

Addendum A

Workforce Development Training and Technical Assistance Services No submission of a total dollar amount is required by vendors.

ODJFS is amending Section 4.5 E which reads: Compensation will be made on a reimbursement basis for the actual hours dedicated to each assigned project. All overhead and administrative costs must be configured into the hourly rates. The vendor will only invoice for each specific project when completed. Because the specific projects cannot be identified in advance, the Cost Proposal will consist of a cost summary that will include:

E. A total dollar amount for the project.

ODJFS's amendment to Section 4.5 E. of the RFP is: We are removing Section 4.5 E in which it asks for a total dollar amount for the project. **No submission of a total dollar amount is required by vendors**, as the number of hours a vendor will work on each project cannot be measured in advance.
