Price List Effective March 2014

ProCoat Clear Topcoat is a non-immersible, high performance, zero VOC coating that provides a continuous high or low gloss finish, eliminating the need to strip, wax and buff floors. This system is easily maintained through good housekeeping procedures and is re-coatable and repairable to change or restore the original appearance. There's no more need for machines or harsh chemicals – just a damp mop. ProCoat can be used as a low maintenance/high wear system.

D&D WALL COATING:

D&D's wall coating outperforms others in adhesion, durability, gloss retention, chemical resistance and graffiti resistance. D&D's coating is a superior system designed to protect surfaces against weathering, UV exposure, rust, chemical impact and graffiti damage. This two-part aliphatic polyurethane has the combined properties of a solvent-based coating in a water-based formulation. It's ZERO VOC, odorless, and the most environmentally conscious coating on the market. Easy to use in both interior and exterior applications, D&D's wall coating is available in clear satin or gloss, and an array of custom colors.
