	L83669	O-S-L83669	Communications	Per Quotation	\$17	PER INDIVIDUAL SUBSCRIBER
Oracle Communications MultiDB Manager - \$M Revenue Under Management Perpetual	Oracle	L95979	O-S-L95979	Communications	Per Quotation	\$427	\$M REVENUE UNDER MGT
Oracle Communications MultiDB Manager - Individual Subscriber Perpetual	Oracle	L27404	O-S-L27404	Communications	Per Quotation	\$0	PER INDIVIDUAL SUBSCRIBER
Oracle Communications Multiple Virtual SMSC Addresses - Customer Perpetual	Oracle	L85326	O-S-L85326	Communications	Per Quotation	\$50,000	CUSTOMER
Oracle Communications Network Charging and Control Adapter for Oracle Communications Data Model - Name	Oracle	L94580	O-S-L94580	Communications	Per Quotation	\$525	NAMED USER PLUS
Oracle Communications Network Charging and Control Adapter for Oracle Communications Data Model - Processor	Oracle	L94572	O-S-L94572	Communications	Per Quotation	\$17,500	PROCESSOR
Oracle Communications Network Design & Modeling - Device Perpetual	Oracle	L74502	O-S-L74502	Communications	Per Quotation	\$6	DEVICE
Oracle Communications Network Design and Modeling - 1K in Nodes Perpetua	Oracle	L51381	O-S-L51381	Communications	Per Quotation	\$10,000	1K IN NODES
Oracle Communications Network Initiated USSD - Customer Perpetual	Oracle	L85328	O-S-L85328	Communications	Per Quotation	\$35,000	CUSTOMER
Oracle Communications Network Integrity - Reconciliation Manager - Device Perpetual	Oracle	L50271	O-S-L50271	Communications	Per Quotation	\$120	DEVICE
Oracle Communications Network Integrity Cartridge for Cisco Router and Switch SNMP - Customer Perpetual	Oracle	L87528	O-S-L87528	Communications	Per Quotation	\$150,000	CUSTOMER
Oracle Communications Network Integrity Cartridge for CORBA - Customer Perpetual	Oracle	L87537	O-S-L87537	Communications	Per Quotation	\$125,000	CUSTOMER
Oracle Communications Network Integrity Cartridge for File Transfer and Parsing - Customer Perpetual	Oracle	L87543	O-S-L87543	Communications	Per Quotation	\$100,000	CUSTOMER
Oracle Communications Network Integrity Cartridge for MIB-II SNMP - Customer Perpetual	Oracle	L87531	O-S-L87531	Communications	Per Quotation	\$125,000	CUSTOMER
Oracle Communications Network Integrity Cartridge for Optical TMF 814 CORBA - Customer Perpetual	Oracle	L87534	O-S-L87534	Communications	Per Quotation	\$150,000	CUSTOMER
Oracle Communications Network Integrity Cartridge for TL1 - Customer Perpetual	Oracle	L87540	O-S-L87540	Communications	Per Quotation	\$125,000	CUSTOMER
Oracle Communications Network Integrity, Assimilation Manager - 1K in Connections Perpetua	Oracle	L87514	O-S-L87514	Communications	Per Quotation	\$500	1K IN CONNECTIONS
Oracle Communications Network Integrity, Discovery Manager - Device Perpetual	Oracle	L87520	O-S-L87520	Communications	Per Quotation	\$120	DEVICE
Oracle Communications Network Intelligence - Circuit Routing Manager - Device Perpetual	Oracle	L50255	O-S-L50255	Communications	Per Quotation	\$5	DEVICE
Oracle Communications Network Intelligence - Core Platform - Device Perpetual	Oracle	L50223	O-S-L50223	Communications	Per Quotation	\$35	DEVICE
Oracle Communications Network Intelligence - Forecast Manager - Device Perpetual	Oracle	L50231	O-S-L50231	Communications	Per Quotation	\$17	DEVICE
Oracle Communications Network Intelligence - Migration Manager - Device Perpetual	Oracle	L50263	O-S-L50263	Communications	Per Quotation	\$7	DEVICE
Oracle Communications Network Intelligence - Monitor Report Manager - Device Perpetual	Oracle	L50239	O-S-L50239	Communications	Per Quotation	\$12	DEVICE
Oracle Communications Network Intelligence - Outage Manager - Device Perpetual	Oracle	L50247	O-S-L50247	Communications	Per Quotation	\$7	DEVICE
Oracle Communications Number Manager - \$M Revenue Under Management Perpetual	Oracle	L96081	O-S-L96081	Communications	Per Quotation	\$181	\$M REVENUE UNDER MGT
Oracle Communications Number Manager - Individual Subscriber Perpetual	Oracle	L27612	O-S-L27612	Communications	Per Quotation	\$0	PER INDIVIDUAL SUBSCRIBER
Oracle Communications Number Portability for Mobile IN - \$M Revenue Under Management Perpetua	Oracle	L85353	O-S-L85353	Communications	Per Quotation	\$4,167	\$M REVENUE UNDER MGT
Oracle Communications Number Portability for Mobile IN - Individual Subscriber Perpetua	Oracle	L85352	O-S-L85352	Communications	Per Quotation	\$1	INDIVIDUAL SUBSCRIBER
Oracle Communications Number Portability for Mobile IN - TUPS Per Domain Perpetua	Oracle	L85351	O-S-L85351	Communications	Per Quotation	\$1,250	TUPS PER DOMAIN
Oracle Communications Number Portability for Mobile SMS - \$M Revenue Under Management Perpetua	Oracle	L85359	O-S-L85359	Communications	Per Quotation	\$1,000	\$M REVENUE UNDER MGT
Oracle Communications Number Portability for Mobile SMS - Individual Subscriber Perpetua	Oracle	L85358	O-S-L85358	Communications	Per Quotation	\$0	INDIVIDUAL SUBSCRIBER
Oracle Communications Number Portability for Mobile SMS - TUPS Per Domain Perpetua	Oracle	L85357	O-S-L85357	Communications	Per Quotation	\$300	TUPS PER DOMAIN

Oracle Communications Number Portability for Mobile SRF - \$M Revenue Under Management Perpetua	Oracle	L85356	O-S-L85356	Communications	Per Quotation	\$4,167	\$M REVENUE UNDER MGT
Oracle Communications Number Portability for Mobile SRF - Individual Subscriber Perpetua	Oracle	L85355	O-S-L85355	Communications	Per Quotation	\$1	INDIVIDUAL SUBSCRIBER
Oracle Communications Number Portability for Mobile SRF - TUPS Per Domain Perpetua	Oracle	L85354	O-S-L85354	Communications	Per Quotation	\$1,250	TUPS PER DOMAIN
Oracle Communications Number Portability for Wireline - \$M Revenue Under Management Perpetua	Oracle	L85350	O-S-L85350	Communications	Per Quotation	\$4,167	\$M REVENUE UNDER MGT
Oracle Communications Number Portability for Wireline - Individual Subscriber Perpetua	Oracle	L85349	O-S-L85349	Communications	Per Quotation	\$1	INDIVIDUAL SUBSCRIBER
Oracle Communications Number Portability for Wireline - TUPS Per Domain Perpetua	Oracle	L85348	O-S-L85348	Communications	Per Quotation	\$1,250	TUPS PER DOMAIN
Oracle Communications Offline Mediation Controller - \$M Revenue under Management Perpetua	Oracle	L88450	O-S-L88450	Communications	Per Quotation	\$600	\$M REVENUE UNDER MGT
Oracle Communications Offline Mediation Controller - Individual Subscriber Perpetua	Oracle	L50068	O-S-L50068	Communications	Per Quotation	\$1	PER INDIVIDUAL SUBSCRIBER
Oracle Communications Offline Mediation Controller Cartridge - Flexible Routing - Customer Perpetua	Oracle	L40562	O-S-L40562	Communications	Per Quotation	\$57,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge - IMS CGF Bundle - Customer Perpetual	Oracle	L40523	O-S-L40523	Communications	Per Quotation	\$140,000	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge - Near Real Time Xfer Distribution - Customer Perpetua	Oracle	L40598	O-S-L40598	Communications	Per Quotation	\$92,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge - NetFlow Aggregation Processor - Customer Perpetua	Oracle	L50074	O-S-L50074	Communications	Per Quotation	\$57,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge - NetFlow Collection - Customer Perpetua	Oracle	L47460	O-S-L47460	Communications	Per Quotation	\$57,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge - Packet CGF Bundle - Customer Perpetua	Oracle	L40517	O-S-L40517	Communications	Per Quotation	\$140,000	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge - Partial CDR Completion - Customer Perpetua	Oracle	L40574	O-S-L40574	Communications	Per Quotation	\$92,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge - RADIUS Bundle - Customer Perpetual	Oracle	L40526	O-S-L40526	Communications	Per Quotation	\$80,000	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge - Record Filtering - Customer Perpetual	Oracle	L40559	O-S-L40559	Communications	Per Quotation	\$92,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge - Session CDR Aggregation - Customer Perpetua	Oracle	L40565	O-S-L40565	Communications	Per Quotation	\$92,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge - Session CDR Record Grouping - Customer Perpetua	Oracle	L40568	O-S-L40568	Communications	Per Quotation	\$92,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge - SNMP Collection - Customer Perpetua	Oracle	L40556	O-S-L40556	Communications	Per Quotation	\$57,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge - Syslog Collection - Customer Perpetua	Oracle	L40550	O-S-L40550	Communications	Per Quotation	\$92,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge - Voice Bundle - Customer Perpetua	Oracle	L40520	O-S-L40520	Communications	Per Quotation	\$140,000	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge - XML Distribution - Customer Perpetua	Oracle	L40601	O-S-L40601	Communications	Per Quotation	\$57,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge for Microsoft IPTV Collection - Customer Perpetua	Oracle	L40553	O-S-L40553	Communications	Per Quotation	\$105,000	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge for Nortel CS2000 AMA DNS Distribution - Customer Perpetua	Oracle	L40589	O-S-L40589	Communications	Per Quotation	\$92,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge for Nortel CS2000 Collection - Customer Perpetua	Oracle	L40541	O-S-L40541	Communications	Per Quotation	\$92,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge for Nortel DMS 100 MMP Collection - Customer Perpetua	Oracle	L47463	O-S-L47463	Communications	Per Quotation	\$92,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge for Nortel DMS OM Collection - Customer Perpetua	Oracle	L40547	O-S-L40547	Communications	Per Quotation	\$22,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge for Nortel DMS SMDR Collection - Customer Perpetua	Oracle	L40544	O-S-L40544	Communications	Per Quotation	\$105,000	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge for Nortel MCS 5200 Collection - Customer Perpetua	Oracle	L40538	O-S-L40538	Communications	Per Quotation	\$57,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge for Nortel MCS 5200 IPDR Distribution - Customer Perpetua	Oracle	L47466	O-S-L47466	Communications	Per Quotation	\$35,000	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge for Nortel MCS 5200 to CS2000 AMA Bundle - Customer Perpetua	Oracle	L50077	O-S-L50077	Communications	Per Quotation	\$57,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge for Nortel MSC AMA DIRP Distribution - Customer Perpetua	Oracle	L40577	O-S-L40577	Communications	Per Quotation	\$92,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge for Nortel MSC ASCII Distribution - Customer Perpetua	Oracle	L40580	O-S-L40580	Communications	Per Quotation	\$92,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge for Nortel MSC ASN.1 Distribution - Customer Perpetua	Oracle	L40583	O-S-L40583	Communications	Per Quotation	\$92,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge for Nortel MSC Collection - Customer Perpetua	Oracle	L40529	O-S-L40529	Communications	Per Quotation	\$92,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge for Nortel MSC Database Distribution - Customer Perpetua	Oracle	L40586	O-S-L40586	Communications	Per Quotation	\$92,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge Kit - AMA File Collection - Customer Perpetua	Oracle	L47475	O-S-L47475	Communications	Per Quotation	\$57,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge Kit - AMA File Distribution - Customer Perpetua	Oracle	L47478	O-S-L47478	Communications	Per Quotation	\$57,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge Kit - AMADNS Distribution - Customer Perpetua	Oracle	L40649	O-S-L40649	Communications	Per Quotation	\$92,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge Kit - ASCII Delimited Distribution - Customer Perpetua	Oracle	L40634	O-S-L40634	Communications	Per Quotation	\$17,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge Kit - ASN.1 File Collection - Customer Perpetua	Oracle	L40610	O-S-L40610	Communications	Per Quotation	\$57,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge Kit - Flexible ASCII Collection - Customer Perpetua	Oracle	L40604	O-S-L40604	Communications	Per Quotation	\$30,000	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge Kit - IPDR Collection - Customer Perpetua	Oracle	L40607	O-S-L40607	Communications	Per Quotation	\$22,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge Kit - IPDRv2 Distribution - Customer Perpetua	Oracle	L47469	O-S-L47469	Communications	Per Quotation	\$30,000	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge Kit - JDBC Database Distribution - Customer Perpetua	Oracle	L40643	O-S-L40643	Communications	Per Quotation	\$57,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge Kit - Network Acct Record Collection - Customer Perpetua	Oracle	L40613	O-S-L40613	Communications	Per Quotation	\$17,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge Kit - Network Acct Record Distribution - Customer Perpetua	Oracle	L40646	O-S-L40646	Communications	Per Quotation	\$17,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge Kit - Programmable Aggregation Processor - Customer Perpetua	Oracle	L40631	O-S-L40631	Communications	Per Quotation	\$57,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge Kit - RADIUS Distribution - Customer Perpetua	Oracle	L47472	O-S-L47472	Communications	Per Quotation	\$35,000	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge Kit - Real-Time ASCII File Collection - Customer Perpetua	Oracle	L47481	O-S-L47481	Communications	Per Quotation	\$30,000	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge Kit - Record Enhancement LDAP EP - Customer Perpetua	Oracle	L40625	O-S-L40625	Communications	Per Quotation	\$22,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge Kit - Record Enhancement Local File EP - Customer Perpetua	Oracle	L40619	O-S-L40619	Communications	Per Quotation	\$22,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge Kit - Record Enhancement Remote File EP - Customer Perpetua	Oracle	L40622	O-S-L40622	Communications	Per Quotation	\$22,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge Kit - Record Processing EP - Customer Perpetua	Oracle	L40616	O-S-L40616	Communications	Per Quotation	\$22,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge Kit - Sequencing EP - Customer Perpetua	Oracle	L40628	O-S-L40628	Communications	Per Quotation	\$22,500	CUSTOMER
Oracle Communications Offline Mediation Controller Cartridge Kit - XML Distribution - Customer Perpetua	Oracle	L40640	O-S-L40640	Communications	Per Quotation	\$22,500	CUSTOMER
Oracle Communications Offline Mediation Controller Utility - Record Editor - Customer Perpetua	Oracle	L40652	O-S-L40652	Communications	Per Quotation	\$57,500	CUSTOMER
Oracle Communications Online Mediation Controller - \$M Revenue under Management Perpetua	Oracle	L93532	O-S-L93532	Communications	Per Quotation	\$500	\$M REVENUE UNDER MGT
Oracle Communications Online Mediation Controller - Individual Subscriber Perpetua	Oracle	L93526	O-S-L93526	Communications	Per Quotation	\$1	INDIVIDUAL SUBSCRIBER
Oracle Communications Online Mediation Controller - TUPS per Domain Perpetua	Oracle	L93518	O-S-L93518	Communications	Per Quotation	\$2,400	TUPS PER DOMAIN
Oracle Communications Open Service Development - \$M Revenue Under Management Perpetua	Oracle	L85431	O-S-L85431	Communications	Per Quotation	\$1,000	\$M REVENUE UNDER MGT
Oracle Communications Open Service Development - Individual Subscriber Perpetua	Oracle	L85430	O-S-L85430	Communications	Per Quotation	\$0	INDIVIDUAL SUBSCRIBER

Oracle Communications Open Service Development - TUPS Per Domain Perpetual	Oracle	L85429	O-S-L85429	Communications	Per Quotation	\$300	TUPS PER DOMAIN
Oracle Communications Order and Service Management Cartridge for Billing Fulfillment - Customer Perpetua	Oracle	L84677	O-S-L84677	Communications	Per Quotation	\$150,000	CUSTOMER
Oracle Communications Order and Service Management Cartridge for Provisioning Fulfillment - Customer Perpetua	Oracle	L84685	O-S-L84685	Communications	Per Quotation	\$150,000	CUSTOMER
Oracle Communications Order and Service Management Cartridge for Sales Order Fulfillment - Customer Perpetua	Oracle	L84693	O-S-L84693	Communications	Per Quotation	\$150,000	CUSTOMER
Oracle Communications Order and Service Management Server - \$M Revenue under Management Perpetual	Oracle	L88451	O-S-L88451	Communications	Per Quotation	\$2,500	\$M REVENUE UNDER MGT
Oracle Communications Order and Service Management Server - Individual Subscriber Perpetual	Oracle	L77572	O-S-L77572	Communications	Per Quotation	\$2	PER INDIVIDUAL SUBSCRIBER
Oracle Communications Order and Service Management Server for IP Service Activator - Service Access Point Perpetual	Oracle	L77550	O-S-L77550	Communications	Per Quotation	\$250	SERVICE ACCESS POINT
Oracle Communications Order and Service Management, Clustering - \$M Revenue under Management Perpetual	Oracle	L88456	O-S-L88456	Communications	Per Quotation	\$600	\$M REVENUE UNDER MGT

Business Intelligence Publisher for Oracle Applications - Employee for HCM Perpetua	Oracle	L90222	O-S-L90222	Tech Software	\$12.60	\$18	EMPLOYEE FOR HCM
Business Intelligence Publisher for Oracle Applications - Named User Plus Perpetua	Oracle	L88033	O-S-L88033	Tech Software	\$42.00	\$60	NAMED USER PLUS
Business Intelligence Publisher for Oracle Applications - Processor Perpetua	Oracle	L88043	O-S-L88043	Tech Software	\$12,880.00	\$18,400	PROCESSOR
Business Intelligence Server Administrator - Named User Plus Perpetual	Oracle	L26309	O-S-L26309	Tech Software	\$4,060.00	\$5,800	NAMED USER PLUS
Business Intelligence Server Enterprise Edition - Named User Plus Perpetual	Oracle	L26164	O-S-L26164	Tech Software	\$245.00	\$350	NAMED USER PLUS
Business Intelligence Server Enterprise Edition - Processor Perpetual	Oracle	L26170	O-S-L26170	Tech Software	\$36,260.00	\$51,800	PROCESSOR
Business Intelligence Standard Edition - Named User Plus Perpetual	Oracle	L10898	O-S-L10898	Tech Software	\$322.00	\$460	NAMED USER PLUS
Business Intelligence Standard Edition - Processor Perpetual	Oracle	L10894	O-S-L10894	Tech Software	\$16,100.00	\$23,000	PROCESSOR
Business Intelligence Standard Edition One - Named User Plus Perpetual	Oracle	L46663	O-S-L46663	Tech Software	\$840.00	\$1,200	NAMED USER PLUS
Business Intelligence Standard Edition One - Oracle 1-Click Ordering Program - Named User Plus Perpetual	Oracle	L46721	O-S-L46721	Tech Software	\$840.00	\$1,200	NAMED USER PLUS
Business Intelligence Suite Enterprise Edition Plus for Oracle Applications - Employee for HCM Perpetua	Oracle	L90293	O-S-L90293	Tech Software	\$56.00	\$80	EMPLOYEE FOR HCM
Business Intelligence Suite Enterprise Edition Plus for Oracle Applications - Named User Plus Perpetua	Oracle	L90286	O-S-L90286	Tech Software	\$186.90	\$267	NAMED USER PLUS
Business Intelligence Suite Enterprise Edition Plus for Oracle Applications - Processor Perpetua	Oracle	L90300	O-S-L90300	Tech Software	\$59,500.00	\$85,000	PROCESSOR
Business Process Analysis Suite - Named User Plus Perpetual	Oracle	L38642	O-S-L38642	Tech Software	\$7,350.00	\$10,500	NAMED USER PLUS
CDD/ Repository - Named User Plus Perpetual	Oracle	L10038	O-S-L10038	Tech Software	\$4,060.00	\$5,800	NAMED USER PLUS
CDD/R Runtime - Processor Perpetual	Oracle	A90648	O-S-A90648	Tech Software	\$4,060.00	\$5,800	PROCESSOR
Changed Data Capture Adapter for ADABAS - Processor Perpetual	Oracle	L70915	O-S-L70915	Tech Software	\$42,000.00	\$60,000	PROCESSOR
Changed Data Capture Adapter for DB2/390 - Processor Perpetual	Oracle	L70923	O-S-L70923	Tech Software	\$42,000.00	\$60,000	PROCESSOR
Changed Data Capture Adapter for IMS/DB - Processor Perpetual	Oracle	L70931	O-S-L70931	Tech Software	\$42,000.00	\$60,000	PROCESSOR
Changed Data Capture Adapter for Microsoft SQL Server 2000 - Processor Perpetual	Oracle	L70939	O-S-L70939	Tech Software	\$42,000.00	\$60,000	PROCESSOR
Changed Data Capture Adapter for Microsoft SQL Server 2005 - Processor Perpetual	Oracle	L70948	O-S-L70948	Tech Software	\$42,000.00	\$60,000	PROCESSOR
Changed Data Capture Adapter for VSAM BATCH - Processor Perpetual	Oracle	L70957	O-S-L70957	Tech Software	\$42,000.00	\$60,000	PROCESSOR
Changed Data Capture Adapter for VSAM CICS - Processor Perpetual	Oracle	L70966	O-S-L70966	Tech Software	\$42,000.00	\$60,000	PROCESSOR
Cloud Management Pack for Oracle Database - Named User Plus Perpetual	Oracle	L93005	O-S-L93005	Tech Software	\$70.00	\$100	NAMED USER PLUS
Cloud Management Pack for Oracle Database - Processor Perpetual	Oracle	L93012	O-S-L93012	Tech Software	\$3,500.00	\$5,000	PROCESSOR
Cloud Management Pack for Oracle Fusion Middleware - Named User Plus Perpetual	Oracle	L93020	O-S-L93020	Tech Software	\$70.00	\$100	NAMED USER PLUS
Cloud Management Pack for Oracle Fusion Middleware - Processor Perpetual	Oracle	L93027	O-S-L93027	Tech Software	\$3,500.00	\$5,000	PROCESSOR
CODASYL DBMS - Named User Plus Perpetual	Oracle	L10033	O-S-L10033	Tech Software	\$665.00	\$950	NAMED USER PLUS
Coherence Enterprise Edition - Named User Plus Perpetual	Oracle	L46074	O-S-L46074	Tech Software	\$161.00	\$230	NAMED USER PLUS
Coherence Enterprise Edition - Processor Perpetual	Oracle	L46084	O-S-L46084	Tech Software	\$8,050.00	\$11,500	PROCESSOR
Coherence Grid Edition - Named User Plus Perpetual	Oracle	L46092	O-S-L46092	Tech Software	\$350.00	\$500	NAMED USER PLUS
Coherence Grid Edition - Processor Perpetual	Oracle	L46102	O-S-L46102	Tech Software	\$17,500.00	\$25,000	PROCESSOR
Coherence Standard Edition - Named User Plus Perpetual	Oracle	L46122	O-S-L46122	Tech Software	\$70.00	\$100	NAMED USER PLUS
Coherence Standard Edition - Processor Perpetual	Oracle	L46132	O-S-L46132	Tech Software	\$3,220.00	\$4,600	PROCESSOR
Configuration Management Pack for Applications - Named User Plus Perpetual	Oracle	L71666	O-S-L71666	Tech Software	\$70.00	\$100	NAMED USER
Configuration Management Pack for Applications - Processor Perpetual	Oracle	L71656	O-S-L71656	Tech Software	\$3,500.00	\$5,000	PROCESSOR
Data Integrator and Application Adapter for Data Integration - Processor Perpetual	Oracle	L70973	O-S-L70973	Tech Software	\$17,710.00	\$25,300	PROCESSOR
Data Integrator Enterprise Edition - Named User Plus Perpetual	Oracle	L89218	O-S-L89218	Tech Software	\$483.00	\$690	NAMED USER PLUS
Data Integrator Enterprise Edition - Processor Perpetual	Oracle	L42186	O-S-L42186	Tech Software	\$16,100.00	\$23,000	PROCESSOR
Data Integrator Enterprise Edition for Oracle Applications - Employee for HCM Perpetua	Oracle	L90474	O-S-L90474	Tech Software	\$18.90	\$27	EMPLOYEE FOR HCM
Data Integrator Enterprise Edition for Oracle Applications - Named User Plus Perpetual	Oracle	L90467	O-S-L90467	Tech Software	\$96.60	\$138	NAMED USER PLUS
Data Integrator Enterprise Edition for Oracle Applications - Processor Perpetual	Oracle	L90480	O-S-L90480	Tech Software	\$6,440.00	\$9,200	PROCESSOR
Data Masking Pack for Non Oracle Databases - Named User Plus Perpetual	Oracle	L93035	O-S-L93035	Tech Software	\$161.00	\$230	NAMED USER PLUS
Data Masking Pack for Non Oracle Databases - Processor Perpetual	Oracle	L93042	O-S-L93042	Tech Software	\$8,050.00	\$11,500	PROCESSOR
Database Gateway for Informix - Computer Perpetual	Oracle	L46631	O-S-L46631	Tech Software	\$12,250.00	\$17,500	COMPUTER
Database Gateway for SQL server - Computer Perpetual	Oracle	L46639	O-S-L46639	Tech Software	\$12,250.00	\$17,500	COMPUTER
Database Gateway for Sybase - Computer Perpetual	Oracle	L46647	O-S-L46647	Tech Software	\$12,250.00	\$17,500	COMPUTER
Database Gateway for Teradata - Computer Perpetual	Oracle	L46655	O-S-L46655	Tech Software	\$76,650.00	\$109,500	COMPUTER
Database Lifecycle Management Pack - Named User Plus Perpetual	Oracle	L93050	O-S-L93050	Tech Software	\$168.00	\$240	NAMED USER PLUS
Database Lifecycle Management Pack - Processor Perpetual	Oracle	L93057	O-S-L93057	Tech Software	\$8,400.00	\$12,000	PROCESSOR
Database Vault - Named User Plus Perpetual	Oracle	L27166	O-S-L27166	Tech Software	\$161.00	\$230	NAMED USER PLUS
Database Vault - Processor Perpetual	Oracle	L27158	O-S-L27158	Tech Software	\$8,050.00	\$11,500	PROCESSOR
Delivers Option - Named User Plus Perpetual	Oracle	L26193	O-S-L26193	Tech Software	\$245.00	\$350	NAMED USER PLUS
Delivers Option - Processor Perpetual	Oracle	L26185	O-S-L26185	Tech Software	\$36,260.00	\$51,800	PROCESSOR
Diagnostics Pack - Named User Plus Perpetual	Oracle	L10012	O-S-L10012	Tech Software	\$70.00	\$100	NAMED USER PLUS

Diagnostics Pack - Processor Perpetual	Oracle	A90649	O-S-A90649	Tech Software	\$3,500.00	\$5,000	PROCESSOR
Directory Services Plus - Processor Perpetual	Oracle	L83832	O-S-L83832	Tech Software	\$35,000.00	\$50,000	PROCESSOR
Discoverer Desktop Edition - Named User Plus Perpetual	Oracle	L10022	O-S-L10022	Tech Software	\$840.00	\$1,200	NAMED USER PLUS
Endeca Server for Oracle Applications - Processor Perpetual	Oracle	L96492	O-S-L96492	Tech Software	\$8,750.00	\$12,500	PROCESSOR
Enterprise Repository - Named User Plus Perpetual	Oracle	L58785	O-S-L58785	Tech Software	\$2,030.00	\$2,900	NAMED USER PLUS
Enterprise Repository - Processor Perpetual	Oracle	L58793	O-S-L58793	Tech Software	\$101,500.00	\$145,000	PROCESSOR
Enterprise Single Sign-On Suite Plus - Named User Plus Perpetual	Oracle	L38624	O-S-L38624	Tech Software	\$59.50	\$85	NAMED USER PLUS
Entitlements Server - Processor Perpetual	Oracle	L58801	O-S-L58801	Tech Software	\$24,500.00	\$35,000	PROCESSOR
Entitlements Server Security Module - Processor Perpetual	Oracle	L58809	O-S-L58809	Tech Software	\$24,500.00	\$35,000	PROCESSOR
Express Analyzer - Named User Plus Perpetual	Oracle	L10030	O-S-L10030	Tech Software	\$665.00	\$950	Named User Plus
Express Server - Named User Plus Perpetual	Oracle	L10029	O-S-L10029	Tech Software	\$665.00	\$950	Named User Plus
Express Server - Processor Perpetual	Oracle	A90640	O-S-A90640	Tech Software	\$33,250.00	\$47,500	Processor
Forms and Reports - Named User Plus Perpetual	Oracle	L16339	O-S-L16339	Tech Software	\$322.00	\$460	NAMED USER PLUS
Forms and Reports - Processor Perpetual	Oracle	L16345	O-S-L16345	Tech Software	\$16,100.00	\$23,000	PROCESSOR
Functional Testing - Named User Plus Perpetual	Oracle	L55735	O-S-L55735	Tech Software	\$5,600.00	\$8,000	NAMED USER PLUS
Functional Testing Accelerator for Web Services - Named User Plus Perpetual	Oracle	L55726	O-S-L55726	Tech Software	\$1,400.00	\$2,000	NAMED USER PLUS
Functional Testing Suite for Oracle Applications - Named User Plus Perpetua	Oracle	L93104	O-S-L93104	Tech Software	\$8,400.00	\$12,000	NAMED USER PLUS
Healthcare Adapter - Named User Plus Perpetual	Oracle	L85216	O-S-L85216	Tech Software	\$483.00	\$690	NAMED USER PLUS
Healthcare Adapter - Processor Perpetual	Oracle	L11487	O-S-L11487	Tech Software	\$24,150.00	\$34,500	PROCESSOR

Exhibit II

SOFTWARE LICENSE AND MAINTENANCE SUPPORT AGREEMENT MASTER CONTRACT FOR SOFTWARE LICENSING (MLA NUMBER MLA0024)

THIS CONTRACT (the "Contract") is between the State of Ohio (the "State"), through the Office of Information Technology ("OIT"), Investment and Governance Division, with offices at 30 East Broad Street, Columbus, Ohio 43215, and Oracle USA, Inc. (the "Contractor"), with offices at 500 Oracle Parkway, Redwood Shores, CA 94065, and whose Federal Tax ID Number is 84-1332677.

a. Background. The State and the Contractor have entered into this Contract to provide the terms and conditions under which the Contractor will grant one or more perpetual, nonexclusive licenses to the State to use certain software that the Contractor publishes or markets. Any such licenses will be described in one or more schedules to this Contract ("Schedules") and will include a license to use the Software's user and technical documentation. Additionally, this Contract governs the Contractor's obligation to provide the State with assistance troubleshooting the Software and with updates, corrections, enhancements, and new releases, if and when available, of the Software, as set forth herein ("Technical Support").

b. Definitions. The term "Ancillary Programs" refers to third party materials specified in the Program Documentation which may only be used for the purposes of installing or operating the Programs with which the Ancillary Programs are delivered. The term "Program Documentation" refers to the Program user manual and Program installation manuals. The term "Programs" or "Software" refers to the software products owned or distributed by the Contractor which the State has ordered, Program Documentation, and any Program updates acquired through Technical Support. The term "Services" or "Technical Support" refers to technical support which the State has ordered. The term "State Entities" are defined as legal entities of the State of Ohio government, including agencies, departments, divisions, and other similar departments, which exist to conduct the business of the State, as well as those legal entities for which it has assumed the obligation to manage, so long as those management obligations are not for the sole or primary purpose of the entity's gaining access to the Programs.

c. Applicability of Agreement. This Contract is valid for the Schedule(s) which incorporates it by reference.

d. Authorized Contract Users: State Entities may also order Programs and technical support from the Contractor in accordance with the terms and conditions of this Contract, solely for the use of their individual entity. By placing an order under this Contract, each State Entity agrees to be bound by the terms and conditions of the applicable Schedule and this Contract and, for the purposes of such order, "State" as used in this Contract shall be deemed to refer to such State Entity, unless indicated otherwise herein. Each State Entity shall be responsible for its breach(es) of such terms and conditions.

PART I: LICENSE AND USE

1. Grant of License. Upon the signing of a Schedule by both parties and the issuance of an OBM-certified purchase order by the State, the State has the limited right to use the programs and receive any support it orders solely for the exercise of its government functions and subject to the terms of this Contract, including the definitions and rules set forth in this Contract and the Program Documentation. The State may access the Program Documentation at <http://oracle.com/contracts>. The State may, at no additional fee, also:

- permit use by Ohio residents, its suppliers, other people and entities to which it provides governmental services, and other Ohio governmental entities of Programs that are specifically designed to allow such persons or entities to interact with the State in the furtherance of its exercise of its government functions.
- allow the State's agents and contractors (including, without limitation, its outsourcers) to use the Programs solely to support the exercise of its government functions and subject to the terms of this Contract, provided that the State is responsible for obligating them to comply with the terms of this Contract.
- engage one or more third parties to manage the Programs and the system or systems on which the Programs are operated or engage one or more third parties as outsourcers to manage the Programs on its systems at its locations within the United States in a facilities management or similar arrangement, provided that any such third party agrees in writing to honor the terms of this Contract and to use the Programs solely for the State's benefit and according to the terms of this Contract.

Any services provided under this Contract may be related to the State's license to use Programs which the State acquires under a separate order. The Contract referenced in that order will govern the State's use of such Programs. Any services acquired from the Contractor are separate from such Program licenses, and the State may acquire either services or such Program licenses without acquiring the other.

The State agrees that it has not relied on the future availability of any specific new features for any Software acquired under this Contract or the release and/or updates of other programs in entering into the payment obligations in any Schedule; however, (a) if the State orders Software Update License & Support ("SULS") for Programs, the preceding sentence does not relieve the Contractor of its obligation to provide updates under the applicable Schedule, if-and-when available, in accordance with the applicable Contractor technical support policies, and (b) the preceding sentence does not change the rights granted to the State for any Programs licensed under a Schedule, per the terms of its Schedule and this Contract.

The Contractor may deliver source code (for certain extract batch scripts, algorithms/plugin-ins, and JavaScript templates, collectively "source code") as part of its standard delivery for certain Programs; all source code delivered by the Contractor is subject to the terms of the Contract, the applicable Schedule and Program Documentation.

2. License Restrictions. The State may not assign, transfer, or redistribute the Software to any party in whole or in part, except as expressly provided by this Contract or the applicable Schedule. It also may not rent, time share, or operate a service bureau with respect to the Software. And the State may not charge a fee to any third party for access to or use of the Software, unless this Contract or the applicable Schedule permits such.

The Contractor retains all ownership and intellectual property rights to the Oracle Programs. Third party technology that may be appropriate or necessary for use with some Oracle Programs is specified in the Program Documentation. Such third party technology is licensed under the terms of the third party technology license agreement specified in the Program Documentation and not under the terms of this Contract.

The State may not:

- remove or modify any Program markings or any notice of the Contractor's proprietary rights;
- make the Programs available in any manner to any third party for use in the third party's business operations (unless such access is expressly permitted under this Agreement);
- reverse engineer (unless required by law for interoperability), disassemble or decompile the Programs; or
- disclose results of any Program benchmark tests without the Contractor's prior written consent.

3. Permitted Transfers. The State may transfer a Program from one computer to another computer within the United States subject to such Program's license metric and the terms of this Contract and all applicable Schedules, provided that (a) the State's use of such Program shall not exceed the quantity and license metric that it is licensed for under this Contract and the applicable Schedule, and (b) there is no change in operating system. If a State Entity is mandated by its governing body to convey any of its specific functions to another governmental entity, the Program licenses used to support the conveyed functions may be transferred at no charge, after written notice to the Contractor. If a State Entity merges with another State Entity, previously acquired Program licenses may be used by the merged entity pursuant to the terms of this Contract. Nothing in this section shall be deemed to relieve the State Entity or the transferee entity of the obligation to use a Program in accordance with the terms and conditions of this Contract and all applicable Schedules placed hereunder, including, without limitation, limiting usage of a Program to the quantity and license type for which such Program is licensed.

4. Object Reassignment. Any Software licensed by the number of items that it may be used on, by, or in conjunction with, such as nodes, computers, users, or sites ("Objects"), may be reassigned to other, similar Objects within the State Entity originally purchasing the license(s) at any time and without any additional fee or charge. For example, a computer-specific license may be transferred to another computer, a site license may be transferred to another site, and a named user license may be assigned to another user within the State Entity originally purchasing the license(s). But any such reassignment must be in conjunction with termination of use by or with the previous Object, if such termination is required to keep the total number of licensed Objects within the scope of the applicable license. Should the State Entity require a special code, a unique key, or similar device to reassign the Software as contemplated by this section, the Contractor will provide such a code, key, or similar device to the State Entity at any time and without a fee or charge, regardless of whether such Software is then under Support. A later section in this Contract governs assignment of the State's license in any Software to a successor in interest.

5. Copies. The State may make a sufficient number of copies of each Program for its licensed use and one copy of each Program media, unless otherwise stated in the Schedule.

6. Hazardous Environments. The State recognizes that some Software may not be designed or intended for use as or with online control equipment or systems in hazardous environments requiring fail-safe performance. This includes equipment or systems such as those used in the operation of nuclear facilities, aircraft navigation, air traffic control, direct life support machines, and munitions. It also includes any other equipment or systems in which the State

reasonably can foresee that failure of the Software could lead to death, personal injury, or severe physical or environmental damage. For any Software designated as not intended for hazardous environments in the applicable Schedule, the State may not use or permit the use of the Software in conjunction with any such equipment or systems.

7. Upgrades, Updates, and Corrections. All portions of the Software, including any corrections, patches, service packs, updates, upgrades, and new versions and releases that may become available are the property of Contractor, are part of the Software, and are governed by the State's license in the Software. In no event will the Software or any modification of it be deemed a work made for hire, even if the Contractor has made the modification expressly for the State, unless the parties agree otherwise in writing.

PART II: FEES AND PAYMENT

1. The State will pay to the Contractor the fees for licensing the Programs as well as all applicable fees for support. The license fee for each license is due and payable on the 30th day after the later of the date on which the applicable license starts or the date the State receives a proper invoice for the fee at the office designated in the applicable purchase order. A support fee will be due payable on the 30th day after the later of the date on which the applicable period of support begins or the date the State receives a proper invoice for the support fee at the office designated in the applicable purchase order. The State will not be obligated to acquire or renew support for any Programs unless the State first issues a purchase order for such. The State is exempt from all Ohio sales, use, excise, property, and similar taxes ("Taxes") provided valid exemption documentation is provided to the Contractor. To the extent any Taxes are imposed on the Contractor in connection with this Contract or the Programs and support, the Contractor must pay such Taxes, together with any interest and penalties not properly disputed with the appropriate taxing authority.

The Contractor must submit an original invoice to the office designated in the purchase order as the "bill to" address. To be a proper invoice, the invoice must include the following information and/or attachments:

- (i) Name and address of the Contractor as designated in this Contract.
- (ii) The Contractor's Federal tax identification number as designated in this Contract.
- (iii) The Contractor's invoice remittance address as designated in this Contract.
- (iv) The purchase order number authorizing the delivery of Programs or services.
- (v) A description of what the Contractor delivered, including, as applicable, the time period, serial number, unit price, quantity, and total price of the Programs and services. If the invoice is for a lease, the Contractor must also include the payment number (e.g., 1 of 36).

If an invoice does not meet this section's requirements, the State will send Contractor written notice with the improper invoice to the address designated for receipt of purchase orders within fifteen (15) calendar days after receipt of the invoice. The notice will contain a description of the defect or impropriety and any additional information the Contractor needs to correct the invoice. If such notification has been sent, the payment due date will be 30 days after the State receive a proper invoice and have accepted the Contractor's Program(s).

2. OBM Certification. This Contract is subject to Code Section 126.07. All orders and Schedules under this Contract are void until the Director of the Office of Budget and Management for the State certifies ("OBM Certification") that there is a balance in the appropriation available to pay for the order. The OBM Certification on the State's purchase order is evidence that the funds for that purchase are fully appropriated and presently available.

3. Currency. The State will make all payments under this Contract by warrant (the State's equivalent to a check) in US Dollars, regardless of the location where the Support is provided or the Software is located.

4. Disputed Amounts. The parties will resolve any amounts disputed under this Contract expeditiously and in good faith by having the representatives of the parties who signed this Contract enter into informal discussions. Once resolved through the dispute resolution process, the amount must be paid within 30 days of the resolution. If the State disputes any amount under this Contract in good faith, the State may withhold its payment pending resolution notwithstanding anything to the contrary elsewhere in this Contract.

5. Pricing. Subject to the limitations in this section, the Contractor may modify its pricing for Software or Support at any time and without notice to the State. But no such change will apply to any Software or Support that the State orders or for which it receives an invoice before the effective date of the change. Nor will any price increase apply to any Software for which the State and the Contractor have entered in to a Price-hold Addendum; the pricing for such

Software will be fixed for the term of the price-hold. The State will not be obligated to pay more than the Contractor's then current, published License Fee for any such Software.

PART III: CONTRACT ADMINISTRATION

1. Term. Once entered into, the term of this Contract will be from the date the duly authorized representative of the State signed it through June 30, 2009. Expiration of this Contract without renewal will not affect any licenses granted to the State before the expiration. It also will not affect the rights and the responsibilities of the parties with respect to such licenses.

2. Schedules. For all Software that the State licenses, the Contractor and the State will enter into a written Schedule or Schedule to this Contract, signed by duly authorized representatives of both parties. The Schedule will describe the Software, the license granted in the Software, and the date the license starts ("Start Date"). It also will identify the License Fee for the license granted, the number of physical copies of the media on which the Software is shipped, and the operating system or systems for which the Software is designed, if media is ordered. In addition, the Schedule will identify the Support Fee or the percentage of the License Fee used to calculate the Support Fee. All additional Software that the State seeks to license from the Contractor under this Contract, as well as all additional licenses that the State wishes to acquire in Software already licensed under this Contract, will be subject to the Contractor's prior, written approval in each such case. But the Contractor will consent for any Software that is covered by a Price-hold Addendum and for any Software that is or designed to operate in conjunction with Software already acquired by the State under this Contract, if the Software at issue is generally available to other customers and the State is not in material breach of this Contract.

3. Confidentiality. Each party may disclose to the other written material or oral or other forms of information that it treats as confidential ("Confidential Information"). Title to any Confidential Information one party delivers to the other will remain with the disclosing party or its licensors. Each party agrees to treat any Confidential Information it receives from the other party as secret, if it is so marked otherwise identified as such. Confidential information includes personally identifiable data residing on its computer systems of, about or from its employees, residents, users, and/or suppliers, for which the Contractor requires access in order to perform the relevant services.

Except as expressly required by the laws of the State of Ohio, each party agrees not to disclose any Confidential Information of the other to any third parties and to use such Confidential Information solely to meet its obligations or to exercise its rights under this Contract. The Contractor acknowledges that the State will post the terms and pricing set forth herein on its website.

The receiving party's obligation to maintain the secrecy of the Confidential Information will not apply where it:

- (a) Was already in the receiving party's possession before disclosure by the other party, and the receiving party obtained it without an obligation of confidence;
- (b) Is independently developed by the receiving party;
- (c) Is or becomes publicly available without breach of this Contract;
- (d) Is rightfully obtained by the receiving party from a third party without an obligation of confidence;
- (e) Is disclosed by the receiving party with the prior written consent of the other party; or
- (f) Is released in accordance with a valid order of a court or governmental agency, provided that the receiving party:
 - (1) Notifies the other party of such order immediately upon receipt of the order; and
 - (2) Makes a reasonable effort to obtain a protective order from the issuing court or agency limiting disclosure and use of the Confidential Information solely for the purposes intended to be served by the original order of production.

4. Escrow. The Contractor shall ensure that it shall retain in escrow a copy of the source code necessary to support the supported Programs. The escrowed material shall be maintained under an agreement, which provides that if the Contractor ceases to be in the business of supporting the Programs licensed under this Contract, the escrow agent shall furnish the State with a copy of the escrowed material that has become unsupported. The State shall pay the escrow agent a nominal fee sufficient to cover the cost of reproduction and distribution of source materials, including reasonable administrative expenses thereto. Any escrowed material furnished under this provision shall be considered licensed subject to the terms of this Contract and shall be used solely to maintain the Programs.

5. Insurance. The Contractor shall take out and maintain the following minimum insurance at its expense for the duration of any Schedule under this Contract covering locations where the Contractor is to perform work on the State's premises:

- (a) Workers' Compensation - As required by the statute of states where services are being performed;
- (b) Employer's Liability - \$2,000,000 each occurrence;
- (c) Comprehensive General Liability Insurance - \$2,000,000 per occurrence/aggregate bodily injury and \$2,000,000 per occurrence/aggregate property damage; and
- (d) Automobile Liability Insurance - \$2,000,000 per occurrence, bodily injury and property damage combined.

Nothing in this Contract shall be deemed to preclude the Contractor from selecting a new insurance carrier or carriers or obtaining new or amended policies at any time, as long as the above insurance coverage and limits are maintained. The Contractor agrees to provide the State with a certificate(s) of insurance evidencing such coverage within a reasonable time of the receipt of a written request for same."

6. EXCUSABLE DELAY. NEITHER PARTY WILL BE LIABLE FOR ANY DELAY IN ITS PERFORMANCE UNDER THIS CONTRACT THAT ARISES FROM CAUSES BEYOND ITS CONTROL AND WITHOUT ITS NEGLIGENCE OR FAULT. THE DELAYED PARTY MUST NOTIFY THE OTHER PROMPTLY OF ANY MATERIAL DELAY IN PERFORMANCE AND MUST SPECIFY IN WRITING THE PROPOSED REVISED PERFORMANCE DATE AS SOON AS PRACTICABLE AFTER NOTICE OF DELAY. FOR ANY SUCH EXCUSABLE DELAY, THE DATE OF PERFORMANCE OR DELIVERY WILL BE EXTENDED FOR A PERIOD EQUAL TO THE TIME LOST BY REASON OF THE EXCUSABLE DELAY. THE DELAYED PARTY MUST ALSO DESCRIBE THE CAUSE OF THE DELAY AND WHAT STEPS IT IS TAKING OR WILL TAKE TO REMOVE THE CAUSE. THE DELAYED PARTY MAY NOT RELY ON A CLAIM OF EXCUSABLE DELAY TO AVOID LIABILITY FOR A DELAY IF THE PARTY HAS NOT TAKEN COMMERCIALY REASONABLE STEPS TO MITIGATE OR AVOID THE DELAY. IF SUCH EVENT CONTINUES FOR MORE THAN 90 DAYS, EITHER PARTY MAY CANCEL UNPERFORMED SERVICES UPON WRITTEN NOTICE. THIS SECTION DOES NOT EXCUSE EITHER PARTY'S OBLIGATION TO TAKE REASONABLE STEPS TO FOLLOW ITS NORMAL DISASTER RECOVERY PROCEDURES.

7. Network Security. The Contractor may not connect to the State's internal computer network without the prior, written consent of the State, which the State will reasonably provide if necessary or appropriate for the Contractor to provide Support. But as a condition of connecting to the State's computer network, the Contractor must secure its own connected systems in a manner consistent with the State's then-current security policies, which the State will provide to the Contractor. The State also may terminate the Contractor's network connections immediately should the State determine that the Contractor's security measures are not consistent with the State's policies or are otherwise inadequate given the nature of the connection or the data or systems to which the Contractor may have access. The Contractor will not be responsible for any failure to provide services or technical support due to the State's refusal to allow the Contractor to connect to the State's network or its termination of the Contractor's connection to the State's network.

PART IV: WARRANTIES, LIABILITIES, AND REMEDIES

1. Warranties. Contractor warrants that a Program licensed to the State will operate in all material respects as described in the applicable Program Documentation for one year after delivery (i.e., via physical shipment or electronic download). The State must notify Contractor of any Program warranty deficiency within one year after delivery. Contractor also warrants that services will be provided in a professional manner consistent with industry standards. The State must notify Contractor of any services warranty deficiencies within 90 days from performance of the defective services.

2. Warranty Exclusions. CONTRACTOR DOES NOT GUARANTEE THAT THE PROGRAMS WILL PERFORM ERROR-FREE OR UNINTERRUPTED OR THAT CONTRACTOR WILL CORRECT ALL PROGRAM ERRORS. TO THE EXTENT PERMITTED BY LAW, THESE WARRANTIES ARE EXCLUSIVE AND THERE ARE NO OTHER EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS, INCLUDING WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

3. Remedies. FOR ANY BREACH OF THE ABOVE WARRANTIES, THE STATE'S EXCLUSIVE REMEDY, AND CONTRACTOR'S ENTIRE LIABILITY, WILL BE: (A) THE CORRECTION OF PROGRAM ERRORS THAT CAUSE BREACH OF THE WARRANTY, OR IF THE CONTRACTOR CANNOT SUBSTANTIALLY CORRECT SUCH BREACH IN A COMMERCIALY REASONABLE MANNER, THE STATE MAY END ITS PROGRAM LICENSE AND RECOVER THE FEES PAID TO THE CONTRACTOR FOR THE PROGRAM LICENSE AND ANY UNUSED, PREPAID TECHNICAL SUPPORT FEES THE STATE HAS PAID FOR THE PROGRAM LICENSE; OR (B) THE REPERFORMANCE OF THE DEFICIENT SERVICES, OR IF THE CONTRACTOR CANNOT SUBSTANTIALLY

CORRECT A BREACH IN A COMMERCIALLY REASONABLE MANNER, THE STATE MAY END THE RELEVANT SERVICES AND RECOVER THE FEES PAID TO THE CONTRACTOR FOR THE DEFICIENT SERVICES.

4. Indemnity.

a. The Contractor agrees to indemnify the State against all claims arising from bodily injury and/or tangible personal property damage resulting from the negligent or intentionally wrongful actions or omissions of the Contractor, its employees, officers, directors, subcontractors, agents, or representatives in the performance of this Contract to the extent such actions or omissions were not caused by the State or any third party. As used above, the term "tangible personal property" shall not include software, documentation, data or data files.

b. **Infringement Indemnification.** If someone makes a claim against the State that any information, design, specification, instruction, software, data, Programs, Program, or material ("Material") furnished by the Contractor and used by the State infringes its intellectual property rights, the Contractor will indemnify the State against the claim.

If the Contractor believes or it is determined that any of the Material may have violated someone else's intellectual property rights, the Contractor may choose to either modify the Material to be non-infringing (while substantially preserving its utility or functionality) or obtain a license to allow for continued use, or if these alternatives are not commercially reasonable, the Contractor may end the license for, and require return of, the applicable Material and refund any fees the State may have paid for it and any unused, prepaid technical support fees the State has paid for the license. The Contractor will not indemnify the State if the State alters the Material or use it outside the scope of use identified in the user Documentation or if the State uses a version of the Materials that has been superseded, if the infringement claim could have been avoided by using an unaltered current version of the Material, which was provided to the State. The Contractor will not indemnify the State to the extent that an infringement claim is based upon any information, design, specification, instruction, software, data, or material not furnished to the State by or through the Contractor. The Contractor will not indemnify the State to the extent that an infringement claim is based upon the combination of any Material with any products or services not provided by the Contractor. This section provides the State's exclusive remedy for any infringement claims or damages.

In order for the Contractor's indemnity obligations specified in this Part IV.4 to apply, the State must do the following:

- notify the Contractor promptly in writing, not later than 30 days after the State receives notice of the claim (or sooner if required by applicable law);
- give the Contractor sole control of the defense and any settlement negotiations, subject to the approval and consent of the Ohio Attorney General; and
- give the Contractor the information the State has, authority (subject to the approval and consent of the Ohio Attorney General), and assistance the Contractor reasonably needs to defend against or settle the claim.

5. LIMITATION OF LIABILITY. NEITHER PARTY SHALL BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES, OR ANY LOSS OF PROFITS, REVENUE, DATA, OR DATA USE. EXCEPT AS SET FORTH IN THE FOLLOWING PARAGRAPH, A PARTY'S MAXIMUM LIABILITY FOR ANY DAMAGES ARISING OUT OF OR RELATING TO THIS AGREEMENT (WHETHER IN CONTRACT, TORT OR OTHERWISE) SHALL BE LIMITED TO THE FEES PAID OR PAYABLE TO ORACLE UNDER THIS AGREEMENT, AND IF SUCH DAMAGES RESULT FROM THE STATE'S USE OF PROGRAMS OR SERVICES, SUCH LIABILITY SHALL BE LIMITED TO THE FEES THE STATE PAID ORACLE FOR THE DEFICIENT PROGRAM OR SERVICES GIVING RISE TO THE LIABILITY. THE PARTIES AGREE TO THE ALLOCATION OF LIABILITY SET FORTH IN THIS SECTION AND ACKNOWLEDGE THAT WITHOUT THEIR AGREEMENT TO THE LIMITATION CONTAINED HEREIN, THE PARTIES WOULD NOT HAVE ENTERED INTO THIS AGREEMENT.

The limitation stated in the second sentence above of this section shall not apply to (A) the Contractor's obligation to defend and indemnify under Part IV.4 of this Contract. The limitation stated in the second sentence of this section shall not apply to the State's failure to pay any fees due under this Contract or to violation of the Contractor's intellectual property rights.

PART V: SOFTWARE SUPPORT

1. For purposes of the Schedule, technical support consists of annual technical support services the State may have ordered for the Programs. If ordered, annual technical support (including first year and all subsequent years) is provided under the Contractor's technical support policies in effect at the time the services are provided. The technical support policies, incorporated in this Contract, are subject to change at the Contractor's discretion; however, the Contractor will not materially reduce the level of services provided for supported Programs during the period for

which fees for technical support have been paid. The Contractor's policies for the applicable services are available for the State's review prior to its entering into a Schedule. The State may access the current version of the technical support policies at <http://oracle.com/contracts>.

Technical support is effective upon the effective date of the Schedule, unless otherwise stated in the State's order. If the State's order was placed through the Oracle Store, the effective date is the date the State's order was accepted by the Contractor.

Software Update License & Support (or any successor technical support offering to Software Update License & Support, "SULS") acquired with the State's order may be renewed annually and, if the State renews SULS for the same number of licenses for the same Programs, for the first and second renewal years the fee for SULS will not increase by more than 4 % over the prior year's fees. If the State's order is fulfilled by a member of the Contractor's partner program, the fee for SULS for the first renewal year will be the price quoted to the State by its partner; the fee for SULS for the second renewal year will not increase by more than 4% over the prior year's fees.

If the State decides to purchase technical support for any license within a license set, the State is required to purchase technical support at the same level for all licenses within that license set. The State may desupport a subset of licenses in a license set only if the State agrees to terminate that subset of licenses. The technical support fees for the remaining licenses will be priced in accordance with the technical support policies in effect at the time of termination. If you decide not to purchase technical support, you may not update any unsupported Program license with new versions of the Program.

A license set consists of (i) all of a customer's licenses of a program, (ii) licenses of a program which share the same source code (e.g., Database Enterprise Edition, Database Standard Edition, Database Standard Edition One, and Personal Edition; or Application Server Enterprise Edition, Application Server Standard Edition, and Application Server Java Edition), (iii) licenses of a program which include an option specified on the price list (e.g., Database Enterprise Edition and Enterprise Edition Options; Purchasing and Purchasing Options), and (iv) licenses of a program which include a self-service module specified on the price list (e.g., Human Resources and Self-Service Human Resources). Development and demonstration licenses available through the Oracle Partner Network or the Oracle Technology Network are not included in the definition of a license set.

In the event that technical support lapses or was not originally purchased, upon the commencement of technical support a reinstatement fee will be assessed. The reinstatement fee is equal to 150% of the last-paid support fee, or 150% of the last-published list technical support price for the licensed program less the applicable standard discount as published on the Oracle Store ("standard discount") in effect at the time of reinstatement if support was not originally purchased for the relevant programs, prorated from the date technical support is being ordered back to the date technical support lapsed (or the license order date if technical support was never purchased). Applicable renewal adjustments are applied. Once the reinstatement fee has been assessed, technical support for the year following the reinstatement period may be purchased for an additional technical support fee as calculated based on how long the licensed program has been unsupported ("go-forward support fee"). If the lapsed support period is less than 6 months, the go-forward support fee is calculated based on the last-published list technical support price less the applicable standard discount in effect at the time of reinstatement. If the lapsed support period is 6 months or greater, the go-forward support fee is calculated based on the last-paid support fee. If support is not reinstated for the entire license set or if support for a subset of licenses from a Schedule is reinstated, then the "License Set", "Matching Service Levels", and "Pricing following Reduction of Licenses or Support Level" policies will apply. Applicable renewal adjustments are applied to the reinstatement fee and go-forward support fee. Notwithstanding the above paragraph, Oracle agrees that the State will have a 90-day grace period for the payment of its technical support fees before the requirement to pay a reinstatement fee becomes effective; provided however that the State renews technical support prior to the expiration of its technical support contract and pays Oracle for the fees due for period of the lapsed support at the expiration of the grace period.

The Contractor offers Premier Support for all of its software products. Premier Support is offered from the general availability of a program through at least Year 5 and provides updates, fixes and security alerts; tax, legal, and regulatory updates; upgrade scripts; technical support; major product and technology releases, access to its Customer Service Website, and certification with new third-party products/versions.

2. Follow-on Software. If the Contractor makes successor products available for its software product lines ("New Software") that includes substantially similar functionality and features as a Program for which the State has purchased a Program License ("Old Software"), the Contractor will provide Licensee with a migration path from the

Old Software to the New Software and the right to use the New Software under this Contract at no additional charge, provided that (i) the State is current on Technical Support for the Old Software; (ii) this right shall only apply to New Software that is available in production release status on the operating system identified by the State at the time of the request; and (iii) the Contractor is currently making available such migration path from the Old Software to the New Software to all of its other supported customers without additional charge.

If the Contractor does not provide to all of its supported customers a migration path from the Old Software to the New Software free of additional charge, then the Contractor will provide the State with the right to use only the functionality and features contained in the New Software that is substantially similar to the functionality and features contained in the Old Software. The State shall not have the right to use nor shall it use any additional functionality or features in such New Software. All use of New Software shall otherwise be subject to this Contract.

3. Functionality Migration. If the Contractor eliminates functionality material to the use or performance of any Software licensed under this Contract ("Original Software") and then includes the functionality in a new product ("New Software"), the Contractor must grant the State a license to use the migrated functionality of such New Software, but not to any other functionality in the New Software, if (i) the New Software is in production release and listed on the Contractor's global price list, (ii) the State is a subscriber to Support for the Original Software at the time the New Software is available and is entitled to receive subsequent releases of the Original Software, and (iii) the New Software is available for the same operating system or technical environment as the Original Software and (iv) such restricted license of the New Software is provided at no charge generally to other customers who are current subscribers to technical support. The license granted to the State for the New Software will be (i) pursuant to the terms and conditions of this Contract and the applicable Schedule governing the Original Software, (ii) subject to the use restrictions and other limitations for the Original Software in this Contract and applicable Schedule, (iii) granted without the payment of additional fees other than fees for Support which would otherwise be due for the Original Software.

PART VI: CONSTRUCTION

1. Entire document. This Contract will apply to all software that the State acquires under a schedule which incorporates this Contract which is signed by the duly authorized representatives of the parties. Furthermore, this Contract, along with the schedules and addenda entered into under it and the information which is incorporated into this Contract by written reference (including reference to information contained in a URL or referenced policy), is the entire agreement between the parties with respect to its subject matter, and it supersedes any previous or contemporaneous statements or agreements, whether oral or written. It is expressly agreed that the terms of this Contract and any Schedule will supersede the terms in any purchase order or other ordering document.

2. Additional Documents. All terms and conditions contained in any document not signed by both parties, such as a purchase order, invoice, or a click-wrap license, are excluded from this Contract and will have no legal effect.

3. Binding effect. Subject to the limitations on assignment provided elsewhere in this Contract, this Contract will be binding upon and inure to the benefit of the respective successors and assigns of the State and the Contractor.

4. Amendments. No amendment or modification of any provision of this Contract will be effective unless it is in writing and signed by both parties.

5. Waiver. The failure of either party at any time to demand strict performance by the other party of any of the terms of this Contract will not be construed as a waiver or a relinquishment of any such term. Either party may at any later time demand strict and complete performance by the other party of such a term.

6. Severability. If any provision of this Contract is held by a court of competent jurisdiction to be contrary to applicable law, the remaining provisions of this Contract will remain in full force and effect to the extent that such does not create an absurdity or material injustice.

7. Plain meaning. This Contract must be construed in accordance with the plain meaning of its language and neither for nor against the drafting party.

8. Headings. The headings used herein are for the sole sake of convenience and may not be used to interpret any section.

9. Notices. For any notice under this Contract to be effective, it must be made in writing and sent to the address of the appropriate party first appearing above or set forth below, unless that party has notified the other party, in

accordance with the provisions of this section, of a new mailing address for notices. If the State has a dispute with the Contractor or if the State wishes to provide a notice under the Indemnification section of this Contract, the State will promptly send written notice to: Oracle USA, Inc., 500 Oracle Parkway, Redwood City, California, United States, 94065, Attention: General Counsel, Legal Department.. All notices from the Contractor to the State will be sent to: State of Ohio, Office of Information Technology ("OIT"), IT Governance Division, 30 East Broad Street, Columbus, Ohio 43215.

10. Continuing obligations. To the extent necessary to carry out their purpose, the terms of this contract will survive the termination of this contract. Some such provisions that require survival to carry out their full intent include the indemnity, warranty, and limitation of liability provisions. Other examples include the confidentiality section, the escrow section, the payment of obligations, and the grant of software licenses. Additional provisions include the support obligations for existing licenses, and the pricing section with respect to related software licenses and caps on increases in support for existing licenses.

11. Counterparts. This contract may be executed simultaneously in two or more counterparts, each of which will be deemed an original, but all of which together will constitute one and the same instrument.

PART VII: LAW AND COURTS

1. Compliance with law. The parties will comply with all applicable federal, state, and local laws in all endeavors under this contract.

2. Export Restrictions. The State may not directly or indirectly export or transmit the Software or Documentation to any country in violation of any applicable US regulation, order, or statute.

3. UCITA. The Uniform Computer Information Transactions Act ("UCITA") will not apply to this Contract. To the extent that UCITA, or any version of it that is adopted by any jurisdiction in any form, is applicable, the parties agree to opt out of it pursuant to the opt-out provisions contained therein. Likewise, the United Nations Convention on Contracts for the International Sale of Goods will not apply to this Contract.

4. Injunctive relief. Nothing in this Contract is intended to limit either party's right to injunctive relief if such is necessary to protect its interests or to keep it whole.

5. Governing law. The laws of Ohio will govern this Contract, excluding its laws dealing with conflict of law.

6. Action Limitation. Except for breach of the Contractor's proprietary rights, no action, regardless of form, arising out of or relating to this Contract may be brought by either party more than two years after the cause of action has accrued.

PART VIII: MISCELLANEOUS

1. Conflict of Interest. No Contractor Personnel may voluntarily acquire any personal interest that conflicts with their responsibilities under this Contract. Further, the Contractor will not knowingly permit any Ohio public official or public employee who has any responsibilities related to this Contract to acquire any interest in anything or any entity under the Contractor's control, if such an interest would conflict with that official's or employee's duties. The Contractor will disclose to the State knowledge of any such person who acquires an incompatible or conflicting personal interest related to this Contract. And the Contractor will take steps to ensure that such a person does not participate in any action affecting the work under this Contract. But this will not apply when the State has determined, in light of the personal interest disclosed, that the person's participation in any such action would not be contrary to the public interest.

2. Assignment. The State may not assign this Contract or give or transfer the Programs and/or any services or an interest in them to another individual or entity, except as expressly permitted under this Contract, without the prior, written consent of the Contractor. If the State grants a security interest in the Programs and/or any services deliverables, the secured party has no right to use or transfer the Programs and/or any services deliverables. Except in the event of a merger, consolidation, acquisition, internal restructuring, or sale of all or substantially all of the assets of the Contractor, the Contractor may not assign this without the State's prior written consent. Any such assignment, unless otherwise agreed in writing, is contingent on the assignee assuming all the assignor's rights and obligations under this Contract.

3. Independent Status. Each party is an independent contractor. Neither party will have any authority to bind the other unless expressly agreed in writing. Nothing in this Contract may be construed to create a partnership, agency, or employer-employee relationship between the Contractor and the State, and in no event will the Contractor and the State be deemed joint employers.

4. Employees. All Contractor Personnel are employees or contractors of the Contractor, and none are or will be deemed employees or contractors of the State. No Contractor Personnel will be entitled to participate in, claim benefits under, or become an "eligible employee" for purposes of any employee benefit plan of the State by reason of the subject matter of this Contract or work performed under this Contract. The Contractor must pay all federal, state, local, and other applicable payroll taxes and make the required contributions, withholdings, and deductions imposed or assessed under any provision of any law, rule, or regulation and measured by wages, salaries, or other remuneration paid by or which may be due from the Contractor to the Contractor Personnel.

5. Publicity. The Contractor will not advertise that it is doing business with the State or use this Contract as a marketing or sales tool without the State's prior, written consent.

6. Cancellation / Termination. If either party breaches a material term of this Contract and fails to correct the breach within 30 days of written notice of the breach, then the breaching party is in default and the non-breaching party may terminate this Contract. If the Contractor ends this Contract as specified in the preceding sentence, the State must pay within 30 days all amounts which have accrued prior to the end of this Contract, as well as all sums remaining unpaid for Programs and support delivered under this Contract. Except for nonpayment of fees, the non-breaching party may agree in its sole discretion to extend the 30-day period for so long as the breaching party continues reasonable efforts to cure the breach. The State agrees that if the State is in default under this Contract, the State may not use those Programs and/or services ordered. On expiration or termination of this Contract for any reason other than the State's default or termination under Part IV.4, the State retains its right to use the license Programs in accordance with the terms of this Contract.

This Contract will remain in effect until the end of the current biennium. The State may renew this Contract in the next biennium by issuing written notice to the Contractor of the decision to do so. This expiration and renewal procedure will also apply to the end of any subsequent biennium during which this Contract remains in place. All perpetual licenses acquired before termination will continue under the terms and conditions of this Contract, along with both parties' rights and obligations with respect to such licenses.

Notwithstanding the above paragraph, the State represents that its funds are contingent on the availability of lawful appropriations by the Ohio General Assembly or other funding source. If the Ohio General Assembly or other funding source fails to continue funding for the payments due under an order referencing this Contract, the State will notify the Contractor in writing and the State will have no further obligation to make any payments; provided however, that (a) the State agrees to pay for all Programs received and for all services performed by the Contractor prior to the Contractor's receipt of the State's notice and (b) the State's issuance of a purchase order to Oracle is its representation to the Contractor that funds for that purchase have been fully appropriated and are presently available.

With respect to the rights of cancellation / termination set forth above, (a) only the State Entity signing this agreement may exercise these rights as to the Contract and/or any orders it places and (b) all other State Entities may exercise rights of termination only with respect to their individual orders.

7. EEO. The Contractor must comply with all Ohio laws, rules, and Executive Orders of the Governor of Ohio regarding equal employment opportunity, including Ohio Revised Code Section 125.111.

8. Drug Free Workplace. The Contractor must comply with all applicable Ohio laws regarding maintaining a drug-free workplace. The Contractor will make a good faith effort to ensure that all its employees, while working on the State's property, do not possess and will not be under influence of illegal drugs or alcohol or abuse prescription drugs.

9. Ohio Ethics & Election Law. The Contractor certifies that it is currently in compliance and will continue to adhere to the applicable requirements of the Ohio ethics laws. In accordance with Executive Order 2007-01S, the Contractor, by signature on this Contract, certifies: (1) it has reviewed and understands Executive Order 2007-01S, (2) has reviewed and understands the Ohio ethics and conflicts of interest laws, and (3) will take no action inconsistent with those laws and this order. The Contractor understands that failure to comply with Executive Order 2007-01S is, in itself, grounds for termination of this Contract and may result in the loss of other contracts or grants with the State. The Contractor also certifies that all applicable parties listed in Division (I)(3) or (J)(3) of Ohio Revised Code Section 3517.13 are in full compliance with Divisions (I)(1) or (J)(1) of Ohio Revised Code Section 3517.13, as applicable.

10. Travel Expenses. Any travel or living expenses required by the Contractor to do its obligations under this Contract will be at the Contractor's expense. The State will pay for any additional travel that it requests only with prior, written approval. All additional travel and living expenses that the State requests in addition to what this Contract requires the Contractor to provide at the Contractor's expense will be paid in accordance with the Office of Budget and Management's Travel Rules in Section 126-1.02 of the Ohio Administrative Code.

11. Order of Priority. If there is any inconsistency or conflict between this Contract, the Schedule, and any provision of anything incorporated by reference, including Exhibit A, which the Contractor may update from time to time, this Contract or the applicable Schedule(s) will prevail.

12. Record Keeping. The Contractor must keep all financial records in accordance with generally accepted accounting principles consistently applied. The Contractor will file documentation to support each action under this Contract in a manner allowing it to be readily located.

13. Audits. During the term of this Contract and for three years after the payment of any fee to the Contractor under this Contract, on reasonable written notice and during customary business hours, the State may audit the Contractor's financial records and materials that relate to this payments made under this Contract. This audit right will also apply to the State's duly authorized representatives and any person or organization providing the State with financial support related to this Contract, if the State has satisfactory confidentiality agreements in place to protect the Contractor's financial records and materials from unauthorized disclosure.

Upon 45 days written notice, Contractor may audit the State's use of the Software. The State agrees to cooperate with Contractor's audit and provide reasonable assistance and access to information. Any such audit shall not unreasonably interfere with the State's normal business operations. The State agrees to pay within 30 days of written notification any fees applicable to its use of the Software in excess of its license rights. If the State does not pay, Contractor can end the State's technical support, licenses and/or this Contract. The State agrees that Contractor shall not be responsible for any of the State's costs incurred in cooperating with the audit.

14. Ohio Revised Code Section 9.24. Contractor warrants that it is not subject to an unresolved finding for recovery under Ohio Revised Code Section 9.24. If this warranty was false on the date the parties signed this Contract, the Contract is void. Further, if the Contractor is subject to an unresolved finding of the Auditor of State under Revised Code Section 9.24 on any date on which the parties renew or extend this Contract, the renewal or extension will be void.

15. Declaration Regarding Terrorism. Pursuant to Ohio Revised Code Section 2909.33, unless Contractor has been pre-certified, the Contractor must complete a Declaration Regarding Material Assistance/non-assistance to Terrorist Organizations ("Declaration") in its entirety to enter into this Contract and to renew it. If the State discovers that the Contractor submitted a false Declaration to obtain this Contract or any renewal of it, this Contract will terminate for cause. Should this Contract require renewal for completion of any services the Contractor performs under it or for the State to obtain maintenance for any Deliverable acquired during the term of this Contract, the Contractor must submit a new Declaration as part of that process. The Contractor's failure to submit an acceptable Declaration in such a situation will entitle the State to terminate this Contract for cause. In the event of a termination for cause under this Agreement, the State may seek appropriate judicial remedies.

16. Technical Support Policies. The current version of the Contractor's Technical Support policies is attached as Exhibit A and incorporated herein. The Contractor may update these policies from time to time provided they apply equally to all of the Contractor's customers of its Technical Support.

TO SHOW THEIR AGREEMENT, the parties have executed this Contract as of the dates appearing below.

EXHIBIT A TO THE SOFTWARE LICENSE AND MAINTENANCE SUPPORT AGREEMENT

Technical Support Policies

Effective Date: 01-FEBRUARY-2008

OVERVIEW

Unless otherwise stated, these Technical Support Policies apply to technical support for all Oracle product lines. These Technical Support Policies may be referred to in former PeopleSoft agreements as the "Software Support Services Terms and Conditions", in former Siebel agreements as the "Maintenance Services Policy", in former Hyperion agreements as the "Standard Maintenance Program", and in former Agile agreements as the "product support policy".

"You" and "your" refers to the individual or entity that has ordered technical support from Oracle or an authorized distributor.

To receive technical support as provided by Oracle Support Services ("OSS") and described in the Oracle Technical Support Levels section below, all programs must be properly licensed.

Technical support is provided for issues (including problems created by you) that are demonstrable in the currently supported release(s) of an Oracle licensed program, running unaltered, and on an appropriate hardware, database and operating system configuration, as specified in your order or program documentation. Product release and supported platforms information for all Oracle programs other than Cimmetry AutoVue and Vuelink programs ("Cimmetry programs"), Netsure programs and Bridgestream programs is available through Oracle's web-based customer support systems as described in the Web-Based Customer Support Systems section below. Product release and supported platforms information for Cimmetry programs is available in the AutoVue Administration Guide that is included with the Cimmetry program documentation. Product release and supported platforms information for Netsure programs will be provided to you in writing. Product release and supported platforms information for Bridgestream programs is available on <http://www.bridgestream.com/>.

Oracle will provide technical support in accordance with Oracle's privacy policy available at <http://www.oracle.com/html/privacy.html>.

These Technical Support Policies are subject to change at Oracle's discretion, however the services provided will not be materially reduced during the support period (defined below).

To view changes that have been made, please refer to the attached [Statement of Changes](#) (PDF).

SUPPORT TERMS

Technical Support Fees

Technical support fees are due and payable annually in advance of a support period, unless otherwise stated in the relevant ordering document or financing or payment contract with Oracle or an Oracle affiliate. Your commitment to pay is required to process your technical support order with Oracle (e.g., purchase order, actual payment, or other approved method of payment). An invoice will be issued only upon receipt of your commitment to pay, and will be sent to a single billing address as designated by you. Failure to submit payment will result in the termination of support.

Support Period

Technical support is effective upon the effective date of your ordering document unless stated otherwise in your ordering document. If your order was placed through the Oracle Store, the effective date is the date your order was accepted by Oracle. Unless otherwise stated in the ordering document, Oracle technical support terms, including pricing, reflect a 12 month support period (the "support period"). All technical support services ordered for a support period and the

related fees are non-cancelable and non-refundable. Oracle is not obligated to provide technical support beyond the end of the support period unless your technical support contract is renewed on or before the service expiration date.

License Set

A license set consists of (i) all of your licenses of a program, including any options* (e.g., Database Enterprise Edition and Enterprise Edition Options; Purchasing and Purchasing Options), Enterprise Manager* (e.g., Database Enterprise Edition and Diagnostics Pack), or self-service module* (e.g., Human Resources and Self-Service Human Resources) licensed for such programs, or (ii) all of your licenses of a program which share the same source code**. Development and demonstration licenses available through the Oracle Partner Network or the Oracle Technology Network are not included in the definition of a license set.

*As specified on Oracle's price list.

**Programs which share the same source code are:

- Database Enterprise Edition, Database Standard Edition, Database Standard Edition One, and Personal Edition, and
- Application Server Enterprise Edition, Application Server Standard Edition, and Application Server Java Edition).

Matching Service Levels

When acquiring technical support, all licenses in any given license set must be supported under the same technical support service level (e.g., Software Update License & Support or unsupported). You may not support a subset of licenses within a license set; the license set must be reduced by terminating any unsupported licenses. You will be required to document license terminations via a termination letter.

Reinstatement of Oracle Technical Support

In the event that technical support lapses or was not originally purchased, upon the commencement of technical support a reinstatement fee will be assessed. The reinstatement fee is equal to 150% of the last-paid support fee, or 150% of the last-published list technical support price for the licensed program less the applicable standard discount as published on the Oracle Store ("standard discount") in effect at the time of reinstatement if support was not originally purchased for the relevant programs, prorated from the date technical support is being ordered back to the date technical support lapsed (or the license order date if technical support was never purchased). Applicable renewal adjustments are applied. Once the reinstatement fee has been assessed, technical support for the year following the reinstatement period may be purchased for an additional technical support fee as calculated based on how long the licensed program has been unsupported ("go-forward support fee"). If the lapsed support period is less than 6 months, the go-forward support fee is calculated based on the last-published list technical support price less the applicable standard discount in effect at the time of reinstatement. If the lapsed support period is 6 months or greater, the go-forward support fee is calculated based on the last-paid support fee. If support is not reinstated for the entire license set or if support for a subset of licenses from an ordering document is reinstated, then the "License Set", "Matching Service Levels", and "Pricing following Reduction of Licenses or Support Level" policies will apply. Applicable renewal adjustments are applied to the reinstatement fee and go-forward support fee.

Pricing following Reduction of Licenses or Support Level

Pricing for support is based upon the level of support and the volume of licenses for which support is ordered. In the event that a subset of licenses on a single order is terminated or if the level of support is reduced, support for the remaining licenses on that license order will be priced at Oracle's list price for support in effect at the time of termination or reduction minus the applicable standard discount. Such support price will not exceed the previous support fees paid for both the remaining licenses and the licenses being terminated or unsupported, and will not be

reduced below the previous support fees paid for the licenses continuing to be supported. If the license order from which licenses are being terminated established a price hold for additional licenses, support for all of the licenses ordered pursuant to the price hold will be priced at Oracle's list price for support in effect at the time of reduction minus the applicable standard discount.

Custom Application Bundles

Technical support may not be discontinued for a single program module within a custom application bundle.

Unsupported Programs

Customers with unsupported programs do not receive updates, maintenance releases, patches, telephone assistance, or any other technical support services for the unsupported programs. CD packs or programs purchased or downloaded for trial use, use with other supported programs, or purchased or downloaded as replacement media may not be used to update any unsupported programs.

Technical Contacts

Your technical contacts are the sole liaisons between you and OSS for technical support of programs. It is the recommended standard that your technical contacts are trained representatives of your company. Such training shall include initial basic product training and, as needed, supplemental training appropriate for specific role or implementation phase, specialized product usage, and/or migration. Your technical contacts should be knowledgeable about the Oracle programs and your Oracle environment in order to help resolve system issues and to assist Oracle in analyzing and resolving service requests. When submitting a service request, your technical contact should have a baseline understanding of the problem you are encountering and an ability to reproduce the problem in order to assist Oracle in diagnosing and triaging the problem. To avoid interruptions in support services, you must notify OSS whenever technical contact responsibilities are transferred to another individual.

With the order of Software Update License & Support, you may designate one (1) primary and four (4) backup individuals ("technical contact") per license set, to serve as liaisons with OSS. With each USD\$250,000 in net support fees per license set, you have the option to designate an additional two (2) primary and four (4) backup technical contacts. Your primary technical contact shall be responsible for (i) overseeing your service request activity, and (ii) developing and deploying troubleshooting processes within your organization. The backup technical contacts shall be responsible for resolving user issues. You may be charged a fee to designate additional technical contacts.

Oracle may review service requests logged by your technical contacts, and may recommend specific training to help avoid service requests that would be prevented by such training.

Program Updates

"Update" means a subsequent release of the program which Oracle generally makes available for program licenses to its supported customers at no additional license fee, other than shipping charges if applicable, provided you have ordered a technical support offering that includes software updates for such licenses for the relevant time period. Updates do not include any release, option or future program that Oracle licenses separately. Updates are provided when available, and Oracle is under no obligation to develop any future programs or functionality.

Any updates made available will be delivered to you, or made available to you for download. If delivered, you will receive one update copy for each supported operating system for which your program licenses were ordered. You shall be responsible for copying, downloading and installing the updates.

Payment Plan, Financing and Leasing Agreements

Technical support fees due under payment plans, financing or leasing agreements between you and Oracle or an Oracle affiliate ("payment plan") are due and payable in accordance with the terms and conditions of such payment plan, but the technical support shall be ordered pursuant to the terms of the applicable ordering document.

Lifetime Support

Lifetime Support consists of the following service levels:

- "Premier Support" which refers to the first 5 years of basic technical support services (also referred to as, and will be documented on your ordering document as, "Software Update License & Support")
- Extended Support (if offered)
- Sustaining Support

A description of the services available under Premier Support, Extended Support and Sustaining Support is included in the Oracle Technical Support Levels section below.

When offered, Premier Support will be available for five years from the date a release of the Oracle program becomes generally available, except as noted below.

Based on availability, support may be extended for an additional three years with Extended Support for specific releases.

Alternatively, support may be extended with Sustaining Support which will be available for as long as you maintain technical support for your Oracle licenses.

Refer to the attached document titled "Lifetime Support Policy: Coverage for Applications & Server Technologies" (PDF) for specific server technology and application programs that are, or will be, covered by the Lifetime Support policy.

Notes:

1. Active Reasoning, ContextMedia, Interlace Systems, LogicalApps, Notiva, and Sigma Dynamics, and other programs and releases that have already had desupport dates posted on OracleMetaLink are excluded from the Lifetime Support policy.
2. For PeopleSoft Enterprise programs that have been retired under the previous 4-year support policy, Sustaining Support will be available for as long as you maintain technical support for these programs.
3. Tax updates and regulatory changes* will be made available for up to six (6) years from the release date of the licensed software for PeopleSoft Enterprise, JD Edwards EnterpriseOne and JD Edwards World programs. Upgrade scripts, new software patches, and fixes to the latest release will be made available for five (5) years from the release date of the licensed software for PeopleSoft Enterprise, JD Edwards EnterpriseOne and JD Edwards World programs.

*Tax updates and regulatory changes refers to those updates that address tax and/or regulatory changes which are generally made available to similarly situated licensees of PeopleSoft software, on a when and if available basis only.

4. Oracle's PeopleTools program, which was purchased in conjunction with an application program release, will be supported for as long as such application program release is supported. PeopleTools fixes are delivered in minor releases and patches; patches are provided on the current minor release only. Patches and platform certifications for a

PeopleTools minor release are created when that release becomes generally available and will be supported for twelve (12) months after the next minor release becomes generally available.

To receive technical support, you may be required to apply a minor release upgrade of PeopleTools to remain current with versions of third party technologies and products as supported by the provider of the third party product.

5. For certain Oracle Retail application program releases* prior to release 11, limited Premier Support will be available for seven years from when that release became generally available. For Oracle Retail applications for which Premier Support is not available, Sustaining Support will be available for as long as you maintain technical support for these programs.

*formerly Retek, ProfitLogic, and 360 Commerce

6. For supported customers, the Extended Support fee for Oracle9i Database Release 9.2 has been waived for the period August 1, 2007 to July 31, 2008. During this period, you will receive access to generally available fixes and critical patch updates ("CPUs") for such supported Oracle9i Database Release 9.2 programs, at no additional cost other than your fees for Software Update License & Support (or any successor technical support offering to Software Update License & Support). Effective August 1, 2007, fixes and CPUs will be created against Oracle Database version 9.2.0.8 only.
7. For Oracle's Cimmety programs, Oracle generally will make Premier Support available for 2 years following general availability of a release, after which Sustaining Support will be available for as long as you maintain technical support for your Oracle licenses. Premier Support for Cimmety programs will be documented on your ordering document as Software Update License & Support or Cimmety Maintenance.
8. For supported customers whose Oracle application programs are only certified on Oracle9i Database Release 9.2 and the release for such application programs is currently supported under Premier Support or Extended Support, the Extended Support fee for Oracle9i Database Release 9.2 has been waived for the period August 1, 2008 to July 31, 2010. During this period, you will receive access to generally available fixes and critical patch updates ("CPUs") for such supported application programs running on the Oracle9i Database Release 9.2, at no additional cost other than your fees for Software Update License & Support (or any successor technical support offering to Software Update License & Support). A list of applications that are certified on Oracle9i Database Release 9.2 is available at <http://www.oracle.com/support/collateral/tsp-certified-applications.pdf>.

Right to Desupport

It may become necessary as a part of Oracle's product lifecycle to desupport certain program releases and, therefore, Oracle reserves the right to desupport certain program releases. Program releases that are designated as subject to Premier Support under Oracle's Lifetime Support policy are excluded. If Agile, Cimmety, Netsure, Bridgestream, or LogicalApps programs are desupported, you will be notified of such desupport directly by OSS. For all other Oracle programs, desupport information, including desupport dates, information about availability of Extended Support and Sustaining Support, and information about migration paths for certain features, is posted on OracleMetaLink, Customer Connection, and e-Support. Desupport information is subject to change. For Agile, Cimmety, Netsure, Bridgestream and LogicalApps programs, updated desupport information will be provided to you in writing. For all other Oracle programs, Oracle will provide updated desupport information on OracleMetaLink, Customer Connection, and e-Support as necessary.

First and Second Line Support

It is the recommended standard that you establish and maintain the organization and processes to provide "First Line Support" for the supported programs directly to your users. First Line Support shall include but not be limited to (i) a direct response to users with respect to inquiries concerning the performance, functionality or operation of the supported programs, (ii) a direct response to users with respect to problems or issues with the supported programs, (iii) a diagnosis of problems or issues of the supported programs, and (iv) a resolution of problems or issues of the supported programs.

If after reasonable commercial efforts you are unable to diagnose or resolve problems or issues of the supported programs, you shall contact Oracle for "Second Line Support". You shall use commercially reasonable efforts to provide Oracle with the necessary access (e.g., access to repository files, log files, or database extracts) required to provide Second Line Support. Oracle does not ensure its performance of the technical support described herein if such access is not provided by you when requested by Oracle.

Second Line Support shall include but not be limited to (i) a diagnosis of problems or issues of the supported programs and (ii) reasonable commercial efforts to resolve reported and verifiable errors in supported programs so that such supported programs perform in all material respects the functions described in the associated documentation.

Oracle may review service requests logged by your technical contacts, and may recommend specific organization and process changes to assist you with the above recommended standard practices.

Third Party Vendor-Specific Support Terms

You must remain on a supported environment – including applications and platforms – to receive technical support. If a vendor retires support for its product, you may be required to upgrade to a current certified application, hardware platform, framework, database and/or operating system configuration to continue receiving technical support services from Oracle.

PeopleSoft and JD Edwards Release Information

Release information for PeopleSoft Enterprise and JD Edwards EnterpriseOne programs is available in the attached table titled, "[Release Types for PeopleSoft Enterprise and JD Edwards EnterpriseOne Applications](#)" (PDF).

Hyperion-Specific and Agile-Specific Support Terms

For orders placed pursuant to a Hyperion master agreement or to an Agile master agreement, the following terms apply with respect to the technical support services you have ordered.

Warranties, Disclaimers, and Exclusive Remedies

Oracle warrants that technical support services will be provided in a professional manner consistent with industry standards. You must notify Oracle of any technical support services warranty deficiencies within 90 days from performance of the defective technical support services.

FOR ANY BREACH OF THE ABOVE WARRANTIES, YOUR EXCLUSIVE REMEDY, AND ORACLE'S ENTIRE LIABILITY, SHALL BE THE REPERFORMANCE OF THE DEFICIENT TECHNICAL SUPPORT SERVICES, OR IF ORACLE CANNOT SUBSTANTIALLY CORRECT A BREACH IN A COMMERCIALLY REASONABLE MANNER, YOU MAY END THE RELEVANT TECHNICAL SUPPORT SERVICES AND RECOVER THE FEES PAID TO ORACLE FOR THE DEFICIENT TECHNICAL SUPPORT SERVICES.

TO THE EXTENT PERMITTED BY LAW, THESE WARRANTIES ARE EXCLUSIVE AND THERE ARE NO OTHER EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS,

INCLUDING WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Limitation of Liability

NEITHER PARTY SHALL BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES, OR ANY LOSS OF PROFITS, REVENUE, DATA, OR DATA USE. ORACLE'S MAXIMUM LIABILITY FOR ANY DAMAGES ARISING OUT OF OR RELATED TO YOUR ORDER, WHETHER IN CONTRACT OR TORT, OR OTHERWISE, SHALL BE LIMITED TO THE AMOUNT OF THE FEES YOU PAID ORACLE UNDER YOUR ORDER, AND IF SUCH DAMAGES RESULT FROM YOUR USE OF TECHNICAL SUPPORT SERVICES, SUCH LIABILITY SHALL BE LIMITED TO THE FEES YOU PAID ORACLE FOR THE DEFICIENT TECHNICAL SUPPORT SERVICES GIVING RISE TO THE LIABILITY.

For orders placed pursuant to a Hyperion master agreement, the following terms also apply with respect to the technical support services you have ordered.

Nondisclosure

By virtue of your order, the parties may have access to information that is confidential to one another ("confidential information"). We each agree to disclose only information that is required for the performance of obligations under your order. Confidential information shall be limited to the terms and pricing under your order and all information clearly identified as confidential at the time of disclosure.

A party's confidential information shall not include information that: (a) is or becomes a part of the public domain through no act or omission of the other party; (b) was in the other party's lawful possession prior to the disclosure and had not been obtained by the other party either directly or indirectly from the disclosing party; (c) is lawfully disclosed to the other party by a third party without restriction on the disclosure; or (d) is independently developed by the other party.

We each agree to hold each other's confidential information in confidence for a period of three years from the date of disclosure. Also, we each agree to disclose confidential information only to those employees or agents who are required to protect it against unauthorized disclosure. Nothing shall prevent either party from disclosing the terms or pricing under your order in any legal proceeding arising from or in connection with your order or disclosing the confidential information to a federal or state governmental entity as required by law.

ORACLE TECHNICAL SUPPORT LEVELS

Software Update License & Support

Program releases in the Premier Support phase of Oracle's product support lifecycle will receive Software Update License & Support. Software Update License & Support is the standard level for all Oracle support services and consists of:

- Program updates, fixes, security alerts, and critical patch updates
- Tax, legal, and regulatory updates
- Upgrade scripts
- Certification with most new third-party products/versions
- Major product and technology releases, which includes general maintenance releases, selected functionality releases, and documentation updates
- Assistance with service requests 24 hours per day, 7 days a week
- Access to Oracle*MetaLink*, Customer Connection, or e-Support* (24 x 7 web-based customer support systems), including the ability to log service requests online
- Non-technical customer service during normal business hours

* For PeopleSoft Enterprise, JD Edwards EnterpriseOne and JD Edwards World programs, web-based support is provided through Customer Connection. For Hyperion programs, web-based support is provided through e-Support. For all other Oracle programs, web-based support is provided through OracleMetaLink.

Due to the unique constraints of the early releases of former Retek, ProfitLogic, and 360 Commerce retail applications, limited Software Update License & Support will be available for certain releases prior to release 11. The limited Software Update License & Support will consist of:

- Program updates and fixes
- Major product and technology releases
- Assistance with service requests 24 hours per day, 7 days per week
- Access to OracleMetaLink (24 x 7 web-based customer support systems), including the ability to log service requests online
- Non-technical customer service during normal business hours

Please review the Oracle Retail chart included in the "[Lifetime Support Policy: Coverage for Applications & Server Technologies](#)" (PDF) document for coverage information on your specific release.

Limited Software Update License & Support will be available for Cimmetry programs. The limited Software Update License & Support will consist of:

- Program updates, fixes, security alerts, and critical patch updates
- Major product and technology releases, which includes general maintenance releases, selected functionality releases, and documentation updates
- Assistance with service requests Monday through Friday during local business hours, excluding holidays; local business hours are 9:00 A.M. to 5:00 P.M. Eastern Time of the North America region
- Ability to log service requests online using the Web form available at <http://www.cimmetry.com/techsup.nsf/WebTechsupForm?OpenForm>
- Non-technical customer service during local business hours

Limited Software Update License & Support will be available for Agile programs. The limited Software Update License & Support will consist of:

- Program updates, fixes, security alerts, and critical patch updates
- Major product and technology releases, which includes general maintenance releases, selected functionality releases, and documentation updates
- Assistance with service requests Monday through Friday during local business hours, excluding holidays; local business hours are 9:00 A.M. to 5:00 P.M. Pacific Time of the North America region
- Access to Customer Portal (24 x 7 web-based customer support system), including the ability to log service requests online
- Non-technical customer service during local business hours

Limited Software Update License & Support will be available for Netsure programs. The limited Software Update License & Support will consist of:

- Program updates, fixes, security alerts, and critical patch updates
- Major product and technology releases, which includes general maintenance releases, selected functionality releases, and documentation updates

- Assistance with service requests Monday through Friday during local business hours, excluding holidays; local business hours are 9:00 A.M. to 5:00 P.M. GMT
- Ability to log service requests via e-mail (support@Netsure.com) or telephone (3 53.1.80.31920)
- Non-technical customer service during local business hours

Limited Software Update License & Support will be available for Bridgestream programs. The limited Software Update License & Support will consist of:

- Program updates, fixes, security alerts, and critical patch updates
- Major product and technology releases, which includes general maintenance releases, selected functionality releases, and documentation updates
- Assistance with service requests Monday through Friday during local business hours, excluding holidays; local business hours are 7:00 A.M. to 7:00 P.M. Pacific Time of the North America region
- Ability to log service requests via e-mail (support@Bridgestream.com) or telephone
- Non-technical customer service during local business hours

Limited Software Update License & Support will be available for LogicalApps programs. The limited Software Update License & Support will consist of:

- Program updates, fixes, security alerts, and critical patch updates
- Major product and technology releases, which includes general maintenance releases, selected functionality releases, and documentation updates
- Assistance with service requests Monday through Friday during local business hours, excluding holidays; local business hours are 7:00 A.M. to 5:00 P.M. Pacific Time of the North America region
- Access to Customer Center Portal (24 x 7 web-based customer support system), including the ability to log service requests online
- Non-technical customer service during local business hours

Enterprise Linux Support Services

Effective October 25, 2006, Oracle will offer Enterprise Linux support services to customers, regardless of whether or not they are using Oracle programs. For information about the available services, please refer to the Enterprise Linux and Oracle VM Support Policies available at <http://www.oracle.com/support/collateral/enterprise-linux-support-policies.pdf>.

Oracle VM Support Services

Effective November 14, 2007, Oracle will offer Oracle VM support services to customers, regardless of whether or not they are using Oracle programs. For information about the available services, please refer to the Enterprise Linux and Oracle VM Support Policies available at <http://www.oracle.com/support/collateral/enterprise-linux-support-policies.pdf>.

Priority Service

Priority Service is available for program releases eligible to receive Premier, Extended, or Sustaining Support. Priority Service consists of:

- Prioritization of Service Requests: Service requests will be prioritized above service requests of the same severity level submitted by Premier Support customers
- Service Request Response Guidelines: Reasonable efforts will be made to respond to service requests per the following guidelines:
 - 90% of Severity 1 service requests submitted by you will be responded to within 1 hour (available 24x7)

- o 90% of Severity 2 service requests submitted by you will be responded to within 2.5 local business hours
- o 90% of Severity 3 service requests submitted by you will be responded to within the next local business day
- o 90% of Severity 4 service requests submitted by you will be responded to within the next local business day
- Time-based internal escalations for Severity 1 and Severity 2 service requests
- Designated Oracle service manager who is responsible for assisting in the management of service requests, and providing service reviews
- Priority response from Oracle's Product Development team for product bugs initiated for the resolution of service requests
- 24x7 access to a customer-specific web portal
- Quarterly service reviews
- Pre-recorded orientation session
- Priority access to Oracle-sponsored events, as made available to Priority Service customers
- Access to monthly web conference sessions featuring Oracle executives and/or Oracle product technology experts
- Quarterly live chats with senior Oracle product technology experts and/or management, available exclusively to Priority Service customers

In order to acquire Priority Service for a license set, you must acquire Software Update License & Support for that license set. If you have maintained Software Update License & Support and want to purchase Priority Service for a license set, the licenses do not need to be migrated to current license metrics to do so.

Priority Service is not subject to the Reinstatement policies stated above. Priority Service is not available for all programs. Please contact your Support Sales Representative for service availability.

Incident Server Support Package

Incident Server Support provides web-based technical support on a per server basis in packages of 10 service requests, and is available for as long as Premier Support is available for your Oracle licenses. The Incident Server Support Packages do not include updates and may not be used, purchased, or sold in conjunction with any other support offering. If you want to obtain Software Update License & Support, it will be subject to Oracle's reinstatement policies in effect at the time of reinstatement. Incident Server Support is available for the following limited product sets, across all platforms:

- Oracle Database Server Support Package: Oracle Database Enterprise Edition, Oracle Database Standard Edition, Oracle Database Standard Edition One, Partitioning, Real Application Clusters
- Oracle Application Server Support Package: Internet Application Server Enterprise Edition, Internet Application Server Standard Edition, Internet Application Server Java Edition

Incident Server Support Packages are valid for one year from the date of purchase. Any unused service request(s) expire at the end of such term. Access to OracleMetaLink expires at the same time the final service request is resolved. Your service request total will not be decreased by the number of service requests initiated for the resolution of a product bug. Incident Server Support includes:

- Access to OracleMetaLink (24x7 web-based technical support system), including the ability to log service requests online
- Access to downloadable software patches and patchsets

JDeveloper Support

JDeveloper Support is made available for Oracle JDeveloper that has been downloaded from the Oracle Technology Network after June 28, 2005. JDeveloper Support consists of:

- Assistance with service requests 24 hours per day, 7 days a week
- Access to Oracle*MetaLink* (24 x 7 web-based technical support system), including the ability to log service requests online
- Non-technical customer service during normal business hours (e.g., assistance with support identification numbers, assistance with logging into Oracle*MetaLink*)

Service Request Packages

Service Request Packages are made available to members of the Oracle Partner Network. Service Request Packages provide web-based technical support in packages of 10 or 25 service requests, do not include updates, and are not available for all programs. Please contact your OPN Interaction Center (<http://partner.oracle.com/>) for program availability.

Service Request Packages are valid for one year from the date of purchase. Any unused service request(s) will expire at the earlier of (i) the end of such year, or (ii) the end of your OPN membership term if such membership is not renewed. Access to log service requests will be restricted at the same time the final service request is resolved.

Extended Support

Extended Support may be available for certain Oracle program releases after Premier Support expires. When Extended Support is offered, it is generally available for three years following the expiration of Premier Support and only for the terminal patchset release of a program.

Program releases eligible for Extended Support will receive Software Update License & Support limited to the following:

- Program updates, fixes, security alerts, and critical patch updates
- Tax, legal and regulatory updates
- Upgrade scripts
- Major product and technology releases, which includes general maintenance releases, selected functionality releases, and documentation updates
- Assistance with service requests 24 hours per day, 7 days per week
- Access to Oracle*MetaLink*, Customer Connection, e-Support, Customer Portal, or Customer Center Portal (24 x 7 web-based customer support systems), including the ability to log service requests online
- Non-technical customer service during normal business hours

Extended Support does not include:

- Certification with new third party products/versions

Sustaining Support

Sustaining Support will be available after Premier Support expires. Program releases eligible for Sustaining Support will receive Software Update License & Support limited to the following:

- Program updates, fixes, security alerts, and critical patch updates created during the Premier Support period, and created during the Extended Support period for those customers who purchased Extended Support.
- Tax, legal, and regulatory updates created during the Premier Support period
- Upgrade scripts created during the Premier Support period

- Major product and technology releases, which includes general maintenance releases, selected functionality releases, and documentation updates
- Assistance with service requests, on a commercially reasonable basis, 24 hours per day, 7 days a week
- Access to Oracle*MetaLink*, Customer Connection, e-Support, Customer Portal, or Customer Center Portal (24 x 7 web-based customer support systems), including the ability to log service requests online
- Non-technical customer service during normal business hours

Sustaining Support does not include:

- New program updates, fixes, security alerts, and critical patch updates
- New tax, legal and regulatory updates
- New upgrade scripts
- Certification with new third party products/versions
- 24 hour commitment and response guidelines for Severity 1 service requests as defined in the Severity Level section below

Because program releases supported by Sustaining Support are no longer fully supported, information and skills regarding those releases may be limited. The availability of hardware systems to run such program releases may also be limited.

North American Payroll Tax Updates

North American Payroll Tax Updates is available for programs eligible to receive Sustaining Support. Customers who acquire North American Payroll Tax Updates will receive a tax year of tax updates for Oracle payroll applications.

In order to acquire North American Payroll Tax Updates, your licensed programs must be currently supported with Software Update License & Support. If you have maintained Software Update License & Support and want to acquire North American Payroll Tax Updates, the licenses do not need to be migrated to current license metrics to do so.

North American Payroll Tax Updates will be delivered through Customer Connection (for PeopleSoft Enterprise, JD Edwards EnterpriseOne and JD Edwards World programs), or through Oracle*MetaLink* (for all other Oracle programs).

When offered, North American Payroll Tax Updates may be acquired for up to two (2) years from the availability of Sustaining Support for the applicable Oracle program release. North American Payroll Tax Updates is not subject to the Reinstatement policies stated above. North American Payroll Tax Updates is not available in all countries or for all programs. Please contact your Support Sales Representative for service availability.

Cimmetry Maintenance

Cimmetry Maintenance consists of:

- Program updates, fixes, security alerts, and critical patch updates
- Major product and technology releases, which includes general maintenance releases, selected functionality releases, and documentation updates
- Assistance with service requests Monday through Friday during local business hours, excluding holidays; local business hours are 9:00 A.M. to 5:00 P.M. Eastern Time of the North America region
- Ability to log service requests online using the Web form available at <http://www.cimmetry.com/techsup.nsf/WebTechsupForm?OpenForm>
- Non-technical customer service during local business hours

PREVIOUS TECHNICAL SUPPORT OFFERINGS

A list of technical support offerings that were previously offered by Oracle, or a company acquired by Oracle, is available at <http://www.oracle.com/support/collateral/tsp-previous-offerings.pdf>. The information contained within this list consists of a description of the service offering, date when new sales of the services was eliminated, and renewal options.

WEB-BASED CUSTOMER SUPPORT SYSTEMS

The following policy for Web-Based Customer Support Systems applies to all Oracle product lines except PeopleSoft Enterprise, JD Edwards EnterpriseOne, JD Edwards World, Cimmety, Hyperion, Agile, Netsure, Bridgstream and LogicalApps:

OracleMetaLink is one of Oracle's five customer support web sites. Access to OracleMetaLink is governed by the Terms of Use posted on the OracleMetaLink web site, which are subject to change. A copy of these terms is available upon request. Access to OracleMetaLink is limited to your designated technical contacts. Access to OracleMetaLink is included with Software Update License & Support, Priority Service, Incident Server Support, JDeveloper Support, Extended Support, and Sustaining Support. For customers with a current Software Updates service contract, limited access to OracleMetaLink is included for patches and bug fix information.

The following policy for Web-Based Customer Support Systems applies to PeopleSoft Enterprise, JD Edwards EnterpriseOne, and JD Edwards World programs only:

Customer Connection is Oracle's second customer support web site. Access to Customer Connection is governed by the Terms of Use (PDF) posted on the Customer Connection web site, which are subject to change. A copy of these terms is available upon request. Access to Customer Connection is included with Software Update License & Support, Extended Support, Sustaining Support, and PeopleSoft World Support Service and is limited to your designated technical contacts.

The following policy for e-Support applies to Hyperion programs only:

e-Support is Oracle's third customer support web site. Access to e-Support is governed by the Terms of Use posted on the e-Support web site at <http://esupport.hyperion.com/>, which are subject to change. A copy of these terms is available upon request. Access to e-Support is limited to your designated technical contacts. Access to e-Support is included with Software Update License & Support.

The following policy for Customer Portal applies to Agile programs only:

Customer Portal is Oracle's fourth customer support web site. Access to Customer Portal is governed by the Terms of Use posted on the Customer Portal web site at <http://support.agilesoft.com>, which are subject to change. A copy of these terms is available upon request. Access to Customer Portal is limited to your designated technical contacts. Access to Customer Portal is included with Software Update License & Support.

The following policy for Customer Center Portal applies to LogicalApps programs only:

Customer Center Portal is Oracle's fifth customer support web site. Access to Customer Center Portal is governed by the Terms of Use posted on the Customer Center Portal web site at <http://support.logicalapps.com>, which are subject to change. A copy of these terms is available upon request. Access to Customer Center Portal is limited to your designated technical contacts. Access to Customer Center Portal is included with Software Update License & Support.

ORACLE COLLABORATIVE SUPPORT

Oracle may make available software tools (such as tools to assist in the collection and transmission of configuration data) and web-based tools (such as tools that enable Oracle, with your consent, to access your computer system) to aid in the resolution of service requests. Such tools may be used only in connection with supported program licenses, and use of the tools will be subject to any additional license and other terms provided with the tools.

SEVERITY DEFINITIONS

Service requests for supported Cimmety programs may be submitted by you either online using the Web form available at <http://www.cimmety.com/techsup.nsf/WebTechsupForm?OpenForm> or by telephone by dialing +1 514-735-9941. Service requests for all other supported Oracle programs may be submitted by you either online through Oracle's web-based customer support systems or by telephone. The service request severity level is selected by you and Oracle and should be based on the following severity definitions:

Severity 1

Your production use of the supported programs is stopped or so severely impacted that you cannot reasonably continue work. You experience a complete loss of service. The operation is mission critical to the business and the situation is an emergency. A Severity 1 service request has one or more of the following characteristics:

- Data corrupted
- A critical documented function is not available
- System hangs indefinitely, causing unacceptable or indefinite delays for resources or response
- System crashes, and crashes repeatedly after restart attempts

For all supported Oracle programs other than Agile, Cimmety, Netsure and Bridgestream programs, reasonable efforts will be made to respond to Severity 1 service requests within one (1) hour. For Agile programs, reasonable efforts will be made to respond to Severity 1 service requests within four (4) hours during local business hours, excluding holidays; local business hours are Monday through Friday 9:00 A.M. to 5:00 P.M. Pacific Time of the North America region. For Netsure programs, reasonable efforts will be made to respond to Severity 1 service requests within one (1) business day during local business hours, excluding holidays; local business hours are Monday through Friday 9:00 A.M. to 5:00 P.M. GMT. For Bridgestream programs, reasonable efforts will be made to respond to Severity 1 service requests within one (1) business day during local business hours, excluding holidays; local business hours are Monday through Friday 7:00 A.M. to 7:00 P.M. Pacific Time of the North America region.

24 Hour Commitment to Severity 1 Service Requests for all supported Oracle programs other than Agile, Cimmety, Netsure and Bridgestream programs: OSS will work 24x7 until the issue is resolved or as long as useful progress can be made. You must provide OSS with a contact during this 24x7 period, either on site or by pager, to assist with data gathering, testing, and applying fixes. You are requested to propose this severity classification with great care, so that valid Severity 1 situations obtain the necessary resource allocation from Oracle.

Severity 2

You experience a severe loss of service. Important features are unavailable with no acceptable workaround; however, operations can continue in a restricted fashion.

Severity 3

You experience a minor loss of service. The impact is an inconvenience, which may require a workaround to restore functionality.

Severity 4

You request information, an enhancement, or documentation clarification regarding your software but there is no impact on the operation of the software. You experience no loss of service. The result does not impede the operation of a system.

CONTACT INFORMATION

Phone numbers and contact information can be found on Oracle's support web site at <http://www.oracle.com/support/contact.html>.

AMENDMENT ONE

SOFTWARE LICENSE AND MAINTENANCE SUPPORT AGREEMENT MASTER CONTRACT FOR SOFTWARE LICENSING (MLA NUMBER ML00024)

The State of Ohio, through the Department of Administrative Services (the "State"), located at 30 East Broad Street, 40th Floor, Columbus, Ohio 43215, on behalf of the State of Ohio, and Oracle USA, Inc. (the "Contractor") entered into a Master License and Maintenance Support Agreement Renewal (the "Contract") on May 28, 2008.

This is a renewal (the "Renewal") of that Contract. The term of the Contract will be extended until June 30, 2011.

On renewal, the Contract will be modified by replacing its Exhibit A, Technical Support Policies, with the new Exhibit A, attached hereto.

All other terms remain the same.

TO SHOW THEIR AGREEMENT, the parties have executed this Renewal on the date(s) below.

ORACLE USA, INC.

**STATE OF OHIO
Department of Administrative Services**

By: Glenda Sekati

Effective Date: 6/10/09

Technical Support Policies

Effective Date: 15-May-2008

OVERVIEW

Unless otherwise stated, these Technical Support Policies apply to technical support for all Oracle product lines.

These Technical Support Policies may be referred to in former PeopleSoft agreements as the "Software Support Services Terms and Conditions", in former Siebel agreements as the "Maintenance Services Policy", in former Hyperion agreements as the "Standard Maintenance Program", in former Agile agreements as the "product support policy", in former BEA agreements as the "Support Services" policies, in former Haley agreements as the "Support Maintenance Agreement", and in former mValent agreements as the "Maintenance and Technical Support Agreement."

"You" and "your" refers to the individual or entity that has ordered technical support from Oracle or an authorized distributor.

To receive technical support as provided by Oracle Support Services ("OSS") and described in the Oracle Technical Support Levels section below, all programs must be properly licensed.

Technical support is provided for Issues (including problems created by you) that are demonstrable in the currently supported release(s) of an Oracle licensed program, running unaltered, and on an appropriate hardware, database and operating system configuration, as specified in your order or program documentation.

Product release and supported platforms information for all Oracle programs, other than Global Knowledge Software, Haley, and mValent, is available through Oracle's web-based customer support systems as described in the Web-Based Customer Support Systems section below.

Product release and supported platforms information for the following programs will be provided to you in writing:

- Global Knowledge Software
- Haley
- mValent

Oracle will provide technical support in accordance with Oracle's privacy policy available at <http://www.oracle.com/finl/privacy.html>.

These Technical Support Policies are subject to change at Oracle's discretion, however the services provided will not be materially reduced during the support period (defined below).

To view changes that have been made, please refer to the attached Statement of Changes (PDF).

SUPPORT TERMS

Technical Support Fees

Technical support fees are due and payable annually in advance of a support period, unless otherwise stated in the relevant ordering document or financing or payment contract with Oracle or an Oracle affiliate. Your commitment to pay is required to process your technical support order with Oracle (e.g., purchase order, actual payment, or other approved method of payment). An invoice will be issued only upon receipt of your commitment to pay, and will be sent to a single billing address as designated by you. Failure to submit payment will result in the termination of support.

Support Period

Technical support is effective upon the effective date of your ordering document unless stated otherwise in your ordering document. If your order was placed through the Oracle Store, the effective date is the date your order was accepted by Oracle. Unless otherwise stated in the ordering document, Oracle technical support terms, including pricing, reflect a 12 month support period (the "support period"). All technical support services ordered for a support period and the related fees are non-cancelable and non-refundable. Oracle is not obligated to provide technical support beyond the end of the support period unless your technical support contract is renewed on or before the service expiration date.

License Set

A license set consists of (i) all of your licenses of a program, including any options* (e.g., Database Enterprise Edition and Enterprise Edition Options; Purchasing and Purchasing Options), Enterprise Manager* (e.g., Database Enterprise Edition and Diagnostics Pack), or self-service module* (e.g., Human Resources and Self-Service Human Resources) licensed for such programs, or (ii) all of your licenses of a program that share the same source code**. Development and demonstration licenses available through the Oracle Partner Network or the Oracle Technology Network are not included in the definition of a license set. For Crystal Ball programs, a license set is defined as the same licenses of a program contained on a single order.

*As specified on Oracle's price list.

**Programs that share the same source code are:

- Database Enterprise Edition, Database Standard Edition, Database Standard Edition One, and Personal Edition.
- Internet Application Server Enterprise Edition, Internet Application Server Standard Edition, Internet Application Server Standard Edition One, and Internet Application Server Java Edition.
- WebLogic Server Enterprise Edition, WebLogic Server Standard Edition, WebLogic Suite, and WebLogic Application Grid.

Matching Service Levels

When acquiring technical support, all licenses in any given license set must be supported under the same technical support service level (e.g., Software Update License & Support or unsupported). If you add Extended Support, you still must maintain Software Update License & Support for the entire license set; subject to availability, you must acquire Extended Support for all licenses of a particular version release of a program if you acquire Extended Support for any license in such version release. You may not support a subset of licenses within a license set; the license set must be reduced by terminating any unsupported licenses. You will be required to document license terminations via a termination letter.

Reinstatement of Oracle Technical Support

In the event that technical support lapses or was not originally purchased upon the commencement of technical support a reinstatement fee will be assessed. The reinstatement fee is equal to 150% of the last paid support fee, or 150% of the last published list technical support price for the licensed program less the applicable standard discount as published on the Oracle Store ("standard discount") in effect at the time of reinstatement if support was not originally purchased for the relevant programs, prorated from the date technical support is being ordered back to the date technical support lapsed (or the license order date if technical support was never purchased). Applicable renewal adjustments are applied. Once the reinstatement fee has been assessed, technical support for the year following the reinstatement period may be purchased for an additional technical support fee as calculated based on how long the licensed program has been unsupported ("go-forward support fee"). If the lapsed support period is less than 6 months, the go-forward support fee is calculated based on the last published list technical support price.

less the applicable standard discount in effect at the time of reinstatement. If the lapsed support period is 6 months or greater, the go-forward support fee is calculated based on the last-paid support fee. If support is not reinstated for the entire license set or if support for a subset of licenses from an ordering document is reinstated, then the "License Set", "Matching Service Levels", and "Pricing following Reduction of Licenses or Support Level" policies will apply. Applicable renewal adjustments are applied to the reinstatement fee and go-forward support fee.

Pricing following Reduction of Licenses or Support Level

Pricing for support is based upon the level of support and the volume of licenses for which support is ordered. In the event that a subset of licenses on a single order is terminated or if the level of support is reduced, support for the remaining licenses on that license order will be priced at Oracle's list price for support in effect at the time of termination or reduction minus the applicable standard discount. Such support price will not exceed the previous support fees paid for both the remaining licenses and the licenses being terminated or unsupported, and will not be reduced below the previous support fees paid for the licenses continuing to be supported. If the license order from which licenses are being terminated established a price hold for additional licenses, support for all of the licenses ordered pursuant to the price hold will be priced at Oracle's list price for support in effect at the time of reduction minus the applicable standard discount.

Custom Application Bundles

Technical support may not be discontinued for a single program module within a custom application bundle.

Unsupported Programs

Customers with unsupported programs do not receive updates, maintenance releases, patches, telephone assistance, or any other technical support services for the unsupported programs. CD packs or programs purchased or downloaded for trial use, use with other supported programs, or purchased or downloaded as replacement media may not be used to update any unsupported programs.

Technical Contacts

Your technical contacts are the sole liaisons between you and OSS for technical support of programs. It is the recommended standard that your technical contacts are trained representatives of your company. Such training shall include initial basic product training and, as needed, supplemental training appropriate for specific role or implementation phase, specialized product usage, and/or migration. Your technical contacts should be knowledgeable about the Oracle programs and your Oracle environment in order to help resolve system issues and to assist Oracle in analyzing and resolving service requests. When submitting a service request, your technical contact should have a baseline understanding of the problem you are encountering and an ability to reproduce the problem in order to assist Oracle in diagnosing and triaging the problem. To avoid interruptions in support services, you must notify OSS whenever technical contact responsibilities are transferred to another individual.

With the order of Software Update License & Support, you may designate one (1) primary and four (4) backup individuals ("technical contact") per license set, to serve as liaisons with OSS. With each USD\$250,000 in net support fees per license set, you have the option to designate an additional two (2) primary and four (4) backup technical contacts. Your primary technical contact shall be responsible for (i) overseeing your service request activity, and (ii) developing and deploying troubleshooting processes within your organization. The backup technical contacts shall be responsible for resolving user issues. You may be charged a fee to designate additional technical contacts.

Oracle may review service requests logged by your technical contacts, and may recommend specific training to help avoid service requests that would be prevented by such training.

Program Updates

"Update" means a subsequent release of the program which Oracle generally makes available for program licenses to its supported customers at no additional license fee, other than shipping charges if applicable, provided you have ordered a technical support offering that includes software updates for such licenses for the relevant time period. Updates do not include any release, option or future program that Oracle licenses separately. Updates are provided when available (availability is determined by Oracle) and updates may not include all versions previously available for a program acquired by Oracle. Oracle is under no obligation to develop any future programs or functionality. Any updates made available will be delivered to you, or made available to you for download. If delivered, you will receive one update copy for each supported operating system for which your program licenses were ordered. You shall be responsible for copying, downloading and installing the updates.

Oracle Configuration Manager

Oracle provides Oracle Configuration Manager (OCM) with some of its programs. The OCM is a tool that assists in the collection and transmission of your configuration data to Oracle to enable us to respond more efficiently to your service requests. The OCM tool will connect to Oracle over the Internet. You may not receive a separate notice upon connection. You may turn the OCM tool off, however we strongly discourage this as it impedes our ability to provide services to you. More information on the tool is available at <http://www.oracle.com/technology/documentation/ucm.html>. By using this tool, you consent to the transmission of your configuration information to Oracle.

OCM will not access, collect or store any personally identifiable information (except for technical support contact information) or business data files residing in your software environment. Configuration data provided to Oracle by software tools will be stored in password-protected repositories. It will be used to assist in resolving service requests and to provide recommendations regarding configuration of your environment and deployment of programs. In addition, because the configuration information will be updated, it may be used by Oracle to assist you in managing your Oracle product portfolio, for license and services compliance and to help Oracle improve upon product and service offerings for you.

Payment Plan, Financing and Leasing Agreements

Technical support fees due under payment plans, financing or leasing agreements between you and Oracle or an Oracle affiliate ("payment plan") are due and payable in accordance with the terms and conditions of such payment plan, but the technical support shall be ordered pursuant to the terms of the applicable ordering document.

Lifetime Support

Lifetime Support consists of the following service levels:

- "Premier Support" (also referred to as, and will be documented on your ordering document as, "Software Update License & Support")
- Extended Support (if offered)
- Sustaining Support

A description of the services available under Premier Support, Extended Support and Sustaining Support is included in the Oracle Technical Support Levels section below.

When offered, Premier Support will be available for five years from the date a release of the Oracle program becomes generally available, except as noted below.

Based on availability, support may be extended for an additional three years with Extended Support for specific releases.

Alternatively, support may be extended with Sustaining Support, which will be available for as long as you maintain technical support for your Oracle licenses.

Refer to the attached document titled "Lifetime Support Policy: Coverage for Server Technologies" (PoF) for specific server technology programs that are, or will be, covered by the Lifetime Support policy.

Refer to the attached document titled "Lifetime Support Policy: Coverage for Applications" (PoF) for specific application programs that are, or will be, covered by the Lifetime Support policy.

Refer to the attached document titled "Lifetime Support Policy: Coverage for Retail Applications" (PoF) for specific Retail application programs that are, or will be, covered by the Lifetime Support policy.

Notes:

1. Active Reasoning, ContextMedia, Ntiva, and Sigma Dynamics, and other programs and releases that have already had desupport dates posted on [OracleMetaLink](#) are excluded from the Lifetime Support policy.
2. For PeopleSoft Enterprise programs that have been retired under the previous 4-year support policy, Sustaining Support will be available for as long as you maintain technical support for these programs.
3. Tax updates and regulatory changes* will be made available for up to six (6) years from the release date of the licensed software for PeopleSoft Enterprise, JD Edwards EnterpriseOne and JD Edwards World programs. Upgrade scripts, new software patches, and fixes to the latest release will be made available for five (5) years from the release date of the licensed software for PeopleSoft Enterprise, JD Edwards EnterpriseOne and JD Edwards World programs.

*Tax updates and regulatory changes refers to those updates that address tax and/or regulatory changes which are generally made available to similarly situated licensees of PeopleSoft software, on a when and if available basis only.

4. Oracle's PeopleTools program, which was purchased in conjunction with an application program release, will be supported for as long as such application program release is supported. PeopleTools fixes are delivered in minor releases and patches; patches are provided on the current minor release only. Patches and platform certifications for a PeopleTools minor release are created when that release becomes generally available and will be supported for twelve (12) months after the next minor release becomes generally available.

To receive technical support, you may be required to apply a minor release upgrade of PeopleTools to remain current with versions of third party technologies and products as supported by the provider of the third party product.

5. For certain Oracle Retail application program releases* prior to release 11, limited Premier Support will be available for seven years from when that release became generally available. For Oracle Retail applications for which Premier Support is not available, Sustaining Support will be available for as long as you maintain technical support for these programs.

*formerly Retek, Profitlogic, and 360 Commerce

6. Extended Support:

- (a) For supported customers whose Oracle application programs are only certified on Oracle®i Database Release 9.2 and the release for such application programs is currently supported under Premier Support or Extended Support, the Extended Support fee for Oracle®i Database Release 9.2 has been waived for the period August 1, 2008 to July 31, 2010. During this period, you will receive access to generally available fixes and critical patch updates ("CPUs") for such supported application programs running on the Oracle®i Database Release 9.2, at no additional cost other than your fees for Software Update License & Support (or any successor technical support offering to Software Update License & Support). A list of applications that are certified on Oracle®i Database Release 9.2 is available at <http://www.oracle.com/support/collateral/tsu-certific-applications.pdf>.
- (b) Extended Support for the Hyperion Pre-System 9 programs will be offered for the period October 1, 2008 to September 30, 2009. The Extended Support fee for this period has been waived for those program licenses for which customers have paid the System 9 Enablement Fee and for which technical support is continuously maintained.
- (c) Extended Support for PeopleSoft Enterprise HRMS 8.8 has been extended one year, from December 2010 to December 2011.
- (d) For supported customers, the Extended Support fee has been waived for the program releases and periods noted below. During these periods, you will receive access to generally available fixes, tax*, legal*, and regulatory updates*, and critical patch updates ("CPUs") at no additional cost other than your fees for Software Update License & Support (or any successor technical support offering to Software Update License & Support).

Program Release	Period of Extended Support Waiver
Oracle e-Business Suite 11/10	December 2010 – November 2011
JD Edwards EnterpriseOne 8.11*	January 2010 - December 2010
Siebel CRM 7.8	June 2010 – May 2011
Oracle Database 10gR2	August 2010 – July 2011
PeopleSoft Enterprise 8.9*	July 2009 – June 2011

- 7. For the first year of Sustaining Support for Oracle E-Business Suite Release 11/9 (July 1, 2008 – June 30, 2009), Oracle will provide fixes for Severity 1 production bugs. No legislative updates will be provided with the exception of U.S. Tax Form 1099 updates for the 2008 tax year. For the second year of Sustaining Support for Oracle e-Business Suite Release 11/9 (July 1, 2009 – June 30, 2010), Oracle will continue to provide fixes for Severity 1 production bugs. No legislative updates will be provided with the exception of U.S. Tax Form 1099 updates for the 2009 tax year.

Right to Desupport

It may become necessary as a part of Oracle's product lifecycle to desupport certain program releases and, therefore, Oracle reserves the right to desupport certain program releases. Program releases that are designated as subject to Premier Support under Oracle's Lifetime Support policy are excluded. If Global Knowledge Software, Haley, or mValent programs are desupported, you will be notified of such desupport directly by OSS. For all other Oracle

programs, desupport information, including desupport dates, information about availability of Extended Support and Sustaining Support, and information about migration paths for certain features, is posted on [OracleMetaLink](#), and POINT Support Portal. Desupport information is subject to change. For Global Knowledge Software, Haley, and mValent programs, updated desupport information will be provided to you in writing. For all other Oracle programs, Oracle will provide updated desupport information on [OracleMetaLink](#) and POINT Support Portal as necessary.

First and Second Line Support

It is the recommended standard that you establish and maintain the organization and processes to provide "First Line Support" for the supported programs directly to your users. First Line Support shall include but not be limited to (i) a direct response to users with respect to inquiries concerning the performance, functionality or operation of the supported programs, (ii) a direct response to users with respect to problems or issues with the supported programs, (iii) a diagnosis of problems or issues of the supported programs, and (iv) a resolution of problems or issues of the supported programs.

If after reasonable commercial efforts you are unable to diagnose or resolve problems or issues of the supported programs, you shall contact Oracle for "Second Line Support". You shall use commercially reasonable efforts to provide Oracle with the necessary access (e.g., access to repository files, log files, or database extracts) required to provide Second Line Support. Oracle does not ensure its performance of the technical support described herein if such access is not provided by you when requested by Oracle.

Second Line Support shall include but not be limited to (i) a diagnosis of problems or issues of the supported programs and (ii) reasonable commercial efforts to resolve reported and verifiable errors in supported programs so that such supported programs perform in all material respects the functions described in the associated documentation.

Oracle may review service requests logged by your technical contacts, and may recommend specific organization and process changes to assist you with the above recommended standard practices.

Third Party Vendor-Specific Support Terms

You must remain on a supported environment – including applications and platforms – to receive technical support. If a vendor retires support for its product, you may be required to upgrade to a current certified application, hardware platform, framework, database and/or operating system configuration to continue receiving technical support services from Oracle.

PeopleSoft and JD Edwards Release Information

Release information for PeopleSoft Enterprise and JD Edwards EnterpriseOne programs is available in the attached table titled, "[Release Types for PeopleSoft Enterprise and JD Edwards EnterpriseOne Applications](#)" (PDF).

Hyperion-Specific and Agile-Specific Support Terms

For orders placed pursuant to a Hyperion master agreement or to an Agile master agreement, the following terms apply with respect to the technical support services you have ordered.

Warranties, Disclaimers, and Exclusive Remedies

Oracle warrants that technical support services will be provided in a professional manner consistent with industry standards. You must notify Oracle of any technical support services warranty deficiencies within 90 days from performance of the defective technical support services.

FOR ANY BREACH OF THE ABOVE WARRANTIES, YOUR EXCLUSIVE REMEDY, AND ORACLE'S ENTIRE LIABILITY, SHALL BE THE REPERFORMANCE OF THE DEFICIENT TECHNICAL SUPPORT SERVICES, OR IF ORACLE CANNOT SUBSTANTIALLY CORRECT A BREACH IN A COMMERCIALLY REASONABLE MANNER, YOU MAY END THE RELEVANT TECHNICAL SUPPORT SERVICES AND RECOVER THE FEES PAID TO ORACLE FOR THE DEFICIENT TECHNICAL SUPPORT SERVICES.

TO THE EXTENT PERMITTED BY LAW, THESE WARRANTIES ARE EXCLUSIVE AND THERE ARE NO OTHER EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS, INCLUDING WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Limitation of Liability

NEITHER PARTY SHALL BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES, OR ANY LOSS OF PROFITS, REVENUE, DATA, OR DATA USE. ORACLE'S MAXIMUM LIABILITY FOR ANY DAMAGES ARISING OUT OF OR RELATED TO YOUR ORDER, WHETHER IN CONTRACT OR TORT, OR OTHERWISE, SHALL BE LIMITED TO THE AMOUNT OF THE FEES YOU PAID ORACLE UNDER YOUR ORDER, AND IF SUCH DAMAGES RESULT FROM YOUR USE OF TECHNICAL SUPPORT SERVICES, SUCH LIABILITY SHALL BE LIMITED TO THE FEES YOU PAID ORACLE FOR THE DEFICIENT TECHNICAL SUPPORT SERVICES GIVING RISE TO THE LIABILITY.

For orders placed pursuant to a Hyperion master agreement, the following terms also apply with respect to the technical support services you have ordered.

Nondisclosure

By virtue of your order, the parties may have access to information that is confidential to one another ("confidential information"). We each agree to disclose only information that is required for the performance of obligations under your order. Confidential information shall be limited to the terms and pricing under your order and all information clearly identified as confidential at the time of disclosure.

A party's confidential information shall not include information that: (a) is or becomes a part of the public domain through no act or omission of the other party; (b) was in the other party's lawful possession prior to the disclosure and had not been obtained by the other party either directly or indirectly from the disclosing party; (c) is lawfully disclosed to the other party by a third party without restriction on the disclosure; or (d) is independently developed by the other party.

We each agree to hold each other's confidential information in confidence for a period of three years from the date of disclosure. Also, we each agree to disclose confidential information only to those employees or agents who are required to protect it against unauthorized disclosure. Nothing shall prevent either party from disclosing the terms or pricing under your order in any legal proceeding arising from or in connection with your order or disclosing the confidential information to a federal or state governmental entity as required by law.

Technical Support for Development, Demonstration and End User Licenses

Technical support for Development and/or Demonstration licenses is provided through your membership in the Oracle PartnerNetwork. Before you may provide technical support for a program you've licensed to your end user you must, in addition to the technical support you may receive for Development and/or Demonstration licenses, acquire technical support for such program from Oracle and continuously maintain it for as long as you provide support to the end user.

ORACLE TECHNICAL SUPPORT LEVELS

Software Update License & Support

Program releases in the Premier Support phase of Oracle's product support lifecycle will receive Software Update License & Support. Software Update License & Support is the standard level for all Oracle support services and consists of:

- Program updates, fixes, security alerts, and critical patch updates
- Tax, legal, and regulatory updates
- Upgrade scripts
- Certification with most new third-party products/versions
- Major product and technology releases, which includes general maintenance releases, selected functionality releases, and documentation updates
- Assistance with service requests 24 hours per day, 7 days a week
- Access to Oracle*MetaLink*, POINT Support Portal, Global Support System, or TOPdesk Support Portal (24 x 7 web-based customer support systems), including the ability to log service requests online, unless stated otherwise
- Non-technical customer service during normal business hours
- For Primavera programs, web-based support is provided through the POINT Support Portal. For Haley programs, web-based support is provided through Global Support System. For mValent programs, web-based support is provided through TOPdesk Support Portal. For all other Oracle programs, unless stated otherwise, web-based support is provided through Oracle*MetaLink*.

Due to the unique constraints of the early releases of former Retak, ProfitLogic, and 360 Commerce retail applications, limited Software Update License & Support will be available for certain releases prior to release 11. The limited Software Update License & Support will consist of:

- Program updates and fixes
- Major product and technology releases
- Assistance with service requests 24 hours per day, 7 days per week
- Access to Oracle*MetaLink* (24 x 7 web-based customer support systems), including the ability to log service requests online
- Non-technical customer service during normal business hours

Please review the Oracle Retail chart included in the "[Lifetime Support Policy: Coverage for Retail Applications](#)" (PDF) document for coverage information on your specific release.

Limited Software Update License & Support will be available for the following Monitrac programs: webSensor Enterprise and webProbe. The limited Software Update License & Support will consist of:

- Program updates, fixes, security alerts, and critical patch updates
- Major product and technology releases, which includes general maintenance releases, selected functionality releases, and documentation updates
- Assistance with service requests Monday through Friday during local business hours, excluding holidays. local business hours are 8:00 A.M. to 6:00 P.M. Central European Time
- Access to Oracle*MetaLink* (24 x 7 web-based customer support system), including the ability to log service requests online
- Non-technical customer service during normal business hours

Limited Software Update License & Support will be available for the Global Knowledge Software programs. The limited Software Update License & Support will consist of:

- Program updates, fixes, security alerts, and critical patch updates
- Major product and technology releases, which includes general maintenance releases, selected functionality releases, and documentation updates

- Assistance with service requests Monday through Friday during local business hours, excluding holidays; local business hours are 8:30 A.M. to 5:30 P.M. Eastern Time of the North America Region and 8:30 A.M. to 5:30 P.M. GMT.
- Ability to log service requests as specified in the following link:
<http://www.oracle.com/cks/support.html>
- Non-technical customer service during local business hours

Limited Software Update License & Support will be available for the Primavera programs; except for those programs noted in the section below. The Limited Software Update License & Support will consist of:

- Program updates and fixes, if available
- Upgrade scripts
- Major product and technology releases, which includes general maintenance releases, selected functionality releases, and documentation updates
- Assistance with service requests during normal business hours
- Access to POINT Support Portal (24 x 7 web-based customer support system), including the ability to log service requests online
- Ability to log service requests as specified in the following link:
<http://www.oracle.com/primavera/support.html>
- Non-technical customer service during normal business hours

Limited Software Update License & Support will be available for the following Primavera Programs: Primavera Earned Value Management (formerly Primavera Contract Manager), Primavera Evolve, Primavera SureTrak, Primavera Contractor (formerly Primavera Contractor Deluxe), and Primavera P3 Project Planner. The Limited Software Update License & Support will consist of:

- Assistance with service requests during normal business hours
- Ability to log service requests as specified in the following link:
<http://www.oracle.com/primavera/support.html>
- Non-technical customer service during normal business hours

Limited Software Update License & Support will be available for the Halcy programs. The Limited Software Update License & Support will consist of:

- Program updates, fixes, security alerts, and critical patch updates
- Upgrade scripts
- Major product and technology releases, which includes general maintenance releases, selected functionality releases, and documentation updates
- Assistance with service requests during normal business hours
- Access to Global Support System (24 x 7 web-based customer support systems), including the ability to log service requests online, unless stated otherwise
- Ability to log service requests as specified in the following link:
<http://www.oracle.com/halcy/support.html>
- Non-technical customer service during normal business hours

Limited Software Update License & Support will be available for the mValent programs. The Limited Software Update License & Support will consist of:

- Program updates, fixes, security alerts, and critical patch updates
- Upgrade scripts
- Certification with most new third-party products/versions
- Major product and technology releases, which includes general maintenance releases, selected functionality releases, and documentation updates
- Assistance with service requests during normal business hours
- Access to OPDusk Support Portal (24 x 7 web-based customer support systems), including the ability to log service requests online, unless stated otherwise

- Ability to log service requests as specified in the following link:
<http://www.oracle.com/technetwork/support.html>
- Non-technical customer service during normal business hours

Enterprise Linux Support Services

Effective October 25, 2006, Oracle will offer Enterprise Linux support services to customers, regardless of whether or not they are using Oracle programs. For information about the available services, please refer to the Enterprise Linux and Oracle VM Support Policies available at <http://www.oracle.com/support/collateral/enterprise-linux-support-policies.pdf>.

Oracle VM Support Services

Effective November 14, 2007, Oracle will offer Oracle VM support services to customers, regardless of whether or not they are using Oracle programs. For information about the available services, please refer to the Enterprise Linux and Oracle VM Support Policies available at <http://www.oracle.com/support/collateral/enterprise-linux-support-policies.pdf>.

Priority Service

Priority Service is available for program releases receiving Premier, Extended, or Sustaining Support. Priority Service consists of:

- Prioritization of Service Requests: Service requests will be prioritized above service requests of the same severity level submitted by Premier Support customers
- Service Request Response Guidelines: Reasonable efforts will be made to respond to your service requests per the following guidelines:
 - 90% of Severity 1 service requests within 1 hour (available 24x7)
 - 90% of Severity 2 service requests within 2.5 local business hours
 - 90% of Severity 3 service requests within the next local business day
 - 90% of Severity 4 service requests within the next local business day
- Time-based internal escalations for Severity 1 and Severity 2 service requests
- An Oracle Service Delivery Manager ("SDM") who will be the designated point of contact for Severity 1 and mutually agreed upon Severity 2 service requests (collectively, "critical service requests"). The role of the SDM is to provide assistance in managing critical service requests as follows:
 - Defining your service request priorities,
 - Coordinating a virtual team of Oracle Support delivery contributors, including your customer contact(s), to aid in the resolution of critical service requests,
 - Defining responsibilities, outstanding actions and the related action plan for resolving critical service requests.
 - At your request, helping to execute specific tasks on a critical service request managed by Oracle Support,
 - Monitoring the virtual team activity and escalating critical service requests within Oracle Support and/or to your management as necessary,
 - Organizing communication between team members as necessary, and
 - Communicating the status of your critical service requests to your customer contact(s) and senior management
- Prioritization of defects to Oracle's Product Development team for product bugs initiated for the resolution of service requests
- Monthly Service Request reviews
- Joint Contact and Escalation Guide
- Environment Configuration Guide
- 24x7 access to a customer-specific web portal
- Quarterly service reviews
- Pre-recorded orientation session

- Non-technical customer service during normal business hours (e.g., assistance with support identification numbers, assistance with logging into OracleMetaLink)

Service Request Packages

Service Request Packages are made available to members of the Oracle Partner Network. Service Request Packages provide web-based technical support in packages of 10 or 25 service requests, do not include updates, and are not available for all programs. Please contact your OPN Interaction Center (<http://partner.oracle.com/>) for program availability.

Service Request Packages are valid for one year from the date of purchase. Any unused service request(s) will expire at the earlier of (i) the end of such year, or (ii) the end of your OPN membership term if such membership is not renewed. Access to log service requests will be restricted at the same time the final service request is resolved.

Extended Support

Extended Support may be available for certain Oracle program releases after Premier Support expires. When Extended Support is offered, it is generally available for three years following the expiration of Premier Support and only for the terminal patchset release of a program.

Program releases eligible for Extended Support will receive Software Update License & Support limited to the following:

- Program updates, fixes, security alerts, and critical patch updates
- Tax, legal and regulatory updates
- Upgrade scripts
- Major product and technology releases, which includes general maintenance releases, selected functionality releases, and documentation updates
- Assistance with service requests 24 hours per day, 7 days per week
- Access to OracleMetaLink, POINTSupport Portal, TOPdesk Support Portal, or Global Support System (24 x 7 web-based customer support systems), including the ability to log service requests online
- Non-technical customer service during normal business hours

Extended Support does not include:

- Certification with new third party products/versions

Sustaining Support

Sustaining Support will be available after Premier Support expires. Program releases eligible for Sustaining Support will receive Software Update License & Support limited to the following:

- Program updates, fixes, security alerts, and critical patch updates created during the Premier Support period, and created during the Extended Support period for those customers who purchased Extended Support.
- Tax, legal, and regulatory updates created during the Premier Support period
- Upgrade scripts created during the Premier Support period
- Major product and technology releases, which includes general maintenance releases, selected functionality releases, and documentation updates
- Assistance with service requests, on a commercially reasonable basis, 24 hours per day, 7 days a week
- Access to OracleMetaLink, POINT Support Portal, TOPdesk Support Portal, or Global Support System (24 x 7 web-based customer support systems), including the ability to log service requests online
- Non-technical customer service during normal business hours

Sustaining Support does not include:

- New program updates, fixes, security alerts, and critical patch updates
- New tax, legal, and regulatory updates
- New upgrade scripts
- Certification with new third party products/versions
- 24 hour commitment and response guidelines for Severity 1 service requests as defined in the Severity Level section below
- Previously released fixes or updates that Oracle no longer supports

Because program releases supported by Sustaining Support are no longer fully supported, information and skills regarding those releases may be limited. The availability of hardware systems to run such program releases may also be limited.

North American Payroll Tax Updates

North American Payroll Tax Updates is available for programs eligible to receive Sustaining Support. Customers who acquire North American Payroll Tax Updates will receive a tax year of tax updates for Oracle payroll applications.

In order to acquire North American Payroll Tax Updates, your licensed programs must be currently supported with Software Update License & Support. If you have maintained Software Update License & Support and want to acquire North American Payroll Tax Updates, the licenses do not need to be migrated to current license metrics to do so.

North American Payroll Tax Updates will be delivered through OracleMetaLink.

When offered, North American Payroll Tax Updates may be acquired for up to two (2) years from the availability of Sustaining Support for the applicable Oracle program release. North American Payroll Tax Updates is not subject to the Reinstatement policies stated above. North American Payroll Tax Updates is not available in all countries or for all programs. Please contact your Support Sales Representative for service availability.

PREVIOUS TECHNICAL SUPPORT OFFERINGS

A list of technical support offerings that were previously offered by Oracle, or a company acquired by Oracle, is available at <http://www.oracle.com/support/collateral/tsp-previous-offerings.pdf>. The information contained within this list consists of a description of the service offering, date when new sales of the services was eliminated, and renewal options.

WEB-BASED CUSTOMER SUPPORT SYSTEMS

The following policy for Web-Based Customer Support Systems applies to all Oracle product lines, except Global Knowledge Software, Primavera, Haley, and mValent programs:

OracleMetaLink is one of Oracle's four customer support web sites. Access to OracleMetaLink is governed by the Terms of Use posted on the OracleMetaLink web site, which are subject to change. A copy of these terms is available upon request. Access to OracleMetaLink is limited to your designated technical contacts. Access to OracleMetaLink is included with Software Update License & Support, Priority Service, Incident Server Support, JDeveloper Support, Extended Support, and Sustaining Support. For customers with a current Software Updates service contract, limited access to OracleMetaLink is included for patches and bug fix information.

The following policy for POINT Support Portal applies to Primavera programs only:

POINT Support Portal is Oracle's second customer support web site. Access to POINT Support Portal is governed by the Terms of Use posted on the POINT Support Portal web site at http://customerportal.primavera.com/ocp/default.asp?main=Point_login.asp, and are subject to change. A copy of these terms is available upon request. Access to POINT Support Portal is

limited to your designated technical contacts. Access to POINT Support Portal is included with Software Update License & Support, Extended Support, and Sustaining Support.

The following policy for Global Support System applies to Haley programs only:

Global Support Portal is Oracle's third customer support web site. Access to Global Support System is governed by the Terms of Use posted on the Global Support System web site at <http://support.haley.com/>, and are subject to change. A copy of these terms is available upon request. Access to Global Support System is limited to your designated technical contacts. Access to Global Support System is included with Software Update License & Support, Extended Support, and Sustaining Support.

The following policy for TOPdesk Support Portal applies to mValent programs only:

TOPdesk Support Portal is Oracle's fourth customer support web site. Access to TOPdesk Support Portal is governed by the Terms of Use posted on the TOPdesk Support Portal web site at <https://support.mvalent.com/itas/public/index.jsp>, and are subject to change. A copy of these terms is available upon request. Access to TOPdesk Support Portal is limited to your designated technical contacts. Access to TOPdesk Support Portal is included with Software Update License & Support, Extended Support, and Sustaining Support.

GLOBAL CUSTOMER SUPPORT SECURITY PRACTICES

Oracle is deeply committed to the security of its technical support services. In providing standard technical support services, Oracle will adhere to the Global Customer Support Security Practices, which are available [here](#). The Global Customer Support Security Practices are subject to change at Oracle's discretion; however, Oracle will not materially reduce the level of security specified in the Security Practices during the period for which fees for technical support have been paid. To view changes that have been made, please refer to the attached [Statement of Changes](#) (PDF).

ADDITIONAL TOOLS

Oracle may make available software tools (such as tools to assist in the collection and transmission of configuration data) and web-based tools (such as tools that enable Oracle, with your consent, to access your computer system) to aid in the resolution of service requests. Such tools may be used only in connection with supported program licenses, and use of the tools will be subject to any additional license and other terms provided with the tools.

SEVERITY DEFINITIONS

Service requests for all other supported Oracle programs may be submitted by you online through Oracle's web-based customer support systems, by email, or by telephone. The service request severity level is selected by you and Oracle and should be based on the following severity definitions:

Severity 1

Your production use of the supported programs is stopped or so severely impacted that you cannot reasonably continue work. You experience a complete loss of service. The operation is mission critical to the business and the situation is an emergency. A Severity 1 service request has one or more of the following characteristics:

- Data corrupted
- A critical documented function is not available
- System hangs indefinitely, causing unacceptable or indefinite delays for resources or response
- System crashes, and crashes repeatedly after restart attempts

For all supported Oracle programs, other than Moniforce webSensor Enterprise and webProbe, Global Knowledge Software, Primavera, and Haley, reasonable efforts will be made to respond to Severity 1 service requests within one (1) hour.

For Moniforce webSensor Enterprise and webProbe programs, reasonable efforts will be made to respond to Severity 1 service requests within one (1) business day during local business hours, excluding holidays; local business hours are Monday through Friday 8:00 A.M. to 6:00 P.M. Central European Time.

For Global Knowledge Software programs, reasonable efforts will be made to respond to Severity 1 service requests within four (4) hours, excluding holidays.

For Primavera programs, reasonable efforts will be made to respond to Severity 1 service requests within one (1) business day during local business hours, excluding holidays.

For Haley programs, reasonable efforts will be made to respond to Severity 1 service requests within two (2) hours, excluding holidays.

24 Hour Commitment to Severity 1 Service Requests for all supported Oracle programs other than Moniforce webSensor Enterprise and webProbe, Global Knowledge Software Primavera, Haley, and mValent programs; OSS will work 24x7 until the issue is resolved or as long as useful progress can be made. You must provide OSS with a contact during this 24x7 period, either on site or by pager, to assist with data gathering, testing, and applying fixes. You are requested to propose this severity classification with great care, so that valid Severity 1 situations obtain the necessary resource allocation from Oracle.

Severity 2

You experience a severe loss of service. Important features are unavailable with no acceptable workaround; however, operations can continue in a restricted fashion.

Severity 3

You experience a minor loss of service. The impact is an inconvenience, which may require a workaround to restore functionality.

Severity 4

You request information, an enhancement, or documentation clarification regarding your software but there is no impact on the operation of the software. You experience no loss of service. The result does not impede the operation of a system.

CONTACT INFORMATION

Phone numbers and contact information can be found on Oracle's support web site at <http://www.oracle.com/support/contact.html>

AMENDMENT TWO

SOFTWARE LICENSE AND MAINTENANCE SUPPORT AGREEMENT MASTER CONTRACT FOR SOFTWARE LICENSING (MLA NUMBER MLA0024)

The State of Ohio, through the Department of Administrative Services (the "State"), located at 30 East Broad Street, 40th Floor, Columbus, Ohio 43215, on behalf of the State of Ohio and Oracle America, Inc., successor in interest to Oracle USA, Inc. (the "Contractor") entered into a Master License and Maintenance Support Agreement Renewal (the "Contract") on May 28, 2008.

This is a renewal (the "Renewal") of that Contract. The term of the Contract will be extended until June 30, 2013.

On Renewal, the Contract will be modified by replacing its Exhibit A, Technical Support Policies, with the new Exhibit A, attached hereto. For purposes of clarification, "you" and "your" as written in Exhibit A, Technical Support Policies, refers to the State or individual State Entity that has placed an order for technical support under this Contract.

On Renewal, the Contract will be modified by deleting Part III, section 7. **Network Security**, of the Contract in its entirety and replacing it as follows:

"7. Network Security. The Contractor may not connect to the State's internal computer network without the prior, written consent of the State, which the State will reasonably provide if necessary or appropriate for the Contractor to provide Support. The Contractor will secure its own connected systems in a manner consistent with Oracle's then-current security policies, which Oracle will provide to the State upon request. The Contractor will not be responsible for any failure to provide services or technical support due to the State's refusal to allow the Contractor to connect to the State's network."

Oracle's current security policies are attached to this Amendment Two as Exhibit B.

All other terms remain the same.

TO SHOW THEIR AGREEMENT, the parties have executed this Renewal on the date(s) below.

ORACLE AMERICA, INC.

EXHIBIT A

Oracle Software Technical Support Policies

Oracle Software Technical Support Policies

Effective Date: 12-May-2011

OVERVIEW

Unless otherwise stated, these Software Technical Support Policies apply to technical support for all Oracle software product lines.

"You" and "your" refers to the individual or entity that has ordered technical support from Oracle or an authorized distributor.

To receive technical support as provided by Oracle Support Services ("OSS") and described in the Oracle Technical Support Levels section below, all programs must be properly licensed.

Technical support is provided for issues (including problems you create) that are demonstrable in the currently supported release(s) of an Oracle licensed program, running unaltered, and on a certified hardware, database and operating system configuration, as specified in your order or program documentation.

Product release and supported platforms information for all Oracle programs, other than Phase Forward, is available through Oracle's web-based customer support systems as described in the Web-Based Customer Support Systems section below. Product release and supported platforms information for Phase Forward programs will be provided to you in writing.

Oracle will provide technical support in accordance with Oracle's services privacy policy available at <http://www.oracle.com/us/legal/privacy/services-privacy-policy-078833.html>.

These Technical Support Policies may be referred to in former PeopleSoft agreements as the "Software Support Services Terms and Conditions", in former Siebel agreements as the "Maintenance Services Policy", in former Hyperion agreements as the "Standard Maintenance Program", in former Agile agreements as the "product support policy", in former BEA agreements as the "Support Services" policies, in former Haley agreements as the "Support Maintenance Agreement", in former mValent agreements as the "Maintenance and Technical Support Agreement", in former AmberPoint agreements as the "Maintenance and Support Schedule 2.0", and in former Phase Forward agreements as the "Phase Forward Licensee Support Services Policy."

These Technical Support Policies are subject to change at Oracle's discretion; however Oracle policy changes will not result in a material reduction in the level of the services provided for supported programs during the support period (defined below) for which fees for technical support have been paid.

To view a comparison of these Oracle Software Technical Support Policies and the previous version of the Oracle Software Technical Support Policies, please refer to the attached [Statement of Changes](#) (PDF).

SUPPORT TERMS

Technical Support Fees

Technical support fees are due and payable annually in advance of a support period, unless otherwise stated in the relevant ordering document or financing or payment contract with Oracle or an Oracle affiliate. Your commitment to pay is required to process your technical support order with Oracle (e.g., purchase order, actual payment, or other approved method of payment). An invoice will be issued only upon receipt of your commitment to pay, and will be sent to a single

billing address that you designate. Failure to submit payment will result in the termination of support.

Support Period

Technical support is effective upon the effective date of your ordering document unless stated otherwise in your ordering document. If your order was placed through the Oracle Store, the effective date is the date your order was accepted by Oracle. Unless otherwise stated in the ordering document, Oracle technical support terms, including pricing, reflect a 12 month support period (the "support period"). All technical support services ordered for a support period and the related fees are non-cancelable and non-refundable. Oracle is not obligated to provide technical support beyond the end of the support period.

License Set

A license set consists of (i) all of your licenses of a program, including any options* (e.g., Database Enterprise Edition and Enterprise Edition Options; Purchasing and Purchasing Options), Enterprise Manager* (e.g., Database Enterprise Edition and Diagnostics Pack), or self-service module* (e.g., Human Resources and Self-Service Human Resources) licensed for such programs, or (ii) all of your licenses of a program that share the same source code**. Development and demonstration licenses available through the Oracle Partner Network or the Oracle Technology Network are not included in the definition of a license set. For Crystal Ball programs, a license set is defined as the same licenses of a program contained on a single order.

*As specified on Oracle's price list.

**Programs that share the same source code are:

- Database Enterprise Edition, Database Standard Edition, Database Standard Edition One, and Personal Edition.
- Internet Application Server Enterprise Edition, Internet Application Server Standard Edition, and Internet Application Server Standard Edition One.
- WebLogic Server Enterprise Edition, WebLogic Server Standard Edition, WebLogic Suite, and Web Tier.

For purposes of clarification, if you are an Oracle partner and provide first line support to an end user (e.g., Embedded Software License ("ESL"), Application Specific Full Use ("ASFU"), or any other Oracle authorized provision of first line support), a license set consists of all of the end user's licenses of the program(s) embedded or included in the Application Package pursuant to the ESL Distribution Agreement, ASFU Distribution Agreement, or other distribution agreement between you and Oracle. If the end user also has Full Use licenses supported directly by you, then those Full Use licenses must also be supported at the same level as the ASFU or ESL licenses.

If Oracle is providing first line support for all of an end user's ASFU and Full Use licenses, then both the ASFU and Full Use licenses must be supported at the same level. However, if Oracle is providing first line support for an end user's Full Use licenses and you are providing first line support for the ASFU and/or ESL licenses, then the licenses would not be considered part of the same license set under Oracle's matching service level policy.

Matching Service Levels

When acquiring technical support, all licenses in any given license set must be supported under the same technical support service level (e.g., Software Update License & Support or unsupported). If you add Extended Support, you still must maintain Software Update License & Support for the entire license set; subject to availability, you must acquire Extended Support for all licenses of a particular version release of a program if you acquire Extended Support for any license in such version release. You may not support a subset of licenses within a license set; the

license set must be reduced by terminating any unsupported licenses. You will be required to document license terminations via a termination letter.

Reinstatement of Oracle Technical Support

In the event that technical support lapses or was not originally purchased, upon the commencement of technical support a reinstatement fee will be assessed. The reinstatement fee is equal to 150% of the last-paid support fee, or 150% of the last-published list technical support price for the licensed program less the applicable standard discount as published on the Oracle Store ("standard discount") in effect at the time of reinstatement if support was not originally purchased for the relevant programs, prorated from the date technical support is being ordered back to the date technical support lapsed (or the license order date if technical support was never purchased). Applicable renewal adjustments are applied. Once the reinstatement fee has been assessed, technical support for the year following the reinstatement period may be purchased for an additional technical support fee as calculated based on how long the licensed program has been unsupported ("go-forward support fee"). If the lapsed support period is less than 6 months, the go-forward support fee is calculated based on the last-published list technical support price less the applicable standard discount in effect at the time of reinstatement. If the lapsed support period is 6 months or greater, the go-forward support fee is calculated based on the last-paid support fee. If support is not reinstated for the entire license set or if support for a subset of licenses from an ordering document is reinstated, then the "License Set", "Matching Service Levels", and "Pricing following Reduction of Licenses or Support Level" policies will apply. Applicable renewal adjustments are applied to the reinstatement fee and go-forward support fee.

Pricing following Reduction of Licenses or Support Level

Pricing for support is based upon the level of support and the volume of licenses for which support is ordered. In the event that a subset of licenses on a single order is terminated or if the level of support is reduced, support for the remaining licenses on that license order will be priced at Oracle's list price for support in effect at the time of termination or reduction minus the applicable standard discount. Such support price will not exceed the previous support fees paid for both the remaining licenses and the licenses being terminated or unsupported, and will not be reduced below the previous support fees paid for the licenses continuing to be supported. If the license order from which licenses are being terminated established a price hold for additional licenses, support for all of the licenses ordered pursuant to the price hold will be priced at Oracle's list price for support in effect at the time of reduction minus the applicable standard discount.

Custom Application Bundles

Technical support may not be discontinued for a single program module within a custom application bundle.

Unsupported Programs

Customers with unsupported programs are not entitled to download or receive updates, maintenance releases, patches, telephone assistance, or any other technical support services for unsupported programs. CD packs or programs purchased or downloaded for trial use, use with other supported programs, or purchased or downloaded as replacement media may not be used to update any unsupported programs.

Technical Contacts

Your technical contacts are the sole liaisons between you and OSS for technical support of programs. Your technical contacts must have, at a minimum, initial basic product training and, as needed, supplemental training appropriate for specific role or implementation phase, specialized product usage, and/or migration. Your technical contacts must be knowledgeable about the Oracle programs and your Oracle environment in order to help resolve system issues and to assist Oracle in analyzing and resolving service requests. When submitting a service request, your technical contact must have a baseline understanding of the problem you are encountering.

and an ability to reproduce the problem in order to assist Oracle in diagnosing and triaging the problem. To avoid interruptions in support services, you must notify OSS whenever technical contact responsibilities are transferred to another individual.

With the order of Software Update License & Support, you may designate one (1) primary and four (4) backup individuals ("technical contact") per license set, to serve as liaisons with OSS. With each USD\$250,000 in net support fees per license set, you have the option to designate an additional two (2) primary and four (4) backup technical contacts. Your primary technical contact shall be responsible for (i) overseeing your service request activity, and (ii) developing and deploying troubleshooting processes within your organization. The backup technical contacts shall be responsible for resolving user issues. You may be charged a fee to designate additional technical contacts.

Oracle may review service requests logged by your technical contacts, and may recommend specific training to help avoid service requests that would be prevented by such training.

Program Updates

"Update" means a subsequent release of the program which Oracle generally makes available for program licenses to its supported customers at no additional license fee, other than shipping charges if applicable, provided you have ordered a technical support offering that includes software updates for such licenses for the relevant time period. Updates do not include any release, option or future program that Oracle licenses separately. Updates are provided when available (as determined by Oracle) and updates may not include all versions previously available for a program acquired by Oracle. Oracle is under no obligation to develop any future programs or functionality. Any updates made available will be delivered to you, or made available to you for download. If delivered, you will receive one update copy for each supported operating system for which your program licenses were ordered. You shall be responsible for copying, downloading and installing the updates.

Payment Plan, Financing, and Leasing Agreements

Technical support fees due under payment plans, financing or leasing agreements between you and Oracle or an Oracle affiliate ("payment plan") are due and payable in accordance with the terms and conditions of such payment plan, but the technical support shall be ordered pursuant to the terms of the applicable ordering document.

Lifetime Support

Lifetime Support consists of the following service levels:

- Premier Support (also referred to as, and will be documented on your ordering document as, "Software Update License & Support")
- Extended Support (if offered)
- Sustaining Support

A description of the services available under Premier Support, Extended Support and Sustaining Support is included in the Oracle Technical Support Levels section below.

When offered, Premier Support will be available for five years from the date a release of the Oracle program becomes generally available, except as noted below.

Based on availability, support may be extended for an additional three years with Extended Support for specific releases.

Alternatively, support may be extended with Sustaining Support, which will be available for as long as you maintain technical support for your Oracle licenses.

Refer to the attached document titled "[Lifetime Support Policy: Coverage for Technology Products](#)" (PDF) for specific server technology programs that are, or will be, covered by the Lifetime Support policy.

Refer to the attached document titled "[Lifetime Support Policy: Coverage for Fusion Middleware](#)" (PDF) for specific fusion middleware programs that are, or will be, covered by the Lifetime Support policy.

Refer to the attached document titled "[Lifetime Support Policy: Coverage for Applications](#)" (PDF) for specific application programs that are, or will be, covered by the Lifetime Support policy.

Refer to the attached document titled "[Lifetime Support Policy: Coverage for Retail Applications](#)" (PDF) for specific Retail application programs that are, or will be, covered by the Lifetime Support policy.

Refer to the attached document titled "[Lifetime Support Policy: Coverage for Sun Software Products](#)" (PDF) for specific Sun software programs that are, or will be, covered by the Lifetime Support policy.

Notes:

1. Active Reasoning, ContextMedia, Notiva, and Sigma Dynamics, and other programs and releases that have already had desupport dates posted on My Oracle Support are excluded from the Lifetime Support policy.
2. For PeopleSoft Enterprise programs that have been retired under the previous 4-year support policy, Sustaining Support will be available for as long as you maintain technical support for these programs.
3. Tax updates and regulatory changes* will be made available for up to six (6) years from the release date of the licensed software for PeopleSoft Enterprise, JD Edwards EnterpriseOne and JD Edwards World programs. Upgrade scripts, new software patches, and fixes to the latest release will be made available for five (5) years from the release date of the licensed software for PeopleSoft Enterprise, JD Edwards EnterpriseOne and JD Edwards World programs.

*Tax updates and regulatory changes refers to those updates that address tax and/or regulatory changes which are generally made available to similarly situated licensees of PeopleSoft software, on a when and if available basis only.

4. Oracle's PeopleTools program, which was provided in conjunction with a PeopleSoft application program release, will be supported for as long as such application program release is supported. Patches and platform certifications for a PeopleTools minor release will be provided until 12 months after the next minor release is made generally available or Oracle announces that no future releases will be made; Critical Patch Updates for a PeopleTools minor release may be provided for up to 24 months after the next minor release is made generally available.

You must apply PeopleTools minor releases in order to continue to receive Premier or Extended Support for a PeopleSoft application program release. You may be required to apply PeopleTools minor releases to remain current with versions of third party technologies and products as supported by the provider of the third party product.

PeopleSoft application maintenance, which includes but is not limited to: patches, bundles, and maintenance packs, may require an upgrade to a newer version of PeopleTools.

Oracle reserves the right to make changes to the third party products included in the PeopleTools program release which includes but is not limited to: (i) requiring newer versions of the third party products, (ii) changing the way in which third party products are packaged and distributed and (iii) replacing or remediating one or more third party products.

5. For certain Oracle Retail application program releases* prior to release 11, limited Premier Support will be available for seven years from when that release became generally available. For Oracle Retail applications for which Premier Support is not available, Sustaining Support will be available for as long as you maintain technical support for these programs.

*formerly Retek, ProfitLogic, and 360 Commerce

6. Extended Support:

- (a) For customers with current support contracts for Oracle9i Database Release 9.2 on the following platforms: Solaris SPARC (64 bit), Linux x86 (32 bit), IBM AIX, HP-UX Itanium, HP-UX PA-RISC, HP Tru64 UNIX, Microsoft Windows (32 bit), IBM z/OS on System z, and IBM Linux on System z, Extended Support will be available from July 2010 through July 2012. During this period, Extended Support will be limited to Severity 1 fixes only; Critical Patch Updates ("CPUs") will not be made available.

- (b) Extended Support for PeopleSoft Enterprise HRMS 8.8 has been extended one year, from December 2010 to December 2011.

- (c) For customers with a current support contract for the Programs listed below, the Extended Support fee has been waived for the program releases and periods as noted. During these periods, you will receive access to generally available fixes, tax*, legal*, and regulatory updates*, and critical patch updates ("CPUs"), unless otherwise specified below, at no additional cost other than your fees for Software Update License & Support (or any successor technical support offering to Software Update License & Support).

Program Release	Period of Extended Support Fee Waiver
Oracle e-Business Suite 11i/10	December 2010 – November 2011
Siebel CRM 7.8	June 2010 – May 2011
Oracle Database 10gR2	August 2010 – July 2011, except as otherwise specified below under ^{(1) *} **
PeopleSoft Enterprise 8.9*	July 2009 – June 2011

*Tax, legal, and regulatory updates are for the following program releases only: PeopleSoft Enterprise 8.9

**The following applies to Oracle Database 10gR2:

For customers with current support contracts running Oracle Database 10gR2 on IBM Linux on System Z, the Extended Support Fee Waiver Period has been extended for one year; the Extended Support fee will be waived from August 2010 – July 2012.

For customers with current support contracts running Oracle Database 10gR2 on Fujitsu BS2000, the Extended Support fee will be waived for three years; the Extended Support fee will be waived from August 2010 – July 2013.

For customers with current support contracts running Oracle Database 10gR2 on the following platforms: Linux Itanium, IBM Linux on POWER Systems and Windows Itanium, the Extended Support fee will be waived for three years; the Extended Support fee will be waived from August 2010 – July 2013. For the period of August 2013 – July 2015, Extended Support will continue to be available but will be at then-current Extended Support fees. During this period, Extended Support will be limited to Severity 1 fixes only; Critical Patch Updates (“CPUs”) will not be made available.

For customers with current support contracts running Oracle Database 10gR2 on HP OpenVMS on Itanium, the Extended Support fee will be waived for three years; the Extended Support fee will be waived from August 2010 – July 2013. For the period of August 2013 – July 2017, Extended Support will continue to be available but will be at then-current Extended Support fees. During this period, Extended Support will be limited to Severity 1 fixes only; Critical Patch Updates (“CPUs”) will not be made available.

- (d) For the first year of Extended Support for PeopleSoft Enterprise 9.0, the Extended Support fee will be waived.
- 7. For the first year of Sustaining Support for Oracle E-Business Suite Release 11i/9 (July 1, 2008 – June 30, 2009), Oracle will provide fixes for Severity 1 production bugs. No legislative updates will be provided with the exception of U.S. Tax Form 1099 updates for the 2008 tax year. For the second year of Sustaining Support for Oracle e-Business Suite Release 11i/9 (July 1, 2009 – June 30, 2010), Oracle will continue to provide fixes for Severity 1 production bugs. No legislative updates will be provided with the exception of U.S. Tax Form 1099 updates for the 2009 tax year. For the third year of Sustaining Support for Oracle E-Business Suite 11i/9 (July 1, 2010 – June 30, 2011), Oracle will continue to provide fixes for Severity 1 production bugs. No legislative updates or U.S. Tax Form 1099 updates will be provided.
- 8. Premier Support for Lustre 1.8 will be available through June 2012.

Right to Desupport

It may become necessary as a part of Oracle's product lifecycle to desupport certain program releases and, therefore, Oracle reserves that right; however, program releases that are under Premier Support are governed by Oracle's Lifetime Support policy. Desupport information, including desupport dates, information about availability of Extended Support and Sustaining Support, and information about migration paths for certain features, is posted on My Oracle Support. Desupport information is subject to change. Oracle will provide updated desupport information on My Oracle Support.

First and Second Line Support

You are required to establish and maintain the organization and processes to provide “First Line Support” for the supported programs directly to your users. First Line Support shall include but not be limited to (i) a direct response to users with respect to inquiries concerning the performance, functionality or operation of the supported programs, (ii) a direct response to users with respect to problems or issues with the supported programs, (iii) a diagnosis of problems or issues of the supported programs, and (iv) a resolution of problems or issues of the supported programs.

If after reasonable commercial efforts you are unable to diagnose or resolve problems or issues of the supported programs, you may contact Oracle for “Second Line Support”. You shall use commercially reasonable efforts to provide Oracle with the necessary access (e.g., access to repository files, log files, or database extracts) required to provide Second Line Support. Oracle

does not warrant its performance of the technical support described herein if you do not provide such access at Oracle's request.

Second Line Support shall consist of (i) a diagnosis of problems or issues of the supported programs and (ii) reasonable commercial efforts to resolve reported and verifiable errors in supported programs so that such supported programs perform in all material respects as described in the associated documentation.

Oracle may review service requests logged by your technical contacts, and may recommend specific organization and process changes to assist you with the above recommended standard practices.

Third Party Vendor-Specific Support Terms

You must remain on a supported environment – including applications and platforms – to receive technical support. If a vendor retires support for its product, you may be required to upgrade to a current certified and supported application, hardware platform, framework, database, and/or operating system configuration to continue receiving technical support services from Oracle.

PeopleSoft and JD Edwards Release Information

Release information for PeopleSoft Enterprise and JD Edwards EnterpriseOne programs is available in the attached table titled, "[Release Types for PeopleSoft Enterprise and JD Edwards EnterpriseOne Applications](#)" (PDF).

Hyperion-Specific and Agile-Specific Support Terms

For orders placed pursuant to a Hyperion master agreement or to an Agile master agreement, the following terms apply with respect to the technical support services you have ordered.

Warranties, Disclaimers, and Exclusive Remedies

Oracle warrants that technical support services will be provided in a professional manner consistent with industry standards. You must notify Oracle of any technical support services warranty deficiencies within 90 days from performance of the defective technical support services.

FOR ANY BREACH OF THE ABOVE WARRANTIES, YOUR EXCLUSIVE REMEDY, AND ORACLE'S ENTIRE LIABILITY, SHALL BE THE REPERFORMANCE OF THE DEFICIENT TECHNICAL SUPPORT SERVICES, OR IF ORACLE CANNOT SUBSTANTIALLY CORRECT A BREACH IN A COMMERCIALLY REASONABLE MANNER, YOU MAY END THE RELEVANT TECHNICAL SUPPORT SERVICES AND RECOVER THE FEES PAID TO ORACLE FOR THE DEFICIENT TECHNICAL SUPPORT SERVICES.

TO THE EXTENT PERMITTED BY LAW, THESE WARRANTIES ARE EXCLUSIVE AND THERE ARE NO OTHER EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS, INCLUDING WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Limitation of Liability

NEITHER PARTY SHALL BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES, OR ANY LOSS OF PROFITS, REVENUE, DATA, OR DATA USE. ORACLE'S MAXIMUM LIABILITY FOR ANY DAMAGES ARISING OUT OF OR RELATED TO YOUR ORDER, WHETHER IN CONTRACT OR TORT, OR OTHERWISE, SHALL BE LIMITED TO THE AMOUNT OF THE FEES YOU PAID ORACLE UNDER YOUR ORDER, AND IF SUCH DAMAGES RESULT FROM YOUR USE OF TECHNICAL SUPPORT SERVICES, SUCH LIABILITY SHALL BE LIMITED TO THE FEES YOU PAID ORACLE FOR THE DEFICIENT TECHNICAL SUPPORT SERVICES GIVING RISE TO THE LIABILITY.

For orders placed pursuant to a Hyperion master agreement, the following terms also apply with respect to the technical support services you have ordered.

Nondisclosure

By virtue of your order, the parties may have access to information that is confidential to one another ("confidential information"). We each agree to disclose only information that is required for the performance of obligations under your order. Confidential information shall be limited to the terms and pricing under your order and all information clearly identified as confidential at the time of disclosure.

A party's confidential information shall not include information that: (a) is or becomes a part of the public domain through no act or omission of the other party; (b) was in the other party's lawful possession prior to the disclosure and had not been obtained by the other party either directly or indirectly from the disclosing party; (c) is lawfully disclosed to the other party by a third party without restriction on the disclosure; or (d) is independently developed by the other party.

We each agree to hold each other's confidential information in confidence for a period of three years from the date of disclosure. Also, we each agree to disclose confidential information only to those employees or agents who are required to protect it against unauthorized disclosure. Nothing shall prevent either party from disclosing the terms or pricing under your order in any legal proceeding arising from or in connection with your order or disclosing the confidential information to a federal or state governmental entity as required by law.

Technical Support for Development, Demonstration, and End User Licenses

Technical support for Development and/or Demonstration licenses is provided through your membership in the Oracle PartnerNetwork. Before you may provide technical support for a program you've licensed to your end user you must, in addition to the technical support you may receive for Development and/or Demonstration licenses, acquire technical support for such program from Oracle and continuously maintain it for as long as you provide support to the end user.

ORACLE TECHNICAL SUPPORT LEVELS

Software Update License & Support

Program releases in the Premier Support phase of Oracle's product support lifecycle will receive Software Update License & Support. Software Update License & Support consists of:

- Program updates, fixes, security alerts, and critical patch updates
- Tax, legal, and regulatory updates
- Upgrade scripts
- Certification with most new third-party products/versions
- Major product and technology releases, which includes general maintenance releases, selected functionality releases, and documentation updates
- Assistance with service requests 24 hours per day, 7 days a week
- Access to My Oracle Support and/or ATG Customer Support Portal (24 x 7 web-based customer support systems), including the ability to log service requests online, unless stated otherwise
- Non-technical customer service during normal business hours
- Current licensees of MySQL Classic Edition Annual Subscription, MySQL Cluster Carrier Grade Edition Annual Subscription, MySQL Enterprise Edition Annual Subscription or MySQL Standard Edition Annual Subscription ("MySQL Subscription"), may receive Software Update License & Support (SULS) for MySQL Community Edition,* except that SULS for MySQL Community Edition does not include Updates of any kind. MySQL

Community Edition may not contain all of the features and functionality of the programs contained in the MySQL Subscription. (*Community Edition refers to MySQL licensed under the GPL license.)

- For ATG programs, web-based support is provided through ATG Customer Care Support Portal. For all other Oracle programs web-based support is provided through My Oracle Support.

Software Update License & Support for the Database Firewall and Database Firewall Management Server programs consists of:

- The Software Update License & Support described above except that fixes specific to Oracle Linux are subject to Note #1 below
- 24x7 access to Oracle Unbreakable Linux Network
- Hardware Certification²
- Backport of fixes¹, using commercially reasonable efforts, for any Oracle Linux program released from Oracle within the last six (6) months; the Backport Schedule is available at <http://linux.oracle.com/backport-schedule.html>

Notes:

1. Oracle will only provide bug fixes for certain versions of the Oracle Linux programs as provided on <http://linux.oracle.com/supported.html>.
2. Hardware certification will be provided for the first four (4) years from the date a release of the Oracle Linux program becomes generally available. After four (4) years, hardware certification may be provided at Oracle's sole discretion; however Oracle is under no obligation to provide such hardware certification.

Due to the unique constraints of the early releases of former Retek, ProfitLogic, and 360 Commerce retail applications, limited Software Update License & Support will be available for certain releases prior to release 11. The Limited Software Update License & Support will consist of:

- Program updates and fixes
- Major product and technology releases
- Assistance with service requests 24 hours per day, 7 days per week
- Access to My Oracle Support (24 x 7 web-based customer support systems), including the ability to log service requests online
- Non-technical customer service during normal business hours

Limited Software Update License & Support will be available for the following Moniforce programs: webSensor Enterprise and webProbe. The limited Software Update License & Support will consist of:

- Program updates, fixes, security alerts, and critical patch updates
- Major product and technology releases, which includes general maintenance releases, selected functionality releases, and documentation updates
- Assistance with service requests during normal business hours.
- Access to My Oracle Support (24 x 7 web-based customer support system), including the ability to log service requests online
- Non-technical customer service during normal business hours

Limited Software Update License & Support will be available for the Phase Forward programs. The limited Software Update License & Support will consist of:

- Program updates, fixes, security alerts, and critical patch updates
- Assistance with service requests during normal business hours.
- Ability to log service requests as specified in the following link: <http://www.oracle.com/us/corporate/Acquisitions/phaseforward/support-176416.html>
- Non-technical customer service during normal business hours

Limited Software Update License & Support will be available for the ATG programs. The limited Software Update License & Support will consist of:

- Program updates, fixes, security alerts, and critical patch updates
- Upgrade scripts
- Certification with third-party products/versions as specified in the following link: <http://www.atg.com/en/products-services/commerce/supported-environments/>
- Assistance with service requests during normal business hours
- Ability to log service requests as specified in the following link: <http://www.oracle.com/us/corporate/Acquisitions/atg/support-296619.html>
- Non-technical customer service during normal business hours

Software Update License & Support for the Oracle Financial Services Software ("OFSS") product lines is provided pursuant to the OFSS Technical Support Policies available at <http://www.oracle.com/us/support/policies/index.html>.

Extended Support

Extended Support may be available for certain Oracle program releases after Premier Support expires. When Extended Support is offered, it is generally available for three years following the expiration of Premier Support and only for the terminal patchset release of a program.

Program releases eligible for Extended Support will receive Software Update License & Support limited to the following, except as specified below for Oracle Linux and Java SE program releases:

- Program updates, fixes, security alerts, and critical patch updates
- Tax, legal and regulatory updates
- Upgrade scripts
- Major product and technology releases, which includes general maintenance releases, selected functionality releases, and documentation updates
- Assistance with service requests 24 hours per day, 7 days per week
- Access to My Oracle Support and/or ATG Customer Support Portal (24 x 7 web-based customer support systems), including the ability to log service requests online
- Non-technical customer service during normal business hours

Extended Support does not include:

- Certification with new third party products/versions

Oracle Linux - Extended Support is not available for the Oracle Linux programs.

Java SE - Java SE program releases eligible for Extended Support will receive Java SE Support limited to the following:

- Bug fixes, security fixes and minor updates
- Upgrade tools
- Assistance with service requests 24 hours per day, 7 days a week
- Access to My Oracle Support (24 x 7 web-based customer support systems), including the ability to log service requests online
- Non-technical customer service during normal business hours

Sustaining Support

Sustaining Support will be available after Premier Support expires. Program releases eligible for Sustaining Support will receive Software Update License & Support limited to the following, except as specified below for Oracle Linux and Java SE program releases:

- Program updates, fixes, security alerts, and critical patch updates created during the (i) Premier Support period, (ii) Extended Support period for those customers who acquired Extended Support. Customers who do not maintain Extended Support but acquire Sustaining Support will receive the items listed in (i) immediately above, as well as items listed in (ii) but only after the Extended Support period ends.
- Tax, legal, and regulatory updates created during the Premier Support period
- Upgrade scripts created during the Premier Support period
- Major product and technology releases, which includes general maintenance releases, selected functionality releases, and documentation updates
- Assistance with service requests, on a commercially reasonable basis, 24 hours per day, 7 days a week
- Access to My Oracle Support and/or ATG Customer Support Portal (24 x 7 web-based customer support systems), including the ability to log service requests online
- Non-technical customer service during normal business hours

Sustaining Support does not include:

- New program updates, fixes, security alerts, and critical patch updates
- New tax, legal, and regulatory updates
- New upgrade scripts
- Certification with new third party products/versions
- 24 hour commitment and response guidelines for Severity 1 service requests as defined in the Severity Level section below
- Previously released fixes or updates that Oracle no longer supports

Oracle Linux - Oracle Linux program releases eligible for Sustaining Support will receive Software Update License & Support limited to the following:

- Access to My Oracle Support (24 x 7 web-based customer support systems), including the ability to log service requests online
- 24x7 access to Oracle Unbreakable Linux Network
- Access to patches, fixes, and security alerts created during the Premier Support period

*Refer to the attached "[Lifetime Support Policy: Coverage for Oracle Linux and Oracle VM](#)" (PDF) document for specific Oracle Linux program releases and the dates in which the above service deliverables are expected to be available.

Sustaining Support for the Oracle Linux programs does not include:

- Hardware certification
- Backport of fixes
- Access to new patches, fixes, and security alerts

Java SE - Java SE program releases eligible for Sustaining Support will receive Java SE Support limited to the following:

- Minor updates and bug and security fixes created during the (i) Premier Support period, (ii) Extended Support period for those customers who acquired Extended Support. Customers who do not maintain Java SE Extended Support but acquire Java SE Sustaining Support will receive the items listed in (i) immediately above, as well as items listed in (ii) but only after the Extended Support period ends.
- Upgrade tools created during the Premier Support period
- Assistance with service requests, on a commercially reasonable basis, 24 hours per day, 7 days per week
- Access to My Oracle Support (24 x 7 web-based customer support systems), including the ability to log service requests online
- Non-technical customer service during normal business hours

Sustaining Support for the Java SE program releases does not include:

- New minor updates and bug and security fixes
- New upgrade tools
- 24 hour commitment and response guidelines for Severity 1 service requests as defined in the Severity Level section below
- Previously released fixes or updates that Oracle no longer supports

Because program releases supported by Sustaining Support are no longer fully supported, information and skills regarding those releases may be limited. The availability of hardware systems to run such program releases may also be limited.

Priority Service

Priority Service is available for program releases receiving Premier, Extended, or Sustaining Support. Priority Service consists of:

- Prioritization of Service Requests: Service requests will be prioritized above service requests of the same severity level submitted by Premier Support customers
- Service Request Response Guidelines: Reasonable efforts will be made to respond to your service requests per the following guidelines:
 - 90% of Severity 1 service requests within 1 hour (available 24x7)
 - 90% of Severity 2 service requests within 2.5 local business hours
 - 90% of Severity 3 service requests within the next local business day
 - 90% of Severity 4 service requests within the next local business day
- Time-based internal escalations for Severity 1 and Severity 2 service requests
- An Oracle Service Delivery Manager ("SDM") who will serve as your designated point of contact for Severity 1 and mutually agreed upon Severity 2 service requests (collectively, "critical service requests") and who will communicate with you in a local language. The role of the SDM is to provide assistance in managing critical service requests as follows:
 - Defining your service request priorities,
 - Coordinating a virtual team of Oracle Support delivery contributors, including your customer contact(s), to aid in the resolution of critical service requests,
 - Defining responsibilities, outstanding actions and the related action plan for resolving critical service requests,
 - At your request, helping to execute specific tasks on a critical service request managed by Oracle Support,
 - Monitoring the virtual team activity and escalating critical service requests within Oracle Support and/or to your management as necessary,
 - Organizing communication between team members as necessary, and
 - Communicating the status of your critical service requests to your customer contact(s) and senior management.
- Prioritization of defects to Oracle's Product Development team for product bugs initiated for the resolution of service requests
- Monthly Service Request reviews
- Joint Contact and Escalation Guide
- Environment Configuration Guide
- 24x7 access to a customer-specific web portal
- Quarterly service reviews
- Pre-recorded orientation session
- Priority access to Oracle-sponsored events, as made available to Priority Service customers
- Access to monthly web conference sessions delivered in English featuring Oracle product technology experts

At Oracle's discretion, Oracle may temporarily substitute or permanently replace the SDM assigned to you; however, Oracle will use reasonable efforts to minimize any such substitution or

removal of your SDM. Oracle will not assign an SDM who does not speak your local language without your prior consent.

In order to acquire Priority Service for a license set, you must acquire Software Update License & Support for that license set. If you have maintained Software Update License & Support and want to purchase Priority Service for a license set, the licenses do not need to be migrated to current license metrics to do so.

Priority Service is not subject to the Reinstatement policies stated above. Priority Service is not available for all programs. Please contact your Support Sales Representative for service availability.

Priority Service Desk

Priority Service Desk is available for program releases receiving Premier, Extended, or Sustaining Support. Priority Service Desk consists of:

- Prioritization of Service Requests: Service requests will be prioritized above service requests of the same severity level submitted by Premier Support customers
- Service Request Response Guidelines: Reasonable efforts will be made to respond to your service requests per the following guidelines:
 - 90% of Severity 1 service requests within 1 hour (available 24x7)
 - 90% of Severity 2 service requests within 2.5 local business hours
 - 90% of Severity 3 service requests within the next local business day
 - 90% of Severity 4 service requests within the next local business day
- Time-based internal escalations for Severity 1 and Severity 2 service requests
- Access to English speaking Oracle Service Delivery Managers ("SDM") who are available to assist with Severity 1 and mutually agreed upon Severity 2 service requests (collectively, "critical service requests"). The role of the SDM team is to provide assistance in managing critical service requests as follows:
 - Defining your service request priorities,
 - Coordinating a virtual team of Oracle Support delivery contributors, including your customer contact(s), to aid in the resolution of critical service requests,
 - Defining responsibilities, outstanding actions and the related action plan for resolving critical service requests,
 - At your request, helping to execute specific tasks on a critical service request managed by Oracle Support,
 - Monitoring the virtual team activity and escalating critical service requests within Oracle Support and/or to your management as necessary,
 - Organizing communication between team members as necessary, and
 - Communicating the status of your critical service requests to your customer contact(s) and senior management.
- Prioritization of defects to Oracle's Product Development team for product bugs initiated for the resolution of service requests
- Monthly Service Request reviews
- Joint Contact and Escalation Guide
- Environment Configuration Guide
- 24x7 access to a customer-specific web portal
- Quarterly service reviews
- Pre-recorded orientation session
- Priority access to Oracle-sponsored events, as made available to Priority Service Desk customers
- Access to monthly web conference sessions delivered in English featuring Oracle product technology experts

In order to acquire Priority Service Desk for a license set, you must acquire Software Update License & Support for that license set. If you have maintained Software Update License & Support and want to purchase Priority Service Desk for a license set, the licenses do not need to be migrated to current license metrics to do so.

Priority Service Desk is not subject to the Reinstatement policies stated above. Priority Service Desk is not available for all programs. Please contact your Support Sales Representative for service availability.

Incident Server Support Package

Incident Server Support provides web-based technical support on a per server basis in packages of 10 service requests, and is available for as long as Premier Support is available for your Oracle licenses. Incident Server Support for a program may only be acquired with the initial program license purchase and, if acquired, may be renewed for subsequent support periods. The Incident Server Support Packages do not include updates and may not be used, purchased, or sold in conjunction with any other support offering. If you want to obtain Software Update License & Support, it will be subject to Oracle's reinstatement policies in effect at the time of reinstatement. Incident Server Support is available for the following limited product sets, across all platforms:

- Oracle Database Server Support Package: Oracle Database Enterprise Edition, Oracle Database Standard Edition, Oracle Database Standard Edition One, Partitioning, Real Application Clusters, Advanced Compression
- Oracle Application Server Support Package: Internet Application Server Enterprise Edition Internet Application Server Standard Edition, Internet Application Server Standard Edition One

Incident Server Support Packages are valid for one year from the date of purchase. Any unused service request(s) expire at the end of such term. Access to My Oracle Support expires at the same time the final service request is resolved. Your service request total will not be decreased by the number of service requests initiated for the resolution of a product bug. Incident Server Support includes:

- Access to My Oracle Support (24x7 web-based technical support system), including the ability to log service requests online
- Access to downloadable software patches and patchsets

Oracle Java Development Tools Support

Oracle Java Development Tools Support is available for the following programs: Sun NetBeans, Oracle Enterprise Pack for Eclipse, and Oracle JDeveloper (downloaded from the Oracle Technology Network after June 28, 2005). If you acquire Oracle Java Development Tools Support, you will receive support for all of the programs included above.

Oracle Java Development Tools Support consists of:

- Access to patches and fixes
- Assistance with service requests 24 hours per day, 7 days a week
- Access to My Oracle Support (24 x 7 web-based technical support system), including the ability to log service requests online
- Non-technical customer service during normal business hours

Oracle Java Development Tools support does not include upgrades to new program releases.

Oracle Solaris Development Tools Support

Oracle Solaris Development Tools Support is available for the following programs: Oracle Solaris Studio and Oracle Solaris Studio Express. If you acquire Oracle Solaris Development Tools Support, you will receive support for all of the programs included above.

Oracle Solaris Development Tools Support consists of:

- Access to patches and fixes
- Assistance with service requests 24 hours per day, 7 days a week
- Access to My Oracle Support (24 x 7 web-based technical support system), including the ability to log service requests online
- Non-technical customer service during normal business hours

Oracle Solaris Development Tools Support does not include upgrades to new program releases or access to Oracle Solaris updates, fixes or patches.

Java SE Support

Java SE Support is available for Java SE program releases. Java SE Support consists of:

- Bug fixes, security fixes and minor updates
- Upgrade tools
- Assistance with service requests 24 hours per day, 7 days per week
- Access to My Oracle Support (24 x 7 web-based customer support systems), including the ability to log service requests online
- Non-technical customer service during normal business hours

If you acquire Java SE Support, the services described above are in support of licenses you acquired separately. Bug fixes, security fixes and minor updates received as part of the services described above shall be provided under the terms of the appropriate license agreement that you accepted upon downloading and/or installing the Java SE program.

OpenOffice.org Premier Support

Effective April 15, 2011, OpenOffice.org Premier Support may not be ordered. If you are currently under contract for OpenOffice.org Premier Support then you will continue to receive such support through the end of your current support period only. OpenOffice.org Premier Support may not be renewed.

OpenOffice.org Premier Support is available for the OpenOffice.org programs. OpenOffice.org Premier Support consists of:

- Program updates and fixes
- Assistance with service requests 24 hours per day, 7 days per week
- Access to My Oracle Support (24 x 7 web-based customer support systems), including the ability to log service requests online
- 24x7 access to Oracle Unbreakable Linux Network

Lustre Support

Lustre Support is available for customers who have acquired Lustre 1.6 and 1.8. Lustre Support consists of:

- Access to patches, fixes, security alerts, and updates
- Assistance with service requests 24 hours per day, 7 days per week
- Access to My Oracle Support (24 x 7 web-based customer support systems), including the ability to log service requests online

Lustre Support does not include:

- Upgrades to other Lustre program releases

Service Request Packages

Service Request Packages are made available to members of the Oracle Partner Network. Service Request Packages provide web-based technical support in packages of 10 or 25 service

requests, do not include updates, and are not available for all programs. Please contact your OPN Interaction Center (<http://partner.oracle.com/>) for program availability.

Service Request Packages are valid for one year from the date of purchase. Any unused service request(s) will expire at the earlier of (i) the end of such year, or (ii) the end of your OPN membership term if such membership is not renewed. Access to log service requests will be restricted at the same time the final service request is resolved.

North American Payroll Tax Updates

North American Payroll Tax Updates is available for programs eligible to receive Sustaining Support. Customers who acquire North American Payroll Tax Updates will receive a tax year of tax updates for Oracle payroll applications.

In order to acquire North American Payroll Tax Updates, your licensed programs must be currently supported with Software Update License & Support. If you have maintained Software Update License & Support and want to acquire North American Payroll Tax Updates, the licenses do not need to be migrated to current license metrics to do so. North American Payroll Tax Updates will be delivered through My Oracle Support.

When offered, North American Payroll Tax Updates may be acquired for up to two (2) years from the availability of Sustaining Support for the applicable Oracle program release. North American Payroll Tax Updates is not subject to the Reinstatement policies stated above. North American Payroll Tax Updates is not available in all countries or for all programs. Please contact your Support Sales Representative for service availability.

Oracle Linux Support Services

Oracle offers Oracle Linux support services to customers, regardless of whether or not they are using Oracle programs. For information about the available services, please refer to the Oracle Linux and Oracle VM Support Policies available at <http://www.oracle.com/support/policies.html>.

Oracle VM Support Services

Oracle offers Oracle VM support services to customers, regardless of whether or not they are using Oracle programs. For information about the available services, please refer to the Oracle Linux and Oracle VM Support Policies available at <http://www.oracle.com/support/policies.html>.

Exadata Premier Support

For information regarding renewals of Exadata Premier Support, please refer to the Exadata Technical Support Policies available at <http://www.oracle.com/us/support/policies/index.html>.

Sun Software Technical Support Services

Oracle will make available for a limited time certain software technical support offerings that were previously offered by Sun Microsystems. These technical support offerings are governed by the Sun Software Technical Support Policies. Information about these offerings is available at <http://www.sun.com/servicelist/>.

WEB-BASED CUSTOMER SUPPORT SYSTEMS

The following policy for My Oracle Support applies to all Oracle product lines except Phase Forward and ATG programs:

Access to My Oracle Support is governed by the Terms of Use posted on the My Oracle Support web site. The Terms of Use are subject to change and a copy of these terms is available upon request. Access to My Oracle Support is limited to your designated technical contacts.

The following applies to ATG programs only:

Access to ATG Customer Care Support Portal is governed by the Terms of Use posted on the ATG Customer Care Support Portal web site. The Terms of Use are subject to change and a copy of these terms is available upon request. Access to ATG Customer Care Support Portal is limited to your designated contacts.

Oracle Unbreakable Linux Network

Access to the Oracle Unbreakable Linux Network is included with Software Update License & Support for the Database Firewall and Database Firewall Management Server programs and OpenOffice.org Premier Support.

TOOLS USED TO PERFORM TECHNICAL SUPPORT SERVICES

Oracle may make available software tools (such as tools to assist in the collection and transmission of configuration data) and web-based tools (such as tools that enable Oracle, with your consent, to access your computer system) to aid in the resolution of service requests. The tools are licensed under the My Oracle Support Terms of Use, and may be subject to additional terms provided with the tools. Some of the tools are designed to collect information concerning the configuration of your hardware and software environment ("tools data"). The tools will not access, collect or store any personally identifiable information (except for technical support contact information) or business data files residing in your software environment. By using the tools, you consent to the transmission of your tools data to Oracle for the purposes of providing reactive and proactive technical support services. In addition, the tools data may be used by Oracle to assist you in managing your Oracle product portfolio, for license and services compliance and to help Oracle improve upon product and service offerings. Further details about some of the current tools Oracle uses to provide technical support services, and the data collected and how it is used, are described in the Oracle technical support policies, the Global Customer Support Security Practices and My Oracle Support. You may contact your Oracle sales representative or call your local Customer Support office for more details regarding the tools and availability.

If Oracle expressly provides in the tools documentation, technical support policies, an ordering document, or readme that the tool is provided under separate license terms ("Separate Terms") then the Separate Terms shall govern your access and use of the tool. Similarly, embedded third party software, or third party software, licensed under Separate Terms (for example Mozilla and LGPL) may be required to access or run the tools per the tools documentation or readme. Your rights to use a tool or software licensed under Separate Terms shall not be restricted or modified in any way by your agreement with Oracle.

Oracle Configuration Manager

Oracle provides Oracle Configuration Manager (OCM) with some of its programs. The OCM is a tool that assists in the collection and transmission of your configuration data to Oracle to enable us to respond more efficiently to your service requests. The OCM tool will connect to Oracle over the internet. You may not receive a separate notice upon connection. You may turn the OCM tool off, however we strongly discourage this as it impedes our ability to provide services to you. More information on the tool is available at <http://www.oracle.com/technetwork/indexes/documentation/index.html>. By using this tool, you consent to the transmission of your configuration information to Oracle.

The configuration data provided to Oracle will be stored in password-protected repositories. In addition to the tools data uses, configuration data will be used to assist in resolving service requests and to provide recommendations regarding configuration of your environment and deployment of programs.

GLOBAL CUSTOMER SUPPORT SECURITY PRACTICES

Oracle is deeply committed to the security of its technical support services. In providing standard technical support services, Oracle will adhere to the Global Customer Support Security Practices, which are available at <http://www.oracle.com/support/policies.html>. The Global Customer Support Security Practices are subject to change at Oracle's discretion; however, Oracle will not materially reduce the level of security specified in the Security Practices during the period for which fees for technical support have been paid. To view changes that have been made, please refer to the attached [Statement of Changes](#) (PDF).

SEVERITY DEFINITIONS

Service requests for all other supported Oracle programs may be submitted by you online through Oracle's web-based customer support systems, by email, or by telephone. The service request severity level is selected by you and Oracle and should be based on the following severity definitions:

Severity 1

Your production use of the supported programs is stopped or so severely impacted that you cannot reasonably continue work. You experience a complete loss of service. The operation is mission critical to the business and the situation is an emergency. A Severity 1 service request has one or more of the following characteristics:

- Data corrupted
- A critical documented function is not available
- System hangs indefinitely, causing unacceptable or indefinite delays for resources or response
- System crashes, and crashes repeatedly after restart attempts

Except as otherwise specified below for Moniforce webSensor Enterprise and webProbe programs and ATG Standard Support, reasonable efforts will be made to respond to Severity 1 service requests within one (1) hour.

For Moniforce webSensor Enterprise and webProbe programs, reasonable efforts will be made to respond to Severity 1 service requests within one (1) business day during local business hours, excluding holidays; local business hours are Monday through Friday 8:00 A.M. to 6:00 P.M. Central European Time.

For ATG Standard Support, reasonable efforts will be made to respond to Severity 1 service requests within two (2) business days.

24 Hour Commitment to Severity 1 Service Requests for all supported Oracle programs, other than Moniforce webSensor Enterprise and webProbe programs and ATG Premium and ATG Standard Support: OSS will work 24x7 until the issue is resolved or as long as useful progress can be made. You must provide OSS with a contact during this 24x7 period, either on site or by pager, to assist with data gathering, testing, and applying fixes. You are requested to propose this severity classification with great care, so that valid Severity 1 situations obtain the necessary resource allocation from Oracle.

Severity 2

You experience a severe loss of service. Important features are unavailable with no acceptable workaround; however, operations can continue in a restricted fashion.

Severity 3

You experience a minor loss of service. The impact is an inconvenience, which may require a workaround to restore functionality

Severity 4

You request information, an enhancement, or documentation clarification regarding your software but there is no impact on the operation of the software. You experience no loss of service. The result does not impede the operation of a system.

CONTACT INFORMATION

Phone numbers and contact information can be found on Oracle's support web site at <http://www.oracle.com/us/support/contact-068555.html>.

EXHIBIT B
Global Customer Support Security Practices

Global Customer Support Security Practices

Effective Date: 10-January-2011

OVERVIEW

Oracle Global Customer Support ("GCS") follows the security practices identified in this document when performing standard program and hardware technical support for Oracle customers ("you" or "your") under the terms of your license agreement, your order of technical support ("order"), and the [Oracle Software Technical Support Policies](#) and/or [Oracle Hardware and Systems Support Policies](#). All terms and conditions for Advanced Customer Services shall be specified in the order for such services, and are outside the scope of this document. As used herein, "your data" means any data stored in your computer system and accessed remotely while performing the services. Oracle is responsible for its employees' and subcontractors' provision of technical support (including any resulting access to and use of your data) in accordance with the terms of your order and these Security Practices. For a fuller discussion of Oracle GCS data management practices and how to control data that may be collected by Oracle's technical support tools, see the "Data Management" section below.

These Security Practices are subject to change at Oracle's discretion; however, Oracle policy changes will not result in a material reduction in the level of security specified herein during the period for which fees for technical support have been paid. To view changes that have been made, please refer to the attached [Statement of Changes](#) (P D F) .

INFORMATION SECURITY PROGRAM

Oracle's information security management program is aligned with ISO/IEC 27001:2005, and Oracle has adopted and implemented information security practices and procedures in relation to: information security policies; management responsibility for security; information asset ownership and classification; physical and logical access security; network, media and O/S security management and control; audit and monitoring; configuration management, and change control; risk assessment, mitigation and remediation; vulnerability management; incident reporting and incident management; business continuity management; and compliance reporting.

GCS practices comply with corporate policies established by Oracle's Global Information Security and Global Product Security organizations and with technical security standards and procedures set by Oracle's Global Information Technology organization.

GCS also provides new hire training courses, custom training for specific workflows and business cases, and regular 'hot topics' training and communications for GCS staff.

GLOBAL CUSTOMER SUPPORT OPERATION

GCS is a global operation, with Service Request (SR) management based on global competencies, and global work assignment, categorization and processing. SRs are processed by GCS engineers in support centers around the globe on a follow-the-sun model, based on criticality, time zone, and the nature of the issue raised.

WEB-BASED CUSTOMER SUPPORT SITES

Oracle offers customers a number of customer support web sites; each site operates in support of different Oracle programs and hardware lines. Described below are the security practices applicable to the My Oracle Support site. Please see the current Oracle Technical Support Policies for more complete information about which Oracle programs and hardware are supported by each support web site.

My Oracle Support Security

My Oracle Support is the key website service for providing interactions with GCS for Oracle programs and hardware, including SR access, knowledge search / browse, support communities and technical forums.

My Oracle Support employs the following security controls:

- My Oracle Support is a HTTPS extranet website service using Secure Socket Layer (SSL) encryption.
- Your registration on My Oracle Support uses a unique Customer Support Identifier (CSI) linked to your Support contract(s).
- Each CSI has at least one customer-designated My Oracle Support Customer User Administrator. Your User Administrators approve / reject requests from users for new accounts and CSI associations to existing accounts; you are responsible for provisioning and de-provisioning your users on a timely basis.
- Your User Administrator can control which features your users may access on My Oracle Support (for example, write access to SRs can be enabled or disabled for a given user).
- Your User Administrator can view users associated with its CSIs, and has the ability to remove access privileges for users.
- My Oracle Support SR Attachments (documents uploaded as part of the My Oracle Support SR create / update process) are saved into a dedicated GCS repository. Your communications with this repository are secured using Secure File Transfer Protocol (sftp) and/or Hypertext Transfer Protocol over Secure Socket Layer (https).
- The GCS repository is deployed in a firewall protected demilitarized zone (DMZ) network. A DMZ is designed to permit Internet access to and from a private network, while still maintaining the security of that network. There is no direct Internet connection to the application server. The My Oracle Support site resolves to an IP address registered to a virtual server on a SSL Accelerator/Reverse Proxy to encrypt the information and mask the location of the source and destination. At the termination point of the SSL encryption, reverse proxy forwards traffic to the application server.
- My Oracle Support SR attachments are transferred to the dedicated GCS repository where they are retained while the SR is open and for up to 7 days after SR closure.
- Only your authorized users who have the SR CSI in their profile can view your SRs via My Oracle Support.
- Technical issues reported to Oracle may be used as a basis for Knowledge Management content, but references to customers and customer data, as well as customer context, are removed from Knowledge Management articles.

SECURITY OF TECHNOLOGIES USED TO PERFORM TECHNICAL SUPPORT

GCS uses a number of methods and tools as part of SR diagnosis and resolution, both for Oracle program and hardware support. The security infrastructure associated with those methods and tools is described below.

Collaboration Tools

GCS uses two main collaboration tools to review issues reported to Oracle: Oracle Web Conferencing (OWC) for programs and Oracle Shared Shell for hardware. Both tools share the following common features:

You control and participate actively in all sessions. You control the session, what navigation is undertaken, what data is displayed and what commands are issued. You also have the ability to shut down the session at any time for any reason.

- Secure Socket Layer (SSL) encryption is provided for data transmitted over the Internet.

Additional details about OWC and Shared Shell are as follows:

- **OWC** enables GCS to establish one-to-one web conferences to actively assist you with SR diagnosis and resolution.
 - OWC is designed to work with any Internet proxy and firewall without the need to open any additional ports.
 - You may request that the GCS engineer set a password for individual OWC sessions for SRs.
 - Oracle may record the OWC session for subsequent diagnostic and resolution purposes. You are free to instruct GCS to stop recording at any time.
- **Shared Shell** enables GCS to remotely view or access terminal/command interfaces on your supported hardware.
 - You have access control for conference participants. You invite participants to the session and are responsible for approving or denying participants. You may terminate any participant at any time.
 - The default access control for conference participants is "view only", where participants may only view what appears in the terminal/command line window. You may also choose "no-execute" access, where a participant may type a command but only you can execute it, or "full" access, which allows a participant to type and execute commands.
 - Shared Shell includes the ability to transfer files between you and other session participants. File transfer requests can be initiated by you or any other session participant. Only you approve requests to send or receive files.
 - The Shared Shell initiator system does not require any open inbound ports; all Internet communications are initiated through outbound connections from the initiator system.
 - Oracle logs Shared Shell sessions for subsequent diagnostic and resolution purposes. The log files are stored on Oracle systems with restricted access that is provisioned via an approval process. The log files are also stored on the initiator system from which you launched Shared Shell.

Tools Used for Programs & Hardware

GCS provides customers a variety of tools designed to collect data to assist with issue resolution. These tools share the following common features:

- They do not capture, collect, transport, or use any production data from the system or device on which the tools are run,
- When transmitting data directly to Oracle without your active involvement, transmissions are sent using one of a variety of encryption technologies.

Further details about some of the current tools GCS uses for program and hardware technical support are described below. Additional information about other tools may be available on My Oracle Support.

Tools for Programs

Oracle Configuration Manager (OCM)

Oracle Configuration Manager (OCM), downloadable from My Oracle Support, is used to upload your environment configuration information. OCM gathers configuration information and loads that information to a Customer Configuration Repository (CCR) at Oracle. Providing the auto-collected configuration information to Oracle is voluntary and is done only with your consent through acceptance of the OCM license agreement.

- You control the installation and configuration of OCM. If you configure it to send information to Oracle, OCM pushes your selected configuration uploads to the Oracle CCR on a regular basis. OCM only initiates outbound communications to Oracle, and does not listen for inbound communications.
- In order to collect detailed database configuration information, your Oracle database must be configured with certain OCM provided PL/SQL procedures. OCM provides scripts that you can

run against the Oracle database after you install OCM. These scripts create a database account called ORACLE_OCM in the Oracle database. The account stores the PL/SQL procedures that collect the configuration information, and owns the database management system (DBMS) job that performs the collection. After the account has been set up, it is immediately locked and the password expired because login privileges are no longer required or desired.

- You can choose to enable auto-update for OCM. OCM auto-update uses authentication and encryption. Before any downloaded update is applied, the digital signature is validated, confirming the update was signed with a certificate issued to Oracle (this certificate is different from the certificate used to secure the communications link). The signing software is on a system not connected to the Oracle corporate network.
- When transmitting configuration information to Oracle, OCM uses Secure Socket Layer (SSL) and industry standard protocol (HTTPS) as well as 128bit encryption using public/private key exchange (otherwise known as asymmetric encryption) for all communications. OCM authenticates Oracle as the recipient by interrogating the certificate returned by Oracle (a recognized certificate authority, specified by Oracle, issues the certificate to Oracle).
- The OCM upload server(s) are deployed in a firewall protected DMZ network. There is no direct Internet connection to the application server. The OCM site resolves to an IP address registered to a virtual server on a SSL Accelerator/Reverse Proxy to encrypt the information and mask the location of the source and destination. At the termination point of the SSL encryption, reverse proxy forwards traffic to the application server. Configuration information is then pushed to the CCR database tiers on Oracle's internal network.
- Oracle utilizes a network Intrusion Detection Systems (nIDS) to provide continuous surveillance on the OCM upload site to intercept and respond to security events as they are identified.
- Oracle conducts quarterly vulnerability scans on the OCM upload server to detect known vulnerabilities.
- The configuration information collected in the CCR is secured inside Oracle's Tier IV Austin Data Center and protected by Oracle network security infrastructure and security teams.
- Customers may request deletion of their configuration information by logging a Service Request indicating the specific configuration information and scope of the deletion request.

For further information about what information is collected by OCM and how it is used and protected, please consult the OCM license terms and other supporting documentation available on My Oracle Support.

Remote Diagnostic Agent (RDA)

Remote Diagnostics Agent (RDA) provides further information that can assist in SR diagnosis and resolution. RDA scripts are provided to you by GCS to retrieve configuration, parameters and other settings from a system as input to and context for the SR diagnosis and resolution process in GCS.

RDA information is stored with you; however, you may choose to upload this information as attachments through the SR logging and update process on My Oracle Support. Any RDA uploads to Oracle will be secured in the dedicated GCS repository as specified above.

Database Diagnostic Data

Oracle database (Release 11g or higher) diagnostic incident and package information are auto-generated by the database as the system encounters errors during its operation. Diagnostics data is designed to provide error, trace, configuration, and other information relevant to an issue from across the database. This information can help you identify, diagnose and resolve your issues without involvement from GCS.

- Diagnostics data are stored with you; however, you may choose to upload diagnostics data as attachments through the SR logging and update process on My Oracle Support. You may transfer any diagnostics data to Oracle using the OCM secured pipeline. Any diagnostics data uploads to Oracle will be secured in the dedicated GCS repository as specified above.

Tools for Hardware

Auto Service Request – for Systems

Auto Service Request (ASR) for systems helps automate the hardware technical support process by using fault event telemetry to detect faults on your supported Oracle hardware, and forwards the data to Oracle for analysis and service request generation. The ASR information captured from your system and then transported to and stored within Oracle is limited to product failure information for diagnosis and resolution and to customer information for confirming eligibility to receive technical support. This includes fault event data, registration data, and ASR asset activation data (such as host names and serial numbers and service request data).

- Upon initialization of the ASR manager on your system, you register the system and perform a private/public encryption key exchange. 1024-bit RSA keys are used for signing all future messages (both request and response) of the specific ASR manager in order to provide authentication of messages with the core ASR infrastructure at Oracle.
- While activating your ASR hardware assets, the ASR manager discovers any Service Tags running on those assets to retrieve their serial numbers and production information. The ASR manager receives telemetry messages from the ASR assets and performs operations to validate and suppress an alarm if necessary. If the message should be sent to the core ASR infrastructure at Oracle for processing, the message is encoded in an XML data structure and sent via HTTPS (port 443), using RSA with RC4 (128 bit) SSL encryption.
- The core ASR infrastructure at Oracle utilizes user account credentials for validation of users and digitally-signed and encrypted traffic for validation of customer systems. All data stored by the ASR system is segregated by organization in a multi-tenancy security model, and this security is enforced through multiple layers of API-based access and authorization controls. There is no direct, outside access to the data stored in the core ASR infrastructure.

Auto Service Request – for Storage (Service Delivery Platform)

The ASR Service Delivery Platform (SDP) is an Oracle configured and managed server installed on your site that connects to and monitors your supported Oracle storage devices. The SDP uses the core ASR infrastructure at Oracle, so the ASR infrastructure, network, and security practices described above for ASR for Systems are the same for SDP. Oracle also employs the following additional security measures for SDP:

- All SDP traffic between you and Oracle is initiated either from an Oracle-supplied Virtual Private Network (VPN) router or a customer VPN-capable device to Oracle's VPN termination routers.
- Oracle service engineers accessing your storage devices via VPN are authenticated and assigned various roles that are part of the assigned SDP group privileges. An engineer's credentials are encrypted using a secret key. SDP uses the HTTP protocol for authentication purposes; however, since HTTP does not encrypt the user's password, the user's session is encrypted using a 2048 bit RSA certificate.
- The production data stored on your storage devices is not visible to Oracle service engineers.
- The installation of the SDP server involves your formal review and approval, as it may require you to make network changes prior to deployment. The encryption type and hash algorithm of the VPN tunnel is reviewed and agreed to during this formal review.
- The SDP security mechanisms follow the CERT/Coordination Center guidelines for remote administration tools.
- Additional details can be found in the SDP Security White Paper, which is available upon request.

DATA MANAGEMENT AND PROTECTION

GCS practices conform to Oracle's information protection policies, which classify your data as among the highest two classes of confidential information at Oracle. These policies also impose restrictions on the storage and distribution of your data.

GCS retains SR data in accordance with specific retention schedules for technical support related information. GCS adheres to corporate security policies for secure disposal of your data and media.

Data Management

GCS does not create or update your data. In the event that Oracle accesses your data in connection with the provision of technical support, GCS will adhere to the privacy practices described at: <http://www.oracle.com/html/services-privacy-policy.html>.

Access to your data is granted by Oracle based on job role/responsibility, with access provisioned from a central provisioning repository that is subject to approval processes.

You maintain control over and responsibility for your data residing in your computing environments. You are responsible for all aspects of your collection of your data, including determining and controlling the scope and purpose of collection. If you provide any personally identifiable information to Oracle for use in the performance of the services, you are responsible for providing any required notices and/or obtaining any required consents relating to collection and use of such data (including any such consents necessary for Oracle to provide the services). Oracle does not and will not collect data from your data subjects or communicate with data subjects about their data.

Please note that GCS services and systems are not designed to accommodate special security controls that may be required to store or process certain types of sensitive data. Please ensure that you do not submit any health, payment card or other sensitive data that requires protections greater than those specified in these Security Practices. Information on how to remove sensitive data from your submission is available in My Oracle Support at <https://support.oracle.com/CSP/main/article?cmd=show&type=NOT&id=1227943.1>.

Reporting Breaches

- GCS will promptly evaluate and respond to incidents that create suspicions of unauthorized misappropriation of any of your data. Oracle Global Information Security (GIS) will be informed of such incidents and, depending upon the nature of the activity, will define escalation paths and response teams to address the incidents.
- If Oracle determines that your data has been misappropriated (including by an Oracle employee), Oracle will promptly report such misappropriation to you in writing.
- Oracle personnel are instructed in addressing incidents where your data has been misappropriated, including prompt reporting and escalation procedures.

Disclosure

You should not disclose your data to Oracle except to the extent required for Oracle to perform the services for you. Oracle will not disclose your data, including text and images, except in accordance with your order, your instructions, or to the extent required by law. Oracle will use diligent efforts to inform you, to the extent permitted by law, of any request for disclosure before disclosure is made.

MEDIA RETURNS

You are responsible for removing all information and data that you have stored on hard disk drives and solid state drives ("drives") before you return the drives for repair/replacement.

All returned drives are processed through an Oracle logistics repair vendor located in your region. As an additional security precaution, the vendor is required to run a software-enabled data erasure process that is designed to meet the U.S. Department of Defense Sanitizing Standard 5220.22-M on all drives that are operational. This erasure takes place before Oracle proceeds with any additional processing or handling

of the device. In the event that a returned drive is non-operable, it will either be returned to the manufacturer for erasure and processing or will be batch logged via serial number and shipped to an electronic disposal vendor that pulverizes the drive.

In no event may you leave a tape in a tape drive that is being returned. If a tape is stuck inside a drive that you are unable to remove, consult your global field representative to assist with its removal.

NETWORK SECURITY

Oracle uses firewall and router rules, access control lists and segmentation on the Oracle corporate network. Oracle's Global IT department manages and monitors all routers and firewall logs. Network devices are safeguarded via centralized authentication. Oracle audits corporate network usage for suspicious activity.

Remote workers use VPN encrypted network traffic via industry standard VPN or equivalent technologies.

PHYSICAL SECURITY

Oracle maintains the following physical security standards for the Oracle facilities from which environments may be accessed ("service location(s)");

- Physical access to service locations is limited to Oracle employees, subcontractors and authorized visitors.
- Oracle employees, subcontractors and authorized visitors are issued identification cards that must be worn while on the premises.
- Visitors are required to sign a visitor's register, be escorted and/or observed when they are on the premises, and/or be bound by the terms of a confidentiality agreement with Oracle.
- Oracle Corporate Security monitors the possession of keys/access cards and the ability to access service locations. Staff leaving Oracle's employment must return keys/cards and key/cards are deactivated upon termination.
- After-hours access to service locations is monitored and controlled by Oracle Corporate Security.
- Oracle Corporate Security authorizes all repairs and modifications to the physical security barriers or entry controls at service locations.

ORACLE CORPORATE SECURITY PRACTICES

Computer Virus Controls

On all computers issued to Oracle employees, Oracle maintains a mechanism within the Oracle network that scans all email sent both to and from any Oracle recipient for malicious code and deletes email attachments that are infected with known malicious code prior to delivery. Oracle requires all Oracle employee computers to be loaded with virus protection software. Oracle also maintains mechanisms to ensure that virus definitions are regularly updated, and that updated definitions are published and communicated to employees. These mechanisms also give employees the ability to download new definitions and update virus protection software automatically. From time to time, Oracle Global Information Security will conduct compliance reviews to ensure that employees have the virus software installed and that virus definitions on all desktops and laptops are updated.

Personnel

Oracle places strong emphasis on reducing risks of human error, theft, fraud, and misuse of Oracle assets and systems. Oracle's efforts include personnel screening, making personnel aware of security policies, and training employees to implement security policies. For example, employees are expected to have a clear understanding of password policies, 'clear desk' policies, and policies concerning the handling of confidential data.

Employee Training

Oracle employees are required to complete an online data privacy awareness-training course. The course instructs employees on the definitions of data privacy and personal data, recognizing risks relating to personal data, understanding their responsibilities for data and reporting any suspected privacy violations. Employees also are required to complete training in corporate ethics.

Oracle performs periodic compliance reviews to determine if employees have completed the online data privacy awareness-training course. If Oracle determines that an employee has not completed this course, the employee will be promptly notified and instructed to complete such training as soon as practicable, and may be subject to disciplinary action.

Oracle promotes awareness of, and educates employees about, issues relating to security. Oracle prepares and distributes to its employees quarterly newsletters, ad hoc notices and other written material on security. Oracle also may update existing training courses, and develop new courses from time to time, which employees will be directed to complete.

Enforcement

Security reviews, assessments, and audits are conducted periodically to confirm compliance with Oracle information security policies, procedures and practices. Employees who fail to comply with information security policies, procedures and practices may be subject to disciplinary action, up to and including termination.

AMENDMENT THREE
TO THE
SOFTWARE LICENSE AND MAINTENANCE SUPPORT AGREEMENT
MASTER CONTRACT FOR SOFTWARE LICENSING (MLA NUMBER MLA0024)
BETWEEN
THE STATE OF OHIO
AND
ORACLE AMERICA, INC.

This Amendment Three (the "Amendment") amends the Software License and Maintenance Support Agreement (the "Contract," Oracle reference name "SLSA-12916999-29-MAY-2008") dated May 28, 2008 by and between the State of Ohio, through the Department of Administrative Services (the "State"), located at 30 East Broad Street, 40th Floor, Columbus, Ohio 43215, on behalf of the State of Ohio, and Oracle America, Inc., as successor in interest to Oracle USA, Inc., (the "Contractor"). Should there be any inconsistencies between this Amendment and the Contract, this Amendment shall control.

The parties hereby agree to amend the Contract as follows:

1. The first sentence of Part III, Section 1 (Contract Administration / Term) shall be deleted and replaced with the following:

"The term of the Contract will be from May 28, 2008 until June 30, 2015."
2. Exhibit A (Oracle Software Technical Support Policies) of the Contract shall be deleted in its entirety and replaced with the Oracle Software Technical Support Policies, dated May 20, 2013, attached hereto as Exhibit A.

Other than the amended terms set forth herein, the terms and conditions of the Contract shall remain unchanged and in full force and effect.

The effective date of this Amendment shall be 6/26/13.

ORACLE AMERICA, INC.

ORACLE SOFTWARE TECHNICAL SUPPORT POLICIES, dated May 20, 2013

*

OH_Am3_061913.dvaughn

Oracle Software Technical Support Policies

Effective Date: 20-May-2013

OVERVIEW

Unless otherwise stated, these Software Technical Support Policies apply to technical support for all Oracle software product lines.

"You" and "your" refers to the individual or entity that has ordered technical support from Oracle or an Oracle-authorized distributor.

To receive technical support as provided by Oracle Support Services ("OSS") as described in these Oracle Software Technical Support Policies, all programs must be properly licensed.

Technical support is provided for issues (including problems you create) that are demonstrable in the currently supported release(s) of an Oracle licensed program, running unaltered, and on a certified hardware, database and operating system configuration, as specified in your order or program documentation.

Product release and supported platforms information for all Oracle programs, other than Phase Forward programs, is available through Oracle's web-based customer support systems as described in the Web-Based Customer Support Systems section below. Product release and supported platforms information for Phase Forward programs will be provided to you in writing.

Oracle will provide technical support in accordance with Oracle's services privacy policy available at <http://www.oracle.com/us/legal/privacy/services-privacy-policy-078833.html>.

These Technical Support Policies may be referred to in former PeopleSoft agreements as the "Software Support Services Terms and Conditions", in former Siebel agreements as the "Maintenance Services Policy", in former Hyperion agreements as the "Standard Maintenance Program", in former Agile agreements as the "product support policy", in former BEA agreements as the "Support Services" policies, in former Haley agreements as the "Support Maintenance Agreement", in former mValent agreements as the "Maintenance and Technical Support Agreement", in former AmberPoint agreements as the "Maintenance and Support Schedule 2.0", and in former Phase Forward agreements as the "Phase Forward Licensee Support Services Policy."

These Technical Support Policies are subject to change at Oracle's discretion; however Oracle policy changes will not result in a material reduction in the level of the services provided for supported programs during the support period (defined below) for which fees for technical support have been paid.

To view a comparison of these Oracle Software Technical Support Policies and the previous version of the Oracle Software Technical Support Policies, please refer to the attached [Statement of Changes](#) (PDF).

SUPPORT TERMS

Technical Support Fees

Technical support fees are due and payable annually in advance of a support period, unless otherwise stated in the relevant ordering document or financing or payment contract with Oracle or an Oracle affiliate. Your commitment to pay is required to process your technical support order with Oracle (e.g., purchase order, actual payment, or other approved method of payment). An invoice will be issued only upon receipt of your commitment to pay, and will be sent to a single billing address that you designate. Failure to submit payment will result in the termination of support.

Support Period

Technical support is effective upon the effective date of your ordering document unless stated otherwise in your ordering document. If your order was placed through the Oracle Store, the effective date is the date your order was accepted by Oracle. Unless otherwise stated in the ordering document, Oracle technical support terms, including pricing, reflect a 12 month support period (the "support period"). All technical support services ordered for a support period and the related fees are non-cancelable and non-refundable. Oracle is not obligated to provide technical support beyond the end of the support period.

License Set

A license set consists of (i) all of your licenses of a program, including any options* (e.g., Database Enterprise Edition and Enterprise Edition Options; Purchasing and Purchasing Options), Enterprise Manager* (e.g., Database Enterprise Edition and Diagnostics Pack), or self-service module* (e.g., Human Resources and Self-Service Human Resources) licensed for such programs, or (ii) all of your licenses of a program that share the same source code**. Development and demonstration licenses available through the Oracle Partner Network or the Oracle Technology Network are not included in the definition of a license set. For Crystal Ball programs, a license set is defined as the same licenses of a program contained on a single order. For Oracle Java Embedded Binary programs, a license set consists of all of the distributed units of each unique Java application product licensed pursuant to the Java BLRA agreement between you and Oracle.

*As specified on Oracle's price list.

**Programs that share the same source code are:

- Database Enterprise Edition, Database Standard Edition, Database Standard Edition One, and Personal Edition.
- Internet Application Server Enterprise Edition, Internet Application Server Standard Edition, Internet Application Server Standard Edition One, WebLogic Server Enterprise Edition, WebLogic Server Standard Edition, WebLogic Suite, and Web Tier.

For purposes of clarification, if you are an Oracle partner and provide first line support to an end user (e.g., Embedded Software License ("ESL"), Application Specific Full Use ("ASFU"), or any other Oracle authorized provision of first line support), a license set consists of all of the end user's licenses of the program(s) embedded or included in the Application Package pursuant to the ESL Distribution Agreement, ASFU Distribution Agreement, or other distribution agreement between you and Oracle. If the end user also has Full Use licenses supported directly by you, then those Full Use licenses must also be supported at the same level as the ASFU or ESL licenses.

If Oracle is providing first line support for all of an end user's ASFU and Full Use licenses, then both the ASFU and Full Use licenses must be supported at the same level. However, if Oracle is providing first line support for an end user's Full Use licenses and you are providing first line support for the ASFU and/or ESL licenses, then the licenses would not be considered part of the same license set under Oracle's matching service level policy.

Matching Service Levels

When acquiring technical support, all licenses in any given license set must be supported under the same technical support service level (e.g., Software Update License & Support or unsupported). If you add Extended Support, you still must maintain Software Update License & Support for the entire license set; subject to availability, you must acquire Extended Support for all licenses of a particular version release of a program if you acquire Extended Support for any license in such version release. You may not support a subset of licenses within a license set; the license set must be reduced by terminating any unsupported licenses. You will be required to document license terminations via a termination letter.

Reinstatement of Oracle Technical Support

If technical support lapses or was not originally purchased with a program license, a reinstatement fee will be assessed. The reinstatement fee is computed as follows: a) if technical support lapsed, then the reinstatement fee is 150% of the last annual technical support fee you paid for the relevant program; b) if you never acquired technical support for the relevant programs, then the reinstatement fee is 150% of the net technical support fee that would have been charged if support had been ordered originally for the relevant program per Oracle's Support pricing policies in effect at the time of reinstatement. The reinstatement fee in (a) shall be prorated from the date technical support is ordered back to the date technical support lapsed. The reinstatement fee in (b) shall be prorated back to the original program license order date.

In addition to the reinstatement fee described above, you must pay the technical support fee for the support period. This technical support fee is computed as follows: (i) if technical support lapsed, then the technical support fee for a twelve month support period shall be the last annual technical support fee you paid for the relevant program; (ii) if you never acquired technical support for the relevant program, then the annual technical support fee shall be the fee that would have been charged if support had been ordered originally for the relevant program per Oracle's Support pricing policies in effect at the time of reinstatement. Renewal adjustments may be applied to the annual support fee described in (i) and (ii) above.

If you previously acquired technical support from an Oracle-authorized distributor and are now acquiring technical support directly from Oracle, an uplift may be added to the reinstatement fee and your technical support fee. If support is not reinstated for the entire license set or if support for a subset of licenses from an ordering document is reinstated, then the "License Set", "Matching Service Levels", and "Pricing following Reduction of Licenses or Support Level" policies will apply.

Pricing following Reduction of Licenses or Support Level

Pricing for support is based upon the level of support and the volume of licenses for which support is ordered. In the event that a subset of licenses on a single order is terminated or if the level of support is reduced, support for the remaining licenses on that license order will be priced at Oracle's list price for support in effect at the time of termination or reduction minus the applicable standard discount. Such support price will not exceed the previous support fees paid for both the remaining licenses and the licenses being terminated or unsupported, and will not be reduced below the previous support fees paid for the licenses continuing to be supported. If the license order from which licenses are being terminated established a price hold for additional licenses, support for all of the licenses ordered pursuant to the price hold will be priced at Oracle's list price for support in effect at the time of reduction minus the applicable standard discount.

Custom Application Bundles

Technical support may not be discontinued for a single program module within a custom application bundle.

Unsupported Programs

Customers with unsupported programs are not entitled to download or receive updates, maintenance releases, patches, telephone assistance, or any other technical support services for unsupported programs. CD packs or programs purchased or downloaded for trial use, use with other supported programs, or purchased or downloaded as replacement media may not be used to update any unsupported programs.

Technical Contacts

Your technical contacts are the sole liaisons between you and OSS for technical support of programs. Your technical contacts must have, at a minimum, initial basic product training and, as needed, supplemental training appropriate for specific role or implementation phase, specialized product usage, and/or migration. Your technical contacts must be knowledgeable about the Oracle programs and your Oracle environment in order to help resolve system issues and to assist Oracle in

analyzing and resolving service requests. When submitting a service request, your technical contact must have a baseline understanding of the problem you are encountering and an ability to reproduce the problem in order to assist Oracle in diagnosing and triaging the problem. To avoid interruptions in support services, you must notify OSS whenever technical contact responsibilities are transferred to another individual.

With the order of Software Update License & Support, you may designate one (1) primary and four (4) backup individuals ("technical contact") per license set, to serve as liaisons with OSS. With each USD\$250,000 in net support fees per license set, you have the option to designate an additional two (2) primary and four (4) backup technical contacts. Your primary technical contact shall be responsible for (i) overseeing your service request activity, and (ii) developing and deploying troubleshooting processes within your organization. The backup technical contacts shall be responsible for resolving user issues. You may be charged a fee to designate additional technical contacts.

Oracle may review service requests logged by your technical contacts, and may recommend specific training to help avoid service requests that would be prevented by such training.

Program Updates

"Update" means a subsequent release of the program which Oracle generally makes available for program licenses to its supported customers at no additional license fee, other than shipping charges if applicable, provided you have ordered a technical support offering that includes software updates for such licenses for the relevant time period. Updates do not include any release, option or future program that Oracle licenses separately. Updates are provided when available (as determined by Oracle) and updates may not include all versions previously available for a program acquired by Oracle. Oracle is under no obligation to develop any future programs or functionality. Any updates made available will be delivered to you, or made available to you for download. If delivered, you will receive one update copy for each supported operating system for which your program licenses were ordered. You shall be responsible for copying, downloading and installing the updates.

Payment Plan, Financing, and Leasing Agreements

Technical support fees due under payment plans, financing or leasing agreements between you and Oracle or an Oracle affiliate ("payment plan") are due and payable in accordance with the terms and conditions of such payment plan, but the technical support shall be ordered pursuant to the terms of the applicable ordering document.

Lifetime Support

Lifetime Support consists of the following service levels:

- Premier Support (also referred to as, and will be documented on your ordering document as, "Software Update License & Support")
- Extended Support (if offered)
- Sustaining Support

A description of the services available under Premier Support, Extended Support and Sustaining Support is included in the Oracle Technical Support Levels section below.

When offered and except as noted below, Premier Support will be available for five years from the date a release of the Oracle program becomes generally available. If offered, support may be extended for an additional three years with Extended Support for specific releases. Except as noted below, in addition to the technical support fee, an Extended Support fee applies for each support period for which Extended Support is purchased.

Alternatively, and if offered, support may be extended with Sustaining Support, which will be available for as long as you maintain technical support for your Oracle program licenses.

Refer to the attached document titled "[Lifetime Support Policy: Coverage for Technology Products](#)" (PDF) for specific server technology programs that are, or will be, covered by the Lifetime Support policy.

Refer to the attached document titled "[Lifetime Support Policy: Coverage for Fusion Middleware](#)" (PDF) for specific fusion middleware programs that are, or will be, covered by the Lifetime Support policy.

Refer to the attached document titled "[Lifetime Support Policy: Coverage for Applications](#)" (PDF) for specific application programs that are, or will be, covered by the Lifetime Support policy.

Refer to the attached document titled "[Lifetime Support Policy: Coverage for Retail Applications](#)" (PDF) for specific Retail application programs that are, or will be, covered by the Lifetime Support policy.

Refer to the attached document titled "[Lifetime Support Policy: Coverage for Sun Software and Operating System Products](#)" (PDF) for specific Sun software and operating system products that are, or will be, covered by the Lifetime Support policy.

Refer to the attached document titled "[Lifetime Support Policy: Coverage for Oracle Linux and Oracle VM](#)" (PDF) for specific Oracle Linux program releases that are, or will be, covered by the Lifetime Support Policy.

Notes:

1. Oracle's PeopleTools program, which was provided in conjunction with a PeopleSoft application program release, will be supported for as long as such application program release is supported. Patches and platform certifications for a PeopleTools minor release will be provided until 12 months after the next minor release is made generally available or Oracle announces that no future releases will be made; critical patch updates for a PeopleTools minor release may be provided for up to 24 months after the next minor release is made generally available.

You must apply PeopleTools minor releases in order to continue to receive Premier or Extended Support, if offered, for a PeopleSoft application program release. You may be required to apply PeopleTools minor releases to remain current with versions of third party technologies and products as supported by the provider of the third party product.

PeopleSoft application maintenance, which includes but is not limited to: patches, bundles, and maintenance packs, may require an upgrade to a newer version of PeopleTools.

Oracle reserves the right to make changes to the third party products included in the PeopleTools program release which includes but is not limited to: (i) requiring newer versions of the third party products, (ii) changing the way in which third party products are packaged and distributed and (iii) replacing or remediating one or more third party products.

2. Extended Support:
 - (a) For customers with a current support contract for Oracle Database 11gR2, the Extended Support fee has been waived for the period of February 2015 – January 2016. During this period, you will receive Extended Support during these periods as described in the Oracle Technical Support Levels section below.
 - (b) Except as otherwise specified in the table below, Extended Support will be made available for customers with a current support contract for Oracle Database 10gR2 for the period of

August 2013 – July 2015 at then-current Extended Support fees; Extended Support will be limited to Severity 1 fixes only; critical patch updates will not be made available.

Platform	
Fujitsu BS2000	For customers with current support contracts running Oracle Database 10gR2 on Fujitsu BS2000, the Extended Support fee will be waived for four years; the Extended Support fee will be waived from August 2010 – July 2014.
HP OpenVMS	For customers with current support contracts running Oracle Database 10gR2 on HP OpenVMS on Itanium, the Extended Support fee will be waived for five years; the Extended Support fee will be waived from August 2010 – July 2015. For the period of August 2015 – July 2017, Extended Support will continue to be available but will be at then-current Extended Support fees. During this period, Extended Support will be limited to Severity 1 fixes only; critical patch updates will not be made available.
IBM Linux on POWER Systems	For customers with current support contracts running Oracle Database 10gR2 IBM Linux on POWER Systems, the Extended Support fee will be waived for three years; the Extended Support fee will be waived from August 2010 – July 2013. For the period of August 2013 – July 2015, Extended Support will continue to be available but will be at then-current Extended Support fees. During this period, Extended Support will be limited to Severity 1 fixes only; critical patch updates will not be made available.
IBM z/OS	For customers with current support contracts running Oracle Database 10gR2 on IBM z/OS, the Extended Support Fee Waiver Period has been extended for one year; the Extended Support fee will be waived from August 2010 – July 2012. For the period of August 2012 – July 2013, Extended Support will be available at then-current Extended Support fees. After July 2013, Extended Support will continue to be available at then-current Extended Support fees; Extended Support will be limited to Severity 1 fixes only; critical patch updates will not be made available.
Linux Itanium and Windows Itanium	For customers with current support contracts running Oracle Database 10gR2 on the following platforms: Linux Itanium and Windows Itanium, the Extended Support fee will be waived for three years; the Extended Support fee will be waived from August 2010 – July 2013. For the period of August 2013 – December 2015, Extended Support will continue to be available but will be at then-current Extended Support fees. During this period, Extended Support will be limited to Severity 1 fixes only; critical patch updates will not be made available.

- (c) The following applies to the specified program releases running on certified OS versions of the HP-UX on the Itanium-2 processor based platform:

Program Release	
Oracle Database 10gR2	For customers with current support contracts running Oracle Database 10gR2 on certified OS versions of HP-UX on the Itanium-2 processor based platform, Extended Support will be available through December 2015 at then-current Extended Support fees. For the period of August 2013 – December 2015, Extended Support will be limited to Severity 1 fixes only; critical patch updates will not be made available.
Oracle Database 11gR1	For customers with current support contracts running Oracle Database 11gR1 on certified OS versions of HP-UX on the Itanium-2 processor based platform, Extended Support will be available through December 2015 at then-current Extended Support fees. For the period of September 2015 – December 2015, Extended Support will be limited to Severity 1 fixes only; critical patch updates will not be made available.
Oracle Database 11gR2	For customers with current support contracts running Oracle Database 11gR2 on certified OS versions of HP-UX on the Itanium-2 processor based platform, Extended Support will be available through December 2020 at then-current Extended Support fees. For the period of February 2018 – December 2020, Extended Support will be limited to Severity 1 fixes only; critical patch updates will not be made available.
WebLogic Server 9.2	For customers with current support contracts running WebLogic Server 9.2 on certified OS versions of HP-UX on the Itanium-2 processor based platform, Extended Support will be available through December 2015 at then-current Extended Support fees. For the period of December 2013 - December 2015, Extended Support will be limited to Severity 1 fixes only; critical patch updates will not be made available.
WebLogic Server 11gR1 (10.3.x – Terminal Release)	For customers with current support contracts running WebLogic Server 11gR1 (10.3.x - Terminal Release) on certified OS versions of HP-UX on the Itanium-2 processor based platform, Extended Support will be available through December 2020 at then-current Extended Support fees. For the period of July 2017 - December 2020, Extended Support will be limited to Severity 1 fixes only; critical patch updates will not be made available.
Tuxedo 9.1	For customers with current support contracts running Tuxedo 9.1 on certified OS versions of HP-UX on the Itanium-2 processor based platform, Extended Support will be available through December 2015 at then-current Extended Support fees. For the period of July 2014 - December 2015, Extended Support will be limited to Severity 1 fixes only; critical patch updates will not be made available.

- (d) The following applies to Oracle e-Business Suite:

The Extended Support fee has been waived for the program releases and periods as noted.

Program Release	Period of Extended Support Fee Waiver
Oracle e-Business Suite 11i/10	December 2010 – November 2013
Oracle e-Business Suite 12.0	February 2012 – January 2015
Oracle e-Business Suite 12.1	June 2014 – December 2018

For customers with a current support contract for Oracle e-Business Suite 11.5.10, for the first thirteen (13) months of Sustaining Support, December 2013 – December 2014, Oracle will continue to provide the following: Severity 1 fixes, critical patch updates and United States Tax Form 1099 updates for the 2013 tax year. Payroll regulatory tax updates will be provided for the countries and tax years specified below.

Country	2013 Tax Year	2014 Tax Year
United States and Canada	January 1, 2013 – December 31, 2014	January 1, 2014 – December 31, 2014
United Kingdom	N/A	April 6, 2013 – April 5, 2014
Australia	N/A	July 1, 2013 – June 30, 2014

- (e) For customers with a current support contract for PeopleSoft Enterprise 9.0 and/or PeopleSoft Enterprise 9.1, the Extended Support fee will be waived for the entire Extended Support period.
- (f) For customers with a current support contract for the Oracle Identity Manager 9.1.x release, the Extended Support fee will be waived for one year; the Extended Support fee will be waived from January 2013 – December 2013.
- (g) For customers with a current support contract for Oracle Single Sign-On 10gR3, Extended Support will be made available until December 2013 at then-current Extended Support fees. During this period, Extended Support will be limited to Severity 1 fixes only; critical patch updates will not be made available.
- (h) The following applies to JD Edwards EnterpriseOne or JD Edwards World:
- For customers with a current support contract for JD Edwards EnterpriseOne 9.0, JD Edwards EnterpriseOne 9.0 Update 2 (i.e., 9.0.2) and/or JD Edwards EnterpriseOne 9.1 releases, the Extended Support fee will be waived for the entire three year Extended Support Period. Please review the Lifetime Support policy for Extended Support timeframes.
 - For customers with a current support contract for JD Edwards World A9.1, the Extended Support fee will be waived for years two and three; the Extended Support fee will be waived from May 2013 – April 2015.
 - For customers with a current support contract for JD Edwards World A9.2, JD Edwards World A9.2.1, and/or JD Edwards World A9.3 releases, the Extended Support fee will be waived for the entire three year Extended Support period. Please review the Lifetime Support policy for Extended Support timeframes.
3. For customers with a current support contract for Oracle Network Intelligence 3.x, Oracle will provide Severity 1 fixes for the first twenty four (24) months of Sustaining Support; Severity 1 fixes will be provided from October 31, 2011 – November 1, 2013.

Right to Desupport

It may become necessary as a part of Oracle's product lifecycle to desupport certain program releases and, therefore, Oracle reserves that right. However, program releases that are expressly identified within Oracle's Lifetime Support policy will be governed by the terms of the Lifetime Support Policy. Desupport information is subject to change.

First and Second Line Support

You are required to establish and maintain the organization and processes to provide "First Line Support" for the supported programs directly to your users. First Line Support shall include but not be limited to (i) a direct response to users with respect to inquiries concerning the performance, functionality or operation of the supported programs, (ii) a direct response to users with respect to problems or issues with the supported programs, (iii) a diagnosis of problems or issues of the supported programs, and (iv) a resolution of problems or issues of the supported programs.

If after reasonable commercial efforts you are unable to diagnose or resolve problems or issues of the supported programs, you may contact Oracle for "Second Line Support". You shall use commercially reasonable efforts to provide Oracle with the necessary access (e.g., access to repository files, log files, or database extracts) required to provide Second Line Support; however please do not provide Oracle with access to any health, payment card, or other sensitive data that requires protections greater than those specified in the Global Customer Support Security Practices Section below.

Second Line Support shall consist of (i) a diagnosis of problems or issues of the supported programs and (ii) reasonable commercial efforts to resolve reported and verifiable errors in supported programs so that such supported programs perform in all material respects as described in the associated documentation.

Oracle may review service requests logged by your technical contacts, and may recommend specific organization and process changes to assist you with the above recommended standard practices.

Third Party Vendor-Specific Support Terms

You must remain on a supported environment – including applications and platforms – to receive technical support. If a vendor retires support for its product, you may be required to upgrade to a current certified and supported product, application, hardware platform, framework, database, and/or operating system configuration to continue receiving technical support services from Oracle.

Hyperion-Specific and Agile-Specific Support Terms

For orders placed pursuant to a Hyperion master agreement or to an Agile master agreement, the following terms apply with respect to the technical support services you have ordered.

Warranties, Disclaimers, and Exclusive Remedies

Oracle warrants that technical support services will be provided in a professional manner consistent with industry standards. You must notify Oracle of any technical support services warranty deficiencies within 90 days from performance of the defective technical support services.

FOR ANY BREACH OF THE ABOVE WARRANTIES, YOUR EXCLUSIVE REMEDY, AND ORACLE'S ENTIRE LIABILITY, SHALL BE THE REPERFORMANCE OF THE DEFICIENT TECHNICAL SUPPORT SERVICES, OR IF ORACLE CANNOT SUBSTANTIALLY CORRECT A BREACH IN A COMMERCIALY REASONABLE MANNER, YOU MAY END THE RELEVANT TECHNICAL SUPPORT SERVICES AND RECOVER THE FEES PAID TO ORACLE FOR THE DEFICIENT TECHNICAL SUPPORT SERVICES.

TO THE EXTENT PERMITTED BY LAW, THESE WARRANTIES ARE EXCLUSIVE AND THERE ARE NO OTHER EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS, INCLUDING

WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Limitation of Liability

NEITHER PARTY SHALL BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES, OR ANY LOSS OF PROFITS, REVENUE, DATA, OR DATA USE. ORACLE'S MAXIMUM LIABILITY FOR ANY DAMAGES ARISING OUT OF OR RELATED TO YOUR ORDER, WHETHER IN CONTRACT OR TORT, OR OTHERWISE, SHALL BE LIMITED TO THE AMOUNT OF THE FEES YOU PAID ORACLE UNDER YOUR ORDER, AND IF SUCH DAMAGES RESULT FROM YOUR USE OF TECHNICAL SUPPORT SERVICES, SUCH LIABILITY SHALL BE LIMITED TO THE FEES YOU PAID ORACLE FOR THE DEFICIENT TECHNICAL SUPPORT SERVICES GIVING RISE TO THE LIABILITY.

For orders placed pursuant to a Hyperion master agreement, the following terms also apply with respect to the technical support services you have ordered.

Nondisclosure

By virtue of your order, the parties may have access to information that is confidential to one another ("confidential information"). We each agree to disclose only information that is required for the performance of obligations under your order. Confidential information shall be limited to the terms and pricing under your order and all information clearly identified as confidential at the time of disclosure.

A party's confidential information shall not include information that: (a) is or becomes a part of the public domain through no act or omission of the other party; (b) was in the other party's lawful possession prior to the disclosure and had not been obtained by the other party either directly or indirectly from the disclosing party; (c) is lawfully disclosed to the other party by a third party without restriction on the disclosure; or (d) is independently developed by the other party.

We each agree to hold each other's confidential information in confidence for a period of three years from the date of disclosure. Also, we each agree to disclose confidential information only to those employees or agents who are required to protect it against unauthorized disclosure. Nothing shall prevent either party from disclosing the terms or pricing under your order in any legal proceeding arising from or in connection with your order or disclosing the confidential information to a federal or state governmental entity as required by law.

Technical Support for Development, Demonstration and End User Licenses

Technical support for Development and/or Demonstration licenses is provided through your membership in the Oracle PartnerNetwork. Before you may provide technical support for a program you have licensed to an end user you must, in addition to the technical support you may receive for Development and/or Demonstration licenses, acquire technical support for such program from Oracle and continuously maintain it for as long as you provide support to the end user.

ORACLE TECHNICAL SUPPORT LEVELS

Software Update License & Support

Program releases in the Premier Support phase of Oracle's product support lifecycle will receive Software Update License & Support. Software Update License & Support consists of:

- Program updates, fixes, security alerts and critical patch updates
- Tax, legal and regulatory updates (availability may vary by country and/or program)
- Upgrade scripts
- Certification with most new third-party products/versions
- Major product and technology releases, which includes general maintenance releases, selected functionality releases, and documentation updates

- Assistance with service requests 24 hours per day, 7 days a week
- Access to My Oracle Support (24 x 7 web-based customer support systems), including the ability to log service requests online, unless stated otherwise
- Current licensees of MySQL Classic Edition Annual Subscription, MySQL Cluster Carrier Grade Edition Annual Subscription, MySQL Enterprise Edition Annual Subscription or MySQL Standard Edition Annual Subscription ("MySQL Subscription"), may receive Software Update License & Support (SULS) for MySQL Community Edition,* except that SULS for MySQL Community Edition does not include Updates of any kind. MySQL Community Edition may not contain all of the features and functionality of the programs contained in the MySQL Subscription. (*Community Edition refers to MySQL licensed under the GPL license.)
- For Oracle VM VirtualBox Enterprise, Software Update License & Support (SULS) is limited to the platforms specified [here](#). SULS is not available for Oracle VM VirtualBox Enterprise features noted as experimental; such features are specified in the Oracle VM VirtualBox User Manual located [here](#)
- Access to Platinum Services as described at <http://www.oracle.com/us/support/library/platinum-services-policies-1652886.pdf>
- Non-technical customer service during normal business hours

Software Update License & Support for the Database Firewall and Database Firewall Management Server programs consists of:

- The Software Update License & Support described above except that fixes specific to Oracle Linux are subject to Note #1 below
- 24x7 access to Oracle Unbreakable Linux Network
- Hardware Certification²
- Backport of fixes¹, using commercially reasonable efforts, for any Oracle Linux program released from Oracle for a period of six (6) months from the date the next release of the Oracle Linux program becomes generally available; the Backport Schedule is available at <http://linux.oracle.com/backport-schedule.html>

Notes:

1. Oracle will only provide bug fixes for certain versions of the Oracle Linux programs as provided on <http://linux.oracle.com/supported.html>.
2. Hardware certification will be provided for the first six (6) years from the date a release of the Oracle Linux program becomes generally available. After four (4) years, hardware certification may be provided at Oracle's sole discretion; however Oracle is under no obligation to provide such hardware certification.

Limited Software Update License & Support is available for the Phase Forward programs. The limited Software Update License & Support consists of:

- Program updates, fixes, security alerts and critical patch updates
- Assistance with service requests during normal business hours.
- Ability to log service requests as specified in the following link: <http://www.oracle.com/us/corporate/Acquisitions/phaseforward/support-176416.html>
- Non-technical customer service during normal business hours

Software Update License & Support for the Oracle Financial Services Software ("OFSS") product lines is provided pursuant to the OFSS Technical Support Policies available at <http://www.oracle.com/us/support/policies/index.html>.

Extended Support

Extended Support may be available for certain Oracle program releases after Premier Support expires. When Extended Support is offered, it is generally available for three years following the expiration of Premier Support and only for the terminal patchset release of a program.

Program releases eligible for Extended Support will receive Software Update License & Support limited to the following, except as specified below for Oracle Linux and Java SE program releases:

- Program updates, fixes, security alerts, and critical patch updates
- Tax, legal and regulatory updates (availability may vary by country and/or program)
- Upgrade scripts
- Major product and technology releases, which includes general maintenance releases, selected functionality releases, and documentation updates
- Assistance with service requests 24 hours per day, 7 days per week
- Access to My Oracle Support (24 x 7 web-based customer support systems), including the ability to log service requests online
- Non-technical customer service during normal business hours

Extended Support does not include:

- Certification with new third party products/versions

Oracle Linux - Extended Support is not available for the Oracle Linux programs.

Java SE - Java SE program releases eligible for Extended Support will receive Java SE Support limited to the following:

- Bug fixes, security fixes and minor updates
- Upgrade tools
- Assistance with service requests 24 hours per day, 7 days a week
- Access to My Oracle Support (24 x 7 web-based customer support systems), including the ability to log service requests online
- Non-technical customer service during normal business hours

Sustaining Support

Sustaining Support will be available after Premier Support expires. Program releases eligible for Sustaining Support will receive Software Update License & Support limited to the following, except as specified below for Oracle Linux and Java SE program releases:

- Program updates, fixes, security alerts, and critical patch updates created during the (i) Premier Support period, (ii) Extended Support period for those customers who acquired Extended Support. Customers who do not maintain Extended Support but acquire Sustaining Support will receive the items listed in (i) immediately above, as well as items listed in (ii) but only after the Extended Support period ends.
- Tax, legal, and regulatory updates created during the Premier Support period (availability may vary by country and/or program)
- Upgrade scripts created during the Premier Support period
- Major product and technology releases, which includes general maintenance releases, selected functionality releases, and documentation updates
- Assistance with service requests, on a commercially reasonable basis, 24 hours per day, 7 days a week
- Access to My Oracle Support (24 x 7 web-based customer support systems), including the ability to log service requests online
- Non-technical customer service during normal business hours

Sustaining Support does not include:

- New program updates, fixes, security alerts, and critical patch updates
- New tax, legal, and regulatory updates
- New upgrade scripts
- Certification with new third party products/versions

- 24 hour commitment and response guidelines for Severity 1 service requests as defined in the Severity Level section below
- Previously released fixes or updates that Oracle no longer supports

Oracle Linux - Oracle Linux program releases eligible for Sustaining Support will receive Software Update License & Support limited to the following:

- Access to My Oracle Support (24 x 7 web-based customer support systems), including the ability to log service requests online
- 24x7 access to Oracle Unbreakable Linux Network
- Access to patches, fixes, and security alerts created during the Premier Support period

Sustaining Support for the Oracle Linux programs does not include:

- Hardware certification
- Backport of fixes
- Access to new patches, fixes, and security alerts

Java SE - Java SE program releases eligible for Sustaining Support will receive Java SE Support limited to the following:

- Minor updates and bug and security fixes created during the (i) Premier Support period, (ii) Extended Support period for those customers who acquired Extended Support. Customers who do not maintain Java SE Extended Support but acquire Java SE Sustaining Support will receive the items listed in (i) immediately above, as well as items listed in (ii) but only after the Extended Support period ends.
- Upgrade tools created during the Premier Support period
- Assistance with service requests, on a commercially reasonable basis, 24 hours per day, 7 days per week
- Access to My Oracle Support (24 x 7 web-based customer support systems), including the ability to log service requests online
- Non-technical customer service during normal business hours

Sustaining Support for the Java SE program releases does not include:

- New minor updates and bug and security fixes
- New upgrade tools
- 24 hour commitment and response guidelines for Severity 1 service requests as defined in the Severity Level section below
- Previously released fixes or updates that Oracle no longer supports

Because program releases supported by Sustaining Support are no longer fully supported, information and skills regarding those releases may be limited. The availability of hardware systems to run such program releases may also be limited.

Priority Service

Priority Service is available for program releases receiving Premier, Extended, or Sustaining Support. Priority Service consists of:

- Support Delivery Management. An Oracle Advanced Support Delivery Manager ("ASDM") will be assigned to you for the duration of the term. The ASDM will serve as your primary contact for the administration of the services and will communicate with you in a local language (except as noted below).
 - Your ASDM shall provide the following support services:
 - Prepare and maintain quarterly service delivery progress reports;
 - Document the contact details for key Oracle contacts, your technical contacts for Oracle Premier Support, and management escalation team ("Customer Contacts") and Oracle's escalation procedures ("Joint Contacts and Escalation Guide");
 - Document the technical specifications of your OPE ("Environment and Configuration Guide"); and

- Provide access to a customer-specific web portal.
- o Your ASDM will also assist with the following:
 - Conduct an orientation for your Customer Contacts;
 - Conduct quarterly service reviews;
 - Maintain the Joint Contacts and Escalation Guide and the Environment and Configuration Guide.
 - Review all Oracle Support Services activity, including service request ("SR") activity in connection with individual SRs logged by you or your Customer Contacts. The review may consist of status reports, next steps, if any, and review of your SR priorities;
 - Serve as your designated point of contact for Severity 1 and mutually agreed upon Severity 2 SR (collectively, "Critical SRs"). The ASDM will provide assistance in managing Critical SRs as follows:
 - o SR management, prioritization and escalation;
 - o Communicate the status of your SRs to your Customer Contact(s) as requested;
 - o Facilitate communications between Oracle and your Customer Contacts;
 - Facilitate your access to Oracle-sponsored events, as made available to Priority Service customers; and
 - Facilitate your access to monthly web conference sessions delivered in English featuring Oracle products.
- SR Prioritization.
 - o Oracle will prioritize your SRs above SRs of the same severity level submitted by other Premier Support customers. Reasonable efforts will be made to respond to your SRs per the following guidelines ("Service Request Response Guidelines"):
 - 90% of Severity 1 SRs within one (1) hour (available 24x7);
 - 90% of Severity 2 SRs within two and one half (2.5) local business hours;
 - 90% of Severity 3 SRs within the next local business day; and
 - 90% of Severity 4 SRs within the next local business day.
 - o Oracle will initiate internal escalations for Severity 1 and Severity 2 SRs according to the Service Request Response Guidelines; and
 - o Oracle will prioritize the repair of product defects encountered during the resolution of service requests.

If you purchase Priority Service, you must maintain a current Software Update License & Support contract for all licenses in a license set for which Priority Service has been acquired. If you have maintained Software Update License & Support and want to purchase Priority Service for a license set, the licenses do not need to be migrated to current license metrics to do so.

If you purchase Priority Service, you acknowledge that Oracle's ability to provide services depends on your fulfillment of the following obligations:

- You will designate Customer Contacts and identify by name, phone number, e-mail address and other appropriate contact methods, for each of your Customer Contacts. Only your Customer Contacts may communicate with Oracle regarding the delivery of Priority Services
- You are responsible for applying bug fixes, critical patches and configuration recommendations provided through Oracle Support Services within a commercially reasonable period of time.
- You will assist Oracle to maintain the Joint Contacts and Escalation Guide and the Environment and Configuration Guide.

If you renew Priority Service, your renewal fee for such services will be based on the Priority Service pricing policies in effect at the time of renewal. Contractual caps on annual technical support fees, including contractual caps for Software Update License & Support, do not apply to Priority Service, unless expressly stated otherwise in your contract.

Priority Service is not subject to the Reinstatement policies stated above. Priority Service is not available for all programs. Please contact your Support Sales Representative for service availability.

Incident Server Support Package

Incident Server Support provides web-based technical support on a per server basis in packages of 10 service requests, and is available for as long as Premier Support is available for your Oracle licenses. Incident Server Support for a program may only be acquired with the initial program license purchase and, if acquired, may be renewed for subsequent support periods. The Incident Server Support Packages do not include updates and may not be used, purchased, or sold in conjunction with any other support offering. If you want to obtain Software Update License & Support, it will be subject to Oracle's reinstatement policies in effect at the time of reinstatement. Incident Server Support is available for the following limited product sets, across all platforms:

- Oracle Database Server Support Package: Oracle Database Enterprise Edition, Oracle Database Standard Edition, Oracle Database Standard Edition One, Partitioning, Real Application Clusters, Advanced Compression
- Oracle Application Server Support Package: Internet Application Server Enterprise Edition, Internet Application Server Standard Edition, Internet Application Server Standard Edition One

Incident Server Support Packages are valid for one year from the date of purchase. Any unused service request(s) expire at the end of such term. Access to My Oracle Support expires at the same time the final service request is resolved. Your service request total will not be decreased by the number of service requests initiated for the resolution of a product bug. Incident Server Support includes:

- Access to My Oracle Support (24x7 web-based technical support system), including the ability to log service requests online
- Access to downloadable software patches and patchsets

Oracle Java Development Tools Support

Oracle Java Development Tools Support is available for the following programs: Sun NetBeans, Oracle Enterprise Pack for Eclipse, and Oracle JDeveloper (downloaded from the Oracle Technology Network after June 28, 2005). If you acquire Oracle Java Development Tools Support, you will receive support for all of the programs included above.

Oracle Java Development Tools Support consists of:

- Access to patches and fixes
- Assistance with service requests 24 hours per day, 7 days a week
- Access to My Oracle Support (24 x 7 web-based technical support system), including the ability to log service requests online
- Non-technical customer service during normal business hours

Oracle Java Development Tools support does not include upgrades to new program releases.

Oracle Solaris Development Tools Support

Oracle Solaris Development Tools Support is available for the following programs: Oracle Solaris Studio and Oracle Solaris Studio Express. If you acquire Oracle Solaris Development Tools Support, you will receive support for all of the programs included above.

Oracle Solaris Development Tools Support consists of:

- Access to patches and fixes
- Assistance with service requests 24 hours per day, 7 days a week
- Access to My Oracle Support (24 x 7 web-based technical support system), including the ability to log service requests online

- Non-technical customer service during normal business hours

Oracle Solaris Development Tools Support does not include upgrades to new program releases or access to Oracle Solaris updates, fixes or patches.

Oracle Application Development Framework Essentials Support

Oracle Application Development Framework Essentials Support is available for Oracle Application Development Framework (ADF) Essentials program releases. Oracle Application Development Framework Essentials Support consists of:

- Access to patches and fixes
- Assistance with service requests 24 hours per day, 7 days a week
- Access to My Oracle Support (24 x 7 web-based technical support system), including the ability to log service requests online
- Non-technical customer service during normal business hours

Oracle Application Development Framework Essentials Support does not include upgrades to new program releases.

Java SE Support

Java SE Support is available for Java SE program releases. Java SE Support consists of:

- Bug fixes, security fixes and minor updates
- Upgrade tools
- Assistance with service requests 24 hours per day, 7 days per week
- Access to My Oracle Support (24 x 7 web-based customer support systems), including the ability to log service requests online
- Non-technical customer service during normal business hours

If you acquire Java SE Support, the services described above are in support of licenses you acquired separately. Bug fixes, security fixes and minor updates received as part of the services described above shall be provided under the terms of the appropriate license agreement that you accepted upon downloading and/or installing the Java SE program.

Service Request Packages

Service Request Packages are made available to members of the Oracle Partner Network. Service Request Packages provide web-based technical support in packages of 10 or 25 service requests, do not include updates, and are not available for all programs. Please contact your OPN Interaction Center (<http://partner.oracle.com/>) for program availability.

Service Request Packages are valid for one year from the date of purchase. Any unused service request(s) will expire at the earlier of (i) the end of such year, or (ii) the end of your OPN membership term if such membership is not renewed. Access to log service requests will be restricted at the same time the final service request is resolved.

North American Payroll Tax Updates

North American Payroll Tax Updates is available for the following Peoplesoft HRMS Payroll for North America program releases: 8.8 Service Pack 1 and 8.9. Customers who acquire North American Payroll Tax Updates will receive one (1) calendar year of tax updates for the applicable Peoplesoft HRMS Payroll for North America program release. North American Payroll Tax Updates is only available in the following countries: United States, Canada and Puerto Rico.

In order to acquire North American Payroll Tax Updates, your licensed Peoplesoft HRMS Payroll for North American program must be currently supported with Software Update License & Support. North American Payroll Tax Updates will be delivered through My Oracle Support.

North American Payroll Tax Updates may be acquired for the applicable Peoplesoft HRMS Payroll for North America program releases as follows: (i) up to two (2) years from the availability of Sustaining Support for program release 8.9 and (ii) three (3) years from the availability of Sustaining Support for program release 8.8 Service Pack 1. North American Payroll Tax Updates is not subject to the Reinstatement policies stated above. Please contact your Support Sales Representative for service availability.

Global Payroll Legislative Tax Updates

Global Payroll Legislative Updates is available for PeopleSoft HRMS Global Payroll program release 8.9. Customers who acquire Global Payroll Legislative Updates will receive one (1) calendar year of legislative updates for PeopleSoft HRMS Global Payroll program release 8.9. Global Payroll Legislative Updates is only available in the following countries: Australia, New Zealand, Spain, France, Mexico, United Kingdom and India.

In order to acquire Global Payroll Legislative Tax Updates, your licensed PeopleSoft HRMS Global Payroll program must be currently supported with Software Update License & Support. Global Payroll Legislative Tax Updates will be delivered through My Oracle Support.

Global Payroll Legislative Tax Updates may be acquired for up to two (2) years from the availability of Sustaining Support for PeopleSoft HRMS Global Payroll program release 8.9. Global Payroll Legislative Tax Updates are not subject to the Reinstatement policies stated above. Please contact your Support Sales Representative for service availability.

Oracle Linux Support Services

Oracle offers Oracle Linux support services to customers, regardless of whether or not they are using Oracle programs. For information about the available services, please refer to the Oracle Linux and Oracle VM Support Policies available at <http://www.oracle.com/support/policies.html>.

Oracle VM Support Services

Oracle offers Oracle VM support services to customers, regardless of whether or not they are using Oracle programs. For information about the available services, please refer to the Oracle Linux and Oracle VM Support Policies available at <http://www.oracle.com/support/policies.html>.

Exadata Premier Support

For information regarding renewals of Exadata Premier Support, please refer to the Exadata Technical Support Policies available at <http://www.oracle.com/us/support/policies/index.html>.

Sun Software Technical Support Services

Oracle will make available for a limited time certain software technical support offerings that were previously offered by Sun Microsystems. These technical support offerings are governed by the Sun Software Technical Support Policies. Information about these offerings is available at <http://www.sun.com/servicelist/>.

WEB-BASED CUSTOMER SUPPORT SYSTEMS

My Oracle Support

Access to My Oracle Support is governed by the Terms of Use posted on the My Oracle Support web site. The Terms of Use are subject to change and a copy of these terms is available upon request. Access to My Oracle Support is limited to your designated technical contacts.

The following Oracle programs are not currently supported under My Oracle Support: Phase Forward programs.

Oracle Unbreakable Linux Network

Access to the Oracle Unbreakable Linux Network is included with Software Update License & Support for the Database Firewall and Database Firewall Management Server programs.

TOOLS USED TO PERFORM TECHNICAL SUPPORT SERVICES

Oracle may make available collaboration tools (such as tools that enable Oracle, with your consent, to access your computer system (e.g., Oracle Web Conferencing)) and software tools (such as tools to assist in the collection and transmission of configuration data (e.g., Oracle Configuration Manager)) to assist with issue resolution. The tools are licensed under the My Oracle Support Terms of Use, and may be subject to additional terms provided with the tools. Some of the tools are designed to collect information concerning the configuration of your computer environment ("tools data"). The tools will not access, collect or store any personally identifiable information (except for technical support contact information) or business data files residing in your computer environment. By using the tools, you consent to the transmission of your tools data to Oracle for the purposes of providing reactive and proactive technical support services. In addition, the tools data may be used by Oracle to assist you in managing your Oracle product portfolio, for license and services compliance and to help Oracle improve upon product and service offerings.

Some of the tools may be designed to connect automatically or on a periodic basis and you may not receive a separate notice upon connection. You are responsible for maintaining the telecom gateway through which the tools communicate tools data to Oracle. Use of the tools is voluntary; however, refusal to use the tools may impede Oracle's ability to provide technical support services to you. Further details about some of the current tools Oracle uses to provide technical support services, the data collected, and how the data is used, are described in the Global Customer Support Security Practices and on My Oracle Support. You may also contact your Oracle sales representative or call your local Customer Support office for more details regarding the tools and availability.

If Oracle expressly provides in the tools documentation, technical support policies, an ordering document, or readme that a tool is provided under separate license terms ("Separate Terms") then the Separate Terms shall govern your access and use of the tool. Embedded third party software, or third party software, licensed under Separate Terms (for example Mozilla and LGPL) may be required to access or run the tools per the tools documentation or readme. Your rights to use a tool or software licensed under Separate Terms shall not be restricted or modified in any way by your agreement with Oracle.

GLOBAL CUSTOMER SUPPORT SECURITY PRACTICES

Oracle is deeply committed to the security of its technical support services. In providing standard technical support services, Oracle will adhere to the Global Customer Support Security Practices, which are available at <http://www.oracle.com/support/policies.html>. The Global Customer Support Security Practices are subject to change at Oracle's discretion; however, Oracle will not materially reduce the level of security specified in the Global Customer Support Security Practices during the period for which fees for technical support have been paid. To view changes that have been made, please refer to the attached [Statement of Changes](#) (PDF).

Please note that global customer support services and systems are not designed to accommodate special security controls that may be required to store or process certain types of sensitive data. Please ensure that you do not submit any health, payment card or other sensitive data that requires protections greater than those specified in the [Global Customer Support Security Practices](#). Information on how to remove sensitive data from your submission is available in My Oracle Support at <https://support.oracle.com/CSP/main/article?cmd=show&type=NOT&id=1227943.1>.

SEVERITY DEFINITIONS

Service requests for supported Oracle programs may be submitted by you online through Oracle's web-based customer support systems or by telephone. The service request severity level is selected by you and Oracle and should be based on the severity definitions specified below.

Severity 1

Your production use of the supported programs is stopped or so severely impacted that you cannot reasonably continue work. You experience a complete loss of service. The operation is mission critical to the business and the situation is an emergency. A Severity 1 service request has one or more of the following characteristics:

- Data corrupted
- A critical documented function is not available
- System hangs indefinitely, causing unacceptable or indefinite delays for resources or response
- System crashes, and crashes repeatedly after restart attempts

Reasonable efforts will be made to respond to Severity 1 service requests within one (1) hour.

24 Hour Commitment to Severity 1 Service Requests for all supported Oracle programs, except if otherwise specified below: OSS will work 24x7 until the issue is resolved or as long as useful progress can be made. You must provide OSS with a contact during this 24x7 period, either on site or by phone, to assist with data gathering, testing, and applying fixes. You are requested to propose this severity classification with great care, so that valid Severity 1 situations obtain the necessary resource allocation from Oracle.

Severity 2

You experience a severe loss of service. Important features are unavailable with no acceptable workaround; however, operations can continue in a restricted fashion.

Severity 3

You experience a minor loss of service. The impact is an inconvenience, which may require a workaround to restore functionality

Severity 4

You request information, an enhancement, or documentation clarification regarding your software but there is no impact on the operation of the software. You experience no loss of service. The result does not impede the operation of a system.

CONTACT INFORMATION

Phone numbers and contact information can be found on Oracle's support web site located [here](#).

This Hardware Schedule (this "Schedule H") governs Your use of the Products and Service Offerings ordered from an authorized reseller (herein referred to as "Contractor") of Oracle America, Inc. ("Oracle").

1. DEFINITIONS

1.1 **"Commencement Date"** for the Hardware, Operating System and Integrated Software refers to the date the Hardware is delivered. For Integrated Software Options, the Commencement Date refers to the date that Oracle accepts Your order for an Integrated Software Option.

1.2 **"Integrated Software Options"** refers to software or programmable code embedded in, installed on, or activated on the Hardware that requires one or more unit licenses that You must separately order and agree to pay additional fees. Not all Hardware contains Integrated Software Options; please refer to the Oracle Integrated Software Options License Definitions, Rules and Metrics accessible at <http://oracle.com/contracts> (the "Integrated Software Options License Rules") for the specific Integrated Software Options that may apply to specific Hardware. The version of the Integrated Software Options License Rules, attached to this Schedule H as Exhibit A, is a representative example of the Integrated Software Option License Rules and is subject to change. The Integrated Software Option License Rules in effect at the time of an order shall be the Integrated Software Option License Rules that apply to such order. Oracle reserves the right to designate new software features as Integrated Software Options in subsequent releases and that designation will be specified in the applicable documentation and in the Integrated Software Options License Rules.

1.3 **"Documentation"** refers to the hardware specifications, user manuals, and installation manuals. The documentation for Hardware is delivered with the Hardware and/or provided online.

1.4 **"Hardware"** refers to the computer equipment, including components, options and spare parts.

1.5 **"Integrated Software"** refers to any software or programmable code that is (a) embedded or integrated in the Hardware and enables the functionality of the Hardware or (b) specifically provided to You by Oracle under this Schedule H and specifically listed (i) in accompanying documentation, (ii) on an Oracle webpage or (iii) via a mechanism that facilitates installation for use with Your Hardware. Integrated Software does not include and You do not have rights to (a) code or functionality for diagnostic, maintenance, repair or technical support services; or (b) separately licensed applications, operating systems, development tools, or system management software or other code that is separately licensed by Oracle. For specific Hardware, Integrated Software includes Integrated Software Options separately ordered.

1.6 **"Operating System"** refers to the software that manages Hardware for programs and other software.

1.7 **"Products"** refers to Hardware, Integrated Software and Operating System.

1.8 **"Separate Terms"** refers to separate license terms that are specified in the readmes or notice files and that apply to Separately Licensed Third Party Technology.

1.9 **"Separately Licensed Third Party Technology"** refers to third party technology that is licensed under Separate Terms and not under the terms of this Schedule H.

1.10 **"Service Offerings"** refers to technical support which You have ordered.

1.11 **"You"** and **"Your"** refers to the State of Ohio.

2. RIGHTS GRANTED

2.1 Your Hardware order consists of the following items: Operating System (as defined in Your configuration), Integrated Software and all Hardware equipment (including components, options and spare parts) specified on the applicable order. Your Hardware order may also include Integrated Software Options. Integrated Software Options may not be activated or used until You separately order them and agree to pay additional fees.

2.2 You have the right to use the Operating System delivered with the Hardware subject to the terms of the license agreement(s) delivered with the Hardware. Current versions of the license agreements are located at <http://oracle.com/contracts>. The versions of the license agreements for the Oracle Solaris, Oracle Linux and Oracle VM Manager, attached to this Schedule H as Exhibit B, are a representative example of the license agreements for various Operating Systems and are subject to change. The license agreement for an Operating System in effect at the time of an order for such Operating System shall be the license agreement that applies to such order. You are licensed to use the Operating System and any Operating System updates acquired through technical support only as incorporated in, and as part

of, the Hardware. You may not make the Operating System or the Integrated Software available to any third party for use in such third party's business operations (unless such access is expressly permitted for in the related order).

2.3 You have the limited, non-exclusive, royalty free, non-transferable, non-assignable (except as provided for in Section 3.3 below) right to use Integrated Software delivered with the Hardware subject to the terms of this Schedule H and the applicable documentation. You are licensed to use that Integrated Software and any Integrated Software updates acquired through technical support only as incorporated in, and as part of, the Hardware. You have the limited, non-exclusive, royalty free, non-transferable, non-assignable (except as provided for in Section 3.3 below) right to use Integrated Software Options that you separately order subject to the terms of this Schedule H, the applicable documentation and the Integrated Software Options License Rules; the Integrated Software Options License Rules are incorporated in and made a part of this Schedule H. You are licensed to use those Integrated Software Options and any Integrated Software Options updates acquired through technical support only as incorporated in, and as part of, the Hardware. To fully understand Your license right to any Integrated Software Options that You separately order, You need to review the Integrated Software Options License Rules. In the event of any conflict between this Schedule H and the Integrated Software Options License Rules, the Integrated Software Options License Rules shall take precedence.

2.4 The Operating System or Integrated Software or Integrated Software Options (or all three) may include separate works, identified in a readme file, notice file or the applicable documentation, which are licensed under open source or similar license terms; Your rights to use the Operating System, Integrated Software and Integrated Software Options under such terms are not restricted in any way by this Schedule H. The appropriate terms associated with such separate works can be found in the readme files, notice files or in the documentation accompanying the Operating System, Integrated Software, and Integrated Software Options.

For GPLv2, LGPLv2.1, GPLv3 and LGPLv3 licensed code You received as binaries on physical media, You may receive a copy of the source code ("source code") on media via postal service by submitting a written request at <http://www.oracle.com/technetwork/opensource/index.html>. Alternatively, You can mail Your written request to Oracle Corporation, Attn: VP of Legal, Development and Engineering, 500 Oracle Parkway, MS-50P10, Redwood Shores, CA 94065. Your request should include the name and version number of the Product, Your name, Your company name (if applicable), Your return mailing address, and Your email address. Certain source distributions require a fee for physical media; in such case, You will be sent details on the cost and payment procedure via email. Your request must be sent within three (3) years of the date of Oracle's last delivery of the applicable Product, or in the case of code licensed under the GPLv3, You may send a request for as long as Oracle offers spare parts or technical support for the applicable Product model. This offer only applies if You received Your Operating System, Integrated Software or Integrated Software Options on physical media.

2.5 Upon payment for Hardware-related Service Offerings, You have the non-exclusive, non-assignable (except as provided for in Section 3.3 below), royalty free, perpetual, limited right to use for Your internal business operations anything developed by Oracle and delivered to You under this Schedule H ("deliverables"); however, certain deliverables may be subject to additional license terms provided in the order.

2.6 You may not:

- remove or modify any Hardware markings or any notice of Oracle's or its licensors' proprietary rights;
- remove any copyright notices or labels on the Operating System or Integrated Software;
- make the Operating System, Integrated Software or materials resulting from the services available in any manner to any third party for use in the third party's business operations (unless such access is expressly permitted for the specific Operating System, Integrated Software or materials from the services you have acquired);
- cause or permit reverse engineering (unless required by law for interoperability), disassembly or decompilation of the Operating System or Integrated Software (the foregoing prohibition includes but is not limited to review of data structures or similar materials produced by the Operating System or Integrated Software);
- make copies of the Operating System or Integrated Software except for archival purposes or to replace a defective copy; or
- disclose results of any Hardware benchmark tests.

3. RESTRICTIONS

3.1 You may only make copies of the Operating System, Integrated Software and Integrated Software Options for archival purposes, to replace a defective copy, or for program verification. You shall not remove any copyright notices or labels on the Operating System, Integrated Software or Integrated Software Options. You shall not decompile or reverse engineer (unless required by law for interoperability) the Operating System or Integrated Software.

3.2 You acknowledge that to operate certain Hardware, Your facility must meet a minimum set of requirements as described in the Hardware documentation. Such requirements may change from time to time, as communicated by Oracle to You in the applicable Hardware documentation.

3.3 You may not assign, give or transfer the Operating System, Integrated Software and/or any Service Offerings or an interest in them to another individual or entity. You shall not grant a security interest in the Operating System, Integrated

Software and/or any Service Offerings deliverables and , and You shall not finance Your acquisition of any Products and/or any Service Offerings. The foregoing shall not be construed to limit the rights You may otherwise have with respect to the Linux operating system, third party technology or Separately Licensed Third Party Technology licensed under open source or similar license terms. The above prohibition on the assignment or transfer of the Operating System or any interest in it shall apply to all Operating Systems licensed under this Schedule H, except to the extent that such prohibition is rendered unenforceable under applicable law. Notwithstanding anything to the contrary in the first sentence of this Section, You shall be permitted to transfer the Integrated Software and/or any Service Offerings to another State of Ohio agency, which assumes Your responsibilities and/or duties due to a merger or consolidation of State agencies (the "Assignee State Agency"), provided that: (i) You give advance written notice to Oracle of such assignment, (ii) You have continuously maintained annual technical support services for such Integrated Software and/or Service Offerings, (iii) You transfer the Integrated Software along with the Hardware and the Assignee State Agency must be the transferee of the Hardware, and (iv) the Assignee State Agency agrees in writing with Oracle that it assumes all obligations and liabilities with respect to such Integrated Software and/or any Service Offerings and agrees to be bound by such terms and conditions of this Schedule H and the relevant order placed under this Schedule H, including any applicable license agreement. Nothing in this section shall be deemed to allow You to assign any Integrated Software separate and apart from the Hardware in which it is incorporated.

4. TRIAL PROGRAMS

Oracle may include additional programs on the Hardware (e.g., Exadata Storage Server software). You are not authorized to use those programs unless You have a license specifically granting You the right to do so; however, You may use those additional programs for trial, non-production purposes for up to 30 days from the date of delivery provided that You may not use the trial programs to provide or attend third party training on the content and/or functionality of the programs. To use any of these programs after the 30 day trial period, You must obtain a license for such programs from Oracle or an authorized reseller. If You decide not to obtain a license for any program after the 30 day trial period, You will cease using and promptly delete any such programs from Your computer systems. Programs licensed for trial purposes are provided "as is" and Oracle does not provide technical support or offer any warranties for these programs.

5. TECHNICAL SUPPORT

5.1 If ordered, Oracle Hardware and Systems Support (including first year and all subsequent years) is provided under Oracle's Hardware and Systems Support Policies in effect at the time the technical support services are provided. You agree to cooperate with Oracle and provide the access, resources, materials, personnel, information, and consents that Oracle may require in order to perform the technical support services. The Oracle Hardware and Systems Support Policies are incorporated in this Schedule H and are subject to change at Oracle's discretion; however, Oracle will not materially reduce the level of technical support services provided during the period for which fees for Oracle Hardware and Systems Support have been paid. You should review the policies prior to entering into the order for technical support services. You may access the current version of the Oracle Hardware and Systems Support Policies at <http://oracle.com/contracts>. The version of the Oracle Hardware and Systems Support Policies, attached to this Schedule H as Exhibit C, is a representative example of the Oracle Hardware and Systems Support Policies and is subject to change. If You choose not to purchase technical support services at the time You purchase the related Hardware, You may be required to pay reinstatement fees in accordance with Oracle's then current Oracle Hardware and Systems Support Policies if You choose to purchase technical support services for such Hardware at a later date.

5.2 Oracle Hardware and Systems Support is effective upon the Commencement Date of the Hardware or upon the effective date of the order if shipment of Hardware is not required.

6. HARDWARE-RELATED SERVICE OFFERINGS

In addition to technical support, You may order a limited number of Hardware-related Service Offerings under this Schedule H as listed in the Hardware-Related Service Offerings document, which is at <http://oracle.com/contracts>. You agree to provide Oracle with all information, access and full good faith cooperation reasonably necessary to enable Oracle to deliver these Service Offerings and You will perform the actions identified in the order as Your responsibility. If while performing these Service Offerings Oracle requires access to another vendor's products that are part of Your system, You will be responsible for acquiring all such products and the appropriate license rights necessary for Oracle to access such products on Your behalf. Service Offerings provided may be related to Your license to use Products owned or distributed by Oracle which You acquire under a separate order. The agreement referenced in that order shall govern Your use of such Products.

7. WARRANTIES, DISCLAIMERS AND EXCLUSIVE REMEDIES

7.1 Oracle provides a limited warranty ("Oracle Hardware Warranty") for (i) the Hardware, (ii) the Operating System and the Integrated Software and the Integrated Software Options, and (iii) the Operating System media, the Integrated Software media and the Integrated Software Options media ("media", and (i), (ii) and (iii) collectively, "Hardware Items"). Oracle warrants that the Hardware will be free from, and using the Operating System and Integrated Software and Integrated Software Options will not cause in the Hardware, material defects in materials and workmanship for one year from the date the Hardware is delivered to You. Oracle warrants that the media will be free from material defects in materials and workmanship for a period of 90 days from the date the media is delivered to You. You may access a more detailed description of the Oracle Hardware Warranty at <http://www.oracle.com/us/support/policies/index.html> ("Warranty Web Page"). The version of the Oracle Hardware

Warranty, attached to this Schedule H as Exhibit D, is a representative example of the Oracle Hardware Warranty and is subject to change. Any changes to the Oracle Hardware Warranty specified on the Warranty Web Page will not apply to Hardware or media ordered prior to such change. The Oracle Hardware Warranty applies only to Hardware and media that have been (1) manufactured by or for Oracle, and (2) sold by Oracle (either directly or by an Oracle-authorized distributor). The Hardware may be new or like new. The Oracle Hardware Warranty applies to Hardware that is new and Hardware that is like-new which has been remanufactured and certified for warranty by Oracle.

7.2 Oracle also warrants that technical support services and Hardware-related Service Offerings (as referenced in section 6 above) ordered and provided under this Schedule H will be provided in a professional manner consistent with industry standards. You must notify Oracle of any technical support service or Hardware-related Service Offerings warranty deficiencies within 90 days from performance of the deficient technical support service or Hardware-related Service Offerings.

7.3 FOR ANY BREACH OF THE ABOVE WARRANTIES, YOUR EXCLUSIVE REMEDY AND ORACLE'S ENTIRE LIABILITY SHALL BE: (i) THE REPAIR OR, AT ORACLE'S OPTION AND EXPENSE, REPLACEMENT OF THE DEFECTIVE HARDWARE ITEM, OR IF SUCH REPAIR OR REPLACEMENT IS NOT REASONABLY ACHIEVABLE, THE REFUND OF THE FEES YOU PAID ORACLE FOR THE DEFECTIVE HARDWARE ITEM AND THE REFUND OF ANY UNUSED PREPAID TECHNICAL SUPPORT FEES YOU HAVE PAID FOR THE DEFECTIVE HARDWARE ITEM; OR (ii) THE REPERFORMANCE OF THE DEFICIENT HARDWARE-RELATED SERVICE OFFERINGS; OR, IF ORACLE CANNOT SUBSTANTIALLY CORRECT THE DEFICIENCY IN A COMMERCIALLY REASONABLE MANNER, YOU MAY END THE DEFICIENT HARDWARE-RELATED SERVICE OFFERINGS AND RECOVER THE FEES YOU PAID TO ORACLE FOR THE DEFICIENT HARDWARE-RELATED SERVICE OFFERINGS. TO THE EXTENT NOT PROHIBITED BY LAW, THESE WARRANTIES ARE EXCLUSIVE AND THERE ARE NO OTHER EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS WITH RESPECT TO THE ABOVE ITEMS, INCLUDING ANY WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

7.4 Replacement units for defective parts or Hardware Items replaced under the Oracle Hardware Warranty may be new or like new quality. Such replacement units assume the warranty status of the Hardware into which they are installed and have no separate or independent warranty of any kind. Title in all defective parts or Hardware Items shall transfer back to Oracle upon removal from the Hardware.

7.5 ORACLE DOES NOT WARRANT UNINTERRUPTED OR ERROR-FREE OPERATION OF THE HARDWARE, OPERATING SYSTEM, INTEGRATED SOFTWARE, INTEGRATED SOFTWARE OPTIONS OR MEDIA.

7.6 No warranty will apply to any Hardware, Operating System, Integrated Software, Integrated Software Options or media which has been:

- a. modified, altered or adapted without Oracle's written consent (including modification or removal of the Oracle/Sun serial number tag on the Hardware);
- b. maltreated or used in a manner other than in accordance with the relevant documentation;
- c. repaired by any third party in a manner which fails to meet Oracle's quality standards;
- d. improperly installed by any party other than Oracle or an authorized Oracle certified installation partner;
- e. used with equipment or software not covered by an Oracle warranty, to the extent that the problems are attributable to such use;
- f. relocated, to the extent that problems are attributable to such relocation;
- g. used directly or indirectly in supporting activities prohibited by U.S. or other national export regulations;
- h. used by parties appearing on the then-current U.S. export exclusion list;
- i. relocated to countries subject to U.S. trade embargo or restrictions;
- j. used remotely to facilitate any activities for parties or in the countries referenced in 7.6(h) and 7.6(i) above; or
- k. purchased from any entity other than Oracle or an Oracle authorized reseller.

7.7 The Oracle Hardware Warranty does not apply to normal wear of the Hardware or media. The Oracle Hardware Warranty is extended only to the original purchaser or original lessee of the Hardware and may be void in the event that title to the Hardware is transferred to a third party. Notwithstanding the foregoing, You shall be permitted to transfer the Oracle Hardware Warranty to an Assignee State Agency to whom You are transferring title to the Hardware, provided that: (i) You give advance written notice to Oracle of such assignment and transfer of title to the Hardware, (ii) You have continuously maintained annual technical support services for such Hardware, and (iii) the Assignee State Agency agrees in writing with Oracle that it assumes all obligations and liabilities with respect to such Hardware and agrees to be bound by such terms and conditions of this Schedule H and the relevant order placed under this Schedule H.

8. AUDIT

Upon 45 days written notice, Oracle may audit Your use of the Operating System, Integrated Software and Integrated Software Options. You agree to cooperate with Oracle's audit and provide reasonable assistance and access to information. Any such audit shall not unreasonably interfere with Your normal business operations. You agree to pay within 30 days of written notification any fees applicable to Your use of the Operating System, Integrated Software and Integrated Software Options in excess of Your license rights. If You do not pay, Oracle can end (a) Service Offerings (including technical support) related to the Operating System, Integrated Software and Integrated Software Options and/or (b) licenses of the Operating

System, Integrated Software and Integrated Software Options ordered under this Schedule H and the related ordering documents. You agree that Oracle shall not be responsible for any of Your costs incurred in cooperating with the audit.

9. ORDER LOGISTICS

9.1 Delivery, Installation and Acceptance of Hardware

9.1.1 You are responsible for installation of the Hardware unless You purchase installation services from Oracle for that Hardware.

9.1.2 Oracle will deliver the Hardware to the delivery address specified by You on Your purchasing document or when Your purchasing document does not indicate a ship to address, the location specified on the order.

9.1.3 Acceptance of the Hardware is deemed to occur on delivery.

9.1.4 Oracle may make substitutions and modifications to the Hardware that do not cause a material adverse effect in overall Hardware performance.

9.2 Transfer of Title

Title to the Hardware will transfer upon delivery.

9.3 Territory

The Hardware shall be installed in the country/countries that You specify as the delivery location on Your purchasing document or when Your purchasing document does not indicate a ship to address, the location specified in the order.

9.3 Future Availability

You agree and acknowledge that You have not relied on the future availability of any Hardware, program or updates. However, (a) if You order technical support, the preceding sentence does not relieve Oracle of its obligation to provide such technical support under this Schedule H, if and when available, in accordance with Oracle's then current technical support policies, and (b) the preceding sentence does not change the rights granted to You under an order and this Schedule H.

10. OWNERSHIP

Oracle or its licensors retain all ownership and intellectual property rights to the Operating System, Integrated Software and anything developed or delivered under this Schedule H. Unless otherwise stated in the order between Oracle and the Contractor, title to Hardware, excluding the Operating System and Integrated Software, and risk of loss or damages to the Hardware will pass from Oracle upon delivery in accordance with the relevant Incoterms 2010. Title to and ownership of the Operating System and Integrated Software shall not pass to You or to a third party; title to and ownership of the Operating System and Integrated Software shall remain with Oracle.

11. INDEMNIFICATION

11.1 Subject to sections 11.5, 11.6, 11.7 and 11.8 below, if a third party makes a claim against either You, that any information, design, specification, instruction, software, data, hardware, or material (collectively, "Material") furnished by Oracle under the terms of this Schedule H and used by You infringes the third party's intellectual property rights, Oracle, at Oracle's sole cost and expense, will defend You against the claim and indemnify You from the damages, liabilities, costs and expenses awarded by the court to the third party claiming infringement or the settlement agreed to by Oracle, if You do the following:

- a. notify Oracle promptly in writing, not later than 30 days after You receive notice of the claim (or sooner if required by applicable law);
- b. give Oracle sole control of the defense and any settlement negotiations, subject to the approval and consent of the Ohio Attorney General; and
- c. give Oracle the information, authority (subject to the approval and consent of the Ohio Attorney General) and assistance Oracle needs to defend against or settle the claim.

11.2 If Oracle believes or it is determined that any of the Material may have violated a third party's intellectual property rights, Oracle may choose to either modify the Material to be non-infringing (while substantially preserving its utility or functionality) or obtain a license to allow for continued use, or if these alternatives are not commercially reasonable, Oracle may end the license for, and require return of, the applicable Material and refund any fees You may have paid Oracle for it and, if Oracle is the provider of an infringing Operating System, or Integrated Software, or Integrated Software Options (as applicable), any unused, prepaid technical support fees You have paid to Oracle for the license of the infringing Operating System, or Integrated Software, or

Integrated Software Options (as applicable). If such return materially affects Oracle's ability to meet its obligations under the relevant order, then Oracle may, at its option and upon 30 days prior written notice, terminate the order.

11.3 Notwithstanding the provisions of section 11.2 and with respect to Hardware only, if Oracle believes or it is determined that the Hardware (or portion thereof) may have violated a third party's intellectual property rights, Oracle may choose to either replace or modify the Hardware (or portion thereof) to be non-infringing (while substantially preserving its utility or functionality) or obtain a right to allow for continued use, or if these alternatives are not commercially reasonable, Oracle may remove the applicable Hardware (or portion thereof) and refund the net book value and, any unused, prepaid technical support fees You have paid to Oracle for the Hardware.

11.4 In the event that the Material is Separately Licensed Third Party Technology and the associated Separate Terms do not allow termination of the license, in lieu of ending the license for the Material, Oracle may end the license for, and require return of, the Operating System, or Integrated Software, or Integrated Software Options (as applicable) associated with that Separately Licensed Third Party Technology and shall refund any Operating System, or Integrated Software, or Integrated Software Options (as applicable) license fees You may have paid to Oracle for the Operating System, or Integrated Software, or Integrated Software Options (as applicable) license and any unused, prepaid technical support fees You have paid to Oracle for the Operating System, or Integrated Software, or Integrated Software Options (as applicable) license.

11.5 Provided You are a current subscriber to Oracle technical support services for the Operating System (e.g., Oracle Premier Support for Systems, Oracle Premier Support for Operating Systems or Oracle Linux Premier Support), then for the period of time for which You were a subscriber to the applicable Oracle technical support services (a) the phrase "Material" above in section 11.1 shall include the Operating System and the Integrated Software and any Integrated Software Options that You have licensed.

11.6 Notwithstanding anything to the contrary in this section 11, You must be a current subscriber to Oracle technical support services for the Operating System (e.g., Oracle Premier Support for Systems, Oracle Premier Support for Operating Systems or Oracle Linux Premier Support) for Oracle's indemnification obligations related to the Operating System, Integrated Software, and Integrated Software Options set forth in this section 11 to be applicable (i.e., Oracle will not indemnify You for Your use of the Operating System and/or Integrated Software and/or Integrated Software Options when You were not a subscriber to the applicable Oracle technical support services). Notwithstanding the foregoing in this section 11, with respect solely to the Linux operating system, Oracle will not indemnify You for Materials that are not part of the Oracle Linux covered files as defined at <http://www.oracle.com/us/support/library/enterprise-linux-indemnification-069347.pdf>.

11.7 Oracle will not indemnify You if You alter the Material or uses it outside the scope of use identified in Oracle's user documentation or if You use a version of Material which has been superseded, if the infringement claim could have been avoided by using an unaltered current version of Material which was provided to You, or if You continue to use the applicable Material after the end of the license to use that Material. Oracle will not indemnify You to the extent that an infringement claim is based upon any information, design, specification, instruction, software, data, or material not furnished by Oracle. Oracle will not indemnify You for any portion of an infringement claim that is based upon the combination of any Material with any products or services not provided by Oracle. Solely with respect to Separately Licensed Third Party Technology that is part of or is required to use an Operating System or Integrated Software or Integrated Software Options (as applicable) and that is used: (a) in unmodified form; (b) as part of or as required to use an Operating System or Integrated Software or Integrated Software Options (as applicable); and (c) in accordance with the license grant for the relevant Operating System or Integrated Software or Integrated Software Options (as applicable) and all other terms and conditions of this Schedule H, Oracle will indemnify You for infringement claims for Separately Licensed Third Party Technology to the same extent as Oracle is required to provide infringement indemnification for the Operating System or Integrated Software or Integrated Software Options (as applicable) under the terms of this Schedule H. Oracle will not indemnify You for infringement caused by Your actions against any third party if the Operating System or Integrated Software or Integrated Software Options (as applicable) as delivered to You and used in accordance with the terms of this Schedule H would not otherwise infringe any third party intellectual property rights. Oracle will not indemnify You for any intellectual property infringement claim(s) known to You at the time license rights are obtained.

11.8 This section provides Your exclusive remedy for any infringement claims or damages.

12. LIMITATION OF LIABILITY

TO THE EXTENT NOT PROHIBITED BY LAW, ORACLE SHALL NOT BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES, OR ANY LOSS OF PROFITS, REVENUE, DATA, OR DATA USE.

13. EXPORT

Export laws and regulations of the United States and any other relevant local export laws and regulations apply to the Products. You agree that such export laws govern Your use of the Products (including technical data) and any Service Offerings deliverables provided under this Schedule H, and You agree to comply with all such export laws and regulations (including "deemed export" and "deemed re-export" regulations). You agree that no data, information, Product and/or materials resulting from Service Offerings (or direct product thereof) will be exported, directly or indirectly, in violation of these laws, or will be used for any purpose prohibited by these laws including, without limitation, nuclear, chemical, or biological weapons proliferation, or development of missile technology. You shall include the following notice on packing lists, commercial invoices, shipping documents and other documents

Final Oracle-Ohio Schedule H – March 25, 2014

used in the transfer, export or re-export of the Products and any Service Offerings deliverables: "These commodities, technology, software, or hardware (including any Integrated Software and Operating System(s)) were exported in accordance with U.S. Export Administration Regulations and applicable export laws. Diversion contrary to applicable export laws is prohibited."

14. OTHER

14.1 Products and Service Offerings deliverables are not designed for or specifically intended for use in nuclear facilities or other hazardous applications. You agree that it is Your responsibility to ensure safe use of Products and Service Offerings deliverables in such applications.

14.2 The parties acknowledge that Oracle is a third-party beneficiary to this Schedule H.

14.3 The Uniform Computer Information Transactions Act does not apply to this Schedule H or orders placed pursuant to it. You understand that Oracle's business partners, including any third party firms retained by You to provide consulting services, are independent of Oracle and are not Oracle's agents, and Oracle is not liable for or bound by any acts of any such third party firm.

14.4 Source code may be delivered as part of the standard delivery for particular programs, Operating System or Integrated Software; all such source code is subject to the terms of this Schedule H, the applicable order and the applicable documentation.

14.5 You understand that the Contractor and Oracle's business partners, including any third party firms retained by You to provide computer consulting services, are independent of Oracle and are not Oracle's agents. Oracle is not bound by any acts of any such entity, unless the entity is providing services as an Oracle subcontractor under an engagement ordered directly with Oracle.

14.6 The parties agree that Ohio law shall govern the terms of this Schedule H. The parties further agree that as between the Contractor, Oracle and You, Ohio law shall govern the licenses described herein.

14.7 By virtue of this Schedule H and any license agreement for Operating Systems, the parties may have access to information that is confidential to one another or Oracle ("**Confidential Information**"). The parties each agree to disclose only information that is required for the performance of obligations under this Schedule H. Confidential Information shall be limited to the information clearly identified as confidential at the time of disclosure.

Confidential Information shall not include information that: (a) is or becomes a part of the public domain through no act or omission of the other party; (b) was in the other party's lawful possession prior to the disclosure and had not been obtained by the other party either directly or indirectly from the disclosing party; (c) is lawfully disclosed to the other party by a third party without restriction on the disclosure; or (d) is independently developed by the other party.

The parties agree not to disclose each other's Confidential information to any third party other than those set forth in the following sentence for a period of three years from the date of the disclosing party's disclosure of the Confidential Information to the receiving party. The parties may disclose Confidential Information only to those employees or agents or subcontractors who are required to protect it against unauthorized disclosure in a manner no less protective than under this Schedule H. Nothing shall prevent either party from disclosing the terms or pricing under this Schedule H, the license agreements for Operating Systems purchased pursuant to this Schedule H or orders submitted under this Schedule H in any legal proceeding arising from or in connection with this Schedule H or disclosing the Confidential Information as required by law. Furthermore, the parties acknowledge that You are subject to Ohio's Public Records Law and that any Confidential Information contained in this Schedule H and any license agreement for Operating Systems purchased under this Schedule H shall not apply to the extent that Confidential Information is required to be disclosed by applicable law, including Ohio's Public Records Law. Notwithstanding the foregoing, if You receive a request for disclosure of any Oracle confidential information, which is clearly and expressly marked as Oracle confidential and/or proprietary information and which excludes Oracle license agreements, pursuant to Ohio's Public Records Law.

SCHEDULE H EXHIBIT A
ORACLE INTEGRATED SOFTWARE OPTIONS LICENSE DEFINITIONS, RULES AND METRICS

Integrated Software Options - The following items may be embedded in, installed on, or activated on the Computer Equipment but are each designated as an Integrated Software Option:

Acme Packet 3820, 4500, 6300, or Netra X3-2 Server for Acme Packet

See the end of this Acme Packet list for Acme Packet metrics definitions.

Acme Packet 3820 only

- Transcoding coder/decoder for Acme Packet 3820, AMR-NB - Integrated Software Option - per 25 Concurrent Sessions Metric
- Transcoding coder/decoder for Acme Packet 3820, AMR-WB (G.722.2) - Integrated Software Option - per 25 Concurrent Sessions Metric

Acme Packet 4500 only

- Oracle Communications Border Gateway - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Border Gateway (base fee) - Integrated Software Option - per Server Metric
- Oracle Communications Border Gateway, IPv4 to Ipv6 Interworking - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Border Gateway, Lawful Intercept - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Border Gateway, Quality of Service - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Security Gateway - Integrated Software Option - per 1K Tunnels Metric
- Oracle Communications Security Gateway (base fee) - Integrated Software Option - per Server Metric
- Oracle Communications Subscriber-Aware Load Balancer - Integrated Software Option - per 20K Endpoints Metric
- Oracle Communications Subscriber-Aware Load Balancer (base fee) - Integrated Software Option - per Server Metric
- Oracle Communications Tunneled Session Controller - Integrated Software Option - per 100 Tunnels Metric
- Oracle Communications Tunneled Session Controller (base fee) - Integrated Software Option - per Server Metric
- Transcoding coder/decoder for Acme Packet 4500, AMR-NB - Integrated Software Option - per 25 Concurrent Sessions Metric
- Transcoding coder/decoder for Acme Packet 4500, AMR-WB (G.722.2) - Integrated Software Option - per 25 Concurrent Sessions Metric

Acme Packet 6300 only

- Transcoding coder/decoder for transcoding module 2, AMR-NB - Integrated Software Option - per 25 Concurrent Sessions Metric
- Transcoding coder/decoder for transcoding module 2, AMR-WB (G.722.2) - Integrated Software Option - per 25 Concurrent Sessions Metric
- Transcoding coder/decoder for transcoding module 2, EVRC - Integrated Software Option - per 25 Concurrent Sessions Metric
- Transcoding coder/decoder for transcoding module 2, EVRCB - Integrated Software Option - per 25 Concurrent Sessions Metric

Acme Packet 3820 and 4500

- Oracle Enterprise Session Border Controller (base fee) - Integrated Software Option - per Server Metric
- Oracle Enterprise Session Border Controller Advanced - Integrated Software Option - per 25 Concurrent Sessions Metric
- Oracle Enterprise Session Border Controller Core - Integrated Software Option - per 25 Concurrent Sessions Metric
- Oracle Enterprise Session Border Controller, GSC - Integrated Software Option - per 25 Concurrent Sessions Metric

Acme Packet 3820, 4500, and 6300

- Oracle Communications Session Border Controller - Integrated Software Option - per 50 Concurrent Sessions Metric
- Oracle Communications Peering Session Border Controller - Integrated Software Option - per 50 Concurrent Sessions Metric
- Oracle Communications Session Border Controller, Load Balancing - Integrated Software Option - per 50 Concurrent Sessions Metric
- Oracle Communications Session Border Controller, Policy Server - Integrated Software Option - per 50 Concurrent Sessions Metric
- Oracle Communications Session Border Controller, Routing - Integrated Software Option - per 50 Concurrent Sessions Metric
- Oracle Communications Session Border Controller, Accounting - Integrated Software Option - per 50 Concurrent Sessions Metric
- Oracle Communications Session Border Controller, IPSec Trunking - Integrated Software Option - per 50 Concurrent Sessions Metric
- Oracle Communications Session Border Controller, Government Security Certification - Integrated Software Option - per 50 Concurrent Sessions Metric
- Oracle Communications Session Border Controller, FIPS - Integrated Software Option - per 50 Concurrent Sessions Metric
- Oracle Communications Session Border Controller, IWF Protocol - Integrated Software Option - per 50 Concurrent Sessions Metric
- Oracle Communications Session Border Controller, Lawful Intercept - Integrated Software Option - per 50 Concurrent Sessions Metric
- Oracle Communications Session Border Controller, Quality of Service - Integrated Software Option - per 50 Concurrent Sessions Metric
- Oracle Communications Session Border Controller, SIPREC Session Recording - Integrated Software Option - per 50 Concurrent Sessions Metric
- Oracle Communications Session Border Controller, IPv4 to IPv6 Interworking - Integrated Software Option - per 50 Concurrent Sessions Metric
- Oracle Communications Session Border Controller, MSRP B2BUA - Integrated Software Option - per 50 Concurrent Sessions Metric
- Oracle Communications Session Border Controller, SRTP - Integrated Software Option - per 50 Concurrent Sessions Metric
- Oracle Communications Peering Session Border Controller - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Session Border Controller - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Session Border Controller (base fee) - Integrated Software Option - per Server Metric
- Oracle Communications Session Border Controller, Accounting - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Session Border Controller, FIPS - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Session Border Controller, Government Security Certification - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Session Border Controller, IMS-AKA - Integrated Software Option - per 5K Endpoints Metric
- Oracle Communications Session Border Controller, IPSec Trunking - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Session Border Controller, IPv4 to IPv6 Interworking - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Session Border Controller, IWF Protocol - Integrated Software Option - per 500 Concurrent Sessions Metric

- Oracle Communications Session Border Controller, Lawful Intercept - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Session Border Controller, Load Balancing - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Session Border Controller, MSRP B2BUA - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Session Border Controller, Policy Server - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Session Border Controller, Quality of Service - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Session Border Controller, Routing - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Session Border Controller, SIPREC Session Recording - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Session Border Controller, SRTP - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Session Border Controller, TSC - Integrated Software Option - per 100 Tunnels Metric
- Oracle Communications Session Border Controller, USM - Integrated Software Option - per 20K Endpoints Metric
- Oracle Communications Session Router - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Session Router – Integrated Software Option - per 1K Messages per Second Metric
- Oracle Communications Session Router (base fee) - Integrated Software Option - per Server Metric
- Oracle Communications Session Router, Government Security Certification - Integrated Software Option - per 1K Messages per Second Metric
- Oracle Communications Session Router, Load Balancing - Integrated Software Option - per 1K Messages per Second Metric
- Oracle Communications Session Router, Accounting - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Session Router, FIPS - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Session Router, Government Security Certification - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Session Router, IPSec Trunking - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Session Router, Lawful Intercept - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Session Router, Load Balancing - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Session Router, Policy Server - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Unified Session Manager - Integrated Software Option - per 20K Endpoints Metric
- Oracle Communications Unified Session Manager - Integrated Software Option – per 500 Concurrent Sessions Metric
- Oracle Communications Unified Session Manager (base fee) - Integrated Software Option - per Server Metric
- Oracle Communications Unified Session Manager, Accounting - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Unified Session Manager, Government Security Certification - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Unified Session Manager, IPv4 to IPv6 Interworking - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Unified Session Manager, Lawful Intercept - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Unified Session Manager, Load balancing - Integrated Software Option - per 500 Concurrent Sessions Metric

- Oracle Communications Unified Session Manager, Policy Server - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Unified Session Manager, Quality of Service - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Unified Session Manager, Routing - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Unified Session Manager, SRTP - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Unified Session Manager, SIPREC Session Recording - Integrated Software Option - per 500 Concurrent Sessions Metric
- Oracle Communications Unified Session Manager, IMS-AKA - Integrated Software Option - per 5K Endpoints Metric

Netra X3-2 Server for Acme Packet

- Oracle Communications Application Session Controller (base fee) - Integrated Software Option - per Server Metric
- Oracle Communications Application Session Controller - Integrated Software Option - per 25 Concurrent Sessions Metric
- Oracle Enterprise Communications Broker (base fee) - Integrated Software Option - per Server Metric
- Oracle Enterprise Communications Broker - Integrated Software Option - per 25 Concurrent Sessions Metric

Acme Packet Metrics Definitions

25 Concurrent Sessions is defined as a maximum of 25 established virtual connections between two endpoints (with or without media anchoring) represented by subscriber devices or network switching equipment and traversing the licensed software at any one time.

50 Concurrent Sessions: is defined as a maximum of 50 established virtual connections between two endpoints (with or without media anchoring) represented by subscriber devices or network switching equipment and traversing the licensed software at any one time. For the purposes of the following programs: Oracle Communications Session Border Controller - SRTP and Oracle Communications Unified Session Manager - SRTP, only concurrent sessions with media anchoring and negotiating Secure Real-Time Transport Protocol are counted. For the purposes of the following programs: Oracle Communications Session Border Controller - MSRP B2BUA and Oracle Communications Unified Session Manager - MSRP B2BUA, only concurrent sessions with media anchoring and negotiating Message Session Relay Protocol are counted.

500 Concurrent Sessions is defined as a maximum of 500 established virtual connections between two endpoints (with or without media anchoring) represented by subscriber devices or network switching equipment and traversing the licensed software at any one time. For the purposes of the following programs: Oracle Communications Session Border Controller - SRTP and Oracle Communications Unified Session Manager - SRTP, only concurrent sessions with media anchoring and negotiating Secure Real-Time Transport Protocol are counted. For the purposes of the following programs: Oracle Communications Session Border Controller - MSRP B2BUA and Oracle Communications Unified Session Manager - MSRP B2BUA, only concurrent sessions with media anchoring and negotiating Message Session Relay Protocol are counted.

Device is defined as a network element being modeled, discovered or managed by the application.

- For the Oracle Communications Network Integrity, Discovery Manager programs, devices are discovered through either a third party discovery applications or through a network management system or an element management system (both as defined below). Your premise equipment (that is, terminating equipment located at your location and connected to the service provider's network) shall not be counted as a device. For the program above, (a) network management system is defined as a system that monitors and administers a network and the devices that are attached to the network and (b) an element management system is defined as a system that manages one or more of a specific type of telecommunications network element.
- For the Oracle Communications Network Intelligence programs, devices are modeled based on devices in inventory / network resource management systems. For the above program, an inventory/network resource management system is defined as a system that maintains physical and logical network inventory data (a) upon which to base decisions, (b) to establish and maintain the linkages among resources necessary to provide service, and (c) to integrate with other systems that depend on the resource tracking and assignment services.

- For the Oracle Communications Unified Inventory Management Devices program, devices are functionally independent components (e.g., physical shelves, chassis or units, logical devices, servers or elements). Logical or physical separation denotes different devices.
- For the Oracle Communications Session Element Manager program, the Oracle Communications Session Route Manager program and the Oracle Communications Session Report Manager program, a device is defined as managed when one or more of the fault, configuration, auditing, performance and security functions are in use.

5K Endpoints is defined as five thousand individual user devices identified by a unique internet protocol (IP) and port combination. If subscribers have multiple user devices, each unique user device must be counted.

20K Endpoints is defined as twenty thousand individual user devices identified by a unique internet protocol (IP) and port combination. If subscribers have multiple user devices, each unique user device must be counted.

1K Messages per Second is defined as one thousand messages that are each composed of an envelope that contains information required to accomplish transmission, delivery, and contents to the recipient. You must count all messages whether received or sent over a fixed period of time during peak usage.

Server is defined as the computer on which the programs are installed. A Server license allows you to use the licensed program on a single specified computer. For the purposes of Acme Packet programs, a Server in a virtual environment is defined as a virtual machine image.

100 Tunnels is defined as one hundred connections where one network protocol (the delivery protocol) encapsulates a different payload protocol. For the purpose of the following program: Oracle Communications Session Border Controller – TSC, only Tunneled Services Control Function (TSCF) tunnels must be counted.

1K Tunnels is defined as one thousand connections where one network protocol (the delivery protocol) encapsulates a different payload protocol.

Oracle Communications EAGLE

- Oracle Communications EAGLE - Integrated Software Option - per Node Metric (base fee)
- Oracle Communications EAGLE - Integrated Software Option - per 250K Transactions per Second Metric
- Oracle Communications EAGLE LNP Advanced Service Module Enabler - Integrated Software Option - per Card Metric
- Oracle Communications EAGLE LNP - Integrated Software Option - per Node Metric
- Oracle Communications EAGLE Advanced Service Module Enabler - Integrated Software Option - per Card Metric
- Oracle Communications EAGLE Mobile Number Portability - Integrated Software Option - per Node Metric
- L99416 Oracle Communications EAGLE Security and Fraud - Integrated Software Option - per Node Metric
- Oracle Communications EAGLE HLR Router - Integrated Software Option - per Node Metric
- Oracle Communications EAGLE Equipment Identity Register - Integrated Software Option - per Node Metric
- Oracle Communications EAGLE Global Title Translation Routing - Integrated Software Option - per Node Metric
- Oracle Communications EAGLE Triggerless ISUP Framework Routing - Integrated Software Option - per Node Metric
- Oracle Communications EAGLE Origin Based Routing - Integrated Software Option - per Node Metric
- Oracle Communications EAGLE Prepaid Routing - Integrated Software Option - per Node Metric
- Oracle Communications EAGLE SMS Routing - Integrated Software Option - per Node Metric
- Oracle Communications EAGLE Application Processor Provisioning - Integrated Software Option - per Card Metric (base fee)
- Oracle Communications EAGLE Application Processor Database Capacity - Integrated Software Option - per 500K DB Entries Metric
- Oracle Communications EAGLE Application Processor - Integrated Software Option - per Card Metric (base fee)
- Oracle Communications EAGLE LNP Application Processor - Integrated Software Option - per Card Metric (base fee)

- Oracle Communications EAGLE LNP Application Processor Database Capacity - Integrated Software Option - per 12M Entries Metric
- Oracle Communications EAGLE Service Handler 4 GB - Integrated Software Option - Per Card Metric
- Oracle Communications EAGLE Service Handler 8 GB - Integrated Software Option - Per Card Metric
- Oracle Communications EAGLE Ethernet A Traffic Handler - Integrated Software Option - Per Card Metric
- Oracle Communications EAGLE Ethernet B Traffic Handler - Integrated Software Option - Per Card Metric
- Oracle Communications EAGLE Asynchronous Transfer Mode A Traffic Handler - Integrated Software Option - Per Card Metric
- Oracle Communications EAGLE Asynchronous Transfer Mode B Traffic Handler - Integrated Software Option - Per Card Metric
- Oracle Communications EAGLE E1T1 A Traffic Handler - Integrated Software Option - Per Card Metric
- Oracle Communications EAGLE E1T1 B Traffic Handler - Integrated Software Option - Per Card Metric

Card is defined as one EAGLE system card.

500K DB Entries is defined as five hundred thousand database entries in the international number portability database.

12M LNP Entries is defined as twelve million Local Number Portability database entries in the local number portability database.

Node is defined as a set of servers managed by one Operations, Alarms and Measurements (OAM) function.

250K Transactions per Second (TPS) is defined as two hundred and fifty thousand transactions between client and server with explicit support of agents that contain a request message and a response message. The total number of new transactions for the entire system over a five second interval during peak usage divided by five must be counted.

Pillar Axiom 600 Storage Systems

- Pillar Axiom MaxRep Synchronous Replication - Integrated Software Option - per Terabyte Metric
- Pillar Axiom MaxRep Synchronous Replication Add-on - Integrated Software Option - per Terabyte Metric
- Pillar Axiom MaxRep Asynchronous Replication - Integrated Software Option - per Terabyte Metric
- Pillar Axiom MaxRep Asynchronous Replication Add-on - Integrated Software Option - per Terabyte Metric
- Pillar Axiom MaxRep Synchronous Replication with Application Protection - Integrated Software Option - per Terabyte Metric
- Pillar Axiom MaxRep Synchronous Replication with Application Protection Add-on - Integrated Software Option - per Terabyte Metric
- Pillar Axiom MaxRep Asynchronous Replication with Application Protection - Integrated Software Option - per Terabyte Metric
- Pillar Axiom MaxRep Asynchronous Replication with Application Protection Add-on - Integrated Software Option - per Terabyte Metric
- Pillar Axiom SecureWORMfs - Integrated Software Option - per Management Controller Metric
- Pillar Axiom Storage Domains - Integrated Software Option - per Management Controller Metric
- Pillar Axiom Copy Services Bundle - Integrated Software Option - per Management Controller Metric
- Pillar Axiom MaxRep Replication for NAS - Integrated Software Option - per Terabyte Metric

Management Controller is defined as the system component on which the data storage control policies are executed. For the Pillar Axiom, the Management Controller is the Pilot that consists of two 1U servers in an active/passive cluster. Only one Management Controller license is required per Pilot.

Terabyte is defined as a terabyte of computer storage space used by a storage filer equal to one trillion bytes. For Pillar Axiom replication products, the number of terabyte licenses required is determined by the total capacity of all primary Filesystems or primary SAN LUNs being replicated.

SPARC SuperCluster T4-4

- Sun ZFS Storage Appliance Cloning - Integrated Software Option - per Management Controller Metric
- Sun ZFS Storage Appliance Replication - Integrated Software Option - per Management Controller Metric

Management Controller is defined as the system component on which the data storage control policies are executed. For Sun ZFS Storage Appliances, the Management Controller is the processor node that consists of one server running the Sun ZFS storage software. These processor nodes can be implemented as a single instance for a non-high availability system or as an active/passive cluster, in which case one license is required. The processor nodes can also be implemented as an active/active cluster, in which case two licenses are required.

StorageTek Tape Libraries

- StorageTek SL8500 Partitioning - Integrated Software Option - per Tape Library Metric. Requires activation file download.
- StorageTek SL8500 Partitioning (for after original system installation) - Integrated Software Option - per Tape Library Metric. Requires activation file download.
- StorageTek SL3000 Partitioning - Integrated Software Option - per Tape Library Metric. Requires activation file download.
- StorageTek SL3000 Partitioning (for after original system installation) - Integrated Software Option - per Tape Library Metric. Requires activation file download.
- StorageTek Tape Analytics for StorageTek SL8500 modular library system - Integrated Software Option - per Tape Library Metric
- StorageTek Tape Analytics for StorageTek SL3000 modular library system - Integrated Software Option - per Tape Library Metric
- StorageTek Tape Analytics for StorageTek SL500 modular library system - Integrated Software Option - per Tape Library Metric
- StorageTek Tape Analytics for StorageTek SL150 modular library system - Integrated Software Option - per Tape Library Metric
- StorageTek Linear Tape File System, Library Edition for StorageTek SL8500 modular library system - Integrated Software Option - per Tape Library Metric
- StorageTek Linear Tape File System, Library Edition for StorageTek SL3000 modular library system - Integrated Software Option - per Tape Library Metric
- StorageTek Linear Tape File System, Library Edition for StorageTek SL150 modular library system - Integrated Software Option - per Tape Library Metric

Tape Library is defined as a mechanical device used to store and access magnetic tape media. Multiple Tape Libraries may be connected together via pass thru ports to form a Tape Library complex. Each Tape Library in a Tape Library complex must be licensed.

Sun ZFS Storage 7xxx Systems, Oracle ZFS Storage ZS3, and Oracle ZFS Backup Appliance

- Oracle ZFS Storage Appliance Cloning - Integrated Software Option - per Management Controller Metric (formerly named Sun ZFS Storage Appliance Cloning - Integrated Software Option - per Management Controller Metric)
- Oracle ZFS Storage Appliance Replication - Integrated Software Option - per Management Controller Metric (formerly named Sun ZFS Storage Appliance Replication - Integrated Software Option - per Management Controller Metric)
- Oracle Snap Management Utility for Oracle Database with Sun ZFS Storage 74xx and Oracle ZFS Storage ZS3-4 - Integrated Software Option - per Management Controller Metric. Client software download required.

- Oracle Snap Management Utility for Oracle Database with Sun ZFS Storage 73xx and Oracle ZFS Storage ZS3-2 - Integrated Software Option - per Management Controller Metric. Client software download required.
- Oracle Snap Management Utility for Oracle Database with Sun ZFS Storage 71xx - Integrated Software Option - per Management Controller Metric. Client software download required.

Management Controller is defined as the system component on which the data storage control policies are executed. For Sun ZFS Storage Appliances, the Management Controller is the processor node that consists of one server running the Sun ZFS storage software. These processor nodes can be implemented as a single instance for a non-high availability system or as an active/passive cluster, in which case one license is required. The processor nodes can also be implemented as an active/active cluster, in which case two licenses are required.

Last updated 10 July 2014

Terms for Oracle Solaris

This Agreement includes license terms supporting the Oracle Solaris programs installed on the hardware you have acquired.

To the extent permitted, the substantive and procedural laws of California govern this Agreement, and you and Oracle agree to submit to the exclusive jurisdiction of, and venue in, the courts of California in any dispute relating to this Agreement.

"We," "us," "our" and "Oracle" refers to Oracle America, Inc. "You" and "your" refers to the individual or entity that has acquired the hardware with pre-installed Oracle Solaris programs. "Oracle Solaris programs" refers to the Oracle Solaris operating system (including related program documentation) and the separately licensed third-party technology (as defined below). "License" refers to your right to use the Oracle Solaris programs under the terms of this Agreement and the licenses referenced herein.

We are willing to provide a copy of the Oracle Solaris programs to you only upon the condition that you accept all of the terms contained in this Agreement.

License Rights. We grant you a non-exclusive, royalty free, non-assignable limited license to use the Oracle Solaris programs only as pre-installed on the hardware you purchased. Certain third-party technology may be included on the same hardware as the Oracle Solaris programs. Such third-party technology will be licensed to you either under the terms of the Agreement, or if specified in the program documentation and/or in certain "notice" or "readme" files distributed with such third-party technology, under separate license terms ("separate terms") and not under the terms of the Agreement ("separately licensed third-party technology"). Your rights to use separately licensed third-party technology under the separate terms are not restricted in any way by the Agreement. The Oracle Solaris programs may include or be distributed with certain separately licensed components that are part of Java SE ("Java SE"). Java SE and all components associated with it are licensed to you under the terms of the Oracle Binary Code License Agreement for the Java SE Platform Products, and not under this Agreement. A copy of the Oracle Binary Code License Agreement for the Java SE Platform Products can be found at:

<http://www.oracle.com/technetwork/java/javase/terms/license/index.html>.

Trademarks and Copyrights. You agree not to use Oracle trademarks (including "ORACLE") or potentially confusing variations (including "ORA") as a part of your product name(s), service name(s), company name, or domain name(s). In marketing, promoting, or distributing the Oracle Solaris programs, you agree to make it clear that Oracle is the source of the Oracle Solaris programs. You shall include on all copies of the Oracle Solaris programs used or distributed by you:

- A reproduction of Oracle's copyright notice; or
- A copyright notice indicating that the copyright is vested in you containing the following:
 - A "c" in a circle and the word "copyright";
 - Your name;
 - The date of copyright; and
 - The words "All rights reserved."

With respect to the Oracle Solaris programs you may not:

- Remove or modify any markings or any notice of our proprietary rights;
- Assign this Agreement or give or transfer the Oracle Solaris programs or an interest in them to another individual or entity;
- Cause or permit reverse engineering (unless required by law for interoperability), disassembly or decompilation of the Oracle Solaris programs;
- Disclose results of any benchmark tests without our prior consent; or
- Use any Oracle name, trademark or logo, except as expressly required herein.

Such notices shall be placed on the documentation, the sign-on screen for any software incorporating the Oracle Solaris programs, and any media containing the Oracle Solaris programs.

Ownership and Restrictions. The Oracle Solaris programs and the separately licensed third-party technology are owned by Oracle or the relevant third party. Subject to the licenses granted and/or referenced herein, title to the Oracle Solaris programs remains with Oracle and/or the third party.

Export. You agree that U.S. export control laws and other applicable export and import laws govern your use of the Oracle Solaris programs and the separately licensed third-party technology, including technical data (collectively "programs"); additional information can be found on Oracle's Global Trade Compliance web site located at

<http://www.oracle.com/products/export/index.html?content.html>.

You agree that neither the programs nor the separately licensed third-party technology nor any direct product thereof will be exported, directly or indirectly, in violation of these laws, or will be used for any purpose prohibited by these laws including, without limitation, nuclear, chemical, or biological weapons proliferation.

Disclaimer of Warranty and Exclusive Remedies. Limited Warranty. THE ORACLE SOLARIS PROGRAMS ARE PROVIDED "AS IS" WITHOUT WARRANTY OF ANY KIND. WE FURTHER DISCLAIM ALL WARRANTIES, EXPRESS AND IMPLIED, INCLUDING WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. **ORACLE DOES NOT GUARANTEE THAT THE ORACLE SOLARIS PROGRAMS WILL PERFORM ERROR-FREE OR UNINTERRUPTED OR THAT ORACLE WILL CORRECT ALL ERRORS.** IN NO EVENT SHALL WE BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE OR CONSEQUENTIAL DAMAGES, OR DAMAGES FOR LOSS OF PROFITS, REVENUE, DATA OR DATA USE, INCURRED BY YOU OR ANY THIRD PARTY, WHETHER IN AN ACTION IN CONTRACT OR TORT, EVEN IF WE HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. OUR ENTIRE LIABILITY FOR DAMAGES HEREUNDER SHALL IN NO EVENT EXCEED ONE THOUSAND DOLLARS (U.S. \$1,000).

Technical Support. Our technical support organization will not provide technical support, phone support, or updates to you for the materials licensed under this Agreement. Technical support, if available, may be acquired from Oracle or its affiliates under a separate agreement.

End of Agreement. You may terminate this Agreement by destroying all copies of the Oracle Solaris programs. We have the right to terminate your right to use the Oracle Solaris operating system if you fail to comply with any of the terms of this Agreement, in which case you shall destroy all copies of the Oracle Solaris programs.

Relationship Between the Parties. The relationship between you and us is that of licensee/licensor. Neither party will represent that it has any authority to assume or create any obligation, express or implied, on behalf of the other party, nor to represent the other party as agent, employee, franchisee, or in any other capacity. Nothing in this Agreement shall be construed to limit either party's right to independently develop or distribute software that is functionally similar to the other party's products, so long as proprietary information of the other party is not included in such software.

Entire Agreement. You agree that this Agreement is the complete agreement for the Oracle Solaris programs, and separately licensed third-party technology, and this Agreement supersedes all prior or contemporaneous agreements or representations. If any term of this Agreement is found to be invalid or unenforceable, the remaining provisions will remain effective.

1. Overview

Unless otherwise stated, these Hardware and Systems Support Policies apply to technical support for all Oracle server and storage product lines.

"You" and "your" refers to the individual or entity that has ordered technical support from Oracle or an Oracle-authorized distributor.

For Oracle operating system software, technical support is provided for issues (including problems you create) that are demonstrable in the currently supported release(s) of the operating system, running unaltered, and on a certified hardware configuration, as specified in your order or program documentation.

To receive technical support as provided by Oracle Support Services ("OSS") and described in the Oracle Technical Support Levels for Systems section below, you must: (i) provide Oracle with the serial number and/or other identification and entitlement information for all equipment manufactured by or for Oracle, including components and options ("hardware system") in the manner specified by Oracle; and (ii) pay a technical support fee. A hardware system meeting these two requirements and under contract to receive technical support is referred to as a "covered hardware system." Components and options purchased separately from your original equipment purchase are included in the definition of hardware system for the purposes of determining the technical support fee. Oracle will make commercially reasonable efforts to provide the technical support service as described below. (Note: Unless otherwise specified, these offerings are only available for Oracle hardware).

Oracle's obligations under these Hardware and Systems Support Policies do not apply to any malfunctions in a hardware system that could be avoided if you incorporate or implement a hardware or integrated software update or any workaround previously provided by Oracle which would correct the malfunction or to a hardware system that has been (i) modified, altered or adapted without Oracle's written consent (including modification or removal of the Oracle serial number tag on the hardware); (ii) maltreated or used in a manner other than in accordance with the relevant documentation; (iii) repaired by any third party in a manner which fails to meet Oracle's quality standards; (iv) improperly installed by any party other than Oracle or an authorized Oracle certified installation partner; (v) used with equipment or software not covered by the service offering, to the extent that problems are attributable to such use; (vi) relocated, to the extent that problems are attributable to the relocation; (vii) used directly or indirectly in supporting activities prohibited by U.S. or other national export regulations; (viii) used by parties appearing on the most current U.S. export exclusion list; (ix) relocated to countries subject to U.S. trade embargo or restrictions; or (x) used remotely to facilitate any activities in the countries referenced in (ix) above or (xi) purchased from any entity other than Oracle or an Oracle-authorized distributor.

Oracle may use subcontractors in the performance of technical support and it warrants the quality of subcontractor work per the warranty terms of your agreement with Oracle.

Oracle will provide technical support in accordance with Oracle's services privacy policy available at <http://www.oracle.com/us/legal/privacy/services-privacy-policy-078833.html> and Oracle's Global Customer Support Security Practices, as referenced below.

These Technical Support Policies are subject to change at Oracle's discretion; however Oracle policy changes will not result in a material reduction in the level of the services provided for a hardware system during the support period (defined below) for which fees for technical support have been paid.

To view a comparison of these Oracle Hardware and Systems Support Policies and the previous version of the Oracle Hardware and Systems Support Policies, please refer to the attached [Statement of Changes](#) (PDF).

2. Support Terms

Technical Support Fees

Technical support fees are due and payable annually in advance of a support period, unless otherwise stated in the relevant order or payment plan, financing or leasing agreement with Oracle or an Oracle affiliate ("payment plan"). Your payment or commitment to pay is required to process your technical support order with Oracle (e.g., purchase order, actual payment, or other approved method of payment). An invoice will be issued only upon receipt of your commitment to pay, and will be sent to a single billing address that you designate. Failure to submit payment will result in the termination of technical support services. Technical support will be provided pursuant to the terms of the order under which it is acquired; however, technical support fees due under a payment plan are due and payable in accordance with the terms and conditions of such payment plan.

Support Period

Technical support is effective upon the date of delivery of the hardware unless stated otherwise in your order. Unless otherwise stated in the order, Oracle technical support terms, including pricing, reflect a 12 month support period (the "support period"). Once placed, your order for technical support services is non-cancelable and the sums paid non-refundable, except as provided in the relevant order. Oracle is not obligated to provide technical support beyond the end of the support period.

Matching Service Levels

When acquiring technical support, all hardware systems must be supported (e.g., Oracle Premier Support for Systems or Oracle Premier Support for Operating Systems or Oracle Communications EAGLE Premier Support) or all hardware systems must be unsupported. For the purpose of this section, hardware systems include (i) all of your hardware systems running the Solaris Operating system release 10 Update 9 or later and (ii) all of your hardware systems running the Oracle Linux and Oracle VM operating system, and (iii) all hardware systems that benefit in any way from your support of a covered hardware system (e.g., including hardware systems that share updates, patches, fixes, security alerts, work-arounds, configuration/installation assistance or parts with a covered hardware system). If you have acquired your Oracle Linux and Oracle VM support services under a separate Oracle Linux and Oracle VM Services Agreement then that hardware system is a covered hardware system under this matching service level policy. Hardware systems that have reached an end of service life are excluded from the above policy, and hardware systems that you register with Oracle as retired are excluded from the above policy.

Reinstatement of Oracle Technical Support

If Oracle Premier Support for Systems lapses for more than 90 days or was not purchased at the time you acquired your hardware system, then your hardware system must be qualified as service-ready before technical support can be reinstated. To qualify as service-ready you must acquire the Premier Support Qualification Service (at the then current fees) and meet all requirements set forth by the service team to obtain a qualification certificate for your hardware system.

If technical support lapses or was not originally purchased with your hardware system, a reinstatement fee will be assessed. The reinstatement fee is computed as follows: a) if technical support lapsed, then the reinstatement

fee is 150% of the last annual technical support fee you paid for the covered hardware system; b) if you never acquired technical support for the relevant hardware system, then the reinstatement fee is 150% of the net technical support fee that would have been charged if support had been ordered originally for the relevant hardware system per Oracle's Support pricing policies in effect at the time of reinstatement. The reinstatement fee in (a) shall be prorated from the date technical support is ordered back to the date technical support lapsed. The reinstatement fee in (b) shall be prorated back to the original hardware system delivery date.

In addition to the reinstatement fee described above, you must pay the technical support fee for the support period. This technical support fee is computed as follows: (i) if technical support lapsed, then the technical support fee for a twelve support month period shall be the last annual technical support fee you paid for the relevant hardware system; (ii) if you never acquired technical support for the relevant hardware system, then the annual technical support fee shall be the fee that would have been charged if support had been ordered originally for the relevant hardware system per Oracle's Support pricing policies in effect at the time of reinstatement. Renewal adjustments may be applied to the annual support fee described in (i) and (ii) above.

If you previously acquired support from an Oracle-authorized distributor and are now acquiring support directly from Oracle, an uplift may be added to the reinstatement fee and your technical support fee for the hardware system.

Upgrading Your Support Level

In the event you have acquired Oracle Premier Support for Operating Systems and later choose to upgrade to Oracle Premier Support for Systems, your hardware system must be qualified as service-ready before the technical support can be upgraded. To qualify as service-ready you must acquire the Premier Support Qualification Service (at the then current fees) and meet all requirements set forth by the service team to obtain a qualification certificate for your hardware system. You will be subject to an upgrade fee equal to the difference in price between the Oracle Premier Support for Systems and the Oracle Premier Support for Operating Systems with such difference being prorated from the date that any prior System Support lapsed (or the hardware order date if System Support was never purchased).

Pricing following Reduction of Covered Hardware System or Service Level

Pricing for support is based upon the level of support and the volume of covered hardware systems for which support is ordered. In the event that (i) your hardware system reaches end of service life or (ii) you notify Oracle that you are retiring the hardware system, or (iii) you change service level for all of your systems, then Oracle will reduce your support fee at the next renewal for these reductions.

Unsupported Hardware Systems

Customers with unsupported hardware systems are not entitled to download or receive updates, maintenance releases, patches, telephone assistance, or any other technical support services for unsupported hardware systems. Parts in a covered hardware system may not be transferred to an unsupported system. CD packs or programs purchased or downloaded for trial use, use with other supported programs, or purchased or downloaded as replacement media may not be used to update any unsupported hardware systems.

Technical Contacts

Your technical contacts are the sole liaisons between you and OSS for technical support services. Your technical contacts must have, at a minimum, initial basic product training and, as needed, supplemental training appropriate for specific role or implementation phase, specialized product usage, and/or migration. Your technical contacts must be knowledgeable about the Oracle supported hardware systems and your Oracle environment in order to help resolve system issues and to assist Oracle in analyzing and resolving service requests. When submitting a service request, your technical contact must have a baseline understanding of the problem you are encountering and an ability to reproduce the problem in order to assist Oracle in diagnosing and triaging the problem. To avoid interruptions in support services, you must notify OSS whenever technical contact responsibilities are transferred to another individual.

You may designate one (1) primary and four (4) backup individuals ("technical contact") per data center location, to serve as liaisons with OSS. With each USD\$250,000 in net support fees per data center location, you have the

option to designate an additional two (2) primary and four (4) backup technical contacts per data center location. Your primary technical contact shall be responsible for (i) overseeing your service request activity, and (ii) developing and deploying troubleshooting processes within your organization. The backup technical contacts shall be responsible for resolving user issues. You may be charged a fee to designate additional technical contacts.

Oracle may review service requests logged by your technical contacts, and may recommend specific training to help avoid service requests that would be prevented by such training.

First and Second Line Support

You are required to establish and maintain the organization and processes to provide "First Line Support" for the supported hardware system(s) directly to your users. First Line Support shall include but not be limited to (i) a direct response to users with respect to inquiries concerning the performance, functionality or operation of the supported hardware system(s), (ii) a direct response to users with respect to problems or issues with the supported hardware system(s), (iii) a diagnosis of problems or issues of the supported hardware system(s), and (iv) a resolution of problems or issues of the supported hardware system(s).

If after reasonable commercial efforts you are unable to diagnose or resolve problems or issues for the supported hardware system(s), you may contact Oracle for "Second Line Support". You shall use commercially reasonable efforts to provide Oracle with the necessary access (e.g., accept remote connections, provide Explorer Files and/or Core Files) required to provide Second Line Support; however, please do not provide Oracle with access to any health, payment card, or other sensitive data that requires protections greater than those specified in the Global Customer Support Security Practices section below.

Second Line Support shall consist of (i) a diagnosis of problems or issues of the supported hardware system(s) and (ii) reasonable commercial efforts to resolve reported and verifiable errors in supported hardware system(s) so that such supported hardware system(s) perform in all material respects as described in the associated documentation.

Oracle may review service requests logged by your technical contacts, and may recommend specific organization and process changes to assist you with the above recommended standard practices.

Program Updates

"Update" means a subsequent release of the program which Oracle generally makes available for program licenses to its supported customers at no additional license fee, other than shipping charges if applicable, provided you have ordered a technical support offering that includes software updates for such licenses for the relevant time period. Updates do not include any release, option or future program that Oracle licenses separately. Updates are provided when available (as determined by Oracle) and updates may not include all versions previously available for a program acquired by Oracle. Oracle is under no obligation to develop any future programs or functionality. Any updates made available will be delivered to you, or made available to you for download. If delivered, you will receive one update copy for each supported operating system for which your program licenses were ordered. You shall be responsible for copying, downloading and installing the updates.

Right to End of Service Life

It may become necessary (i) as a part of Oracle's product lifecycle or (ii) if a vendor retires support for its product or the relationship with the vendor is terminated, to announce an End of Service Life date for a hardware system and, therefore, Oracle reserves that right. Oracle will use commercially reasonable efforts to provide twelve (12) months advance notice of End of Service Life. End of Service Life information is available on [My Oracle Support](#). End of Service Life information is subject to change.

Third-Party Products

Installation of non-Oracle product by you, or your representative (other than by Oracle), into an Oracle hardware system is strongly discouraged due to the serviceability implications outlined below.

Unless third-party product is expressly identified under the applicable technical support contract, Oracle's

technical support applies only to those products that have been both (1) manufactured by or for Oracle, and (2) sold by Oracle (either directly or by an Oracle-authorized distributor). Oracle does not support any other third-party products installed into or attached to Oracle hardware systems. Further, if third-party product is installed, or fails, in a manner that damages the Oracle hardware system, then the technical support will not cover such damage. Replacement or repair of any damaged components in these situations would be subject to additional charges.

Installation of non-Oracle product into an Oracle hardware system may also impede and/or add costs in obtaining technical support for certain failure conditions. Interoperability, timing, and intermittent failures are some examples of failure conditions that may require the removal or replacement of the third-party product from the Oracle hardware system.

For those failure conditions directly or indirectly related to third-party product (which would include any components accessing or connected to that product that are exhibiting failures), Oracle may, at its sole discretion, remove the third-party product, or require the customer to remove the third-party product, before commencing with the troubleshooting process. Oracle's services for removing the third-party product will be subject to additional charges.

If it is determined that the cause of the failure is the third-party product, then Oracle will charge for the entire service call.

If it is determined that the third-party product is not the cause of the failure (i.e., if the problem would have occurred even if third-party product was not installed in or attached to the hardware system), then Oracle's service call will be addressed under the terms of any existing Oracle technical support contract; provided that the removal of any third-party product by Oracle will be subject to additional charges.

Technology Refresh

If you acquire a new hardware system(s) and technical support from Oracle or an Oracle-authorized partner, you may be eligible to receive a credit for unused support on the decommissioned hardware system(s) currently under an active support contract with Oracle. In order to be eligible for the credit, you must complete the Hardware System Decommission Form which can be found [here](#) and submit it within one (1) year of the delivery date of the new hardware system(s). If a credit for unused support is due then such credit will be calculated from the date Oracle receives the Hardware System Decommission Form through the end of the current support period for the decommissioned hardware system(s). The credit for unused support will not exceed the total annual support fee for the new hardware system(s).

3. Lifetime Support

Lifetime Support consists of the following service levels:

- Oracle Premier Support for Systems and Oracle Premier Support for Operating Systems
- Extended Support for Operating Systems(if offered)
- Sustaining Support for Operating Systems

A description of the services available under Oracle Premier Support for Systems, Oracle Premier Support for Operating Systems, Extended Support for Operating Systems and Sustaining Support for Operating Systems is included in the Oracle Technical Support Levels section below.

When offered, Oracle Premier Support for Systems will be available for a minimum of five years from the last ship date of the hardware system. When offered, support for the operating systems included under either Oracle Premier Support for Systems or Oracle Premier Support for Operating Systems will be available for ten years from the date a release of the operating system becomes generally available, except as noted below. If offered, support for specific releases of the operating system may be extended for an additional three years with Extended Support for Operating Systems. In addition to the technical support fee, an Extended Support for Operating Systems fee applies for each support period for which Extended Support for Operating Systems is purchased. Alternatively, and if offered, support for specific releases of the operating system may be extended with

Sustaining Support for Operating Systems, which will be available for as long as you maintain either Oracle Premier Support for Systems or Oracle Premier Support for Operating Systems for your Oracle hardware system.

If an operating system included under Oracle Premier Support for Systems moves into Extended Support for Operating Systems and/or Sustaining Support for Operating Systems, you may maintain Oracle Premier Support for Systems except that the technical support received for the operating system will be provided under Extended Support for Operating Systems or Sustaining Support for Operating Systems as described above and in the Oracle Technical Support Levels section below.

Refer to the attached document titled “[Lifetime Support Policy: Coverage for Sun Software and Operating System Products](#)” (PDF) for Oracle Solaris, Oracle Linux and Oracle VM program releases that are, or will be, covered by the Lifetime Support Policy.

Notes:

1. Solaris Express - Program fixes and security patches for Solaris Express will be provided for six (6) months from the date that a release of Solaris Express becomes generally available. This applies to program fixes and security patches released by Oracle and does not include freely available updates from the OpenSolaris or Solaris Express Community.
2. Oracle Solaris 8 – For customers with a current support contract for the Oracle Solaris 8 release, new Severity 1 fixes and new security fixes will be available for the period of July 2012 – October 2014.

4. Oracle Technical Support Levels for Systems

Oracle Premier Support for Systems

Oracle Premier Support for Systems consists of services in support of hardware systems, operating system software and integrated software (including integrated software options). For hardware systems, this support is limited to (i) Oracle hardware and (ii) Tekelec BNS and PIC hardware (HP systems). For Oracle servers, this support applies to the following operating system software: Oracle Solaris, OpenSolaris, Trusted Solaris 8, Oracle Linux, and Oracle VM. For Tekelec BNS and PIC hardware, this support applies to the operating system software included with the hardware system. Unless otherwise stated in this section, Oracle Premier Support for Systems consists of:

- Program updates, patches, fixes¹, security patches, and security alerts for operating system software and integrated software
- Upgrade tools
- Certification with most new third-party products/versions or most new Oracle products
- Major product and technology releases for operating system software and integrated software, which includes general maintenance releases, selected functionality releases, and documentation updates
- Onsite installation of integrated software updates specified as Oracle Installable in the ["Delivery Method Chart: Replacement Parts and Installation of Integrated Software Updates"](#)
- Onsite hardware support for Oracle server or storage systems
- Field Change Orders – system modification recommendations
- Assistance with service requests 24 hours per day, 7 days a week
- Access to My Oracle Support (24 x 7 web-based customer support systems), including the ability to log service requests online
- 24x7 access to Oracle Unbreakable Linux Network
- Access to certain Oracle Linux security patches that may be applied while your hardware system is operating and does not require a system reboot²
- Hardware certification
- Backport of fixes¹, using commercially reasonable efforts, for any Oracle Linux or Oracle VM program released from Oracle for a period of six (6) months from the date the next release of the Oracle Linux or Oracle VM program becomes generally available; the Backport Schedule is available at <http://linux.oracle.com/backport-schedule.html>

- Right to use Oracle Management Pack for Linux
- Right to use Oracle Clusterware for Oracle Linux. To access and download Oracle Clusterware for Oracle Linux, go to <http://www.oracle.com/technetwork/database/clusterware/overview/index-096607.html>
- Right to use Oracle Enterprise Manager Ops Center. To access and download Oracle Enterprise Manager Ops Center, go to <http://www.oracle.com/technetwork/oem/ops-center/oem-ops-center-188778.html>
- Access to Platinum Services as described at <http://www.oracle.com/us/support/library/platinum-services-policies-1652886.pdf>
- Access to Oracle Enterprise Tape Analysis and Data Recovery services for the Oracle StorageTek tape media specified at <http://www.oracle.com/us/support/library/ent-tape-analysis-dr-services-1708102.pdf>
- Non-technical customer service during normal business hours

Notes:

1. Oracle will only provide bug fixes for certain versions of Oracle Linux and Oracle VM programs as provided on <http://linux.oracle.com/supported.html>.
2. Oracle has made available at linux.oracle.com certain tools for download, that are required to enable the applicable Oracle Linux security patches to be applied to your hardware system while the hardware system is operating. These tools are subject to the "Tools Used to Perform Support Services" section below and may be licensed under separate license terms. Your use of the tools is voluntary; however, if you do not use the tool (i) you will not be able to download and apply security patches while your hardware system is operating, and (ii) you will be required to reboot the hardware system in order to apply the security patch.

System Maintenance

You agree to perform prescribed system maintenance, including but not limited to, installing software updates for system software or integrated software, maintaining file systems, replacing air filters and batteries as needed, and tracking proactive diagnostic information.

Replacement Hardware Parts

If Oracle determines that the replacement of a hardware part is necessary, Oracle will send a replacement part to your location in accordance with the "[Delivery Method Chart: Replacement Parts and Installation of Integrated Software Updates](#)." Oracle will use commercially reasonable efforts to send replacement parts to you consistent with the Onsite Response Times Targets for Hardware Support noted below, except as otherwise noted herein. Replacement parts will be of new or like-new quality. After five (5) years from last ship date, replacement parts may not be readily available and the response times for sending replacement parts may be delayed.

Return of Malfunctioning Parts

If Oracle sends a replacement part to you, you will ensure that the malfunctioning part is returned to Oracle in accordance with all shipping or courier instructions from Oracle (unless you have an agreement with Oracle allowing you to retain the malfunctioning part). You are responsible for removing all information and data that you have stored on any drives, including but not limited to hard disk drives and solid state drives ("drives") before you return the drives for repair or replacement. You are responsible for ensuring that you remove all tapes prior to returning any tape drives. If a tape is stuck inside a drive that you are unable to remove, consult OSS to assist with its removal. Title in the malfunctioning part shall transfer back to Oracle upon removal from your hardware system. If you fail to return any malfunctioning part within forty-five (45) days of shipment to you, you will be charged the then-current fee for the malfunctioning part.

Oracle Premier Support for Operating Systems

Oracle Premier Support for Operating Systems consists of services in support of (i) operating system and virtualization software for Oracle Solaris, OpenSolaris, Trusted Solaris 8, Oracle Linux, and Oracle VM and (ii) integrated software (including integrated software options). Unless otherwise stated in this section, Oracle Premier Support for Operating Systems consists of:

- Program updates, patches, fixes¹, security patches, and security alerts for operating system software and integrated software
- Upgrade tools
- Certification with most new third-party products/versions or most new Oracle products
- Major product and technology releases for operating system software and integrated software, which includes general maintenance releases, selected functionality releases, and documentation updates
- Onsite installation of integrated software updates specified as Oracle Installable in the ["Delivery Method Chart: Replacement Parts and Installation of Integrated Software Updates"](#)
- Assistance with service requests 24 hours per day, 7 days a week
- Access to My Oracle Support (24 x 7 web-based customer support systems), including the ability to log service requests online
- 24x7 access to Oracle Unbreakable Linux Network
- Access to certain Oracle Linux security patches that may be applied while your hardware system is operating and does not require a system reboot²
- Hardware certification
- Backport of fixes¹, using commercially reasonable efforts, for any Oracle Linux or Oracle VM program released from Oracle for a period of six (6) months from the date the next release of the Oracle Linux or Oracle VM program becomes generally available; the Backport Schedule is available at <http://linux.oracle.com/backport-schedule.html>
- Right to use Oracle Management Pack for Linux
- Right to use Oracle Clusterware for Oracle Linux. To access and download Oracle Clusterware for Oracle Linux, go to <http://www.oracle.com/technetwork/database/clusterware/overview/index-096607.html>
- Right to use Oracle Enterprise Manager Ops Center. To access and download Oracle Enterprise Manager Ops Center, go to <http://www.oracle.com/technetwork/oem/ops-center/oem-ops-center-188778.html>
- Non-technical customer service during normal business hours

Notes:

1. Oracle will only provide bug fixes for certain versions of Oracle Linux and Oracle VM programs as provided on <http://linux.oracle.com/supported.html>.
2. Oracle has made available at linux.oracle.com certain tools for download, that are required to enable the applicable Oracle Linux security patches to be applied to your hardware system while the hardware system is operating. These tools are subject to the "Tools Used to Perform Support Services" section below and may be licensed under separate license terms. Your use of the tools is voluntary; however, if you do not use the tool (i) you will not be able to download and apply security patches while your hardware system is operating, and (ii) you will be required to reboot the hardware system in order to apply the security patch.

Extended Support for Operating Systems

Extended Support for Operating Systems may be offered for certain supported Oracle Solaris operating system software releases after Premier Support expires. Please see Oracle's Lifetime Support Policies for more information. When Extended Support for Operating Systems is offered, it is generally available for the terminal codeline release of a program. Unless otherwise stated in this section, supported Oracle Solaris operating system software releases for which Extended Support for Operating Systems is offered and in the Extended Support lifecycle will receive Oracle Premier Support for Operating Systems or technical support for Oracle Solaris under Oracle Premier Support for Systems limited to the following:

- Major product and technology releases for Oracle Solaris operating system software

- Program updates, fixes, security patches, and security alerts
- Upgrade tools
- General maintenance releases, selected functionality releases, and documentation updates for Oracle Solaris operating system software
- Assistance with service requests 24 hours per day, 7 days a week
- Access to My Oracle Support (24 x 7 web-based customer support systems), including the ability to log service requests online
- Non-technical customer service during normal business hours

Extended Support for Operating Systems does not include:

- Certification with most new third-party products/versions or most new Oracle programs

Extended Support for Operating Systems is not available for OpenSolaris, Trusted Solaris 8, Oracle Linux and Oracle VM.

Sustaining Support for Operating Systems

Sustaining Support for Operating Systems may be available for certain operating system software releases. Program releases eligible for Sustaining Support for Operating Systems will receive Oracle Premier Support for Operating Systems or technical support for the operating system under Oracle Premier Support for Systems limited to the following:

- Program updates, patches, fixes, security patches, and security alerts for operating system software and integrated software created during Oracle Premier Support for Operating Systems or Oracle Premier Support for Systems, and Extended Support for Operating Systems (if offered and only after the Extended Support for Operating Systems Period ends)
- Upgrade tools created during Oracle Premier Support for Operating Systems or Oracle Premier Support for Systems period and Extended Support for Operating Systems (if offered and only after the Extended Support for Operating Systems Period ends).
- General maintenance releases, selected functionality releases, and documentation updates Assistance with service requests, on a commercially reasonable basis, 24 hours per day, 7 days a week
- Access to My Oracle Support (24 x 7 web-based customer support systems), including the ability to log service requests online
- 24x7 access to Oracle Unbreakable Linux Network
- Right to use Oracle Management Pack for Linux
- Right to use Oracle Clusterware for Oracle Linux. To access and download Oracle Clusterware for Oracle Linux, go to <http://www.oracle.com/technetwork/database/clusterware/overview/index-096607.html>
- Right to use Oracle Enterprise Manager Ops Center. To access and download Oracle Enterprise Manager Ops Center, go to <http://www.oracle.com/technetwork/oem/ops-center/oem-ops-center-188778.html>
- Non-technical customer service during normal business hours

Sustaining Support for Operating Systems does not include:

- New program updates, patches, fixes, security patches, security alerts, general maintenance releases, selected functionality releases, documentation updates
- New upgrade tools
- Certification with most new third-party products/versions or most new Oracle products
- 24 hour commitment and response guidelines for Severity 1 service requests as defined in the Severity Level section below
- Hardware certification
- Backport of fixes
- Previously released fixes or updates that Oracle no longer supports.

Because program releases supported by Sustaining Support are no longer fully supported, information and skills regarding those releases may be limited.

Oracle Communications EAGLE Premier Support

Oracle Communications EAGLE Premier Support consists of services in support of hardware systems and integrated software (including integrated software options) for Oracle Communications EAGLE hardware products only. Oracle Premier Support for Systems consists of:

- Program updates, fixes and security alerts for integrated software (including integrated software options)
- Remote installation of integrated software (including integrated software options)
- Assistance with service requests 24 hours per day, 7 days a week
- Ability to log service requests as specified in the following link:
<http://www.oracle.com/us/corporate/acquisitions/tekelec/support/index.html>
- Non-technical customer service during normal business hours

For Oracle Communications EAGLE Premier Support only, reasonable efforts will be made to respond to service requests per the Response Times set forth in the guidelines below; however, Oracle's failure to adhere to the times stated will not constitute a breach by Oracle. The guidelines are for informational purposes only and subject to change at Oracle's discretion.

Severity Level	Response Time ¹	Remote Restoration Time ¹	Resolution Time ¹
Severity 1	15 minutes	6 hours	30 calendar days
Severity 2	15 minutes	48 hours	30 calendar days
Severity 3	N/A	N/A	180 calendar days

1. For purposes of the above table, the following definitions apply:

- Response Time - The elapsed time beginning when you create a service request until Oracle first responds to you.
- Remote Restoration Time - The elapsed time beginning when Oracle achieves remote access to the applicable hardware system and when Oracle notifies you that a resolution has been offered. The Remote Restoration Time frames do not apply if (i) you do not have spares available onsite, (ii) integrated software or integrated software option code changes are required or (iii) onsite assistance is required by Oracle.
- Resolution Time - The elapsed time beginning when you create a service request to when your issue is resolved.

5. Additional Services Available for Purchase

Oracle Priority Service for Sun Ray Peripherals

Oracle Priority Service for Sun Ray Peripherals consists of:

- Advanced Parts Exchange for keyboards, monitors and country kits; with next business day delivery to your location
- Access to My Oracle Support (24 x 7 web-based customer support systems), including the ability to log service requests online

Contractual caps on technical support fees do not apply to these services, unless expressly stated otherwise in the applicable order.

Oracle Customer Data & Device Retention Service

Oracle Customer Data & Device Retention Service permits you to retain disk drive(s), flash cache and/or parts that may contain sensitive, confidential, or classified data that have been removed from your hardware system. For the purposes of this service, (i) a disk drive is defined as a spinning media device that stores data accessed

by the server, storage array, or tape system, (ii) flash cache is defined as any device having the ability to store information on a solid state media that is re-writable, and (iii) a part is defined as any item in a server, storage device, or network device containing non-volatile random access memory.

Oracle Customer Data & Device Retention Service consists of the following:

- If Oracle, in its sole discretion, determines that a disk drive(s), flash cache and/or parts need to be replaced, Oracle will send a replacement disk drive(s), flash cache, and/or parts to your location. Oracle personnel will install the replacement disk drive(s), flash cache and/or part and return the failed memory component to you. Oracle will use commercially reasonable efforts to send replacement parts to you consistent with the Onsite Response Time Targets for Hardware Support noted below.

If you acquire Oracle Customer Data & Device Retention Service, you will:

- Provide access to your facilities, systems, and operating environment, including root access.
- Provide access to your personnel, including IT and operational staff
- Provide a designated point of contact
- Be responsible for the proper disposal/destruction of replaced disk drive(s), flash cache and/or parts.

If you add Oracle Customer Data & Device Retention Service, you must maintain Oracle Premier Support for Systems; you must acquire Oracle Customer Data & Device Retention Service for (i) all servers of the same model number, (ii) all storage devices of the same model number, and/or (iii) all networking devices of the same model number.

If you renew Oracle Customer Data & Device Retention Services, the renewal fee for such services will be based on the Oracle Customer Data & Device Retention Service pricing policies in effect at the time of renewal. Contractual caps on technical support fees do not apply to these services, unless expressly stated otherwise in the applicable order.

Oracle Onsite Spares

Oracle Onsite Spares provides you with delivery and maintenance of parts at your designated location(s). This service includes only those parts that are specified on your order.

Oracle Onsite Spares consists of the following:

- Parts
- Maintenance and replacement of parts
- Setup of parts onsite
- Semi-annual cycle counts
- Retrieval of parts at end of Support Period

If you acquire Oracle Onsite Spares, you will:

- Provide a secure storage area for parts clearly marked "Property of Oracle. You will ensure that (i) entry to such secure area is restricted to your personnel directly involved in shipping and receiving parts, and (ii) all vehicle and pedestrian access to your warehouse premises is secured against unauthorized access.
- Provide a designated point of contact

In order to acquire Oracle Onsite Spares, you must maintain Oracle Premier Support for Systems.

Oracle will maintain title to and ownership of parts unless or until any such part is exchanged with a damaged or faulty part and installed on a hardware system. Also, with the transfer of title to a part to you, title to the identical damaged or faulty part is transferred to Oracle.

If you renew Oracle Onsite Spares, the renewal fee for such services will be based on the Oracle Onsite Spares pricing policies in effect at the time of renewal. Contractual caps on technical support fees do not apply to these services, unless expressly stated otherwise in the applicable order.

Oracle Business Critical Service for Systems

Oracle offers a service to provide additional service-levels for systems running mission critical business functions. For information about the available service, please refer to

<http://www.oracle.com/us/corporate/contracts/bus-critical-service-for-systems-1927926.pdf>

Contractual caps on technical support fees do not apply to these services, unless expressly stated otherwise in the applicable order. Oracle Business Critical Service for Systems is not subject to the Reinstatement policies stated above.

Advanced Customer Support Services

If you acquire any of the below Advanced Customer Support Services on your order, Oracle will provide the services described in the applicable exhibit(s) specified below:

- Oracle Standard Systems Installations:
 - [Oracle Standard System Installation \("OSSI"\) - Basic Service Exhibit](#)
 - [Oracle Standard System Installation \("OSSI"\) with Site Audit Services Exhibit](#)
 - [Oracle Standard System Installation \("OSSI"\) without Site Audit Services Exhibit](#)
- [Oracle Standard Software Installation and Configuration for Systems](#)
- [Oracle Engineered Systems Configuration Services](#)
- [Oracle Preproduction Readiness Review for Systems Service](#) or [Oracle Preproduction Readiness Review for Oracle Platinum Services](#)
- [Oracle Go-Live Support for Systems Service](#) or [Oracle Go-Live Support for Oracle Platinum Services](#)

Priority Service

Priority Service is available for hardware systems and consists of:

- Support Delivery Management. An Oracle Technical Account Manager ("TAM") will be assigned to you for the duration of the term. The TAM will serve as your primary contact for the administration of the services and will communicate with you in a local language (except as noted below).
 - Your TAM shall provide the following support services:
 - Prepare and maintain quarterly service delivery progress reports;
 - Document the contact details for key Oracle contacts, your technical contacts for Oracle Premier Support, and management escalation team ("Customer Contacts") and Oracle's escalation procedures ("Joint Contacts and Escalation Guide");
 - Document the technical specifications of your OPE ("Environment and Configuration Guide"); and
 - Provide access to a customer-specific web portal.
 - Your TAM will also assist with the following:
 - Conduct an orientation for your Customer Contacts;
 - Conduct quarterly service reviews;
 - Maintain the Joint Contacts and Escalation Guide and the Environment and Configuration Guide.
 - Review all Oracle Support Services activity, including service request ("SR") activity in connection with individual SRs logged by you or your Customer Contacts. The review may consist of status reports, next steps, if any, and review of your SR priorities;
 - Serve as your designated point of contact for Severity 1 and mutually agreed upon Severity 2 SR (collectively, "Critical SRs"). The TAM will provide assistance in managing Critical SRs as follows:
 - SR management, prioritization and escalation;
 - Communicate the status of your SRs to your Customer Contact(s) as requested;
 - Facilitate communications between Oracle and your Customer Contacts;
 - Facilitate your access to Oracle-sponsored events, as made available to Priority Service customers; and
 - Facilitate your access to monthly web conference sessions delivered in English featuring Oracle products.
- SR Prioritization.

- Oracle will prioritize your SRs above SRs of the same severity level submitted by other Premier Support customers. Reasonable efforts will be made to respond to your SRs per the following guidelines ("Service Request Response Guidelines"):
 - 90% of Severity 1 SRs within one (1) hour (available 24x7);
 - 90% of Severity 2 SRs within two and one half (2.5) local business hours;
 - 90% of Severity 3 SRs within the next local business day; and
 - 90% of Severity 4 SRs within the next local business day.
- Oracle will initiate internal escalations for Severity 1 and Severity 2 SRs according to the Service Request Response Guidelines; and
- Oracle will prioritize the repair of product defects encountered during the resolution of service requests.

If you purchase Priority Service, you must maintain a current Oracle Premier Support for Systems and/or Oracle Premier Support for Operating Systems contract for all of your hardware systems.

If you purchase Priority Service, you acknowledge that Oracle's ability to provide services depends on your fulfillment of the following obligations:

- You will designate Customer Contacts and identify by name, phone number, e-mail address and other appropriate contact methods, for each of your Customer Contacts. Only your Customer Contacts may communicate with Oracle regarding the delivery of Priority Services
- You are responsible for applying bug fixes, critical patches and configuration recommendations provided through Oracle Support Services within a commercially reasonable period of time.
- You will assist Oracle to maintain the Joint Contacts and Escalation Guide and the Environment and Configuration Guide.

If you renew Priority Service, the renewal fee for such services will be based on the Priority Service pricing policies in effect at the time of renewal. Contractual caps on technical support fees do not apply to these services, unless expressly stated otherwise in the applicable order.

Oracle Tekelec Professional Services

If you acquire any of the below Tekelec Professional Services on your order, Oracle will provide the services described in the [Tekelec Professional Services Descriptions](#).

- Oracle Communications Hardware Engineering Site Survey – Per Node Per Site
- Oracle Communications Hardware Installation – Per DC Frame or DC Application Frame enclosure extension
- Oracle Communications Hardware Installation – Per AC Frame
- Oracle Communications DC Hardware Extension Installation – Per Frame – Rack mount server and Shelf additions
- Oracle Communications Hardware Extension Installation – AC or DC Blade Server/Eagle Card/Switches – Per 16 cards/switches per site
- Oracle Communications AC Hardware Extension Installation – Per Frame – Rack mount servers and AC enclosure additions

6. Web-Based Customer Support Systems

My Oracle Support

My Oracle Support is Oracle's customer support web site for hardware support. Access to My Oracle Support is governed by the Terms of Use posted on the My Oracle Support web site. The Terms of Use are subject to change and a copy of these terms is available upon request. Access to My Oracle Support is limited to your designated technical contacts.

The following Oracle hardware is not currently supported under My Oracle Support: Tekelec hardware.

Tekelec Support Portal

Access to Tekelec Support Portal is governed by the Terms of Use posted on the Tekelec Support Portal web site. The Terms of Use are subject to change and a copy of these terms is available upon request. Access to Tekelec Mobile Support Portal is limited to your designated technical contacts.

Oracle Unbreakable Linux Network

Access to the Oracle Unbreakable Linux Network is included with Oracle Premier Support for Systems and Oracle Premier Support for Operating Systems.

7. Tools Used to Perform Technical Support Services

Oracle may make available collaboration tools (such as tools that enable Oracle, with your consent, to access your hardware system (e.g., Oracle Shared Shell for hardware)) and software tools (such as tools to assist in the collection and transmission of configuration data (e.g., Auto Service Request)) to assist with issue resolution. The tools are licensed under the My Oracle Support Terms of Use, and may be subject to additional terms provided with the tools. Some of the tools are designed to collect information concerning the configuration of your computer environment ("tools data"). The tools will not access, collect or store any personally identifiable information (except for technical support contact information) or business data files residing in your computer environment. By using the tools, you consent to the transmission of your tools data to Oracle for the purposes of providing reactive and proactive technical support services. In addition, the tools data may be used by Oracle to assist you in managing your Oracle product portfolio, for license and services compliance and to help Oracle improve upon product and service offerings.

Some of the tools may be designed to connect automatically or on a periodic basis and you may not receive a separate notice upon connection. You are responsible for maintaining the telecom gateway through which the tools communicate tools data to Oracle. Use of the tools is voluntary; however, refusal to use the tools may impede Oracle's ability to provide technical support services to you. The tools may be subject to availability for selected products.

Further details about some of the current tools Oracle uses to provide technical support services, the data collected, and how the data is used, are described in the Global Customer Support Security Practices and on My Oracle Support. You may also contact your Oracle sales representative or call your local Customer Support office for more details regarding the tools and availability.

If Oracle expressly provides in the tools documentation, technical support policies, an order, or readme that a tool is provided under separate license terms ("Separate Terms") then the Separate Terms shall govern your access and use of the tool. Embedded third party software, or third party software, licensed under Separate Terms (for example Mozilla and LGPL) may be required to access or run the tools per the tools documentation or readme. Your rights to use a tool or software licensed under Separate Terms shall not be restricted or modified in any way by your agreement with Oracle.

Auto Service Request

Auto Service Request ("ASR") allows Oracle products which are ASR-enabled to automatically initiate a service request when specific hardware faults occur by sending fault telemetry information to Oracle. If the ASR enabled hardware is entitled to service, a service request will be initiated on your behalf. The specific hardware faults detected by ASR vary by product type, product version and operating system. Not all hardware faults are detected or sent to Oracle. The ASR fault coverage is subject to change by Oracle at any time and without prior notice.

8. Global Customer Support Security Practices

Oracle is deeply committed to the security of its technical support services. In providing standard technical support services, Oracle will adhere to the Global Customer Support Security Practices, which are available at <http://www.oracle.com/us/support/policies/index.html>. The Global Customer Support Security Practices are subject to change at Oracle's discretion; however, Oracle will not materially reduce the level of security specified in the Global Customer Support Security Practices during the period for which fees for technical support have been paid. To view changes that have been made, please refer to the attached [Statement of Changes](#) (PDF).

Please note that global customer support services and systems are not designed to accommodate special security controls that may be required to store or process certain types of sensitive data. Please ensure that you do not submit any health, payment card or other sensitive data that requires protections greater than those specified in the [Global Customer Support Security Practices](#). Information on how to remove sensitive data from your submission is available in My Oracle Support at <https://support.oracle.com/CSP/main/article?cmd=show&type=NOT&id=1227943.1>.

9. Severity Definitions

Service requests for your covered hardware system may be submitted by you online through Oracle's web-based customer support systems or by telephone. The service request severity level is selected by you and Oracle and should be based on the following severity definitions:

Severity 1

Your production use of the covered hardware system is stopped or so severely impacted that you cannot reasonably continue work. You experience a complete loss of service. The operation is mission critical to the business and the situation is an emergency. A Severity 1 service request has one or more of the following characteristics:

- Data corrupted
- A critical documented function is not available
- System hangs indefinitely, causing unacceptable or indefinite delays for resources or response
- System crashes, and crashes repeatedly after restart attempts
- System functionality failure causes data loss or renders system unstable
- System malfunction causes mission critical applications to restart, hang, or suspend

Except as otherwise specified herein, reasonable efforts will be made to respond to Severity 1 service requests within one (1) hour. . For response efforts associated with Oracle Communications EAGLE Premier Support, please see the Oracle Communications EAGLE Premier Support section above.

24 Hour Commitment to Severity 1 Service Requests: OSS will work 24x7 until the issue is resolved or as long as useful progress can be made. You must provide OSS with a contact during this 24x7 period, either on site or by phone, to assist with data gathering, testing, and applying fixes. You are requested to propose this severity classification with great care, so that valid Severity 1 situations obtain the necessary resource allocation from Oracle.

Severity 2

You experience a severe loss of service. Important features are unavailable with no acceptable workaround, impaired or broken functionality with significant impact to applications, and/or frequent application failure but not data loss; however, operations can continue in a restricted fashion.

Severity 3

You experience a minor loss of service. The impact is an inconvenience, which may require a workaround to restore functionality.

Severity 4

You request information, an enhancement, or documentation clarification regarding your software but there is no impact on the operation of the software. You experience no loss of service. The result does not impede the operation of a system.

10. Onsite Response Time Targets for Hardware Support

Except as otherwise specified herein, response time targets for hardware support are as specified below. The response time target for Sun Ray Clients, regardless of severity level, is limited to Advanced Parts Exchange with next business day delivery to your location. The response time target for Acme Packet hardware, regardless of severity level, is limited to Advanced Parts Exchange with next business day shipment to your location. The response time target for Tekelec hardware (i.e., Oracle Communications EAGLE hardware, Tekelec BNS and PIC (HP hardware), regardless of severity level, is limited to Advanced Parts Exchange with shipment of the replacement part within forty-eight (48) hours of Oracle's acknowledgement that replacement of a hardware part is necessary.

Please refer to the attached document titled "[Oracle Service Locations](#)" (PDF) for a listing of service locations.

Severity 1

If Oracle determines, in its sole discretion, that onsite support is appropriate, an Oracle-dispatched engineer will generally arrive at your location within the time frames specified below.

Within 2 hours:	Your covered hardware system must be within 25 miles/40 kilometers of a designated Oracle service location
Within 4 hours:	Your covered hardware system must be within 26 – 49 miles/41 – 79 kilometers of a designated Oracle service location
Next Day:	Your covered hardware system is greater than 50 mile/80 kilometers from a designated Oracle service location

Severity 2

If Oracle determines, in its sole discretion, that onsite support is appropriate, an Oracle-dispatched engineer will generally arrive at your location within the time frames specified below. Onsite response times are during local business hours only.

Within 4 hours:	Your covered hardware system must be within 25 miles/40 kilometers of a designated Oracle service location
Within same business day:	Your covered hardware system must be within 26 – 49 miles/41 – 79 kilometers of a designated Oracle service location
Next Business Day:	Your covered hardware system is greater than 50 mile/80 kilometers from a designated Oracle service location

Severity 3

If Oracle determines, in its sole discretion, that onsite support is appropriate, an Oracle-dispatched engineer will generally arrive at your location the next business day from the close of local business hours or at a later mutually agreed-upon time (e.g., scheduled maintenance window).

Note:

The geographic location of your covered hardware system may cause on-site service to be unavailable or may require additional charges or longer Severity 1, Severity 2 and Severity 3 response times. Oracle reserves the right, in its sole discretion, to adjust Severity 1, Severity 2 and Severity 3 on-site response times or charge additional fees based on the location of the covered hardware system. Actual response times are subject to acts and conditions beyond Oracle's control and, therefore, Oracle's response may be delayed. Oracle is not responsible for response delays caused by factors outside its control. You should contact an Oracle Support Sales representative for more details regarding availability for your covered hardware systems.

11. Contact Information

Phone numbers and contact information can be found on Oracle's support web site located [here](#).

Oracle Hardware Warranty

Effective Date: 3-February-2014

10. [Limitations](#)
11. [Contact Information](#)

1. Overview

The details of the Oracle Hardware Warranty are set forth below. The Oracle Hardware Warranty is only available in countries where Oracle maintains local hardware service or support operations. For a list of countries where Oracle maintains local service or support operations please refer to the attached document titled "[Oracle Service Locations](#)" (PDF). If you are located in a country where Oracle does not maintain local service or support operations, your warranty terms will vary and third parties may be responsible for providing you with warranty service.

The term "you" and "your" refers to the individual or entity that has ordered Oracle hardware and/or media products, identified in the Oracle Hardware Limited Warranty section below, from Oracle or an Oracle-authorized distributor to which this Oracle Hardware Warranty applies.

The term "hardware" refers to the computer equipment, including components, options and spare parts.

The term "integrated software" refers to any software or programmable code that is (a) embedded or integrated in the hardware and enables the functionality of the hardware or (b) specifically provided to you under a separate agreement with Oracle or an Oracle-authorized distributor and specifically listed (i) in accompanying documentation, (ii) on an Oracle webpage or (iii) via a mechanism that facilitates installation for use with your hardware.

To view a comparison of this Oracle Hardware Warranty and the previous version of the Oracle Hardware Warranty, please refer to the attached [Statement of Changes](#) (PDF).

2. Transition to the Oracle Hardware Warranty

Sun Microsystems

Orders for Sun Microsystems hardware placed between March 16, 2010 and May 31, 2010 that include SunSpectrum Support will receive the Sun Microsystems warranty available prior to the March 16, 2010 introduction of the Oracle Hardware Warranty. Please refer to the attached document "[Sun Microsystems Hardware Warranty Prior to March 16, 2010](#)" (PDF) for the detail on the warranty available prior to March 16, 2010.

All orders placed on or after June 1, 2010 will receive the Oracle Hardware Warranty. All orders placed between March 16, 2010 and May 31, 2010 that do not include SunSpectrum Support will receive the Oracle Hardware Warranty (but if such orders include SunSpectrum Support the "[Sun Microsystems Hardware Warranty Prior to March 16, 2010](#)" (PDF) will apply as stated above).

Pillar Data Systems

Orders for Pillar Data Systems hardware placed before October 1, 2011 will receive the Pillar Data Systems warranty available at the time the order was placed. Please refer to the attached document "[Pillar Data Systems Hardware Warranty Prior to October 1, 2011](#)" (PDF) for details on the warranty. All orders placed after October 1, 2011 will receive the Oracle Hardware Warranty.

Xsigo Systems

Orders for Xsigo Systems hardware placed before November 1, 2012 will receive the Xsigo Systems warranty available at the time the order was placed. Please refer to the attached document "[Xsigo Systems Hardware Warranty Prior to November 1, 2012](#)" (PDF) for details on the warranty. All orders placed after November 1, 2012 will receive the Oracle Hardware Warranty.

Acme Packet

Orders for Acme Packet hardware placed before November 15, 2013 will receive the Acme Packet warranty available at the time the order was placed. Please refer to the attached document "[Acme Packet Products Warranty Prior to November 15, 2013](#)" (PDF) for details on the warranty. All orders placed after November 15, 2013 will receive the Oracle Hardware Warranty.

Tekelec

Orders for Tekelec hardware placed before February 3, 2014 will receive the Tekelec warranty available at the time the order was placed. Please refer to the attached document "[Tekelec Products Warranty Prior to February 3, 2014](#)" (PDF) for details on the warranty. All orders placed after February 3, 2014 will receive the Oracle Hardware Warranty.

3. Oracle Hardware Limited Warranty

Oracle provides a limited warranty ("Oracle Hardware Warranty") for (i) the Hardware Products, (ii) operating system and integrated software, (iii) the Software Media, and (iv) Tape Media. Hardware Products, Software Media and Tape Media shall have the meanings ascribed to them below.

Oracle warrants that hardware and the Sun Remanufactured Equipment Program products, listed on the product price lists, (collectively "Hardware Products") will be free from, and using the operating system and integrated software will not cause in the Hardware Product, material defects in materials and workmanship for one (1) year from the date the Hardware Product is delivered to you. Oracle warrants that the operating system media and the integrated software media (collectively "Software Media") will be free from material defects in materials and workmanship for a period of ninety (90) days from the date the Software Media is delivered to you.

Oracle warrants that the StorageTek LTO5 and LT06 Ultrium and T10000 T2 tape media will be free from material defects in material and workmanship and will conform in all material respects to the specifications for its lifetime, meaning for so long as you use it in the configuration for which it was purchased originally. Oracle warrants that all other StorageTek LTO Ultrium and T10000 tape media, DLT/SuperDLT tape media, and 9840/9940 tape media will be free from material defects in materials and workmanship for a period of one (1) year from the date the tape media is delivered to you. Tape media identified in this section may collectively be referred to as Tape Media.

The Oracle Hardware Warranty applies only to those Hardware Products, Software Media and Tape Media that have been (1) manufactured by or for Oracle, (2) sold by Oracle (either directly or by Oracle-authorized distributor), and used under normal conditions as described in the specifications. Oracle Hardware Products may be new or like new. The Oracle Hardware Warranty applies to Hardware Products that are new and Hardware Products that are like-new which have been remanufactured and certified for warranty by Oracle.

4. If You Experience a Warranty Issue

Unless otherwise designated in writing by Oracle, Oracle and Oracle authorized service providers are the only parties authorized to perform warranty service on Oracle Hardware Products. Upon experiencing a warranty issue, please contact Oracle via [My Oracle Support](#) or contact the Oracle Technical Support Center for your country. Phone numbers and contact information can be found on Oracle's support web site located [here](#).

If Oracle is not able to obtain entitlement information through the registration process, you will be asked to provide the following information when requesting warranty service: your name, address, and contact information; serial number; a description of the Oracle product; a description of the system configuration; a description of the issue; and, if applicable, your Passport or Global Purchase Agreement number. You may be required to provide proof of purchase and/or, if applicable, proof of the installation date prior to receiving warranty service.

5. Warranty Service

WEB Coverage: 24x7 – 365 Days per Year

Phone Coverage: Local Business Hours

Phone/Web Call Back Response (local business hours only):

Severity 1 Issue – four (4) Hours

Severity 2 Issue – eight (8) Hours

Severity 3 Issue – Next Business Day

Oracle will make commercially reasonable efforts to return your initial telephone or internet request for warranty service within the designated response time set forth above.

If the ["Delivery Method Chart: Replacement Parts and Installation of Integrated Software Updates"](#) (PDF) specifies on-site warranty service for your Hardware Product and Oracle has determined that an on-site visit is required in order to address the warranty issue, the visit will be scheduled during local business hours excluding holidays. Oracle will make commercially reasonable efforts to respond on-site within two (2) business days for Hardware Products located within a designated Oracle Service Location. Please refer to the attached document ["Oracle Service Locations"](#) (PDF) for a listing of service locations near you. For on-site warranty service outside the identified service locations response times may be longer.

On-site warranty service is not available for Hardware Products designated as "Return to Oracle" on the ["Delivery Method Chart: Replacement Parts and Installation of Integrated Software Updates"](#) (PDF), Software Media or Tape Media. Instead, warranty service will be provided in accordance with the Replacement CRU shipment process described below.

In the event that Oracle determines that your issue can be addressed by shipping a replacement part to you (a "Customer Replaceable Unit" or "CRU"), Oracle will ship the replacement CRU to your site ("Replacement CRU"). Based on availability, Oracle will use commercially reasonable efforts to ship the Replacement CRU within the response times set forth above starting once the diagnostic analysis is done. Replacement CRUs will be of new or like-new quality. You are responsible for installation of Replacement CRUs. Replacement CRUs are not warranted separately from Hardware Products, Software Media, or Tape Media, but are warranted as follows: (i) Replacement CRUs for Hardware Products are warranted under the warranty terms remaining for the Hardware Product into which the Replacement CRU is installed; (ii) Replacement CRUs for Tape Media or Software Media, are warranted under the warranty terms remaining for the Tape Media or Software Media being replaced.

Oracle may require that you return your Hardware Product to the original factory-shipped hardware and software configurations before providing warranty service to you.

In the event that an integrated software update is required in order to address your warranty issue, Oracle will provide you with instructions for obtaining the update, which may include

agreement to additional licensing terms. You are responsible for implementing the necessary updates.

You are responsible for ensuring that any malfunctioning Hardware Product (or part) or Tape Media being replaced ("Malfunctioning Product") is returned to Oracle in accordance with all Oracle shipping or courier instructions. If you fail to return the Malfunctioning Product within forty-five (45) days of a Replacement CRU being shipped to you, you will be charged the then-current fee for such Malfunctioning Product. Title in the Malfunctioning Product shall transfer back to Oracle upon removal from the hardware. It is your responsibility to back up all data before returning Malfunctioning Product to Oracle. Oracle is not responsible for any data lost or damaged including lost or damaged as part of the warranty return or repair process nor for any associated data restoration. Further, it is your responsibility to ensure that no confidential, proprietary, or personal information remains on your Malfunctioning Product before returning it to Oracle.

All response times are estimates only. Oracle will make commercially reasonable efforts to meet such response times; however, such response times are dependent upon factors such as location, resource availability, your enablement of remote support capabilities, and your availability. For Hardware Products, the response times apply to Hardware Products located within a twenty-five (25)-mile (forty [40]-kilometer) radius of designated service location. Please refer to the attached document titled "[Oracle Service Locations](#)" (PDF) for a listing of service locations.

For Oracle to provide warranty service for Hardware Products relocated outside the original country of delivery, notice of Hardware Product relocation is required (unless the original country of delivery is in the European Union and the Hardware Product is relocated within the European Union). To provide notice of Hardware Product relocation, you must submit a completed Hardware Product Relocation Form which can be found [here](#). If the original country of delivery is in the European Union, and the Hardware Product is relocated within the European Union, notice is not required; however, at your option, you may submit a completed Hardware Product Relocation Form to facilitate the provision of warranty service. Relocated Hardware Products will be entitled to the warranty service available in the country to which the Hardware Product is relocated.

If your product contains remote support capabilities, your failure to enable and use such capabilities during the warranty period may adversely impact Oracle's ability to respond to your requests for warranty service.

Oracle's obligation to deliver warranty service is conditioned upon you fulfilling your obligations identified in this Oracle Hardware Warranty. Your failure to meet your obligations may result in no warranty service being provided or a delay in the provision of warranty service.

Any services provided for Hardware Products, Software Media or Tape Media which are not covered by warranty will be billed on a time and material basis.

6. Tools Used to Perform Warranty Services

Oracle may make available collaboration tools (such as tools that enable Oracle, with your consent, to access your Hardware Products (e.g. Oracle Shared Shell for hardware)) and software tools (such as tools to assist in the collection and transmission of configuration data (e.g. Auto Service Request)) to assist with warranty issue resolution. The tools are licensed under the My Oracle Support Terms of Use, and may be subject to additional terms provided with the tools. Some of the tools are designed to collect information concerning the configuration of your computer environment ("tools data"). The tools will not access, collect or store any personally identifiable information (except for warranty service and technical support contact information) or business data files residing in your computer environment. By using the tools, you consent to the transmission of your tools data to Oracle for the purposes of providing reactive and proactive

warranty services. In addition, the tools data may be used by Oracle to help Oracle improve upon product and service offerings.

Some of the tools may be designed to connect automatically or on a periodic basis and you may not receive a separate notice upon connection. You are responsible for maintaining the telecom gateway through which the tools communicate tools data to Oracle. Use of the tools is voluntary; however, refusal to use the tools may impede Oracle's ability to provide warranty service to you.

Further details about some of the current tools Oracle uses to provide warranty services, and the data collected and how it is used, are described in the Global Customer Support Security Practices and on My Oracle Support. You may contact your Oracle sales representative or call your local Customer Support office for more details regarding the tools and availability.

If Oracle expressly provides in the tools documentation, an ordering document, or readme that the tool is provided under separate license terms ("Separate Terms") then the Separate Terms shall govern your access and use of the tool. Similarly, embedded third party software, or third party software, licensed under Separate Terms (for example Mozilla and LGPL) may be required to access or run the tools per the tools documentation or readme. Your rights to use a tool or software licensed under Separate Terms shall not be restricted or modified in any way by your agreement with Oracle.

Auto Service Request

Auto Service Request ("ASR") allows Oracle hardware which is ASR-enabled to automatically initiate a service request when specific hardware faults occur by sending fault telemetry information to Oracle. If the ASR enabled hardware is entitled to service, a service request will be initiated on your behalf. The specific hardware faults detected by ASR vary by product type, product version and operating system. Not all hardware faults are detected or sent to Oracle. The ASR fault coverage is subject to change by Oracle at any time and without prior notice.

7. Global Customer Support Security Practices

Oracle is deeply committed to the security of its warranty services. In providing warranty services, Oracle will adhere to the Global Customer Support Security Practices, which are available at <http://www.oracle.com/us/support/policies/index.html>. The Global Customer Support Security Practices are subject to change at Oracle's discretion; however, Oracle will not materially reduce the level of security specified in the Security Practices during the warranty period. To view changes that have been made, please refer to the attached [Statement of Changes](#) (PDF).

8. What the Oracle Hardware Limited Warranty Does Not Cover

Oracle does not provide any warranties for Hardware Products, operating system, integrated software, Software Media or Tape Media other than those described above. For software licensed by Oracle under a separate license agreement, you may be entitled to certain warranties as described in your software license agreement.

ORACLE DOES NOT WARRANT UNINTERRUPTED OR ERROR-FREE OPERATIONS OF ANY HARDWARE PRODUCTS, OPERATING SYSTEM, INTEGRATED SOFTWARE, SOFTWARE MEDIA OR TAPE MEDIA.

There is no warranty for any Hardware Product, operating system, integrated software, Software Media or Tape Media that has been (i) modified, altered or adapted without Oracle's written consent (including modification or removal of the Oracle/Sun serial number tag on the hardware); (ii) maltreated or used in a manner other than in accordance with the relevant documentation or specifications or Software Media or Tape Media failures resulting from misuse, abuse, accident, neglect or mishandling, improperly adjusted or maintained drives, or incorrect environments; (iii) repaired by any third party in a manner which fails to meet Oracle's quality standards; (iv) improperly installed by any party other than Oracle or an authorized Oracle certified installation

partner; (v) used with equipment or software not covered by an Oracle Warranty, to the extent that problems are attributable to such use; (vi) relocated, to the extent that problems are attributable to the relocation; (vii) used directly or indirectly in supporting activities prohibited by U.S. or other national export regulations; (viii) used by parties appearing on the most current U.S. export exclusion list; (ix) relocated to countries subject to U.S. trade embargo or restrictions; or (x) used remotely to facilitate any activities in the countries referenced in (ix) above; or (xi) purchased from any entity other than Oracle or an Oracle authorized distributor.

This Oracle Hardware Warranty does not apply to normal wear of the Hardware Products, Software Media or Tape Media. The Oracle Hardware Warranty is extended only to the original purchaser or original lessee of the Hardware Product and may be void in the event that title to the Hardware Product is transferred. The Oracle Hardware Warranty does not apply to any products with a prefix of "Y." Products with a prefix of "Y" can be found [here](#).

9. Third-Party Products

Installation of non-Oracle product by you, or your representative (other than by Oracle), into a Hardware Product is strongly discouraged due to the hardware warranty implications outlined below.

Oracle does not warrant any other third-party products installed into or attached to Hardware Products. Further, if third-party product is installed, or fails, in a manner that damages the Hardware Product, then the hardware warranty will not cover such damage. Replacement or repair of any damaged components in these situations would be subject to additional charges.

Installation of non-Oracle product into an Oracle Hardware Product may also impede and/or add costs in obtaining warranty services for certain failure conditions. Interoperability, timing, and intermittent failures are some examples of failure conditions that may require the removal or replacement of the third-party product from the Hardware Product.

For those failure conditions directly or indirectly related to third-party product (which would include any components accessing or connected to that product that are exhibiting failures), Oracle may, at its sole discretion, remove the third-party product, or require the customer to remove the third-party product, before commencing with the troubleshooting process. Oracle's services for removing the third-party product will be subject to additional charges.

If it is determined that the cause of the failure is the third-party product, then Oracle will charge for the entire service call.

If it is determined that the third-party product is not the cause of the failure (i.e., if the problem would have occurred even if third-party product was not installed in or attached to the Hardware Product), then Oracle's service call will be addressed under the terms of the Oracle Hardware Warranty; provided that the removal of any third-party product by Oracle will be subject to additional charges.

10. Limitations

To the extent not addressed in your order with Oracle or an Oracle-authorized distributor for the Hardware Products, operating system, integrated software, Software Media or Tape Media to which this Oracle Hardware Warranty applies, the following Limitations apply:

NEITHER PARTY WILL BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES, OR ANY LOSS OF PROFITS, REVENUE, DATA, OR DATA USE ARISING OUT OF OR RELATED TO THIS WARRANTY HOWEVER THEY ARISE, WHETHER IN CONTRACT OR TORT, OR OTHERWISE.

YOUR EXCLUSIVE REMEDY AND ORACLE'S ENTIRE LIABILITY FOR BREACH OF WARRANTY SHALL BE: (A) THE REPAIR OR, AT ORACLE'S OPTION AND EXPENSE,

REPLACEMENT OF THE DEFECTIVE PRODUCT, OR (B) IF SUCH REPAIR OR REPLACEMENT IS NOT REASONABLY ACHIEVABLE, YOU MAY RETURN THE DEFECTIVE PRODUCT FOR A REFUND OF THE FEES YOU PAID ORACLE FOR THE DEFECTIVE PRODUCT AND, IF APPLICABLE, THE REFUND OF ANY UNUSED PREPAID TECHNICAL SUPPORT FEES YOU HAVE PAID FOR THE DEFECTIVE PRODUCT. TO THE EXTENT NOT PROHIBITED BY LAW, THESE WARRANTIES ARE EXCLUSIVE AND THERE ARE NO OTHER EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS INCLUDING ANY WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Nothing in this Oracle Hardware Warranty affects any statutory rights of consumers or other purchasers that cannot be waived or limited by contract. This limited warranty gives you specific legal rights, and you may also have other rights which vary from state to state, country to country and jurisdiction to jurisdiction.

11. Contact Information

Phone numbers and contact information can be found on Oracle's support web site located [here](#).

Exhibit III

STANDARD AFFIRMATION AND DISCLOSURE FORM
EXECUTIVE ORDER 2011-12K

Governing the Expenditure of Public Funds on Offshore Services

All of the following provisions must be included in all invitations to bid, requests for proposals, state term schedules, multiple award contracts, requests for quotations, informal quotations, and statements of work. This information is to be submitted as part of the response to any of the procurement methods listed.

By the signature affixed hereto, the Contractor affirms, understands and will abide by the requirements of Executive Order 2011-12K. If awarded a contract, both the Contractor and any of its subcontractors shall perform no services requested under this Contract outside of the United States.

The Contractor shall provide all the name(s) and location(s) where services under this Contract will be performed in the spaces provided below or by attachment. Failure to provide this information may subject the Contractor to sanctions. If the Contractor will not be using subcontractors, indicate "Not Applicable" in the appropriate spaces.

1. Principal location of business of Contractor:

2310 West County Road D
(Address)

Roseville, MN 55112
(City, State, Zip)

Name/Principal location of business of subcontractor(s):

Brett Weninger
(Name)

104 Bristol Street, Castle Rock, CO 80104
(Address, City, State, Zip)

Russ Eberle
(Name)

18555 82nd Place N, Maple Grove, MN 55311
(Address, City, State, Zip)

2. Location where services will be performed by Contractor:

2310 West County Road D
(Address)

Roseville, MN 55112
(City, State, Zip)

Name/Location where services will be performed by subcontractor(s):

Brett Weninger
(Name)

104 Bristol Street, Castle Rock, CO 80104
(Address, City, State, Zip)

Russ Eberle
(Name)

18555 82nd Place N, Maple Grove, MN 55311
(Address, City, State, Zip)

3. Location where state data will be stored, accessed, tested, maintained or backed-up, by Contractor:

2310 West County Road D
(Address)

Roseville, MN 55112
(Address, City, State, Zip)

Name/Location(s) where state data will be stored, accessed, tested, maintained or backed-up by subcontractor(s):

(Name)

(Address, City, State, Zip)

(Name)

(Address, City, State, Zip)

(Name)

(Address, City, State, Zip)

(Name)

(Address, City, State, Zip)

(Name)

(Address, City, State, Zip)

Contractor also affirms, understands and agrees that Contractor and its subcontractors are under a duty to disclose to the State any change or shift in location of services performed by Contractor or its subcontractors before, during and after execution of any Contract with the State. Contractor agrees it shall so notify the State immediately of any such change or shift in location of its services. The State has the right to immediately terminate the contract, unless a duly signed waiver from the State has been attained by the Contractor to perform the services outside the United States.

On behalf of the Contractor, I acknowledge that I am duly authorized to execute this Affirmation and Disclosure form and have read and understand that this form is a part of any Contract that Contractor may enter into with the State and is incorporated therein.

**AMENDMENT TO THE STATE TERM SCHEDULE AGREEMENT # 534485
BY AND BETWEEN VASKE COMPUTER, INC. dba COLLIER IT
AND THE STATE OF OHIO
DEPARTMENT OF ADMINISTRATIVE SERVICES**

This is an Amendment to the Agreement by and between the State of Ohio, Department of Administrative Services (the "State") and Vaske Computer, Inc. dba Collier IT (the "Contractor"). This Amendment becomes a part of the Agreement as if written therein. Any terms and conditions of the Agreement not modified or change by this Amendment shall remain in full force and effect.

In consideration of the mutual promises and agreements exchanged the parties here to agree as follows:

For any Oracle software purchased through the Contractor under the Agreement, the attached Oracle MLA0024 will be the terms and conditions that govern the relationship between Contractor and the State for use of such software. If there are any conflicts between the terms and conditions of the State Term Schedule Agreement and Oracle MLA0024 terms and conditions, the latter shall take precedence.

For any Oracle hardware purchased through the Contractor under the Agreement, the attached Oracle Schedule H will be the terms and conditions that govern the relationship between Contractor and the State for use of such hardware. If there are any conflicts between the terms and conditions of the State Term Schedule Agreement and Oracle Hardware Schedule H terms and conditions, the latter shall take precedence.

Unless modified herein, all terms in the Agreement shall remain unchanged and in full force and effect.

IN WITNESS WHEREOF, the parties have executed this Agreement on the 3RD day of FEB, 2015.
