

**1.3 Objective:**

The ODPS is soliciting quotations for a Senior Network Analyst (Consultant) to provide an assessment of the current department network and provide best-practice designs for the future network based on requirements defined by the ODPS.

**2 Specifications****2.1 Scope of Work:**

Along with performing network analyses and generating the required deliverables, the Consultant will be responsible for coordinating all activities with the ODPS project manager, the OSHP network team and any other party involved in the project. It is the Consultant's responsibility to ensure the project is completed properly and on schedule.

**2.2 Mandatory and Preferred Requirements and Qualifications:**

The Contractor shall provide one (1) Senior Network Analyst (Consultant) that will work onsite at ODPS under the direction of the Information Technology Office (ITO). The proposed consulting resource must meet the following mandatory requirements in order to be eligible for consideration:

- 2.2.1 **Current Cisco Certified Network Professional (CCNP) and/or Cisco Certified Design Professional (CCDP) certification or greater (i.e. Expert Level Certification). \***
- 2.2.2 At least five (5) years of verifiable and demonstrable experience in network design and network administration within the past seven (7) years.
- 2.2.3 At least five (5) years of verifiable and demonstrable experience in Information Technology project management.
- 2.2.4 At least five (5) years of verifiable and demonstrable experience eliciting and defining user requirements through observation, interviews, and analysis.
- 2.2.5 At least five (5) years verifiable and demonstrable experience analyzing user requirements and conducting fit gap analysis.
- 2.2.6 Verifiable and demonstrable experience working with CISCO Works and/or EMC SMARTS.
- 2.2.7 At least three (3) years verifiable and demonstrable experience as a network administrator working with large networks [minimum of one hundred (100) or more WAN locations].
- 2.2.8 Verifiable and demonstrable experience working with Edge Service Routers (ESR) and Content Services switches.

Furthermore, it is **preferred**, but not required the candidate have one or more of the following qualifications / certifications:

- 2.2.9 Cisco Certified Internetwork Expert (CCIE) Certification.
- 2.2.10 Cisco Certified Design Expert (CCDE) Certification.

**Experience, including environments, must be fully documented.**

The proposed resource must demonstrate the following requirements in order to be eligible for further consideration:

- 2.2.11 The ability to collaborate with supporting resources across business and/or functional lines.
- 2.2.12 Excellent oral and written skills and possess strong meeting and work session facilitation skills.
- 2.2.13 The ability to work independently and as part of a team with the ability to manage time and resources to meet assigned deadlines.
