April 6th, 2010

The State of Ohio and Staples have created an informational website for our new office supplies contract. The site contains useful information about the contract and program including Frequently Asked Questions, Contact Information, Toner Recycling, Returns, Returns Processing, MBE/WBE Applicability for the state of Ohio and a link to a short training tutorial on how to use Staples online contract ordering website www.StaplesLink.com

Below is a link to informational website. Please browse around and familiarize yourself with it and feel free to pass the information along to any of your co-workers who order office supplies.
