If not provided with the quotation, there will not be a minimum dollar amount for orders, and no transportation costs will be charged or paid.

For purchase orders placed that are less than the stated minimum order, transportation charges will be prepaid and added to the invoice by the Contractor to the delivery location designated by the ordering agency. Shipment is to be made by private or commercial freight service provider, air, rail, water, parcel post, express or commercial package delivery, whichever is the most economical and expeditious method for proper delivery of the item. Failure of the Contractor to utilize the most economical mode of transportation shall result in the Contractor reimbursing the ordering agency the difference between the most economical mode of transportation and the mode of transportation used by the Contractor. Failure to reimburse the ordering agency shall be considered as a default
