

**VENDOR QUESTIONS AND ANSWERS
R-05-17-1192**

**Ohio's Best Rx Program Administrator
Q & A period: May 14, 2004- May 25, 2004**

Final Question and Answer Document

May 18, 2004

Barry Rosenthal
Express Scripts, Inc.
Bloomington, MN

- Q1.** We have taken a quick look at the revised RFP (R-05-17-1192) for Ohio's Best Rx Program Administrator. From our initial review we do not see significant differences in terms of requirements between the previous RFP and the new one. It would be very helpful for us if, as soon as possible, you could highlight differences between the previous and current RFPs so we make sure we do not miss anything that would affect our assessment of the costs and opportunities related to this program. With only a few weeks to respond and considerable work involved in developing a response, we need to make a decision within the next few days whether to bid on this if we are going to be able to prepare a proposal in time. Thank you for your assistance.
- A1.** The newly released RFP for the Ohio's Best Rx Program Administrator, R-05-17-1192, must be reviewed and evaluated on its own merits. Any comparison a vendor chooses to do between this RFP and the previous, related RFP is done at the vendor's own risk. The previous RFP has been canceled and nothing from it will be considered in the evaluation of proposals received in response to R-05-17-1192. Moreover, a change that one vendor determines to be insignificant may in fact be significant to another vendor. For all of these reasons, ODJFS urges every vendor to consider the current opportunity completely on its own merits.

**THIS CONCLUDES THE FINAL ODJFS QUESTION & ANSWER DOCUMENT
FOR ODJFS RFP # R-05-17-1192.**
