This RFP consists of five (5) parts, four (4) supplements and eleven (11) attachments totaling 127 consecutively numbered pages. Supplements are also attached to this RFP with a beginning header page. Please verify that you have a complete copy.

0A1293 Amendment #1 Issued June 7, 2021

OhioMHAS is seeking responses for an integrated, statewide Electronic Health Record (EHR) solution to replace the existing EHR system used in the six (6) regional hospitals throughout Ohio. The scope of services required includes data migration from the current EHR and implementation of Contractor EHR solution to include: project management, business transformation management, systems analysis and design, development, testing, training, implementation, integration/interfacing of other systems, stabilization, transition, operation, maintenance, go-live, post go-live assessment, and enhancement. Training of and knowledge transfer to the OhioMHAS staff is required throughout the project. To the extent possible, OhioMHAS is seeking a commercial-off-the-shelf (COTS) software solution with some level of customization that may be necessary to fulfill the requirements of this Project.

Although the current OhioMHAS EHR system is self-hosted, OhioMHAS requires a cloud-based or Contractor hosted solution. Therefore, offeror proposals must include pricing and planning for either a cloud-based or Contractor hosted solution. The selected Contractor will provide detailed planning, system design, development, implementation, training, testing, conversion, and documentation required to implement the proposed EHR solution.

In addition to seeking an EHR solution that meets its internal clinical and business needs, OhioMHAS requires a solution capable of interfacing with its other core software systems. OhioMHAS also seeks to explore partnerships and integration with external healthcare providers that also provide care to OhioMHAS residents, such as local hospitals. Please refer to the Integration tab (INT tab) of Supplement 2 for a list of potential interfaces.

Calendar of Events. The schedule for the RFP process and the Project is given below. The State may change this schedule at any time. If the State changes the schedule before the Proposal due date, it will do so through an announcement on the State Procurement Website's question and answer area for this RFP. The Website announcement will be followed by an amendment to this RFP, also available through the State's Procurement Website. After the Proposal due date and before the award of the Contract, the State will make schedule changes through the RFP amendment process. Additionally, the State will make changes in the Work schedule after the Contract award through the change order provisions in the General Terms and Conditions Attachment to this RFP. It is each prospective offeror's responsibility to check the Website question and answer area for this RFP for current information regarding this RFP and its Calendar of Events through award of the Contract.
