NP Heated Emulsion Storage Tanks

1,500 Gallon Tank

Specifications:

NP1000S 1000 gallon capacity 120" L x 54" Dia
NP1500S 1500 gallon capacity 124" L x 64" Dia
NP2000S 2000 gallon capacity 136" L x 72" Dia
NP2500S 2500 gallon capacity 140" L x 84" Dia
Tanks meet ASME section VIII division 1 standards
Minimum 2" foam insulated exterior
Thermostatically controlled heat system with high limit cutoff
(2) 220 volt 1000 watt heat blankets 10 amps draw
Programmable striation system 4 amps draw
Requires NEMA 6-50R 50A-250V plug total draw 14 amps
Tank contents gauge
Pressurized off-loading system
2" loading hose
16"x20" inspection hatch
Tank cradle mounted
Convenient operator's platform included
Tank equipped with lifting eyes

Options:

13' L x 8' W x 24" H Steel Dike
