

<p style="text-align: center;">AMENDMENT 1 FOR RFP NUMBER 0A1070</p>

DATE AMENDMENT ISSUED: March 1, 2010

**RFP NUMBER: 0A1070
DATE ISSUED: February 17, 2010**

The State of Ohio, through the Department of Administrative Services, Information Technology Procurement Services, for the Ohio Department of Job and Family Services is requesting proposals for:

ODJFS Call Center Oversight Project

INQUIRY PERIOD BEGINS:	February 17, 2010
INQUIRY PERIOD ENDS:	March 9, 2010
OPENING DATE:	March 17, 2010
OPENING TIME:	1:00 P.M.
OPENING LOCATION:	Department of Administrative Services I.T. Procurement Services Bid Desk 4200 Surface Road Columbus, Ohio 43228

The attached is an Amendment for the RFP listed above. Please use the replacement page(s) contained in the Amendment to replace the corresponding page(s) previously in the RFP.

Specifications and requirements that have been revised are surrounded by bolded double asterisks and, when applicable, strikethrough.

During the technical evaluation, the State will calculate a point total for each Proposal it evaluates. At the sole discretion of the State, it may reject any Proposal receiving a significant number of zeros for sections in the technical portions of the evaluation. The State may select those offerors submitting the highest rated Proposals for the next phase. The number of Proposals that advance to the next phase will be within the State's discretion, but regardless of the number of Proposals selected, they always will be the highest rated Proposals from this phase.

At any time during this phase, in the State's sole discretion, it may ask an offeror to correct, revise, or clarify any portions of its Proposal.

The State will document all major decisions and make these a part of the Contract file, along with the evaluation results for each Proposal considered.

Requirements. Attachment One provides requirements the State will use to evaluate the Proposals, including any mandatory requirements. If the offeror's Proposal meets all the mandatory requirements, the offeror's Proposal may be included in the next phase of the evaluation, which will consider other requirements described in a table in Attachment One.

In the case of any requirements for a team of people the offeror is proposing, the offeror must submit a team to do the Work that collectively meets all the team requirements. But the experience of multiple candidates may not be combined to meet a single requirement. ~~**Further, previous experience of the candidate submitted for a Work Manager position may not be used to meet any other team member requirements.**~~ Each candidate proposed for the Work team must meet at least one of the requirements.

This RFP asks for responses and submissions from offerors, most of which represent components of the requirements in Attachment One. While each requirement represents only a part of the total basis for a decision to award the Contract to an offeror, a failure by an offeror to make a required submission or meet a mandatory requirement normally will result in a rejection of that offeror's Proposal. The value assigned above to each requirement is only a value used to determine which Proposal is the most advantageous to the State in relation to the other Proposals that the State received. It is not a basis for determining the importance of meeting that requirement.

If the State does not receive any Proposal that meets all the mandatory requirements, the State may cancel this RFP. Alternatively, if the State believes it is in its interest, the State may continue to consider the highest-ranking Proposals despite their failure to meet all the mandatory requirements. In doing this, the State may consider one or more of the highest-ranking Proposals. But the State may not consider any lower-ranking Proposals unless all Proposals ranked above it are also considered, except as provided below.

In any case where no Proposal meets all the mandatory requirements, it may be that an upper ranking Proposal contains a failure to meet a mandatory requirement the State believes is critical to the success of the RFP's objectives. When this is so, the State may reject that Proposal and consider lower ranking Proposals. Before doing so, the State may notify the offeror of the situation and allow the offeror an opportunity to cure its failure to meet that mandatory requirement.

If the offeror cures its failure to meet a mandatory requirement the State has deemed critical to the success of the RFP's objectives, the State may continue to consider the offeror's Proposal. But if the offeror is unwilling or unable to cure the failure, its Proposal may be rejected. The State then may continue to consider the other remaining Proposals, including, if the State so chooses, Proposals that ranked lower than the rejected Proposal.

Cost Evaluation. Once the technical merits of the Proposals are considered, the State may consider the costs of one or more of the highest-ranking Proposals. But it is within the State's discretion to wait until after any interviews, presentations, and demonstrations to evaluate costs. Also, before evaluating the technical merits of the Proposals, the State may do an initial review of costs to determine if any Proposals should be rejected because of excessive cost. And the State may reconsider the excessiveness of any Proposal's cost at any time in the evaluation process.

requirements must be met by a Work team that collectively meets the team requirements in this RFP, as demonstrated through the Personnel Profile Summary Forms. The offeror must name all candidates proposed, no more than a total of eight (8), and each must meet the technical experience for the candidate's position or meet a team requirement.

The State will not consider a candidate's overlapping months of experience toward meeting the experience requirements in this RFP. Therefore, for each requirement for a key position, the Personnel Profile Summary Forms for the candidate must demonstrate that the candidate meets the requirement through a work experience that does not overlap in time with any other work experience used to meet the same requirement for the position.

The offeror must demonstrate that all candidate requirements have been met by using the Personnel Profile Summary Forms. The various sections of the forms are described below:

- a) Candidate References. If the offeror provides less than three work experiences, the offeror must explain why. The State may reject the Proposal if less than three work experiences are given for a candidate.
- b) Education and Training. The offeror must use this section to list the education and training of the proposed candidate and demonstrate, in detail, the proposed candidate's ability to properly perform under the Contract. The offeror must show how the candidate's education and training relates to the requirements of the RFP.
- c) Required Experience and Qualifications. The offeror must complete this section to show how its candidate meets the experience requirements. (Refer to Attachment Eight.)

For each reference, the offeror must provide the following information:

- Candidate's Name.
- Contact Information. The offeror must provide a client contact name, title, phone number, email address, company name, and mailing address. The offeror also must include the same information for an alternate client contact, in case the State cannot reach the primary contact. Failure to provide this information or providing information that is inaccurate or out of date may result in the State not including the reference in the evaluation process or rejecting the offeror's Proposal. The contact information given must be for a person within the client's organization and not a co-worker or a contact within the offeror's organization, subsidiaries, partnerships, etc.
- Dates of Experience. The offeror must complete this section with a beginning month and year and an ending month and year to show the length of time the candidate performed the technical experience being described, not just the length of time the candidate worked for the company.
- Description of the Related Service Provided. The State does not assume that, since the technical requirement is provided at the top of the page, all descriptions on that page relate to that requirement. Offerors must reiterate the technical experience being described, including the capacity in which the experience was performed and the role of the candidate in the work as it relates to the Work covered by this RFP. It is the Offeror's responsibility to customize the description to clearly substantiate the candidate's qualification.

The candidate's work experience must be listed separately and completely every time it is referenced, regardless of whether it is on the same or different pages of the form.

Time Commitment. The offeror must submit a statement and a chart that clearly indicate the time commitment of the proposed Project Lead and the offeror's proposed team members for the Work. The offeror also must include a statement indicating to what extent, if any, the ****Work Manager Project Lead**** may work on other tasks or assignments unrelated to the Work during the term of the Contract. The State may reject any Proposal that commits the proposed Project Lead or any proposed personnel to other assignments

a Change Order under the Changes Section of this Contract, and the extension of time and equitable adjustment will be the exclusive remedies of the Contractor for the State's delay.

The State seeks a complete solution to what the Work is intended to accomplish, and the Contractor must provide any incidental items omitted in the RFP Documents as part of the Contractor's not-to-exceed fixed price. All required components and processes for the Work to be complete and useful to the State are included in the Work and the not-to-exceed fixed price, unless the RFP expressly provides otherwise.

Compensation. In consideration of the Contractor's promises and satisfactory performance, the State will pay the Contractor the amount(s) identified in the RFP Documents (the "Fee"), plus any other expenses identified as reimbursable in the RFP Documents. In no event, however, will payments under this Contract exceed the "not-to-exceed" amount in the RFP Documents without the prior, written approval of the State and, when required, the Ohio Controlling Board and any other source of funding. The Contractor's right to the Fee is contingent on the complete and satisfactory performance of the Work or, in the case of milestone payments or periodic payments of an hourly, daily, weekly, monthly, or annual rate, all relevant parts of the Work tied to the applicable milestone or period. Payment of the Fee also is contingent on the Contractor delivering a proper invoice and any other documents the RFP Documents require. An invoice must comply with the State's then current policies regarding invoices and their submission. The State will notify the Contractor in writing within 15 business days after it receives a defective invoice of any defect and provide the information necessary to correct the defect.

The Contractor must send all invoices under this Contract to the "bill to" address in the RFP Documents or in the applicable purchase order.

The State will pay the Contractor interest on any late payment, as provided in Section 126.30 of the Ohio Revised Code (the "Revised Code"). If the State disputes a payment for anything covered by an invoice, within 15 business days after receipt of that invoice, the State will notify the Contractor, in writing, stating the grounds for the dispute. The State then may deduct the disputed amount from its payment as a nonexclusive remedy. If the Contractor has committed a material breach, in the sole opinion of the State, the State also may withhold payment otherwise due to the Contractor. Both parties will attempt to resolve any claims of material breach or payment disputes through discussions among the ****Work Manager Project Lead****, the Contractor's executive responsible for the Work, the Work Representative, and the State Contract Management Administrator. The State will consult with the Contractor as early as reasonably possible about the nature of the claim or dispute and the amount of payment affected. When the Contractor has resolved the matter to the State's satisfaction, the State will pay the disputed amount within 30 business days after the matter is resolved. The State has no obligation to make any disputed payments until the matter is resolved, and the Contractor must continue its performance under this Contract pending resolution of the dispute or claim.

If the State has already paid the Contractor on an invoice but later disputes the amount covered by the invoice, and if the Contractor fails to correct the problem within 30 calendar days after written notice, the Contractor must reimburse the State for that amount at the end of the 30 calendar days as a nonexclusive remedy for the State. On written request from the Contractor, the State will provide reasonable assistance in determining the nature of the problem by giving the Contractor reasonable access to the State's facilities and any information the State has regarding the problem.

If the RFP Documents provide for any retainage, the State will withhold from each invoice paid the percentage specified in the RFP Documents as retainage. The State will pay the retainage only after the State has accepted all the Work and then only in accordance with the payment schedule specified in the RFP Documents. The State will withhold all amounts under this section arising from claims or disputes in addition to any retainage specified in the RFP Documents.

Reimbursable Expenses. The State will pay all reimbursable expenses identified in the RFP Documents, if any, in accordance with the terms in the RFP Documents and, where applicable, Section 126.31 of the Revised Code. The Contractor must assume all expenses that it incurs in the performance of this Contract that are not identified as reimbursable in the RFP Documents.

case of suspension of the Work rather than termination for cause, the Contractor will not be entitled to any compensation for any work performed. If the State reinstates the Work after suspension for cause, rather than terminating this Contract after the suspension, the Contractor may be entitled to compensation for work performed before the suspension, less any damage to the State resulting from the Contractor's breach of this Contract or other fault. Any amount due for work before or after the suspension for cause will be offset by any damage to the State from the default or other event giving rise to the suspension.

In the case of a suspension for the State's convenience, the State will calculate the amount of compensation due to the Contractor for work performed before the suspension in the same manner as provided in this section for termination for the State's convenience. The Contractor will not be entitled to compensation for any other costs associated with a suspension for the State's convenience, and the State will make no payment under this provision to the Contractor until the Contractor submits a proper invoice. If the State decides to allow the Work to continue rather than terminating this Contract after the suspension, the State will not be required to make any payment to the Contractor other than those payments specified in this Contract and in accordance with the payment schedule specified in this Contract for properly completed Work.

Any notice of suspension, whether with or without cause, will be effective immediately on the Contractor's receipt of the notice. The Contractor will prepare a report concerning the Work just as is required by this Section in the case of termination. After suspension of the Work, the Contractor may not perform any Work without the consent of the State and may resume the Work only on written notice from the State to do so. In any case of suspension, the State retains its right to terminate this Contract rather than to continue the suspension or resume the Work. If the suspension is for the convenience of the State, then termination of the Contract will be a termination for convenience. If the suspension is with cause, the termination will also be for cause.

The State may not suspend the Work for its convenience more than twice during the term of this Contract, and any suspension for the State's convenience may not continue for more than 30 calendar days. If the Contractor does not receive notice to resume or terminate the Work within the 30-day suspension, then this Contract will terminate automatically for the State's convenience at the end of the 30 calendar day period.

Any default by the Contractor or one of its subcontractors will be treated as a default by the Contractor and all of its subcontractors. The Contractor will be solely responsible for satisfying any claims of its subcontractors for any suspension or termination and must indemnify the State for any liability to them. Notwithstanding the foregoing, each subcontractor must hold the State harmless for any damage caused to them from a suspension or termination. They must look solely to the Contractor for any compensation to which they may be entitled.

Representatives. The State's representative under this Contract will be the person identified in the RFP Documents or in a subsequent notice to the Contractor as the "Work Representative." The Work Representative will review all reports the Contractor makes in the performance of the Work, will conduct all liaison with the Contractor, and will accept or reject the Deliverables and the completed Work. The Work Representative may delegate his or her responsibilities for individual aspects of the Work to one or more managers, who may act as the Work Representative for those individual portions of the Work.

The Contractor's ~~**Work Manager Project Lead**~~ under this Contract will be the person identified on the RFP Documents as the ~~**"Work Manager" "Project Lead**"~~. The ~~**Work Manager Project Lead**~~ will be the Contractor's liaison with the State under this Contract. Additionally, the ~~**Work Manager Project Lead**~~ will conduct all Work meetings and prepare and submit to the Work Representative all reports, plans, and other materials that the RFP Documents require from the Contractor.

Either party, upon written notice to the other party, may designate another representative. However, the Contractor may not replace the ~~**Work Manager Project Lead**~~ without the approval of the State if that person is identified in the RFP Documents by name or as a key individual on the Work.
